Table of Contents

FINANCIAL QUESTIONS – EQUIPMENT	2
1. Please provide a copy of the audited financial statements for the three previous fiscal years and the last quarterly report if one exists for the Equipment Provider. Statements must include auditor’s letter of opinion, auditor’s notes, balance sheet, and statement of income/loss. Each prime or joint venture partner must submit this information. The City reserves the right to accept alternative information and/or documentation submitted by the Vendor.	2
2. Please show the total number of bicycles, stations and helmet dispensing units, including software, the City will receive for \$5 million.	2
3. Please provide a unit price for the following items that may be purchased additionally throughout the term of the contract.	2
4. Using a copy of the inventory list created in your response to Technical Proposal Question 17, please provide a price for each part listed.	3
5. Please provide a price for software services on a per station or per bike per month basis. Please add to the template provided.	4
6. If there are any additional fees to be charged, not previously mentioned, please describe each in detail, including, without limitation, the anticipated frequency and reasons for incurring such fees, with the amount. Please add the total of these fees to the template provided.	4
7. Describe any discounts you offer for large or bulk orders? Is the discount cumulative of per order only?	4
8. Please describe your requested payment terms? Please confirm that the payment terms as part of this financial proposal the best terms offered by your organization to any purchaser, anywhere.	4
9. Please confirm that you accept the following terms and conditions as follows:	5
10. Is there any additional information we have not asked or you would like to add?	5
Financial Template – Equipment Costs	6
FINANCIAL QUESTIONS - OPERATIONS	9
1. Please provide a copy of the audited financial statements for the three previous fiscal years and the last quarterly report if one exists for the Operator. Statements must include auditor’s letter of opinion, auditor’s notes, balance sheet, and statement of income/loss. Each prime or joint venture partner must submit this information. The City reserves the right to accept alternative information and/or documentation submitted by the Vendor.	9
2. Please describe your proposed financial model and include a pro-forma. Please include:	9
3. Please provide detailed projections of trips, memberships and revenue for the term of this contract? Please explain your methodology and why your model is reliable.	10
4. Submit a detailed cash flow analysis itemizing the revenues and expenses anticipated over the term of the Contract. Analysis should include income and cash flow statements, by month for the first two (2) years, then by year.	10
5. Please describe your contingency plan in case the trip, member, revenue or cost projections are not realized. Do you guarantee a minimum amount of trips, members or system revenue?	10
6. How will you charge for sponsorship services? How does your rate differ for contracted sponsors for which the City provided the initial introduction and/or was actively involved in negotiations?	10
7. If the City terminates early for convenience, what costs will be required to be paid by the City?	10
8. Are there any operations elements of a turnkey system not included in your fees that would require additional payments? Please describe each, including, without limitation, the anticipated frequency and reasons for incurring such fees, with the amount.	10
9. Please describe your requested payment terms for operations?	11
10. Is there any additional information we have not asked or you would like to add?	11
Financial Template – Operations Cash Flow	12

FINANCIAL QUESTIONS – EQUIPMENT

1. Please provide a copy of the audited financial statements for the three previous fiscal years and the last quarterly report if one exists for the Equipment Provider. Statements must include auditor's letter of opinion, auditor's notes, balance sheet, and statement of income/loss. Each prime or joint venture partner must submit this information. The City reserves the right to accept alternative information and/or documentation submitted by the Vendor.

For the required audited financial statements, please see the enclosed envelope marked "Bikeshare Program RFP TRN # 3599 Financial Statements Confidential".

2. Please show the total number of bicycles, stations and helmet dispensing units, including software, the City will receive for \$5 million.

Below are the total numbers for the provision and installation of all hardware and software for a complete public bike-share system based on the provision:

- ⚡ 1200 Pedelec (electric assist) bicycles
- ⚡ 2400 charging docks (ratio of 2 docks per bike)
- ⚡ 100 bike-share stations
- ⚡ 100 helmet dispensing units
- ⚡ The IT infrastructure for a fully integrated system (including complete back office operations with billing, communications and information technology services), site planning, installation, testing and go-live.

Please note that our costs include an estimated \$10,000 per station for connecting to the City's grid system. Our financial model is based on the City's assuming these costs up-front, and Bewegen will amortize these costs over the period of the contract.

A. Total must include any installation and/or launch costs attributed to the City

Yes, the totals include all installation and launch costs attributed to the City.

B. Does this total include any cash or in-kind contributions from your organization to cover capital and/or launch costs? If yes, how many additional units of equipment will be provided?

Yes, to show Bewegen's **sincere and heartfelt belief** in this project, this total includes **25% of in-kind equipment contribution** from Bewegen. This will ensure that the Seattle system launches with a system that is appropriate to the size and requirements of a City of such magnitude. Specific details are shown in "Financial Template – Equipment Costs" table attached below.

Furthermore, most of the Premium Services identified by the City of Seattle are included in the presented budget. Bewegen's marketing team will take care of all launch activities at no extra cost to the City. The value of the marketing activities for the main launch is estimated at \$25,000.00.

3. Please provide a unit price for the following items that may be purchased additionally throughout the term of the contract.

A. All models of bicycle share stations, bicycles and helmet dispensing units described in the Technical Proposal. Please add to the template provided.

The unit prices are shown in "Financial Template – Equipment Costs" table.

B. Major station components such as terminal, dock, map frame, platform, etc. Please add to the template provided.

The unit prices are shown in "Financial Template – Equipment Costs" table.

4. Using a copy of the inventory list created in your response to Technical Proposal Question 17, please provide a price for each part listed.

5. Please provide a price for software services on a per station or per bike per month basis. Please add to the template provided.

The price for software services is \$15.00 per month on a per bike basis.

6. If there are any additional fees to be charged, not previously mentioned, please describe each in detail, including, without limitation, the anticipated frequency and reasons for incurring such fees, with the amount. Please add the total of these fees to the template provided.

There are not additional fees to be charged within the normal scope of operations. Fees may arise for additional services for unplanned events, such as station relocation or other requirements that fall outside of the normal scope of day-to-day operations.

7. Describe any discounts you offer for large or bulk orders? Is the discount cumulative of per order only?

Bewegen is providing a 10% discount on all equipment of Seattle's bike-sharing system. This discount is given on a per order basis.

Spare Parts bulk discounts will be applied respecting the following metrics: a 0.5% discount will be applied when a quantity of 50 units are ordered and a 2% discount will be applied when a quantity of 100 units are ordered. If orders are placed in larger quantities, the parties shall discuss additional volume discounts.

8. Please describe your requested payment terms? Please confirm that the payment terms as part of this financial proposal the best terms offered by your organization to any purchaser, anywhere.

Because of the exceptional discounts and in-kind contributions provided by Bewegen, our company would appreciate milestone payments to cover our up-front costs for the bike-share system implementation. If this is not a possibility, Bewegen will accept payment net 30 days after receipt and acceptance of satisfactory compliance.

9. Please confirm that you accept the following terms and conditions as follows:

A. Are the prices provided as part of this financial proposal the best prices offered by your organization to any purchaser, anywhere? Are the prices consistent with most-favored nation?

Yes, confirmed.

B. Do the prices set forth in your response include cost to manufacture, produce, deliver, provide training, support, upgrades on and general improvements to bicycle share stations, bicycles and/or helmet dispensing units, including all parts thereof?

Yes, confirmed.

C. Does the software service fee include hosting, training, support, upgrades and continual improvements?

Yes, confirmed.

D. In the event of any late delivery due to subcontractor and/or supplier late delivery to the Successful Respondent, will any benefit (such as decreased costs) received by the Successful Respondent for such late delivery be paid over and/or fully passed through to the City?

Yes, confirmed.

10. Is there any additional information we have not asked or you would like to add?

Bewegen does not have any additional information to add.

1 The City reserves the right to purchase any quantity of equipment at these prices, unless Proposer specifies a minimum

2 Shipping and customs costs must be included with all prices.

3 All prices in USD

4 The prices provided in column 4 will represent unit prices for launch equipment and any additional equipment purchases thereafter, unless otherwise specified by the Proposer.

FINANCIAL QUESTIONS - OPERATIONS

1. Please provide a copy of the audited financial statements for the three previous fiscal years and the last quarterly report if one exists for the Operator. Statements must include auditor's letter of opinion, auditor's notes, balance sheet, and statement of income/loss. Each prime or joint venture partner must submit this information. The City reserves the right to accept alternative information and/or documentation submitted by the Vendor.

Corps Logistics LLC is a young company that was recently incorporated. Bewegen Technologies holds a 49% stake in Corps Logistics; please see the enclosed envelope marked "Bikeshare Program RFP TRN # 3599 Financial Statements Confidential" for financial statements relating to Bewegen and its parent company.

2. Please describe your proposed financial model and include a pro-forma. Please include:

Please note that we have distributed the annual revenue and costs equally over each month. This was done for clarity and to simplify the calculations. Bewegen knows that there are important seasonal variances in system usage and have the set up and flexibility to resource according to requirements.

Also note that a 2% estimated consumer price index factor is added for 2019 and then for each subsequent year. This will be reviewed early and adjusted in line with local, City or state, CPI.

A. What financial responsibility is assumed by the Contracted Respondent? What is assumed by the City?

Bewegen has every confidence that the financial model proposed for the system of Seattle will generate the projected profits. The difference between Options A and B lies in the financial responsibility assumed by the City of Seattle.

In Option B, Bewegen will assume full financial responsibility for the complete operations of the system, and will cover all operational costs from the revenues generated by sponsorship and user fees. In the event of a shortfall, the City of Seattle would assume none of the financial risk. This model attributes 50% of profits generated towards system expansion, up to system maturity.

B. How does your model attribute system and sponsor revenue?

Bewegen has every confidence that the financial model proposed for the system of Seattle will generate the projected profits. For Option B, Bewegen will keep all revenues. Bewegen commits to investing 50% of any profits made after operational costs have been covered in **expanding the bike-share system in Seattle**, up to system maturity.

C. What prices will you charge to users to consumers?

To facilitate simple transition between systems, Bewegen suggests adhering to the existing price model for the Pronto system (see following photos). One addition that we would like to implement would be increasing the included trip time from 30 minutes to 45 minutes to account for the breadth of the system.

Membership Pricing	
Annual Membership - monthly payments	\$7.95/month
Annual Membership - one time payment	\$85
Seniors (65+)	\$68

Usage Fees	
0 - 45 minutes of each trip	INCLUDED - no charge
45 - 75 Minutes	\$2.00
Each additional 30 minutes	+\$5.00

Usage Fees	
0 - 30 minutes of each trip	INCLUDED - no charge
30 - 60 Minutes	\$2.00
Each additional 30 minutes	+\$5.00

24-hour	\$8
3-Day	\$16
24-Hour & 3-Day Passes	

D. What decision making authority does your organization require relative to service area, pricing and/or other elements in the scope of work?

For Option B, as Bewegen carries all of the financial risk, our company would hold decision making authority for all decisions impacting service area, pricing, and other elements included in the scope of work. Bewegen will nonetheless work in close partnership with the City of Seattle to ensure that the goals and objectives of the City are reflected in its bike-share system.

3. Please provide detailed projections of trips, memberships and revenue for the term of this contract? Please explain your methodology and why your model is reliable.

Based on the City of Seattle's preliminary model to predict trips, membership and revenue, Bewegen has devised the following projections of trips, memberships and revenues for our system of 1200 bikes. The preliminary projections are as follows:

- Annual Members: 9,600
- Casual Members: 102,000
- Casual trips to Member trips: 28
- Total Revenue (User Fees and Members): \$1.68M
- Total trips: Up to 1,044,000

4. Submit a detailed cash flow analysis itemizing the revenues and expenses anticipated over the term of the Contract. Analysis should include income and cash flow statements, by month for the first two (2) years, then by year.

See "Financial Template – Operations Cash Flow" for a detailed cash flow analysis itemizing the revenues and expenses.

5. Please describe your contingency plan in case the trip, member, revenue or cost projections are not realized. Do you guarantee a minimum amount of trips, members or system revenue?

Bewegen's projections as to user and sponsorship revenue are **conservative in nature**, and based on years of experience across multiple bike-share systems. Furthermore, Bewegen's Pedelec (electric assist) bicycles have proven to be particularly effective at drawing in and retaining high usage and associated sponsorship. We are confident that the projections outlined will be realized.

For Options A & B, in the event that projections are not realized, Bewegen will scale our operations and resourcing to ensure that the system remains financially sustainable.

6. How will you charge for sponsorship services? How does your rate differ for contracted sponsors for which the City provided the initial introduction and/or was actively involved in negotiations?

For Option B, Bewegen will retain Effix Inc. as its preferred sponsorship acquisition partner. A normal commission rate of 20% will apply for sponsorship services. If the contracted sponsor was initially introduced by the City, a commission rate of 15% will apply for sponsorship services.

7. If the City terminates early for convenience, what costs will be required to be paid by the City?

Costs required to be paid by the City in the event of an early termination will be the normal exit costs. These include: purchasing of assets, severance pay for staff, cancellation costs for leasing, and all other costs incurred. Bewegen intends **no contractual penalties** to be included for early termination for convenience.

8. Are there any operations elements of a turnkey system not included in your fees that would require additional payments? Please describe each, including, without limitation, the anticipated frequency and reasons for incurring such fees, with the amount.

No, all operations elements are included.

9. Please describe your requested payment terms for operations?

We anticipate that 25% of the first year contract is paid 3 months prior to beginning operations. The remaining 75% is to be paid monthly in equal parts. Following the first year, operational payments will be paid in equal parts on a monthly basis.

10. Is there any additional information we have not asked or you would like to add?

Please note that the costs quoted in the ECONOMIES OF SCALE section of the "Financial Template – Operations Cash Flow" are based on 2018 full year costs. Future years would have an increase in line with the consumer price index.

Most of the Premium Services identified by the City are already included in our prices. Our quote is for Bewegen to provide a world class operations service to Seattle. Our teams' years of experience means we are confident in our quote and we will ensure that the correct resources are available to deliver the highest levels of service. Bewegen will work in partnership with the City of Seattle to ensure excellent service at all times. This includes attending special events and sending appropriate staff to help manage these. The price shown in the UNIT PREMIUM SERVICES section of the "Financial Template – Operations Cash Flow" are therefore for exceptional circumstances only, outside the normal events which take place in the City.

Financial Template - Operations Cash Flow

Expenses and revenue based on the number of stations, docks and bikes proposed for launch in your Equipment Proposal. Please list

Financial Template - Operations Cash Flow

Expenses and revenue based on the number of stations, docks and bikes proposed for launch in your Equipment Proposal. Please list

AA1	Number of Bikes	1200
AA2	Number of Docks	2400
AA3	Number of Stations	100

From Financial Template, Colmn 6 "Total Units Purchased/Provided"

ECONOMIES OF SCALE

G1	Operations cost/fee per bike month (1500-1999 bikes total)	It is believed there are economies of scale to operaitons. Section G below suggests the operator provide a discount on the operations cost per dock-month that will apply to ALL stations in the system, not just new stations as the system expands.	159
G2	Operations cost/fee per bike month (2000-2499 bikes total)		154
G3	Operations cost/fee per bike month (2500+ bikes total)		150

UNIT PREMIUM SERVICES

The following section should be filled out for any model in which a separate fee is required for these or other services. The City still requests you show show an estimated fees. The City will pay the following services as actual direct costs plus management fee/overhead/profit at the percent listed above with labor paid at regular hourly rates for the individuals. The fee is intended as a not-to-be-exceeded estimate.

			Estimated Unit Cost
H1	Launch fee (per station)	Per station Includes assembly, set up,	
H2	Station move	Per station	816
H3	Station Reconfiguration	Per station	204
H4	Additional rebalancing truck	Per month lease price	1367
H5	Additional rebalacing bike trailer	Purchase price	1200
H6	Station Siting and Permitting (Additional)	Per stations	680
H7	Premium rebalancing service levels	as described in 7.6	26\$/hres
