### Arboretum North Entry Mitigation

<b>Project No:</b>	MC-PR-61004	<b>BSL Code:</b>	BC-PR-60000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	SR520 Mitigation
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides funding for new park development of the WSDOT Peninsula. This project is funded from a settlement agreement (GCB 3564) with the Washington State Department of Transportation (WSDOT), which authorizes the City to complete real property transactions and accepts the mitigation contribution toward the Arboretum North Entry Project, such settlement agreement facilitating WSDOT acquiring the required property rights for bidding the SR 520 Portage Bay Bridge Roanoke Lid Project in 2023. This project develops a park at the WSDOT Peninsula (the site of WSDOT's current SR520 field office), including realigning lake Washington Blvd., extending the multi-use trail to the Montlake Lid, and daylighting arboretum creek along with the associated pedestrian/vehicular bridges. The majority of the project will be implemented after WSDOT completes its work, 12/31/2031.

This project renovates the portion of the trail from the former MOHAI parking lot to the western edge of Foster Island. Project elements include upland and wetland restoration, invasive species removal, native plant re-vegetation, and related repairs. This restoration will improve the health of the ecosystem and provide a more enjoyable pedestrian and bicycling experience.

### Beach Restoration Program

<b>Project No:</b>	MC-PR-41006	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides for periodic beach renourishment and related work at selected sites throughout the City. Work includes, but is not limited to, laying sand and gravel to replenish beaches that have eroded in recent years and to improve substrate for juvenile salmon habitat. This project supports the Restore Our Waters Strategy to improve Seattle's aquatic environments. Note: this Master Project is not funded in the future CIP; however this ongoing work will continue in future years to be fund out of the Major Maintenance Backlog & Asset Management Master Project.

<b>Total Project Cost:</b>	\$12,239	<b>Urban Village:</b>	University District

This project, funded with monies from the University of Washington and the Washington State Department of Transportation, remediates and develops a replacement park site at 1101 NE Boat Street for lands lost at the Washington Park Arboretum and East Montlake Park for the development of the new State Route 520 Bridge and HOV project, I-5 to Medina. Improvements include demolition, site remediation, design, and development of a new waterfront park. The replacement park continues to serve city-wide park needs. This replacement park has been re-named to "Fritz Hedges Waterway Park".

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project provides funding for improvements at all parks and recreation community centers. Typical improvements include renovation, upgrades, or replacement of major building systems, roof and building envelopes, seismic upgrades, painting, energy efficient lighting and other environmentally sustainable building components, Americans with Disabilities (ADA) access improvements, and related work. In some instances, facilities will be replaced or remodeled to improve programming space. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, improve the overall community center experience for the public, and meet today's and future recreation needs.

**Emma Schmitz Sea Wall Replacement-2008 Levy**

<b>Project No:</b>	MC-PR-16008	<b>BSL Code:</b>	BC-PR-10000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	2008 Parks Levy
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	4503 Beach DR SW
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2014 - 2024	<b>Neighborhood District:</b>	Southwest
<b>Total Project Cost:</b>	\$1,400	<b>Urban Village:</b>	Not in an Urban Village

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, is Seattle Parks' share of the replacement of the seawall which was failing. The Army Corps of Engineers funded a study to determine the best option for replacement or repair of the seawall. The new seawall will minimize the impact on the beach, address rising seawater, and create better contours for the restoration landscaping on the landward portion of the overlook area. Parks and the Army Corps will share the costs of the project (Parks 35% and Army Corps 65%).

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Lake Union
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project supports the overall cleanup efforts at the Gas Works Park site (including the uplands and sediments), provides ongoing efforts to ensure the measures constructed for remediation of soils at Gas Works Park remain effective. Activities include maintenance and operation of soil cap and other institutional controls; and other related work. All measures of the project must be executed in accordance with the Consent Decree established in 1998, requiring Seattle Parks and Recreation, Puget Sound Energy, and the Department of Ecology to implement a Cleanup Action Plan and subsequent cleanup activities. The ongoing project, in coordination with SPU, supports the overall multi-agency cleanup efforts at Gas Works Park.

**Green Lake CC - Evans Pool Roof Replacement & Solar Hot Water**

<b>Project No:</b>	MC-PR-41034	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	7201 E Green Lake Dr N
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 6
<b>Start/End Date:</b>	2013 - 2023	<b>Neighborhood District:</b>	Northwest
<b>Total Project Cost:</b>	\$1,672	<b>Urban Village:</b>	Green Lake

This project demolishes the existing 15,130 square foot Evans Pool roof and the 13,625 Community Center roof and replaces them with a rubberized membrane roofing/EPDM system and solar panels to supplement the pool hot water system, seismic improvements, and related work. The flat roof section of the roof will accommodate a 1,000,000 Btu/day system and will help to reduce pool heating costs.

This project provides for acquisition of properties to fill gaps in existing public ownership and preserve continuity in existing public ownership. The project scope targets acquisitions in the following designated green spaces: Arroyos Natural Area, East Duwamish Greenbelt, Northeast Queen Anne Greenbelt, Ravenna Woods, Thornton Creek Watershed, and West Duwamish Greenbelt. Levy funds are supplemented by grants and funds from other sources for these acquisitions. This project is part of the 2008 Parks Levy.

### HVAC System Duct Cleaning Program - Large Buildings

<b>Project No:</b>	MC-PR-41028	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project provides periodic (every two to five years) cleaning of the air ducts in the heating, ventilation, and air conditioning (HVAC) systems in pool natatoriums, community centers, and other Department-owned buildings. This maintenance increases the lifespan of these systems and reduces potential future major maintenance projects.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Improve Dog Off-Leash Areas

<b>Project No:</b>	MC-PR-51002	<b>BSL Code:</b>	BC-PR-50000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Maintaining Parks and Facilities
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project improves the City's dog off-leash areas, most of which have aging infrastructure. This project will also support new dog off-leash areas as funding is provided. Typical projects will improve Americans with Disabilities (ADA) access, address drainage and erosion issues, update aging infrastructure, and related work. These projects make these off-leash areas make more accessible and safe for parks users.

### Irrigation Replacement and Outdoor Infrastructure Program

<b>Project No:</b>	MC-PR-41020	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project funds engineering and other studies of the Department's park irrigation and outdoor infrastructure systems (e.g., water mains, irrigation and drainage lines, sanitary and storm sewers, electrical utilities, roads, paths, trails, retaining walls, bridges, saltwater piers, and related infrastructure). Specific projects are determined by the studies and operational considerations, along with emergency projects. This project provides conservation benefits by reducing water loss due to leaking systems, allocating water flow more efficiently through improved technology, and implementing other related work. It also extends the useful life of the infrastructure and living assets (i.e., plants), and makes the department more resilient to drought and heat conditions due to climate change.

### Lake City Community Center Redevelopment

<b>Project No:</b>	MC-PR-41040	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	12531 28th Avenue NE
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Council District 5
<b>Start/End Date:</b>		<b>Neighborhood District:</b>	North
<b>Total Project Cost:</b>	\$45,100	<b>Urban Village:</b>	Lake City

This project will replace the current Lake City Community Center with a new facility and perform other related work. The new Lake City Community Center will be more accessible for all users and include improved recreation spaces. The project began with a feasibility study that identified the probable costs associated with a variety of options such as underground parking, gym size, possible childcare rooms and facilities, and number of floors and other recreation spaces.

### Magnuson Community Center Improvements

<b>Project No:</b>	MC-PR-41067	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	7110 62nd AVE NE
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	2018 - 2024	<b>Neighborhood District:</b>	Northeast
<b>Total Project Cost:</b>	\$4,186	<b>Urban Village:</b>	Not in an Urban Village

This project provides funding for design and renovation of the Magnuson Park Community Center (Building #47) to reconfigure the interior space of the south side of the building for increased programming options. Work on Building #47 will include new mechanical, electrical, and plumbing components, window replacement, hazardous material abatement, and other related work. These improvements will greatly expand programming ability at Magnuson Community Center and make the facility more energy efficient and more comfortable in the summer.

### Magnuson Park Athletic Field 12 Conversion

<b>Project No:</b>	MC-PR-41064	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	7400 Sand Point Way NE
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	2027 - 2028	<b>Neighborhood District:</b>	Northeast
<b>Total Project Cost:</b>	\$8,320	<b>Urban Village:</b>	Not in an Urban Village

This project converts existing grass to synthetic turf, installs lighting, drainage improvements, and performs related work. Per the Magnuson Park Master Plan, the field is located south of the existing field 6 and west of the existing field 7 and will be reconfigured into field 12. This improvement allows for greater use and scheduling of the playfield for soccer, and other activities.

**Major Maintenance and Asset Management**

<b>Project No:</b>	MC-PR-41001	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

### Marra-Desimone Park Development

<b>Project No:</b>	MC-PR-16004	<b>BSL Code:</b>	BC-PR-10000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	2008 Parks Levy
<b>Project Category:</b>	New Facility	<b>Location:</b>	9026 4th AVE S
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2013 - 2024	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$1,915	<b>Urban Village:</b>	Not in an Urban Village

This project provides for development of Marra-Desimone Park, which includes the Marra Farm, Seattle's largest site for urban gardening. It implements elements of the "Long-Range Development Plan for Marra-Desimone Park" (2008), and may include enhancement of the existing farm area, development of community and recreation space on the eastern side of the park, paths, and gateway features. This project is part of the 2008 Parks Levy.

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits. These projects are identified and worked on in collaboration with the Office for Sustainability and Environment (OSE) and funding varies by year.

This project provides for acquisition of property to create new urban parklands in Seattle's most densely-developed neighborhoods as identified in Seattle Parks and Recreation's 2006 Gap Analysis. Levy funds are supplemented by grants and funds from other sources and are not expected to be sufficient to complete acquisitions in all the targeted areas. This project is part of the 2008 Parks Levy.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides funding for small projects identified by the community. Projects are typically under \$50,000 and address small scale requests to resolve emergent issues and/or , major maintenance activities/renovations performed in conjunction with development-oriented Neighborhood Matching Fund (NMF) projects. This program enables the Department to respond quickly to community requests for repairs in neighborhood parks.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project develops new parks on land-banked sites, new acquisition sites, and partnership development sites. Depending on the size, location, and type of park, new elements could include trees and landscaping, paths, plazas, a play area, site furniture, lighting, and other related improvements. Each newly developed park will improve the neighborhood and will have environmental benefits. Funding for this project will also be used to make short-term enhancements to sites with a longer development timeline to reduce the risk of adverse activity and increase the benefit of the site to the surrounding community. This project was formerly known as "Develop 14 New Parks at Land-Banked Sites."

### Northwest Native Canoe Center Development

<b>Project No:</b>	MC-PR-15010	<b>BSL Code:</b>	BC-PR-10000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	2008 Parks Levy
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	860 Terry AVE N
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	2014 - 2024	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$4,695	<b>Urban Village:</b>	South Lake Union

This project, part of the 2008 Parks Levy Opportunity Fund, develops a carving house which includes a living roof, and installs a carved "Welcome" figure on the beach. The project provides insight into distinctive varieties of Native American culture in a location at Lake Union where Native carvers are safe, and the public is welcome. This is the first phase of a two-building development.

<b>Start/End Date:</b>	2014 - 2024	<b>Neighborhood District:</b>	Southeast
<b>Total Project Cost:</b>	\$646	<b>Urban Village:</b>	Not in an Urban Village

This project, part of the 2008 Parks Levy Opportunity Fund, renovates the play area and basketball courts, installs benches and games tables, prepares P-Patches, and adds rain gardens and bio-swales to address drainage. This project also includes way-finding markers embedded in the walking paths. Renovations improve safety in the park and help the park function better as a neighborhood and community gathering spot.

This ongoing project provides funding to support community-initiated improvement or upgrade projects to parks and facilities; with a focus on neighborhoods with a history of racial disparities regarding access to green space and safety from environmental harms. No match is required from community groups applying for this funding. Seattle Parks and Recreation will develop and administer a process by which projects will be selected and funding recommendations made to the Superintendent by the Board of Parks and Recreation Commissioners (BPRC). This funding can be used as seed funding for outside grants and private fundraising, to support initial feasibility work, or implement small responsive improvements in collaboration with communities. This project number was formerly used for the Major Projects Challenge Fund and Equitable Park Development Fund.

**Parks Central Waterfront Piers Rehabilitation**

<b>Project No:</b>	MC-PR-21007	<b>BSL Code:</b>	BC-PR-20000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Building For The Future
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Alaskan Way
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2016 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$111,167	<b>Urban Village:</b>	Downtown

The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020 with Pier 62 now operational, the next phase will demolish Pier 63. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

This ongoing program provides minor capital improvements to low-income area parks throughout the City. Conservation Corps Program staff perform this work, providing training opportunities for low-income, homeless, and other at-risk community members. Program elements include provision of ADA improvements to parks and park restrooms, accessible drinking fountain installation, basketball court construction, bench and picnic table installation, tree purchase and planting, and other small-scale capital projects. Funding is also targeted to projects that can be integrated with other community-identified amenities.

This project will renovate the eastern portion of Pathways Park to create an inclusive park space for people of diverse abilities. The current play area will be replaced with new play features along a renovated loop pathway with landscape improvements. The project will also include improved and expanded accessible parking, restroom improvements, and related work. This project used to be called Burke-Gilman Playground Park Renovation.

### Pavement Restoration Program

<b>Project No:</b>	MC-PR-41025	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project funds various project activities, including, but not limited to, seal-coats to new pavement to extend its lifespan, pavement patching, sub-grade repairs, overlays to small areas, and repairs associated with pavement failures (e.g., heaving, sinking, cracking, and root invasion). Improvements reduce damage to asphalt, lengthen pavement lifespan, and reduce safety hazards such as uneven pavement.

### Play Area Renovations

<b>Project No:</b>	MC-PR-41039	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project funds the programmatic renovation of play areas within the park system. Improvements may include equipment replacement, ADA access, stormwater management, surfacing and containment renovation, and other related work. The sites will be determined each year based on factors including combination of age, assessed condition, and race and social equity.

**Public Restroom Renovations**

<b>Project No:</b>	MC-PR-41036	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project renovates selected public restrooms for improved ADA access, ventilation, finishes (walls and floors), and security. The renovations also may include reconfigured stalls, new toilets, urinals, and sinks, grab-bars, paint and finishes, and other related work, depending on the needs of a particular site. In some cases, a public restroom may be replaced or reconfigured to allow for non-gender specific accessible use. Public Restrooms are prioritized for work based on the results of condition assessments while also factoring in race and social equity, emergent needs, and the location's status on the BRS schedule. Where priorities align, SPR also makes an effort to combine work at public restrooms with other work on the site. This project was previously named Comfort Station Renovations.

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project , renovates selected public restroom sites for improved ADA access, ventilation and finishes (walls and floors) and security. The renovations may include reconfigured stalls, new toilets and urinals, ADA compliance improvements, paint and finishes, and related work, depending on the needs of a particular site. This project was previously named Comfort Station Renovations-2008 Levy Phase 2.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project revitalizes the City's numerous P-Patch Community Gardens and Urban Food Systems program gardens and orchards. Typical projects will improve the paths, improve and construct planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added over the years. The individual projects will address safety and code requirements, extend the life of the asset, and improve accessibility.

### Saving our City Forests

<b>Project No:</b>	MC-PR-41003	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project restores and maintains Seattle's numerous acres of urban forests. Seattle's trees are aging and inundated with invasive plants, including English ivy, Himalayan blackberry, Scot's broom, and knotweed. This project expands Parks' capacity to restore forest land, and to provide the ongoing monitoring and maintenance work necessary to keep restored areas from being overrun by invasive plants. A healthy urban forest contributes significantly to the health of the environment by cleaning air and water, filtering and retaining storm water, and providing a respite from the built environment.

This project provides for the restoration of old growth forest in Seward Park as part of the Green Seattle Partnership. The restoration work will be guided by the established vegetation management plan for Seward Park. This additional work is being funded by private donations. The donations are made to the Seattle Foundation and dispersed to SPR on a yearly basis.

### Smith Cove Park Development

<b>Project No:</b>	MC-PR-21005	<b>BSL Code:</b>	BC-PR-20000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Building For The Future
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	W Galer ST
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>		<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$8,550	<b>Urban Village:</b>	Not in an Urban Village

This project develops a portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed based on a planning and design process for the site that took place in 2016. The project will include renovation to the playfield and development of a new off-leash area; picnic area, and related work primarily on the west side of the park. The improved park will provide waterfront access and ADA accessibility, provide enhanced opportunities for active recreation, and make the park inviting and usable for more people.

**South Park Campus Improvements**

<b>Project No:</b>	MC-PR-21013	<b>BSL Code:</b>	BC-PR-20000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Building For The Future
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	8319 8th AVE S
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2019 - 2024	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$8,570	<b>Urban Village:</b>	South Park

This project will implement the South Park Site Plan approved by Seattle Parks and Recreation in March 2018, by renovating and relocating numerous park elements. The site plan calls for the existing play area and wading pool to be demolished and replaced with a new play area and spray park in new locations within the site. The existing grass playfield will be renovated and upgraded with synthetic turf and lighting. The project may also include the replacement of the existing sport courts, installation of a loop trail and planted buffer, new fencing and related work. Partial funding for this project is anticipated from various public and private sources in the forms of grants and donations. Once the project is completed, these improvements will increase safety and site capacity, support more active uses and types of healthy outdoor play, and provide opportunities for programming throughout the year. This project will be bid and constructed in conjunction with South Park Community Center Facility renovation project; which is part of the ongoing Community Center Rehabilitation & Development capital project (MC-PR-41002). This project is funded by public and private sources.

### Sport Court Restoration Program

<b>Project No:</b>	MC-PR-41019	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project restores or creates new sport courts throughout the City. The major maintenance focuses on less expensive repairs such as crack repair, color coating, providing new posts, standards, fencing, and other related work. Courts are selected based on staff evaluation of conditions. This program maintains and creates playability and extends the serviceable life of courts.

### Trails Renovation Program

<b>Project No:</b>	MC-PR-41026	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project implements a comprehensive trail renovation strategy. Funding addresses trail failures throughout the park system to correct safety problems, prevent further erosion and deterioration, and perform other related work. The project leverages community support by providing technical assistance, training, and materials to district staff and volunteers who are engaged in other trail-related projects. Trail projects that require significant design or permitting will be funded out of the Major Maintenance project.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This program develops forest and vegetation management plans, implements restoration projects at sites throughout the City's park system, removes hazardous trees, and performs other related work. Restoration projects, with much of the work being performed by citizen volunteers, may include removal of invasive plants, such as English ivy and Himalayan blackberry, followed by replanting with native plants. Future funding for this program depends on available resources. This project enhances Seattle's urban forest and supports the Green Seattle Partnership to increase overall City tree canopy and the Restore Our Waters Strategy to improve Seattle's aquatic environments.

This ongoing project is a collaborative effort between the City of Seattle, local community organizations, and thousands of volunteers working to restore and actively maintain forested park lands in Seattle. Restoration for each acre typically occurs over multiple years and includes clearing invasive plants, replanting the area with native plants, caring for the plants through establishment, and other related work.

### Utility Conservation Program

<b>Project No:</b>	MC-PR-41010	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project implements energy conservation projects in collaboration with Seattle City Light, Seattle Public Utilities, Office of Sustainability and Environment, and Puget Sound Energy. Projects may include lighting, heating, and water use renovations at various facilities throughout the Parks system. These projects result in energy savings and better air and water quality, and support the Climate Protection Initiative by reducing greenhouse gas emissions. The cost of these projects is expected to be recovered within approximately five years through reduced utility costs and rebates from the three utilities. Rebates and other additional resources will be pursued to fund future conservation projects.

### Victor Steinbrueck Parking Envelope

<b>Project No:</b>	MC-PR-41044	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	2001 Western Ave
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2017 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$5,000	<b>Urban Village:</b>	Downtown

This project will replace the existing membrane between the westerly portion of Victor Steinbrueck Park and the Unico parking garage below, and other related items. The membrane is a waterproofing layer that keeps stormwater and irrigation that falls on the park from entering the garage below and damaging the concrete structure. The membrane was installed in 1981 when the park was originally constructed on top of the parking garage. These membranes typically last no more than 30 years; the existing membrane has failed and no longer prevents water from entering the garage below. The membrane replacement requires the removal and subsequent replacement of all the park improvements above and the installation of a new drainage system. The new membrane will provide a waterproofed foundation for the associated park renovation project.

<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2028 - 2030	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>		<b>Urban Village:</b>	Not in an Urban Village

This project converts an existing grass athletic field of approximately 135,500 square feet to synthetic turf, replaces lighting, installs drainage improvements, and performs related work. This improvement allows for enhanced use and scheduling of the playfield for soccer, lacrosse, baseball, and other activities. Funding for this project was eliminated from the 6-year CIP in the 2021 Proposed Budget.

### West Queen Anne Playfield Conversion

<b>Project No:</b>	MC-PR-41072	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	1901 1st AVE W
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2020 - 2028	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$5,667	<b>Urban Village:</b>	Not in an Urban Village

This project will improve playability and increase year-round athletic field capacity at West Queen Anne Playfield. The existing natural turf field will be replaced with a synthetic field, and paths will be re-paved to improve accessibility, along with related work. The new synthetic turf field will expand capacity and play-time in an area of the city with few synthetic turf athletic fields.

### Zoo Major Maintenance

<b>Project No:</b>	MC-PR-41005	<b>BSL Code:</b>	BC-PR-40000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Fix It First
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	601 N 59TH ST
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 6
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Northwest
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project preserves the Zoo facilities to enable it to operate efficiently. Typical projects include exhibit renovation or replacement, water, electrical, irrigation, and sewer systems replacement, energy efficient improvements, pavement and grounds restoration, Americans with Disabilities (ADA) access improvements, and related work. The oldest buildings at the Zoo were constructed in the 1930s and others have been built in subsequent decades. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, and improve the overall Zoo experience for the public.

# Seattle Center

### Overview

Seattle Center is an active civic, arts and family gathering place at the core of our city. More than 30 cultural, educational, sports and entertainment organizations reside on the grounds, together with a broad range of public and community programs, creating thousands of events each year. It is the largest visitor destination in Washington state, attracting an estimated 12 million visits each year to attend arts, sporting, educational, and cultural events and festivals, and to enjoy the grounds and open spaces. There are 24 buildings and three parking garages on the campus. Seattle Center is also a major urban park with lawns, gardens, fountains, a children’s play area, and a variety of plazas and open spaces. The Seattle Center Monorail runs between the Seattle Center campus and downtown Seattle. The City owns the Monorail, which is operated by Seattle Monorail Services on behalf of the City. The Space Needle, the Pacific Science Center, and Seattle Public Schools’ Memorial Stadium and its adjacent parking lot are also part of the campus but are privately owned and operated.

Seattle Center resides on Indigenous lands, the traditional territories of the Coast Salish people. The origins of a civic campus at Seattle Center go back to the 1920s, with Mayor Bertha Landes presiding over the groundbreaking for the Civic Auditorium, Civic Ice Arena, and Civic Field. In the 1930s the Washington State Armory was built. Memorial Stadium was constructed in the 1940s. In the late 1950s and early 1960s the site for the 1962 Seattle World’s Fair was created, expanding the size of the campus to roughly what we know today.

One result today of this long history as a civic gathering place is aging infrastructure. While some facilities have been renovated through individual efforts (McCaw Hall in 2003; the new Seattle Opera at the Center facility in 2018; and Climate Pledge Arena in 2021), the majority remain in need of major renovation and redevelopment, and many of our core campus systems (HVAC, emergency generators) have exceeded their lifespan and are beginning to fail. These facilities are essential to Seattle Center’s safe and effective operation, serving as event venues, sheltering sites, and providing critical services to the campus and the larger City.

As Seattle Center embraces the post-pandemic return of crowded summer festivals and plays an important role supporting the recovery of downtown, now is the time to address these infrastructure needs and ensure it is well-positioned to serve the city’s needs in the coming years. The department’s Capital Improvement Program (CIP) repairs, renews, and redevelops the facilities and grounds of Seattle Center to provide a safe and welcoming place for millions of annual visitors. The CIP helps accomplish Seattle Center’s mission by:

- Preserving campus buildings and infrastructure
- Assessing building systems and developing maintenance and repair schedules
- Maintaining and repairing campus-wide utilities
- Creating and maintaining multi-use public spaces for both free and fee supported events
- Maintaining a large collection of public art
- Upgrading landscape features and public gathering spaces

- Planning for campus improvements and modernization
- Retrofitting buildings for improved energy efficiency
- Removing barriers in buildings, pathways, and public spaces on campus to better serve campus visitors of all abilities

### **Campus Capital Improvement Program Priorities**

Due to lower forecasted projections for REET revenues, this budget includes difficult decisions on what to prioritize over the coming years. Over the last five years, Seattle Center has been maintaining its aging historic 74-acre public campus with an annual average REET allocation of \$9.5M, or close to the \$9M annually recommended for an asset of its size twenty years ago based on the City's 2003 asset preservation study.

In 2024, Seattle Center's CIP REET budget is reduced to \$2,097,000 for capital improvement projects and major maintenance. Due to the significant REET reduction, the CIP includes phasing and postponing some projects. The deferred projects include replacement of turf and equipment for the popular Artists at Play playground, campus repaving, parking garage deck reseal, Food Hall grease interceptor installation, replacement of the Armory heat exchanger, replacement of leaking mechanical fittings throughout the campus, and security bollard repair.

Seattle Center's 2024-2029 CIP focuses on four primary themes:

1. Facilities Conditions and Major Maintenance
2. Major Project Planning
3. Campus Uplift and Modernization
4. Grant Supported Projects

### **2024-2029 Proposed CIP Highlights**

#### **Facilities Condition Assessments and Major Maintenance**

Since 2015, Seattle Center's program of facilities condition assessments (FCAs), utilizing specialty consultants, has been a key source of information for identifying current and future capital needs to inform capital investment priorities. We have completed two FCAs and are expediting the remaining FCAs to identify infrastructure most at risk of failure and plan for maintenance solutions. Our recently completed FCAs for roofing/cladding and mechanical systems identified numerous necessary and urgent repairs and replacements, some of which are underway.

The focus of the Center's 2024 REET CIP budget will go towards completing the FCA preliminary engineering work and urgent maintenance projects, the two largest of which are described below:

**Bagley Wright Theatre cladding and roofing replacement project**

The majority of the remaining 2024 REET CIP budget will be used for the construction of the Bagley Wright Theatre cladding and roofing replacement project. The estimated construction cost for this project came in higher than budgeted. Approximately \$1.6 million is reallocated from other CIP projects to fully fund this project.

**Armory office ventilation**

Seattle Center will spend \$520,353 of its 2024 CIP budget on updating and expanding ventilation throughout the Armory offices to bring City staff office spaces into compliance with current code standards and post-pandemic best practices.

**Completion of Facilities Condition Assessments**

Seattle Center will spend 61,000 of its 2024 CIP budget to complete Center’s remaining FCAs, including electrical and plumbing. Once the FCA’s are completed, Center will compile a report outlining our funding needs for repair and replacement over the next decade.

**Major Project Planning**

**Memorial Stadium**

The 76-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 includes \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the school district and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS’ needs for athletic events and graduations and also be a major civic venue for arts, cultural, sports, and community events. The new stadium is expected to be constructed and operated by a private operator jointly selected by SPS and the City through a request for proposals.

A design concept for the enhanced stadium has been proposed and is estimated to cost up to \$150 million. In addition to the \$66.5 million SPS levy money and \$4 million from the State capital budget, Seattle Center’s Proposed 2024-2029 CIP includes the City’s expected \$40 million contribution to the Memorial Stadium Redevelopment. Additional funding is proposed to be provided from various private and philanthropic sources. This includes \$1.02 million in 2023, \$1 million REET in 2024. The 2024-2029 CIP also includes \$19 million in bonding split between 2025 and 2026 as well as \$19 million in 2027 of which the funding source has yet to be determined. One Roof Partnership will be responsible for additional funding to complete the project. The SPS Board of Directors, Mayor, and the City Council are anticipated to review and approve implementing agreements in early 2024 followed by a formal design and community engagement process. The new stadium is expected to be complete by the end of 2027.

### **Seattle Center Warehouse Relocation**

The Seattle Center warehouse is currently located below the north stands at Memorial Stadium. The large facility is critical to daily campus operations including maintenance, event production, and campus-wide shipping, receiving, and re-stocking, and it will be demolished when the Stadium is redeveloped. As plans for the Memorial Stadium project progress, Seattle Center will identify a temporary location to house the warehouse's contents and operations during Memorial Stadium construction. Seattle Center is currently evaluating options for temporary space and will likely need to design and construct a temporary structure (or improvements to an existing structure) for this effort. A permanent home for Seattle Center operations is planned as part of the future redeveloped Memorial Stadium.

### **401 Mercer (Formerly KCTS) Long Range Planning**

The full-block parcel at 401 Mercer St. has been in use as the headquarters and primary broadcasting facility for KCTS-9 – now part of Cascade Public Media (CPM) -- which holds a long-term ground lease with the City. In 2022, CPM identified a new headquarters that better suits the organization's needs. In 2022, the City and CPM agreed to amend the lease to allow CPM to move out a year early. The property and the building will be turned over to Seattle Center on December 31, 2023. Seattle Center's long-term plan, which reflects support from community and stakeholder outreach, is to pursue a redevelopment strategy for this property that will generate revenue to support Seattle Center and contribute to the overall vitality of the campus and the neighborhood. Seattle Center does not plan to advance more detailed planning for new uses on the site until the next steps for Memorial Stadium's redevelopment are finalized. In the interim period, Seattle Center intends to use the KCTS building to meet many of its operational uses that will be temporarily displaced by Memorial Stadium construction and is evaluating possible interim uses that will keep the building active and help to fund its ongoing maintenance.

### **Seattle Center Light Rail Station Planning**

The planned Ballard Link Extension project includes two proposed light rail stations serving Seattle Center. Since 2019, Seattle Center has engaged intensively in interdepartmental collaboration and engagement with neighbors and resident organizations to help arrive at a preferred alignment. In anticipation of the Ballard Link Extension Draft Environmental Impact Statement (DEIS) being released at the end of 2024 or early 2025, Center will devote CIP planning funds to support consultant work and staff time to address our most critical concerns, which include noise and vibration impacts to sensitive arts and cultural venues; transportation/access impacts to the campus during construction; and station area planning.

### **Campus Uplift and Modernization**

#### **Fisher Pavilion Plaza Renovation**

The Fisher Pavilion Plaza, which occupies the roof above Fisher Pavilion, is an important campus space used for events and day-to-day activities. The roofing and cladding FCA found that the plaza surface and membrane are urgently in need of repairs and partial replacement. Construction of this project is

anticipated to begin in the first quarter of 2024 in order to be completed before the busy event season begins.

### **Campus-Wide Open Space Plan**

In long-range planning for the campus, Seattle Center intends to leverage upcoming major projects including the Memorial Stadium redevelopment, the grant-funded Monorail Station Reconfiguration, the 5G infrastructure project, the Armory generator replacement, and ST3 to uplift public open spaces and improve outdoor lighting. In 2023, Seattle Center engaged a landscape architecture firm to produce concept designs for a campus-wide open space plan that incorporates design interventions in a variety of locations, with a vision that is unified around the Century 21 Master Plan principles. As our major redevelopment projects and departmental strategic plan take shape in the coming months, we will incorporate the concepts from this effort into our scope and budget for future CIP work in 2024-2029.

### **Seattle Center's Neutral Wireless Infrastructure**

Center conducted an RFP process in October 2022 – May 2023 seeking to identify a well-qualified Wireless Infrastructure Provider (WIP) that would be responsible for managing the design, installation, deployment, operation, upgrading/reinvestment, and maintenance of privately owned cellular wireless infrastructure to deliver high-quality service to visitors and pay a fee to Seattle Center. Verizon was selected as the RFP's finalist and contract negotiations are currently underway. Seattle Center expects construction to begin in late 2024/early 2025 with a projected completion by end of 2025. The work will be funded by the WIP. Seattle Center hopes to leverage this work on the street grid to implement other upgrades to the power, utility, and lighting systems, and potentially to upgrade campus paving.

### **Grant Supported Projects**

#### **Monorail Station Reconfiguration**

The Seattle Center Monorail Station Improvements project is estimated at more than \$20 million. It is a comprehensive design and construction project that will improve station access and accessibility, support a positive passenger experience, and optimize system capacity. Improvements may include and are not limited to raising the station platform, automating the passenger gates at the platform edge, and wayfinding.

To provide a fully accessible station consistent with Title II of the Americans with Disabilities Act (ADA) as incorporated by Appendix A of 49 CFR 37 and usability by persons with disabilities, the design and construction activities include raising the station concrete platform to be level with the floors of the two monorail train cars, add automated passenger gates at the platform edge to train doors and covered passenger waiting areas, reconfigure the station to remove barriers, make the station main entrance/route from Thomas Street ADA accessible, update and cover queuing area layouts, and provide visual accessibility by using universal symbols and translated signage. The project will improve throughput to regain surge capacity lost in previous years at the Seattle Center Monorail Station. An additional access route from the north may also be included in the scope, pending further study. \$15M

of this project will be funded through a federal grant, while the remaining \$5M will be funded through the Move Ahead Washington allocation.

### **Armory Generator Replacement**

The objective of this project is to provide emergency power to the Armory and Fisher Pavilion, two Seattle Center facilities that play a critical role in the City's emergency operations response. The project will remove a 60-year-old generator and associated controls located in the Armory and replace it with a new, sustainably powered generator capable of supporting emergency functions in both the Armory and Fisher Pavilion. The new sustainable emergency generator will be fueled by solar, wind, and fuel cell, with the ability to run on diesel if conditions require. As a part of this project, we will install new 80kW solar panels and 120kW wind turbines on the roof of the Armory. A 5kW fuel cell system will be installed in the Armory. These sustainable power sources will feed into a 1,106kWh battery storage system that will connect to the generator for use during emergency situations. Our proposed solution builds resiliency, sustainability, and energy efficiency into the Seattle Center Emergency Operations facilities. Most of the budget for this project (75%) will be funded by a FEMA grant while the remaining amount will be funded through REET.

### **CIP Revenue Sources**

Seattle Center's 2024-2029 Proposed CIP is funded from a combination of revenue sources including Real Estate Excise Tax (REET, the primary funding source for 2024-2029), LTGO bond funds, federal grants, and private funds. In the past, other key funding sources for Seattle Center included voter-approved property tax levies, Washington State and King County funds, philanthropic contributions, proceeds from property sales, and private investment. Private investment has always played a key role in Seattle Center's development, with the \$1 billion Climate Pledge Arena renovation as the most recent example.

### **Summary of Upcoming Budget Issues and Challenges**

The biggest challenge facing Seattle Center's CIP is the campus' rapidly aging infrastructure and funding constraints on advancing replacement projects to address it. Completing Seattle Center's Facilities Condition Assessment program this year will be essential to identifying urgent needs for capital renovation and replacement, as well as strategic projects that can improve our operational efficiency and reduce costs in the future. Center anticipates that following the completion of the FCAs in 2024, significant additional funding will be needed for future efforts to preserve and modernize Seattle Center facilities.

### ADA Improvements

<b>Project No:</b>	MC-SC-S9302	<b>BSL Code:</b>	BC-SC-S03P01

### Memorial Stadium Redevelopment

<b>Project No:</b>	MC-SC-S9505	<b>BSL Code:</b>	BC-SC-S03P01
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Building and Campus Improvements
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	401 5th Ave N.
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2023 - 2027	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$40,000	<b>Urban Village:</b>	Uptown

The 76-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated, deteriorated, and in need of redevelopment. The Seattle Public Schools Building Technology Academics & Athletics (BTA V) levy approved by Seattle voters in February 2022 includes \$66.5 million for a basic student athletic stadium. Under a letter of intent signed by SPS and the City in October 2021 and a November 2022 Memorandum of Agreement, the school district and City are collaborating on a plan for a new enhanced stadium. The new facility will transform the heart of Seattle Center with a state-of-the-art stadium that will serve SPS' needs for athletic events and graduations and also be a major civic venue for arts, cultural, sports, and community events. The new stadium is expected to be constructed and operated by a private operator jointly selected by SPS and the City through a request for proposals. A design concept for the enhanced stadium has been proposed and is estimated to cost up to \$150 million. In addition to the \$66.5 million SPS levy money and \$4 million from the State capital budget, Seattle Center's Proposed 2024-2029 CIP includes the City's expected \$40 million contribution to the Memorial Stadium Redevelopment. Additional funding is proposed to be provided from various private and philanthropic sources.

**Unsecured Funding Strategy:** The City maintains its commitment to identifying additional partnership funding for the Memorial Stadium Redevelopment project. Seattle Center is working closely with the Mayor's Office, the City Budget Office, and the City Council to develop a funding strategy and will update the final funding strategy in a future CIP.

**O&M Impacts:** O&M estimates will be further refined in the following CIP after design work is finalized.

**Roof/Structural Replacement and Repair**

<b>Project No:</b>	MC-SC-S9701	<b>BSL Code:</b>	BC-SC-S03P01
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Building and Campus Improvements
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Seattle Center Campus
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Uptown

This project provides for roof and building envelope repair and replacement, and structural and seismic analysis and repairs throughout the Seattle Center campus. Typical improvements may include, but are not limited to, roof replacement, exterior wall re-cladding and repairs, repair and replacement of rooftop mechanical equipment, seismic studies, and seismic retrofits.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Uptown

This project provides for the development and implementation of the Seattle Center Century 21 Master Plan. Work includes, but is not limited to, working with stakeholder groups and consultant teams to identify development alternatives, holding public meetings, developing concept plans, carrying out environmental review and other studies, real estate analysis, developing public and private partnerships, recommending packages of improvements to elected officials, and updating the Master Plan as needed.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Uptown

This ongoing project funds the repair, renovation and upgrade of utility infrastructure at Seattle Center. Utility infrastructure includes chilled water and steam lines, water and sewer lines, electrical equipment, communication lines, fire alarms, access control and other systems. Typical improvements may include, but are not limited to, repair and replacement of underground piping for steam, chilled water and condensate lines; efficiency upgrades to the Center's chilled water loop; HVAC system renovation; replacement of water and fire mains; connectivity improvements; and electrical infrastructure upgrades.

# Seattle Public Library

## Overview

The Seattle Public Library's (Library) facilities include 26 branch libraries and the Central Library, as well as storage and shops space. Library buildings can be divided into five major categories:

1. There are ten buildings designated as historic landmarks, including seven Carnegie-era libraries (built in the early 1900s) and three modern buildings.
2. Eleven branch libraries are either new construction built during primarily in the early 2000s (eight buildings) or non-landmarked buildings developed between the 1950s and the 1970s (three buildings).
3. Five small library branches are essentially storefronts, four of which are part of larger buildings.
4. The Central Library is a 12-story 363,000 square foot building that serves as headquarters and hub of the library system. It houses the bulk of the Library's extensive collection of books and materials (including rare "special collections" in the Level 10 Seattle Room), a 375-seat auditorium, public meeting rooms, a gallery, large public areas for reading and access to 330 public computers, a data center housing system-wide servers, and Library administration.
5. The Maintenance and Operations Center (MOC), which houses the Library's materials distribution system and also serves as the Library's maintenance shop and storage facility.

With passage of the 2019 Library Levy, the Library embarked in 2020 on its current seven-year asset preservation program which includes seismic retrofits at three century-old Carnegie-era branches. The 2019 Library Levy builds off capital investments from two prior efforts. The 2012 Library Levy, which concluded at the end of 2019, provided an essential seven-year funding stream to maintain the five new and 22 updated libraries that had been renovated, expanded, or replaced during the previous systemwide capital program called "Libraries for All" (LFA). The Library's LFA program, which was completed in 2008, had increased the amount of physical space by 80% to a total of over 600,000 square feet, greatly increasing the demands on the Library's major maintenance program.

The Library Major Maintenance program provides ongoing funding for work that preserves or improves building integrity, efficiency and functionality.

## Thematic Priorities

The Library's Capital Improvement Program (CIP) projects generally fall into one or more categories: asset preservation, operational efficiency, environmental stability, public service improvements, and safety and security.

### Asset Preservation

The overriding priority of the Library's capital program is to extend the useful life of its buildings. As the Library's buildings have all surpassed the ten-year mark since the conclusion of the final Libraries for All bond projects, the buildings require attention to flooring, casework, finishes and restroom fixtures. Major repairs and replacement to roofs, building envelopes, HVAC and other critical building systems, doors, windows, flooring and casework are also examples of asset preservation items funded through

the Library's CIP budget. The 2019 Levy also included additional funding for three Carnegie-era branch seismic retrofits.

Nearly all of the Library's non-IT \$5.2 million 2024 Proposed CIP Levy budget can be predominantly classified as asset preservation work. There are also elements of enhanced safety, improved access, energy efficiency and environmental sustainability. Approximately \$2 million is budgeted for seismic retrofit projects at the University and Columbia branches as indicated in the 2019 voter-approved levy. The balance of non-IT Levy CIP funding will pay for mechanical systems replacement at multiple branches, specifically electrification per Citywide mandate and adding or upgrading heating, ventilation and air-conditioning (HVAC) systems.

The Library's 2024 capital IT infrastructure budget includes \$615,000 to replace both branch and Central network access points, which help network traffic for both patron and staff use.

Progress has been slowed on some major multi-year projects due to supply chain delays and shortages of materials, and those projects may continue into 2024. Those major projects may include the improvements at the Library's maintenance shop and storage site, mechanical systems replacement at both Capitol Hill and Lake City branches, as well as similar work at additional branches to respond to the Citywide electrification mandate (while adding or upgrading heating, ventilation and air-conditioning (HVAC) systems at various branches that do not possess air-conditioning), and the three seismic retrofit projects (Green Lake, University and Columbia).

The iconic Central Library often requires a significant portion of CIP funds, usually distributed over multi-year projects. Historically, larger, complex and challenging projects have been planned and staged sequentially to minimize the impact on Library services to patrons. While there are no new major projects scheduled at the Central Library in 2024, age-related upgrades to its mechanical systems will need to be pursued during the next few years when funding allows.

While the aforementioned projects are essential for preserving the Library's physical assets, many of them also contribute to the Library system's other essential themes: operational efficiency, environmental sustainability, and improved service to the public.

### Library Operational Efficiency; Environmental Sustainability; Safety and Security of Public/Staff

The Library delivers direct services to Seattle residents, who expect highly functional and welcoming library buildings. Major maintenance work carried out under these priorities supports:

- upgrades to help the Library reduce operating costs while minimizing impact to the public;
- renovations to enhance the environmental sustainability of Library buildings; and
- repairs and improvements that augment the safety of library facilities (immediate safety concerns and building integrity are highest priority).

Last year's 2023-2028 Adopted Library CIP budget included \$3.5 million of JumpStart Payroll Expense Tax (payroll tax) for decarbonization and electrification efforts at branches to help advance the City's Green New Deal goals, which aims to address the climate crisis and the disparate impacts of climate change on communities of color and those who are economically disadvantaged. In 2023, the Library

began installing air conditioning at both Northeast and Southwest branches using revenues from the payroll tax.

Major Levy-funded IT projects can also be categorized under operational efficiency and service to the public. The 2024-2029 Proposed CIP budget includes \$615,000 in 2024 for upgrading Library networking equipment.

### Public Service Improvements

Public service improvements mostly encompass work that enhances the library patron experience, such as Reimagining projects that have been completed over the past few years (Rainier Beach, Lake City, Ballard, Beacon Hill, Highpoint, South Park and Northeast). These projects typically entail increased meeting room space; better connectivity for devices; lowered shelving and improved layout for enhanced sightlines/security/accessibility; and updated carpet, paint and restrooms. There are no projects solely dedicated to public service improvements scheduled for 2024. However, public service improvements are included in both Green Lake and University branches' seismic retrofit scope, and are also being considered concurrent with the other 2019 Levy seismic stability project at Columbia branch. Ultimately, funding will determine the extent of public service improvements for the latter two seismic retrofit projects.

### **Project Selection Criteria**

In selecting major maintenance work to accomplish each year, the Library evaluates the preservation of building integrity, impact on safety to the public and staff, importance of the work to core library building functions, operational efficiency gains (both economic and environmental), and opportunities to improve or preserve service to the public.

The Library conducts condition assessments and updates information based on inspection by the capital program manager and facilities maintenance staff. The Library obtains professional evaluations of roofs, mechanical, HVAC and lighting systems to flag deficiencies and identify areas where the capital program may be able to reduce operating costs. Library public services managers develop proposals to change the functional use of library space. These proposals are evaluated for feasibility, cost and urgency, and capital program staff works with Library services managers to scope alternatives. Public input also plays a role in project planning. The Library senior management team has ultimate responsibility for authorizing and prioritizing functional building modifications.

Many library facilities are open seven days per week during normal (non-pandemic) operations, which requires careful planning and staging of projects to keep libraries open as much as possible while capital improvement work is underway. Flexibility is critical to respond to building issues as they emerge.

## CIP Highlights

The Library's 2024-2029 Proposed CIP provides a base level of support for asset management during the period when all buildings have surpassed the ten-year mark from their LFA construction or renovation. The 2019 Library Levy provides a total of \$5.86 million (including Seismic/unreinforced masonry (URM) and IT Capital allocations) in 2024. The Library will receive \$78,000 in base Real Estate Excise Tax (REET) funding, which is tentatively budgeted for the University branch seismic project.

The two largest ongoing projects for the Library's CIP in 2024 are continuing construction related to the Green Lake branch seismic retrofit and the finalization of design and commencement of construction at the University branch seismic retrofit. The ultimate aim of these projects is to complete seismic and accessibility upgrades; a \$1.8 million Washington State Department of Commerce grant assisted in expanding the Green Lake scope to include air-conditioning, electrification, additional ADA access improvements, and a reconfigured elevator. The Library is also pursuing additional external funding sources, including a Federal Emergency Management Agency (FEMA) Hazardous Mitigation grant.

Another major focus of the Library's 2024 (and beyond) major maintenance program continues to be the City's mandate to move away from dependence on non-renewable energy sources and also to provide resilience hubs for residents—cooling and smoke refuge centers for residents during extreme heat and/or wildfire smoke events. With the help of an engineering consultant, the Library has prioritized branches that will be transitioned from fossil fuels, based on immediate maintenance needs, air-conditioning status, years since last remodel and proximity to other Library locations. Of the highest priority locations, the Library has completed conversion of one branch (Broadview), is scheduled to finish another (Capitol Hill) by the end of 2023, and in the process of converting a third (Green Lake, concurrent with seismic work). The Library is exploring and pursuing additional funding options, such as federal grants, to fund projects for the remaining branches.

## CIP Revenue Sources

Historically, REET was the primary source of funding for the Library's CIP, with an additional smaller allocation from the General Fund. In 2012, the Library worked with the Mayor and City Council to develop a Library levy proposal that voters approved in August of that year. One of the core areas the levy funds is major maintenance. Upon passage of the 2012 Library Levy, the City shifted most major maintenance funding from REET/General Fund to the levy, which provided a significant increase in major maintenance funding for major maintenance projects. The 2019 Library Levy continues support to preserve the Library's capital assets including significant investments in seismic upgrades for three branches.

Levy funding is insufficient to fully cover costs associated with patron and programmatically-driven renovation projects, significant building infrastructure renovations and adjustments, or replacement of major building systems at the Central Library and larger branches. Since passage of the 2012 Library Levy, REET revenue has continued to provide additional funding for targeted efforts, such as the Library's Reimagining Spaces initiative (which sought to enhance Library physical spaces to better address changing patron and community needs) or large-scale major maintenance requirements not anticipated during the planning of the levy.

REET revenue plays a vital role in supporting projects that are beyond the scope of the Library's levy-funded major maintenance program. For example, while the levy remains the primary funding source for the seismic retrofit projects at Green Lake, Columbia and University branches, supplemental funding is necessary to pursue building upgrades that would be considerably less expensive if performed concurrent with the seismic work. Contingent upon that supplemental funding, those expanded scopes can include the addition of air-conditioning; accessibility upgrades (such as elevators) to increase access for patrons with mobility challenges; mechanical system modernization and electrification for increased energy efficiency and reduced reliance on fossil fuels; and other interior enhancements.

As previously mentioned, the Library, with significant assistance from the City's Office of Sustainability and Environment (OSE), received a \$1.8 million Washington State Department of Commerce grant for the Green Lake branch seismic retrofit. The project scope was expanded to include air-conditioning, electrification (to eliminate reliance on fossil fuels), additional ADA access improvements, and a reconfigured elevator. The Library is continuing to seek outside resources to augment the scope of both University and Columbia branch seismic projects as well.

Additionally, in 2022 the Library, with significant assistance from the City's Office of Emergency Management, has applied for a FEMA Hazardous Mitigation grant to fund air-conditioning for seven non-air-conditioned branches. The Library expects to hear the final funding decision by the end of 2023.

### **Summary of Upcoming Budget Issues/Challenges; Future Projects on the Horizon**

#### Materials Shortages and Supply Chain Delays

One challenge that was certainly not foreseen prior to 2020 was the adversity posed by the COVID-19 pandemic. The economic disruption stemming from the pandemic skewed supply and demand for both raw materials and services, often forcing reexamination of individual project scope or reprioritization of larger Library projects. For example, costs for the 2023 mechanical system replacement at Northeast and Southwest branches (which included electrification and installation of air-conditioning in two locations which lacked AC) came in several hundred thousand dollars over estimates due to higher cost of equipment and materials, prompting a shift of funds from other projects of lower urgency. While the public health impact of the pandemic has faded, materials shortages and supply chain disruptions seem to be lingering.

#### Aging Buildings and Infrastructure

Library buildings are among the most intensively-used City facilities in Seattle. Prior to the pandemic, the Central Library hosted over 1.2 million visitors annually, with library branches serving over 3.6 million visitors. The Library's historic landmark buildings have unique features such as brick facades, slate roofs and other details. When undertaking maintenance and repair work, it is essential to use designs and materials consistent with their landmark status – all factors that increase major maintenance costs.

The venerable Central Library is entering its third decade of service during the current seven-year levy; it poses a different set of challenges. A building of Central's size, complexity and intensity of use requires significant annual maintenance to preserve core functionality and continually improve building efficiency. Updating Central's mechanical and HVAC systems to align with current City policy and lessen its carbon footprint will require significant funding beyond the annual Levy major maintenance allocation.

### Seismic Preparedness

A 2016 survey conducted by the Seattle Department of Construction and Inspection identified seven URM facilities in the Library's property portfolio requiring seismic retrofit to reduce the risk of injury and loss of life during an earthquake. The survey classified buildings into three categories of vulnerability (critical, high, and medium) with regard to life safety impacts. Three of the seven Library facilities - Green Lake, University and Columbia branches - fell within the high-vulnerability category (with the remainder in the medium-vulnerability category) and the Library Board of Trustees identified those branches as a critical issue to be addressed. The 2019 Library Levy included funding for seismic retrofits of those three Carnegie-era branches for the period between 2020 and 2026.

As the URM projects will necessitate closure of the branches for a year or more, other needed building improvements will be scheduled concurrently. Contingent upon available funding, work may entail roof and envelope restoration; elevator and mechanical system upgrades (including the addition of air-conditioning); interior renovation (including electrical, carpeting, furniture and finishes); and efforts to ensure ADA compliance and equitable access.

### Adjusting to a Changing Climate

The Library is also adapting to a changing climate, often working with OSE to identify potential areas for improved energy efficiency and, per mayoral directive, to lessen the Library's reliance on fossil fuels. Eight branches – including most of the Library's landmarked branches, some built a century ago – are not air-conditioned, and rising summer temperatures can lead to closures which impact patrons and Library operations. Funded projects to add air-conditioning are in progress at the Green Lake branch (concurrent with the seismic retrofit), along with Northeast and Southwest branches. Air-conditioning is planned to be added at the University branch concurrent with its seismic retrofit, pending available funding. The Library is exploring logistics and funding options to add air conditioning to the remaining high-use branches, which would increase branch comfort year-round and also allow them to serve as cooling centers during extreme heat events. As mentioned, the Library has previously received funding for decarbonization and electrification efforts through the payroll tax and has also applied for a FEMA grant to fund air-conditioning for seven non-air-conditioned branches.

### ADA Improvements - Library

<b>Project No:</b>	MC-PL-B3012	<b>BSL Code:</b>	BC-PL-B3000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Capital Improvements
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various Locations
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project represents ADA improvements for The Seattle Public Library, and includes work on accessible paths and adjustments to casework, restroom fixtures, and railings.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project provides for improved infrastructure at the 363,000 square foot Central Library. Central requires substantial infrastructure work to achieve operational efficiency and set the stage for its eventual programmatic re-imagining. Changes to Central also require additional lead time for planning and design, due both to its unique physical configuration/infrastructure and iconic architectural status. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage enhancements, and wall and floor surface repairs.

This ongoing project provides for major maintenance to Library facilities, which include the 363,000 square foot Central Library and 26 branch libraries as well as storage/shops facilities. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage improvements, wall and floor surface repairs, landscape and exterior hard surface repairs, energy efficiency upgrades and projects that enhance service delivery or facilitate operational cost-savings at our libraries. This project preserves building integrity and improves functionality, and provides responsible management of the Library's building assets to ensure their long-term operational use.

# Seattle Department of Transportation

### Overview

The Seattle Department of Transportation (SDOT) is responsible for building and maintaining a safe, reliable, efficient, and socially equitable transportation network. In addition, SDOT maintains and improves critical transportation infrastructure of regional, statewide, and national significance in cooperation with external partners. Achieving transportation excellence helps support businesses, improves access to services and opportunity, enhances quality of life, and builds a more sustainable community. This is accomplished by:

- preserving existing transportation infrastructure and using it to its fullest capabilities;
- moving people and goods efficiently and safely, using technology wherever possible to overcome transportation challenges;
- making transit, bicycling, and walking convenient and attractive and reducing reliance on the automobile;
- shaping future transportation improvements that reflect Seattle's role and connections to the region;
- building community trust through engagement and accountability;
- working to eliminate racial disparities and advance equity goals;
- incorporating environmental excellence and climate protection into every decision, project, and program;
- promoting the livability of our neighborhoods and communities;
- guiding investments that contribute to the economic vitality of neighborhood businesses and industries in Seattle and the surrounding region; and
- managing resources wisely with performance measures.

The replacement value of the City's transportation infrastructure is estimated to be approximately \$40 billion. Major system assets include:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 126 bridges;
- 584 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,132 signalized intersections;
- 47.9 miles of multi-purpose trails;
- 2,277 miles of improved sidewalks and median pathways;
- 165 miles of on-street bicycle facilities;
- 39,049 street trees;
- 1,589 pay stations;
- 35,872 curb ramps; and
- Around 203,000 signs.

Seattle continues to experience population growth and increasing density. The 2024-2029 Proposed Capital Improvement Program (CIP) emphasizes transportation safety, efficient accessibility to goods and services, and reliable, socially equitable mobility for people of all ages and abilities.

## Department of Transportation

Transit projects are on the forefront of sustainable transportation solutions with numerous projects under development, including: RapidRide along Roosevelt Way to enhance bus speed, reliability, and stations, paving, add protected bike lanes, and improve accessibility; the Madison Street Bus Rapid Transit line connecting people to hospitals, schools and universities, and businesses as well as to dozens of bus routes, the Streetcar, and ferry service at the Colman Dock Ferry Terminal.

Ongoing bridge investments continue, with \$48 million funding planned in 2024 for various bridge improvements, including Bridge Painting, Bridge Seismic, Structure Major Maintenance, Bridge Rehabilitation, and Bridge Load Rating. Freight movement improvements will continue with a rebuilt Alaskan Way, Heavy Haul Network Program—East Marginal Way, and citywide spot improvements. SDOT continues to invest in pedestrian and bicycle infrastructure to increase safety for pedestrians, people biking, and people driving by building new protected bike lanes, new sidewalks, and improved street crossings.

In November 2018, SDOT published the Move Seattle Levy (MSL) Workplan, which documented deliverable commitments, delivery plans, schedule assumptions, risk considerations, and spending plans for all 30 Levy subprograms. SDOT has experienced local revenue declines since 2020. The decrease in local revenue necessitated that SDOT pause projects mid-year, do an assessment at the end of 2020, and write and publish a report in early 2021 detailing the impacts on individual programs in the MSL portfolio.

During the second half of 2021, working with the Levy Oversight Committee (LOC), SDOT developed a Workplan Update and list of programs to prioritize in order to make further progress on reaching original 2015 Levy deliverables. As Levy resources have been identified through project savings, SDOT has reallocated Levy funding to prioritized programs in the Workplan Update. The 2024-2029 Proposed CIP incorporates the latest Workplan Update strategy and enables SDOT to deliver on Levy commitments. 2024 is the final year of MSL property tax collections. Some MSL programs will continue to spend carryforward MSL funds in 2025 as projects are completed.

Post-COVID travel behavior and economic activities continue to pose challenges to transportation revenues, including Commercial Parking Tax (CPT), Real Estate Excise Tax (REET), and Transportation Network Company Tax (TNC). A significant portion of the CPT revenue stream has been committed to debt service payments; the reduction in CPT collections requires other funding sources (such as Real Estate Excise Tax revenue and Transportation Network Company Tax) to cover the debt service funding gap. As a result, the Proposed 2024-2029 CIP includes the following REET and CPT reductions:

CIP Projects	2024
MC-TR-C088 - Sound Transit 3	(\$250,000)
MC-TR-C112 - Structures Major Maintenance	(\$1,938,254)
<b>Total</b>	<b>(\$2,188,254)</b>

Another revenue source that has been revised significantly downward is the School Safety Traffic and Pedestrian Improvement Fund (SSTPIF), which collects ticket revenue from fixed automated cameras located near school zones. The \$2.9 million items proposed to be reduced in 2024 are for the following CIP projects:

CIP Projects	2024
MC-TR-C057 - SDOT ADA Program	(\$2,400,000)

### 2024-2029 Proposed Capital Improvement Program

## Department of Transportation

MC-TR-C063 - Bike Master Plan - Greenways	(\$500,000)
<b>Total</b>	<b>(\$2,900,000)</b>

Facing revenue challenges, SDOT is committed to leveraging existing resources and seeking external funding opportunities to continuously improve transportation safety and invest in the highest priority discrete projects. In the 2024-2029 Proposed CIP, the department will receive \$10.5 million in new grant funding for the following improvements:

- \$2,502,500 to support the repair and replacement of the existing concrete overlay on the S. Spokane Street Viaduct,
- \$1,450,000 to improve pavement conditions along Denny Way and extend the useful life of the road,
- \$1,090,000 to support the construction of a protected bike lane along Beacon Ave S., and
- \$5,480,000 to improve transit access and implement pedestrian and safety improvements along Roosevelt Way NE and 125th St (this corridor connects to the future NE 130th Link Station).

The Proposed 2024-2029 CIP is the third year of implementing the Capital Budget adjustment process that realigns the department's six-year CIP budget to the latest project spending plans, which are updated and communicated to Council and the public more frequently than the annual budget. SDOT has made this effort part of an annual synchronization of SDOT's capital budget and spend plan to ensure greater transparency and more up-to-date information on SDOT's Capital Budget programs and projects.

This process involves two interconnected actions. SDOT has identified \$161 million in 14 master projects in current year (2023) capital resources that will not be used prior to the end of 2023. The budgets for these resources would be abandoned in 2023; and \$110 million is now part of the available project funding for the 2024-2029 Proposed CIP. The majority of such budgets are from either grants or partnership funding.

The 2024-2029 Proposed CIP outlines investments in critical transportation infrastructure needs and includes planned spending of \$369.6 million in 2024. Key work includes street paving and resurfacing; building new sidewalks and curb ramps; school safety improvements; implementation of the Bike, Pedestrian, Freight, and Transit Master Plans; investments to facilitate freight mobility; traffic cameras and signals; bridge projects such as bridge replacement, maintenance, and seismic retrofitting; and support for the Waterfront Program. For details, please see the associated explanations below.

**Street Paving and Resurfacing:** The Proposed CIP includes \$27.4 million for the following ongoing programs:

- \$7.5 million in 2024 for Arterial Major Maintenance (AMM);
- \$17.5 million in 2024 for Arterial Asphalt & Concrete Program Phase II (AAC); and
- \$2.4 million in 2024 for Non-Arterial Street Resurfacing and Restoration (NASRR).

### 2024-2029 Proposed Capital Improvement Program

Paving is one of the highest prioritized programs emphasized in the latest Move Seattle Levy Workplan Update. The 2024-2029 Proposed CIP adds \$22.9 million Move Seattle Levy funds to AMM (\$6.8 million) and AAC (\$16.1 million) in 2024.

**Pedestrian Master Plan Investments:** The 2024-2029 Proposed CIP includes five projects that are solely dedicated to advancing the recommendations of the Pedestrian Master Plan (PMP).

- The Pedestrian Master Plan Crossing Improvements project funds pedestrian crossing improvements, primarily focused on crossings near transit stops and on walking routes to school. The Proposed 2024-2029 CIP includes \$5.7 million for this project in 2024.
- The Pedestrian Master Plan New Sidewalks project includes \$6.3 million in 2024 to design and construct new sidewalks. Of the total, \$1.7 million in funding is provided by the School Safety Traffic and Pedestrian Improvement Fund (SSTPIF), which collects ticket revenue from fixed automated cameras located near school zones. This fund was created for school safety infrastructure improvements, school zone camera installation and operation, school zone warning beacon maintenance, school safety program administration, and bicycle and pedestrian safety education. These SSTPIF funds will be used to construct sidewalks within Seattle Public Schools walk zones. The remaining \$4.6 million funding is supported by Move Seattle Levy.
- The Pedestrian Master Plan School Safety project includes \$8.6 million in 2024 for pedestrian improvements in school zones. The project is mainly funded by SSTPIF (\$7.8 million in 2024). These capital improvements may include school zone signing, crosswalk maintenance, curb bulb and curb ramp replacement and maintenance, sidewalk maintenance, and changes to traffic circulation around schools.
- The Pedestrian Master Plan–Stairway Rehabilitation program totals \$1.6 million from Move Seattle Levy and Real Estate Excise Tax (REET) revenues. Stairways provide pedestrian connections to streets throughout Seattle’s hilly neighborhoods. The program rebuilds and rehabilitates stairways to the latest standards, adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act.
- The SDOT ADA Program includes almost \$12.2 million of local funding to deliver ADA-compliant curb ramps and accessible pedestrian signals. This funding supports the City in meeting the annual ADA curb ramp requirement of 1,250 ramps per year. Of the 2024 funding, \$7.6 million comes from the Move Seattle Levy, \$2.3 million is from REET, and SSTPIF provides the remaining \$2 million and will support the installation of curb ramps near Seattle Public Schools.

The table below shows a summary of the Pedestrian Master Plan investments:

Pedestrian Master Plan Projects	2024
PMP - Crossing Improvements	\$5,742,995
PMP - New Sidewalks	\$6,295,453
PMP - School Safety	\$8,595,680
PMP - Stairway Rehabilitation	\$1,556,062
SDOT ADA Program	\$12,239,528
<b>Total</b>	<b>\$34,429,718</b>

**2024-2029 Proposed Capital Improvement Program**

**Bicycle Master Plan Investments:** The Bicycle Master Plan includes three projects specifically focused on advancing the Bike Master Plan recommendations and supporting the Bicycle Master Plan goals of safety, connectivity, ridership, equity and livability.

- The Bike Master Plan Greenways project includes \$3.5 million in 2024 for Neighborhood Greenways to create safer, calmer residential streets by making people walking and biking the priority. Neighborhood Greenways can include speed humps, crosswalks, flashing beacons, signs and pavement markings, and speed limit signs.
- The Bike Master Plan Protected Bike Lanes project includes \$17.4 million in 2024 to provide a space used for bicycles separated from motor vehicles, parking lanes, and sidewalks. Improvements include installing bike lanes separated from general traffic with paint or barriers, bicycle route signing, bike/pedestrian signals, and restructuring trails.
- Bike Master Plan Urban Trails and Bikeways project supports the City’s Urban Trails and Bikeways. Activities include spot improvements, bike parking, and programs that promote safety and encourage riding. The Proposed CIP includes \$1.9 million for this project in 2024.

The table below shows a summary of the Bicycle Master Plan investments:

Bike Master Plan Projects	2024
BMP - Greenways	\$3,551,694
BMP - Protected Bike Lanes	\$17,377,258
BMP - Urban Trails and Bikeways	\$1,911,119
<b>Total</b>	<b>\$22,840,071</b>

In addition to the projects solely dedicated to delivering the Pedestrian and Bicycle Master Plans, there are many SDOT capital projects that indirectly contribute improvements that advance the plans. The table below shows projects that support both the Bike and Pedestrian Master Plans; note that the dollars shown are for 2024 estimated costs and not the entire capital project funding in each case.

Projects that Support the Bike & Pedestrian Master Plan	2024
Aurora Avenue North Safety Improvements	\$4,100,000
Heavy Haul Network Program - East Marginal Way	\$40,655,140
Madison BRT - RapidRide G Line	\$32,333,523
Neighborhood Large Projects	\$3,658,284
North of Downtown Mobility Action Plan	\$1,025,641
Northgate Bridge and Cycle Track	\$2,320,389
Overlook Walk and East-West Connections Project	\$6,250,000
RapidRide Roosevelt	\$39,707,488
Route 40 Transit-Plus Multimodal Corridor	\$12,623,157
Route 44 Transit-Plus Multimodal Corridor	\$105,880
Safe Streets and Roads for All	\$4,393,000

**2024-2029 Proposed Capital Improvement Program**

## Department of Transportation

Sidewalk Safety Repair	\$4,994,671
Transit Corridor Improvements	\$4,054,860
Urban Design Capital Projects	\$250,000
Vision Zero	\$6,647,828
<b>Total</b>	<b>\$163,119,861</b>

Safe Streets and Roads for All is a new CIP project added in the 2023 Mid-Year Supplemental Budget Legislation. It will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project scope focuses on low-cost, high-impact safety improvements such as protected bicycle lanes, sidewalks, leading pedestrian internals, marked crosswalks, and traffic calming tools like speed cushions. Additionally, new ADA ramps and accessible pedestrian signals are scoped for approximately 60 signalized intersections. This new CIP has received a \$25.65 million grant from the Federal Highway Administration (FHWA), and \$6.48 million Vehicle License Fees (VLF) will be transferred from Vision Zero to the new CIP as the local matching fund.

***Transit Projects:***

The 2024-2029 Proposed CIP contains 11 transit projects (including Transit-Plus Multimodal Corridor (TPMC) projects). These TPMC projects redesign major streets with more frequent and reliable buses; and provide updates to improve connectivity and safety for all travelers, whether walking, biking, driving, or taking transit.

The TPMC projects include Madison BRT – RapidRide G Line, Route 7 Transit-Plus Multimodal Corridor (Rainier), Route 44 Transit-Plus Multimodal Corridor (Market/45th), Route 40 Transit-Plus Multimodal Corridor (Fremont/Northgate), RapidRide J Line, and Route 48 Transit-Plus Multimodal Corridor. These projects rely on a variety of Levy, local, and grant funding. Close to the final stage of Move Seattle Levy deliveries, majority of TPMC projects are expected to be completed by the end of 2024, including Delridge Way SW – RapidRide H Line (completed in 2023), Madison BRT – RapidRide G Line, Route 7 Transit-Plus Multimodal Corridor (Rainier), and Route 44 Transit-Plus Multimodal Corridor (Market/45<sup>th</sup>).

A new TPMC CIP project, NE 130th St/NE 125th Corridor Improvements, was created in the 2023 Mid-Year Supplemental Budget Legislation. This project will establish a new multimodal corridor to connect light rail riders to the future NE 130th St light rail station by improving transit reliability, safety, bus stop amenities, and pedestrian and bicycle accessibility concurrent with the station opening in 2025. The project has received a \$5.48 million grant from FHWA and a \$9.8 million grant from Washington State Department of Transportation (WSDOT).

In addition to the large capital Transit-Plus Multimodal Corridor projects, the CIP contains budget for transit spot improvements throughout Seattle. These spot improvements focus on operational efficiencies (which help reduce travel time and therefore operational costs), safety, and access enhancements (which improve the rider experience while enhancing safe conditions for riders of all abilities). Investments include installing queue jumps, bus-only lanes, in-lane stops/bus bulbs, and bus stop and station access amenities. SDOT also provides support for Sound Transit projects through public engagement, design review, permitting and construction support for transit stations as well as constructing pedestrian and bicycle enhancements and implementing Restricted Parking Zones adjacent to new stations.

**2024-2029 Proposed Capital Improvement Program**

The table below shows a summary of transit-related investments:

Transit Projects (excluding Streetcar Projects)	2024
3rd Avenue Corridor Improvements	\$3,200,000
Harrison St Transit Corridor	\$500,000
Lynnwood Link Extension	\$65,000
Madison BRT - RapidRide G Line	\$32,333,523
NE 130th St/NE 125th Corridor Improvements	\$3,506,000
RapidRide Roosevelt	\$39,707,488
Route 40 Transit-Plus Multimodal Corridor	\$12,623,157
Route 44 Transit-Plus Multimodal Corridor	\$105,880
Seattle Transportation Benefit District - Transit Improvements	\$11,500,000
Sound Transit 3	\$7,319,346
Transit Corridor Improvements	\$4,054,860
<b>Total</b>	<b>\$114,915,254</b>

**Freight Projects:**

The Heavy Haul Network Program East Marginal Way project currently has two Segments, North and Central, to maximize grant utilization and deliver safety improvements as quickly as possible. The North Segment reconstructs 2.12 miles of East Marginal Way to heavy haul pavement standards supporting freight traffic, constructs a two-way protected bike lane between South Atlantic and South Spokane Street, and makes signal improvements aimed at increasing safety for people using both modes. The Central Segment reconstructs 0.63 miles of East Marginal Way and creates a shared-use path between South Spokane Street and Diagonal Avenue South. The 2024-2029 Proposed CIP includes a \$40.7 million budget in 2024 for this project; \$39.4 million is from grants or partnership funding, with the remaining \$1.3 million from the REET allocation.

The Proposed CIP also includes \$3.1 million in 2024 (funded by \$1.5 million Move Seattle Levy and \$1.6 million grants) for the Freight Spot Improvement project. These smaller-scale vital freight spot improvements include pavement repairs in industrial areas, turning radius adjustments, and other sign and operational improvements to facilitate movement of freight throughout the city. Funding allocation varies year to year based on planned projects.

The table below shows a summary of the Freight Master Plan investments, including all funds supporting these projects:

Freight Master Plan Projects	2024
Freight Spot Improvement Program	\$3,114,000
Heavy Haul Network Program - East Marginal Way	\$40,655,140
<b>Total</b>	<b>\$43,769,140</b>

**Bridge & Structures Projects:**

## Department of Transportation

The City owns 126 bridges and maintaining all of them in appropriate condition is a major challenge. The Bridge Rehabilitation program in the 2024-2029 Proposed CIP explores the feasible rehabilitation and replacement options for the long-term future of 10 bridges. There is also funding set aside for the improvement of pedestrian and bicycle safety on or near City-owned bridges. The Move Seattle Levy also provides funding for the next phase in the Bridge Seismic program. Eleven bridges are being evaluated as part of the current bridge seismic retrofit program; these bridges are located throughout the city. The 2024-2029 Proposed CIP also includes \$7.5 million in 2024 for the Bridge Painting program, which is a critical asset preservation project for the City’s 20 structural steel bridges.

\$11 million is appropriated for the Structures Major Maintenance program in 2024; the budget includes \$2 million from the new \$10 Vehicle License Fee increase that adopted by the City Council in November 2022. This program provides funding for major maintenance and rehabilitation of the City's bridges and structural assets, including: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

In addition to the ongoing bridge programs, the West Seattle Bridge Repair Project is expected to be completed in 2024, as the package of Reconnect West Seattle mitigation projects and bridge close-out activities finish the remaining work after the bridge reopening in 2022.

Besides bridges, SDOT also maintains more than 600 retaining walls throughout Seattle. The 2024-2029 Proposed CIP includes \$212,000 in funding for small scale retaining wall repairs throughout the city.

Bridge & Structures	2024
Bridge Load Rating	\$273,288
Bridge Painting Program	\$7,499,516
Bridge Rehabilitation and Replacement Phase II	\$2,923,251
Bridge Seismic - Phase III	\$26,015,579
Hazard Mitigation Program - Areaways	\$404,000
Retaining Wall Repair and Restoration	\$212,000
Structures Major Maintenance	\$11,133,941
West Seattle Bridge Immediate Response	\$4,681,500
<b>Total</b>	<b>\$53,143,075</b>

### ***Seattle Waterfront Capital Projects:***

There are four major capital projects in the SDOT budget related to the downtown waterfront. These projects were created in response to the 2001 Nisqually Earthquake that damaged the WSDOT SR-99 Viaduct on the Seattle Waterfront and made the structure vulnerable to failure in a future seismic event. Subsequent analysis of the viaduct showed the Elliott Bay Seawall timbers were deteriorating and could similarly fail during a seismic event. A decision to replace the viaduct with a tunnel for SR 99 was subsequently made by WSDOT, and Seattle voters approved funding to replace the Elliott Bay Seawall. Since both projects would dramatically affect the waterfront, in 2012, the City Council adopted the Waterfront Concept Design, Framework Plan and Strategic plan to guide restoration of a surface street along the waterfront and numerous public improvements aimed at both improving transportation and creating new public spaces for residents and visitors to enjoy.

## 2024-2029 Proposed Capital Improvement Program

The Elliott Bay Seawall Project was completed in 2017. WSDOT opened the tunnel and demolished the old viaduct structure and restored waterfront access, part of which is constructed as part of the Alaskan Way Viaduct Replacement Project. Viaduct removal cleared the way for the Alaskan Way Main Corridor transportation project, which began in 2019. Work also began on the East-West Connections Project, including the Overlook Walk in 2021. The Seattle Department of Parks and Recreation is funding additional projects under construction, including the Aquarium Expansion and rehabilitating two piers established as public parks (led by the Office of the Waterfront and Civic Projects), and the 2023 budget proposal includes a Facilities and Administrative Services project for a Waterfront Operations & Tribal Interpretive Center building including property acquisition and rehabilitation.

The Alaskan Way Viaduct Replacement Project includes SDOT's costs related to design review, permitting issuance and administration, and construction support and acceptance of WSDOT-funded projects. The WSDOT-funded improvements include the SR-99 Bored Tunnel (which opened to traffic in February 2019), demolition of the Viaduct structure, improvements to reconnect the street grid at the north and south tunnel portals, and the Battery Street Tunnel Decommissioning. The Alaskan Way Main Corridor and the Overlook Walk and East-West Connection projects are led by the Office of the Waterfront and Civic Projects. The Alaskan Way Main Corridor project began work in 2019 and includes the design and construction of the Alaskan Way/Elliott Way surface street, a 2-way bike facility, and the adjoining pedestrian promenade along the waterfront along with several east-west connections that are primarily funded by WSDOT (e.g., the Marion Street Pedestrian Bridge). Elliot Way opened in Spring 2023. Alaskan Way and the Promenade remain in construction with substantial completion is slated for mid-2025. The 2024 budget proposal includes a request for \$25 million in bonding authority to address costs related to schedule extensions due to a 5-month concrete strike in 2021-22 and delays related to the COVID-19 pandemic. The City is engaging with the Washington Legislature to share costs related to these events.

The Overlook Walk and East-West Connections projects include the Overlook Walk which provides pedestrian connections between the waterfront and the Aquarium and Pike Place Market. Construction of the East-West Connection projects began in 2021 with the start of the Union Street Pedestrian Bridge project, which has now been completed. The Pike/Pine project construction began in early 2023, and Pioneer Square work is set to begin in late 2023. The Overlook Walk began construction in earnest in 2022, with substantial completion anticipated in early 2025.

### CIP Revenue Sources

Multiple funding sources support the Transportation CIP, including:

- Move Seattle Levy;
- Gas Tax;
- Multimodal funds;
- Real Estate Excise Tax;
- Commercial Parking Tax;
- Vehicle License Fees;
- Long-term financing (general obligation bonds);
- JumpStart Payroll Expense Tax (payroll tax);
- Public Works Trust Fund Loans;

### 2024-2029 Proposed Capital Improvement Program

## Department of Transportation

- Sales Tax;
- Street vacation revenues;
- School Safety and Pedestrian funds;
- Landscape Conservation & Local Infrastructure Program;
- Waterfront Local Improvement District (LID) assessment tax;
- Street use fees;
- Property sale proceeds;
- Federal and state grants; and
- Funds from various funding partners, such as Sound Transit, the Port of Seattle and the Washington State Department of Transportation.

In 2024 the SDOT Proposed CIP budget is \$369.6 million, funded from the following sources:

### **Local Revenues**

Local funding sources for the Transportation CIP include Move Seattle Levy proceeds, Gas Tax, Multimodal funds, Cumulative Reserve Real Estate Excise Tax (REET) I & II, Commercial Parking Tax, Vehicle License Fees, JumpStart Payroll Expense Tax (payroll tax), School Safety Traffic and Pedestrian Improvement (SSTPI) funds, voter-approved sales tax from the Seattle Transit Measure, and Landscape Conservation & Local Infrastructure Program (LCLIP) revenues. These revenues are for programs that improve or maintain the City's transportation system or to provide local matching funds to SDOT's funding partners on large capital projects.

### **Thematic Priorities**

## **2024-2029 Proposed Capital Improvement Program**

SDOT's vision for Seattle is a thriving, equitable community powered by dependable transportation. The organization's mission is to deliver a transportation system that provides safe and affordable access to places and opportunities. To accomplish this, SDOT prioritizes services and capital projects based on the core principles in the City's 10-Year Strategic Vision for Transportation - Move Seattle. The goal of the strategic vision is to organize actions around SDOT's core values:

1. **Equity** – We believe transportation must meet the needs of communities of color and those of all incomes, abilities, and ages. Our goal is to partner with our communities to build a racially equitable and socially just transportation system.
2. **Safety** – We believe everyone should be able to move safely throughout the City. Our goal is to create safe transportation environments and eliminate serious and fatal crashes in Seattle.
3. **Mobility** – We believe transportation choices are critical to access opportunity. Our goal is to build, operate, and maintain an accessible transportation system that reliably connects people, places, and goods.
4. **Sustainability** – We believe environmental health should be improved for future generations through sustainable transportation. Our goal is to address the climate crisis through a sustainable, resilient transportation system.
5. **Livability** – We believe transportation is essential to support daily life. Our goal is to manage our streets and sidewalks to enrich public life and improve community health.
6. **Excellence** – We believe in exceeding the expectations of the communities we serve. Our goal is to build an SDOT team committed to excellence and equipped with skills to meet the challenges of today and tomorrow.

Transportation projects are initiated through numerous methods including planning processes (modal, subarea, neighborhood planning), preservation, operations and safety needs assessment, regulatory requirements, and elected official direction.

Community members have significant input in development of all SDOT plans through public engagement processes. Seattle's Pedestrian, Bicycle, Transit and Freight Advisory Boards are also consulted regularly to provide input on project/program needs. Since 2016, the Move Seattle Levy Oversight Committee has reviewed SDOT's program and project priorities and financial plans, and made recommendations to the Department, the Mayor, and City Council on the allocation of resources. Representatives from SDOT regularly meet with the Oversight Committee, to provide updates and solicit input on the allocation of resources. Prior to 2016, the Bridging the Gap Oversight Committee performed the same advisory function. Starting in 2022, a Transportation Equity Framework being codeveloped with a Transportation Equity Workgroup will influence decisions and investments as well.

Many factors can affect SDOT's project and funding decisions, including regulatory requirements, State and federal law (such as the Americans with Disabilities Act), and construction seasons. Opportunities to leverage the City's limited funding with grants or coordinating projects with other agencies can also affect SDOT's decisions on project prioritization and schedule.

In every case, SDOT strives to implement the City's policy goals laid out in Seattle's Comprehensive Plan and individual policy initiatives such as Complete Streets, the Race and Social Justice Initiative, Vision Zero, and the Climate Action Plan. SDOT's 10 Year Strategic Transportation Plan, modal plans, and subarea plans provide an overall framework for implementing these goals.

### 23rd Avenue Corridor Improvements

<b>Project No:</b>	MC-TR-C037	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	23rd AVE S/E John ST/Rainier AVE S
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	2013 - 2022	<b>Neighborhood District:</b>	Central
<b>Total Project Cost:</b>	\$62,478	<b>Urban Village:</b>	23rd & Union-Jackson

This multi-phase project will reconstruct sidewalks, enhance the pedestrian environment, reconstruct pavement, upgrade signalized intersections, upgrade controller cabinets to meet transit signal priority (TSP) needs, and accommodate Intelligent Transportation Systems (ITS) upgrades. Activities include the following: install ITS to provide travel time information; install fiber communication as needed along the corridor to relay information back to the Traffic Management Center; and install poles for support of future trolley wires in two gap segments of the trolley network. The project will also include design and construction of a 3-lane cross section (with 4 lanes at isolated intersections) between John Street and Rainier Ave South, as well as a greenway facility on a parallel street to facilitate north-south bicycle travel. Phases 1 and 2 are complete. The Vision Zero Phase 3 of the project will construct new traffic signals, parking modifications, new curb ramps, traffic calming, speed reduction, pedestrian safety, and transit stop improvements.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### 35th Avenue SW Paving

<b>Project No:</b>	MC-TR-C099	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	35th Ave. SW from SW Morgan St to SW Roxbury
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2023 - 2025	<b>Neighborhood District:</b>	Delridge
<b>Total Project Cost:</b>	\$35,000	<b>Urban Village:</b>	West Seattle Junction

This project will resurface and reconstruct 35th Ave. SW from SW Morgan St. to SW Roxbury St.

Unsecured Funding:	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
To Be Determined	-	-	-	35,000	-	-	-	-	35,000
<b>Total:</b>	-	-	-	<b>35,000</b>	-	-	-	-	<b>35,000</b>

**Unsecured Funding Strategy:** Funding for this project was not included as part of the Levy to Move Seattle paving commitments; the project is also not likely to rank highly for grant funding. Funding for this project may depend upon identification of new/incremental revenue sources.

**O&M Impacts:** This is a capital maintenance project that reduces the need for O&M by bringing assets to a new or like new condition.

### 3rd Avenue Corridor Improvements

<b>Project No:</b>	MC-TR-C034	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	3rd AVE
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Downtown

This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit streetpriority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### Accela Permitting System

<b>Project No:</b>	MC-TR-C001	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project will migrate SDOT permitting operations from the Hansen 7 system to the new Citywide Accela permitting platform. The vision for Accela is to create a fully integrated permitting system that provides an online, all in one place experience for Seattle customers and staff. Once the initial migration is complete, this project will provide ongoing funding for routine system improvements as well as periodic major upgrades needed to stay current with changing technology.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
Street Use Fees	-	(4,251)	1,000	-	-	-	1,000	-	(2,251)
Street Vacations - SVF	89	311	-	-	-	-	-	-	400
User Fees	18,085	9,644	-	1,000	-	-	-	-	28,728
<b>Total:</b>	<b>18,174</b>	<b>5,703</b>	<b>1,000</b>	<b>1,000</b>	<b>-</b>	<b>-</b>	<b>1,000</b>	<b>-</b>	<b>26,877</b>
Fund Appropriations / Allocations *	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
Transportation Fund	18,174	5,703	1,000	1,000	-	-	1,000	-	26,877
<b>Total:</b>	<b>18,174</b>	<b>5,703</b>	<b>1,000</b>	<b>1,000</b>	<b>-</b>	<b>-</b>	<b>1,000</b>	<b>-</b>	<b>26,877</b>

**O&M Impacts:** Maintenance for the permitting system is paid for via a central cost allocation from Seattle IT and then recovered against SDOT projects through overhead allocations. The \$1M annual budget after 2021 represents a sinking fund for eventual system replacement.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### Accessible Mt. Baker Implementation

<b>Project No:</b>	MC-TR-C002	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	2017 - 2024	<b>Neighborhood District:</b>	East District
<b>Total Project Cost:</b>	\$5,510	<b>Urban Village:</b>	Madison-Miller

The project will transform the Mt. Baker station area into a safer and comfortable place for people to walk, bike, and make transit connections; and for the Mt. Baker Town Center to take root and flourish. In addition to prioritizing walking and biking, the project will maintain transit and freight reliability and create more predictable conditions for people driving.

**Alaskan Way Main Corridor**

<b>Project No:</b>	MC-TR-C072	<b>BSL Code:</b>	BC-TR-16000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Central Waterfront
<b>Project Category:</b>	New Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2013 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$374,355	<b>Urban Village:</b>	Multiple

This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.

**O&M Impacts:** This project replaces aging infrastructure along the Central Waterfront providing an O&M benefit. It also builds new infrastructure for several City departments. The maintenance of the new public open space and pedestrian promenade will be funded primarily with Metropolitan Park District funds set-aside for this purpose. Transportation infrastructure capital elements are planned to be maintained through the proposed Waterfront Transportation Infrastructure Maintenance project, MC-TR-109.

### Alaskan Way Viaduct Replacement

<b>Project No:</b>	MC-TR-C066	<b>BSL Code:</b>	BC-TR-19002
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Projects
<b>Project Category:</b>	New Facility	<b>Location:</b>	Alaskan Way
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2001 - 2024	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$101,229	<b>Urban Village:</b>	Multiple

This project funds the City's involvement in the replacement of the Alaskan Way Viaduct with the bored tunnel hybrid alternative and is partnership with the Washington Department of Transportation. Replacement of this structure enhances overall safety, as this structure is seismically vulnerable. In prior years, this project included design of the Central Seawall and Waterfront Improvements. For transparency purposes, the Seawall and Waterfront work was moved into three independent capital projects: Elliott Bay Seawall (MC-TR-C014), Alaskan Way Main Corridor (MC-TR-C066), and Overlook Walk and East-West Connections (MC-TR-C073).

### Arterial Asphalt & Concrete Program Phase II

<b>Project No:</b>	MC-TR-C033	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

The Arterial Asphalt and Concrete Program maintains Seattle's arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

**Arterial Major Maintenance**

<b>Project No:</b>	MC-TR-C071	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project repairs and/or replaces deteriorated pavement on arterial streets. Arterial Major Maintenance paving work typically spans one to three city blocks. It allows the City to respond quickly and cost effectively to pavement issues that are too large to be addressed with a pothole repair but too small to be efficiently contracted. Project prioritization is based on pavement condition; cost; transit, bicycle, pedestrian and freight use; traffic volume; coordination opportunities; complaints and claims; and geographic balance across the city. The work extends the service life of existing pavement structures.

## Bike Master Plan - Greenways

<b>Project No:</b>	MC-TR-C063	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program creates routes on residential streets that are optimized for safer and more comfortable walking and biking for people of all ages and abilities. Typical improvements include curb ramps, speed humps, crosswalks, median islands, shared lane markings, stop signs, traffic signals, pavement and sidewalk repair, and wayfinding signs. The goals of the program are to design streets with lower vehicle speeds and volumes; to increase the number of people walking and biking on residential streets; and to improve walking and biking access to schools, trails, parks, transit and neighborhood businesses.

**Unsecured Funding Strategy:** SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

**Bike Master Plan - Protected Bike Lanes**

<b>Project No:</b>	MC-TR-C062	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. Life-to-date actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

This ongoing asset preservation program provides for the periodic painting of the City's steel structures that are maintained by the Roadway Structures Division. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life and is supplemented by annual physical inspections to assess the rate of deterioration.

### Bridge Rehabilitation and Replacement Phase II

<b>Project No:</b>	MC-TR-C039	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This asset preservation program funds major bridge rehabilitation or bridge replacement. The current program, funded by the Levy to Move Seattle, is focused on planning studies. The objective of these bridge planning studies is to identify if bridges should be rehabilitated or replaced, providing planning-level cost estimates to allow for the City to develop a funding plan for the future rehabilitation or replacement of these bridges.

**O&M Impacts:** This is a capital maintenance project that reduces the need for O&M by improving asset condition.

## Bridge Seismic - Phase III

<b>Project No:</b>	MC-TR-C008	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

The program prioritizes and implements seismic retrofits to bridges based on seismic vulnerability. Concept level analysis and evaluation is performed to develop a retrofit strategy and cost estimate. As funding allows, retrofit design and construction phases are implemented. If full funding is not available, seismic retrofits are scaled to the appropriate funding level that would still provide improvements in the bridge structure's seismic resiliency. As part of the evaluation process a cost-benefit assessment is made to determine if replacing the structure is a more appropriate course of action than retrofitting the structure. 16 bridges, 11 which are fully funded through construction and 5 to a concept design level, are part of the current phase of the program which is funded by the Levy to Move Seattle.

This project will advance the program planning and concept designs for Seattle's RapidRide and Transit-Plus Multimodal Corridor Expansion program. In order to deliver the corridor improvements, this work includes assessment and development of corridor design, detailed line and network ridership forecasting, capital cost estimates, traffic and environmental analysis, modal integration, and funding plans.

**Burke-Gilman Trail Extension**

<b>Project No:</b>	MC-TR-C044	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	New Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 6
<b>Start/End Date:</b>	1995 - 2025	<b>Neighborhood District:</b>	Ballard
<b>Total Project Cost:</b>	\$40,072	<b>Urban Village:</b>	Ballard

This project extends the Burke-Gilman Trail from its current terminus at Eighth Avenue NW to Golden Gardens Park. The segment from Eighth Avenue NW to 11th Avenue NW was constructed in 2001. The Ballard Locks to NW 60th Street segment was constructed in 2005. The NW 60th Street to Golden Gardens segment was constructed in 2008. The "Missing Link" segment from 11th Avenue NW to the Ballard Locks was planned for construction in 2011 and 2012 but has been delayed due to ongoing litigation.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

### Center City Gateway and South Michigan Street Intelligent Transportation Systems (ITS)

<b>Project No:</b>	MC-TR-C012	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	S Spokane ST/Western Ave/E Marginal Way/Stewart
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2015 - 2023	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$16,647	<b>Urban Village:</b>	Not in an Urban Village

The project will install traffic cameras, upgraded signals, vehicle detection devices and fiber communication in the Center City Gateway ITS and South Michigan Street ITS projects. The project will also construct an ITS corridor along Denny Way between Western Ave and Stewart including traffic signal modifications and closed-circuit television cameras, a dynamic message sign and ADA compliant ramps. A robust and reliable Intelligent Transportation System ensures that all modes of transportation can move through the City in a safe and sustainable manner.

<b>Total Project Cost:</b>	\$237,085	<b>Urban Village:</b>	Multiple

The Culture Connector (formerly the Center City Connector) is a 1.27-mile segment of the Seattle Streetcar that will link the South Lake Union and First Hill Streetcar lines, creating a system that will connect over a dozen Seattle neighborhoods in Seattle's Center City. The project includes procurement of up to ten additional streetcars and design and construction of track and guideway; station shelters and platforms; overhead contact system; traction power substation; storage facility expansion; roadway and drainage; ADA curb ramps; curb space management; and urban streetscape. The project was put on indefinite pause in July 2020 in response to Citywide budget shortfalls caused by Covid-19.

**Unsecured Funding Strategy:** SDOT will continue to work with the Mayor's office and City Council to determine the future of the project.

**O&M Impacts:** The Culture Connector would combine the two existing lines into a single Streetcar network. SDOT is currently working in collaboration with King County Metro on an operation plan for a single line. We expect to have an estimate of annual operating costs when the Center City Connector project reaches 30% design.

<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2016 - 2023	<b>Neighborhood District:</b>	Delridge
<b>Total Project Cost:</b>	\$57,346	<b>Urban Village:</b>	Not in an Urban Village

This project improves pavement conditions, enhances safety, and improves traffic operation for all modes. The project will add transit lanes and improve transit speed and reliability. It includes protected bike lanes, sidewalk improvements, and amenities for walkers and transit riders along the corridor. It will streamline traffic operations and improve Multimodal connections between transit, freight, pedestrians and general-purpose vehicles. The project is also a partnership between SDOT, SPU and SCL to upgrade utilities along the corridor in conjunction with the transportation work.

<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Fauntleroy WAY SW/35th AVE SW/SW Alaska ST
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>		<b>Neighborhood District:</b>	Southwest
<b>Total Project Cost:</b>	\$2,927	<b>Urban Village:</b>	West Seattle Junction

This project transforms Fauntleroy Way SW into a boulevard. The project elements include: a planted median, signature lighting fixtures, a protected bicycle facility, a pedestrian zone with sidewalks and planting areas including street trees, pedestrian lighting, potential stormwater infrastructure and art, as well as safety improvements for crossing movements for all modes. These safety improvements include bicycle and pedestrian crossings, signals, reconfigured intersections and bulbs, and pavement improvements. This project is on-hold pending Sound Transit decision on the West Seattle Extension alignment and does not have an expected Completion Date as a result.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project includes small scale mobility improvements to the City's street system to improve connections between port facilities, railroad intermodal yards, industrial businesses, the regional highway system, and the first and last miles in the supply chain. Project types include turning radius adjustments, channelization changes, left-turn improvements, and signage to direct freight to destinations and alert drivers to steep grades or sharp turns.

<b>Total:</b>	-	-	-	<b>1,800</b>	-	-	-	-	<b>1,800</b>

**Unsecured Funding Strategy:** Current funding provides for preliminary engineering, design and outreach. SDOT will evaluate the project for future funding opportunities following the preliminary planning and design phase.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

**Graham Street Station**

<b>Project No:</b>	MC-TR-C082	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	MLK between Graham and Morgan

<b>Start/End Date:</b>		<b>Neighborhood District:</b>	Southeast
<b>Total Project Cost:</b>	\$10,000	<b>Urban Village:</b>	Columbia City

This project funds the City's portion of an infill light rail station on the Sound Transit Central Link line near Martin Luther King Jr. Way South at South Graham Street, between the existing Columbia City and Othello Stations. The station would be in the northern portion of the MLK at Holly St Residential Urban Village. Funding from the Move Seattle Levy package is used to leverage a future partnership with Sound Transit.

**Financial Planning Strategy:** A combination of LCLIP, STM, and NODO local funding (\$3M) combined with \$4.2M of FHWA funding has been identified for the Design funding.

**O&M Impacts:**

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Hazard Mitigation Program - Areaways**

<b>Project No:</b>	MC-TR-C035	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Pioneer Square

This ongoing asset preservation program funds ongoing inspection and repair/reconstruction of areaways to reduce risks to City facilities and the general public. Areaways are usable space, generally in the street right-of-way, constructed under sidewalks between the building foundation and street wall. Typical improvements include, but are not limited to, repairs to an existing areaway or filling an areaway in order to eliminate the asset. Current work focuses on safety improvements of historic areaways in Pioneer Square.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project enables SDOT to address and repair landslide concerns that affect the right-of-way. The Landslide Mitigation Program provides SDOT with staff and resources to identify and prioritize landslide concerns, to undertake reconnaissance engineering and geotechnical studies of problem areas, and to make repairs at the highest priority locations, usually where landslide concerns have caused the roadway to be partially or completely closed.

### Heavy Haul Network Program - East Marginal Way

<b>Project No:</b>	MC-TR-C090	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	E Marginal WAY
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2016 - 2027	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$79,286	<b>Urban Village:</b>	Not in an Urban Village

This program supports freight mobility by funding roadway improvements on the Heavy Haul Network (Ordinance 124890) to meet the needs of freight transported on our streets between Port facilities, rail yards, and industrial businesses. The initial project under this Program is the E Marginal Way Corridor Improvement project, which will be a multi-phase project. Phase I constructs a separated bicycle/pedestrian facility between S Atlantic St and Spokane St. Phase II includes roadway reconstruction, signal and ITS enhancements and safety measures to reduce conflicts between freight and non-motorized users. The Port of Seattle, through Memorandum of Understanding, is to provide partnership funding.

Note: The project title changed from "Heavy Haul Network Program" to "Heavy Haul Network Program - East Marginal Way"

**Unsecured Funding Strategy:** SDOT plans to pursue a \$20M federal RAISE grant and anticipates a \$5.5M contribution from the Port of Seattle. SDOT is reviewing funding options for the remaining.

**O&M Impacts:** This is a capital maintenance project that reduces the need for O&M by improving asset condition. Since it also builds new assets, SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

### Highland Park Intersection Improvements

<b>Project No:</b>	MC-TR-C100	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Highland Park Way SW and SW Holden ST
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2019 - 2022	<b>Neighborhood District:</b>	Southwest
<b>Total Project Cost:</b>	\$3,554	<b>Urban Village:</b>	Not in an Urban Village

This project would mitigate collision and congestion issues at the intersection of Highland Park Way SW and SW Holden St. There are currently two alternatives being considered for this work. One alternative would be installing a new traffic signals, sidewalks, curb ramps and marked crosswalks. SDOT estimates the cost of this alternative at \$3M. The other alternative would install a roundabout at this intersection. After advancing design of the roundabout, we now know that significant grading is needed to accommodate the roundabout and avoid new safety issues. This has pushed the cost estimate to \$7.3M. The name of this project has been changed from Highland Park Roundabout to Highland Park Intersection Improvements. The name change occurred as part of the second quarter 2019 Supplemental Amendment-Attachment A.

<b>Start/End Date:</b>	2013 - 2024	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$166,921	<b>Urban Village:</b>	Multiple

This project will include concept design and environmental review of high-capacity transit and multimodal improvements in the Madison corridor between Alaskan Way and Martin Luther King Jr. Way, connecting the Central Area with the First Hill, Downtown, and Waterfront neighborhoods. The project is identified as a priority in the Transit Master Plan. The purpose is to improve transit capacity, travel time, reliability, connectivity, comfort, visibility, and legibility in the Madison corridor. The project title was previously "Madison Street Bus Rapid Transit".

### Magnolia Bridge Replacement Project

<b>Project No:</b>	MC-TR-C083	<b>BSL Code:</b>	BC-TR-19002
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Projects
<b>Project Category:</b>	New Facility	<b>Location:</b>	15th Ave NW and Magnolia Way W.
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>		<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$10,030	<b>Urban Village:</b>	Ballard-Interbay Northend

The environmental analysis for replacing this bridge evaluated several possible alternatives including rehabilitation of the existing structure. In 2007, an environmental assessment was published and described the preferred alternative, a new bridge south of and adjacent to the existing bridge. The Type, Size, and Location (TS&L) Report was completed in 2007, selecting a concrete box girder supported on flared columns as the appropriate structure type for this new bridge. The Levy to Move Seattle provided limited funds to conduct a plan study that would evaluate a more cost effective alternative than a "1-to-1" replacement. Even with the reduced cost for pursuing an alternative option than a full replacement, total project cost and a funding strategy to move the project forward is unclear. The project is currently on hold.

### NE 43rd Street Improvements

<b>Project No:</b>	MC-TR-C074	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	NE 43rd ST
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	2017 - 2020	<b>Neighborhood District:</b>	Northeast
<b>Total Project Cost:</b>	\$5,085	<b>Urban Village:</b>	University District

This project will implement streetscape and pedestrian improvements on NE 43rd Street between Brooklyn Ave NE and 15th Ave NE to improve access to the Link Light Rail station, which is scheduled to open in 2021. The project will transform the operation of NE 43rd St between Brooklyn Ave NE and University Way NE to one-way westbound transit-only travel and between University Way NE and 15th Ave NE to one-way westbound, all vehicle travel. The roadway will be optimized for pedestrians with a curb-less roadway section, widened sidewalks, pedestrian illumination, bio retention, and rain gardens. A protected bike lane will be provided for eastbound bike traffic and westbound bicycle traffic will share the travel lane with westbound traffic. The project is scheduled to begin construction in the summer of 2020.

This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The projects are funded by the Move Seattle transportation levy and it is a triennial program. The projects funded are identified by the community and the Move Seattle Oversight Committee.

**Unsecured Funding Strategy:** Funding for this program beyond 2024 is dependent upon a future voter approved levy.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

This ongoing program identifies projects estimated less than \$100,000 that are prioritized through participatory budgeting in each of the 7 council districts. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality, and condition of the pedestrian and neighborhood environments. This project was formerly known as "NPSF Neighborhood Parks Street Fund" and "NSF/CRS Neighborhood Program."

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

**Non-Arterial Street Resurfacing and Restoration**

<b>Project No:</b>	MC-TR-C041	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project repairs and/or replaces deteriorated asphalt pavement and/or concrete panels on non-arterial streets. Project locations are chosen annually based upon the degree of deterioration as confirmed by Department staff field observations, citizen service requests, claims, and potential City liability. High priority is given to non-arterial streets used by transit, in areas with heavy pedestrian and bicycle traffic, and which serve business and industry.

## North of Downtown Mobility Action Plan

<b>Project No:</b>	MC-TR-C101	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Seattle Center
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Lake Union
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Uptown

This project will construct transportation related improvements in the North Downtown area in support of the Seattle Center Arena Redevelopment project. The City is also partnering with the Port of Seattle to improve movement of cargo and other modes on city streets, including 15th Ave W/Elliott Ave W/Mercer St corridor areas around Seattle Center.

**Unsecured Funding Strategy:** SDOT will pursue bonds or other short-term loans, such as an inter-fund loan, to resolve potential funding deficits.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

## Northgate Bridge and Cycle Track

<b>Project No:</b>	MC-TR-C030	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	2013 - 2021	<b>Neighborhood District:</b>	North
<b>Total Project Cost:</b>	\$56,154	<b>Urban Village:</b>	Northgate

This project will construct pedestrian and bicycle improvements to enhance access to the planned Sound Transit Light Rail station at Northgate. The improvements include a pedestrian and bike bridge over I-5 and a multi-use path along 1st Avenue NE; that was complete in 2021. The stream mitigation work will continue through 2024 and is currently in the design phase.

### Northlake Retaining Wall

<b>Project No:</b>	MC-TR-C102	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Northlake Way @ Stone Way
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	2019 - 2028	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost Range:</b>	41,130 - 50,270	<b>Urban Village:</b>	Fremont

This project will replace the Northlake Retaining Wall, which is a 452-foot-long lakefront timber structure that was constructed in 1951 and is located at the north end of Lake Union adjacent to North Northlake Avenue. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly outshore and adjacent to the wall, and the close proximity of overhead power lines and subsurface utility infrastructure.

<b>Total:</b>	-	-	-	<b>23,398</b>	-	-	-	-	<b>23,398</b>

**Financial Planning Strategy:** The estimated cost to reach the 100% design level is \$4,000,000, \$2,000,000 of which will be funded by LTGO bonds. The remaining \$2,000,000 needed to reach 100% of design will be funded with Street Vacations proceeds.

At 30% design, SDOT will reevaluate the total project cost and the financial planning strategy for the remaining costs of the project, which will include local funding, debt financing, and grant funding.

**O&M Impacts:** There will be ongoing operations and maintenance (O&M) costs for SDOT to maintain the retaining wall after full replacement. The estimate is \$50,000/year over the 75-year design life of the structure which includes labor (maintenance, engineering, and inspection) and non-labor (materials). This would be added to the Bridge/Structures Maintenance O&M budget. An O&M BIP will be submitted along with subsequent BIPs for the final design phases in the future.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Overlook Walk and East-West Connections Project**

<b>Project No:</b>	MC-TR-C073	<b>BSL Code:</b>	BC-TR-16000
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Central Waterfront
<b>Project Category:</b>	New Investment	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2013 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$199,339	<b>Urban Village:</b>	Downtown

Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.

**O&M Impacts:** This project includes a mix of upgrading existing streets and building new infrastructure. O&M for new public open spaces, such as the Overlook Walk will be funded by the Metropolitan Park District. Transportation infrastructure capital elements are planned to be maintained through the proposed Waterfront Transportation Infrastructure Maintenance project, MC-TR-109.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Pedestrian Master Plan - Crossing Improvements**

<b>Project No:</b>	MC-TR-C061	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the installation of new marked crosswalks, curb bulbs, pedestrian signals, curb ramps, and pedestrian lighting. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Unsecured Funding Strategy:** SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

**Pedestrian Master Plan - New Sidewalks**

<b>Project No:</b>	MC-TR-C058	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	New Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.

## Pedestrian Master Plan - School Safety

<b>Project No:</b>	MC-TR-C059	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program implements the Pedestrian Master Plan. This sub-program, Stairway Rehabilitation, funds projects to rebuild and/or rehabilitate stairways to current standards, including but not limited to: adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act.

**Unsecured Funding Strategy:** Funding for this program beyond 2024 is dependent upon a future voter approved levy.

**O&M Impacts:** This is a capital maintenance project that reduces the need for O&M by improving asset condition.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

## RapidRide C &amp; D Line Improvements

<b>Project No:</b>	MC-TR-C106	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	New Investment	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2021 - 2024	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$2,300	<b>Urban Village:</b>	Multiple

This project will deliver additional transit spot improvements aimed at improving travel time and reliability along RapidRide C&D lines, in preparation for Light Rail extensions into the West Seattle and Ballard neighborhoods. These projects make changes to SDOT-owned infrastructure, including streets and signals, and will result in adjustments to signal and street operations. Due to Sound Transit Board realignment decisions in August 2021, SDOT no longer anticipates \$12M investment in RapidRide C&D Lines in 2021 and 2022. The CIP Budget was revised in 2022 to reflect the new project schedule.

This project will provide a high-quality transit service connecting Downtown Seattle with the neighborhoods of Belltown, South Lake Union, Eastlake, and University District. This project also includes protected bike lane, streetscape, intersection and traffic signal improvements and improving accessibility including ADA-compliant curb ramps. This project was formerly titled RapidRide Roosevelt.

<b>Start/End Date:</b>	2023 - 2032	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$5,500	<b>Urban Village:</b>	Multiple

"Revive I-5 Preserving a Vital Freeway" is a State of Washington project where dozens of preservation projects are planned to revive Interstate 5 in King and Snohomish counties. The State's Revive I-5 projects will include pavement repair and full replacement, expansion joints, and seismic work to strengthen bridges against earthquakes. The City of Seattle will support the State's efforts by installing transit priority measures and other operational improvements on City streets, that may include dedicated bus priority lanes, new signal improvements and communication systems. The City will also support this effort with commute trip reduction programs, real-time support for signal timing changes, transportation operations monitoring, and communication of real-time traffic conditions and incident response.

<b>Total Project Cost:</b>	\$17,557	<b>Urban Village:</b>	Multiple

This project will implement speed and reliability improvements along the Route 44 corridor. This project seeks to improve and make reliable the connection between the University of Washington, Wallingford, and Ballard. The project may add bus lanes, pedestrian improvements, channelization changes, signal modifications, transit signal priority, and new adaptive signals.

### Safe Streets and Roads for All

<b>Project No:</b>	MC-TR-C125	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Citywide, Multiple
<b>Start/End Date:</b>	2023 - 2027	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$32	<b>Urban Village:</b>	Multiple

This project will design and construct a variety of proven countermeasures that are heavily concentrated in our most disadvantaged and disinvested communities. The project focuses on low-cost, high-impact safety improvements such as protected bicycle lanes, sidewalks, leading pedestrian internals, marked crosswalks, and traffic calming tools like speed cushions. Additionally, new ADA ramps and accessible pedestrian signals are scoped for approximately 60 signalized intersections.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project will maintain and improve Seattle’s designated shoreline street ends. There are currently 142 shoreline street ends throughout Seattle. Shoreline street ends are community assets, which provide the opportunity for residents and visitors to experience and enjoy Seattle’s shorelines. This project improves public access, protects unique views, and enhances habitat to create long-lasting assets.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### Sidewalk Safety Repair

<b>Project No:</b>	MC-TR-C025	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project rehabilitates sidewalks damaged by street trees or where there are serious safety concerns as evidenced by claims, service requests, and potential City liability. The project includes opportunities for public/private partnerships with citizens, property owners, and businesses. Asset management principles are used to guide repair needs and establish priorities for maintaining the sidewalk (or walkway), curbs, curb ramps, and in some cases, a filler strip between the sidewalk and curb.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project addresses major work related to the basic infrastructure at traffic signals such as poles, span wires, mast arms, wiring, equipment interconnectivity, video equipment and cabinets to improve and upgrade the traffic signal system. The project also is used for replacement of signal cabinets. The expected life of a signal is 30 years; currently there are more than 1,100 signals within the City.

### Sound Transit - East Link

<b>Project No:</b>	MC-TR-C004	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	New Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2011 - 2025	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$993	<b>Urban Village:</b>	Multiple

This project provides design review, permitting, and construction support services for the Sound Transit East Link Extension project. It will provide a connection from the Eastside to downtown Seattle, Sea-Tac Airport and the University of Washington. Ten stations will serve Seattle, Mercer Island, Bellevue, Bel-Red and Overlake in Redmond.

**SPU Drainage Partnership - Broadview Pedestrian Improvements**

<b>Project No:</b>	MC-TR-C036	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 5
<b>Start/End Date:</b>	2016 - 2022	<b>Neighborhood District:</b>	Northwest
<b>Total Project Cost:</b>	\$8,950	<b>Urban Village:</b>	Bitter Lake Village

This project funding will be used to install pedestrian improvements as part of SPU's larger Broadview Sewer and Drainage Improvement project. The Broadview sewer system was built in the 1950's and cannot handle the combination of additional flow from the homes and business that have developed since then and the additional storm water that is entering the system from downspouts directly connected to the sewer system as well as additional storm water entering through deteriorated pipes. This area is also lacking conventional sidewalks and would benefit from pedestrian improvements. The overall project goal is to reduce the potential for sewer backups and surface flooding for the Broadview neighborhood while improving the pedestrian environments.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**SPU Drainage Partnership - South Park**

<b>Project No:</b>	MC-TR-C054	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	TBD
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2016 - 2023	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$9,999	<b>Urban Village:</b>	South Park

This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges. For SDOT, the annual O&M cost to support new City-owned and maintained infrastructure built by the next major phase of the SR-520 program is estimated at \$56,000. The SR-520 program will also replace existing City infrastructure, such as new street and sidewalk pavement, which will reduce SDOT annual O&M costs in the near term.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

This ongoing program provides for major maintenance and rehabilitation of the City's bridges and structural assets maintained by SDOT's Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of concrete and steel structures, and site protection of bridge facilities.

**O&M Impacts:** This is a capital maintenance project that reduces the need for O&M by improving asset condition.

### Thomas Street Redesigned

<b>Project No:</b>	MC-TR-C105	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Thomas St. from 5th Ave N to Dexter Ave N
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2020 - 2023	<b>Neighborhood District:</b>	
<b>Total Project Cost:</b>	\$6,225	<b>Urban Village:</b>	Uptown

Thomas St Redefined will implement planned improvements between Taylor Ave N and Dexter Ave N, and along Taylor Ave N adjacent to the Seattle City Light Substation. Phase 1 includes all required Seattle City Light frontage improvements adjacent to the substation, a new multiuse path with landscape buffers, a dedicated pedestrian sidewalk with significant landscaping, new street trees, new pedestrian lighting, new street lighting and interim improvements of a bike lane and plaza between 5th Ave N and Taylor Ave N. Phase 2 will transform the interim improvements into permanent improvements.

This project includes funding transferred from other capital projects for trees and landscaping costs. This project is necessary to allow for capital projects to close in a timely way, but to ensure support to complete the three-year establishment for trees and associated planting installed by the project. This project also includes funding from fees paid by developers for the Payment in Lieu of tree planting program established in Ordinance 126821.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

Seattle’s Vision Zero initiative is aimed at ending traffic deaths and serious injuries on city streets by 2030 through street design, education, engagement, and partnership. At the core of the international Vision Zero movement is the belief that no loss of life is acceptable; that humans make mistakes; and that cities should design a system that accounts for imperfection so that when a crash occurs, it doesn’t result in death or injury. This program approaches the challenge of fatal and serious injury crashes from the angle of redesigning streets to emphasize safety, predictability, multimodal mobility, and the potential for human error. It will complete 12-15 corridor safety projects over 9 years to improve safety for all travelers on our highest injury streets. In addition, Vision Zero is focused on taking a proactive, systemwide approach to move toward a safer system for all.

### Waterfront Transportation Infrastructure Maintenance

<b>Project No:</b>	MC-TR-C109	<b>BSL Code:</b>	BC-TR-16000
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Central Waterfront
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Central Waterfront
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Downtown

The Waterfront Seattle program is reconstructing existing transportation infrastructure, Alaskan Way and Elliott Way as well as other streets and bridges. It is also building new transportation infrastructure: the Union Street Pedestrian Bridge, Overlook Walk and Pine Street connector. Each of these program elements includes transportation assets such as pavement, sidewalks, ADA ramps, signs, signals, markings and landscapes that will need on-going maintenance to remain safe and in a state of good repair.

This program is a capital infrastructure maintenance program to keep the new and rebuilt assets in a state of good repair, consistent with long-term maintenance commitments made by the City. It is also intended that this program set aside funds for future asset replacement or rehabilitation as necessary.

**O&M Impacts:** This program is intended to address the on-going maintenance needs of the new or reconstructed transportation assets provided by the Waterfront program.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### West Marginal Way Safe Street and Accessibility Improvements

<b>Project No:</b>	MC-TR-C103	<b>BSL Code:</b>	BC-TR-19003
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Mobility-Capital
<b>Project Category:</b>	New Facility	<b>Location:</b>	West Marginal Way SW and SW Alaska St
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2020 - 2022	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$3,300	<b>Urban Village:</b>	Not in an Urban Village

This project will implement rail crossing improvements, street crossing improvements, and sidewalk connections in the vicinity of West Marginal Way SW and SW Alaska St. Funding for the project in 2020 (\$750,000) is intended project design and agency coordination with the BNSF Railway.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
LTGO Bond Proceeds	1,258	1,542	-	-	-	-	-	-	2,800
Real Estate Excise Tax II	79	421	-	-	-	-	-	-	500

2021 West Seattle Bridge Repair LTGO Bond Fund	1,253	397	-	-	-	-	-	-	1,650
2022 Multipurpose LTGO Bond Fund	5	1,145	-	-	-	-	-	-	1,150
REET II Capital Fund	79	421	-	-	-	-	-	-	500
<b>Total:</b>	<b>1,337</b>	<b>1,963</b>	-	-	-	-	-	-	<b>3,300</b>

**Unsecured Funding Strategy:** Funding for this project may depend upon the availability of grants or identification of new/incremental revenue sources.

**O&M Impacts:** SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

## West Seattle Bridge Immediate Response

<b>Project No:</b>	MC-TR-C110	<b>BSL Code:</b>	BC-TR-19001
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Major Maintenance/Replacement
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	West Seattle Bridge Spanning the Duwamish
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2020 - 2024	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost Range:</b>	159,170 - 224,711	<b>Urban Village:</b>	Not in an Urban Village

This CIP funds the West Seattle Bridge Program, including broad community engagement efforts and the Reconnect West Seattle multimodal strategy. The capital delivery components include emergency repairs and bridge stabilization work, high bridge and low bridge rehabilitation, low bridge improvements, and high bridge replacement planning. In parallel, this CIP funds a broad multimodal capital strategy (Reconnect West Seattle) to accommodate cross-Duwamish travel that formerly used the high bridge in partnership with King County Metro, Sound Transit, WSDOT, Washington State Ferries, BNSF, the Port of Seattle, other state and federal agencies, private mobility providers, large employers, and the general public.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
City Light Fund Revenues	-	1,319	-	-	-	-	-	-	1,319
Drainage and Wastewater Rates	-	21	-	-	-	-	-	-	21
Federal Grant Funds	30,427	2,542	4,682	-	-	-	-	-	37,651

Vehicle License Fees \$60 & 0.1% Sales Tax	4,541	459	-	-	-	-	-	-	5,000
<b>Total:</b>	<b>111,817</b>	<b>41,689</b>	<b>4,682</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>158,188</b>
Fund Appropriations / Allocations *	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
2021 West Seattle Bridge Repair LTGO Bond Fund	59,616	14,947	-	-	-	-	-	-	74,564
2022 Multipurpose LTGO Bond Fund	7,603	23,031	-	-	-	-	-	-	30,634
Transportation Benefit District Fund	4,541	459	-	-	-	-	-	-	5,000
Transportation Fund	40,057	3,252	4,682	-	-	-	-	-	47,990
<b>Total:</b>	<b>111,817</b>	<b>41,689</b>	<b>4,682</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>158,188</b>

**Financial Planning Strategy:** SDOT and CBO continue to evaluate the funding strategy for the repair and replacement of the West Seattle Bridge. The initial funding will be LTGO bonds, with the debt service paid for by Real Estate Excise Tax. SDOT will work to identify potential partnership funding.

**O&M Impacts:** O&M Costs are still being evaluated.

# Seattle City Light

## Overview

Seattle City Light (City Light) is a municipally owned electric utility that operates as a department of the City of Seattle. The utility serves a population of approximately 955,000 people living in a 131 square-mile area, which includes the City of Seattle and several adjoining jurisdictions. To serve these customers, City Light owns, maintains, and operates a multi-billion-dollar physical plant. The physical plant includes:

- A power generation system consisting of seven hydroelectric plants on the Pend Oreille, Skagit, Cedar, and Tolt rivers with a combined capacity of approximately 2,000 megawatts.
- 667 miles of high-voltage transmission lines.
- A distribution system with 16 major substations and more than 2,500 miles of overhead and underground cable.
- A state-of-the-art System Operations Center coordinating the City's electric system.
- Billing and metering technology tracking over 482,000 accounts.

City Light's Capital Improvement Program (CIP) is the vehicle for repairing, upgrading, and expanding this infrastructure. With planned spending of \$2.75 billion over the 2024-2029 timeframe, the CIP funds a variety of safety improvements, mitigation activities, and licensing requirements. Funding for the CIP comes primarily from retail electricity sales, sales of surplus power on the wholesale market, and the sale of revenue bonds. Federal and state grant funding is also an expected source in this timeframe.

## Thematic Priorities

The CIP underpins City Light's core mission of providing customers with affordable, reliable, and environmentally responsible energy services. The CIP reflects ongoing operational priorities as well as new business strategies identified in the utility's 2023-2028 Strategic Plan update. The update continues work on the five business strategies first described in the 2022-2026 Strategic Plan:

### 1. Improve the Customer Experience

City Light is focused on engaging with our customers and helping employees see the impact of their actions from the customers' perspective. We are making investments to enhance accessibility, offer new program choices, and better meet our customers' diverse needs.

### 2. Create Our Energy Future

Creating our energy future involves responsibly growing demand for clean energy through electrification, investing in access to low-cost carbon-free renewable power, and building and maintaining a smart, resilient, flexible, dynamic, and reliable grid infrastructure. Past budgets added significant funding for electrification and grid modernization in anticipation of federal and state infrastructure grant opportunities.

### 3. Develop Workforce and Organizational Agility

Our industry is transforming quickly, and so are our customers' needs. City Light is building an organization that is nimble, adaptive, and responsive by investing in strong change management, workforce development, and new technology resources.

### 4. Ensure Financial Stewardship and Affordability

To deliver rates that are affordable for all, City Light is leaning into strong fiscal management and new pricing options to help customers manage their energy bills through efficient use of City Light's products and services.

## 5. We Power

“We Power” refers to our core mission as a utility – to provide our customers with affordable, reliable, and environmentally responsible energy services. Critical CIP efforts funded in past budgets include Skagit Relicensing and the Accelerated Pole Replacement Program; both initiatives continue in the 2024-2029 Budget.

Notable CIP areas that advance our 2023-2028 Strategic Plan Update and core planning and operational needs include:

### **Investments to Create Our Energy Future**

The CIP includes funding for projects to advance Seattle’s transition away from fossil fuels to achieve a zero-carbon city. Grid modernization investments will update and modernize the distribution system to improve resiliency, add flexibility, and maintain reliability. Projects supporting electrification include large-scale maritime electrification projects, as well as ongoing expansion of electric vehicle charging infrastructure and customer incentive programs. Green energy resource growth will enable projects to develop distributed generation (solar, wind, etc.), energy storage, demand-side management, and other distributed energy resource (DER) technology. Under the Utility Next program, City Light will pursue and leverage grant matching funds for federal and state stimulus dollars to accelerate work across our business strategies.

### **Technology, Data and Cyber Security**

Improvements are planned for various foundational technology systems that underpin our system operations and customer interactions. Investments include an expanded customer self-service portal, upgraded advanced meter infrastructure, and improved customer metering and billing systems to provide a better service experience for customers. Upgrades to the Geospatial Information System (GIS) and the Outage Management System (OMS) will facilitate new energy technologies as part of grid transformation. A major upgrade of the Work and Asset Management System (WAMS) is also in the initial planning stages. To safeguard our technology assets and harden against cyber threats, advanced developments in cyber security programs, technology governance, and operations are funded.

### **Hydroelectric Project Relicensing**

The federal license for the Skagit River Hydroelectric Project, a series of three dams that produces approximately 20% of City Light’s owned generation capacity, expires in 2025. Renewing the license with FERC also means reviewing the safety, cost, environmental, and cultural impacts of the continued operation of the project. Since 2020, City Light has been collaborating with local partners to develop an application for a new license that will last for the next 30-50 years. The license will include requirements around protecting the environment and the culture of the watershed and its surrounding communities. In addition, the South Fork Tolt Hydroelectric Project is also up for FERC license renewal in 2027. For the Boundary Hydroelectric Project, various protection, mitigation, and enhancement activities are needed to fulfill requirements mandated by its 2014 FERC license and settlement agreement.

### **Transmission & Distribution Infrastructure Maintenance**

Reliable energy delivery requires proactive maintenance of transmission and distribution assets. The utility has accelerated the pace of pole replacements due to a critical need to replace deteriorating poles that are essential for reliability as well as public safety. Other major program investments include expansion of the network distribution system in the north downtown area to realize systemwide benefits from the new Denny Substation, as well as replacement of failing underground cables.

**Preserving Hydroelectric Generation Assets**

Preservation of Seattle’s legacy hydroelectric generation facilities is accomplished through prudent investments and proactive maintenance. Planned enhancements include a wide range of dam safety investments; an improved outage management system; long-term planning for small legacy hydroelectric projects such as Cedar Falls; improvements of ancillary systems and facilities such as powerhouse systems; plant automation; and cyber and physical security investments.

**Workforce, Facilities and Fleets**

Supporting an agile workforce requires a work environment conducive to productivity, collaboration, and innovation. A major restacking project funds renovation of office space in the Seattle Municipal Tower to improve ergonomics, modify workspaces to accommodate modern technology and collaboration, and reduce the utility’s footprint in the downtown core. Similarly, strategic fleet investments are replacing aging vehicles with electric-powered alternatives that are greener and more efficient.

**Race and Social Justice**

City Light is committed to leading with equity and prioritizing investments in ways that deliver value to underserved and under-represented communities. The utility is actively engaged in the Citywide effort to rebuild Seattle as a city that is racially just, equitable, and inclusive. In developing and executing the CIP, work groups seeking incremental funding participated in an equity lab with City Light’s RSJ Change Team to seek diverse perspectives and identify opportunities to incorporate social justice work into implementation plans. City Light will work to prioritize positive outcomes and reverse historic inequities for underserved communities, including Black, Indigenous, and people of color as well as immigrants, refugees, persons experiencing low incomes, English language learners, youth, and seniors. This includes prioritizing the electrification of public transit to deliver better air quality and other health benefits to historically underserved communities. Other benefits include a focus on job creation and economic activity with an emphasis on historically excluded populations.

**Project Selection Criteria**

City Light’s planning process is designed to ensure project funding meets customers’ current and future needs, and to position the utility to meet current and future strategic and operational challenges. Project ideas come from throughout City Light. Members of each of the utility’s organizational lines of business (e.g., power supply, transmission and distribution, fleets, facilities, electrification, technology, and customer service) prioritize capital spending and then submit recommended projects through a centralized capital budgeting system.

For any new capital project with a total cost exceeding \$1 million, utility staff complete an intake to document the project expectations, rationale, and a cost-benefit analysis of alternatives.

Availability of funding and labor resources limits the CIP, and to balance overall needs within these constraints, City Light may rescope, reschedule, or defer projects in the six-year CIP.

**2024-2029 Adopted CIP Highlights**

The 2024-2029 Adopted CIP outlines \$2.75 billion in capital spending over six years for power supply, transmission, distribution, external projects, and central utility needs.

2024-2029 Adopted CIP Summary of Allocations by Program

Budget Program/SubProgram	2024	2025	2026	2027	2028	2029
<b>Central Utility Projects</b>	<b>35,185,466</b>	<b>31,682,324</b>	<b>30,997,039</b>	<b>34,376,840</b>	<b>28,664,649</b>	<b>30,639,202</b>

A selection of projects from each program follows.

**Central Utility Projects**

Projects in this program provide for centralized billing and customer service systems, financial and information technology systems, and vehicle fleets and facilities that are not part of the power generating plant (e.g., equipment shops, service centers, and maintenance yards). This program also includes City Light’s work on transportation electrification.

For 2024, there is \$35 million in funding for 12 projects in Central Utility. Highlights include:

- Office Furniture and Equipment Replacement (MC-CL-XF9103): \$12,245,553  
This ongoing project funds renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City’s Space Reduction Pilot, which aims to reduce the utility’s footprint in the downtown core by 25% to achieve cost efficiencies.
- Equipment Fleet Replacement (MC-CL-XF9101): \$8,689,545  
This ongoing project funds the purchase of light-duty and heavy-duty mobile equipment fleet vehicles. This includes replacement of specialized fleet vehicles for electric utility use, as well as enhancements and additions of green alternatives such as electric powered vehicles.
- Transportation Electrification (MC-CL-XF9239): \$5,054,509  
This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Efforts support electrified public transit, fleet electrification, and electric vehicle charging.

2024-2029 Proposed Capital Improvement Program

- New Technology (MC-CL-ZF9980): \$4,858,337

This ongoing technology program will establish foundational technology for the modernization of the grid and ensure the improvement of operational technology. These initiatives were outlined to ensure we are supporting the best practices and needs of the utility.

### **Distribution**

Projects in this program include improvements to City Light’s distribution substations, relays, feeders, network distribution systems, overhead and underground radial distribution systems, service connections, customer meters, operational technology, and other facilities and assets related to the distribution system.

For 2024, there is \$262 million included for 52 projects in Distribution. Highlights include:

- Overhead Equipment Replacements (MC-CL-YR8351): \$47,229,182

This ongoing project replaces overhead distribution equipment nearing the end of its usable life, is overloaded, or no longer has an available supply of spare parts. These items include, but are not limited to, poles, cross-arms, transformers, and open-wire secondaries.

- Underground Equipment Replacements (MC-CL-YR8353): \$28,939,035

This ongoing project replaces and improves underground electrical system equipment that is failing or approaching the end of its useful life. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.

- Medium Overhead and Underground Services (MC-CL-ZS8366): \$22,701,098

This ongoing project funds engineering and installation of radial electric power service connections with medium-sized power requirements of 50 KVA to 2.5 MVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.

- Pole Attachments (MC-CL-YR8452): \$17,109,850

This ongoing project funds preparing poles for the attachment of communication infrastructure owned by other entities. The construction costs associated with this work are typically fully reimbursable and attachments generate ongoing revenues through pole attachment rental fees.

- Network Additions and Services – Broad Street Substation (MC-CL-ZS8363): \$9,637,434

This ongoing project funds electrical service connections, capacity additions, and related improvements in response to customer service requests within the Broad Street network area. The project also funds replacement or installation of network transformers, network protectors and specialty transformers, or in-building vault retrofits or other short-duration system improvement needs that may be identified during construction.

- Software Replacement Strategy (MC-CL-YD9969): \$8,300,755

This project funds the upgrade or replacement of key applications and systems as part of the Utility Technology Portfolio. Timely upgrades and replacements ensure that technology and enterprise level software resources are kept up to date, are fully functional and continue to deliver more benefits and technology automations to internal and external customers.

- Network Additions and Services – First Hill, Massachusetts, Union, & University (MC-CL-ZS8364): \$8,203,782

This ongoing project provides electrical service connections and related improvements in response to customer service requests within the First Hill, Massachusetts, Union, and University District network areas. The project performs capacity additions work associated with service connections to customers, including condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. The project also replaces or installs network transformers, network protectors,

and specialty transformers, and performs short-duration system improvement work identified during operations, including retrofitting in-building vaults.

- Small Overhead and Underground Services (MC-CL-ZS8367): \$7,838,888  
This ongoing project funds engineering and installation of radial electric power service connections with small size power requirements of less than 50 KVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.
- Denny Substation – Network (MC-CL-YN8404): \$6,995,334  
This ongoing project funds network system work in the Denny Substation network area. Work may include design and construction, engineering design at the substation network interface, and underground conversion of streetlights, traffic signals, and telecom and fiber optic systems.
- Substation Equipment Improvements (MC-CL-YS7752): \$6,326,367  
This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds the installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.
- Substation Breaker Replacements & Reliability Additions (MC-CL-YS7779): \$5,656,009  
This ongoing project funds the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It prioritizes replacement of circuit breakers with highest risk of failure.
- Large Overhead and Underground Services (MC-CL-ZS8365) \$5,334,725  
This ongoing project provides large size electric power service connections from City Light's distribution system to the customer's meter for power requirements of greater than 3 MVA and 26 kV radial services. Most of this related work is billable to the customer. The project allows City Light to provide service to new customers in a safe, reliable, timely and cost-effective manner, fulfilling its commitment to be a customer- and community-focused organization.
- Relaying Improvements (MC-CL-YS7753): \$5,275,481  
This ongoing project replaces protective relays to ensure system reliability by protecting the rest of the distribution system from potentially cascading effects if one part fails to operate properly. It upgrades relay technology, allowing remote control and documentation of system events, which enhances the detection and management of equipment problems.

**External Projects**

Projects in this program respond to requests from local jurisdictions to relocate distribution services from overhead to underground systems per the terms of franchise agreements; maintain and upgrade the streetlight system; relocate utility infrastructure in response to major transportation projects; and provide capital improvements in response to other customer-requested service needs.

For 2024, the CIP includes \$25 million in funding for nine External Projects. Highlights include:

- Local Transportation Driven Relocations (MC-CL-ZT8369): \$9,357,917  
This ongoing project funds relocation of electrical lines to accommodate or take advantage of transportation-related projects, street vacations, or other projects initiated by outside agencies such as SDOT, WSDOT, or suburban municipalities. Work includes modifications to the distribution system, including replacement or modifications of line segments, poles, and underground facilities. Some costs may be reimbursable by the requesting outside agencies.

- Streetlight Arterial, Residential and Flood (MC-CL-ZL8378): \$7,197,038  
This ongoing project funds streetlights and floodlights requested by various taxing jurisdictions and other customers. Lights may be provided in public right of way and on private property, for either public or private benefit.
- Transportation Streetlights (MC-CL-ZL8377): \$5,600,558  
This ongoing project funds relocation of streetlights displaced by City of Seattle transportation projects.
- LED Streetlight Conversion Program (MC-CL-ZL8441) \$2,250,095  
This project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobra-head streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

**Power Supply**

Projects in this program include energy efficiency, environmental claims, improvements to dams, generators, powerhouses, as well as compliance work to meet federal licensing and environmental mitigation requirements for hydroelectric dams. Rebuilds or replacements of major power production equipment are sequenced to reduce the impact to power generation and to minimize fluctuations in the annual amount of capital spending.

For 2024, the CIP includes \$109 million in funding for 32 projects in Power Supply. Highlights include:

- Energy Efficiency (MC-CL-WC2250) \$31,341,969  
This ongoing project funds energy efficiency programs at City Light.
- Boundary – Licensing Mitigation (MC-CL-XB6987): \$14,482,067  
This ongoing project implements protection, mitigation, and enhancement measures required by the terms and conditions of the Boundary Hydroelectric Project license issued by FERC in 2013. The license allows for the continued operation of the project, City Light's largest generating station producing approximately 25% to 40% of the utility's power supply.
- Environmental Claims (MC-CL-WC3133) \$11,309,818  
This ongoing project funds all environmental liability clean-up and remediation work on City Light-owned and non-owned properties, whether voluntary or ordered by state or federal environmental regulating agencies.
- Boundary Powerhouse – Unit 52 Generator Rebuild (MC-CL-XB6535): \$10,116,189  
This project funds rewinding and refurbishing of the Boundary Powerhouse Unit 52 generator and upgrades its fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.
- Skagit Minor Emergent (MC-CL-XS6405): \$7,586,413  
This ongoing project provides funding for emergent capital improvement needs for various facilities at the Skagit Project. This project also funds small scheduled capital projects with cost estimates of less than \$25,000.
- Skagit Facilities Plan (MC-CL-XS6520): \$5,108,377

**2024-2029 Proposed Capital Improvement Program**

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

- Skagit – Relicensing (MC-CL-XS6986): \$3,590,415  
This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project, including support of staff, environmental studies, documentation, and consultation. Relicensing work began in 2019. The current FERC license for the Skagit Project expires in 2025. City Light submitted the final license application to FERC in April 2023, but work continues to refine the details of proposed protection, mitigation, and enhancement measures.
- Gorge Crane Rehabilitation (MC-CL-XS6639): \$3,261,231  
This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse crane and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next 10 years and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.
- Skagit License 1995 (MC-CL-WC3125): \$2,500,000  
This project funds the License Settlement Agreement for the 1995 Skagit License including activities such as fisheries, wildlife, North Cascades Environmental Learning Center, recreation, Skagit ROW vegetation management, erosion, plant propagation, historic properties, archaeological MOAs, Powerhouse National Pollutant Discharge Elimination Systems (NPDES), aesthetics agreement and visual quality, and salmon studies.
- Boundary Minor Emergent (MC-CL-XB6401): \$2,253,605  
This ongoing project provides financial coverage for emergent capital projects, specifically related to Boundary facilities. These projects are, by definition, unforeseeable, unscheduled, unpredictable, and occur on a first-come, first-serve basis.
- Boundary Generation Step-up Transformer Upgrade (MC-CL-XB6493): \$2,208,172  
This project replaces six existing step-up transformers at Boundary Dam and funds the purchase of a seventh transformer to keep as a spare in inventory due to long lead times for these specialized parts. This project helps avoid prolonged loss of generation due to forced outage.
- Tolt Relicensing (MC-CL-XC6985): \$2,002,803  
The South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the project cannot be legally operated. This project funds the preparation of necessary documentation to be filed with the FERC by June 2027 to either acquire a new operating license for the project or decommission it. The FERC relicensing process will require preparing and filing a Notice of Intent (NOI), Preliminary Application Document (PAD), and Preliminary and Final License applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the final license application due in 2027. If City Light were to decide to cease operating the project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

### **Transmission**

Projects in this program fund refurbishment and expansion of utility-owned high-voltage transmission infrastructure that transports electricity from generation facilities to City Light's service territory, as well as within the service territory.

For 2024, the CIP budget includes \$15 million for six projects in Transmission. Highlights include:

- Transmission Line Inductors (MC-CL-YT8461): \$8,164,159  
This project addresses the issue of increased electric transmission congestion load growth in the Puget Sound area. The project funds the installation of inductors or phase shifting transformers, which curtail the flow of power through the Seattle area, while improving customer and asset strengths and maintaining reliability.
- Transmission Tower Refurbishment (MC-CL-YT7130): \$3,795,104  
This ongoing project funds programmatic painting and refurbishment of approximately 1,700 steel transmission tower structures. Metal transmission towers have a long life if properly maintained, while replacements are disruptive and can cost more than \$2 million per tower.
- Transmission Reliability (MC-CL-YT7104): \$2,250,226  
This ongoing project funds replacement and improvement of transmission structures and conductors. This work may include engineering, construction, and related work, as well as minor improvements to overhead or underground transmission system assets to improve reliability.

### **CIP Revenue Sources**

Approximately 60% of the CIP is funded through the sale of revenue bonds, based on financial policies set forth in Resolution 31187. The remaining 40% is funded by revenues from retail electric rates, wholesale sales, direct customer billings for service connections and other customer requested work, and assorted fees. Federal and state grant funding are also anticipated funding sources in this six-year timeframe; these funds will be added to the CIP as the grants are approved.

### **Summary of Upcoming Budget Issues and Challenges**

#### **Budget Issues**

City Light's strategic plan commitment to hold rate increases to levels resembling inflation limits CIP spending to the amounts previously identified in the adopted six-year plan. This means that change requests with new funding needs must be offset with reductions elsewhere in the CIP.

The Undergrounding Program does not include the funding needed to make substantial progress on this body of work. Supply chain and staffing constraints have exacerbated the long lead times needed to design and replace underground cabling. Therefore, funding is being shifted to offset other critical capital funding needs until a more focused effort can resume on undergrounding. For instance, City Light is working on policies and funding approaches to re-evaluate the program going forward and anticipates significant customer outreach once policy and funding options have been presented to the Mayor's Office and City Council. Ultimately, resources will need to be assigned to increase replacement of failing underground cables. There may be future rate impacts associated with adequately funding the undergrounding work in the future.

The six-year CIP does not currently include all costs associated with relicensing of the Skagit Hydroelectric Project. Costs are expected to be significant and at this time there is not sufficient

information to project these costs and include them in the spending plan. Implementation of a new FERC license will likely have future rate impacts.

### Challenges

There are several challenges that will transform our business over the next decade:

- *New technologies are transforming how people use electricity.* Commercialization of energy technologies poses a potential risk to City Light. New options and products for controlling consumption, generating, and storing electricity will impact how customers interact with their local utility. Utilities must continue to evolve and to develop their products and services to best serve shifting customer needs and expectations.
- *Declining retail energy consumption and electrification.* Advances in energy efficiency have reduced consumer energy demand, particularly for those with access to modern energy efficient technology and dwellings. Due in part to energy efficient building codes and new technologies, today's multifamily units consume approximately half as much energy as older single-family homes. At the same time, electrification of buildings and transportation promises to increase demand for electricity, reinforcing the critical need for grid investments that will be required to effectively serve this new demand. This changing landscape calls for managing impacts to rates while also understanding and compensating for inequities in access to green, cost-saving technologies.
- *Impact of retirements and legacy practices.* As more employees become eligible for retirement and workflows are not documented or digitized, City Light risks the loss of institutional memory, costly service interruptions, and a potential impact to service delivery. Capital technology investments need to encompass broader project scopes that include more process standardizations and automations, as well as robust organizational change management activities to facilitate the workforce's adoption of new processes and tools.
- *Climate change continues, and clean energy is more valuable than ever.* Weather pattern changes affect reservoir levels and seasonal energy consumption, leading to increasing volatility of energy supply and demand. Since 1910, City Light has provided its customers with reliable, affordable, and environmentally responsive clean energy. As the utility continues this tradition and plans for the future, it must account for growing power supply demands from its customers, while prioritizing emission reductions and ensuring an equitable clean energy transition for all customers served.

### Future Projects/What is on the Horizon

- Demand for transportation and building electrification continues to grow and will support multiple policy commitments as well as Mayoral and City Council priorities. The need to support large scale commercial electrification includes maritime applications including WSDOT ferries, the Port of Seattle, various types of commercial ships, trucking, and multiple large-scale district energy electrification projects as well as building code and Building Energy Performance Standards, which will drive significant building electrification load increases.
- Support of the Sound Transit Light Rail expansion will require significant investment to relocate and reroute City Light infrastructure to accommodate.
- City Light is also working to support King County in meeting reliability standards for its West Point Treatment Plant and this may require a significant future investment.
- The transition to the new 5G network is driving a large number of requests for attachment space on poles. The impact of 5G deployment will touch nearly every pole in City Light's distribution system and will provide a growing stream of rental revenue.

### Advanced Metering Infrastructure

<b>Project No:</b>	MC-CL-ZS8426	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2015 - 2023	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$102,219	<b>Urban Village:</b>	Not in an Urban Village

The first phase of this project replaced approximately 400,000 meters with Smart Meters. The second phase of this project funds the replacement of approximately 25,000 remaining meters with Smart Meters allowing two-way communication between Seattle City Light and its customers, residential or commercial. Smart Meters continuously record and transmit consumption data to the utility. They also automate meter reading, increase customer service, heighten billing capacity, reduce energy consumption, improve outage restoration efficiency, and support rate structure flexibility. Implementation of the project positions the utility to comply with North American Electric Reliability Corporation (NERC) and Federal Energy Regulatory Commission (FERC) programs and requirements.

**Boundary - Level 6 Deck Stabilization**

<b>Project No:</b>	MC-CL-XB6604	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Boundary Rd, Metaline, WA 99153
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2017 - 2023	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$2,980	<b>Urban Village:</b>	Not in an Urban Village

This project installs a new system of rock bolts and other forms of rock anchors to improve the structural stability of the Level 6 Deck on Boundary Dam. This portion of the dam is attached to and supported by the adjacent rock. Inspections revealed a weakness in the current attachments and use of the deck by heavy equipment is restricted until these improvements are made. This project also includes stabilization of rock blocks in the powerhouse machine hall.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project implements Protection, Mitigation and Enhancement measures (PME) required by the terms and conditions of a settlement agreement and new license to be issued by the Federal Energy Regulatory Commission (FERC). The license allows for the continued operation of the Boundary Hydroelectric Project, Seattle City Light's largest generating station producing approximately 25 to 40% of the City's power supply.

### Boundary Control Room Alarm System Replacement

<b>Project No:</b>	MC-CL-XB6637	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Boundary Rd, Metaline, WA 99153
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2019 - 2028	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$1,056	<b>Urban Village:</b>	Not in an Urban Village

This project replaces the system of alarms and annunciator panels in the Boundary Control room with a modern system that integrates with the current automation system. Alarms will be routed to PH Operator terminals where information will be displayed as to the nature of the alarm. Due to the large number of circuits that will need to be replaced, this project will be implemented in phases over several years.

### Boundary Powerhouse - Unit 51 Generator Rebuild

<b>Project No:</b>	MC-CL-XB6351	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	10382 Boundary Rd, Metaline, WA 99153
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2017 - 2025	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$44,255	<b>Urban Village:</b>	Not in an Urban Village

This project provides the rewinding and refurbishing of the Unit 51 generator to extend its useful life, which is part of a programmatic series of projects to maintain the Utility's aging generators. It also replaces the carbon dioxide fire-suppression system with a water sprinkler system to enhance worker safety. If technology is sufficiently advanced, it may also include a rotor-mounted scanner or other diagnostic equipment.

### Boundary Station Service Transformer Replacement

<b>Project No:</b>	MC-CL-XB6627	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Boundary Rd, Metaline, WA 99153
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2019 - 2028	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$13,345	<b>Urban Village:</b>	Not in an Urban Village

This project replaces two aging station service transformers at Boundary. It is assumed that they will be specified and procured together but installed in two sequential years. Station service transformers provide power to the powerhouse, dam and service area. It is likely that the rating of the transformers will need to be increased to accommodate load increases associated with the addition of new circuits in the powerhouse for automation, controls and machine monitoring.

### Boundary Sump Pump Drive Replacement

<b>Project No:</b>	MC-CL-XB6633	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Boundary Rd, Metaline, WA 99153
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2019 - 2024	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$537	<b>Urban Village:</b>	Not in an Urban Village

This project replaces and modernizes drive systems for sump pump at Boundary powerhouse. Portions of Boundary powerhouse are below the level of the tailrace and there is a reliance on a series of sump pumps to keep the powerhouse dry. Projects to replace the sump pumps are completed, and now the drive systems for each pump need to be replaced and modernized.

### Building Envelope Upgrades

<b>Project No:</b>	MC-CL-XF9072	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System Wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project replaces or restores exterior moisture and thermal barrier components of buildings such as roofing and insulation systems, exterior siding and cladding systems, windows and exterior doors. This project allows for the proactive replacement of building exteriors in order to avert costly structural damage and prevent the growth of toxic mold inside wall cavities and ceiling spaces that can easily render a building uninhabitable. The project also enhances operational efficiency by mitigating emergency repairs which disrupt utility operations.

**Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay**

<b>Project No:</b>	MC-CL-XC6450	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	19901 Cedar Falls Rd SE, North Bend, WA 98045
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2007 - 2024	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$3,840	<b>Urban Village:</b>	Not in an Urban Village

This project upgrades the present generator protection for Units 5 and 6, which lacks some basic protection elements to protect it from abnormal frequency and voltages. Upgrading and reconfiguring the protective relays is critical to preparing the new Cedar Falls substation for operation. This project replaces existing protective relays, upgrades the generator protection packages, and replaces the electrical and mechanical lockout relays. The project permits City Light to comply with the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances.

**Cedar Falls/South Fork Tolt - Minor Improvements Program**

<b>Project No:</b>	MC-CL-XC6406	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	19901 Cedar Falls Rd SE, North Bend, WA 98045
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project funds emergent capital projects related to the Cedar Falls and South Fork Tolt Facilities. In addition, it funds scheduled, small capital projects that have cost estimates less than \$25,000. These projects are unforeseeable, unscheduled, unpredictable, and occur on a first-come, first serve basis.

**Center City Connector Streetcar City Light**

<b>Project No:</b>	MC-CL-ZT8470	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	City Wide
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2015 - 2024	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$854	<b>Urban Village:</b>	Multiple

This project provides power relocations & service for the proposed SDOT Center City Connector Streetcar project. City Light has buried primary distribution power cables, some of which are encased in old clay tile ducts, which do not meet current standards, and are unlikely to be able to withstand the forces generated by the streetcar's operation. Any streetcar alignment to be built across such old facilities would likely need a reinforced roadbed for SCL facilities to withstand the additional weight.

## CenTrio Electrification

<b>Project No:</b>	MC-CL-ZS8510	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	New Investment	<b>Location:</b>	System Wide
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 2
<b>Start/End Date:</b>	2022 - 2023	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>		<b>Urban Village:</b>	Downtown

This project funds the plan, design, procurement, construction, and commission of large City Light capital investment projects to deliver infrastructure required to meet electrification of CenTrio, a franchise utility that delivers steam for heating of multiple downtown buildings in Seattle.

### O&M Impacts:

**Communications Improvements**

<b>Project No:</b>	MC-CL-YD9009	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides funding for unforeseen emergent and critical work on City Light's communications systems to replace communications components due to failure, changing regulatory and security requirements, and requests from customers or other agencies. This project enhances flexibility to address emergent communication systems problems.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project installs fiber cable and equipment to all City Light dams, substations and service centers to create a secure, reliable, fast and redundant digital communications system for operations command and control. The fiber infrastructure provides a secure path for power distribution system control and dispatch, Energy Management System data, and other City Light communications. This project also supports Substation Automation, Distribution Automation, Distributed Generation, and automated meter reading projects.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

**Distribution Automation**

<b>Project No:</b>	MC-CL-YR8425	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project automates radial distribution feeders, which includes installation of equipment to provide remote control of operations of switches on power lines and gather real time data on conditions in distribution power lines. The installation of strategically placed switches provides the ability to automatically perform outage restoration, shift blocks of load to maximize efficiencies of feeders, and reconfigure the feeder grid. Typical operation involves remotely detecting that a feeder fault has occurred, locating the damaged portion of the feeder between two remote controlled line switches, isolating the damaged portion of the feeder by opening appropriate remote controlled line switches, and re-energizing undamaged portions of the feeder via the primary feeder source and one or more backup sources using automatically controlled tie switches.

**Document Management System**

<b>Project No:</b>	MC-CL-ZF9962	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System Wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project plans, builds, deploys, and provides ongoing management of an enterprise document management system that effectively and efficiently captures, secures, shares, and distributes digital and paper-based documents and reports. The project streamlines collaboration, automates routine tasks, and lowers costs related to creation, management, and storage of business documents. The project provides the governance and audit capabilities needed to minimize the risks and costs associated with regulatory and legal compliance.

### Electric Vehicle Infrastructure

<b>Project No:</b>	MC-CL-XF9237	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	New Investment	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project funds the implementation of City Light's public electric vehicle charging pilot project. This project will deploy 26 public EV fast chargers within the service area, at both City-owned property and private sites. City Light owns and installs the charging infrastructure. This program allows customers access to carbon-neutral electricity that customers are demanding, better utilize current utility assets, and contribute to the Clean, Renewable-Powered City initiative and the aggressive goals of the Drive Clean Seattle Initiative.

### Endangered Species Act Mitigation

<b>Project No:</b>	MC-CL-XP6990	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Outside City of Seattle
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project funds work that protects and restores fisheries habitat in the Skagit and Tolt river basins. It implements the Endangered Species Act (ESA) Program for recovery of listed fish species that are potentially affected by City Light projects. The project includes land purchase, restoration, assessment, and management. The project reduces the likelihood of third party lawsuits under ESA and the reopening of claims by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species.

This ongoing project funds both planned and emergent needs for facility modifications, real estate development & maintenance, equipment replacements, upgrades to office spaces and workspaces, life/safety modifications and components, addressing environmental and remediation concerns, and reducing energy consumption. A major component shall include infrastructure maintenance and construction of a building which involves several activities, which may vary depending on the project's scope, but typically includes developing a building design inclusive of architectural, structural, electrical, plumbing, and mechanical systems. The project shall also support the design process necessary to plan capital works, such as architect and other consultants to develop plans and specifications that meet the project's functional and aesthetic requirements.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project upgrades and replaces the structural, electrical or mechanical systems, or other base building systems critical to building operations, and site development items. Work under this project may include plumbing replacements, HVAC related systems, power distribution systems, tanks, elevators, fire suppression systems, drainage systems, exterior and interior lighting, landscaping, irrigation, paving, stairs, and sidewalks. This project is intended for emergent work not yet identified and is not intended as a duplicate for other infrastructure improvements included in specific projects.

**Gorge Crane Rehabilitation**

<b>Project No:</b>	MC-CL-XS6639	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Milepost 121 State Highway 20
<b>Current Project Stage:</b>	Stage 2 - Initiation, Project Definition, & Planning	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2021 - 2027	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$17,171	<b>Urban Village:</b>	Not in an Urban Village

This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.

**Gorge U21-24 overhauls**

<b>Project No:</b>	MC-CL-XS6640	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Milepost 121 State Highway 20
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2023 - 2030	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	\$37,789	<b>Urban Village:</b>	Not in an Urban Village

This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Outside City of Seattle

This ongoing project funds upgrades to generating plants that will either prevent oil spills through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. These upgrades will include replacing oil filled transformers with dry-type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps, installing oil/water separators, and replacing greased valve bushings with greaseless bushings.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Interbay Substation - Development

<b>Project No:</b>	MC-CL-YS7756	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	17th Ave West
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2022 - 2028	<b>Neighborhood District:</b>	Magnolia/Queen Anne
<b>Total Project Cost:</b>	\$589	<b>Urban Village:</b>	Ballard-Interbay Northend

This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

The ongoing project updates or replaces information security systems that are at high risk of failure. The project enhances vulnerability and intrusion detection as well as response capabilities and procedures. The project provides (by way of illustration but not limitation) for implementation of systems to replace or upgrade firewalls, routers, switches, operating systems, intrusion detection capabilities, security information and event management, Linux patching procedures, Dynamic Host Configuration Protocol server, Domain Name System server, internal vulnerability scanning, and physical security cameras and networks for City Light locations.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides large size electric power service connections from City Light's distribution system to the customer's meter for power requirements of greater than 3 MVA and 26 kV radial services. The project allows City Light to provide service to new customers in a safe, reliable, timely and cost effective manner as a means to fulfill its commitment to be a customer and community-focused organization. The cost of some of this work is generally reimbursed by the requesting customer.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

The ongoing program will plan, design, procure, construct, and commission large City Light capital investment projects to deliver infrastructure required to meet electrification, environmental justice, and/or sustainability goals and mandates and customer demand associated with Maritime Transportation (MARTEP). MARTEP Projects stem from public and private maritime transportation efforts to transition from emission-based energy sources to City Light electrical service and that requires City Light to design and construct new infrastructure.

**Massachusetts Street Substation - Networks**

<b>Project No:</b>	MC-CL-YN8202	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	1555 Utah Ave S
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 2
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Greater Duwamish

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis and construction work required to improve and enhance the network system supporting existing and neat future network customers in the areas. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

This ongoing project upgrades City Light's remote vault monitoring capability for the Digital Grid system (formerly Hazeltine system). The project consists of substation receivers, workstations, applications, server pairs and alarm PCs. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing a real time alarm and an event generated from the field to be processed and sent to the alarm PCs of an abnormal electrical component or environmental condition occurrence. The most crucial alarm PC is situated in the System Control Center where it is monitored by with Power Dispatchers 24/7.

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old line segments, relocates lines for construction clearances and may replace rotten and damaged poles in the distribution system. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are affected before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

**Power Production - Network Controls**

<b>Project No:</b>	MC-CL-XP6385	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	500 Newhalem Creek Rd, Marblemount, WA 98267
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project provides the infrastructure required to install the basic control network and integrate existing, major control systems for a Skagit wide network controls program, to be located at each of the Skagit facilities. This project improves monitoring and control of the Skagit facilities, reduces maintenance and potential outages, and reduces cost and time of maintenance and outages. This project incorporates features that lead to enhanced data acquisition that is part of the NERC requirements.

### Relaying Improvements

<b>Project No:</b>	MC-CL-YS7753	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project replaces protective relays, to ensure system reliability by protecting the rest of the distribution system from potentially cascading effects if one part fails to operate properly. It upgrades relay technology, allowing remote control and documentation of system events, which enhances the detection and management of equipment problems.

**Ross Dam - AC/DC Distribution System Upgrade**

<b>Project No:</b>	MC-CL-XS6373	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Milepost 128 State Highway 20
<b>Current Project Stage:</b>	Stage 4 - Procurement/Bid	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2005 - 2029	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$13,690	<b>Urban Village:</b>	Not in an Urban Village

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

### Security Improvements

<b>Project No:</b>	MC-CL-YD9202	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards to improve security at critical facilities that house command and control systems. It enhances reliability of the power system, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

### Skagit - Boat Facility Improvements

<b>Project No:</b>	MC-CL-XS6540	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Newhalem Creek Rd, Marblemount, WA 98267
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Outside City of Seattle

This project provides design and construction of several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. The project provides improved visitor access for the Skagit Boat Tour, safer boat fueling facilities, reduced impact of snowfall on boats, consolidated barge landings, and improved dry docks.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Outside City of Seattle

This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project including support of staff, environmental studies, documentation, and consultation needed to submit an application to relicense the project. Relicensing work will begin in 2019. The current Federal Energy Regulatory Commission (FERC) license for the Skagit Project expires in 2025, and the license application is due for submission to FERC in May 2023.

### Skagit Facilities Plan

<b>Project No:</b>	MC-CL-XS6520	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Newhalem Creek Rd, Marblemount, WA 98267
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Outside City of Seattle

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

### Skagit Facility Conservation

<b>Project No:</b>	MC-CL-XS6515	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Newhalem Creek Rd, Marblemount WA 98267
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

### Skagit Powerhouses - Install Protection Relays

<b>Project No:</b>	MC-CL-XS6415	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	500 Newhalem Creek Rd, Marblemount, WA 98267
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

This project provides the engineering and construction of relocated and/or new Seattle City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks. Sound Transit's plans will require City Light work through several future budget cycles.

<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	2015 - 2025	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	\$12,310	<b>Urban Village:</b>	Outside City of Seattle

This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects.

This ongoing project provides new tools and work equipment to replace old or broken tools for all individual City Light units, except those required at the generation plants or substations, which have their own capital projects for special work equipment. The project ensures that field crews and other employees can accomplish their work assignments. The project supports the Department's goals of safety, productivity and employee morale.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project funds the installation of lighted canopies and the associated drainage improvements that are necessary to bring City Light into compliance with the current rules and regulations. As a result of a City wide storm water audit and several surprise inspections from the Department of Ecology, it was discovered that there are several areas where measures are needed to bring City Light's storm water protection program into compliance. Some of our facilities drain directly to Superfund sites and the successful implementation of a compliant storm water system not only reduces our liability in the short term, but it has a direct impact on the amount of funding we may be ordered to provide for the cleanup of current and future Superfund sites. Currently, City Light stores raw materials (gravel, cold mix, backfill material, vegetative matter), salvage material (wire, metal products, electronics, transformers, poles) and warehouse materials (timbers, unfinished metal, galvanized poles) outside, where product can leach into the drainage systems.

### Streetlight LED Conversion Program

<b>Project No:</b>	MC-CL-ZL8441	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project is the second-generation replacement of LED luminaires and will be deployed with a controls system to replace all cobrahead streetlights. The project is expected to achieve an additional 20% annual energy savings and prevent 2,720 metric tons of carbon from being released into the atmosphere. Included in this project will be a color temperature reduction to 3000K to improve customer reports of discomfort glare. This project continues the work originally chartered in 2009 to upgrade all City-owned streetlights to LED, which achieved an estimated annual 40% energy savings and avoided 5,446 metric tons of carbon released into the atmosphere. Since then, the LED industry has matured, and the original fixtures are no longer a benchmark of efficiency and are nearing the end of life.

### Substation Automation

<b>Project No:</b>	MC-CL-YS8424	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

### Substation Breaker Replacements and Reliability Additions

<b>Project No:</b>	MC-CL-YS7779	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides the review of City Light's inventory of approximately 400 transmission and distribution voltage circuit breakers. It determines which have the greatest wear, gas or oil leaks, maintenance cost, and service stress. It replaces those circuit breakers with the priority given to those with the highest risk of failure.

### Substation Equipment Improvements

<b>Project No:</b>	MC-CL-YS7752	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project upgrades and retrofits substation buildings, their facilities and systems, and related structures. The project includes environmental improvements, and removal and replacement of outdated utilities and structures. The project provides station security, safe working conditions, and improvements in related services, such as water, sewer, and lighting.

### Substation Transformer Replacements

<b>Project No:</b>	MC-CL-YS7776	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	2136 N 163rd St, Shoreline
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project provides the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers prioritized by those with the highest risk of failure, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service.

### Substations Oil Containment

<b>Project No:</b>	MC-CL-YS7783	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project brings City Light's Power Substations into compliance with the federal Clean Water Act. By federal law, owners or operators of oil containing equipment, such as our substation transformers, must provide facilities that will prevent spilled oil from reaching any streams or open bodies of water.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### System Control Center System Map Board Replacement

<b>Project No:</b>	MC-CL-ZF9985	<b>BSL Code:</b>	BC-CL-Z
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Customer Focused - CIP
<b>Project Category:</b>	New Investment	<b>Location:</b>	System Control Center
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2023 - 2025	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$1,500	<b>Urban Village:</b>	Not in an Urban Village

This project funds the update to the existing system map board in the System Control Center (SCC). Currently, the SCC has a manual system map board that is no longer supported by the vendor, is outdated, and failing. Replacement parts are no longer available. The current map board was created in 1995 and is well beyond its service life. This equipment is a critical tool for the SCC to monitor the electric transmission and distribution systems while making decisions that impact the safety of our employees, the public, and our infrastructure. The benefits from updating to an electronic map board are substantial and will enable a significant reduction in the potential for human error. A modern map board is updated digitally and provides real-time updates generated from our Energy Management System (EMS).

**Tolt Relicensing**

<b>Project No:</b>	MC-CL-XC6985	<b>BSL Code:</b>	BC-CL-X
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Power Supply - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Tolt River Dam
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project provides the necessary documentation with the FERC by June 2027 to either acquire a new operating license for the Project or decommission it. South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the Project cannot be legally operated. The FERC relicensing process will require preparing and filing a Notice of Intent (NOi), Preliminary Application Document (PAD), and Preliminary and Final License Applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the license application which is due in 2027. If City Light were to decide to cease operating the Project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks, and two-way radio systems. This project provides City Light with command and control capabilities for the operation of the electrical system. This project ensures the safe, reliable, and efficient operation of the system and positions City Light to meet the Federal Energy Regulatory Commission's vital communications systems requirements.

### Transmission Tower Refurbishment

<b>Project No:</b>	MC-CL-YT7130	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Outside City of Seattle
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project funds programmatic painting and refurbishment of approximately 1,700 steel transmission tower structures. Metal transmission towers have a long life if properly maintained, while replacements are disruptive and can cost more than \$2 million per tower.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Improvements will be developed based on feedback from customer engagement. Efforts are expected to support areas including electrified public transit, fleet electrification, and electric vehicle charging.

### Underground 26kV Conversion

<b>Project No:</b>	MC-CL-YR8362	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project replaces the 4 kV electrical equipment remaining in the electrical distribution system with new, efficient and reliable 26 kV distribution equipment. This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses.

### Underground Customer Driven Capacity Additions

<b>Project No:</b>	MC-CL-YR8360	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	New Facility	<b>Location:</b>	System wide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Citywide
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

**University Substation - Network**

<b>Project No:</b>	MC-CL-YN8464	<b>BSL Code:</b>	BC-CL-Y
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Transmission and Distribution - CIP
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	645 NW 45Th
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Northeast
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	University District

This ongoing project funds a programmatic approach for comprehensive management of underground network assets serving customers in the University area. This project funds annual work required, such as feeder balancing, engineering analysis to determine system feeder assignments for new services, and replacement of cables that fail while in service. It reduces the probability of cable failures and long costly customer outages.

<b>Total Project Cost:</b>	\$1,423	<b>Urban Village:</b>	Not in an Urban Village

This project provides funding for a Vegetation Management Compliance System for planning, tracking, and necessary documentation required to meet WECC and NERC Vegetation Management compliance requirements. These requirements are a WECC recommendation from the 2017 WECC Audit. Auditors noted that SCL was the only utility of its size to not automate Vegetation Management compliance work.

This ongoing project funds alterations that preserve workplace efficiency. The project focuses on adapting exterior work spaces and interior building elements to support business process improvements for occupant work groups. Interior systems improvements could include flooring replacements, interior remodeling, computer network cabling upgrades, uninterruptible power systems and computer flooring. Exterior system improvements could include fencing, security systems, paving and striping, and exterior building components.

# **Seattle Public Utilities**

## **Drainage and Wastewater**

### Overview

Seattle Public Utilities (SPU) maintains the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 67 Pump Stations
- 5.5 miles of wastewater force mains
- 82 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 481 miles of storm drains / 591 storm drain outfalls
- 24,733 catch basins
- 65 miles of ditches, 128 miles of culverts
- 30 miles of stream channel (49 creeks, 6 of which are salmon bearing)
- 9 acres of green stormwater infrastructure
- 17 detention/treatment ponds
- 295 drainage flow control facilities
- 578 water quality structures

The Drainage and Wastewater (DWF) CIP is the vehicle for rehabilitating, replacing, improving, and expanding this infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the DWF CIP is approximately \$1.37 billion over the next six years, from 2024-2029.

### Thematic Priorities/Project Selection Criteria

The goal of the DWF CIP is to replace failing assets, construct new facilities that reduce the frequency of flooding and sewer backups for customers, improve water quality and habitat in the environment by reducing sewage overflows and the impacts of stormwater pollution, and provide adequate workforce facilities for our employees and equipment operations. Projects in the DWF CIP are guided by various Federal regulations, City policies, and long-term planning documents (e.g., the Plan to Protect Seattle's Waterways and asset management plans). Additional direction for SPU's capital improvement program come from our 2021-2026 Strategic Business Plan, which outlined new investments, cost savings, and a retail rate path for the six-year period and grew out of SPU's efforts to provide greater rate predictability for customers while making important investments for the future. In addition to candidate capital projects identified from these planning documents, projects are identified from external projects, opportunities, emergencies, and other unexpected events. Prioritized projects are predominantly based on the following:

- **Public Health, Safety & Environment:** The overriding priority for the DWF CIP is maintaining public health and safety by providing or improving services to customers and decreasing our impact on the environment. Examples of highly ranked projects in this category include the Drainage Capacity program, Sanitary Sewer Overflow Capacity program, South Park Water Quality Facility, and Protection of Beneficial Uses program which includes floodplain reconnection efforts and water quality improvement projects.

## SPU – Drainage and Wastewater

- **Infrastructure Reliability & Risk:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Pipe Rehabilitation and Pump Station improvement programs.
- **Regulatory, Mandates, Legal Agreements:** The City of Seattle/SPU must comply with State and Federal regulatory requirements including the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the U.S. Environmental Protection Agency (EPA), and the U.S. Department of Justice (DOJ). The two most significant regulatory drivers associated with the CWA are the National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit). This ranking category considers the degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees, as well as by legal agreements with public and private parties and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Ship Canal Water Quality Project, CSO Retrofits, South Park Water Quality Facility, and Natural Drainage System (NDS) Partnering Program.
- **External Drivers and Opportunities:** SPU’s responsiveness to, or engagement with, the projects of other Departments or Jurisdictions, or opportunities to provide multiple benefits, address service equity, or reduce ratepayer costs through outside funding opportunities. Examples of highly ranked projects in this category include the Transportation Agency projects through SDOT’s Bridging the Gap Program and Sound Transit.

To aid SPU in making responsible decisions on behalf of ratepayers, prioritized projects must then be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to other alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations). The need for a given project or program is documented in a business case document and must be approved by the SPU General Manager/CEO and Asset Management Committee or CIP Board.

### DWW Priorities that are also Mayor/Council Priorities

SPU's Strategic Business Plan helps us focus our work to better meet the needs of our customers and communities. It also provides our customers with a predictable three-year rate path and projections for the subsequent three years. SPU updates the plan and adopts rate path on a three-year cycle to allow for future uncertainties and adjustments. As part of the update process, SPU conducts broad research and public engagement efforts, in addition to soliciting input by the Mayor’s Office and City Council.

The DWW priorities in the SBP are the collective priorities for SPU’s DWW line of business, and they reflect and respond to values consistently expressed by customers and community: affordability, sustainability, and equity. SPU is committed to leading with equity and working in partnership with communities and employees to create a just and sustainable future. We understand that the actions we take today have the power to transform our employees, community, environment, and economy for generations to come.

SPU’s vision for being Community Centered, One Water, and Zero Waste is as follows:

### 2024-2029 Proposed Capital Improvement Plan

## SPU – Drainage and Wastewater

- **Community Centered:** As a community-centered utility, we must be in relationship with community. Our work must include listening and advocating for community interests. If we are successful in adopting this mindset, then our communities will come away with a strong sense of empowerment.
- **One Water:** The challenges facing the water industry are incredibly complex and costly. We must develop multi-faceted, multi-benefit systemic solutions that recognize the value in all water resources.
- **Zero Waste:** We must strive for a future where we are not producing waste. This means intense recycling/reuse, reducing packaging and food waste, and adopting and seeding new ways of doing business and circular economy (e.g., deconstruction vs. demolition).

Reaching our goals requires long-range planning and strategic maneuvering. SPU’s General Manager/CEO recently highlighted near-term steps to lead the organization as part of his recent confirmation. These steps include planning for a transition away from centralized treatment plants to a future where small-scale decentralized treatment plants are the norm; adopting a continuous improvement culture to deliver services efficiently and effectively with data-informed decision making, work processes, and value-added outcomes for customers; and excellent service delivery that continues to prioritize the City’s values including implementing solutions that are sustainable and resilient, which includes a growing focus on delivering more holistic, programmatic, and nature-based solutions.

### CIP Highlights

**2024-2029 Proposed Drainage and Wastewater Fund CIP by BCL**

### 2024-2029 Proposed Capital Improvement Plan

## SPU – Drainage and Wastewater

**Protection of Beneficial Uses:** This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies and preserve the storm water conveyance function of our creeks through stream culvert repair and rehabilitation. The program includes projects to meet regulatory requirements, primarily NDS Partnering Program projects (a key component of Seattle’s Plan to Protect Seattle’s Waterways) which improves water quality with green stormwater infrastructure (GSI) approaches, while also partnering with SDOT to provide mobility improvements and streetscape enhancements. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program, helping SPU grow approaches for partnering with other agencies, developers, and community-based organization to install GSI at the lowest costs moment. Stream culvert and floodplain storage efforts, including the Longfellow Flood Storage project, are exploring win-win partnerships with Seattle Parks and Recreation.

**Sediments:** The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site, and Gas Works Park due to alleged historic contributions from Combined Sewer Overflows (CSO), storm drain discharges, and other City-owned facilities. The city continues to work with the EPA, the Washington State Department of Ecology, King County, and other PRPs on an assessment of contaminants and sources. The Sediments program provides funding for studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, engineering design, construction of actual cleanup of contaminated sites, and liability allocation negotiations. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined. Current projections reflect costs associated with cleanup construction adjacent to Gasworks Park, the Duwamish Waterway Sediment Remediation, and East Waterway Remediation projects beginning in 2024 based on preliminary schedules.

**Combined Sewer Overflows:** This program consists of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City’s receiving waters. During heavy rainfall events, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system (CSS) and overflow into our waterways – causing a combined sewer overflow (CSO). CSOs spill a mixture of raw sewage and stormwater into local waterways at 85 outfalls throughout the city. These spills violate water quality standards, create unacceptable risk to public health, contaminate sediment and habitats for endangered species, and pollute the Puget Sound.

Annual CSOs have been reduced from a range of 20-30 billion gallons per year by both the city and the County in 1970 to about 1 billion gallons per year today. The City’s overflows account for approximately 100-200 million gallons per year. SPU currently does not meet regulatory mandates that limit CSOs to one untreated overflow per outfall location per year. SPU is required by State and Federal law to achieve control of CSOs by 2030. The LTCP, also called the Plan to Protect Seattle’s Waterways, was approved by regulators in May 2015. Ultimately the Consent Decree requires completion of construction of all CSO reduction projects by December 2030. CSOs must be proven to be controlled one year after completion of construction. Continuing investments in CSO control will enable SPU to achieve compliance with the 2030 milestone.

Projects in the CSO Program include large infrastructure projects (e.g., storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and implementation of regulatory required plans such as the Plan to Protect Seattle’s Waterways. The

## SPU – Drainage and Wastewater

largest project in the DWF CIP is the Ship Canal Water Quality Project (SCWQP). The SCWQP consists of a 2.7-mile-long, approximately 18-foot-diameter tunnel that, when completed, will capture and store approximately 75 million gallons of sewage and stormwater flows from Ballard, Fremont, Wallingford, and Queen Anne.

Planning is underway and will continue through the coming years for additional CSO reduction efforts to meet CSO Consent Decree compliance date requirements. SPU currently expects to spend approximately \$354 million over the next six years on CSO reduction projects. The majority of this spending is associated with the SCWQP, a joint project with King County to control CSOs into the Lake Washington Ship Canal and Salmon Bay, which is currently projected to cost \$640 million.

**Rehabilitation:** This program consists of projects that repair, rehabilitate, or replace existing drainage and wastewater assets to maintain or improve current functionality levels. Assets that are addressed include:

- pump station structures, force mains, airlift conversions, major mechanical, ventilation and electrical components;
- drainage facilities including water quality structures, flow control structures and large surface water facilities; and
- drainage and wastewater conveyance pipes and structures (catch basins, maintenance holes and sandboxes).

Work within this program is a critical component to achieving SPU's Consent Decree target of less than four sanitary sewer overflows per 100 miles of sewer pipe bi-annually. Individual projects are defined by the type and method of rehabilitation and/or replacement including emergency rehabilitation, no-dig pipe lining rehabilitation by crews or contract, full mainline dig pipe replacement by contract, dig point pipe and structure rehabilitation by crews or contract, pump station repairs or replacement by crew or contract, and force main repairs or replacement by contract.

This proposed budget will include a new drainage facility master project to rehabilitate or replace water quality structures, flow control structures and large surface water facilities by crew or contractor, and a drainage pipe rehabilitation program to replace and repair drainage pipes and conveyance structures.

**Flooding, Sewer Back-up, and Landslides:** This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of new pipes, ditches, culverts, detention facilities, and GSI that control and/or convey storm runoff to the ultimate discharge locations of creeks, lakes, and Puget Sound. This program also involves protecting SPU's drainage and wastewater infrastructure in landslide prone areas from impending small landslides and providing drainage improvements where surface water generated from the City right-of way is contributing to slope instability and/or small landslides. Lastly, this program also includes sewer capacity projects that reduce sewer backups and help lower the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe per year. Major projects in this program include the 12<sup>th</sup> Avenue drainage project, the South Park Conveyance project, and the South Park Water Quality and Pump Station project. The South Park Water Quality Facility is a regulatory commitment within the Plan to Protect Seattle's Waterways.

## SPU – Drainage and Wastewater

**Shared Cost Projects:** This program includes individual capital improvement projects which typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and whose costs are "shared," or paid for by more than one of SPU's utility funds.

The Proposed Budget for the Shared Cost program includes budgets for a few interdepartmental projects including the Alaskan Way Viaduct and Seawall Replacement, Move Seattle, Center City Connector Streetcar, and Sound Transit Link Light Rail. This BCL also includes funding for SPU Facility Improvements such as the South Operations Center, the North Operations Center, and a new dewatering facility near the South Transfer Station. Other programs in this BCL include DWW Heavy Equipment Purchases, 1% for the Arts, and several smaller projects.

**Technology:** The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing.
- Enterprise Information Management.
- IT Infrastructure.
- Project Delivery & Performance.
- Science & System Performance; and
- Asset Information Management.

Investments in 2024 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls.
- Operational Excellence and Performance Management.
- An Easy and Engaged Customer Experience.
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Accela Software Implementation, Development Systems Integration Phase 2 project, and the Construction Contract Management project, along with other projects that have been deferred in previous years.

### CIP Revenue Sources

The DWF CIP is financed through revenue bonds, a combination of low interest State and Federal loans, operating cash, and a small portion through capital grants or capital contributions in-kind. Financial policies adopted by the City Council and embedded within revenue bond covenants require that non-debt sources of funds (operating cash, grants, contributions) comprise at least 25% of the portfolio over a four-year period.

## SPU – Drainage and Wastewater

For the 2024-2029 period, SPU has secured low interest SRF loans from the State Department of Ecology and WIFIA loans from the EPA to fund the majority of the Ship Canal Water Quality Project, with the balance funded through operating cash. The remaining projects will be funded through revenue bonds and operating cash. SPU will continue to seek out additional SRF and WIFIA loans where appropriate, as well as Public Works Trust Fund (PWTF) and Remedial Action Grants for sediments cleanup.

### Summary of Upcoming Budget Issues and Challenges

The biggest challenge for DWF will be continuing to manage priority projects while still complying with regulatory requirements from the EPA and the Washington State Department of Ecology (DOE) - all within the financial limitations of the Fund.

The City negotiated a Consent Decree among the City, the EPA, and the DOJ for compliance with the CWA and State regulations. The Consent Decree was entered in court on July 3, 2013 and includes deadlines for development and implementation of the LTCP and will drive spending in the CSO Reduction Program over the next several years. The Consent Decree also includes requirements to implement a Capacity Management, Operations and Maintenance (CMOM) Program, which drives operations and maintenance spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater includes requirements to help protect local waterways and the Puget Sound from damaging pollutants and excessive runoff. This increased regulatory emphasis on protecting and improving water quality has resulted in the need for the city to make substantial investments in water quality treatment, detention, CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration reduction.

- Water Quality Treatment: This focuses on removing pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce untreated overflows by allowing stormwater to infiltrate slowly into the ground, cutting the volume of stormwater entering the system, and providing water quality treatment through natural processes as the polluted runoff comes in contact with the soil and vegetation.
- Detention: This focuses on storing stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (for stormwater), GSI (for stormwater), floodplain reconnection (for stormwater), or underground tanks or tunnels (for both wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system resulting in backups of sewage, localized flooding, and releases of untreated sewage.
- CSO and Drainage Facility Retrofits: This focuses on optimizing existing collection, pumping and storage systems, using low-cost repairs and modifications to reduce pollution to waterways and/or improve flow control benefits.
- Pipe and Pump Station Rehabilitation: This consists of repairing, rehabilitating, or replacing existing gravity sewer and drainage pipes and structures, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.
- Inflow/Infiltration Reduction: This focuses on addressing parts of the system where there are direct stormwater connections to the sanitary sewer system which can be directed to a separated stormwater system. Infiltration reduction focuses on filling in cracks in sewer lines

### 2024-2029 Proposed Capital Improvement Plan

## SPU – Drainage and Wastewater

that allow groundwater to enter the system. By reducing inflow/infiltration, it is possible to reduce the frequency and volume of SSOs and sewer backups.

Other challenges DWF faces in meeting its obligations:

- 1) Addressing public expectations: It is challenging to address public expectations around our basic service level programs, such as flooding and system capacity. Funding levels for these programs are less than needed, but unable to be increased at this time due to the demand on our budget from regulatory requirements. The separated drainage and wastewater systems are either at capacity during storm events or lacking the fundamental infrastructure at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues.
- 2) Construction Costs: Market conditions, inflation, and increasing cost of building large (drainage and wastewater) infrastructure in dense urban areas continue to put pressure on the portfolio.
- 3) Climate Change: Increasing rainfall intensities resulting from climate change are increasing pressure on existing drainage and wastewater infrastructure leading to increased CSOs and driving the need for larger solutions and additional system improvements. SPU assets also have risks related to sea level rise along the marine shoreline of the city.
- 4) King County Regional Treatment and Disposal rate increase impact: In 1958, a regional sewage treatment agency, the Municipality of Metropolitan Seattle (“Metro”), was formed to provide a regional solution to water quality problems. The City, rather than expanding its own treatment facilities, entered into a contract with Metro for sewage treatment. Metro operates three major regional wastewater treatment plants, two smaller local treatment plants, and four combined sewer overflow (“CSO”) treatment facilities, along with an extensive regional interceptor system to route sewage to the plants and stop untreated discharges into Lake Washington and other bodies of water. Metro and King County (the “County”) were merged in 1994. Since then, the County has been responsible for sewage treatment and disposal and has entered into a long-term contract with local sewage agencies, including the City, which remain responsible for their own local collection and transmission lines. The County currently provides services to 37 entities, including cities (including Seattle), sewer districts, and others. The County finances the capital and operating costs of its sewage treatment and disposal system, including projects from the Regional Wastewater Services Plan, with capacity charges to new customers and wholesale charges to the City and other component agencies, all of which are established by the County Council pursuant to the current agreement. Currently, the City’s share of the County’s wholesale charge revenue is approximately 40%, and SPU passes this wholesale charge on to the City’s Drainage and Wastewater System ratepayers. Future County increases in rates may impact the funding allocation available for SPU services.

### Future Projects/What is on the Horizon

Over the next 10 years the DWF CIP will be driven largely by regulatory requirements, major transportation projects, and Operations Crew Facilities. Major projects include the completion of the Ship Canal Water Quality Project, sediment remediation, and other projects necessary under the LTCP/Plan to Protect Seattle’s Waterways, including right-of-way bioretention through the NDS

### 2024-2029 Proposed Capital Improvement Plan

## SPU – Drainage and Wastewater

Partnering Program, and South Park water quality facility. With the implementation of the Seattle Transportation Plan, DWF CIP will look for partnering opportunities that will allow SPU to stretch dollars further.

The City is currently engaged in planning that will identify capital and operating and maintenance needs for the Drainage and Wastewater System. The City's Plan to Protect Seattle's Waterways (LTCP to reduce CSO and Integrated Plan that addresses both sewage overflows and polluted stormwater runoff), which was approved by the EPA, Department of Justice, and Ecology, requires CIP investments in wastewater and stormwater projects through 2030. Supplementing in the near-term and looking beyond 2030, SPU is in the process of developing a community-centered plan to guide investments in integrated utility infrastructure for the next 50 years ([Shape Our Water Plan](#)). Through this planning effort, SPU will identify the partnerships, programs, and projects that will improve the performance and resilience of our drainage and wastewater systems while optimizing social and environmental co-benefits for the city. This planning is part of building a better Seattle by providing drainage and wastewater services that are affordable, safe, green, and just in a climate uncertain future.

### Beneficial Uses Program

<b>Project No:</b>	MC-SU-C3317	<b>BSL Code:</b>	BC-SU-C333B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Protection of Beneficial Uses
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project develops drainage related projects to improve the water quality, stream function and habitat in the streams and receiving waters of Seattle. Projects include stream and habitat restoration to reduce flooding, culvert repair and replacements to protect public safety, and green stormwater infrastructure projects to address flooding and control and clean runoff to streams.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### Broadview Long-Term Plan

<b>Project No:</b>	MC-SU-C3812	<b>BSL Code:</b>	BC-SU-C380B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Flooding, Sewer Backup & Landslide
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Broadview
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 5
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Northwest
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

The Broadview Long-Term Plan had been an ongoing program to address longstanding drainage and wastewater problems. The current funded capital project within that program is the 12th Avenue NW Drainage Basin project, which addresses public and private flooding problems in that area by providing stormwater detention and green infrastructure.

### Creek Culvert Replacement Program

<b>Project No:</b>	MC-SU-C3314	<b>BSL Code:</b>	BC-SU-C333B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Protection of Beneficial Uses
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project provides for the repair and replacement of stream culverts that are part of SPU's critical drainage infrastructure. Culverts are prioritized for repair or replacement based on structural condition. Projects are then sequenced based on prioritization and other factors such as readiness to proceed, ability to address other drainage needs (e.g., flooding, maintenance), potential partnerships, synergies with other projects and availability of funding.

**CSO Facility Retrofit**

<b>Project No:</b>	MC-SU-C3611	<b>BSL Code:</b>	BC-SU-C360B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Combined Sewer Overflows
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize and maximize existing system operation to minimize CSOs to the greatest extent possible, reducing long term CSO storage needs. This project assists in achieving State Department of Ecology's requirement of an average of no more than one CSO event per outfall per year.

<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides flood control and local drainage and wastewater projects to improve system capacity or increase the existing level of service. Candidate projects are identified through DWW investigations, claims, complaints, studies, and prior planning. Drainage “spot” projects and small landslides prevention projects are also included within this program. The Localized Flood Control Program improves Drainage and Wastewater levels of service.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project is for future combined sewer overflow (CSO) reduction projects that will be identified through the CSO Long-Term Control Plan (LTCP) Update. Future projects are most likely to include underground storage projects, wastewater lift station improvements, and/or wastewater conveyance system improvements. Planning for the projects began in 2018, and the projects should complete their construction by 2030.

### Green Stormwater Infrastructure Program

<b>Project No:</b>	MC-SU-C3610	<b>BSL Code:</b>	BC-SU-C360B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Combined Sewer Overflows
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside bioretention and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

### GSI for Protection of Beneficial Uses

<b>Project No:</b>	MC-SU-C3316	<b>BSL Code:</b>	BC-SU-C333B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Protection of Beneficial Uses
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) within the separated stormwater system. Work includes right-of-way retrofits with bioretention and/or biofiltration for water quality treatment and flow control, as well as potential expansion of private property incentives for construction of properly sized and installed rain gardens or cisterns (RainWise program) into creek watersheds. The Natural Drainage Systems Projects within this program will achieve the water quality goals for the NDS Partnering Program identified in Seattle’s Plan to Protect Seattle’s Waterways (the Long Term Control Plan requirement within our Consent Decree) while coordinating with SDOT and community groups to deliver co-benefits such as sidewalks. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program which will deliver multi-purpose green infrastructure projects in urban villages and urban centers through community partnerships and development synergies.

### Long Term Control Plan

<b>Project No:</b>	MC-SU-C3604	<b>BSL Code:</b>	BC-SU-C360B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Combined Sewer Overflows
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This project supports the ongoing implementation of SPU's Combined Sewer Overflow (CSO) Reduction Long Term Control Plan (LTCP) in accordance with SPU's National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2030. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. The LTCP identified projects and programs to reduce the number and volume of CSOs, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes flow characterization, monitoring, and hydraulic modeling; development of CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

SPU operates and maintains approximately 1,423 miles of wastewater conveyance (combined and separated) pipe. The age of this infrastructure varies; however, significant portions of the system were constructed prior to 1950. This ongoing program repairs, replaces, rehabilitates and renews the conveyance system by SPU crews and various contracting construction projects.

### Pump Station & Force Main Improvements

<b>Project No:</b>	MC-SU-C3703	<b>BSL Code:</b>	BC-SU-C370B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Rehabilitation
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides for improvements and upgrades to the 68 SPU-owned wastewater pump stations and force mains. Typical improvements may include, but are not limited to, replacement of existing pump station assets including pumps, motors, and valves, and installation of new assets such as SCADA systems, generators, and emergency plugs. This project enhances and extends the useful life of the existing pump stations which protects water quality.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program is designed to improve sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through capital project improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across Seattle for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both State and Federal regulatory agency requirements.

### Ship Canal Water Quality Project

<b>Project No:</b>	MC-SU-C3614	<b>BSL Code:</b>	BC-SU-C360B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Combined Sewer Overflows
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	West Ship Canal
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2014 - 2030	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$640,000	<b>Urban Village:</b>	Multiple

The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.

### South Park Stormwater Program

<b>Project No:</b>	MC-SU-C3806	<b>BSL Code:</b>	BC-SU-C380B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Flooding, Sewer Backup & Landslide
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	698 S Riverside DR
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2006 - 2027	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$134,876	<b>Urban Village:</b>	Greater Duwamish

This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Thornton Confluence Improvement

<b>Project No:</b>	MC-SU-C3811	<b>BSL Code:</b>	BC-SU-C380B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Flooding, Sewer Backup & Landslide
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Thornton Creek
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2008 - 2019	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$7,907	<b>Urban Village:</b>	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

# **Seattle Public Utilities**

## **Solid Waste**

### Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility, the City owns and manages the following significant infrastructure:

- Two transfer stations;
- One recycling and re-use facility;
- Two household hazardous waste facilities;
- A fleet of trucks and heavy equipment; and
- Three closed landfills previously used by the City, plus assistance to Seattle Parks on two other closed landfills.

The Solid Waste Fund (SWF) Capital Improvement Plan (CIP) is the planning tool for rehabilitating, replacing, improving, and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region’s environmental resources. Planned spending in the SWF CIP is approximately \$123 million over the next six years, from 2024 through 2029.

Major anticipated projects include:

- South Transfer Station Facility Redevelopment.
- Cleanup of the historic South Park Landfill at the South Park Development Project.
- North Transfer Station Compactor Replacement.

These projects comprise approximately 49% of the SWF CIP. Other significant projects include the Waste Removal project at the Midway Landfill, replacing two compactors, floor replacement at the South Transfer Station, and SPU’s annual equipment investment.

### Thematic Priorities

The SWF places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic solid waste facilities while protecting employees and customer health and safety.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and act as necessary when conditions change. For example, underground gas levels at these sites are monitored. When increasing gas levels are detected, SPU implements improvements to extract the excess gas or otherwise mitigate the environmental impacts of the gas increase. Landfill projects are also triggered by Washington State Department of Transportation improvements to Interstate-5 that require modification to landfill infrastructure in the right-of-way and support of Sound Transit projects that impact the Midway Landfill. Additionally, the new transfer stations are designed to reduce the environmental impacts of the existing stations on neighboring communities.

## Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU’s Asset Management System, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g., required by regulations).

Prioritization of SPU projects are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development project and Kent Highlands and Midway Landfills programs.
- **External Drivers:** SPU’s responsiveness to, or engagement with, the projects of other departments or jurisdictions, and the specific mandates of the City Council and Mayor. An example of a project in this category is the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. An example of a highly ranked project in this category is the tipping floor replacement at the South Transfer Station.
- **Level of Service:** The importance of this project in providing or improving services to customers and neighbors. An example of a highly ranked project in this category is the replacement of two compactors at the transfer stations.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits that were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

**Every project is rated against each criterion.** Criteria are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU General Manager/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Highlights

**2024-2029 Proposed Solid Waste Fund CIP**  
(In '000s; total may not sum due to rounding)

BCL	2024	2025	2026	2027	2028	2029	Total
<b>New Facilities</b>	24,162	30,605	8,505	13,920	6,620	17,420	101,232
<b>Rehabilitation &amp; Heavy Eqpt</b>	2,260	150	150	350	300	150	3,360
<b>Shared Cost Projects</b>	2,249	1,727	1,195	1,135	1,175	1,050	8,531
<b>Technology</b>	2,401	1,508	1,508	1,508	1,508	1,508	9,939
<b>Total</b>	<b>31,072</b>	<b>33,989</b>	<b>11,357</b>	<b>16,913</b>	<b>9,602</b>	<b>20,127</b>	<b>123,061</b>

**New Facilities:** This program includes the planning, design, and construction of new facilities to enhance solid waste operations. SPU will continue to implement its Solid Waste Facilities Master Plan. The key project drivers of the New Facilities budget are the South Park Development (landfill cleanup) and the South Transfer Station operational improvements projects.

**Rehabilitation and Heavy Equipment:** This program includes design and construction of projects that repair and/or upgrade solid waste facilities other than the transfer stations. The key drivers of this budget level are the Midway project and new funding for the Solid Waste Comprehensive Plan Update as required by the Washington State Department of Ecology.

**Shared Cost Projects:** This program includes individual capital improvement projects that typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and which costs are "shared," or paid for by more than one of SPU's utility funds. Key driver for this budget includes heavy equipment purchases, which reflects the best estimate of the required fleet of trucks and heavy equipment for the transfer stations.

**Technology:** The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU’s strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2024 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- An Easy and Engaged Customer Experience;
- Data-driven Decision Support; and

**2024-2029 Proposed Capital Improvement Program**

- Project Delivery/Project Controls.

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Development Systems Integration Phase 2 project, Construction Contract Management project along with other projects that have been deferred in previous years.

### **CIP Revenue Sources**

Much of the SWF CIP is funded through bond proceeds and current cash contributions, the mix of which is determined by SWF financial policies, the overall financial health of the SWF, and the best value and equity to ratepayers. SPU issued debt in 2014, 2015, and 2016. SPU is not planning any SWF bond issuances and will use current cash contributions and existing cash on hand to pay for the CIP. Cash contributions to construction and repayment of debt come from rate-based charges to customers whose solid waste services are handled by the City's solid waste infrastructure and programs.

SPU also actively seeks grants, low-interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital-intensive historic landfill remediation process and the South Recycling Center project. These projects are the primary drivers of CIP spending and have required rate increases for financing.

### **Summary of Upcoming Budget Issues and Challenges**

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

- Logistics: SWF is focusing on developing the South Recycling Center and must continue to use the site for trailer parking and household hazardous waste collection during construction.
- Financial Challenges: Developing the South Recycling Center along with site remediation efforts puts considerable short-term financial strain on the SWF. While the SWF is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for services.

### **Future Projects/What is on the Horizon**

Once the South Park Landfill cleanup work and South Transfer Station operational improvements are completed, SPU will begin a thorough planning process to guide the future redevelopment of the South Transfer Station campus. The planning will take broader City needs into consideration before selecting a redevelopment scenario. Spending for the future development will be better defined over the next 3-5 years.

## **2024-2029 Proposed Capital Improvement Program**

### Kent Highlands

<b>Project No:</b>	MC-SU-C2402	<b>BSL Code:</b>	BC-SU-C240B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Rehabilitation & Heavy Equipment
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Kent Highlands
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This program funds compliance activities related to the Kent Highlands landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Kent Highlands landfill closure project, as well as various landfill improvements. The environmental studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The landfill improvements include replacement of existing flares, drainage improvements, groundwater protection, water treatment and mitigating earthquake risks associated with steep slopes.

**Midway Landfill**

<b>Project No:</b>	MC-SU-C2403	<b>BSL Code:</b>	BC-SU-C240B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Rehabilitation & Heavy Equipment
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Kent
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Midway landfill closure project. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required. The current telemetry used to monitor the environmental control systems at the Kent Highlands Landfill and the Midway Landfill, both Superfund sites, are nearly obsolete and the equipment is no longer supported. In addition, the current system only transmits alarm conditions and does not have any data acquisition functionality. This program funds a replacement system that will allow remote data acquisition as well as alarm functionality. The largest effort under this program is the Midway landfill improvement project that funds removal of waste in the WSDOT Right of Way to allow construction of two additional lanes on I-5 and the Sound Transit Federal Way Link project. This is a joint project involving Sound Transit, WSDOT and SPU it is regulated by the Department of Ecology under a Consent Decree Amendment.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project provides modifications, upgrades, and wear replacement for the two new City Transfer Stations. The new facilities will require periodic capital upgrades and replacement to extend the useful life of these assets. Examples of this work include replacement of the wear surface on the STS tipping floor, replacement of the large refuse compactors and replacement of HVAC/Life Safety components.

**North Transfer Station Rebuild**

<b>Project No:</b>	MC-SU-C2306	<b>BSL Code:</b>	BC-SU-C230B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	New Facilities
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	N. 34th St.
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 4
<b>Start/End Date:</b>		<b>Neighborhood District:</b>	Lake Union
<b>Total Project Cost:</b>	\$111,015	<b>Urban Village:</b>	Not in an Urban Village

The project constructs a new North Recycling and Disposal Station to replace the existing, aging facility. The new facility will meet customer and employee needs, regulatory requirements, and waste management goals for at least the next 50 years. Safety, operational, and capacity concerns at the existing transfer station necessitate building a new facility. The new facility will benefit the public by providing reliable transfer of solid waste from the City and preventing the accumulation of waste and unsanitary conditions within the City.

**South Park Development**

<b>Project No:</b>	MC-SU-C2304	<b>BSL Code:</b>	BC-SU-C230B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	New Facilities
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	8100 2nd Ave S
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2007 - 2027	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$22,377	<b>Urban Village:</b>	Greater Duwamish

This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and construction has been delayed three years to 2023.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### South Recycling Center

<b>Project No:</b>	MC-SU-C2302	<b>BSL Code:</b>	BC-SU-C230B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	New Facilities
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	8100 2nd AVE S
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 1
<b>Start/End Date:</b>	2006 - 2027	<b>Neighborhood District:</b>	Greater Duwamish
<b>Total Project Cost:</b>	\$43,202	<b>Urban Village:</b>	Greater Duwamish

SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.

Future site development plans will happen over the next 5 years in a parallel process.

# Seattle Public Utilities

## Water

## Overview

SPU delivers an average of approximately 124 million gallons of drinking water per day to 1.5 million people and businesses in Seattle and 18 surrounding cities and water districts, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources, including over 103,000 acres of forested land.
- Three groundwater wells.
- Two primary water treatment plants.
- 11 booster chlorination facilities.
- 325 million gallons of treated water storage.
- 30 pump stations.
- Over 1,900 miles of transmission and distribution system pipelines.
- Almost 200,000 meters and service connections.
- More than 17,000 distribution system valves.
- About 19,000 hydrants.
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the Water capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$879 million over the next six years. Major projects include:

- Water system improvements associated with transportation projects, including Move Seattle; East Marginal Way Heavy Haul Corridor; Roosevelt Eastlake Rapid Ride; SR 520 Rest of the West.
- Operational and Regional Facility construction.
- Seismic upgrades of the Eastside and Riverton Reservoirs, the Magnolia Tank, the Trenton Standpipe, and the Cedar River Pipeline in Renton
- Replace the floating cover at Bitter Lake Reservoir with a new 21 MG partially buried circular prestressed concrete tank
- Addressing a slide area through which the Tolt Pipelines pass, upstream of the Tolt Treatment Plant; and
- Relicensing the South Fork Tolt Dam under the Federal Energy Regulatory Commission with Seattle City Light

The 2024-2029 Proposed CIP also includes many ongoing core programs, such as improving the distribution and transmission system water mains, valves, meters, steel storage tanks, and pump stations; watershed stewardship and conservation programs; and facilities, vehicles, and heavy equipment investments. In addition, it includes funding for distribution and transmission system seismic improvement programs stemming from the recent completion of SPU’s water system seismic study and federally regulated dam safety improvements at the Tolt Dam.

SPU funds Water capital projects through a combination of cash and issuance of bonds. The primary source of cash and debt repayment funds come from sale of water charged to retail and wholesale customers in the region. SPU completed its 2019 Water System Plan, a Washington Department of Health (WDOH) regulatory requirement. The plan was approved by King County and the Washington Department of Health in 2019. The plan includes many elements, as well as providing plans for SPU’s capital needs for the next 20 years.

### Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to rehabilitation of steel storage facilities.
- SPU’s commitment to **health and human safety** is also addressed through SPU’s reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has finished replacing its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Additionally, SPU will complete construction of a new floating cover on the Lake Forest Park reservoir and will begin construction of a new partially buried concrete tank at the Bitter Lake reservoir location to replace the existing floating covers that have reached the end of their useful life. Finally, as a result of a recently completed seismic study, two reservoirs will remain uncovered – Roosevelt and Volunteer – and are disconnected from the drinking water system, filled with treated water and available for emergency storage needs after major emergencies such as earthquakes.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU’s responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state, and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City’s drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low-Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City’s low-income customers to implement water conservation measures. Typical improvements consist of installing water-efficient fixtures, primarily low water use toilets, but also faucet aerators and common-area efficient clothes washers.

## Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans such as the 2019 Water System Plan, program plans, and asset management plans), external projects and opportunities (such as transportation projects), and emergencies or other unexpected events. Under SPU’s Asset Management approach, projects must be justified through a business case process that establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g., required by regulation).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some projects are part of an externally driven project. Typically, SPU lacks control over the timing of externally driven projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the reservoir covering programs, the Cedar River Habitat Conservation Program, and the South Fork Tolt relicensing project.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include SR 520 Rest of the West phase and Roosevelt Eastlake Rapid Ride.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include the Watermain Rehabilitation, Distribution System Improvements and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU GM/CEO, Asset Management Committee and/or Capital Improvement Plan Board. In addition, regional projects that are cost shared with SPU’s wholesale customers are vetted annually through the Seattle Water System Operating Board, which is a board of representatives who have certain limited authority over policy and

operational matters as they affect the Seattle Regional Water Supply System. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

**CIP Spending by Major Category**

(In ‘000s; total may not sum due to rounding)

Water Fund	2024	2025	2026	2027	2028	2029	Total
Distribution	\$44,060	\$57,113	\$65,491	\$65,295	\$59,907	\$74,633	\$366,499
Transmission	\$13,522	\$26,288	\$17,730	\$24,500	\$16,501	\$22,338	\$120,879
Watershed Stewardship	\$4,886	\$1,353	\$2,513	\$1,232	\$1,358	\$908	\$12,249
Water Quality & Treatment	\$6,450	\$5,065	\$16,283	\$29,777	\$30,294	\$23,046	\$110,914
Water Resources	\$16,706	\$13,812	\$7,520	\$5,819	\$17,245	\$16,502	\$77,606
Habitat Conservation Program	\$3,686	\$1,098	\$567	\$616	\$508	\$384	\$6,859
Shared Cost Projects	\$44,593	\$34,035	\$23,637	\$23,931	\$20,182	\$10,710	\$157,089
Technology	\$5,323	\$4,221	\$4,221	\$4,221	\$4,221	\$4,221	\$26,428
<b>Grand Total</b>	<b>\$139,227</b>	<b>\$142,986</b>	<b>\$137,963</b>	<b>\$155,390</b>	<b>\$150,216</b>	<b>\$152,741</b>	<b>\$878,524</b>

**Distribution:** Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, water storage tanks, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle and to retail customers outside of the City.

Decreases in the **Distribution BCL** in 2024 are primarily due to shifting watermain rehabilitation projects to later years in the 6-year capital plan. In 2025-2029, funding increases to rehabilitate and replace water mains, because more of this large asset class is reaching the end of its service life.

**Transmission:** The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities and convey treated water from the treatment facilities to Seattle and to other local utilities that purchase a portion of SPU’s supply for their customers.

**Transmission BCL** in 2024 is stable. Increases in 2025-2029 are caused by initiation of the new transmission system seismic improvements program.

**Watershed Stewardship:** Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 65% of the drinking water used by 1.5 million people in the greater Seattle area supplied by SPU. The City of Seattle is required by law to maintain a clean drinking water supply. To that end, the City restricts public access and management is guided by a Habitat Conservation

Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.

- The South Fork Tolt River Watershed is the second supply watershed in SPU’s freshwater supply system and provides roughly 35% of SPU’s drinking water supply. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The South Fork Tolt Municipal Watershed is approximately 12,000 acres, two-thirds of which are owned and managed by the City of Seattle. The Tolt Treatment Facilities, which includes filtration, can provide up to 120 million gallons of drinking water per day.

Increases in the **Watershed Stewardship BCL** in 2024 are primarily due to delays to replace failing culverts with larger fish passable culverts at road crossings in the South Fork Tolt Watershed. The new crossings will satisfy State regulatory requirements for fish passage. In addition to providing fish passage, this program will reduce the potential for excessive sedimentation, catastrophic infrastructure (i.e. forest road) failure, and impacts to drinking water quality.

**Water Quality and Treatment:** The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new primary treatment facilities and covering two and burying five reservoirs that contain already treated water that is distributed directly to Seattle retail and wholesale customers for drinking purposes.

The focus in the **Water Quality & Treatment BCL** is completion of the Lake Forest Park Reservoir floating cover replacement, and in later CIP years, the Bitter Lake Reservoir Project. The plan for the Bitter Lake Reservoir is construction of a new 21 MG partially buried circular prestressed concrete tank instead of the new floating cover previously considered. Construction of the Lake Forest Park Reservoir replacement cover was completed in 2022, and the Bitter Lake Reservoir Project is targeted to begin construction in 2026.

**Water Resources:** The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of projects in this category include the Dam Safety Program, Sockeye Broodstock Weir and other improvements associated with the hatchery and fish ladder, and relicensing of the South Fork Tolt Dam to secure ongoing operations of that water supply source.

Increases in the **Water Resources BCL** in 2024 are due to dam safety projects such as the Tolt Early Warning System Upgrade and Tolt Debris Boom, which are both required to comply with the Federal Energy Regulatory Commission (FERC). Increases in outyears of the 6-year CIP are also due to FERC relicensing requirements at the South Fork Tolt Dam, which SPU will be partnering on with Seattle City Light.

**Habitat Conservation Program:** This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan

benefits the utility and the ratepayers it serves by providing legal certainty under the Endangered Species Act for the City’s continued operations within the Cedar River Watershed, which supplies 65% of the SPU’s drinking water. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund’s CIP projects in this area are grouped into eight categories: road improvements and decommissioning, stream and riparian restoration, upland forest restoration, Landsburg fish passage, Cedar River sockeye hatchery, improvements to the Ballard Locks for fish passage and water conservation, fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary, and evaluation of Cedar permanent dead storage in Chester Morse Lake.

Increases in the **Habitat Conservation Program BCL** in 2024 is tied to the Downstream Fish Habitat Program in the implementation of stream restoration projects in close coordination with King County. Decreases in 2025-2029 are the result of the transitioning of the that Program along with watershed road decommissioning and fish passage programs to the Watershed Stewardship BCL (see notes under C130 – Watershed Stewardship). These programs were previously all under the City’s Cedar River Habitat Conservation Program (HCP) and are close to meeting the City’s commitments in these program areas.

**Shared Cost Projects:** This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g., the water line of business and the drainage and wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds. For the next six years, the Shared Cost program includes funding for several interdepartmental programs and projects including Move Seattle, Alaskan Way Viaduct and Seawall Replacement. Funding is also included for SPU’s Heavy Equipment Purchases and several smaller projects.

There have been shifts in the **Shared Cost Projects BCL** primarily due to the East Marginal Way Heavy Haul Corridor and the Roosevelt Eastlake Rapid Ride delays and movement of the Center City Streetcar delay to outyears beyond this 6-year CIP. There are also increases associated with heavy equipment purchases to modernize SPU’s fleet.

**Technology:** The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU’s strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2024 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls
- Operational Excellence and Performance Management
- An Easy and Engaged Customer Experience

**2024-2029 Proposed Capital Improvement Program**

- Data-driven Decision Support
- Project Delivery/Project Controls

In 2024, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, the Project Delivery and Performance Program, and the IT Infrastructure Program.

Within the Customer Contact and Billing Program, the next major projects to be developed are the CRM (Customer Relationship Management) for Community Engagement Project, and the Kubra Realtime project. Other projects slated would be the Integrated Security System project, Development Systems Integration Phase 2 project, Construction Contract Management project along with other projects that have been deferred in previous years.

### **CIP Revenue Sources**

SPU's Water CIP is funded largely by Water ratepayers. About 75% of the Water Fund's Operating Revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 20% of the Water Fund's overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 5% consists of non-rate revenue, which include such items as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 65% of the CIP, with the remainder funded by available cash, including ratepayer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to SPU watermain. These "tap fees" are a volatile revenue source, trending with the construction-related sectors of the economy.

### **Summary of Upcoming Budget Issues and Challenges**

These important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents and businesses, and Seattle's wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since the 1980's and is projected to flatten out. In 2021, consumption was 30% below the peak of 1984, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible. In the future, it may also influence water rate design.

Transitioning from Major Projects toward Asset Management: The Water Fund is transitioning from a period of building large capital projects, in response to regulatory requirements, to a time of physical infrastructure rehabilitation. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan. These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds

consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses, and ratepayers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for these major projects. Against the backdrop of these trends, the 2024-2029 Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects.
- Recognize the need to invest in the water system’s resiliency in a major earthquake event and continue with strategic investments to reduce risk.
- Preserve the transmission and distribution systems through careful investment in aging infrastructure renewal,
- Provide stewardship of the watersheds, to ensure a reliable source of high-quality drinking water.
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.

### **Future Projects/What is on the Horizon**

The Water CIP has completed a multi-decade period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline 2, Reservoir Covering Program, the Cedar River Watershed HCP, the Chester Morse Lake Pump Plant Project, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP funds the work to invest in critical projects allowing continued reliable service of drinking water to the region’s 1.5 million customers. Emphasis will be on asset management-based rehabilitation and replacement of distribution system infrastructure (e.g., mains, valves, hydrants, meters), as well as water system infrastructure improvements related to transportation projects, such as the Move Seattle Levy, seismic upgrades for critical infrastructure following the 2018 water system seismic study, and dam safety projects.

### Ballard Locks Improvements

<b>Project No:</b>	MC-SU-C1606	<b>BSL Code:</b>	BC-SU-C160B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Habitat Conservation Program
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	NW 54th St 30th Ave NW
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 6
<b>Start/End Date:</b>	2000 - 2025	<b>Neighborhood District:</b>	Ballard
<b>Total Project Cost:</b>	\$603	<b>Urban Village:</b>	Ballard-Interbay Northend

This project provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

### Cedar Bridges

<b>Project No:</b>	MC-SU-C1307	<b>BSL Code:</b>	BC-SU-C130B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Watershed Stewardship
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Cedar River Watershed
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program area also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

### Dam Safety

<b>Project No:</b>	MC-SU-C1506	<b>BSL Code:</b>	BC-SU-C150B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Water Resources
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

This ongoing program provides funding for modifications and relocations of existing Distribution System assets resulting from third party project impacts to Distribution System infrastructure located in the right-of-way or on public property. The costs are recovered from third parties and primarily other public utilities and agencies through Memorandums of Agreement and standard charges. This program covers all Distribution System modifications and relocations that are funded by third parties excluding Water main Extension project projects. The benefit of this project is accommodation of third party development by relocating or modifying existing Distribution System infrastructure, while retaining a Distribution System that continues to provide cost effective service to the ratepayer.

### Distribution System Improvements

<b>Project No:</b>	MC-SU-C1128	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Distribution System In-Line Gate Valve**

<b>Project No:</b>	MC-SU-C1136	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the water main and restores the performance of the water distribution system. This ongoing program also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a water main shut down.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Distribution System Seismic Improvements

<b>Project No:</b>	MC-SU-C1139	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program upgrade critical distribution facilities that are seismically vulnerable and will remain functional after a major earthquake. Facilities that will be upgraded include water storage reservoirs and tanks, pump stations, pipelines and support facilities. The upgrades are scheduled to occur over a 50-year plus time frame.

### Regional Water Conservation

<b>Project No:</b>	MC-SU-C1504	<b>BSL Code:</b>	BC-SU-C150B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Water Resources
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide and Regional
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

### Seattle Direct Water Conservation

<b>Project No:</b>	MC-SU-C1505	<b>BSL Code:</b>	BC-SU-C150B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Water Resources
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide and Direct Service
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides water use efficiency resources to the City's low-income customers to implement water conservation measures authorized by Ordinance 120532, adopted in 2001, and supplements funding provided under SPU's Regional Water Conservation project (C1504). Typical improvements consist of, but are not limited to, installing water-efficient fixtures, such as aerating showerheads and faucets, low water use toilets and efficient clothes washers.

### Stream & Riparian Restoration

<b>Project No:</b>	MC-SU-C1602	<b>BSL Code:</b>	BC-SU-C160B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Habitat Conservation Program
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Cedar River Watershed
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Outside City of Seattle
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing program provides stream and riparian restoration in the Cedar River Watershed, including large woody debris placement, riparian conifer under-planting, and culvert replacement for fish passage and peak storm flows. This program is a requirement under the Cedar River Habitat Conservation Plan (HCP).

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total

### Tank Improvements

<b>Project No:</b>	MC-SU-C1134	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

<b>Start/End Date:</b>	2004 - 2020	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	\$4,011	<b>Urban Village:</b>	Not in an Urban Village

This project replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this project also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

**Water Infrastructure-Hydrant Replace/Relocate**

<b>Project No:</b>	MC-SU-C1110	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Water Infrastructure-New Hydrants

<b>Project No:</b>	MC-SU-C1112	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	New Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program also helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program installs new drinking water services throughout the City of Seattle. This project provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

### Water Infrastructure-Service Renewal

<b>Project No:</b>	MC-SU-C1109	<b>BSL Code:</b>	BC-SU-C110B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Distribution
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program replaces existing plastic or galvanized water services in the City's water distribution system. Service replacement may occur as a result of leaking, failing, or to reduce damage in case of failure of the water service. This program improves Seattle's water system and extends the life of the water distribution system.

This ongoing program assists developers by adding new water mains to the water system in order to serve new residential and commercial developments. Most of the costs are recovered through standard charges. The benefit of this program is that water service is provided to new housing and businesses throughout Seattle.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management. In addition, the S. Fork Tolt Dam is up for relicensing under the Federal Energy Regulatory Commission (FERC), which expires July 19, 2029. The relicensing process will take 5-7 years depending on the relicensing approach taken with Seattle City Light and FERC. Seattle City Light is the Tolt Dam license holder and will lead the relicensing effort but significant support from SPU is anticipated. Both utilities (SPU/SCL) are establishing CIP numbers budgeted for the relicensing process.

This ongoing program replaces or rehabilitates existing water mains in Seattle. Replacements occur when leaks and breaks become too frequent and the cost of ongoing repairs is no longer cost effective. The benefits of this program can include improved service reliability, fire flow, water quality and lower maintenance costs. These benefits vary depending on the specific water main and site conditions.

This ongoing program provides forest road improvements and decommissioning in the Cedar River Watershed. The purpose of this program is to reduce the delivery of sediment into the waterways in the watershed to protect both aquatic habitat and water quality. This program is a requirement under the Cedar River Watershed Habitat Conservation Plan (HCP).

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project provides funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level with payment occurring from this project. Funds contributed to the 1% for Arts project allow for the commission, purchase, and installation of art on City-owned properties that is accessible to the public. The Municipal Arts Plan, which is prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

### Alaskan Way Viaduct & Seawall Replacement Program

<b>Project No:</b>	MC-SU-C4102	<b>BSL Code:</b>	BC-SU-C410B
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Shared Cost Projects
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2001 - 2027	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$87,522	<b>Urban Village:</b>	Multiple

This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides integrated technology solutions in support of the management of SPU's corporate knowledge, including data, information, documents, and web content. Typical improvements may include, but are not limited to, replacement of shared file storage, new online collaboration tools, introduction of workflow, tracking & reporting applications, web content management systems, and an enterprise document management solution. This ongoing project enhances SPU's ability to retrieve, share, distribute and manage corporate information.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides SPU staff with new and replacement heavy equipment required by SPU crews to perform their work. This equipment transports work crews and tools to job sites and supports the safe and efficient replacement, repair, and maintenance of infrastructures. It also build the infrastructure and telematics system needed to implement a fleet of electric vehicles to reduce SPU's use of fossil fuels and support the City's Drive Clean Seattle Fleet initiative.

### Integrated Control Monitoring Program

<b>Project No:</b>	MC-SU-C4108	<b>BSL Code:</b>	BC-SU-C410B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Shared Cost Projects
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Not Applicable
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Not in a Neighborhood District
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project provides for electronic and mechanical system upgrades as required at various City facilities. The drinking water Supervisory Control and Data Acquisition (SCADA) system was installed in 2005 throughout King County. System components include, but is not limited to, treatment/flow/pressure sensors, remote control pumps/valves used in the conveyance and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow". The project also provides engineering design and civil construction at drainage and wastewater infrastructure monitoring sites. The data produced at these sites is used by operations to predetermine combined sewer overflows (CSO) and engineering modeling and forecasting. The improvements supplied by this project decrease CSO violations in compliance with the City's NPDES permit. Typical improvements include trenching and conduit from power/Telco pole to above ground SCADA cabinet to field monitoring instrumentation. This work will occur at 150 CSS sites.

### Meter Replacement

<b>Project No:</b>	MC-SU-C4101	<b>BSL Code:</b>	BC-SU-C410B
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Shared Cost Projects
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing project funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

This ongoing project provides technology applications and application upgrades in support of improvements to project delivery and performance. Planned projects include continued development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This project will result in an improved ability to plan and deliver projects on schedule and within budget.

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations outside of City limits to address deficiencies, failures, and functional changes in the drinking water system. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

This ongoing project will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This project enhances SPU's ability to control water quality and comply with environmental and health regulations.

# **Finance and Administrative Services**

### Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling, and upgrading FAS-managed facilities and IT infrastructure. These assets are used by City departments and certain nonprofit organizations that serve the public to deliver critical services to Seattle residents.

FAS' proposed CIP includes appropriations for ongoing capital programs and discrete, one-time capital projects with multi-year durations. Multi-year projects are identified by multiple priorities, including City goals (e.g., greenhouse gas reduction, public safety, improved ADA access), code compliance, severity of system deficiencies and impact to tenant department operations. Planned schedules and funding commitments for these types of multi-year projects are typically made every year in conjunction with the annual budget process. The six-year FAS 2024-2029 CIP includes approximately \$218.4 million in funding for new and existing projects and programs.

### Thematic Priorities

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including municipal courts, police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS' capital investments either improve or enhance the operational capacity of these mission-critical facilities and systems. FAS' CIP addresses the following priorities:

- Life and safety issues – High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that mitigate potential threats to human life and safety, such as mold and lead abatement, structural failures and other hazardous conditions in building interiors also receive priority.
- Federal, state and local requirements – FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement to upgrade fire alarm panels and install fire sprinklers when substantial alterations are made while upgrading or modernizing an existing building. Substantial alterations may also require facility improvements mandated by the Americans with Disabilities Act (ADA), which meet the City's dual goals of compliance with federal requirements and provision of equitable access.
- Race and Social Justice Initiative (RSJI) – FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects. Women and minority-owned business (WMBE) vendors, construction contractors and subcontractors may be contracted for design and construction work, furthering the City's goal to promote contracting with WMBE businesses. FAS works within the inclusion plan guidelines published by City Purchasing and Contracting for consultant, contracting and purchasing work. Additionally, FAS utilizes Priority Hire, a community workforce agreement (CWA) and apprenticeship rules for construction contracts over \$5 million to further FAS' compliance with the City's community workforce goals and RSJI objectives.

- Sustainability – Several City sustainability policies and the Seattle building code guide FAS, as a building owner, to focus on meeting the energy-efficiency requirements of the Seattle Energy Code. Efforts focus on achieving cost-effective measures to reduce energy use and incorporating other sustainability strategies required by regulations. FAS will continue to address new sustainability efforts, such as the “Green Fleet Action Plan” and the “2030 Challenge,” by proposing additional projects to reduce energy use and greenhouse gas emissions.  
Asset preservation – As authorized in Ordinance 121642, FAS dedicates annual funding in the CIP to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to preserve, extend or replace failing and existing components such as roofs, windows, structures, electrical capacity, boilers or other systems at the end of their useful lives.

### **Aligning Capital Investments with Growth and/or Community Planning**

FAS’ 2024-2029 proposed CIP focuses primarily on preserving existing City assets, decarbonizing building systems and expanding electric vehicle (EV) charging infrastructure for the City fleet. The FAS Asset Preservation Program spans across the city to preserve the real property assets within the communities served. EV and decarbonization investments are critical to achieving the City’s transportation electrification strategy and emissions reduction goals. FAS’ CIP also demonstrates a commitment to support the operational growth and capacity challenges of our public safety departments; this includes the Fire Station 31 replacement and multiple small projects supporting fire and police facilities.

### **Project Selection Criteria**

For projects to be considered for inclusion in the FAS CIP, they must fit the priority themes above and adhere to the capital and asset preservation policies adopted in Resolution 31203. Projects typically fall into two categories: projects that improve or enhance operational effectiveness or projects that preserve the City’s capital assets. FAS solicits requests from its tenant departments for facilities-related projects that create or enhance operational effectiveness, vets them for timeliness and appropriateness and evaluates each request on its own merit. FAS also seeks Executive direction regarding projects that increase departments’ operational capacity and other areas of opportunity to consider when planning the City’s CIP priorities.

Asset preservation work is planned on a six-year cycle and evaluated for specific project development and execution. Department staff use a custom database known as the Unifier Asset Management and Preservation System (Unifier) to maintain building-specific facilities condition indices and evaluate known building deficiencies in the more than 100 FAS-managed buildings.

Every year, FAS revises the list of facility asset preservation projects that must be addressed. This list is compiled from annually updated asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. Elements that extend the useful life of improvements, increase tenant comfort, and reduce utility bills are integrated into existing projects where feasible. The recent Facility Condition Assessment report supports the needed increased investment in asset preservation.

### 2024-2029 CIP Highlights:

FAS' 2024-2029 proposed CIP includes new critical investments, endorsed ongoing programs and funding adjustments over six years, focusing on asset preservation of FAS properties and infrastructure, and improvements to public safety facilities.

Below are specific programs and discrete capital projects with funding adjustments:

- Asset Preservation – FAS continues its ongoing support of major maintenance work in the City's downtown core properties as well as City-owned properties outside of downtown.
- Bid Solicitation – The proposed investment funds a centralized electronic software solution to modernize the City-wide procurement process. This e-procurement software solution will be used City-wide in the development, issuance and evaluation of procurements such as Request for Proposals/Qualifications. The software will provide a more accessible method for contractors to submit bids by e-mail/online, making it easier for a wider group of vendors to submit bids to the City.

### CIP Revenue Sources

The 2024-2029 proposed CIP is primarily funded by Limited Tax General Obligation (LTGO) bonds, REET I and space rent charges paid by City departments. LTGO bond funding is used to fund projects such as the Seattle Municipal Tower Elevator Rehabilitation and Human Capital Management System replacement. The related debt service is funded by the rates charged by FAS to City departments. Endorsed REET I funds are focused on specific facility improvement needs, such as Earthquake Preparedness, the Animal Shelter, and Fire Station 31 debt service.

### Summary of Upcoming Budget Issues and Challenges

FAS' most pressing long term CIP budget issues are primarily driven by the age and condition of many City-owned buildings, federal, state, and local code requirements, and City sustainability goals. Below are specific programs and projects related to FAS budget challenges:

- Asset Preservation – The FAS Asset Preservation Program, created by Ordinance 121642, dedicates funds derived from space rent to replace building systems in over 100 City buildings inside and outside of the downtown core. The Asset Preservation Program has historically received \$4 million in funding annually from space rent charges. This funding level is \$12 million short of the annual amount FAS' model suggests is adequate to address deficiencies and deferred major maintenance work; the total funding need is estimated at more than \$100 million. An additional resource challenge is the number of vacant project manager positions that FAS is working to fill to implement more work.
- Building, Energy and Land Use Codes and City Sustainability Goals – FAS' efforts will play a major role in achieving the City's sustainability and environmental goals. FAS must continue to provide reliable, compliant, and structurally sound facilities for City departments to use and the public to access. These investments require FAS to evaluate and incorporate strategies to achieve code compliance, energy efficiency, and accessibility in the operations, maintenance, and

## Finance and Administrative Services

infrastructure improvements of its buildings. Informing and engaging the public in accomplishing these goals is an ongoing challenge.

### Future Projects/What Is on the Horizon

City facilities must be accessible, reliable, well-maintained and responsive to the needs of operating departments to ensure the safety and delivery of critical services to customers. FAS will utilize the Facility Condition Assessment report to help prioritize major maintenance and infrastructure project needs. FAS faces an ongoing challenge in adequately funding these needed asset preservation and major maintenance requirements at the City's aging facilities, including the Seattle Municipal Tower, Seattle Fire Department (SFD) Headquarters and multiple FAS shops and yards.

**ADA Improvements - FAS**

<b>Project No:</b>	MC-FA-ADAIMPFAS	<b>BSL Code:</b>	BC-FA-ADAIMPR
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	ADA Improvements
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	FAS facilities
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project is the FAS Americans with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities, such as drinking fountains and various public access routes to sites, buildings, and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Downtown

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 1 facilities. Schedule 1 facilities are comprised of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

This ongoing program provides for long- term preservation and major maintenance to the FAS schedule 2 facilities. Schedule 2 facilities are comprised of existing and future structures, shops and yards located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, FAS shops located at Airport Way S., fire stations, police precincts, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Downtown

This project provides predesign, design and construction services for developing or reconfiguring space and other adjacent functions in the downtown Civic Campus. Work may include, but is not limited to, working with project sponsors to catalog space and equipment needs, energy efficiency improvements, developing planning options, developing project cost estimates and construction. Work may also include analysis of how vacated space in other facilities might be utilized for other City uses.

**Drive Clean Seattle Fleet Electric Vehicle Infrastructure**

<b>Project No:</b>	MC-FA-DRVCLNFLT	<b>BSL Code:</b>	BC-FA-GOVTFAC
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	General Government Facilities - General
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2016 - 2024	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$13,970	<b>Urban Village:</b>	Multiple

This project funds FAS' capital work efforts towards meeting the Drive Clean Seattle (DCS) initiative, a comprehensive transportation electrification strategy to transition Seattle's transportation sector from reliance on fossil fuels to the maximal use of clean, carbon-neutral electricity. Work will include but is not limited to, the design, permitting, and construction of electric vehicle charging stations in the Seattle Municipal Tower to provide capacity for the conversion of the City fleet to electric vehicles. Future work may include the installation of charging stations at additional sites.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

### Electrical Infrastructure Upgrades

<b>Project No:</b>	MC-FA-ELECTINFRA	<b>BSL Code:</b>	BC-FA-GOVTFAC
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	General Government Facilities - General
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Citywide
<b>Current Project Stage:</b>	Stage 1 - Pre-Project Development	<b>Council District:</b>	Not Applicable
<b>Start/End Date:</b>	2023 - 2025	<b>Neighborhood District:</b>	
<b>Total Project Cost:</b>	\$16,000	<b>Urban Village:</b>	

This project funds electrical upgrades at Charles Street and Haller Lake fleet facilities. The project will bring necessary power to the facilities that will support larger scale electric vehicle charging stations and future decarbonization projects for the full facility. The scope of this project is for the electrical upgrades only.

### Energy Efficiency for Municipal Buildings

<b>Project No:</b>	MC-FA-ENEFFMBLD	<b>BSL Code:</b>	BC-FA-EXTPROJ
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	FAS Oversight-External Projects
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Multiple City facilities
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support of the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund and shown here as future General Subfund revenue. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

This project was formerly named the Customer Requested Tenant Improvement Program.

This ongoing program provides pass-through budget authority for FAS to provide capital and public works, as requested by FAS' Facility Operations division, at facilities that are managed or leased by FAS. Typical improvements may include, but are not limited to, tenant space remodels, security system upgrades and equipment replacement. Other project types include architectural and engineering services such as conceptual planning, design alternative development and preliminary cost estimating. Typical preliminary design and engineering work includes, but is not limited to, pre-design and analysis of project alternatives, cost estimates, test to fit studies, preliminary schedule development, engineering studies and code compliance, site development planning, and conceptual design and financial analysis of capital improvements options in conjunction with FAS and CIP priorities, programs, and initiatives.

### FAS Information Technology System Initiatives

<b>Project No:</b>	MC-FA-ITSYSINIT	<b>BSL Code:</b>	BC-FA-A1IT
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Information Technology
<b>Project Category:</b>	New Investment	<b>Location:</b>	700 5th AVE
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project provides funding for FAS to implement Seattle Information Technology (SIT) proposals to replace existing FAS IT systems that are at the end of their useful lives, accommodate new programmatic and operational needs, and allow the department to function efficiently. FAS coordinates development and implementation of these proposals with SIT. Specific projects include replacing FAS' department-wide budget system and assessing and replacing FAS' Capital Projects Information Management System.

**Fire Station 5**

<b>Project No:</b>	MC-FA-FS5	<b>BSL Code:</b>	BC-FA-PSFACFIRE
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Public Safety Facilities Fire
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	925 Alaskan Way
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2014 - 2023	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$13,691	<b>Urban Village:</b>	Downtown

This project, located on the downtown Seattle waterfront, provides a seismic and safety upgrade for Fire Station 5 and makes functional improvements to the facility and building systems. The project renovates the fire station and replaces the existing dock to protect fire fighters in the event of an earthquake and allows them to provide high-quality marine and land-based emergency service. The project was originally timed to coincide with the Seawall replacement project as this facility is physically attached to the Seawall structure, and dock replacement work was timed to align with Washington State Ferries (WSF) projects along the Waterfront.

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This project pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS' CIP for informational purposes only.

**Human Capital Management System**

<b>Project No:</b>	MC-FA-HCMSYS	<b>BSL Code:</b>	BC-FA-A11T
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Information Technology
<b>Project Category:</b>	New Investment	<b>Location:</b>	700 5th Ave
<b>Current Project Stage:</b>	Stage 5 - Construction	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2021 - 2026	<b>Neighborhood District:</b>	
<b>Total Project Cost:</b>	\$60,936	<b>Urban Village:</b>	Downtown

This technology project funds the planning, design, and replacement of the aging Human Resource Information System (HRIS), which includes the Citywide payroll and benefits system, with a new Human Capital Management (HCM) system. The timing of this project is critical for the Citywide HR, timekeeping and payroll system, which will not be supported after 2023. The project was approved by the Enterprise Oversight Board (EOB) in February 2020 and will be managed out of the FAS Business Systems division, with funding and partnership from Seattle Department of Human Resources (SDHR) and Seattle IT (ITD).

**O&M Impacts:** To begin the strategic planning for implementing a new system, both FAS Business Systems and Seattle Department of Human Resources (SDHR) will hire 1.0 FTE and 2.0 FTEs respectively in 2020. Additional funding from ITD will allow for a strategic consulting firm to assist with this body of work and finalize the implementation budget and schedule. Additional staffing and services will be required in 2021 and 2022 for the life of the project.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

**Request for Client Facilities Services (RPS)**

<b>Project No:</b>	MC-FA-CTYPDS	<b>BSL Code:</b>	BC-FA-FASPDS
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	FAS Project Delivery Services
<b>Project Category:</b>	Improved Facility	<b>Location:</b>	Multiple
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This project was formerly known as FAS Project Delivery Services.

This ongoing program provides pass-through budget authority for FAS to provide design and construction management services, as requested by City departments outside of FAS. Typical work may include, but is not limited to, the following services: predesign, programming, master planning, conceptual planning, architectural and engineering design and construction administration. FAS proposes to use the second and third quarterly supplemental budget process to "right size" the pass-through budget authority for this project. This approach allows FAS to meet the present needs of departments that have funding for their projects and is consistent with year-end accounting and budgetary requirements.

### Seattle Municipal Tower Chiller Plant Replacement

<b>Project No:</b>	MC-FA-SMTCHLRPL	<b>BSL Code:</b>	BC-FA-APSCH1FAC
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Asset Preservation - Schedule 1 Facilities
<b>Project Category:</b>	Rehabilitation or Restoration	<b>Location:</b>	700 Fifth AVE
<b>Current Project Stage:</b>	Stage 6 - Closeout	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2018 - 2022	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$18,000	<b>Urban Village:</b>	Downtown

This project replaces the chiller plant in the Seattle Municipal Tower (SMT). The project will require a multi-year execution plan to allow for permitting, design, procurement and construction to occur during the windows of opportunity when cooling is not required. This highly technical, complex construction effort is a once-in-a generation endeavor. With a dwindling supply of spare parts for maintenance and repairs, it is no longer feasible to defer this critical work, and delaying the project would put FAS at risk of not being able to provide essential cooling to City of Seattle offices and other building tenants. Project costs shown here are exclusive of \$1 million expended on preliminary work on this project in 2018. Those funds are included in the Asset Preservation - Schedule 1 Facilities project (MC-FA-APSCH1FAC).

<b>Start/End Date:</b>	2019 - 2025	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$26,500	<b>Urban Village:</b>	Downtown

This project will improve the operation, reliability, and system performance of the Seattle Municipal Tower (SMT) elevators. The work will bring the SMT elevators to current building codes and into compliance with Americans with Disabilities Act (ADA) requirements. This project is envisioned to be a multi-year effort that must be phased to minimize impacts on SMT ongoing building operations, and on the approximately 4,000 City staff who work in the building and the public who visit the SMT to access City services.

<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Not in an Urban Village

This ongoing project preserves or extends the useful life or operational capacity and provides for improvements to FAS-owned police facilities including, but not limited to, the East Precinct, the North Precinct, the West Precinct, the Mounted Patrol Facility, the Harbor Patrol Facility, the K-9 Facility, and other police facilities. Typical work may include, but is not limited to, upgrades to heating, ventilation, air conditioning upgrades, equipment replacement, siting, pre-design, test-to-fit analyses, and structural assessments and repairs. These improvements support police service by extending the operational life of old police facilities, complying with regulatory requirements, or addressing capacity problems.

**SLIM Replacement**

<b>Project No:</b>	MC-FA-SLIMREPL	<b>BSL Code:</b>	BC-FA-A1IT
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Information Technology
<b>Project Category:</b>	New Investment	<b>Location:</b>	700 5th AVE
<b>Current Project Stage:</b>	Stage 5 - Execution (IT Only)	<b>Council District:</b>	Multiple
<b>Start/End Date:</b>	2022 - 2025	<b>Neighborhood District:</b>	Multiple
<b>Total Project Cost:</b>	\$12,000	<b>Urban Village:</b>	Multiple

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. It houses our B&O tax information, Admissions Tax, Commercial Parking Tax, Firearms and Ammunition Tax, Gambling Tax and Utilities Taxes. SLIM is now outdated and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes and needs to be upgraded. The SLIM Replacement will be part of the City's tax system built by Revenue Solutions Inc (RSI), which is called RPE (Revenue Premier Enterprise) and currently houses the Payroll Expense Tax, TNC tax, Sweetened Beverage Tax, and any other small taxes since 2017/2018; it also houses the Central Waterfront LID (Local Improvement District) and some of the BIAs (Business Improvement Districts). The project currently has \$4.8 million in funding for basic requirements gathering. This planning work continues but the project won't be fully launched until additional funding is identified. The total project cost is estimated at \$12 million and ongoing operating and maintenance costs are estimated at \$1.5 million.

### Waterfront Operations and Tribal Interpretive Center

<b>Project No:</b>	MC-FA-OWMAINT	<b>BSL Code:</b>	BC-FA-GOVTFAC
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	General Government Facilities - General
<b>Project Category:</b>	New Facility	<b>Location:</b>	1426 Alaskan Way
<b>Current Project Stage:</b>	Stage 3 - Design	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2023 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$13,000	<b>Urban Village:</b>	Downtown

This project holds budget to acquire the Integrus (Bakun) building located on the new Alaskan Way at Pike Street Hillclimb from WSDOT to provide for a facility to house the dedicated staff team for on-going maintenance and operations of the Waterfront Park. This building is located approximately 600 feet from the new maintenance area being provided under the Overlook Walk for vehicle storage and other maintenance activities. The building would also fulfill the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliott Bay Seawall to provide space in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated their interest in the space and that it could fulfill the conditions of the permit.

Resources	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
LTGO Bond Proceeds	-	13,000	-	-	-	-	-	-	13,000
<b>Total:</b>	-	<b>13,000</b>	-	-	-	-	-	-	<b>13,000</b>
Fund Appropriations / Allocations *	LTD Actuals	2023 Revised	2024	2025	2026	2027	2028	2029	Total
2023 Multipurpose LTGO Bond Fund	-	13,000	-	-	-	-	-	-	13,000
<b>Total:</b>	-	<b>13,000</b>	-	-	-	-	-	-	<b>13,000</b>

**O&M Impacts:** FAS, the Office of the Waterfront, and Seattle Center will develop an operations plan for the facility and will coordinate agreements among the building's multiple user departments and the Muckleshoot Tribe. The operations plan will include details on planned funding resources to meet the ongoing maintenance needs of the facility.

\* Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

### Waterfront Operations and Tribal Interpretive Center - Debt Service

<b>Project No:</b>	MC-FA-OWMAINTDS	<b>BSL Code:</b>	BC-FA-GOVTFAC
<b>Project Type:</b>	Debt Service	<b>BSL Name:</b>	General Government Facilities - General
<b>Project Category:</b>	New Investment	<b>Location:</b>	1426 Alaskan Way
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 7
<b>Start/End Date:</b>	2023 - 2043	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>		<b>Urban Village:</b>	Downtown

This project provides for payment of the debt service on bonds issued in 2023 to fund the acquisition and rehabilitation of the Waterfront Operation and Tribal Interpretive Center (CIP Project No. MC-FA-OWMAINT).

# **Information Technology**

## Seattle Information Technology Department

### Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

Seattle IT delivers technology solutions including, data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages designated projects on behalf of the City, other departments, and regional partners.

Seattle IT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements, and upgrades to the City's existing technology systems, as well as the development and implementation of new projects. Seattle IT's 2024-2029 Proposed CIP budget is \$100.7 million. Details for 2024 are provided in the following table.

CIP Program Name	2024 Proposed	Planned Spending
<b>Discrete Projects</b>		
Criminal Justice Information System Projects	\$4,829,660	Complete the implementation of case management systems for agencies including Seattle Municipal Court, and the City Attorney.
<b>Ongoing CIP Programs</b>		
800 MHz Radio Network Program	\$760,891	Maintain radio network infrastructure and public safety radios.
Computing Services Architecture	\$5,135,000	Computer equipment related to a new Unified Communication System (to replace the City's current telephone system) as well as routine equipment replacement and upgrades for servers, storage, and facility infrastructure.
Data & Telephone Infrastructure	\$8,702,477	Network equipment related to Unified Communication System, and routine equipment replacement and upgrades. Includes budget to continue the retirement and replacement of legacy telephony and contact center environments to more modern, secure replacements.
Fiber-Optic Communication Installation & Maintenance	\$4,701,533	Fiber installation and maintenance.
Seattle Channel Maintenance & Upgrade	\$363,463	Equipment replacement and maintenance.
<b>Department Total</b>	<b>\$24,493,025</b>	

## CIP Revenue Sources

Seattle IT's CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are cost-allocated based on a percentage of use for the service provided or billed directly to a department based on the actual cost of time and labor or quantity of materials provided. Seattle IT's budget also includes some projects that are funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities. In some cases, Seattle IT has been the direct recipient of the funds, and in others, Seattle IT has managed grant-funded projects for customers. The use of grant funding for the Seattle IT CIP has been intermittent.
- **Cable Franchise Fees:** Seattle IT collects Cable Franchise Fee revenues set in franchise agreements with the cable providers. Some of this revenue has been used to fund the CIP program which supports the Seattle Channel. Cable Fees have historically provided less than 1% of Seattle IT's CIP program.
- **Reserves:** In some instances, Seattle IT's rates and allocations include the collection of funds which are accumulated and held in a reserve in Seattle IT's Fund Balance. Currently, this is only done for the 800 MHz radio system, although it has been considered for other areas. Expenditures of these reserve funds appear Seattle IT's CIP program. Historically, there is a low level of spending for ongoing Operations & Maintenance items, with intermittent large expenditures associated with major replacements and upgrades.
- **Private Dollars:** In the past, Seattle IT projects have occasionally included funding from external non-public sources. Such instances are highly intermittent, usually for relatively small dollar value and not projected to continue at any appreciable level.
- **Levy:** In the past, Seattle IT received some CIP funding from a levy for the development, acquisition and installation of the 800 MHz emergency radio communication system. Going forward, the future replacement and upgrade of the county-wide radio system is funded by the Puget Sound Emergency Radio Network levy. Outside of that, no additional levy funding is anticipated.
- **Bonds & Future Bond Proceeds:** Seattle IT utilizes funding from City bond sale proceeds to implement significant capital projects in the CIP. Rates and allocations typically provide the funds to repay the debt service on these bonds.
- **Use of Fund Balance:** Seattle IT may use existing fund balance or planned carryforward to implement some projects in its CIP.
- **To Be Determined:** Occasionally, Seattle IT's CIP includes future projects for which a specific funding source has yet to be specified. These projects will not go forward unless and until funding is secured.

## Thematic Priorities

Seattle IT's priorities are:

- **Develop & Enhance Business Solutions** – We build and improve tools and capabilities for our clients
- **Inform & Support the Public** – We deliver programs to ensure City residents have equitable access to technology, City data, government processes, and civic programs
- **Deliver & Improve Services** – We resolve issues and fulfill requests; and we increase the efficiency & performance of our services
- **Maintain Operational Integrity** – We support sustainable technology and avoid creating technical debt
- **Security & Compliance** – We reduce vulnerabilities, protect City assets and data, and exercise fiscal responsibility
- **People & Culture** – We recruit, develop, support, and retain top talent

## Project Selection Criteria

### STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. This happens on a rolling basis throughout the year, as well as during the budget planning process. Input comes from multiple places, including:

- customer department requests and requirements (including technology plan alignment to department strategic plans)
- Seattle IT Strategic Agenda
- technology roadmaps (updated annually)
- asset replacement schedules
- coordination with partners (regional efforts, vendor partners, etc.)

This step includes development of initial cost estimates and other resource requirements, potential timing, and dependencies. At the completion of this step, potential projects are added to the Citywide IT Project Portfolio for tracking and consideration through Seattle IT's Project Gate Review process.

### STEP 2: Identification of CIP and Non-Discretionary Projects

As part of the Gate Review process, items identified in Step 1 are filtered to determine if they are (1) CIP- appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- overall dollar value
- timeframe of implementation (e.g., multi-year project)
- lifespan of investment
- investment in/preservation of long-term infrastructure
- the nature of the acquisition (e.g., goods, services, etc.)

## Seattle Information Technology Department

Criteria for determining if they are non-discretionary include:

- legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- reimbursable services to others (e.g., Seattle IT manages a regional fiber consortium where the partners contract with/through us to get work done).

Projects which are determined to be non-discretionary are automatically moved forward for inclusion in Seattle IT's initial CIP and budget proposal. Discretionary projects proceed to Step 3. Regardless of discretionary status, project requests complete the Gate Review process to validate projects are established with the appropriate governance, value proposition and risk mitigation planning.

### **STEP 3: Prioritization of CIP-Appropriate Discretionary Projects:**

In this step, proposed investments are screened to determine if they are a match for Seattle IT's normal maintenance/upgrade/replacement programs within the CIP. Investments such as these tend to be smaller in scale (less than \$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change), etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital investments which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- asset preservation/replacement/maintenance
- product lifecycles
- legal requirements/mandates
- security/risk mitigation
- reimbursable from other sources (other depts. or outside entities, grants, reserves)
- dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- internal customer demands (including capacity) – including Mayoral/Council/Mayor's IT Subcabinet priority
- external customer demands – public, businesses, etc.
- external drivers (vendor changes, regional commitments, etc.)
- efficiency/effectiveness improvements/resource savings and return on investment
- key future trend/forward-looking/pro-active

### **Summary of Upcoming Budget Issues and Challenges**

**Hybrid Workforce.** The shift of the City's workforce to a hybrid-remote mode will continue to put pressure on the IT infrastructure and resources necessary to secure our more distributed technology environment and continue to provide efficient services to employees. For example, the City's Virtual Private Network infrastructure was enhanced during the pandemic but will require ongoing financial and technical support to continue to serve the larger remote population of City staff. Similarly, the majority of City employees are not equipped to be mobile, flexible, and resilient. Most employees do not have

## Seattle Information Technology Department

laptops, and the City's PC Replacement Program is funded using a desktop computer as the base unit of measure for budgetary purpose. In addition, logistics related to asset management, device support, and equipment deployment to remote and hybrid workers will continue to be challenging unless additional investments are made to support mobile equipment. Finally, some previous and in-flight capital IT projects, such as the Unified Communications system, were designed based on a pre-pandemic set of assumptions and use cases; some of those decisions concerning, for example, conference room technology, mobility, and fixed telephone sets will likely be in flux over the next 12-24 months.

**Disaster Recovery/Preparedness** - A future consideration as we invest in new programs and technologies is the need for disaster recovery and business continuity capabilities. Our reliance on systems continues to grow and, while our capital investment projects deliver new functionality, this work typically does not account for the redundancy or infrastructure needs to support an expedient disaster recovery scenario. The additional costs that come when planning that work are usually deemed cost prohibitive when sizing a Capital Investment Project. As we continue to plan our capital program, we will need to consider additional disaster recovery investments.

**Rapid and major changes in technology.** The continued rapid rate of change in technology presents a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands exponentially. New technologies provide new solutions and new opportunities, but at the same time they can initially disrupt productivity, require upfront costs, and impact security, privacy, and the governance landscape. Vendors regularly "de-certify" and stop supporting products the City relies upon, leaving the choice of spending significant amounts of money to upgrade to supported products or risk running important/critical City functions on unsupported platforms. At the same time, the method by which vendors deliver technology solutions is rapidly changing. Many vendors have moved or are moving away from delivering a software product to the City for installations on City servers; instead, they are offering cloud-based and hosted solutions that the City can access on a subscription basis. While offering many benefits, this changing delivery approach requires increased City investments in identity management, data integration, and contract management.

**Planning for future investments and lifecycle management.** Departments want to move fast to leverage new technologies before Seattle IT has developed the platforms, teams, or culture to make this happen. Seattle IT balances the competing objectives of doing things right and doing them right now.

**Platform First.** Similar to all large enterprises, where technology has overtaken the organization's operations organically and over a long period of time, the City of Seattle also sits on hundreds of legacy technology applications. This fragmented technology footprint is a major cyber security concern, a cause of lost productivity, and a financial liability. A key factor in achieving reductions in the City's technology investment is directly dependent on a Platform First approach where 80% of the City's technology business is performed on 20% of technology solutions. Seattle IT will continue to promote the Platform First approach in the coming years, working to build commitment Citywide and tactically in Seattle IT.

**Privacy and Public Records Management.** The City is often confronted with the dichotomous challenge of preserving the privacy of members of the public who interact with the City and the requirements for transparency and disclosure outlined in the State of Washington's Public Records Act. The City collects

## Seattle Information Technology Department

and uses a vast and expanding amount of data on a regular basis. It is necessary that the City minimize the number of platforms and services that collect public data, be mindful and intentional about the amount of data collected, and be consistent about retaining that data in repositories that can be accessed and searched in response to public records requests. The proliferation of data sources and repositories requires a constant evolution in the training and tooling used by Public Disclosure Officers, and requires all City employees to understand the City's commitments to data privacy and public records.

**Cybersecurity.** The nature of threats to the integrity of the City's technology systems is evolving. Emphasis is shifting away from network and end-point security to advanced risk-based threat assessment and response, identity assurance, employee training, and "security by design" for IT applications and solutions. Preventive controls are no longer entirely reliable; instead, we need a greater emphasis on the ability to locate and quickly remediate and recover compromised technology. This shift in the threat matrix requires different investments in technology, education, and expertise, and necessitates an increased participation in regional and national efforts that coordinate and share cybersecurity information.

**Public Expectations.** The public has high expectations for how government performs, including how technology is used to deliver efficient and accessible government services and how government can be more transparent about its operations. Some Seattle residents are tech savvy while others still lack internet access. Generational differences also create different expectations regarding services. Investments in new technology-enabled government services and civic technology programs such as Open Data must be prioritized and have to balance many audiences.

### Future Projects/What is on the Horizon

Seattle IT has identified several initiatives and issues which will need to be addressed in the future.

- **Software systems which require replacement/upgrades.** Prior to IT consolidation, the Department of Information Technology CIP did not include funds to cover replacement of large applications owned and operated by individual departments. Since consolidation, Seattle IT has "inherited" responsibility for many such systems, most of which did not come with any long-term replacement funding. Replacement and upgrades for systems owned and operating by Seattle Public Utilities and Seattle City Light are generally being funded out of the utilities' CIPs with Seattle IT acting as the service provider. However, funds for other large applications and systems needing replacement are not comprehensively programmed into Seattle IT's CIP. Instead, Seattle IT will continue to address these needs on a case-by-case basis as the need arises.
- **Infrastructure systems which require replacement/upgrades.** Seattle IT's CIP contains sufficient funding to cover routine replacement of lesser value items, especially those which occur every year (e.g., switches, mid-range servers, etc.). However, larger value, intermittent replacements are more difficult to fund within existing budget. These needs will continue to be addressed on a case-by-case basis as the need arises.

### 800 MHz Radio Network Program

<b>Project No:</b>	MC-IT-C3550	<b>BSL Code:</b>	BC-IT-C0700
<b>Project Type:</b>	Ongoing	<b>BSL Name:</b>	Capital Improvement Projects
<b>Project Category:</b>	New Investment	<b>Location:</b>	700 5th Ave / Various
<b>Current Project Stage:</b>	N/A	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	N/A	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Downtown

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

**Criminal Justice Information System Projects**

<b>Project No:</b>	MC-IT-C6304	<b>BSL Code:</b>	BC-IT-C0700
<b>Project Type:</b>	Discrete	<b>BSL Name:</b>	Capital Improvement Projects
<b>Project Category:</b>	New Investment	<b>Location:</b>	700 5th AVE
<b>Current Project Stage:</b>	Stage 5 - Execution (IT Only)	<b>Council District:</b>	Council District 3
<b>Start/End Date:</b>	2016 - 2024	<b>Neighborhood District:</b>	Downtown
<b>Total Project Cost:</b>	\$59,901	<b>Urban Village:</b>	Downtown

This project provides funds to plan and implement upgrades to the City's Criminal Justice Information Systems. This project was previously named the Municipal Court Information System (MCIS) Replacement project. The project was renamed in 2018 to more accurately reflect efforts beyond MCIS replacement.

<b>Resources</b>	<b>LTD Actuals</b>	<b>2023 Revised</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

# Appendices

**Appendix A: New or Expanded Capital Facilities**

**Seattle City Light**

<b>Project ID</b>	<b>Project Name</b>	<b>Project Capacity</b>	<b>Location</b>	<b>2024 Budget*</b>
MC-CL- XB6351	Boundary Powerhouse - Unit 51 Generator Rebuild	Rationale: The Unit 51 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$8
MC-CL- XB6353	Boundary Powerhouse - Unit 54 Generator Rebuild	Rationale: The Unit 54 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$72

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- XB6401	Boundary Facility - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is a FERC requirement for a mobile emergency generator as a redundant source of power to open spill and sluice gates. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million-dollar projects.	10382 Boundary Rd, Metaline, WA 99153	\$2,254
MC-CL- XB6493	Boundary Powerhouse Generator Step- up Transformer Replacement	Rationale: Design to begin in 2010. Closeout in 2017. First transformer delivered in 2012. Alternative(s): An alternative approach would be to repair or replace units as they fail from deferred maintenance. This approach would eventually result in a significant loss of revenue and/or fines from a regulatory agency. Accepting the risk of failure would not be in the best interest of the utility. Having a spare unit onsite would prevent such failures.	10382 Boundary Rd, Metaline, WA 99153	\$2,208
MC-CL- XB6535	Boundary Powerhouse - Unit 52 Generator Rebuild	Rationale: This project is part of the Utility's Generator Rebuild Program, a series of projects to maintain and extend the useful life of the Utility's aging generators. The program rebuilds ten generators, accounting for 70 percent of City Light's generating capability. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$10,116
MC-CL- XB6565	Landis and Gyr RTU Modernization Boundary, Cedar Falls and Skagit	Rationale: Replace failing gear with new. Alternative(s): No Alternatives Provided.	Boundary, Skagit and Cedar Falls power facilities	\$631
MC-CL- XB6566	Boundary - DC Battery System & Charge Modernization	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$765

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- XB6987	Boundary - Licensing Mitigation	Rationale: In order to continue to operate the facility, the City must obtain a new FERC license. The decision to apply for a new license has been made and we have embarked on the default FERC licensing process, the Integrated License Process (ILP). While the cost of attaining a new license to operate Boundary Dam is very significant, Boundary provides anywhere from 25% to 40% of SCL's power requirements and produces power at a cost significantly below the market rate. The plant's operations are shaped to deliver power during peak-load hours, an operating regime that allows the City to meet continued service area load growth and provide regional system reliability. For these reasons, the Utility has determined that obtaining a new license is a priority and we are confident that it will continue to be a cost-effective source of renewable power for the City. Alternative(s): No Alternatives Provided.	10382 Boundary Rd, Metaline, WA 99153	\$14,482
MC-CL- XC6406	Cedar Falls/South Fork Tolt - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is the replacement of an Oil-filled Transformer. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million-dollar projects.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$1,743
MC-CL- XC6450	Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay	Rationale: The present generator protection is outdated and lacks some basic protection elements to protect it from abnormal frequency and voltages. The existing relay does not meet the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances. This deficiency was identified as part of the NERC/WECC compliance program and has been scheduled for replacement as part of a prioritized program along with other outmoded technology present in SCL's aging infrastructure. Alternative(s): 1. Do the project described. 2. Do Nothing. This is not considered to be	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$94

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		a viable approach since the present generator protection scheme does not meet the ANSI/IEEE Standard or the WECC/NERC regional requirements for the protection of generators.		
MC-CL- XC6573	Cedar Falls Substation & Bank 6 Replacement	Rationale: This project improves generation reliability by replacing this critical transformer prior to failure. It will also enhance overall operational performance since new transformers are more efficient, have more environmental protections, and require less maintenance. Alternative(s): The only alternative to this project is to run the transformer to failure which would necessitate an emergency project to replace it.	Cedar Falls	\$255
MC-CL- XF8389	Special Work Equipment - Shops	Rationale: This project provides new tools and work equipment to replace outdated equipment. The project updates technical systems to current standards, as our current transformer test equipment relies on outdated computer equipment and programming that is no longer supported. Some equipment does not meet the latest safety standards. Other equipment is no longer supported by replacement parts or can no longer be repaired to provide accurate cutting, bending, etc. Some equipment needs to be updated to provide for increased production or size of stock material worked. Other equipment needs updated programming to provide for the latest technology advancements. The project ensures the transformers CL purchases and installs are safe and will last up to and beyond the average life span. It also ensures that we receive what we paid for, as specified, and that it will fit our system without problems such as oil leaks, incorrect voltage, and non-functional safety interlocks, etc. Replacing shop special tools and equipment will allow customer service enhancements by providing newer technology for more accurate fabrication of parts and other shop made items, safer tools to use, and newer equipment with more safeguards built in. Alternative(s): The recommended alternative would be to fully fund the special tool requests. This option would allow for the stated goals to be realized. Alternatives to funding special tools budget for shops are to not fund it or to fund at a lower level. Both options would slow production and would impact the opportunity to effectively serve the shops customers. It could also impact safety and injury rates where older equipment is less efficient and less ergonomic, requiring more repetitive motion and more labor with less automation.	System wide	\$325

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- XF9006	Safety Modifications	Rationale: Project 9006 was established to correct imminent and critical safety hazards not covered by divisional budgets. Investments will lower the risk of WA State compliance penalties and possible costs related to employee or customer injuries. Alternative(s): 1. Complete the projects as they emerge within established budget. Proactive response reduces the risk of employee and customer injuries, and related costs, as well as potential non-compliance penalties. 2. Do not fund project. This may leave significant safety problems unresolved, leading to increased compliance penalties. 3. Defer the project. The impact is similar to alternative 2 above, and also results in a continual growth of open and unfunded safety projects.	Citywide	\$708
MC-CL- XF9101	Equipment Fleet Replacement	Rationale: As mobile equipment ages, it reaches a point where it becomes more economical to replace the equipment than to continue to repair it. In the past, the mobile equipment fleet coordinator used a twenty-year replacement plan to maintain City Light's vehicle pool. Due to replacement deferrals starting in the mid-90s and the budget cuts which began in 2000, that replacement plan by necessity was revised. We are now faced with replacing fleet on an as needed basis. That priority is to replace the most often used, specialized, or critical equipment to the Utility, or the most costly to maintain and least reliable vehicles first. To get back to an established plan will require seven plus years of enhanced financing. A seven year recovery plan requires \$10 million annually. That plan has been underfunded for 15 years. The planned annual purchases, per the twenty year plan for the heavy fleet equates to approximately \$8 million per year. That \$10 million replaces the equipment that normally needs to be replaced every year and addresses some of the equipment that has been deferred. The proposed \$10 million will not fully cover inflation and the increasing cost of materials as many purchases now have a steel surcharge added. There are also added emissions requirements for the coming years starting in 2007. This will require about \$10,000 per diesel engine along with design changes to accommodate space for higher heat and larger exhaust pipes. The Memorandum of Understanding between the Fleet Management Department (FMD) and Seattle City Light (SCL) regarding financing and management of the City Light Fleet states on June 22, 1998, the City Council adopted Resolution 29771. In that resolution is reference to Timely Replacement of Vehicles. The recommendation is to replace vehicles in a timely manner, when fully depreciated. Alternative(s): The recommended alternative is to address the backlog of City Light vehicles, heavy and light fleet, on a plan spread over 7	System wide	\$8,690

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

or more years (a \$30 million backlog currently on a \$130 million fleet) A second plan would be to not purchase fleet vehicles. This option would result in paying both higher maintenance costs for worn out vehicles and higher rental costs both for specialized vehicles and daily use vehicles currently at \$2 million annually. It also has safety ramifications when considering malfunctions and inopportune breakdowns. A third plan would be to continue to not address the back log but replace on an as needed basis. This plan requires more rental costs and time loss due to equipment down time. It also does not address the need to be more fuel efficient and environmentally friendly. This plan to replace only as needed would be less reliable for tracking or budgeting. Address the back log through a seven year or longer plan.

MC-CL- XF9103	Facilities Improvements	Rationale: Workplace and process improvements completed under program 9159, plus ongoing organizational change, require the purchase of office furniture and equipment in order to achieve the project objectives. Each year Utility Support Services completes approximately 450 service requests requiring furniture reconfiguration, at least a third of which involve ergonomic corrections. Alternative(s): 1. Fund program 9103. 2. Don't fund program 9103 and purchase all office furnishings and equipment from the O&M budget. 3. Maintain office furniture until it can no longer be sustained in acceptable condition and then replace in total with a future ad hoc program.	System wide	\$12,246
MC-CL- XF9107	Service Center Facility Improvements	Rationale: The purpose of the proposed subprojects, SSC locker room remodeling, NSC building on the main site, and the SSC yard study, is to improve each facility in support of the assigned staff/crews. Results include improved efficiency and reduced maintenance. Planning in the employee parking lot is necessary since an off-ramp will be constructed over a portion of the lot. The SSC yard study subproject includes planning for the revisions needed when the off ramp is built from the Spokane Street Viaduct to 4th Avenue South. The off ramp is to be placed over the employee parking lot. Alternative(s): 1. Continue the improvements as proposed. 2. Defer improvements. 3. Replace the service centers with state-of-the-art facilities. 4. Do no improvements until the service center is unusable and then replace the asset.	Outside City of Seattle	\$1,000
MC-CL- XF9151	Facilities Regulatory Compliance	Rationale: Before City Light property is sold the area must be evaluated for any contamination. This project allows each property to be thoroughly investigated for contamination. Alternative(s): The alternative is to pass on contaminated properties to new owners and therefore incur long standing environmental liability.	System wide	\$50

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- XF9320	Energy Conservation	Rationale: Energy reduction is a Department and City goal. SCL Conservation Unit's energy audits of our facilities will identify a program of projects to accomplish these goals. With documented savings, there will be recovery of some of the costs from BPA. Alternative(s): Do nothing. Continue to consume energy at existing levels.	System wide	\$600
MC-CL- XP6530	Hydro Project Spill Containment	Rationale: The project will implement upgrades that will either prevent spills, from oils, greases, fuels and other petroleum products, through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. Options for reducing spills include replacing oil filled transformers with dry type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps to separate potentially oily water from non-oily water, installing oil/water separators on transformer and generator cooling water systems, and replacing greased valve bushings with greaseless bushings. Because each powerhouse is unique, different solutions will be designed and implemented at each facility. Alternative(s): No Alternatives Provided.	Outside City of Seattle	\$148
MC-CL- XP6990	Endangered Species Act Mitigation	Rationale: This project protects and restores fisheries habitat in the Skagit and Tolt basins by implementing the Endangered Species Program for recovery of listed fish species that are potentially affected by City Light projects. The project scope includes land purchase, restoration, assessment, and management. The ESA prohibits harming listed species and their habitat. SCL's facilities impact these species since the dams have changed the downstream hydrology, affecting the rearing and spawning habitat for Chinook, and rearing habitat for bull trout and steelhead. When SCL lowers the flow to reduce generation (load following), thousands of chinook juveniles may be adversely affected. In addition, the Skagit Project separates the bull trout population into four distinct populations. Concerns have also been expressed about interference with access to spawning areas resulting from lower reservoir levels and the potential of entraining bull trout. Since SCL's licenses for the Skagit and Tolt were issued prior to the listing, they provide no protection for third party lawsuits under ESA. We have no "take" permit. SCL licenses can also be reopened by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species. Alternative(s): 1. Complete the projects envisaged by the City Council and incorporated into the Recovery Plans for each basin and work to obtain legal protection. 2. Complete projects as budgeted, extending the timeframe. 3. Terminate the project at current expenditure levels. This	Outside City of Seattle	\$1,192

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		would result in failure to carry out a Council and Executive mandate and increase the Department's liability under the ESA. We would not be able to obtain legal protection.		
MC-CL- XS6373	Ross Dam - AC/DC Distribution System Upgrade	Rationale: The operation of critical components of the dam, such as gates, valves, and lighting, depend on the power distribution system. The electrical system is 50 years old and has been in service beyond its normal life expectancy. Extra space for breakers is not available, cable insulation is starting to strip, and the existing gear is not approved for lockout/tagout requirements. Presently there is a risk of losing power to the dam spillgates. New conduit and conductors will improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting will allow staff greater operational flexibility, safety, and efficiency. Alternative(s): Doing nothing will result in eventual loss of control of motors and valves used for water spill control and could cause the dam to be overtopped. Maintaining power to operational components on the dam (for instance the spillgate) is needed to ensure the operation of Ross, which provides an average of 100 megawatts.	Milepost 128 State Highway 20	\$987
MC-CL- XS6405	Skagit Facility - Minor Improvements Program	Rationale: Emergent capital projects are, by definition, unpredictable. This project provides some financial coverage for such projects on a first-come, first serve basis. Without this authority, funding for emergency work would not be readily available, and could take months to acquire. Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is Emergency Generators for the Wastewater Treatment Plants. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	500 Newhalem Creek Rd, Marblemount, WA 98267	\$7,586

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- XS6520	Skagit Facilities Plan	Rationale: The Skagit FERC Licensing agreement requires SCL to meet Section 106 of the National Historic Preservation Act of 1966, to take into account the effects of SCL's undertakings on historic properties. Additionally, the Skagit Licensing Agreement requires SCL to implement a historic resource mitigation and management plan demonstrating proper management of these resources. The Skagit Facilities Plan is SCL's commitment to meeting this licensing agreement requirement and results in better management of the overall resources and better operations and maintenance of the overall assets. Alternative(s): See the separate Skagit Facilities Plan that addresses alternatives. The alternatives include doing nothing, which does not conform to the FERC licensing requirements, and compromises our facilities as an asset to our power production operations and our civic and cultural stewardship responsibilities. The alternative to increase O&M resources (labor and budgets) is another option. This option improves facilities that are not required to meet program needs (improvements to vacant buildings).	Newhalem Creek Rd, Marblemount, WA 98267	\$5,108
MC-CL- XS6540	Skagit - Boat Facility Improvements	Rationale: Design and construct several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures to include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$864
MC-CL- XS6986	Skagit - Relicensing	Rationale: Procurement of a new license for the Skagit River Hydroelectric Project from the Federal Energy Regulatory Commission (FERC) is required to continue operations. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$3,590
MC-CL- XS6991	Skagit Licensing Mitigation	Rationale: As part of the relicensing of the Skagit River Hydroelectric Project, City Light is required to provide mitigation for 30 years of continued project operation between 1995 and 2024. The license incorporates the Wildlife Settlement Agreement signed in 1991 by the City of Seattle and numerous interveners (Federal and State agencies, tribes, and environmental groups). This stipulates that the City shall make available a total of \$17,000,000 (in 1990\$) to secure and preserve valuable wildlife habitat. The charges to this CIP project will be credited towards the \$17,000,000 total. Alternative(s): 1. Perform work as scheduled in the Settlement Agreements and required by the license. This is the preferred approach to meeting our license obligations. 2. Delay implementation. This increases our liability since the bridge is falling down and poses a safety hazard which will only increase in future years. 3. Do not undertake some mitigation. This would have severe	500 Newhalem Creek Rd	\$131

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		repercussions as the agencies and tribes are carefully monitoring our progress and participating as partners on many projects. They would likely contest our license should we not fulfill our commitments.		
MC-CL- YD9009	Communications Improvements	Rationale: Project 9009 provides the necessary flexibility to address emergent communication system problems that arise between biennial budget requests. These tend to be smaller projects costing less than \$10K per incident. During any given year there are a variety of requests requiring immediate attention. In addition, this program includes small specific improvement projects that are too small to warrant uniquely assigned project numbers. Each of these small projects has a separate scope of work, schedule, budget, and tracking mechanisms. An example is the project to monitor tower movement on our transmission towers near Oso, WA. Alternative(s): Option 1: Respond to customer requests for emergent and critical work in a timely manner. This approach preserves operational reliability, safety and security. This project provides flexibility to respond to these unknown communications problems or requirements. The alternative to having PE 9009 is to make special requests to the City Council for budget appropriations when emergencies occur. This is time-consuming and limits the department's flexibility to react to emergent communications problems. Option 2: Fund the project at a reduced level and incur the risk that emergent trouble cannot be met and worker safety, security and system reliability is compromised.	System wide	\$1,087
MC-CL- YD9102	Special Work Equipment - Other Plant	Rationale: This project is a roll up of requests from individual work units in the Electrical Services Branch and other units in the department except for Generation Division (see CIP 6102) and Power Stations (see CIP 7902). All tools and work equipment over \$5,000 dollars must be capitalized. The purpose of this project is to collect these requests into a project to allow better tracking and review of the expenditures throughout the year. Requests have been reviewed and prioritized during the 2003-04 budget cycle and purchases deferred. The proper funding of tools for high voltage electrical and related work supports the department's goals of safety, productivity and employee morale. Alternative(s): 1. See description. 2. Do nothing. Do not allow units to purchase new tools or equipment valued at over \$5,000. This alternative is not acceptable as the department would be unable to meet the needs and expectations of our customers. 3. Prioritize and review the individual units' requests and adjust CIP to budgeted targets. This would be a new way to budget for this CIP. Individual units may need to defer equipment purchases and in some	System wide	\$794

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		cases work may be deferred. Risks include the possibility that unplanned equipment failures in deferred equipment will delay work completion. Option 3 has been selected and only the highest priorities for equipment have been funded. This project is being funded at approximately one third the level that historically has been required.		
MC-CL- YD9108	Transmission & Generation Radio Systems	Rationale: This project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks and two-way radio systems. This project provides City Light with command-and-control capabilities for the operation of the electrical system. This project ensures the safe, reliable, and efficient operation of the system and positions SCL to meet the Federal Energy Regulatory Commission's vital communications systems requirements. Alternative(s): Option 1 Proceed as proposed. Option 2 Do nothing and continue to have systems that are incompatible with each other, require a high degree of maintenance, at greater cost, and in some cases, rely on commercial carriers for service and system protection; and/or face the loss of capability, capacity, coverage, licenses, and electrical system reliability. This alternative maintains the inadequate data exchange between sites, switches, feeders, meters, and communications systems and networks. Option 3 Install digital microwave instead of fiber systems at all substations and facilities. This is not cost effective, very difficult to locate land or space, design the system, acquire the land or space, provide power and get permits for adequate sites. Future upgrades are very difficult and expensive, and increases maintenance costs.	System wide	\$1,056
MC-CL- YD9202	Security Improvements	Rationale: If Seattle City Light's Security Improvements Program is underfunded, its critical facilities face increased risk to sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power, as well as noncompliance with North American Reliability Council (NERC) 1200 Standards, adopted May 2, 2006, to improve security at critical facilities that house command and control systems. Curtailment of Seattle City Light's electric operations would impact reliability of the power system in the Pacific Northwest, create lost revenues, and jeopardize public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc. Alternative(s): Option 1, Status Quo: No centralized security system. Operate local security systems in place and use local law enforcement and private security companies to address security on a limited basis. Use private security services and/or request additional assistance from	System wide	\$1,406

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

local law enforcement during times when the Federal government has raised the alert level for the nation or region, or for a situation that has occurred requiring additional security services. Option 2, Centralized Security System: Seattle City Light installs security enhancements to delay, detect, and respond to security intrusions at its critical facilities that are connected to a central security monitoring center that will be staffed by trained security guards on a 24/7 basis to monitor and respond to security incidents. Department wide response procedures will be established and coordination with local law enforcement will be established for responding to security incidents.

MC-CL- YD9307	Distribution Area Communications Networks	<p>Rationale: The communication systems now employed are in need increased capacity, better security, faster speeds, and increased reliability to meet new regulatory requirements. This will meet our ever increasing data and voice communication needs and take us twenty years or more into the future. Maintenance costs are lower because increased redundancy and reliability as well as better system alarms and the capability to remotely troubleshoot and reprogram the system. Traffic on the network is easily rerouted until major failures can be repaired. The new requirements of security, relaying, Automated Meter Reading, Automated Distribution and other automated systems will be easier to implement at lower cost once this project is completed. The system is easily upgraded to increase capacity or take advantage of new technology as it becomes available.</p> <p>Alternative(s): Option 1 Proceed as proposed. Install/complete fiber optic rings. Option 2 Do nothing. Have an inadequate communications network, with a high expense O&amp;M component.</p>	Citywide	\$684
------------------	--	--	----------	-------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YD9957	Enterprise Geographic Information System	<p>Rationale: The Enterprise GIS Initiative will support the Seattle City Light 2013-2018 Strategic Plan in these objectives: 1. Improve customer experience and rate predictability. 2. Increase workforce performance and safety practices. 3. Enhance organizational performance. 4. Continue conservation and environmental stewardship. Replacing our multiple, incompatible GIS systems with a single enterprise level GIS will eliminate redundant data entry into GIS and other systems, increase data quality and put information into the hands of the people who need it, when they need it, including engineering, operations, asset management and environmental affairs. An enterprise GIS will improve field worker safety and reduce the occurrence of expensive project changes in the field resulting from inaccurate or incomplete information. It will also streamline software maintenance and support requirements and ease integration to other future utility systems requiring access to GIS data. This new system will provide: 1. A centralized geospatial data store improving data access and interoperability to support other enterprise systems such as Outage Management (OMS), Work and Asset Management (WAMS), Mobile Workforce, System Planning/Analysis, Automated Utility Engineering Design (AUD), Advanced Metering Infrastructure (AMI) and Business Intelligence (BI). 2. Electronic and web-based access to distribution, transmission, streetlight, joint use and fiber optics/communications infrastructure information. 3. A flexible, configurable system that can accommodate evolving business information needs. The additional transmission, streetlight, joint use and fiber optics information that the utility needs to maintain as we move to an asset centric maintenance and planning model essentially doubles the size of the GIS dataset. The number of staff supporting GIS needs has seen an overall reduction in the last decade</p> <p>Alternative(s): This business case and proposal presents 3 options for dealing with the problem: A. Do Nothing B. Replace the current DAMS editor and convert TLM Services C. Install a new unified GIS system A. Do nothing. Do not fund the work. Continue to leave our Radial Distribution System's GIS data at risk, and by extension, baseline OMS functionalities. Apply additional resources to manually maintain systems using current tools. Write and support multiple custom interfaces and procedures to provide base line GIS data required by OMS &amp; WAMS. Do not take advantage of new business processes and functionality of automation between GIS, OMS and WAM. B. Replace the current DAMS editor and convert TLM Services. The current DAMS editor was originally implemented in 1994 as a suite</p>	System wide	\$3,338
------------------	---	--	-------------	---------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

of custom applications using Environmental Systems Research Institute (ESRI) Arc/INFO GIS products. DAMS tools are so obsolete that SCL is no longer backward compatible with our City partners in the Common Geographic Data Base (CGDB). To begin addressing these issues, the existing DAMS editor needs to be replaced. This project would incorporate into the DAMS GIS the final piece of connectivity data, between the customer meter and the transformer that is currently stored in the separate Transformer Load Management (TLM) database. This work will position City Light to begin working toward a unified GIS and to better leverage our GIS investment through new and improved integration to other major IT systems. Examples might include: 1. The ability to replace obsolete engineering analysis and planning systems, such as TLM and NLM/Loadflow, with modern GIS based applications. 2. The ability to more robustly model the underground portions of our Radial distribution system. 3. The ability to move closer to a unified GIS, including both our Radial and Network distribution systems in a single GIS data store, at City Light. C. Install a new unified GIS system. This option would install a new unified

MC-CL- YD9969	Enterprise Software Solution Replacement Strategy	<p>Rationale: This project is an ongoing commitment to provide a sustainable funding stream to keep enterprise level resources up to date and fully functional. Software systems today are as critical to operate City Lights business as poles and wires. The Utility can no longer afford to delay regular required upgrades and or replacements to the system.</p> <p>Alternative(s): City Light could decide not to upgrade the systems, as prescribed, but that could create a significant risk if the system goes unsupported by the vendor or if something were to happen with the software. Operations and Maintenance costs could rise significantly while attempting to maintain the software on our own.</p>	City Wide	\$8,301
------------------	---	---	-----------	---------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8129	Network Hazeltine Upgrade	<p>Rationale: Using the Network Hazeltine system provides reliable power by remotely monitoring the electrical vaults and electrical equipment within the entire downtown service area. The Power Dispatchers constantly monitor the real time status of the network using the Hazeltine system. This program costs \$304K per year and avoids problems that can easily exceed twice that amount for Seattle City Light and its customers. The utility's cost for one such problem can range from \$200K up to as much as \$3M. Aggregated customer costs can range from \$100K up to \$5M. The benefit cost ratio for any one problem can range from 0.99 (<math>[\\$200k + \\$100k] / \\$304k</math>) to be as high as 26.3 (<math>[\\$3M + \\$5M] / \\$304k</math>). We usually avoid 4 to 5 smaller problems each year and a larger problem, with combined costs of \$1.53M, every 5 years. The yearly benefit cost is then <math>[4 * 0.99 + 1.53M / (304k * 5)] = 5.0</math>. Alternative(s): 1. Do nothing. Do not change existing Hazeltine system. Hazeltine has changed the production of their transmitters, forcing utilities to pay a premium for the transformers that is a fraction of the cost of upgrading to their Next Generation equipment. 2. Upgrade to Hazeltine's Next Generation system, changing station receivers and transmitters on each transformer. Total cost is about \$2.2 million. 3. Develop SCL proprietary network EMS system, capable of monitoring plus a new function of control of NP's, BTS's, and primary switches if they are added. Total cost ranges from \$7 million to \$17 million, depending on communications option selected. This excludes developmental costs. 4. Buy any upgrades from vendors only. Wait for Hazeltine or other vendors, to develop network EMS systems with the desired control and monitoring features. No products or competitors to Hazeltine are available at this time for cost estimates. 5. Add sensors to existing or future Hazeltine system to enhance the monitoring of the network environment. This would enable system operators to detect and respond to abnormal field condition and thereby improve customer reliability. 6. Continue existing program of upgrading the sensors to match the current SCL standard. In 2007 and 2008, review the Hazeltine program and determine if more significant upgrades are feasible. Presently, this is the recommended action and funding level for 2007 and 2008. The 2009 and beyond dollars are expected expenditures for the significant Hazeltine upgrades, if approved.</p>	System wide	\$895
------------------	---------------------------------	---	-------------	-------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8130	Network Maintenance Hole and Vault Rebuild	<p>Rationale: The Network Maintenance Hole (MH) &amp; Vault Rebuild project provides reliable electric service by repairing or replacing damaged electrical maintenance holes/vaults and ducts located within the network. This project also reduces unsafe working conditions for our workers and potential hazards to the public. In the 1990s, licensed engineering consultants conducted a series of structural surveys on approximately 1,200 underground maintenance holes and vaults. Based on the survey, 38 MH/vaults have been repaired or replaced at a cost of \$14.1Million. Subsequent additional surveys have been done. Our prioritized list of facilities requiring major repairs or replacements includes replacing 78 MH/vaults and 350 vault roofs. The vaults that we are replacing for the 2007-2008 period have exceeded their expected lifetime. These are among the oldest facilities and include brick structures in Pioneer Square that are approximately 100 years old. Replacing now provides an opportunity to construct a route for bringing main stem feeder service cables through the Pioneer Square area and to a significant portion of the Downtown core area (City Hall, Justice Center, Seattle Municipal Tower) rather than using the Alaskan Way Viaduct structure. By repairing or replacing six manholes/vaults, rebuilding at least 10 vault/manhole roofs and 2,800 feet of old clay tile duct banks. Surveys performed by licensed civil engineering consultants have identified 78 maintenance holes/vaults requiring replacement as well as roofs for an additional 350 underground right-of-way facilities.</p> <p>Alternative(s): Alternative 1 - No Action: Vaults and maintenance holes with failing structures and grates would be left in place until catastrophic failure. Problems associated with deferring repair work include reduced worker and public safety, increased City liability, increased City paving expense, negative impacts on traffic flow through downtown when repairs are not coordinated with SDOT's paving operations, and loss of use of City Light facilities for customer service needs. The no action alternative is never an option as too many facilities are in states of failure that require at least temporary shoring and loss of use, and many require immediate repair. Alternative 2: Perform temporary fixes to the highest risk facilities until permanent repairs are made at some unspecified future date. Without a specific project to repair vaults and maintenance holes, temporary shoring systems installed in failed facilities has the following challenges: a) Electric crews cannot perform electric work in the failed facility with shoring left in place, effectively resulting in loss of use of the facility. b) Placement and removal of temporary shoring</p>	System wide	\$1,953
------------------	---	---	-------------	---------

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

reduces productivity of field personnel. c) Wood shoring rots from continuous exposure to moisture has limited life in wet network environments. d) Temporary fixes using steel beams can be applied in facilities with few cables or obstructions from temporary supports. Such repairs require costly custom designs from Civil Engineers and could be applied only where manhole access is not needed for several years. Alternative 3 (Preferred): Make permanent repairs to those facilities in need and continually monitor condition of civil facilities. Work would be prioritized to those facilities in highest need of repair, those associated with new customer load additions and those affected by public right of way projects, such as street paving.

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8201	Union Street Substation Networks	<p>Rationale: The Union Street Substation Networks project provides sufficient and reliable electrical capacity for the growing power needs of our customers. It is a programmatic approach for comprehensive management of underground network assets (electrical and in some cases civil) serving customers in the area bounded by Yesler Street, Alaska Way, Pike Street, 6th Avenue, Union Street, the Freeway, University Street, 3rd Avenue and the Waterfront area from Denny to Yesler. The project goal is to increase the capacity of present Union Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 128 MVA) as determined by Union Substations transformer capacity, with allowances for feeder imbalances, feeder diversity and diversity among sub-networks. We will re-conductor and re-route four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing. This includes the work in support of finishing the main stem build out and to address capacity issues in the branch portion of the feeder service cables as needed in response to specific service requests, as well as analyses of branch cable congested areas. Work in 2007 and 2008 as well as successive years is necessary to be able to pick up loads that will likely be transferred from Broad Street sub-networks in 5 years. To meet the projected new loads on the Waterfront and at specific downtown core sites we need to complete re-conductoring and re-routing of four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing that will be transferred from Broad Street, and may be transferred from Massachusetts Street; build and energize a new network substation at least six years before all Downtown network capacity is used so that service cutovers can be done with minimal impact to our customers. This work is essential to meet near term load requirements of the SAM/WaMu and Four Seasons projects. This critical project Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the reliability of the network system from its present level, subjecting it to more lengthy outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load</p>	1312 Western AV	\$2,256
------------------	--	---	--------------------	---------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

requirements as possible. This is no longer feasible as the next increment of feeder capacity additions reach their final capacity targets. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8202	Massachusetts Street Substation - Networks	<p>Rationale: The rationale for this project is to increase the capacity and reliability of present Massachusetts Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 69 MVA), as determined by Massachusetts Street Substation's transformer capacity, with allowance for feeder imbalances, feeder diversity and diversity among sub-networks. The Alaska Way Viaduct project will require the relocation of all 13kV distribution feeders that are suspended from the viaduct. These include feeders serving Pioneer Square and the downtown core. Additional duct banks and electrical vaults must be built throughout the Pioneer Square area to accommodate the feeder relocations. Doing the engineering for this relocation during 2007 will ensure that timely civil construction can be done in order to avoid many conflicts with other utilities and mitigate some of the traffic impacts that will occur during the Viaduct and Seawall construction. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 4. Add measures that improve system reliability to mitigate the severity of any network event. 5. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1555 Utah Ave S	\$3,643

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8203	Broad Street Substation - Network	<p>Rationale: Customer demand for higher loads continues. Capacity of the cables serving two sub-networks is near overload, requiring immediate attention to avoid cable failure and customer outages. In the next five years, customers are projected to exceed the capacity of cables in another five network subareas. This capital project addresses the means to serve customer demand for higher capacity. Reliability measures identified in the Network Strategic System Plan are incorporated into this capacity driven work. Without this critical project it is very likely that there will be insufficient reliable electrical capacity in the very near future to hook up new customers and to serve present customers such as the Westin building. The project goal increases capacity of present Broad Street Substation network feeder cables to their ultimate service build-out limit (an overall increase of just under 100 MVA) as determined by Broad Street Substation's transformer capacity. This project constructs ten vaults and ten blocks of duct banks, re-conductors and relocates three primary feeders per year, upgrades/optimizes network transformers as needed, reduces secondary bus ties (reduce the size of the secondary grid resulting in greater reliability), and performs ancillary work. Alternative(s): Alternatives include:</p> <ol style="list-style-type: none"> <li>1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. ## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8301	First Hill - Network	<p>Rationale: At present, capacity of the cables serving the First Hill network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, four or more large customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the First Hill area (Harborview and Swedish Medical Centers), the electrical capacity of the cables serving the sub-network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. This project will provide and overall electrical capacity increase of 32.4 MVA for First Hill Substation customers. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of network systems at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have a negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1100 Madison St	\$3,817
------------------	-------------------------	--	--------------------	---------

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8404	Denny Substation - Network	<p>Rationale: This project is a result of a four years of advocacy by customers to make sure that the electrical distribution system has sufficient capacity to meet the projected loads in the rapidly growing area of North Downtown, and that the system has the reliability and voltage stability to support the research activities of the emerging biotech industry there. The principal stakeholders are the Fred Hutchinson Cancer Research Center, the UW School of Medicine, the Seattle Biomedical Research Institute, Rosetta Inpharmatics, ZymoGenetics, Children's Hospital and Medical Center, and the startups at the Accelerator Project. This five to seven year infrastructure project is specifically tailored and designed to the core needs of this business sector in the North Downtown area. The research activities and the laboratory equipment are so sensitive to system reliability and voltage stability that this area requires an extraordinary level of service from the utility. The motto is "World class research requires world class facilities.". The utility through this project is a partner in that effort. Because existing City Light substations cannot accommodate the new network feeders, this project requires the construction of a new North Downtown substation in a three to five year period, proposed as project 7757, North Downtown Substation Development. This network project cannot exist without the new substation. Alternative(s): 1. Enhance the service using non-network feeders from other substations. 2. Have individual customers invest in private reliability improvements. 3. Install network system in core service area, including the biotech industries. 4. Install network system throughout North Downtown area. Option 1 is not feasible because the availability of feeders from adjacent substations is limited and in question over time. Option 2 has been tried recently, but did not meet the reliability needs of this set of customers. Option 3 is the recommended option, as it is effective in meeting the need and cost effective. Option 4 includes all customers in the area, which is not necessary and expensive.</p>	Valley Street	\$6,995
------------------	----------------------------------	--	---------------	---------

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

MC-CL- YN8464	University Substation - Network	<p>Rationale: This project increases electrical capacity and reliability for University Substation customers in response to increased customer demand. At present, capacity of the cables serving the University network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, larger customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the University area (University of Washington, Sound Transit) the electrical capacity of the cables serving the sub network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. Alternative(s): 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of the network system at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	645 NW 45Th	\$412
MC-CL- YR8322	Dallas Ave. 26 kV Crossing	<p>Rationale: Boeing and the other industrial customers in this area have critical facilities (e.g., Boeing wind tunnels) that depend on reliable power. The additional feeders assure reliable power supply to Boeing's operations and local industrial plants and residences. The Boeing Company has lobbied our management and the City Council to ensure that this line is replaced. Alternative(s): The do nothing alternative would leave Boeing and others with reduced reliability and in violation of previous SCL commitment.</p>	Dallas Ave S	\$4,626

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YR8351	Overhead Equipment Replacements	Rationale: Equipment that is aging, overloaded, or of an outdated design poses a risk to the reliability of the system and could lead to unplanned outages and additional restoration expenses. By replacing the oldest and failing parts of our system, and those parts that are not made anymore, and we have no spare parts. We will replace items such as rotten and damaged cross-arms, transformers, hardware, old lead cable, PCB transformers, etc. By doing so, the system will be more maintainable and customer outages will be fewer and not as long. Alternative(s): The do nothing alternative leaves the existing system in place. As the aging and outdated equipment fail they will cause unplanned outages. This necessitates the immediate, unplanned replacement of these facilities. This causes hardship for the customers that are impacted and increased expense for City Light, especially if overtime is required to get the customers re-energized.	System wide	\$47,229
MC-CL- YR8353	Underground Equipment Replacements	Rationale: Avoid unplanned outages or interruption of service due to equipment failure. Alternative(s): The do nothing alternative would allow the equipment to deteriorate beyond its useful life and result in increased outages to customers.	System wide	\$28,939
MC-CL- YR8355	Overhead Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$4,547
MC-CL- YR8356	Overhead System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers on the system and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$3,410
MC-CL- YR8358	Overhead 26kV Conversion	Rationale: The existing 4kV equipment has lasted beyond its useful life and is no longer supported by manufacturers. In some places, the 4kV system no longer has the capacity to carry the system loads we are now experiencing. The system also demands ever increasing O&M resources. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age.	System wide	\$2,468

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YR8360	Underground Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$3,429
MC-CL- YR8361	Underground System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System wide	\$2,807
MC-CL- YR8362	Underground 26kV Conversion	Rationale: This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age. Operations and maintenance costs are not expected to change as a result of this project. The Capitol Hill Underground Ordinance area does not have capacity at 4 kV to serve the load growth in the area, thus requiring City Light to install vaults, ducts and underground at 26 kV.	System wide	\$1,026

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YR8425	Distribution Automation	<p>Rationale: The new distribution switching equipment is capable of intelligent controls. The integration of this equipment into Seattle's distribution system will provide significant benefits and will set the stage for a Smart Distribution System that will become one of the main components of a Smart Grid. S&amp;C Electric offers first generation switching equipment with compatible intelligence built in. Through this CIP, the Smart Distribution infrastructure can be designed, constructed, and operated until fully built out. With SMART GRID in place, operators of the distribution system can optimize the operation of our distribution system, reducing time for outage restoration and preventing some outages in the first place. A smart distribution system can also provide real time data of the system, maximizing the capability of the system, and may allow for deferment of capital expenditure. A fiber cable system that can support this operation has been partially constructed. This fiber ring project can continue and be expanded to provide adequate coverage for Smart Grid and other communication needs of Seattle City Light in the future. Fiber optics communication allows secure communications and meets NERC Cyber Security requirements. As the power system is changed or redesigned through usual needs to serve customers, automated switches can be installed in consonance with the integrated DA plan. Eventually the whole distribution system in Seattle Service Area would have a capability to become a Distribution Automation system. Alternative(s): 1. Business as Usual. Automatic switches will be installed as need arises. Power system switching will be done through manually operated switches. Outage restoration will depend on feeder patrols. 2. Expand pilot projects. Candidates are SODO, which is highly congested with power lines and serves the industrial customers, White Center &amp; Burien areas, which have potential for growth, and south Duwamish commercial area. Include the South Lake Union area when the City decides to proceed with the development. Required? Yes. Distribution Automation needs to be a properly funded project. City Light will have a distribution system ready to deliver automation as part of a SMART GRID initiative.</p>	Citywide	\$3,087
------------------	----------------------------	--	----------	---------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YR8452	Pole Attachments	<p>Rationale: City Light is legally and contractually obligated to make space available on its facilities to government and private entities for communication and other purposes. Customers wishing to utilize space on City Light facilities are required to pay in advance for any necessary work required to provide the necessary space and minimum clearances to the electrical equipment. This ensures that the attachments meet all applicable federal, state and local safety codes. Customers are not allowed to make any attachments until all make ready work, including tree trimming, has been completed and the system made safe for the communication worker. Speed to market in the communications industry is critical for them to maintain their competitive advantage. Customers pay in advance for City Light crews to complete this work on overtime, without interrupting the normal assignments of the crews. All construction charges are deposited into the Light Fund. New wireless facilities and pole attachments generate an additional \$100,000 in rental revenue annually. Currently \$3.3 million in annual rental revenue is being generated and will continue to increase as construction and make ready work is completed. All rental revenue is deposited into the Light Fund. The communications industry and associated technology are growing at an astounding rate. City Light has experienced a 375 percent increase in pole attachment applications since 2007. All trends indicate that this growth will increase by an average of 24 percent annually. This does not take into account major initiatives such as fiber to the home, Advanced Metering Infrastructure (AMI), or vast expansion of existing networks and Distributed Antenna Systems (DAS). Completing the construction for make ready work and wireless facilities will enable City Light to fulfill its legal and contractual obligations to our customers. Customers will be provided a small measure of rate relief through increased revenue streams from these additions. Alternative(s): It is possible that some or all of this construction work could be outsourced to electrical utility construction companies. This alternative presents obstacles like logistics, compatible parts, quality control, and required electrical reviewers. These challenges negate any cost savings and sometimes take longer to construct.</p>	System wide	\$17,110
MC-CL- YS7121	Replace Breakers BPA Covington and Maple Valley Substations	<p>Rationale: City Light's interconnection agreement with Bonneville Power makes City Light the owner of the breakers in the Maple Valley Yard. City Light is required by this agreement to make upgrades as required. The breakers are currently over capacity due to the addition of another 500 kV line into the area. Alternative(s): If SCL does not replace</p>	Kent	\$3

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		the breakers, they may be forced to do so through legal means due to a breach of contract.		
MC-CL-YS7750	Substation Plant Improvements	Rationale: The Power Stations CIP Review Committee evaluates subprojects for this category based on cost benefit ratios and departmental policies. Proposed work includes seismic improvements to old buildings, refurbishment of concrete buildings, upgrades to potable water systems, and construction of storage facilities for materials and tools. Incidental work that Power Stations do to improve station security is also funded in this project. Alternative(s): The water system at the North Substation is old, deteriorating, and becoming unreliable for drinking and for fire protection. Allowing the present systems to deteriorate may endanger employees and further put the safety and reliability of key system resources at risk. Additional seismic improvements are planned at Broad Street substation. Refurbishment of concrete structures is planned at North Substation. Storage facilities for tools and safety protective ground cables are planned for Delridge and East Pine substations. There are several levels of alternatives for improving security at Seattle City Light's fourteen substations. They range from installing more effective perimeter fencing, to adding remote monitoring systems, to catch intruders.	System wide	\$921
MC-CL-YS7751	Substation Capacity Additions	Rationale: We plan to design the feeder get-aways to carry power from substations as needed. Alternative(s): The alternatives to making capacity additions to existing substations are: 1. Accepting limitations on service to customers. 2. Successfully promoting voluntary power demand reductions. 3. Meeting capacity demand increases by new substations and transmission lines.	System wide	\$2,239
MC-CL-YS7752	Substation Equipment Improvements	Rationale: The project includes a regular program of critical electrical equipment replacements at the substations, because this equipment becomes less reliable as it ages. The 2005-2006 plans continue a program to provide supervisory control of breaker functions. This allows remote control and monitoring of substation equipment from the System Control Center, which allows the System Control Center to diagnose the seriousness of an equipment malfunction or switch equipment more quickly. This allows a faster response time to correct system instability or outages. Alternative(s): This project is where the utility funds work on equipment that the maintenance review process identifies as being more cost effective to replace or refurbish than to continue to maintain. A review team prioritizes replacements by their criticality rating. This is a figure provided by the System Control Center that identifies the components of Seattle's distribution infrastructure that are especially important to the system as a whole. For example,	System wide	\$6,326

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YS7753	Relaying Improvements	<p>an equipment failure at Broad Street Substation may cause more of a problem than one at Canal Substation because it is not as easy to switch loads into the network grid.</p> <p>Rationale: Relays are protective devices that guard system components when electrical equipment fails. When a relay senses a problem with a major piece of equipment, it opens the circuit flowing to that component and isolates it from the rest of the electrical system. This protects the rest of the distribution system from potentially cascading effects if one part fails to operate properly. Recent technological advances in relay and protection equipment and software allow remote control and documentation of system events. The work plan includes installing digital fault recorder (DFR) equipment and software at the substations. City Light is changing electro-mechanical relay components to electronic, programmable devices. This will make it easier to detect and manage equipment problems. Alternative(s): Almost every change out of high voltage substation equipment requires that its relay and metering be reset and modified. Not continuing to have a significant relay improvement program would keep us using old technology that is not maintained by its manufacturers.</p>	System wide	\$5,275
MC-CL- YS7755	Substations Demand Driven Improvements	<p>Rationale: Requests from other agencies typically occur without enough notice to be included in the biennial budgeting process. The Power Stations Division budgets a nominal sum for each year to cover requests and to request spending authority. Alternative(s): The alternative to implementing regional demands is failing to meet City commitments to regional agreements.</p>	System wide	\$1

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL-YS7756	Interbay Substation - Development	<p>Rationale: The Broad Street Substation is reaching its capacity to serve the network and the growing South Lake Union neighborhood. The limiting factor is an inability to construct additional underground feeders to carry electrical current in to the area. The existing 26 kV distribution system and substations are becoming overloaded and a new 26-kV substation will feed the areas load growth. The 115 kV ring bus work at Broad Street and Canal Substations will provide the connections to the transmission system. The new substations will provide 10 to 15 new 26 kV getaways, adding to the distribution network and providing a new path for power to the area. Because City Light already owns property for a station in Interbay, it is the nearest opportunity we have to add capacity in the western part of the service area that will off-load demand from the Broad Street Substation for the South Lake Union district. Developers who are interested in projects in the SLU district want to know that City Light will be able to serve their needs reliably. Alternative(s): 1. Not build the new substation. 2. Option one build: Contract out the design and construction 3. Option two build: Have City Light design and integrate the facility into the distribution system, and construct the facility. It requires at least 36 months to site, contract for design, construct, and energize a distribution substation. There are several alternatives such as installing distributed generation facilities to meet load growth. City Light has considered constructing additional transmission corridors from the University Substation and/or Canal Substation. Both alternatives require crossing a body of water, which are expensive options even if environmental challenges do not delay or halt progress. Given the recognized growth in South Lake Union, City Light selected the most cost effective and achievable option - constructing a station at Interbay to serve the growing load in that part of the service territory.</p>	17th Ave West	\$86
MC-CL-YS7776	Substation Transformer Replacements	<p>Rationale: To replace aging substation transformers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement.</p>	2136 N 163rd St, Shoreline	\$2,918
MC-CL-YS7779	Substation Breaker Replacements and Reliability Additions	<p>Rationale: To replace aging substation circuit breakers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement.</p>	System wide	\$5,656

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YS7783	Substations Oil Containment	<p>Rationale: The rationale of this project is to get City Light into compliance with the Clean Water Act regulations (Title 40, Code of Federal Regulations, Part 112) which require that oil containment measures be taken that will prevent oil spills into any streams or open bodies of water. During preparation of the Oil Spill Plans required by the regulations, a comparison of existing oil containment facilities was made with the recently revised (August 2002) regulations, which resulted in discovery of instances at 11 of our substations of design problems or capacity problems that should be resolved to fully meet the regulations. Substation Scope of Recommended Oil Containment: (Scott McLean's project estimates) Duwamish Sub - Add oil containment at the bus bays and potential transformers. Major issues are proximity to the Duwamish River, which with porous soils raises the prospect of an oil spill finding its way to groundwater and into the river in a short period of time. Broad Sub - Remedy the insufficient capacity of the oil containment system and lack of impervious sumps. Major issue with the existing system is that spilled oil can overflow the undersized unlined sumps into the combined yard drain sys (i.e. combined drainage and oil containment system) and from there into City drains. There is no oil containment in the E yard. Improve the system or set up a contingency plan. Bothell Sub 1. Provide lining for the currently unlined sumps at transformers and OCBs, and provide for separating the oil containment system from the drainage system. Major issues include unlined sumps; no oil containment for oil tanks at west side next to wetland, combined drainage/oil containment system can spread an oil spill into the yard gravel. 2. Retrofit with impervious sumps at bulk storage tanks with normally closed valve. 3. Pipe 3 CBs at SW yard to MH with OSV. East Pine Sub - Remedy the undersized combined oil containment system, which has the potential of overflowing i</p> <p>Alternative(s): 1. Implement improvements recommended by Oil Spill Plans as soon as possible, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112). 2. Implement recommended improvements over a phased period of time, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112), giving priority to the sites of highest environmental risk. This is the selected alternative. 3. Do nothing.</p>	System wide	\$245
------------------	--------------------------------	--	-------------	-------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YS8424	Substation Automation	<p>Rationale: Seattle City Light's (SCL) remote monitoring and control of critical substation equipment from our system control center dates from the 1970s, when SCL led the industry's development. The basic configuration in each substation is unchanged since those early days. The configuration consists of a Remote Terminal Unit (RTU), which collects electric system measurements and status; forwards them promptly to the control center; conveys power dispatcher commands back to the substation to operate high voltage switches and circuit breakers for electric system reconfiguration in real time. Industry developments and the toll of decades have made necessary the upgrade of this system. The existing Remote Terminal Unit equipment is 40 years old, wearing out and cannot be replaced in kind because the equipment is no longer manufactured. It has insufficient capacity to address the needs of added substation sensors and controls, cannot offer the computerized capabilities of new technology, cannot support automation of the distribution system feeders radiating from the substations, is too slow to meet the speed requirements of new control applications, is energy inefficient and cannot support modern demands of sophisticated asset management of expensive high-voltage equipment, and it doesn't provide the insight into the operation of the substation that today's staff could be using to improve operation and maintenance practices. Further, an RTU failure will significantly affect the operation of the Automatic Generation Control (AGC) at the EMS. The AGC relies heavily on the RTU for accurate data acquisition of real time power flow on transmission lines to neighboring utilities, comprising the Western Interconnection governed by the Western Electricity Coordinating Council (WECC). The AGC enables the proper allocation of a pool of power generation to the appropriate load required by each utility customer. Loss of AGC due to RTU failure will in turn cause fines from the appropriate Alternative(s): Option I - Replace at Failure: This strategy poses significant business risk that will grow as the equipment ages. Currently, the average age is about 40 years old. This analysis assumes that this equipment will fail at an increasing rate at or before reaching 60 years old. The current technology can no longer be replaced or maintained because it is no longer manufactured. When the RTU fails, it will take one year to replace and require one year of manual operation, which adds approximately \$1Million of additional labor costs above the \$1.3 Million planned cost of replacement. Should SCL lose more than 2 RTUs in one year, it would take longer to replace and require more labor to manually operate the</p>	System wide	\$1,270
------------------	--------------------------	--	-------------	---------

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

substations. However, replacing this equipment with modern technology will set the foundation to support future smart grid applications like AMI (Advanced Metering Infrastructure), OMS(Outage Management System), Asset Management applications, Distribution Automation, and reactive power management, to name a few. It will also allow SCL to meet future NERC compliance requirements for substation equipment and install intrusion control measures for substation security. Option II - Preferred Option: Planned RTU Replacement over 7 Years at a rate of 2 per year. This option will: Remove existing RTU. Install new server systems in every substation. Install supervisory control of feeders (30 feeders for each station) that serve network loads to allow remote control of feeder breakers from the EMS. Install group control of network feeders to enable load restoration in case of a sub-network or total substation outages. Install new annunciators and monitors for productive operator interfaces. Two other options were discussed but not pursued for this analysis. One alternative considered adding a server to each substation over 7 years, but did not propose to connect it.

MC-CL- YT7011	Transmission Capacity	<p>Rationale: The capacity of the system is based on winter and summer peaks, weather conditions, and N-1 criteria. Additional capacity shall be added to meet the planning criteria for power delivery of new load demand.</p> <p>Alternative(s): If transmission lines are overloaded, overhead wires could sag beyond National Electric Safety Code clearances causing an unsafe condition, and underground lines could exceed the insulation's temperature rating causing damage to the cable. In order to avoid these situations from overload, which could cause long term outages; shorter term load shedding would be used.</p>	System wide	\$17
MC-CL- YT7104	Transmission Reliability	<p>Rationale: As structures, insulators and conductors reach their end-of-life expectancy and need to be replaced to maintain existing systems. To meet the National Electric Reliability Council and Western Electricity Coordinating Council reliability criteria, it is necessary to add additional transmission lines that are not capacity driven. Wood poles will have a shorter replacement life of approximately 40-60 years depending on condition assessment. Alternative(s): Allow the lines to fail before replacing them. This can cause a dangerous safety issue and will reduce the availability of the system at unscheduled and inopportune times. The August 2003 East Coast blackout has shown that inattention to the transmission system has large implications.</p>	System wide	\$2,250

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- YT7105	Transmission Inter-Agency	Rationale: Seattle City Light is required to relocate facilities at the request of other agencies. Drivers for the relocations are road realignments, construction of facilities, regional upgrades, and changes in lighting. Inter-agency projects may or may not be reimbursable depending on real estate drivers. Alternative(s): Do not meet other agencies needs and potentially delay local, state, or regional construction programs. If interagency agreements are not met, there are usually contractual, permit, or franchise rights involved, which could lead to litigation.	System wide	\$642
MC-CL- YT7125	Denny Substation Transmission Lines	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	System wide	\$227
MC-CL- YT8461	Transmission Line Inductor Installation	Rationale: Rationale: This project is based upon a Memorandum of Agreement (MOA) between Bonneville Power Administration (BPA), Puget Sound Energy (PSE), and Seattle City Light (SCL), aimed at improving the reliability of the regional electric grid in the Puget Sound Area Northern Intertie (PSANI). Since the early 2000's, BPA has limited energy transfers between the Puget Sound area and Canada due to congestion in the Puget Sound Area. This project will reduce congestion and upgrade the reliability of the transmission system, reducing the risk of region-wide customer power outages in the future. Objectives for this project include: 1. Install series inductors on the Massachusetts to Union to Broad (MA-US-BR) and Denny to Broad (DN-BR) 115kV Underground Transmission Cable Lines in the downtown Seattle Transmission System by 2017. 2. Complete all Transmission System Improvements within the 2013 - 2018 CIP Forecast and Budget. 3. Complete all agreed upon Transmission System Improvements per the MOA by the end of 2017. 4. Complete necessary upgrades to existing substation and transmission equipment or structures to support Seattle City Light's 2013 - 2018 Strategic Plan Initiative for Transmission System Improvements. Project Goals: 1. Enhance customer experience and service reliability for SCL customers. 2. Reinforce transmission interties and interconnections with PSE and BPA. 3. Improve SCL asset strengths and load capacity on existing transmission systems. 4. Reduce the risk of region-wide customer power. Alternative(s): City Light belongs to the Columbia Grid, a regional transmission planning organization. SCL and other Columbia Grid members considered alternatives such as new phase shifting transformers, 500kV transmission lines, and additional underground cables. The goal of the regional analysis was to minimize costs and impacts using a one-utility approach for solving the transmission congestion	System wide	\$8,164

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		issues. The selected projects were chosen after two years of transmission system studies and analysis. The 2011 report can be found in City of Seattle Ordinance 123779, as an attachment with a table of the alternatives considered.		
MC-CL- ZL8377	Transportation Streetlights	Rationale: 2010 EMS Streetlighting that SCL owns may need to be relocated for transportation purposes, just as other SCL facilities. Often SCL will pay to move all types of its facilities if a project is deemed a Transportation Project. Utilizing SDOT as the design and construction management consultant allows SCL to avoid being in the critical path of transportation projects. It also allows for leveraging engineering staff. Alternative(s): The do nothing alternative would hamper transportation projects and cause delays to the public.	System wide	\$5,601
MC-CL- ZL8378	Streetlights: Arterial, Residential and Floodlights	Rationale: Streetlights and floodlights are provided in public right of way, and on private property, for either public or private benefit. Often these lights are attached on existing City Light wood poles, but they may also be installed on separate metal poles, depending on the application. City Light owns the arterial and non-arterial lighting systems throughout the City of Seattle per Ordinance 119497. In other jurisdictions, franchise agreements may dictate City Light's requirement to support lighting needs. City Light has historically provided the resources to install street lighting. These capital costs are then reimbursed by the requesting party through monthly billing according to Seattle Municipal Code 21.49.060, Schedule T, Option C. Alternative(s): The do nothing alternative would deny new lighting, a service authorized by ordinance. In residential areas, public safety would remain at present levels. Along arterials, the existing aging system would deteriorate beyond usefulness and lag behind improved lighting standards.	System wide	\$7,197
MC-CL- ZL8441	Streetlight LED Conversion Program	Rationale: 2010 EMS - This project will reduce annually energy consumption by 40% (for those lights replaced), provide Greenhouse Gas Avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system. The overall goal of this project is to improve customer service and reduce cost. With a total system conversion, it is estimated that annual operating costs will be reduced from \$10,180,213.59 per year to \$6,510,231.31 per year. Debt service for system conversion capital cost may be made with these savings. Through 2011, 20,000 cobrahead residential fixtures have been installed. In 2012, residential conversion will take place from the southern border of City Light's service area to Brandon St. The 2013 conversion effort includes residential and minor	Citywide	\$2,250

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

		collector arterials in Zone 2 (250 watt High Pressure Sodium replacements), from Brandon St to Denny Way. Complete conversion of the residential streetlights completion anticipated by the end of 2014. Arterial cobrahead luminaire conversion will continue through 2017. Ornamental LED conversion anticipated through 2021. Alternative(s): No Alternatives Provided.		
MC-CL-ZL8481	Seattle Waterfront Streetlight Installation	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	1312 Western AVE	\$365
MC-CL-ZS8054	Meter Additions	Rationale: Background: Of the 400,000 meters in City Light's metering system, approximately 80,000 are older than 30 years. City Light's Rates Unit estimates that replacing the meters would result in an increase in revenues of more than \$450,000 annually. City Light has a fiduciary responsibility to continually update the metering system. Due to continuous budget constraints, both in labor and material, targets of 10,000 obsolete meter exchanges were reduced in 2000, 2006 and 2008 to our current level of 5300, thus the backlog of older meters continues to increase. Methodology: New Service Installations: Over the past 9 years, new or upgraded services have averaged 5,500 a year. Material budgeting was based on a 2006 to 2008 average and current labor figures. These project funds support the demands of new construction and upgraded services. Obsolete Meter Exchange: The life cycle of a meter is 30 years based on the electro-mechanical meter. However, current and future electronic technology may reduce this life-span up to 50%. Older meters slow with age, resulting in a loss of revenue to the Department. Obsolete meters can account for up to 3 percent loss in department revenue. The Technical Metering Unit expects to exchange 10,000 obsolete meters annually starting in 2013 through 2016. Alternative(s): 1. Continue to replace obsolete meters at current level of 5,300 annually. City Light could not accurately bill for electrical consumption. Incur loss of City Light revenue due to slow meters. Results in increasing backlog of meters over 30 years old. Increased future utility costs due to replacing obsolete meters at an accelerated pace with higher labor and material costs. 2. Continue to replace obsolete meters at higher level of 10,000 annually. Increase number of customers who receive accurate and timely bills. Reduce loss of utility revenues due to slow meters. Avoid higher cost of meter replacement when meters fail.	System wide	\$4,151

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8350	Overhead Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement, rather than repair just one piece of equipment that is normally capitalized. This includes poles and transformers. This project is intended to capture those expenditures. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned. Planned outages are needed to accommodate line moves and other system work.	System wide	\$1,162
MC-CL-ZS8352	Underground Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement rather than repair just one piece of equipment that is normally capitalized. This includes cable and transformers. When there are no customer outages, the goal is to restore the system to its normal configuration within two months, unless customer driven construction mandates an earlier deadline or the magnitude of the scope of the outage makes this impractical. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all, of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned.	System wide	\$2,563
MC-CL-ZS8363	Network Additions and Services: Broad Street Substation	Rationale: The Broad Street Substation Network Additions and Services project connects approximately five small, four medium, and five large properties costing \$4.6 million and performs capacity additions work associated with service connections. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	319 6th AV N	\$9,637
MC-CL-ZS8364	Network Additions and Services: First Hill, Massachusetts, Union & University	Rationale: This Network Additions and Services project for the customers in the First Hill, Massachusetts, Union, and University District network areas provides service connections to approximately nine small, five medium, and four large properties costing \$3.5 million. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	1555 Utah AV S	\$8,204

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8365	Large Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$5,335
MC-CL-ZS8366	Medium Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost-effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$22,701
MC-CL-ZS8367	Small Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost-effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System wide	\$7,839
MC-CL-ZS8379	Normal Emergency	<p>Rationale: This project will collect costs related to the annual storm invoked work orders, which results in more accurate accounting for weather related and other emergency outage situations and leads to better planning for similar future events. SCL traditionally has budgeted for these events in the Outage capital project. This did not allow us to easily account for emergencies versus billed work, such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations.</p> <p>Alternative(s): To continue to mix emergency and non-emergency work in the Outage capital project. This project does not add a body of work but clarifies the accounting for it.</p>	System wide	\$1,231

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- ZS8380	Major Emergency	<p>Rationale: This project will collect costs related to emergency work. This will result in more accurate accounting for weather related and other emergency outage situations. This project does not add a body of work but clarifies the accounting for it. SCL traditionally has budgeted for these events in the Outage capital projects. This did not allow us to easily account for emergencies versus billed work such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non-emergency work in the Outage capital projects.</p>	System wide	\$3,000
MC-CL- ZS8405	Network Additions and Services - Denny	<p>Rationale: This is a mandated project that provides electrical service connections and related improvements in response to requests for service from customers. The project provides targeted civil and electrical design assistance to customers to connect existing and proposed buildings to the North Downtown network system. The conversion effort is quite large since we are installing a new network in this area. It is imperative to participate in early design discussions with customers building in the area. For existing buildings, the conversions to network service are complicated and require expert assistance. This project provides service connections to biotech industry, condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): 1. Do nothing. 2. Hook up customers as they request. Option 2 is recommended as it is most compatible with our mission of customer service.</p>	Valley Street	\$4,307

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-CL- ZT8307	Alaskan Way Viaduct and Seawall Replacement - Utility Relocations	<p>Rationale: The Alaskan Way Viaduct replacement includes a complex transmission and network/non-network relocation, design and construction, and is on a fast track. This work is integrated and required by the broader transportation project. The externally generated project and schedule includes significant electrical relocation work in the near term that will extend for over a decade. The utility is required to relocate for transportation relocated projects. The City's overall plan for the Alaskan Way Viaduct project includes utility funded relocations for the viaduct replacement and for rebuilding the Seawall. The series of subprojects that make up the Alaskan Way Viaduct replacement have opportunities for system improvements that will also be funded under this program. For most of the subprojects in the Alaskan Way Viaduct project, utility relocations will lead the construction. Therefore any delay in accomplishing SCL work will result in delays along the overall projects critical path. While the designs &amp; construction schedules for the various subprojects in the Alaskan Way Viaduct program are being sequenced and detail design is underway for the immediate projects, the central waterfront elements of the overall project are beyond this budget cycle and are still in the preliminary design phases. Alternative(s): The Alaskan Way Viaduct program provides the utility with a combination of obligations and opportunities for system improvements over the next 6 years. The Alaskan Way Viaduct program will likely be the City's primary construction focus as its various projects impact traffic and roadway construction, seawall stabilization, and urban design on the waterfront. Seattle City Light facility relocations will be a part of each of these projects. The global nature of the Viaduct Program also provides the opportunity to make system improvements that will provide for increased reliability and capacity for our customers. For example, work in the south end will include system improvements that will increase feeder capacity and reliability for Port customers. Undergrounding of transmission lines near Broad Sub are being done as part of an overall SDOT street improvement with costs shared based on a negotiated MOA with SDOT. The return of Aurora, north of Harrison Street to a city street, and the decommissioning of the Battery Street Tunnel provides an opportunity to extend ducts and vault across Aurora to help provide system capability to the NODO area.</p>	SR 99 / Battery St	\$109
------------------	--	--	-----------------------	-------

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8369	Overhead and Underground Relocations	Rationale: This project provides the means to move City Light system infrastructure, located in the public right-of-way for transportation projects, including street widening and street vacation projects. This means moving distribution lines to make way for construction of buildings, bridges, airport runways, tunnels, and for other utilities. This project moves electrical lines to accommodate or take advantage of transportation-related projects being constructed by other agencies. The project builds new and replaces old line segments, installs and replaces poles, and adds or renovates underground facilities to the distribution system, as necessary, to relocate distribution systems for transportation projects, street vacations, or other projects proposed by outside (non-City Light) agencies. Some projects are paid for by City Light and some are paid for by the requesting agencies. This project provides the means to move the system for transportation projects in the public right of way, including street widening and street vacation projects. Alternative(s): The do nothing alternative leaves the distribution of facilities in their current location, which would interfere with the projects of the other agencies.	System wide	\$9,358
MC-CL-ZT8470	Center City Connector Streetcar City Light	Rationale: This SDOT project was initially proposed as the 1st Ave Streetcar project in 2009, but was deferred in favor of the 1st Hill Connector line. It is now being proposed as part of a wider mobility improvement initiative to be implemented along with the Alaskan Way Viaduct program. Alternative(s): Since this transportation relocation work is required, the "do nothing" alternative does not apply. Given the importance of SCL's infrastructure in the proposed project area, SCL engineering & project management will work with SDOT & contracting personnel to insure that the project design chosen has minimal impact on SCL customers & ratepayers while meeting the overall project's goals.	City Wide	\$10
MC-CL-ZT8471	Sound Transit Lynnwood - City Light	Rationale: See alternatives. This is a legally required relocations project for SCL. Alternative(s): The Sound Transit Lynwood Link project is a mandatory distribution system relocations project for SCL. Pursuant to SCL's status as a utility operating in the public transportation right-of-way, SCL is required by Washington State law to facilitate construction of new transportation projects by other agencies, such as Sound Transit. Therefore, this is not an optional project for SCL.	City Wide	\$144

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

### Seattle Department of Transportation

Project ID	Project Name	Project Capacity	Location	2024 Budget*
MC-TR-C013	RapidRide J Line	This project will increase the person-carrying capacity of Seattle's transportation network and of the regional transit network.	Various	\$39,707
MC-TR-C019	Neighborhood Traffic Control Program	This program will install traffic calming devices on neighborhood streets.	Citywide	\$654
MC-TR-C020	New Traffic Signals	This project will install new traffic signals to improve traffic flow, reduce the frequency and severity of traffic accidents, and support pedestrian activity.	Citywide	\$781
MC-TR-C021	Next Generation Intelligent Transportation Systems (ITS)	This project will install new Intelligent Transportation System equipment to improve traffic flow.	Citywide	\$1,323
MC-TR-C029	Transit Corridor Improvements	This program implements projects that improve transit speed, reliability, access, and convenience, consistent with the Transit Master Plan.	Citywide	\$4,055
MC-TR-C030	Northgate Bridge and Cycle Track	This program will design and build pedestrian and bicycle improvements in order to increase safety and improve access to transit modes.	Multiple	\$2,320
MC-TR-C034	3rd Avenue Corridor Improvements	This project will increase the person-carrying capacity of Seattle's transportation network and of the regional transit network.	3rd AVE	\$3,200
MC-TR-C041	Non-Arterial Street Resurfacing and Restoration	This project is consistent with the priority placed on basic services and asset preservation, and protects the City's capital investment in non-arterial asphalt and concrete streets. City crews budgeted against this work are also those who respond to emergency events.	Citywide	\$2,390
MC-TR-C047	Freight Spot Improvement Program	This project will improve mobility. Specific projects and the corresponding impacts on capacity are still to be determined.	Citywide	\$3,114
MC-TR-C050	Urban Forestry Capital Establishment	The initial estimate for establishment provided by SDOT Urban Forestry as a component of the Org Based Budget is subject to confirmation near the end of construction to ensure support to complete the 3-year establishment for trees and associated planting installed by the project. This coordination between SDOT Urban Forestry and CP&RS supports the close out capital projects in timely manner.	Citywide	\$479

\*Amounts in thousands of dollars.

## Appendix A: New or Expanded Capital Facilities

MC-TR-C051	Madison BRT - RapidRide G Line	This project will increase the person-carrying capacity of Seattle's transportation network and of the regional transit network.	Madison ST/Alaskan Way/Martin Luther King Junior W	\$32,334
MC-TR-C062	Bike Master Plan - Protected Bike Lanes	This program will install bike lanes and bicycle route signing, and complete links or reconstruct key sections of urban trails in order to increase bicycle safety and access.	Citywide	\$17,377
MC-TR-C064	Vision Zero	This project will upgrade existing signals and signs, and install new ADA ramps, and pedestrian safety improvements.	Citywide	\$6,648
MC-TR-C072	Alaskan Way Main Corridor	The program will construct a new Alaskan Way surface street and public space.	Various	\$28,857
MC-TR-C087	SR-520 Project	This project will provide for the planning, design and EIS review on the SR 520 bridge replacement.	SR-520	\$1,971

*\*Amounts in thousands of dollars.*

## Appendix A: New or Expanded Capital Facilities

### Seattle Parks and Recreation

Project ID	Project Name	Project Capacity	Location	2024 Budget*
MC-PR-21001	Park Land Acquisition and Leverage Fund	This project will add acreage to Seattle's total park land acreage.	Citywide	\$1,686
MC-PR-21003	New Park Development	This project will add 14 developed parks for active recreation to help meet the City's parks and open space goals.	Citywide	\$7,369
MC-PR-21004	Activating and Connecting to Greenways	This project will increase the number of miles of safe pedestrian routes for all ages.	Citywide	\$251
MC-PR-41029	Parks Upgrade Program	Capacity will depend on the project scopes that will be the subject of additional citizen review consistent with the Parks Department's Public Involvement Policies.	Citywide	\$808
MC-PR-41036	Public Restroom Renovations	ADA access will be improved.	Multiple	\$2,480
MC-PR-41038	Loyal Heights Community Center Renovation	The ADA improvements and other renovations will help the center increase its programming and rental offerings.	2101 N 77th ST	\$750
MC-PR-41039	Play Area Renovations	The project improves the safety and usability of the play areas, ensuring that Seattle's children can have a safe and enjoyable place to play.	Multiple	\$2,281

\*Amounts in thousands of dollars.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

**Seattle Department of Parks and Recreation**

---

**Project ID:** MC-PR-21001  
**Project Title:** Park Land Acquisition and Leverage Fund  
**Location:** Citywide  
**2024 Proposed Budget:** 1,686,142

**Description:** This ongoing project provides funds for land acquisition, leveraging capital projects, pre-acquisition activities (including planning, title searches, appraisals, negotiations, and community involvement), associated with acquisitions of specified real property, and related work. The project also serves as a match to leverage other funding sources such as King County Conservation Futures.

**Project ID:** MC-PR-21002  
**Project Title:** Park CommUNITY Fund  
**Location:** Citywide  
**2024 Proposed Budget:** 3,235,090

**Description:** This ongoing project provides funding to support community-initiated improvement or upgrade projects to parks and facilities; with a focus on neighborhoods with a history of racial disparities regarding access to green space and safety from environmental harms. No match is required from community groups applying for this funding. Seattle Parks and Recreation will develop and administer a process by which projects will be selected and funding recommendations made to the Superintendent by the Board of Parks and Recreation Commissioners (BPRC). This funding can be used as seed funding for outside grants and private fundraising, to support initial feasibility work, or implement small responsive improvements in collaboration with communities. This project number was formerly used for the Major Projects Challenge Fund and Equitable Park Development Fund.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

**Project ID:** MC-PR-21007  
**Project Title:** Parks Central Waterfront Piers Rehabilitation  
**Location:** Alaskan Way  
**2024 Proposed Budget:** 22,273,000

**Description:** The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020 with Pier 62 now operational, the next phase will demolish Pier 63. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

**Project ID:** MC-PR-31002  
**Project Title:** Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service  
**Location:** 1483 Alaskan Wy  
**2024 Proposed Budget:** 1,649,050

**Description:** This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

**Project ID:** MC-PR-41001  
**Project Title:** Major Maintenance and Asset Management  
**Location:** Citywide  
**2024 Proposed Budget:** 25,429,597

**Description:** This ongoing project provides funding for asset renewal in parks and recreation facilities citywide, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds integrated asset management to track and forecast long-term asset and maintenance needs. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

**Seattle Department of Transportation**

**Project ID:** MC-TR-C018  
**Project Title:** Neighborhood Large Projects  
**Location:** Citywide  
**2024 Proposed Budget:** 3,658,284

**Description:** This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The projects are funded by the Move Seattle transportation levy and it is a triennial program. The projects funded are identified by the community and the Move Seattle Oversight Committee.

**Project ID:** MC-TR-C029  
**Project Title:** Transit Corridor Improvements  
**Location:** Citywide  
**2024 Proposed Budget:** 4,054,860

**Description:** This program implements multimodal projects which improve transit reliability, access, safety, and convenience. The program focuses on corridors and projects identified in the Transit Master Plan. Funding from Move Seattle Levy and other local funding sources are used to leverage partnership opportunities.

**Project ID:** MC-TR-C033  
**Project Title:** Arterial Asphalt & Concrete Program Phase II  
**Location:** Citywide  
**2024 Proposed Budget:** 17,516,690

**Description:** The Arterial Asphalt and Concrete Program maintains Seattle's arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

<b>Project ID:</b>	MC-TR-C034
<b>Project Title:</b>	3rd Avenue Corridor Improvements
<b>Location:</b>	3rd AVE
<b>2024 Proposed Budget:</b>	3,200,000
<b>Description:</b>	This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit street priority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.
<b>Project ID:</b>	MC-TR-C058
<b>Project Title:</b>	Pedestrian Master Plan - New Sidewalks
<b>Location:</b>	Citywide
<b>2024 Proposed Budget:</b>	6,295,453
<b>Description:</b>	This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.
<b>Project ID:</b>	MC-TR-C062
<b>Project Title:</b>	Bike Master Plan - Protected Bike Lanes
<b>Location:</b>	Citywide
<b>2024 Proposed Budget:</b>	17,377,258
<b>Description:</b>	This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. Life-to-date actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

**Appendix B: Capital Projects passing the \$5 million threshold with the 2024 appropriations.**

**Project ID:** MC-TR-C072  
**Project Title:** Alaskan Way Main Corridor  
**Location:** Various  
**2024 Proposed Budget:** 28,857,000

**Description:** This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct and has relocated State Route 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal: Seneca Street, Columbia Street, and the Marion Street and Lenora Street pedestrian bridges. This project is part of the larger waterfront improvement program. Construction of these improvements began in 2019.

**Project ID:** MC-TR-C073  
**Project Title:** Overlook Walk and East-West Connections Project  
**Location:** Multiple  
**2024 Proposed Budget:** 6,250,000

**Description:** Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian-oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District.

**Project ID:** MC-TR-C087  
**Project Title:** SR-520 Project  
**Location:** SR-520  
**2024 Proposed Budget:** 1,971,000

**Description:** This project provides policy, planning, and technical analysis support to the Washington Department of Transportation's SR-520 project. This regional project includes the replacement of the SR-520 bridge with a six-lane bridge, new freeway interchanges at Montlake Boulevard and Lake Washington Boulevard, and other improvements.

**1% for Art:** A program administered by the Office of Arts and Culture (ARTS) that sets aside one percent of eligible City capital improvement project funds for the commission, purchase, and installation of artworks.

**2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”):** A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

**2008 Parks Levy (“Parks and Green Spaces Levy”):** A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy was designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

**Americans with Disabilities Act (ADA):** A comprehensive civil rights law for people with disabilities passed by the federal government in 1990.

**Allocation:** The expenditure amount planned for a project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

**Appropriation:** A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

**Asset Preservation (also known as Major Maintenance):** Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

**Capital Improvement Program (CIP):** Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget that details all projects, fund sources, and expenditure amounts including many multi-year projects that require funding beyond the one-year period of the annual Budget.

**Capital Projects Funds:** Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

**Capital Projects Passing the \$5 million threshold (Appendix B):** Pursuant to the 1999 settlement agreement in CLEAN, et. al v. City of Seattle, the City has adopted policies regarding public notification when capital projects cross certain spending thresholds. Resolution 31203 updated those policies to require a list of all Capital Projects for which the City has cumulatively spent more than \$5 million with the adoption of the current annual Budget be published as an appendix to the Capital Improvement Program.

**Community Development Block Grant (CDBG):** An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development to support economic development projects, housing and services in low-income neighborhoods.

**Comprehensive Drainage Plan:** A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

**Cumulative Reserve Fund (CRF):** A source of ongoing local funding to support capital projects in general government departments. The CRF consists of two accounts: The Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has three Funds: REET I Capital Projects Fund, REET II Capital Projects Fund, and the Unrestricted Cumulative Reserve Fund.

**Design Build Operate (DBO):** A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

**Debt Service:** Annual principal and interest payments that local government owes on money that it has borrowed.

**Endangered Species Act (ESA):** Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon and to conserve and recover listed species.

**Fire Facilities and Emergency Response Levy:** A \$167 million, eight-year levy lid lift, approved by voters in November 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City's fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

**Fund Balance:** The difference between the assets and liabilities of a fund. This incorporates the difference between the revenues and expenditures each year.

**General Fund:** A central fund into which most of the City's general tax revenues and discretionary resources are pooled and allocated to support many of the operations of City government. General Fund dollars appear in the CIP in two places: the General Fund contribution to the Cumulative Reserve Fund (if any) and appropriations to capital projects from a department's operating budget.

**Geographic Information System (GIS):** A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a location. The results of geographic analysis can be communicated with maps and/or reports.

**Growth Management Act (GMA):** Passed by the state legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

**Habitat Conservation Plan (HCP):** A 50-year commitment by the City and Seattle Public Utilities to protect and restore the Cedar River Watershed.

**Leadership in Energy and Environmental Design (LEED):** A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a "whole building" perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

**Levy Lid Lift:** An increase in regular property taxes for a general or designated purpose—for example, the 2008 Parks Levy.

**Levy to Move Seattle:** A nine-year, \$930 million-dollar levy passed by voters in November 2015. The levy provides funding to improve safety for all travelers, maintain streets and bridges, and invest in reliable, affordable travel options.

**Limited Tax General Obligation (“LTGO” or “Councilmanic”) Bonds:** Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

**Major Maintenance:** See “Asset Preservation” above.

**Municipal Art Plan:** A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

**Neighborhood Matching Subfund (NMF):** A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

**Operating Budget:** The portion of a budget that deals with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

**Public Works Trust Fund:** A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

**REET I and REET II:** The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first 0.25% of the locally imposed tax going to REET I and the second 0.25% for REET II.

**Seattle Metropolitan Park District:** In August 2014, voters passed a ballot measure creating the Seattle Metropolitan Park District. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

**Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds:** Bonds issued after receiving approval by 60% of the voters in an election with at least 40% voter turnout. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.

## Introduction

The City of Seattle and its more than 13,000 employees build and maintain infrastructure, provide utility service, support the needs of the city’s residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City’s mission.

Budgeting for a large organization with many functions is a crucial and complex process. In order to produce a balanced budget the City relies upon solid forecasts incorporating items which are constantly changing (such as the price of fuel), analyzing economic activity (as it impacts tax revenues, among other budgetary components), and evaluating demand for services (from electric and water utility service, to parking meters, and access to parks/library services).

## City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for their approval and signature.

The City of Seattle utilizes a modified biennial (two-year) budget process in which the City Council approves funding for year one while endorsing the amounts for year two. 2024 is year two of the current biennium and this book is designed to provide updates and discussion on how 2024 funding and service delivery levels differ relative to the 2024 endorsed levels.

The budget itself is composed of two main documents: the operating budget and the capital improvement program (CIP) budget. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services. The CIP budget consists of large expenditures on infrastructure and other capital projects.

Charts summarizing the City’s budget process and organization can be found at the end of this section.

### Budget Preparation

For 2024, the budget development process differs in that the beginning point for the mid-biennial budget is the 2024 Endorsed Budget.

During this process, the Office of Economic and Revenue Forecasts (OERF), in conjunction with the City Budget Office (CBO) updates and compares the revenue forecasts utilized in the 2024 Endorsed Budget relative to current economic conditions in order to determine if the endorsed budget remains in balance. In addition, costs to maintain current service levels are updated based on factors such as inflation and compared to the revised revenue forecast. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available, then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

# Introduction & Budget Process

Annually, CBO provides guidance to departments regarding budget submissions in early spring. In early June, CBO receives departmental operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets. As 2024 is year two of a biennium, the proposed budget updates are not intended to include any significant new budget programs or policy shifts but rather to maintain services levels and make strategic investments where appropriate.

In late September, the Mayor submits the proposed mid-biennial budget updates and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

The City Council then conducts public hearings and holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

## Reader's Guide

This reader's guide describes the structure of the mid-biennial budget book and outlines its content, as it differs from a proposed budget for a new biennium. This budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals with a focus on how this document and details differ from the 2024 budget endorsed by the City Council.

A companion document, the 2024-2029 Proposed Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities/infrastructure, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments and 2024-2029 Proposed CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the proposed budget adjustments and proposed CIP, the site contains department-customized expenditures and revenues.

### The 2023-2024 Proposed Mid-Biennial Budget Adjustments

This document is a description of the proposed mid-biennial spending plan for 2024 as compared to the Council-endorsed 2024 budget. It contains the following elements:

- **Proposed Budget Executive Summary** – A narrative describing the current economy, highlighting key factors relevant in developing the budget document, and how the document maintains a balanced budget and provides for targeted investments for the community;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2024;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of their mid-biennial spending plans as compared to the 2024 Endorsed Budget
- **Appendix** – an array of supporting documents including long-range financial plans, summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2023-2024 Proposed Mid-Biennial Budget Adjustments; and a glossary.

## Reader's Guide

### Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education & Human Services;
- Livable and Inclusive Communities;
- Public Safety;
- Utilities, Transportation & Environment; and
- Administration.

Each cluster comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

As indicated, the proposed mid-biennial budget appropriations are presented in this document by department and budget summary level. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of motor fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

# Reader's Guide

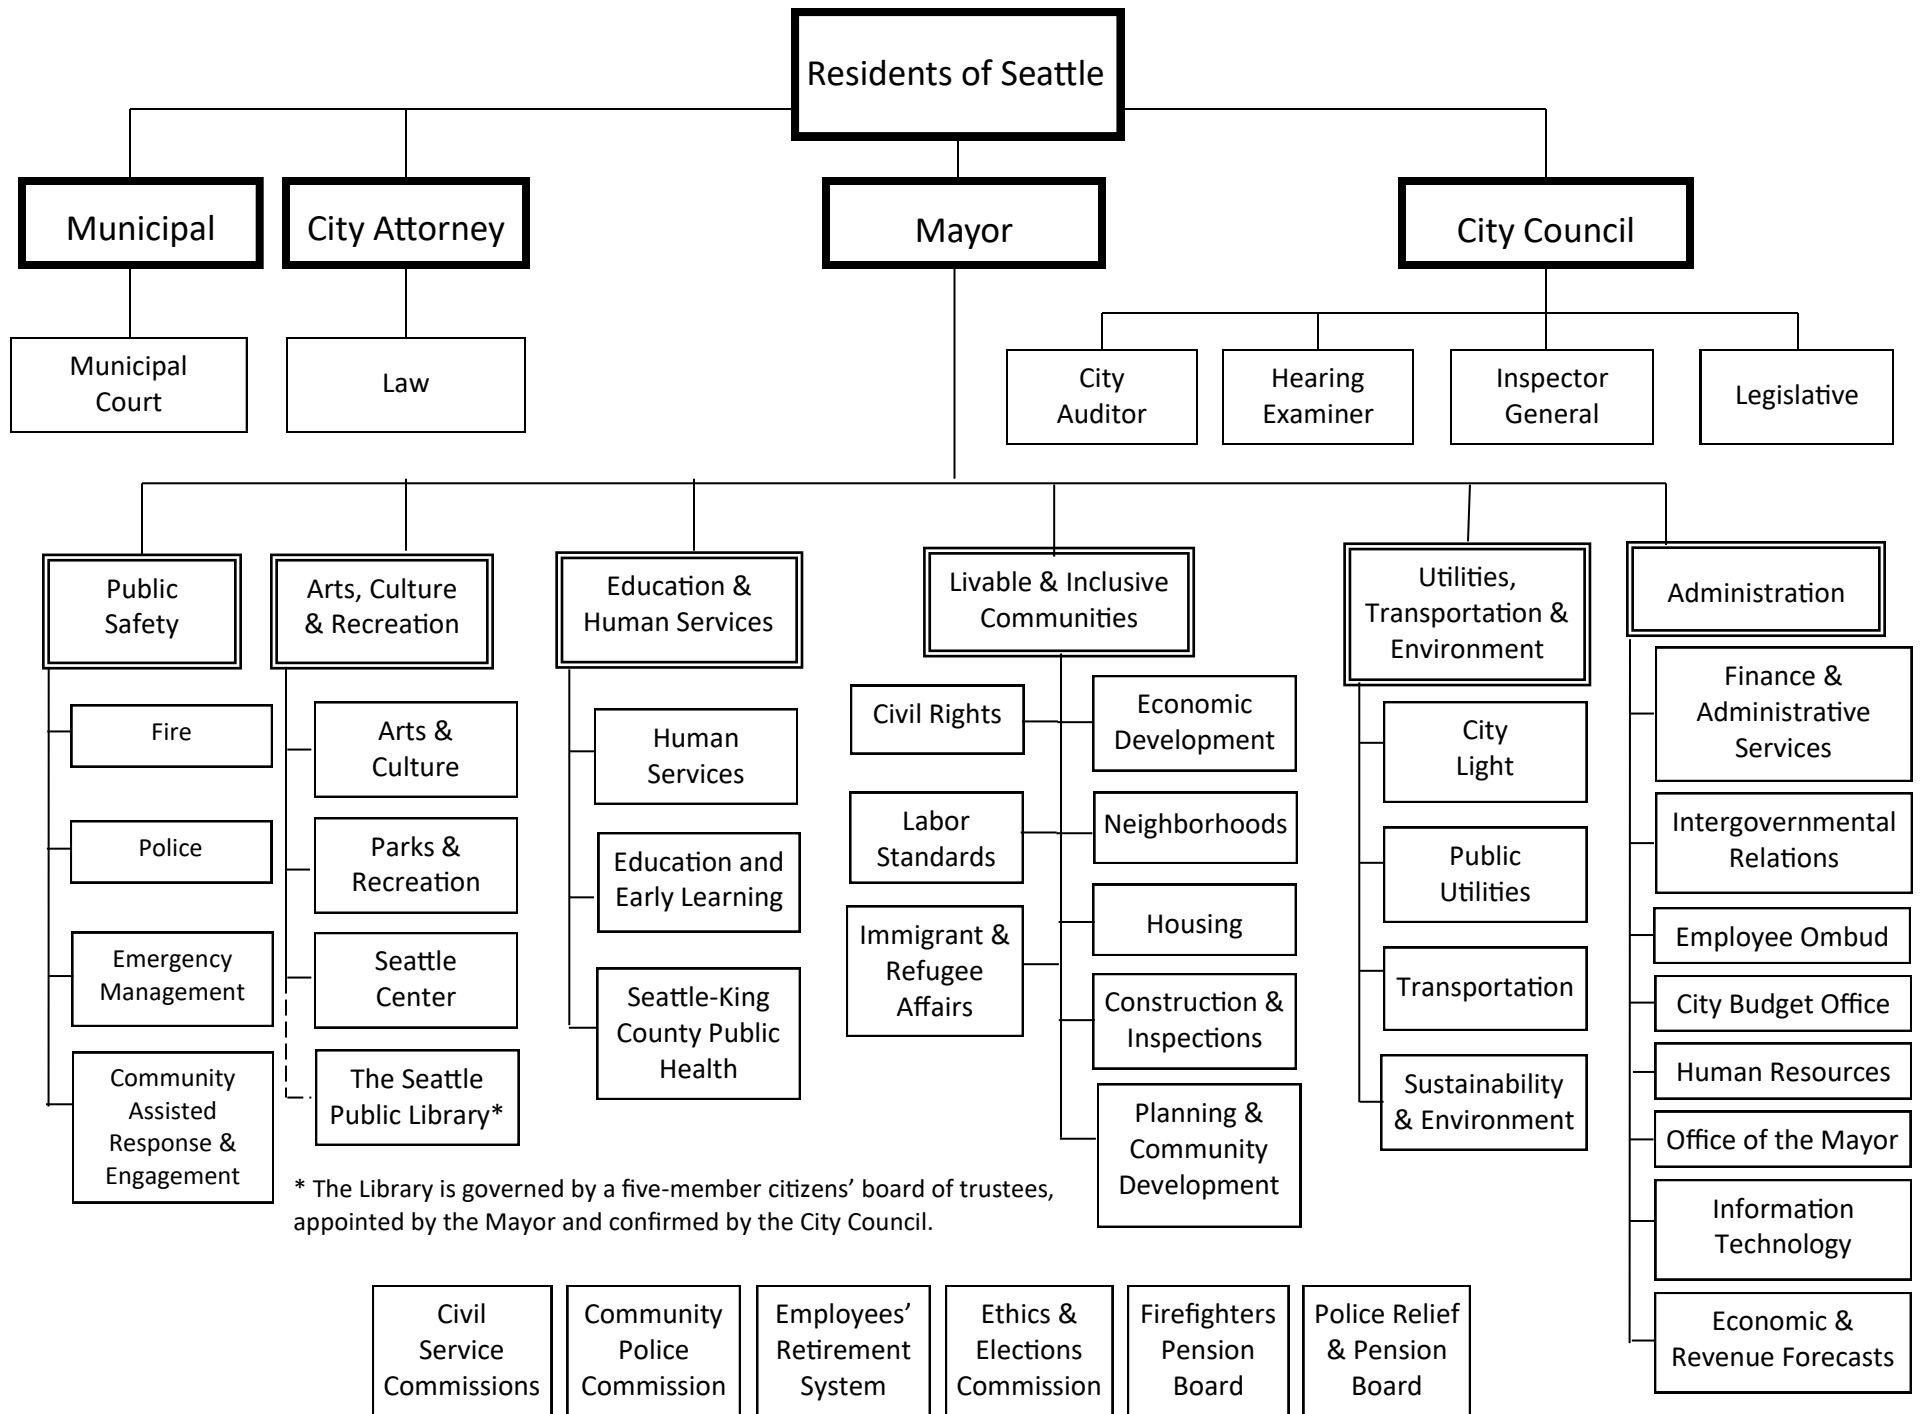

## Mid-Biennial Budget Presentations

The mid-biennial budget document differs in the department presentation. In general, this budget document is designed to present department budgets in terms of how they compare to the 2024 Endorsed Budget rather than a detailed, programmatic focus as is presented for a new biennium.

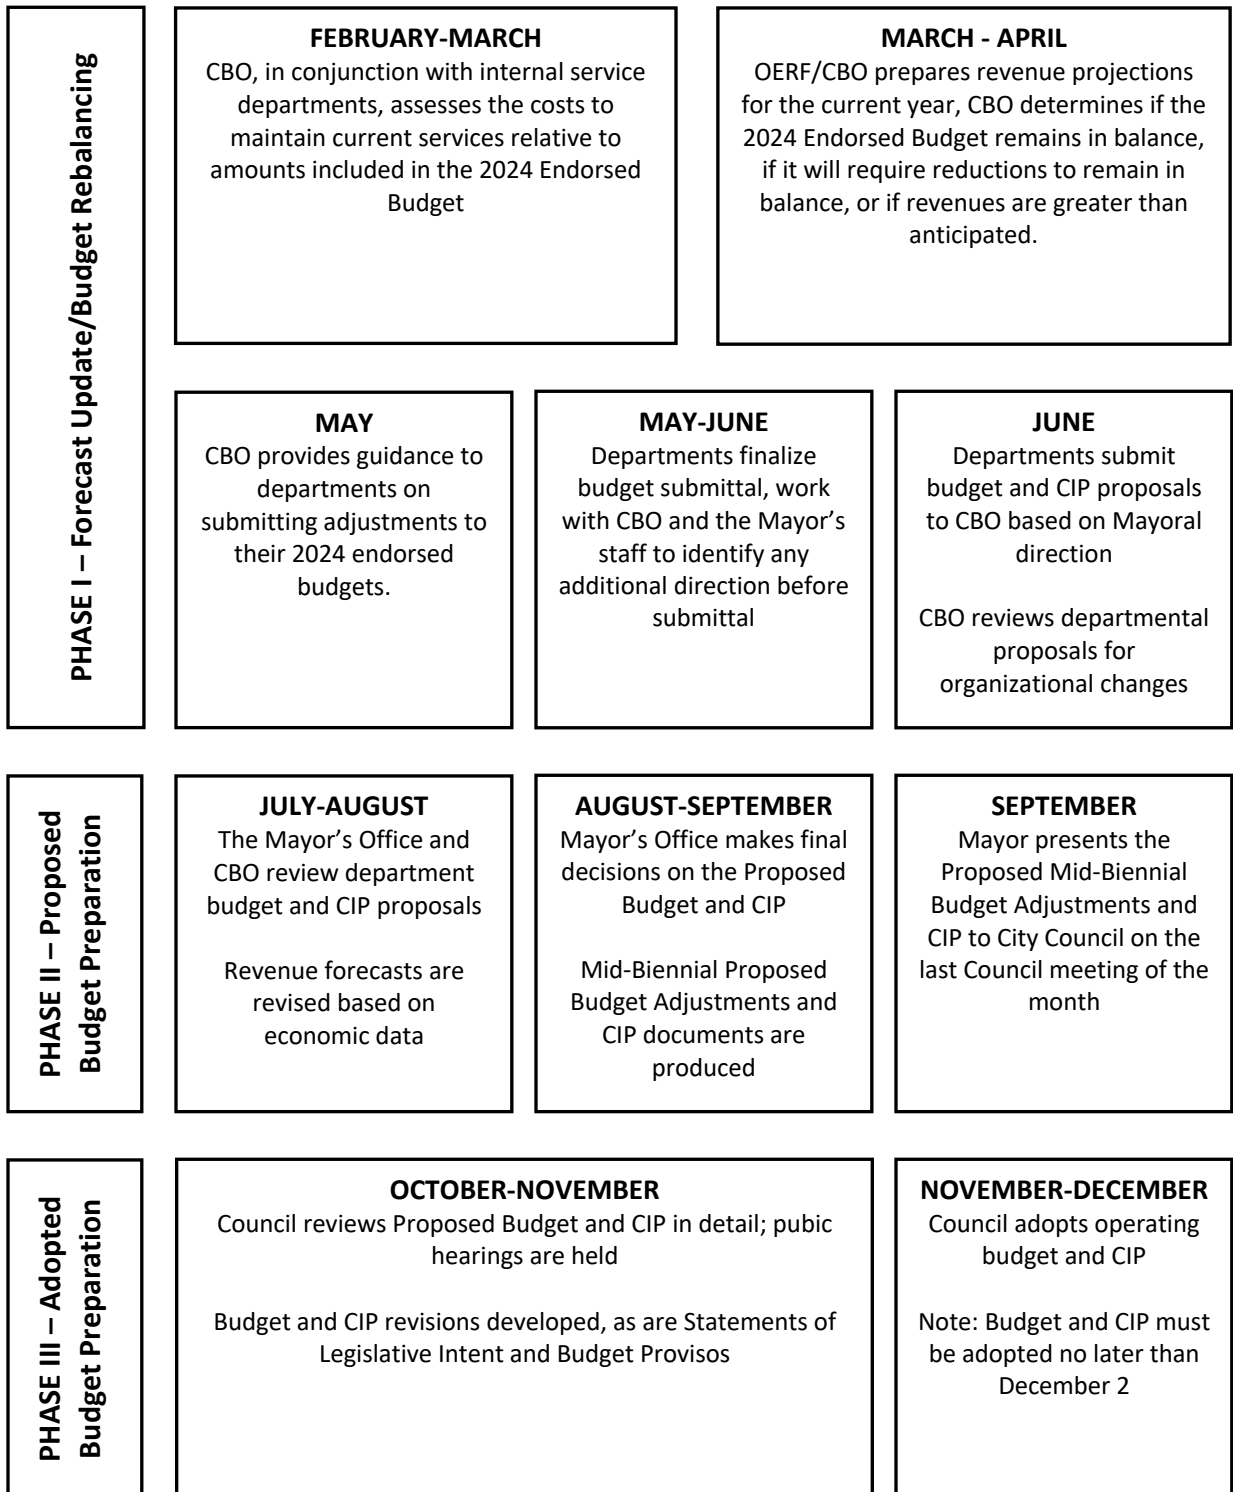

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2023-2024 Proposed Mid-Biennial Budget Adjustments, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's endorsed budget amounts, proposed mid-biennial changes, and updated total for year two of the biennium by Fund and Budget Summary Level. All department, budget control, and program budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2023-2024, are included in the appendix.

A list of all position changes proposed in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

For information purposes only, an estimate of the number of staff positions to be funded under the 2023-2024 Proposed Mid-Biennial Budget Adjustments appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented for 2023-2024. These changes are summarized in the appendix.

## Budget Process Diagram - Mid-Biennium

# 2023-2024 Proposed Mid-Biennial Budget Adjustments Summary

## Introduction

Mayor Bruce A. Harrell’s 2023-2024 Proposed Mid-Biennial Budget Adjustments is an update to the 2024 Endorsed Budget, adopted by the Seattle City Council in November 2022. As a mid-biennial update, the proposed adjustments are largely to align the budget with available revenues but otherwise do not make significant citywide shifts in planned expenditures for 2024.

The City of Seattle operates on a biennial budget, with a two-year spending proposal developed every other year. Though a biennial budget represents a two-year plan, in recent practice the City has historically developed a full, new proposed budget annually. The 2023-2024 Proposed Mid-Biennial Budget Adjustments represent a transition from that past practice of significant annual changes to one that instead focuses on the 2024 Endorsed Budget as the primary plan and makes slight modifications where necessary.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments maintain the 2024 Endorsed Budget investments across the One Seattle priority areas established by Mayor Harrell: housing and homelessness, public safety, access to opportunity, healthy communities, climate and environment, safe and reliable transportation, and good government. In this second year of the biennium, the Mayor is addressing unanticipated and significant cost pressures and making targeted, strategic investments in key areas:

- Sustaining critical services;
- Bolstering public safety and public health;
- Investing in workers; and
- Furthering Economic Recovery.

There is more detailed information on these investment areas later in this summary.

## Economy and Revenue

The unexpected strength of employment and Gross Domestic Product (GDP) growth in the national and regional Seattle economy in 2023 has avoided the recession predicted last fall and is yielding additional revenues for the City in 2023 and 2024. The 2023-2024 Proposed Mid-Biennial Budget Adjustments assume approximately \$76.2 million additional General Fund revenues over the 2023 Adopted Budget and a smaller \$47.6 million over the 2024 Endorsed Budget. Looking forward, however, the expectation is that the Federal Reserve’s restrictive monetary policy (keeping interest rates high) will remain in place through the first half of next year, slowing overall economic growth, but also continuing to help control inflation. Thus, at this stage, it appears that the Federal Reserve is succeeding in its goal of managing the economy toward a “soft landing,” where inflation is being brought under control, without a significant decrease in GDP or increase in unemployment. Current national projections for the remainder of this year and 2024 are consistent with that expectation. Growth will continue, but at a modest rate, with GDP expected to grow by just 1.5%, when measured in real, inflation-adjusted terms.

Regionally and for the City, like the nation, the regional economy is now expected to avoid a recession. That said, the cooling technology and professional and business services sectors, and the slowing demand for new construction and its effects on construction employment were not fully anticipated last

fall and are a cause for concern, given the higher wages and ancillary economic activity generated by these activities. Nonetheless, while unemployment is expected to trend up modestly as hiring slows, there is no expectation of net job losses as gains in other sectors, such as leisure and hospitality, government, and education and health care have led to a net gain of 11,000 jobs in the Seattle area since January 1, 2023.

These factors as well as general national trends have shifted the longer-term outlook toward slower economic and flatter revenue growth. To illustrate, last fall, the Office of Economic and Revenue Forecasts' regional model anticipated that regional personal income would grow at an average annual rate of about 4% from 2024 through 2028. The most recent forecast projects average income growth closer to 3% over this same period. This pattern of slower growth marks a distinct shift from pre-pandemic trends when the local economy experienced an extended period of robust expansion, driven by strong growth in the technology sector and sustained construction activity in both the commercial and residential sectors.

After years of revenue growth, the COVID-19 public health emergency and related economic downturn resulted in lower City revenues in 2020-2022. As of the fall of 2023, several of the City's revenue streams have still not yet fully rebounded. Simultaneously, though cooling now, generation-high inflation has created significant cost pressures on the City's expenditures, both capital purchases and in labor costs as the City's workforce has also felt the impacts of the increased costs of goods and services. As a result, the latest projections on future revenues and growth in City expenditures indicates that without significant intervention, the City will face a projected \$251 million deficit for the 2025 fiscal year.

Mayor Harrell has taken a multi-faceted approach to addressing this problem:

- In partnership with the City Council Budget Chair Teresa Mosqueda, Mayor Harrell convened the Seattle Revenue Stabilization Work Group in 2022-2023. This group of civic leaders met numerous times over the span of 10 months and issued a final report that recommends City staff examine some expanded or new revenue streams to help mitigate the projected deficit.
- The City Budget Office has started to work with City departments to examine current lines of business to ensure that they are aligned with the priorities and direction of the City's elected leadership.
- Mayor Harrell has emphasized to his direct staff and City departments the importance of identifying and applying for external funding opportunities, including our state and federal partners.

## **2024 Budget Development Considerations**

The City Budget Office provided guidance in early Spring to City Departments that the 2024 Endorsed Budget was balanced and any changes in General Fund-backed spending needed to be paid for with offsetting reductions. Unlike in recent years, given that the budget was balanced as a starting point, departments were not asked to provide target reduction proposals, and were encouraged to work within their 2024 Endorsed budgets whenever possible.

To that end, many departments do not have any changes in their budgets other than adjustments for central costs the City will incur for 2024, such as changes in information technology, human resources, facilities or vehicle maintenance, and Judgement and Claims costs. Additional details on these central changes can be found under the “Unanticipated or Significant Cost Pressures” section below, as well as in department budget chapters. For over half of the departments in the City, budget changes are only related to central costs or are budget neutral, either paid with an offsetting reduction within that department or using funding from a planning reserve established in anticipation of the spending need.

The proposed budget materials also look different this year and have a new name. The department chapters are shorter and focus on the changes to the 2024 Endorsed Budget. Summary tables are moved to a comprehensive appendix. What would historically have been referred to as the “2024 Proposed Budget” is instead referred to as “2023-2024 Proposed Mid-Biennial Budget Adjustments” to reflect that changes to the 2024 Endorsed Budget are limited in scope and scale.

As mentioned above, the August revenue forecast provided much-needed near-term support for the City’s General Fund revenues to keep the budget in balance. This near-term revenue growth in the City’s [August Revenue Forecast](#) also allowed for the General Fund to reduce reliance on the Payroll Expense Tax for general operating support by \$10 million, reducing the amount transferring from the Payroll Expense Tax to the General Fund from \$84 million to \$74 million.

Despite the additional resources available in 2023 and 2024, difficult decisions for this budget were made in the context of the looming \$251 million General Fund deficit that is currently projected for 2025. The City’s elected leaders will face difficult decisions in the upcoming year about how to reduce expenses and/or increase revenues to keep the City’s budget in balance, and decisions for 2024 should be made with this context in mind.

### **Support from JumpStart Payroll Expense Tax**

The JumpStart Payroll Expense Tax (Payroll Expense Tax) was enacted by the City Council in 2020 and has been a critical tool to keep City programs operating during the pandemic and during this post-pandemic recovery stage. In addition to providing for specific areas of new spending, the law that governs the use of the payroll tax proceeds established that beginning in 2023, General Fund support will only continue if revenues fall below a nominal fixed amount. The Mayor’s Office and the City Council worked jointly on a plan to provide for a temporary change in the law regarding General Fund support that allows for transferring payroll tax proceeds to the General Fund to preserve city services and prevent reductions to certain programs over the biennium. The 2023 Adopted and 2024 Endorsed Budget included transfers from the JumpStart Fund of to the General Fund of \$100.6 million in 2023 and \$84.2 million in 2024, however, the ending unreserved General Fund balance in 2022 ended up higher than anticipated by \$34 million and the April revenue forecast showed a decline of \$62.6 million in 2023 and 2024 Payroll Expense Tax revenues. Therefore, the 2023 Revised Budget transfer from the JumpStart Fund to the General Fund will be \$71.0 million.

As a policy matter, the proposed budget adjustments use \$10 million of the 5% revenue stabilization reserve due to lower revenues than anticipated when the 2024 Endorsed Budget was approved. The 2023-2024 Proposed Mid-Biennial Budget Adjustments introduce a few new funds flexibility uses of the payroll tax proceeds, including \$7.4 million for human services provider pay. This use is funded in the

proposed budget adjustments by reducing the transfer to the General Fund to support general government services expenses. Human Service Provider Pay items provide support to community partners that work most directly providing human services, support and outreach to people experiencing homelessness, child care services, and child health and development services.

The proposed budget adjustments maintain the other original spending allotments for JumpStart spending categories envisioned when the Payroll Expense Tax was signed into law, while also transferring \$74.2 million in 2024 to the General Fund in support of general government services, a \$10 million reduction from the endorsed budget. For full details on use of the payroll tax proceeds in the adopted budget, see the Multi-Department Revenue Summary section of the proposed adjustments.

## **Unanticipated or Significant Cost Pressures**

### Citywide Central Costs

The 2023-2024 Proposed Mid-Biennial Budget Adjustments include approximately \$19.5 million in budget increases across all funds related to Citywide central costs (including information technology (IT), fleet, facilities, and human resources). These costs are driven by high inflation, replacement costs for areas such as the City's fleet, and ongoing investments in IT infrastructure and security.

The Seattle IT Department will continue funding licensing costs for Geographic Information System, provide extended maintenance, backup and recovery services for existing servers, increased cloud storage services and security services.

Central costs for the Department of Finance and Administrative Services are increased to reflect higher fuel prices, increased contracting costs, and a technical adjustment for labor costs. The budget also refunds six vacant mechanic positions and reflects reclassification of one position to be focused on the Fire Department vehicles.

The Seattle Department of Human Resource's budget will increase by \$1.1 million for a two-year comprehensive review of the Classification Compensation (Class/Comp) Program to inform the scope, process, timeline, and estimated costs for an update to the system. The City's Class/Comp Program is responsible for classifying the City's positions to ensure fair and equitable compensation to employees for work performed. The industry standard for updates to job classifications and compensation is every 3-5 years. This program has not been reviewed since the 1990s and is outdated for current City personnel needs such as technology changes that are not reflected in job descriptions or the difficulty of employees trying to move between departments with specific titles that are tied to just one department, making it hard to understand potential career opportunities around the City. Continuing to delay investments in this space is not tenable as the cost impacts of operating with an outdated system far exceed the investment needed.

### Judgment and Claims

The Judgment and Claims Fund provides for the payment of legal claims and suits brought against City government. Per [Resolution 31847](#), the budget level for the Judgment and Claims Fund must be set at

the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. The 2023 Adopted and 2024 Endorsed Budget increased funding for the Judgment and Claims Fund by \$11.3 million and \$6.9 million, respectively. The 2023-2024 Proposed Mid-Biennial Budget Adjustments increase this figure by an additional \$9.3 million based on updated claims and litigation data, which continue to show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020.

### Open Labor Contracts

The majority of the City's labor contracts are currently up for renewal, which adds considerable uncertainty to the overall budget planning process. Reserves are maintained for this purpose, however, the exact details around the future settlements remain in negotiation at the time of this printing. [Seattle Municipal Code](#) 4.04.120 E requires the City to maintain confidentiality toward ongoing negotiations.

The Mayor continues to express his urgent and good faith commitment to getting a deal done and raising wages for City workers. Despite forecasts showing significant future revenue gaps, our approach will continue to be rooted in our values that every worker deserves a living wage and our gratitude for City employees and the service they provide to Seattle neighbors.

### Social Housing PDA Start-up Costs

In early 2023, Seattle voters approved Initiative I-135 which created a new Seattle Social Housing Public Development Agency. The initiative did not include an independent revenue source and requires the City to provide 18 months of start-up costs. The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$850,000, which reflects the first 12 months of that 18-month requirement.

### **Sustaining Critical Services**

In this second year of the biennium, the primary focus of this budget is in sustaining critical services, and the majority of changes are modifications within existing budget appropriation levels. The proposed mid-biennial budget prioritizes sustaining existing investments in critical services, including one-time investments in shelter and downtown outreach. These investments were increased with one-time funding in response to the pandemic impacts. The proposed mid-biennial budget also largely aligns with the 2024 Endorsed Budget, maintaining critical services within the base budget.

### Housing / Homelessness

2023 is the final year of the 2017 Housing Levy. The 2023-2024 Proposed Mid-Biennial Budget Adjustments assume passage of the proposed 2023 Housing Levy by Seattle voters in November 2023. Passage of the new levy would generate an estimated \$88 million for affordable housing in 2024. When added to other funding sources, including \$137 million from the Payroll Expense Tax, the proposed budget adjustments include \$334 million for affordable housing in 2024, a 32% increase from the 2023 Adopted Budget.

In early 2023 Seattle voters approved Initiative I-135 which created a new Seattle Social Housing Public Development Agency. The initiative did not include a revenue source and requires the City to provide 18 months of start-up costs. The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$850,000, which reflects the first 12 months of that 18-month commitment.

The proposed mid-biennial budget invests \$162 million in homelessness Citywide and continues the City's investments in the King County Regional Homelessness Authority (KCRHA) as it enters its third full year of operations. Of the Citywide total, \$119 million is allocated to the Human Services Department in 2024 for homeless outreach, shelter, services, and administration. Approximately \$106 million (88.5%) of the amount proposed for HSD will be transferred to the KCRHA, this represents a \$9 million (9%) increase in the City's contribution to KCRHA over the 2023 Adopted Budget of \$97 million and a \$6 million (6%) increase over the 2024 Endorsed Budget of \$100 million.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments to the City's investments in KCRHA include \$1 million to relocate a Tiny House Village so that permanent housing can be built on the current site, funding to support required inflationary increases to provider contracts to support wage increases, and an additional \$2.1 million for further increases to human service provider wages.

Most federal funding that was a direct response to the COVID-19 public health emergency has expired or will expire at the end of 2024. This was a known and expected horizon, but creates funding challenges for important services nevertheless. One of Mayor Harrell's top priorities is to ensure that no shelter beds are eliminated. At the Mayor's request, the King County Regional Homelessness Authority (KCRHA) examined its budget and identified program impacts of one-time funding expiring at the end of 2023. These impacts included the potential closure of up to 300 shelter beds. KCRHA has identified funding available within its existing budget to avert these program impacts on a one-time basis, ensuring that no shelter beds close in 2024 due to the expiration of federal funding.

In the fall of 2022, the City launched the Third Avenue Project in partnership with We Deliver Care to address and improve the public safety and order concerns along Third Avenue in Downtown Seattle. We Deliver Care outreach workers establish relationships and earn the trust of individuals while offering care and treatment service to individuals suffering from substance use disorder and using drugs in public places along Third Avenue. The 2023-2024 Proposed Mid-Biennial Budget Adjustments includes an additional year of funding for this program from the City's General Fund.

### Safe and Reliable Transportation

The 2023-2024 Proposed Mid-Biennial Budget Adjustments maintain nearly all of the 2024 Endorsed Budget investments in transportation with a continued focus on safety and equity. Continued adverse economic impacts of declining revenues and historically high inflation levels have created significant fiscal constraints for the Seattle Department of Transportation (SDOT) limiting delivering transportation priorities for the City.

Meeting basic transportation needs and commitments, within a context of ongoing financial challenges and funding gaps resulting from declining revenues in the Transportation Fund, requires moving monies within and between transportation funds and funding sources. In addition to filling funding gaps, the budget increases staffing capacity within the Seattle Department of Transportation (SDOT) to meet

these needs and commitments. Changes in the 2023-2024 Proposed Mid-Biennial Budget Adjustments recognize that the 2025-2026 Proposed Budget will be the next opportunity to attempt to solve structural challenges facing SDOT. Consequently, many funding options are one-time, including expanded use of Seattle Transit Benefit District (STBD) funds (Vehicle License fees and Seattle Transit Measure tax) that are being directed to funding First Hill Streetcar operations (a funding gap resulting from a Sound Transit operating subsidy sunset) and basic needs such as bridge maintenance. Nonetheless, the proposed budget supports safe and reliable transportation.

Increased severity of winter storms and ice, and other emergency incidents have had significant impacts on the City's roads and increased the demand for emergency response. The proposed budget includes \$1.5 million to support pothole repair, which is one of the core functions of SDOT in responding to conditions to secure safe passage for City and County services including not only first responders, transit, and other high-priority transport - both commercial and private - as well as the general public. In addition, SDOT is the City's primary responder for emergency events that affect the right-of-way. The City continues to see increasing severity of winter storms and ice, windstorms, traffic incidents, spills, encampment-related incidents, and landslides. Given SDOT's budget has been historically challenged to meet the increasing incidence, severity, and cost to respond, the proposed budget adds \$2 million for this purpose.

Budget adjustments include several changes relating to bridge maintenance including adding \$500,000 to expand SDOT's ability to plan bridge maintenance and deliver more work with SDOT crews and adding \$300,000 to support 3 FTE positions for bridge maintenance using Vehicle License Fees. Also included in the proposed 2024 budget adjustments is authority to spend against four Federal Highway Administration grants that are accepted as part of the 2023 Year End Grant Acceptance legislation, including \$2.5 million for S. Spokane Street Viaduct bridge repair. Facing reductions in bridge maintenance funding in the Real Estate Excise Tax (REET) Fund, SDOT is prioritizing staffing investments now that can build SDOT's capacity to implement complex bridge maintenance activities on improved timelines and realigning planned spending accordingly. REET budget and planning assumptions for the Bridge Painting and Structures Major Maintenance capital projects are reduced by \$2 million in 2024 and \$1.8 million in 2026, deferring some maintenance work in these projects. Even with these reductions, SDOT will meet maintenance work planning expectations without impacting service levels or commitments relating to any grant awards.

Further, the proposed budget includes \$25 million in bond issuance to fund completion of the Alaskan Way Main Corridor project, which has experienced significant impacts on project activities, schedule, work windows, and extended overhead costs due to the concrete strike in late 2021 and early 2022. The concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT partners; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost increase risks, like the concrete strike, and are available to fund debt service costs.

The 2023-24 Proposed Mid-Biennial Budget Adjustments also contain legislation that will increase minimum and maximum parking charges to reflect city parking policies and climate goals. These rate increases are supported by parking data that shows an increase in the demand for parking throughout the city. The Paid Parking program at SDOT includes the Paid Parking Maintenance Program that pays for the expenses associated with pay stations and Pay-by-Phone services, the application that allows paying

parking fees with a cell phone rather than at the station. Additional detail on the above changes can be found in SDOT's budget chapter.

#### General Fund Baseline for Parks and Recreation Services

Since the establishment of the Seattle Metropolitan Park District (Park District) in 2014, an interlocal agreement (ILA) between the City and the Park District has set out several responsibilities for both parties. These included a specific baseline of General Fund support for parks and recreation services, commonly referred to as the "General Fund floor," and required the City to allocate General Fund resources to Seattle Parks & Recreation (SPR) in each annual budget at or above that baseline. Currently, the ILA requires the City to adjust that floor for inflation annually using the Consumer Price Index (CPI) for Seattle, which was an unprecedented 7.6% this year. The City and the Park District both have an interest in ensuring the long-term stability of revenues to the park and recreation system and avoiding unilateral termination of this ILA during a challenging fiscal environment. Therefore, the 2023-24 Proposed Mid-Biennial Budget Adjustments includes legislation that amends the ILA and sets the inflation factor for 2024 at 3%, which creates a General Fund floor of \$118 million in 2024. This also aligns SPR's General Fund floor in 2024 with financial policies governing a similar floor in the Seattle Department of Transportation, which uses a 3% inflator. SPR's proposed budget for 2024 includes nearly \$120 million of General Fund, an increase of \$2.1 million above the 2023 Adopted Budget.

#### **Bolstering Public Safety and Public Health**

Comprehensive Public Safety continues to be the top priority for Mayor Harrell's Administration. The 2023-2024 Proposed Mid-Biennial Budget Adjustments establish the Community Assisted Response and Engagement (CARE) Department, formerly known as Community Safety and Communications Center (CSCC). The renamed and expanded CARE Department will improve public health and safety by unifying and aligning the City's community-focused, non-police public safety investments and services to address behavioral, substance abuse, and non-emergent, low-risk calls for service, crime victim support, and crime intervention through diversified programs that are equitable, innovative, evidence-based, compassionate, and effective. The 2024 proposed budget adjustments incorporate ongoing funds for the new Dual Dispatch pilot, launched at the end of 2023, consisting of teams of behavioral health professionals that respond to low acuity calls with a mental and behavioral health nexus. In addition, the proposed budget adjustments add planning resources for the department to consider how the City delivers community-focused services unrelated to the criminal justice system. The CARE Department's budget changes for Dual Dispatch are supported by planning reserves that were established in the 2024 Endorsed Budget for alternative response, as well as increased levels of E-911 revenues supporting existing call taker positions.

As the Dual Dispatch program is getting off the ground, the Seattle Police Department (SPD) continues efforts around the recruitment and retention plan, improved branding and marketing materials, and hiring bonuses for new and lateral officers. With record-low numbers of police officers in 2023, the City must use technological support to boost the effectiveness of public safety strategies. Mayor Harrell is reinvesting \$1.8 million of salary savings in the SPD into a new crime prevention pilot to implement automatic license plate readers, CCTV cameras, and acoustic gunshot locator systems to deter criminal behavior and hold offenders accountable. These technologies will be most successful when strategically integrated with SPD's Real Time Crime Center to triage and coordinate patrol/emergency responses to

crime events. These technologies will require an assessment to comply with the City's surveillance ordinance and approval by the City Council.

In 2012, the City of Seattle and the U.S. Department of Justice (DOJ) entered into a settlement agreement ("Consent Decree") that requires Seattle to implement reforms to ensure that police services are delivered to the people of Seattle that comply with the Constitution and laws of the United States. On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

The proposed budget adjustments include new positions in the three accountability departments. In the Office of Police Accountability (OPA) a Deputy Director position is added to provide internal staffing management and day-to-day investigative capacity, allowing the OPA Director to focus on high level investigation responsibilities and external relationships. A Deputy Director is also added to the Community Police Commission (CPC) to assist in managing the operations of the office, facilitate strategic planning, and ensure the ongoing structural integrity of CPC commission administration and operations. Three new positions are added to the Office of Inspector General for Public Safety for assuming the federal monitor's oversight and assessment related to the 2012 Consent Decree as well as a half-time Communication and Community Engagement Specialist to provide racial equity expertise in scoping work projects, as well as strategic engagement with community. Communication and Community Engagement Specialist to provide racial equity expertise in scoping work projects, as well as strategic engagement with community.

During the closure of the West Seattle Bridge in 2020, funding was added to support additional Seattle Fire Department operations in West Seattle on a temporary basis. To reduce reliance on use of overtime, this budget adds 24 FTEs to maintain the West Seattle operations and make these temporary services permanent at Fire Station 26 and 37.

In June 2023, the Mayor announced \$27 million investment in efforts to improve addiction treatment. The 2023-2024 Proposed Mid-Biennial Budget Adjustments program resources from the Opioid Settlement Proceed Fund, which is for the City's portion of settlement proceeds from the state's settlement agreements with opioid distributors and pharmacies. Funds will be used for several purposes, including drug user health and harm reduction services previously funded with one-time funds, to expand Health One's Overdose Response Team, and for post-overdose facility services.

In addition, as mentioned above, the 2023-2024 Proposed Mid-Biennial Budget Adjustments also provide for an additional year of funding for the Third Avenue Project, where We Deliver Care outreach workers establish relationships and earn the trust of individuals while offering care and treatment service to people suffering from substance use disorder and using drugs in public places along Third Avenue. Additional details about planned opioid investments and the extension of the Third Avenue Project can be found in the Human Services Department budget chapter.

## Investing in Workers

The largest new investments in this year's budget adjustments support the people doing some of the toughest work in Seattle. In total, the 2023-2024 Proposed Mid-Biennial Budget Adjustments provide new funding of over \$23 million to support human services workers and child care workers.

The City of Seattle is the only government entity in our state with a mandate in code ([Seattle Municipal Code \(SMC\) Section 3.20.060](#)) to provide inflationary increases at CPI-W (a government measure of local inflation) to human service provider contracts. In 2023, base contracts were inflated at 7.6% and for 2024, that amount is at 7.5% or over the 2023 Adopted Budget and is supported by the City's General Fund. This amounts to a \$15.7 million inflationary increase over 2023. However, the City is not the only funder of these providers and cannot support this workforce in isolation. In addition to the City's investment, a joint commitment from state, local, and federal governments is needed to ensure that those doing the hardest work can earn a living wage.

In 2023, the University of Washington completed a City-funded wage equity study and Council adopted Resolution 32094 concerning human services provider pay. In the resolution, the Council stated its intent to consider increases to HSD-administered contracts in addition to inflationary adjustments required under the SMC. In response to the study, the Mayor is proposing to add a 2% increase (\$4.2 million) to support increasing pay for human services providers, including those providing support and outreach to people experiencing homelessness. This amount is in addition to the 7.5% 2024 inflationary increase. Because DEEL and DON hold some human services contracts, their budgets include adjustments of approximately \$327,000 and \$12,000, respectively, to align with the HSD inflationary and provider pay increases.

The proposed budget also adds \$2.9 million to support one-time retention bonuses for child care workers. Since 2021, DEEL has invested more than \$8 million in child care workers to provide financial relief for them, which helps mitigate ongoing pandemic impacts to staffing within the industry. These investments help support a critical industry that is a stabilizing force for our City's economy. The funding for both the 2% additional human services wage increase and the child care worker retention bonuses comes from Payroll Expense Tax resources originally slated to help support General Fund operations in the 2024 Endorsed Budget.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments also includes investments in review for the City's Classification and Compensation system which has not been reviewed in over 30 years. Progress in this space will help support retention and attraction of employees, promote pay equity and compliance with pay equity laws, and follow industry best practices. In addition, reserves are maintained to support the outcome of ongoing negotiations for the City's labor contracts. The Mayor continues to express his urgent and good faith commitment to getting a deal done and raising wages for City workers.

## Furthering Economic Recovery

Mayor Harrell's budget increases investments in efforts to promote economic resiliency, activate our Downtown, and advance opportunity and equity for all. Investments in this budget sustain and enhance safe, healthy, and thriving communities by increasing funding to implement recommendations in the Future of Seattle Economy report and in supporting the Creative Economy, which was significantly impacted by the pandemic.

### Future of Seattle Economy Investments

In 2023 the Office of Economic Development (OED) finalized the Future of Seattle of Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The FSE framework, adopted by the City Council in [Resolution 32099](#), is intended to guide investments in the JumpStart Payroll Expense Tax Economic Revitalization spending category. The report focuses on five key pillars: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

The 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate \$11 million of the \$13 million Economic Revitalization Reserve, established in the 2023 Adopted Budget, in alignment with the FSE framework. These appropriations provide \$9.9 million in OED for new items that support commercial affordability, downtown and neighborhood economic recovery, and workforce development. In alignment with the FSE framework, the proposed budget adjustments add dedicated staffing in OED for Community Wealth Building, funded by the Jumpstart Payroll Expense Tax Economic Revitalization Reserve. This position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's Generational Wealth Initiative final report, presented to Council in September 2023.

Appropriations from the Economic Revitalization Reserve fund several items to support the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The Downtown Activation Plan's goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors aligns with the FSE framework. The proposed budget adjustments make Downtown Activation Plan investments in the Office of Economic Development, the Human Services Department, the Office of Planning and Community Development, and the Seattle Department of Transportation. Downtown Activation Plan investments include: public space activations, supports for small, women and minority owned business, extension of the Third Avenue Project in partnership with We Deliver Care, transformation of the Special Events Office, and right-of-way management. The proposed budget adjustments also provide resources for continued community engagement related to the Downtown Activation Plan, and resources for the development of long-term, transformational program and policy ideas focused on Downtown.

The budget also includes two Downtown Activation Plan investments funded by the Admissions Tax and included in the Office of Arts and Culture budget. These investments are focused on activation of King Street Station and the downtown core as well as extending the Hope Corps grant program with a focus on the downtown.

### Support Increased Events at Seattle Center

Due to pandemic related revenue reductions, the 2023 Adopted Budget unfunded 6.75 FTE event related positions with the intention that as events and their associated revenues returned to the campus, the positions would again be necessary to support events and events revenues would be used to refund the positions.

Seattle Center is projecting increased revenues as event activity recovers and as a result this budget includes refunding some positions. The 2023-2024 Proposed Mid-Biennial Budget Adjustments refund two laborer positions and adds a new Event Service Representative position to support an increased level of events at Seattle Center. The budget also includes the elimination of Stage Tech Lead position because the types of events that are returning to campus require more direct cline support and less stage lead work.

### Arts and Culture Investments

Due to higher projected Admissions Tax revenues, this budget makes key structural and short-term investments to strengthen Seattle's Creative Economy. These investments include \$1 million in one-time funding for Office of Arts & Culture (ARTS) to partner with the Office of Economic Development (OED) on activation of King Street Station and the Downtown Core. The budget also includes \$1 million in one-time funding to extend Hope Corps with a focus on downtown activations. Hope Corps is a grant program designed to connect under- and unemployed workers in creative industries with career opportunities. ARTS estimates that this budget will support 50-70 creative projects in 2024. The proposed adjustments also include increases to the ARTS' grant programs. The budget adds an ongoing inflationary adjustment of \$257,000 and adds \$650,000 in one-time funding for grant programs to support arts and cultural institutions that have not yet fully recovered from pandemic-caused economic pressures and who are facing the loss of federal funding. Additional details on all the Admissions Tax increases included in the budget can be found in the Office of Arts and Culture budget book section.

### **Real Estate Excise Tax**

Real Estate Excise Tax (REET) is an excise tax imposed on the sale of real property and those revenues fund a portion of the capital investments in the City's Capital Improvement Program (CIP).

Projected REET revenue available for the 2024-2029 Proposed CIP reflects the ongoing impact that elevated interest rates are having on the local real estate market. Actual REET revenue collections in 2022 were lower than forecasted by approximately \$3 million and forecasted REET for 2023 are projected to be \$17.4 million below the 2023 Adopted CIP. For the 2024-2029 Proposed CIP, revenues are projected to be approximately \$61 million lower than 2023-2028 Adopted CIP estimates over the 6-year window. To balance the decreased forecast capital departments were asked to reduce expenditures and reallocate expenditures to later years in the CIP.

The City’s REET policy (Resolution [32075](#)) requires a \$10 million REET fund balance reserve to protect against unexpected downturn in REET revenue collection and forecast. The REET funds continue to maintain the reserve levels established in the policy but could potentially dip into those reserves if the forecast continues to decline in the near term. Additional details on the uses of REET can be found in the Capital Improvement Plan (CIP) overview and in department CIP chapters.

## **Reserves**

The City maintains two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures: the Emergency Fund (EMF) and the Revenue Stabilization Fund (RSF). The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. During the COVID-19 pandemic and related economic downturn, the City withdrew \$33 million from the EMF over two years, reducing the reserve balance to \$33.7 million at the end of 2021. The 2022 Adopted Budget initiated the five-year rebuilding cycle by contributing \$10 million to the EMF. The 2023 Adopted and 2024 Endorsed Budget included a contribution of \$6.5 million in each year to the EMF, and anticipated contributions of \$15 million in both 2025 and 2026 to rebuild the fund to a projected target balance of \$87 million within the prescribed five-year timespan. The 2023 Year End Supplemental Budget Ordinance and the 2023-2024 Proposed Mid-Biennial Budget Adjustments increase the contributions to EMF by \$8.5 million in each year, reducing the reliance on outyear contributions to refill the reserve and reducing the projected General Fund deficit by \$17 million over the 2025-2026 biennium.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$54.7 million from the RSF, reducing the reserve balance to \$6.0 million at the end of 2021. The RSF, or “Rainy Day Fund,” was recently replenished in 2022 via the 2021 year-end fund balance in the General Fund. The 2023 Adopted and 2024 Endorsed budgets build on this reserve with the maximum contributions under current policy of \$3.6 million in 2023 and \$1.7 million in 2024, to reach an ending fund balance of \$67 million. The 2023-2024 Proposed Mid-Biennial Budget Adjustments add \$2.3 million, to reach an ending fund balance of \$67.6 million. The total amount of reserves in the proposed budget at the end of 2024 is \$141.2 million.

## **City Utilities**

The 2023-2024 Proposed Mid-Biennial Budget Adjustments for both Seattle City Light (SCL) and Seattle Public Utilities (SPU) continue to build on each utility’s six-year Strategic Business Plan. In the provision of essential services to utility customers, each utility maintains a strong commitment to its financial health, affordability, and efficiency in service delivery while meeting all regulatory requirements. SCL’s \$1.5 billion budget makes only minor, primarily technical adjustments to the 2024 Endorsed levels. SPU’s \$1.6 billion budget makes technical adjustments across the three primary funds and includes additional investments in the Trees for Neighborhoods program and Duwamish Valley resilience work.

## **City of Seattle Race and Social Justice Initiative**

Significant evidence shows that the opportunities a Seattle resident can access, and the quality of life they experience, are both directly related to their race and where they live. People of color and other under-represented groups in the City of Seattle’s workforce face similar issues. To address racial inequities, in 2004 Seattle became the first city in the U.S. to establish a program, the Race and Social Justice Initiative (RSJI), to explicitly eliminate institutional racism. Institutional racism exists when an organization’s programs, policies, and spending work to the benefit of white people and to the detriment of people of color, sometimes unintentionally.

The Office for Civil Rights leads the RSJI in the City and provides support for departments and staff. As part of RSJI, the City uses a Racial Equity Toolkit to guide policy, program, and budget decision-making toward options that actively support positive racial equity outcomes. The City also uses a racial equity lens to develop a workforce that is inclusive of people of color and other marginalized or underrepresented groups at all levels of City employment.

Additionally, each City department has a “Change Team” to support internal transformation. The team – consisting of a group of employees who champion RSJI activities and strengthen a department’s capacity to get more employees involved – facilitates and participates in discussions on race, racism, and strategies to overcome institutional barriers to racial and social equity.

Through CBO’s Change Team, a new tool was created to help City staff identify the extent to which a department’s budgeting process and efforts are equitable and reflective of RSJI principles. The City’s 2023-2024 Proposed Mid-Biennial Budget Adjustments includes a process for City departments to evaluate how they incorporate RSJI in their historic budget development and set a goal for their RSJI efforts based on their assessment using this tool.

## Expenditure Summary Charts and Tables

# Expenditure Summary Charts and Tables

	2022 Actuals		2023 Adopted Budget		2024 Endorsed Budget		2024 Proposed Budget

\*\*General Fund (GF) transfers are reported in Finance General (Administration) to align with actual appropriations as well as totals in the General Fund Financial Plan (00100); this includes transfers to the Office of Labor Standards, Firefighter's Pension, Police Pension, Seattle Public Library, Seattle Information Technology Department, and Finance & Administrative Services.

## General Fund Revenue Overview

### National Economic Conditions and Outlook

In November of last year, at the time the City Council adopted, and the Mayor signed, the 2023-2024 Biennial Budget, the national economic outlook was deteriorating. The U.S. economy had shown significant resiliency, but a dramatic shift in monetary policy was underway and the expectation was that this pivot would put the brakes on the post-pandemic recovery. Job growth had been strong over the first half of 2022, and employment levels had finally reached and just surpassed pre-pandemic levels. The fiscal stimulus provided by the federal government, in combination with the Federal Reserve's initial policy response of easing monetary policy and reducing interest rates, had succeeded in restoring the economy.

However, there was an emerging recognition, or at least concern, that the stimulus had perhaps been too effective, and that the economy had become "overheated", with excess demand driving up prices and fueling wage escalation in the markets still under pressure from supply chain issues and high commodity and energy prices. While down from its June peak of 9.1%, inflation was still running an annual rate of 7.7%. In an effort to bring this price escalation under control quickly, the Federal Reserve had increased interest rates by 3% since June, and an additional 0.5% increase was anticipated in December. The expectation was this aggressive increase in interest rates would induce a brief, but mild, recession during the latter part of 2023 and early 2024. Increasing interest rates would soften demand for major capital purchases and cool private investment that was dependent on access to relatively low-cost capital. In turn, these changes would slow job creation and cool the rapid rate of wage growth, which itself had become a driver of inflation. In particular, the baseline scenario national forecast from S&P Global, incorporated into the City's revenue predictions, anticipated that GDP would decline by 0.5% through the first half of 2023 and that total employment would decline by approximately 2% over this same period. Growth was expected to return in the second half of 2023, but at only modest levels for the near-term. For 2024, GDP was projected to increase by just 1.3%.

These projections proved overly pessimistic, and through the first three quarters of 2023 the national economy has demonstrated tremendous resiliency. Even as interest rates rose, employment continued to expand, with the U.S. economy adding an average of more than 250,000 job per month through June of this year. Job growth has slowed somewhat in the past few months, but this is consistent with the overall goal of cooling the economy, while maintaining some level of growth. The chart below illustrates the recent pattern of job growth at the national level.

At the same time, inflation measured at the national level has dropped dramatically, reaching an annual rate of just 3.7% in August of this year. “Core inflation”, which excludes price changes in the more volatile areas of food and energy, is running somewhat higher at 4.3%, but has also fallen significantly over the course of the year.

The unexpected strength of the national economy in 2023 has avoided the recession predicted last fall, but looking forward, the expectation is that the Fed’s restrictive monetary policy will remain in place through the first half of next year, slowing overall economic growth at the same time that it continues to help control inflation. Thus, at this stage, it appears that the Federal Reserve is succeeding in its goal of managing the economy toward a “soft landing”. In particular, inflation is being brought under control without a decrease in GDP or an increase in unemployment. Current national projections for the remainder of this year and 2024 are consistent with that expectation. Growth will continue, but at a modest rate, with GDP expected to grow by 1.5%, when measured in inflation-adjusted terms.

### Seattle Metropolitan Area Economic Conditions and Outlook

Overall, the Seattle regional economy has tracked the performance seen at the national level. Employment growth has remained relatively strong and regional measures of inflation have fallen significantly over the past 12 months. However, as described below, there are at least two significant factors that have specifically affected the region’s recent economic performance. First, the past year has seen a rather dramatic reversal in the technology sector, which has been a key driver of the region’s post-pandemic recovery. There was early evidence of this correction last fall, as announcements of layoffs were accompanied by declining stock prices and in the following months hiring slowdowns and layoffs became common even among the region’s largest technology employers. While not unique to Seattle, the technology sector has a disproportionate impact on the Seattle region, relative to the nation as a whole. In addition, the slow rates of “return to the office” have meant that overall economic activity in Seattle’s downtown core has been relatively slow to recover. Comparable patterns have been seen across the nation, but Seattle workers have lagged the overall national trends on returning to traditional work locations.

**Labor Market.** Relative to the economic forecast that underlies the revenue forecasts developed last fall, the regional labor market has outperformed expectations in terms of overall employment. In November of last year, the Office of Economic and Revenue Forecasts (Forecast Office) projected that the regional unemployment rate would average 3.6% in 2023. The most recent forecast, prepared in August, projects that figure to be just 3.0% for 2023. The projections for next year reflect a comparable pattern of improvement. The forecasts from last fall anticipated average regional unemployment would run at 4.2% for 2024. The August revisions now put that estimate at just 3.1%. Rising interest rates have cooled some aspects of the local economy, but have not led to overall job losses. That said, recent hiring patterns have differed significantly by sector. The chart below highlights job changes by sector since January of this year.

Overall, regional job growth has been relatively slow this year. The net addition of 11,000 jobs from January through August represents an increase of just 0.6%, and the growth has been very uneven across sectors. While there has been net job creation in seven of ten sectors, the notable reductions in the Information, Professional & Business Services, and Construction sectors highlight the impacts of the technology sector slowdown and the wider implications of “work from home”. The rapid growth of highly paid technology jobs added significant spending power to the local economy in 2021 and 2022 as the local economy recovered quickly from the pandemic, but clearly that is no longer a driving force of local economic growth. In addition, rapidly falling demand for commercial office space will slow commercial construction activity, and the City has already seen a reduction in issued building permits.

**Inflation.** Driven in a significant part by strong income growth and the rapidly increasing cost of housing, the regional rate of inflation has been outpacing the national level for much of the post-pandemic period. As of last October, regional inflation was running at annual rate of 8.9%, compared to the national level of 7.7%. The regional forecast developed at that time anticipated that regional price escalation would track with national trends and cool over the last quarter of 2022 and throughout 2023. That forecast was generally accurate, and in fact prices have cooled more rapidly than anticipated. At the time the budget was adopted, the regional forecast projected that inflation would run at 6.3% over

2023, and then fall to 3.4% in 2024. The most recent modeling from the Forecast Office anticipates the annual rate for 2023 will be just 5.7%, and that in 2024 inflation will further cool to 3.1%. A softening in the local residential rental market has been a key factor in these declines, as housing represents about one third of the overall expenditures accounted for in the consumer price index used to measure inflation.

**Regional Outlook.** Following a stronger than expected performance to date in 2023, the outlook for 2024 anticipates the same general level of subdued growth that had been projected last fall. Like the nation, the regional economy is now expected to avoid a recession, and while unemployment is expected to trend up modestly as hiring slows, there is no expectation of net job losses. That said, the cooling technology sector and the slowing demand for new construction were not fully anticipated last fall, and these factors as well as general national trends have shifted the longer-term outlook toward slower growth. For example, last fall, the Forecast Office’s regional model anticipated that regional personal income would grow at an average annual rate of about 4% from 2024 through 2028. The most recent forecast projects average income growth closer to 3% over this same period. This pattern of slower growth marks a distinct shift from pre-pandemic trends when the local economy experienced an extended period of robust expansion, driven by strong growth in the technology sector and sustained construction activity in both the commercial and residential sectors. The sections that follow highlight how revenue forecasts have changed since last fall and how evolving economic conditions have changed those forecasts over the course of this year.

## City Revenue

The following sections describe forecasts for revenue sources supporting the City’s primary operating fund, the General Fund, its primary capital funds – the REET 1 and REET 2 Capital Funds, and six select other funds – the Arts and Culture Fund, Seattle Park District Fund, Sweetened Beverage Tax Fund, the Short-Term Rental Tax Fund, the Transportation Fund, and the JumpStart Payroll Expense Tax Fund.

### General Fund Revenue Forecast

Based on the stronger than expected 2023 performance of the regional economy, overall General Fund revenues are projected to increase relative to 2023 Adopted and 2024 Endorsed budget expectations approved in November 2022. As the General Fund revenue table below indicates, the 2023-2024 Proposed Mid-Biennial Budget Adjustments assume approximately \$76.2 million additional revenues over the 2023 Adopted and a smaller \$47.6 million over the 2024 Endorsed budgets. The smaller growth increment in 2024, though due to many factors, signals the trend revealed in the regional forecast for slower growth in the major, economically driven taxes heading into 2024-2028. The 2024 increase includes proposed policy changes added to the forecast since the August General Fund forecast was approved by the City’s Forecast Council on August 10, 2023. These changes include a total reduction to the JumpStart Payroll Expense Tax Fund transfer to the General Fund of \$6.5 million and increases to several fee revenues that total \$3.4 million.

**Property Tax.** Property taxes paid in the current year are based on valuations as of January 1 of the previous year. The revenue forecasts and projected tax rates for 2024 are based on January 1, 2023 valuations. Over the course of this year, the King County assessor has been conducting the research and appraisals needed to retroactively determine those valuations. Overall, real estate valuations have been in decline. The combination of high interest rates, uncertainty about the long-term demand for office space, and cooling residential demand have all contributed to this decline. The impacts of these factors are expected to be reflected in the assessed values that will underlie 2024 tax collections. However, due to the structure of state property tax laws, these changes in the assessed value of existing values will not have a negative impact on City property tax revenues. The cooling residential market has also reduced the forecasts of the value of new construction, which do have some impact on property tax revenues. However, these forecast changes have been small in magnitude, in part because the cost of new construction has been escalating due to inflation, even as the volume of projected demand has been declining. The Proposed Budget Adjustments show an increase of \$1.2 million in 2023 over the adopted budget due to changes in technical assumptions. There is no significant change in 2024 despite the slowing real estate market for the reasons laid out above.

**Medic 1/Emergency Medical Services.** This county-wide property tax is levied by King County. The City of Seattle receives a distribution of the proceeds equal to the county-wide tax rate multiplied by the City's assessed value (AV). The county-wide tax rate is based on the annual Medic 1/EMS levy amount divided by total King County AV. Thus, the tax rate will increase or decrease respectively when King County AV shrinks or grows faster than the rate of growth of the levy amount. The City's share will, in turn, grow or shrink with the tax rate and whether City AV growth is sufficient to outpace any changes resulting from King County AV changes. The Proposed Budget Adjustments include a decrease of \$2.4 million for 2023 and \$1.6 million for 2024, due to the effect of King County AV growth and decline on the tax rate relative to the growth and decline in City AV in 2023 and 2024.

**Retail Sales and Use Tax.** Consistent with the overperformance of the regional economy relative to the forecasts developed last fall, the revised estimates for sales tax have been upgraded for 2023 and 2024. An additional \$11.5 million is anticipated for 2023, and an additional \$8.4 million for 2024. While arguably significant in absolute dollar terms, they represent forecast revisions of just 3.5% and 2.5%, respectively. In addition, the new estimates anticipate that retail sales tax will grow just 1.1% between 2023 and 2024, compared to the 2.1% growth projected last fall. Thus, the increased dollar amount for 2024 is driven mainly by the increased base attributable to the stronger than expected 2023 results. The slower rate growth for 2024 is consistent with the observations above about slower long-term growth in the regional economy.

**Business and Occupation (B&O) Tax.** The forecasts for 2023 and 2024 B&O Tax revenues have also both increased relative to the amounts projected in November of last year. Anticipated revenues are up \$18.8 million for 2023, and \$23.3 million for 2024. These changes represent increases of 5.6% and 6.8%, respectively, relative to the 2023 Adopted and 2024 Endorsed budgets. Again, the region's stronger than anticipated economic performance this year is expected to increase the B&O tax base for 2023, and this higher base will compound to increase 2024 revenues as well. While retail sales and B&O tax tend to move together, the taxes do not apply to exactly the same types of economic activity, so it is not surprising that the B&O revenues have shown stronger relative performance. For example, the slowing construction sector has created a larger drag on sales tax growth than it has on B&O growth.

**Utility Business Tax – Private Utilities.** This revenue category includes taxes on cable television, telephone service, natural gas, and the central steam heat services provided in the downtown core.

Relative to last fall, revenue forecasts for this category have been increased by \$1.6 million in 2023, and a modest \$254,000 in 2024. The increase for 2023 is driven by three factors: a shift in timing of payments that had been expected in 2022, a colder than expected winter in early 2023, and a slower than anticipated decline in the demand for telephone and cable service, which have been on a long-term downward trend.

**Utility Business Tax – Public Utilities.** The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility. Compared to the 2023 Adopted and 2024 Endorsed Budgets, electric tax revenues are up nearly \$3 million in each year due to a colder than expected winter. There are also anticipated increases in revenues from solid waste of \$2.6 million and \$1.5 million in 2023 and 2024, respectively. Sewer tax revenues are expected to decrease by about \$2 million in each year, driven by a downward revision in the County’s projections. On net, the Proposed Budget Adjustments assumes an increase in Public Utilities revenues over the 2023 Adopted and 2024 Endorsed Budgets of \$3.5 million and \$1.8 million, respectively.

**Transportation Network Company Tax.** In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. As approved, the tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC’s with more than 1 million rides per calendar quarter. Council reduced the ride threshold to 200,000 rides per quarter effective October 2020, and then the tax rate to \$0.42 per trip effective January 1, 2023. At the start of the COVID-19 pandemic, the demand for rides and the number of drivers fell, significantly reducing TNC tax revenue. The recovery of both demand and supply has been anemic. The Proposed Budget Adjustments assume \$5.3 million in 2023 and \$5.5 million in 2024, a decrease of \$0.5 million and \$1.2 million from the 2023 Adopted and 2024 Endorsed, respectively.

**Parking Meters.** Revenue from on-street parking meters is forecast to be \$33.1 million in 2023 and \$42.3 million in 2024, a year-over-year increase of \$9.1 million or 27.5%. The 2024 forecast represents an additional \$8.0 million (23.4%) relative to the 2023 Adopted total and an increase of \$2.2 million (5.4%) from the 2024 Endorsed forecast. The year-over-year increase is due mostly to rate changes that the Seattle Department of Transportation implements on a quarterly basis with rates determined by its Performance-Based Parking Program model which sets rates in order to achieve 1-2 open spaces per blockface. In recent years, these rate changes have resulted in many more increases than decreases due to the reset of rates to \$0.50 in all areas in 2020 in response to the COVID-19 pandemic. With the rate changes that took effect in July of 2023, average parking rates have now surpassed pre-pandemic levels for the first time since the reset. Variations in the forecast over time are often due to shifting demand for parking across the city. In recent cycles, neighborhood parking areas have tended to see increasing demand relative to downtown, a trend that has weakened but persisted since the height of the pandemic. In addition to rate changes, the Proposed Budget Adjustments include revenue of \$2.4 million in 2024 for the proposed policy change to increase the minimum and maximum city parking rates. For additional details on planned expenditures of this projected revenue increase, see the Seattle Department of Transportation section of the budget.

**Court Fines.** The City imposes and collects fines and related fees on various citations, primarily on-street parking and camera enforced red light violations. Relative to the 2023 Adopted and 2024 Endorsed budgets the Proposed Budget Adjustments assume \$1.3 million additional revenue in 2023 and a decrease of \$6.2 million in 2024. The increase in 2023 is likely a one-time bump as it is largely due to the City reinstating referrals to collection of a backlog of citations created when the City suspended referrals

during the COVID-19 pandemic. Through notifications, some people paid prior to referral to collections to avoid penalties and interest charges being added to the fine amount. Fine revenues are reduced in 2024 relative to the 2024 Endorsed forecast due to a downward revision in the citation volumes.

**Grant Revenues.** Federal, State and local grant revenues can change significantly with the passage of time as departments learn of new grant opportunities and applications are successful. Importantly, grant revenues are by their nature and purpose matched dollar-for-dollar with expenditures across the life of the grant. As such, grants are not providing additional discretionary revenues for allocation through the budget process. The Proposed Budget Adjustments contain an additional \$34.2 million of grant revenues in 2023 relative to the 2023 adopted budget, with roughly half coming in the form of direct federal grants. An additional \$7.0 million is expected in 2024.

**Fund Balance Transfers.** Changes in fund balance transfer amounts from the 2023 Adopted and 2024 Endorsed budget are predominantly due to changes in transfer amounts from the JumpStart Payroll Expense Tax Fund. By policy, transfers will increase or decrease in 2023 as General Fund revenues decrease or increase plus an amount for administrative support that will remain in future years. The transfer amount in the Proposed Budget Adjustments for 2023 is reduced approximately \$34.0 million from the 2023 Adopted amount – a year-end supplemental is proposed to reduce the transfer amount further by approximately \$4.7 million – and \$6.5 million for 2024 from the 2024 Endorsed amount. For further explanation of the transfer and uses of the payroll expense tax, please see the Budget Overview section of this budget book.

**Service Charges and Reimbursements.** Total revenues in this category are increasing a net \$2.4 million and \$1.2 million in 2023 and 2024 respectively relative to 2023 Adopted and 2024 Endorsed budget assumptions. While cost allocation revenues (recovery of costs for services within city government) in the General Fund are increasing, as are legal and personnel services revenues, in 2023 and 2024 due to general cost increases for provision of services, revenues from public safety enforcement services are projected to decline due to reduced expectations for and changes in provision of reimbursable services.

**Licenses and Permits.** The City requires all businesses operating in Seattle to have a business license, and the cost of these licenses operates on a sliding scale that increases with the business' revenues. The current revenue forecasts show an apparent increase of \$4 million in anticipated revenues in 2023, and \$1 million in 2024. However, a significant share of the 2023 increment represents a shift in the timing of payments, rather than a net increase in revenues. The City did not process many of the payments made in December of 2022 until early 2023, which distorts the 2023 totals. That said, the local economic recovery and increasing business revenues have helped drive overall business license revenue above last November's forecast. The \$1 million increment for 2024 reflects this net increase.

**Interest Income.** The City receives interest earnings on its cash holdings. Elevated cash balances and higher earnings rates have led to increases of \$12.7 and \$12.1 million for 2023 and 2024, respectively, relative to the 2023 Adopted and 2024 Endorsed Budgets. As the Federal Reserve has increased the Federal Funds Rate, the yields on Treasuries and other investments available to the City in accordance with State law have also increased. Overall earnings rate on the City's cash pool are projected to increase by approximately 50 basis points between the 2023 Adopted and 2024 Endorsed budget and the Proposed Budget Adjustments.

## **Non-General Fund Revenues of Note**

In addition to forecasts of General Fund revenues, the Forecast Office and the City Budget Office track and forecast various other revenues that are accounted for in separate funds and that support general government purposes.

### **REET 1 and REET 2 Capital Funds – Real Estate Excise Tax (REET).**

REET revenues are generated by a combined 0.5% tax on all real estate transactions. The sharp increase in interest rates, which has been induced by the Federal Reserve’s monetary tightening, has significantly increased the cost of borrowing and negatively impacted the volume of both residential and commercial real estate transactions. In addition, the shift toward “work from home” has created a great deal of uncertainty about the value of commercial office space. This uncertainty has further dampened the sales of large office properties, which had previously represented a notable share of REET revenues. These dynamics were emerging last fall, but since then the total volume of real estate activity has fallen dramatically. As a result, REET forecasts for both 2023 and 2024 have been significantly reduced. The forecast for 2023 has been reduced by \$17.4 million, from \$68.1 million to \$50.7 million. For 2024, the forecast has been reduced by \$14.7 million, from \$68.6 million to \$53.9 million.

### **Arts and Culture Fund - Admission Tax.**

Relative to the forecast from last November, anticipated admission tax revenues have increased by \$1.2 million per year for both 2023 and 2024. This adjustment reflects an overall increase in the demand for entertainment activities, attributable to both local residents and tourists. This increases the total projected revenues for 2023 and 2024 to \$22.6 million and \$23.4 million, respectively.

### **Seattle Park District Fund – Property Tax Levy.**

In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City’s General Fund. The MPD is levying \$118.4 million in 2023 and \$122.5 million in 2024, which have not changed from the 2023-24 Adopted Budget as the amounts are in accordance with the MPD’s spending plan.

**Sweetened Beverage Tax Fund.** The Sweetened Beverage Tax is a tax of 1.75 cents per ounce of sweetened beverages or the equivalent for condensed syrups distributed into the City of Seattle. Consumption patterns and volumes changed during the COVID-19 restrictions reducing revenues. Although not completely returned to pre-COVID consumption, consumption levels have grown and revenues from the tax have been increasing. The Proposed Budget Adjustments anticipate increases of approximately \$500,000 in 2023 to \$20.9 million and \$550,000 in 2024 to \$21.2 million.

### **Short-Term Rental Tax Fund.**

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). Beginning in 2020 these revenues and associated expenditures were moved from the General Fund to the Short-Term Rental Tax Fund in the City’s accounting system. These revenues were severely affected by the reduction in travel due to COVID-19 concerns in 2020 and 2021 but are now on track to surpass 2019 levels as a result of tourism that has rebounded and remained robust. The Proposed Budget Adjustments anticipate \$10.9

million in 2023 and \$11.8 million in 2024 - \$1.4 million and \$1.7 million over the 2023 Adopted and 2024 Endorsed, respectively.

**Transportation Fund - Commercial Parking Tax.**

Commercial parking tax revenues continue a steady recovery from the effects of the COVID-19 pandemic, buoyed by a rate increase of 2 percentage points from 12.5% to 14.5%, effective July 2022. Given that the economy has been stronger than expected at the end of 2022 – particularly the leisure and hospitality sector – the Proposed Budget Adjustments anticipate \$48.4 million in 2023 and \$50.2 million in 2024, an increase of \$3.3 million and \$3.2 million over the Adopted and Endorsed, respectively.

**JumpStart Payroll Expense Tax Fund.**

As of 2023, the City's Payroll Expense tax applies to employee compensation of more than \$174,000 per individual at businesses with a total Seattle-based payroll of more than \$8.1 million. Specific tax rates vary with the level of individual employee's compensation and each company's total Seattle payroll. The City has a very limited history with both forecasting and collecting the resulting tax obligations. The tax was first imposed in 2021, with the first payments not made until January of 2022. Total 2021 tax obligations were approximately \$293 million, but fell to \$253 million in 2022. The majority of the revenues from this tax are generated from relatively few firms, most of which are concentrated in the technology sector. Thus, the reduction in revenue experienced between 2021 and 2022 is directly associated with the overall slowdown in this sector, and particularly in falling stock values, because stock grants represent a notable share of total compensation for many technology workers. At the time that the 2023 and 2024 revenue forecasts were developed last fall, the 2022 revenue results were not yet known. Although some reduction in revenues relative to 2021 was anticipated, actual 2022 collections were significantly lower than expected. When these results were incorporated into revised forecasts for 2023 and 2024 the overall impact was a reduction in anticipated revenues. Relative to the adopted 2023 forecast of \$294 million, the revised figure has been reduced by \$19.5 million to \$274.6 million. Concurrently, the forecast for 2024 has been reduced by \$21.6 million, from \$311.5 million to 289.9 million.

## Multi-Department Revenue Summary

### JumpStart Payroll Expense Tax

The 2023-2024 Proposed Mid-Biennial Budget Adjustments include \$301 million in appropriation backed by JumpStart Payroll Expense Tax (payroll tax) revenues.

The 2024 Endorsed Budget included an \$84.1 million transfer from the JumpStart Payroll Expense Tax Fund (payroll tax fund) to the City's General Fund to support general operating expenses. 2024 payroll tax revenues were forecasted to be \$311.5 million at the time the budget was passed. However, the 2024 payroll tax revenues are now forecasted to be \$289.9 million. To balance the fund, the proposed budget updates reduce the payroll tax revenue stabilization reserve by \$10 million, reduces the transfer to the General Fund for general operating expenditures by \$10 million, reduces Housing and Services by \$3.7 million and does not allocate \$2 million of the \$13 million economic revitalization reserve that was set up for new programs in 2024.

The amount remaining after the General Fund transfers described above is allocated, with two exceptions, according to the spending plan outlined in Section 5.38.055 of the Seattle Municipal Code (SMC), and amended in Ordinance 126719, which provides temporary flexibility to spend payroll tax proceeds on items deemed by the City Council to not be in alignment with Section 5.38.055 of the SMC.

The proposed budget updates includes legislation amending the Use of Funds Flexibility ordinance to add three items to the list of "exceptions" – items that are permitted to use payroll tax for this limited time but do not ordinarily clearly fall under a permitted category.

One of the permitted uses of payroll tax proceeds is for support to human service providers in the 2024 proposed budget which is being paid for by reducing the General Fund transfer that supports general operating expenses in the General Fund. The payroll tax proceeds available after General Fund transfer totals \$214 million in 2024.

This includes:

**Temporary Flexibility, including Human Services Provider Pay:** \$11.2 million authorized on a one-time basis in 2024 to support four existing specific investments in the endorsed budget (\$2.8 million) and three proposed new investments that would not otherwise be deemed eligible by current law as payroll tax expenditures. The existing items include a transfer to the Sweetened Beverage Tax Fund to offset decreasing revenues, funding for the Department of Education and Early Learning to support mental health services in schools, funding for the Seattle Department of Construction and Inspections (SDCI) for eviction legal defense, and funding for the Office of Planning and Community Development to support outreach and planning related to Sound Transit 3. The proposed new items include one-time startup costs for the Social Housing Public Development Authority in Finance and Administrative Services, a position in SDCI to support the process for Economic Displacement Relocation Assistance, and Human Services Provider Pay.

Human Services Provider Pay includes \$7.4 million in payroll tax-backed investments in organizations contracted by the City to provide human services, child health and development services, and support and outreach to people experiencing homelessness. These investments include childcare worker support in the Department of Education and Early Learning (DEEL) and investments in pay increases for employees at organizations that provide human services in partnership with the department of Human Services (HSD), DEEL, and the Department of Neighborhoods. The City Council added \$600,000 to HSD's 2022 Adopted Budget for a wage equity study. In 2023, the University of Washington completed the wage equity study and City Council passed Resolution 32094 concerning wage equity for non-profit human services workers. In the resolution Council stated their intent to consider wage equity increases to HSD administered contracts in addition to inflationary adjustments required under Seattle Municipal Code (SMC) Section 3.20.060.

**Housing and Services:** \$136.5 million in payroll tax-backed investments in affordable housing for low-income households. This funding will support the Office of Housing's work to develop, acquire, preserve, and operate affordable housing and foster affordable homeownership opportunities. In 2024, the funding also supports the Human Services Department's need to relocate Rosie's Village, which is a pre-development cost related to the beginning of work on an affordable housing project on the site. The 2024 Endorsed Budget included \$140.3 million of payroll tax for Housing and Services. In 2024, the budget updates reduce \$4 million from the category in response to the revised revenue projections, this reduction is offset by additional revenue for affordable housing from the 2023 Seattle Housing Levy, pending approval by the voters in November 2023.

**Economic Revitalization:** \$31.6 million in payroll tax-backed investments are spread across ten City departments to support a wide range of economic development and affordability programs. In 2023, the Office of Economic Development (OED) finalized the Future of the Seattle Economy (FSE) report, which provides a community-informed investment framework for the City to promote inclusive economic growth. City Council passed a resolution in support of this report, Resolution 32099. The proposed budget updates allocate the \$31.6 million of economic revitalization investments in alignment with the FSE report. The proposed budget updates maintain the commitments in the economic revitalization category that were appropriated in the 2024 Endorsed Budget. Of the \$13 million total Economic Revitalization Reserve, OED will use \$9.9 million for new items that support commercial affordability, downtown and neighborhood economic recovery, and workforce development. The budget updates also include funding for a position in the Office of Planning and Community Development for work related to the Downtown Activation Plan. The proposed budget updates include a one-time \$1 million investment in Seattle Department of Transportation for the management of the right-of-way to foster community building, placemaking, and economic vitality in Downtown as part of the Downtown Activation Plan. It also includes a one-time \$300,000 investment in the Department of Neighborhoods for Chinatown-International District community capacity building.

**Green New Deal:** The proposed budget updates only make technical changes to the 2024 Endorsed Budget for the Green New Deal category. The 2024 Endorsed Budget includes \$20.1 million spread across three City departments for Green New Deal programs and initiatives. Of

this amount, over \$16 million will go to the Office of Sustainability and Environment to support a range of investments in green economy workforce development, building performance and emissions standards, electric vehicles, and environmental justice. Other major investments include nearly \$2 million to the Office of Housing to support residential oil-to-electric heating conversions.

**Equitable Development Initiative:** The proposed budget updates make no changes to the 2024 Endorsed Budget for the Equitable Development Initiative category. The proposed budget updates provide \$20.5 million to support the Equitable Development Initiative (EDI) in the Office of Planning and Community Development. EDI invests in neighborhoods most impacted by displacement and low access to economic opportunities and aims to expand opportunity, prevent displacement, and build on local cultural assets. The proposed budget updates provide a total of \$25.2 million for EDI grants, including contributions coming from the JumpStart Payroll Expense Tax, Short-Term Rental Tax, and Community Development Block Grant.

**Administration and Evaluation:** \$7.1 million to support the administration of the payroll tax and evaluation of the programs funded by its proceeds. This amount includes two transfers from the JumpStart Payroll Expense Tax Fund to the General Fund. One of these transfers is \$2.6 million to cover costs not yet quantified through a formal central rate allocation formula, a \$400,000 reduction from the endorsed budget. The other transfer is \$4.3 million to cover specific administrative and evaluation expenses identified in the City Budget Office, Department of Neighborhoods, Office of Economic Development, Office of Sustainability and Environment, Department of Finance and Administrative Services, Seattle Department of Human Resources, and Legislative Department.

Department	Payroll Expense Tax Category	2024 Allocations (\$)
City Budget Office	Economic Revitalization	177,844

### **Sweetened Beverage Tax**

The proposed budget maintains Sweetened Beverage Tax (SBT) expenditures and programming at the original 2024 Endorsed Budget levels of \$22.4 million. This budget supports ongoing funding for programs such as Fresh Bucks and Healthy Food in Schools at the Office of Sustainability and Environment (OSE), the Childcare Assistance Program (CCAP) at the Department of Education and Early Learning (DEEL), food system support at the Human Services Department (HSD), and Summer of Safety and Food and Fitness programming at Seattle Parks and Recreation (SPR).

### **Short-Term Rental Tax**

The Short-Term Rental Tax (STRT) supports the Equitable Development Initiative (EDI), permanent supportive housing and related debt service. The EDI was established in 2016 to provide investments in neighborhoods that support those most impacted by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets. Ordinance 125872 allocates the first \$5 million of STRT to the Office of Planning and Community Development (OPCD) for EDI grants to outside organizations, allocates the next \$2.2 million to debt service, and allocates the next \$3.3 million to the Human Services Department for permanent supportive housing. All of these allocations are included in the proposed budget due to sufficient projected STRT revenues. In addition, the proposed budget shifts \$800,000 of Equitable Development staffing and other costs from the General Fund to Short-Term Rental Tax to relieve pressure on the General Fund given the growth in resources available to EDI. Another \$150,000 of STRT funds a new finance staff person in OPCD to support the EDI.

### **Transportation Network Company (TNC) Tax**

The 2023-2024 Proposed Mid-Biennial Budget Adjustments projects \$5.5 million in 2024 from the Transportation Network Company (TNC) tax. The TNC Tax began collecting revenue in 2021 and has seen a reduction to the anticipated revenue due to a slower rebound of users and the creation of a state led Transportation Network Company tax. Washington State Engrossed Substitute House Bill 2076 preempts the City from Washington State passed ESHB 2076 which creates a state level Transportation Network Company tax and preempts the City from enforcing the TNC Driver Minimum Compensation and TNC Driver Deactivation Rights Ordinances starting on January 1, 2023. ESHB 2076 also reduces the per trip fee from \$0.57/trip to \$0.42/trip effective January 1, 2023.

Accounting for the reduced per trip fee and slow recovery in trip volumes, the 2024 Proposed Budget assumes \$5.5 million of TNC tax revenue in 2024, a 6% reduction over the 2023 Adopted Budget revenue forecast and a 19% reduction over the 2024 Endorsed revenue forecast.

The previously passed Spending Resolution 31914 outlined how the proceeds of the TNC Tax were to be spent, which includes the 2023 preempted components. The City Council approved temporary modifications to the spending resolution for the 2023-24 biennium. The Department of Finance and Administrative Services (FAS) is responsible for the accounting, collection, and enforcement of the tax

and is appropriated \$162,000 in 2024. The Seattle Department of Transportation will receive appropriations of \$6.1 million in 2024 to support ongoing transportation-related work.

## City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

### Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

Prior to 2017, the City's practice was to fully fund the emergency reserve to this maximum limit. In 2017, the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that target balance each year with the rate of inflation. This policy struck a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs. In 2022, the City updated its financial policies to define a process for rebuilding the EMF reserve following a significant drawdown of funds, requiring that the EMF be replenished to its target balance within a period of five years.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$31.3 million from the EMF over two years, reducing the reserve balance to \$33.7 million at the end of 2021. The 2022 Adopted Budget initiated the five-year rebuilding cycle by contributing \$10 million to the EMF; the 2023 Adopted Budget funded the annual contribution at \$6.5 million with an additional transfer of \$8.5 million assumed through pending Year-End Supplemental legislation, for a total of \$15 million in 2023. The 2024 Endorsed Budget assumed a contribution of \$6.5 million, and the 2024 proposed adjustments include an additional \$8.5 million, for a total of \$15 million in 2024. Contributions of \$11.5 million in 2025 and \$2.2 million in 2026 would rebuild the fund to a projected target balance<sup>1</sup> of \$87 million within the prescribed five-year timespan.

### Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSF), also known as the Rainy Day Fund. The RSF provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the balance of this reserve to five percent of General Fund tax receipts. Ordinance 123743 requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSF, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSF. The RSF has a fund balance cap equal to five percent of total annual General Fund tax revenue.

In 2011, following the Great Recession of 2009 and 2010, the City adopted significant RSF funding enhancements via Ordinance 123743, including the required annual deposit of 0.5% of General Fund tax revenues into the RSF. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$60.8 million by 2020. Additionally, the policies specified that contributions to the fund are suspended when tax revenues decline and are reduced to 0.25% in the following year.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$54.7 million from the RSF, reducing the reserve balance to \$6.0 million at the end of 2021. The 2022 Adopted Budget called for a \$15.4 million contribution to the RSF as part of a multi-year strategy to rebuild the fund balance to 5% of total annual General Fund tax revenue. However, the 2021 year-end fund balance in the General Fund generated a \$55.7 million mid-year deposit during 2022, which funded the RSF to its cap. Both the 2023 Adopted Budget and the

---

<sup>1</sup> 2026 anticipated target balance calculated using CPI-U 12 Months Ending June from the August 2023 Revenue Forecast.

2024 Proposed Mid-Biennial Budget Adjustments maintain the RSF at its cap with incremental transfers of \$3.6 million and \$2.3 million, respectively, for a total estimated balance of \$67.6 million at the end of 2024.

## City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

### Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2022, there were approximately \$232.6 million in UTGO bonds outstanding.

### Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Seattle Indian Services Commission and the Museum Development Authority. As of December 31, 2022, the guarantees totaled \$28.84 million in addition to approximately \$727.2 million in LTGO bonds outstanding. Guarantees count against the City's LTGO debt capacity.

### Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

## Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

**Table 1: Summary of Conditions and Limitations for City Debt Issuances**

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit <sup>1</sup>	Total Debt Outstanding 12-31-22 <sup>1</sup>
<b>Unlimited Tax General Obligation Bonds (UTGO)</b>					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$7.7 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$7.7 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV <sup>2</sup>	\$3.1 Billion	\$233 Million
<b>Limited Tax General Obligation Bonds (LTGO)</b>					
	No	Taxes & Other Revenues	1.5% of AV <sup>2</sup>	\$4.6 Billion	\$756 Million <sup>3</sup>

<sup>1</sup> As of 12/31/22, assuming the latest certified assessed value of \$308.9 billion, issued on February 1, 2023 for taxes payable in 2023.

<sup>2</sup> The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

<sup>3</sup> Includes \$28.84 million of PDA debt guarantees.

## City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service (Moody's), AAA by Fitch IBCA (Fitch), and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is also rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

## 2024 Projected Bond Issues

In 2024, the City is authorized to issue approximately \$84.2 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2024 Tax Exempt and Taxable (if applicable) Multipurpose Bond Funds. City departments responsible for all or portions of projects listed in Table 2 will then draw money from the fund(s) as appropriated to implement the projects. The appropriation authority for spending these bond funds is included in the respective departments' sections of this budget.

**Table 2: 2024 Multipurpose LTGO Bond Issuance Costs - Informational Only (\$1,000s)**

<i>Project</i>	Capital Cost	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Adopted 2024	Debt Service Estimated 2025	Debt Service Funding Source

<b>Total</b>	<b>81,699</b>	<b>84,150</b>			<b>4,268</b>	<b>8,627</b>	

(1) Includes 3% for costs of issuance and pricing adjustments.

**Table 3: 2024 Multipurpose LTGO Fund Issuance Costs - Informational Only (\$1,000s)**

Approximate Par Amount	Issuance Costs & Pricing Adjustments	Approximate 2024 Issuance Cost
\$84,150	3%	\$2,451

### 2024 Debt Service

In 2024, debt service associated with outstanding LTGO bond issues as well as the planned 2024 bond issuances is expected to be approximately \$119 million. Appropriation authority for debt service costs is included in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

## Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted a number of financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: [http://www.seattle.gov/financedepartment/financial\\_policies.htm](http://www.seattle.gov/financedepartment/financial_policies.htm).

### Budgetary Basis

- The City budgets on a modified accrual basis. property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available and, therefore, as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

### Appropriations and Execution

- The adopted budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Subfund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called SUMMIT, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

### Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

## Selected Financial Policies

### Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Subfund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

### General Fund - Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Account of the Cumulative Reserve Subfund (commonly referred to as the "Rainy Day Fund").<sup>1</sup> In addition, 50% of any unanticipated excess General Subfund fund balance at year's end is automatically contributed to the Rainy Day Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the Rainy Day Fund exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the Rainy Day Fund via ordinance. Expenditures from the Rainy Day Fund require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

### Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at

---

<sup>1</sup> The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

## Selected Financial Policies

specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

## Mid-Biennial Department Budget Details

2024 is the second year of the City's biennial budget process. The City Council endorsed departmental funding amounts for 2024 as part of the 2023 Adopted Budget and that Endorsed Budget served as the starting point for the 2024 Budget Process.

Departments were given guidance to work within their 2024 Endorsed Budget amounts unless outside factors, such as inflation, significantly impacted their ability to maintain current service levels.

The following department budget detail pages have been modified to reflect the 2024 Endorsed Budget as the beginning point and presents incremental changes proposed for 2024 as compared to the endorsed funding levels. New for this mid-biennial presentation is a summary table by Budget Summary Level and Fund comparing the 2024 Endorsed and the 2024 Proposed Mid-Biennial Adjustments for the operating budgets. As the capital budget process runs independent of the operating budget and does not have an endorsed budget level, this table does reflects only operating budget funds.

For additional detail on capital budget changes, please refer to the 2024-2029 Capital Improvement Plan document.

# Office of Arts and Culture

Gülgün Kayim, Director

(206) 684-7171

<http://www.seattle.gov/arts>/<http://www.seattle.gov/arts>/<http://www.seattle.gov/arts/>

## Department Overview

The Office of Arts & Culture (ARTS) builds and strengthens community resilience through investments in arts and culture that support artists and cultural institutions in the city. The Office promotes Seattle as a cultural destination and invests in Seattle’s creative sector to ensure a wide range of high-quality programs, exhibits, and public art are provided throughout the city. In alignment with the City’s Race and Social Justice Initiative (RSJI), ARTS seeks solutions that use race and social justice strategies to drive our investments. Racial equity is central to ARTS and is incorporated into department policies, procedures, and practices. ARTS’s program investments are centered around five key program areas: Cultural Investments, Creative Youth, Cultural Space programs, Art and Cultural Facilities programs, and Public Art. The Office is supported by the 16-member volunteer Seattle Arts Commission appointed by the Mayor and City Council who provide recommendations on the needs of the city’s creative sector.

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$(67,035)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the

# Office of Arts and Culture

department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Proposed Operating

### **ARTS/OED Collaboration on Downtown Activations**

Expenditures \$1,000,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item provides one-time funding to the Office of Arts & Culture to partner with the Office of Economic Development (OED) on activation of King Street Station and the Downtown Core. ARTS will activate the King Street Station (KSS) by hosting cultural space, education, and artistic expression events for individual and organization participation. ARTS will focus on developing a larger, more visible footprint in and around King Street Station with a calendar of programming activities such as markets, outdoor events, and concerts.

ARTS will work with OED on ways to bring more art, including murals, performance art, festivals, and temporary public art into the Downtown Core. ARTS will support OED’s work in storefront activation from the perspective of creative sector economic justice by providing BIPOC artists and creative entrepreneurs with technical support focused on building business capacity and sustainability. The proposal includes labor costs for a temporary employee and programmatic funds to work on activations with a focus on creative placemaking. These funds are awarded on a project-by-project basis.

### **Downtown Hope Corps**

Expenditures \$1,000,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item supports a one-year extension to the Office of Arts & Culture’s Hope Corps program, with a focus on downtown activations. Hope Corps is a grant program designed to connect under- and unemployed workers in creative industries with career opportunities. ARTS estimates that this budget will support 50-70 creative projects in 2024. Funding for this program extension supports one temporary position as well as grant programming funds.

### **Increase in Community ARTS Grants**

Expenditures \$257,100

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item adds \$257,100 of ongoing funding to Office of Arts & Culture arts and cultural grants programs. This funding will provide a broad adjustment to awards in established grant programs run by the Office and seeks to address the impacts of recent historic inflation. The funds will allow ARTS to adjust grant awards for programs like Centering Art & Racial Equity (C.A.R.E.) which supports arts and culture, heritage and arts services organizations, Youth Arts which supports creative learning opportunities outside school time, and City Artist which supports Seattle-based individual artists and curators in the research, development, and presentation of new creative products.

### **Investments in Operations and Communications Support**

Expenditures \$270,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle’s creative sector. This item makes strategic and

## Office of Arts and Culture

operational investments in the functional areas of Office of Arts & Culture communications and professional resources. In 2024, this proposal supports hiring a 1-year term-limited web content specialist for content generation and support of the ARTS' externally facing website with a focus on human centered design. This item also restores ongoing funding to the department for staff training and development which was cut during the pandemic.

### **One-Time Bridge Funding to Support Seattle Arts Community**

Expenditures \$650,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This item provides one-time funding to the Office of Arts & Culture arts and cultural grants programs. The funding will be distributed through existing ARTS grant programs and is designed to ameliorate negative pressures on arts and cultural institutions who have not yet fully recovered from pandemic-caused economic pressures and who are facing the loss of federal funding. These grant funds will support efforts to build capacity through planning and strategic investments and meet one-time or short-term financial needs.

### **One-Time Support for Seattle Center's Folklife and Festal Programming**

Expenditures \$763,952

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This adjustment makes a one-time increase to ARTS' ongoing support of Seattle Center's Festal programming, bringing the total financial support to Seattle Center in 2024 to \$1.2 million. ARTS will reimburse Center for programming costs including funds to support community organizations operating at these cultural festivals and operating costs associated with putting on and marketing these events.

### **Temporary Graffiti Specialist**

Expenditures \$150,000

The City of Seattle projects higher-than-anticipated Admissions Tax revenues that provide an opportunity to make key structural and short-term investments to strengthen Seattle's creative sector. This item adds funding for a two-year temporary position to work with the Mayor's Office on graffiti prevention strategies. This position will lead and enhance the beautification efforts of graffiti art, connect with the graffiti society, and educate, mentor and guide youth to use their time and energy in constructive ways. Reducing graffiti is a priority of the One Seattle initiative and is a key factor in improving Seattle livability.

## Proposed Technical

### **Align King Street Station Programming Budget with Organization Structure**

Expenditures -

This budget neutral item transfers appropriation authority from the King Street Station Facilities to King Street Station Programming. This reflects a structural change which took place in 2021 as King Street Station programming was made structurally distinct from the King Street Station facility.

### **Alignment of ARTS Healthcare Costs**

Expenditures -

## Office of Arts and Culture

This budget neutral change aligns budget for health care where costs are incurred in the Leadership and Administration budget.

### Arts and Culture Fund Balancing Adjustments - Proposed

Revenues	\$2,086,350
----------	-------------

This is a technical item to record a fund balancing entry for the Arts and Culture Fund, which is primarily managed by this department.

### Arts and Culture Fund Revenue Adjustment

Revenues	\$1,411,565
----------	-------------

This technical item adjusts revenues for the Arts and Culture Fund.

### Correcting Project Balances within Arts & Cultural Programs BSL

Expenditures	-
--------------	---

This item makes a series of net zero transfers of appropriation authority within the Office of Arts & Culture in the Arts & Culture Fund Arts & Cultural Programs Budget Control Level (12400-BO-AR-VA160). The transfers move funds within projects to better align anticipated expenditures within the Arts & Cultural Programs BSL and actual program budgets.

### CPI Adjustment for Climate Pledge Arena

Expenditures	\$10,658
Revenues	\$10,658

This item reflects increased revenue from a 10-year contractual agreement between the Office of Arts and Culture and the Climate Pledge Arena for arts programming. As a part of the contract, each year, the amount owed to ARTS increases related to CPI, not to exceed 3%.

### Municipal Arts Fund Balancing Adjustment - Proposed

Revenues	\$512,747
----------	-----------

This is a technical item to record a fund balancing entry for the Municipal Arts Fund, which is primarily managed by this department.

### Municipal Arts Fund Revenue Adjustment

Revenues	\$1,720,881
----------	-------------

This technical item adjusts revenues for the Municipal Arts Fund.

### Transfer Funds within Public Art to Align within Updated Project Structure

## Office of Arts and Culture

Expenditures

-

This item transfers \$203,966 of Municipal Arts Funds within the Office of Arts & Culture Municipal Art Budget Summary Level from an old legacy project activity code to its replacement. This technical adjustment will true up budget with expected expenditures.

# Office of Arts and Culture

## Department Overview

Seattle Parks and Recreation (SPR) works with all residents to be good stewards of the environment and to provide safe, welcoming opportunities to play, learn, contemplate, and build community. SPR manages a [6,400+ acre park system of nearly 500 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), three [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, the Associated Recreation Council, and Seattle Public Schools to provide access to open spaces, facilities, and programs for all residents.

<b>Total Incremental Changes</b>	<b>\$(6,995,098)</b>	<b>13.91</b>
<b>Total 2024 Proposed Budget</b>	<b>\$321,544,447</b>	<b>1131.89</b>

## Description of Incremental Budget Changes

### Baseline

#### Citywide adjustments for standard cost changes

Expenditures \$2,208,591

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

### Proposed Operating

#### Add funding for annual lease escalation

Expenditures -

This item adds appropriation to cover the contractual increases included in the lease agreement for the SPR administrative offices at 300 Elliot Ave. W. The current lease is estimated to increase by a total of approximately \$200,000 in 2024. Because the leased facility primary houses staff in planning and development, accounting, the business services center, and contracting, SPR will fund this increase through an increase in the 2024 overhead rates.

#### Adjust Unified Care Team budgets and positions

Expenditures -

Position Allocation -

In 2018, SPR formed a 13-person Special Maintenance Team to support the citywide work of responding to the increasing number of unsanctioned encampments and illegal dumping on public property. This body of work has evolved since that time including in 2023, when the team was expanded to support the citywide UCT in partnership with Seattle Department of Transportation (SDOT) and Seattle Public Utilities (SPU). This budget neutral item does not contain any major policy or operational changes related to SPR's UCT work. However, it does consolidate funding supporting this work but currently budgeted across multiple projects to the projects comprising the Special Maintenance Detailed Line of Business. It also reclasses several positions in a budget neutral way to align SPR and SDOT's use of similar titles for similar bodies of work.

#### Transfer General Fund for waterfront maintenance to Seattle Center

Expenditures \$(100,000)

## Seattle Parks and Recreation

This item reduces \$100,000 of General Fund resources that previously supported maintenance of the waterfront. A similar item in Seattle Center's mid-biennium updates transfers this funding to Seattle Center as part of the transition of waterfront maintenance responsibilities approved in 2023.

### Add an Equity Advisor

Expenditures	-
Position Allocation	1.00

This item repurposes existing Park District and Park Fund resources to sustain an Equity and Engagement Advisor Strategic Advisor focused on Capital Planning and Facilities Maintenance Line of Business. This role started as a term limited temporary assignment in March 2022. This position will be the third Equity Advisor role embedded in SPR Operating Divisions, joining the two other major divisions (Recreation and Parks and the Environment). Ensuring equity in SPR's delivery of capital projects and our approach to asset management including our facilities is critical especially as we begin to implement the Park District Cycle 2 investments.

### Convert part-time Golf Course Groundskeeper positions to one full-time position

Expenditures	-
Position Allocation	(1.00)

This item addresses a workforce equity issue among one of the lowest paid job classifications in the Golf program. It abrogates three vacant part-time Golf Course Groundskeeper positions and increases one part-time Groundskeeper position to full time to increase retention and promote staffing continuity.

### Add a Counselor the Seattle Conservation Corps

Expenditures	\$71,530
Revenues	\$71,530
Position Allocation	1.00

This item adds a full time Counselor position to the Seattle Conservation Corps (SCC) to support the case management workload for new and current SCC corps members. The SCC, established in 1986, is a unique SPR program that provides employment and training for people experiencing homelessness. This program gives homeless adults opportunities to train and work in a structured program that provides them with job skills while completing public works projects that benefit our community members and our environment. Cycle 2 of the Park District added funding to expand the number of homeless adults served by the program. The SCC is currently supported by two Counselor positions who provide intensive case management support for corps members. A third counselor position is needed to decrease the caseload per Counselor and increase the quality of services provided. This item is funded by a recurring grant and by reprioritizing existing budget.

### Add a position to focus on Integrated Pest Management

Expenditures	-
Position Allocation	0.50

This budget neutral item repurposes an existing vacant Utility Laborer position to create a full-time Environment Analyst Sr. position in the Parks and Environment Division to coordinate departmentwide Integrated Pest Management (IPM) and wildlife management needs. SPR has been meeting the requirements of IPM through various staff, but the work requires a dedicated position given the unique skills and knowledge needed to

# Seattle Parks and Recreation

implement best practices across the system. Specifically, this position will focus on improving operation efficiency and effectiveness through staff trainings, and addressing issues with plants, animals, insects, and pathogens that are regulated by local, state, and federal agencies (e.g., protections on heron nesting sites or noxious weed regulations).

## Increase Accounting Tech to full time

Expenditures	-
Position Allocation	0.50

This budget neutral item increases an existing Accounting Tech II to full time using existing budget resources to support SPR's expanded employee base. This budget neutral proposal increases an existing part-time Accounting Tech II-BU to full time to support the Department's payroll team. The payroll team currently consists of 2.5 FTE to support payroll need for up to 1,400+ employees throughout the year. The 2023 budget added over more than 100 new positions, this has increased the team's workload, placing significant pressures on the department's ability to correctly pay employees on time.

## Right-size capital planning and development staffing

Expenditures	-
Position Allocation	14.00

This item adds 11.0 new FTE and removes a sunset date for 3 existing positions in the capital planning and development function. Cycle 2 of the Park District added significantly more capital dollars to SPR's budget including several complex projects. Because of City Council interest in additional capital projects beyond those in the Mayor's Proposed Cycle 2, SPR elected not to add these positions until final passage of Cycle 2. The new positions are a mix of project planning, coordination, and management (4.0), technical and engineering (4.0), and compliance and reporting (3.0), and are funded through the CIP. They are needed to successfully deliver SPR's expanded capital commitments.

## Use one-time Park Fund balance to fund Zoo operating subsidy inflationary increase for 2024 only

Expenditures	\$796,427
--------------	-----------

The Woodland Park Zoo's land and facilities are owned by SPR, and it is operated by the non-profit Woodland Park Zoological Society (WPZS) through a long-term agreement first adopted in 2002 and then renegotiated and adopted in 2022. As part of the new agreement, SPR provides an operating subsidy to WPZS, and this support rises annually with inflation. In 2024, the inflationary increase is approximately \$796,000, for a total operating subsidy of approximately \$9 million in 2024. This item appropriates one-time Park Fund balance to pay for this inflationary increase for 2024 only. See a related item in the incremental changes to SPR's capital budget.

## Proposed Capital

### Fund Zoo major maintenance inflationary increase

Expenditures	-
--------------	---

The Woodland Park Zoo's land and facilities are owned by SPR, and it is operated by the non-profit Woodland Park Zoological Society through a long-term agreement first adopted in 2002 and then renegotiated and adopted in 2022. As part of the new agreement, SPR provides support for Zoo facility major maintenance, and this support rises annually with inflation. In 2024, the inflationary increase is approximately \$220,000, for a total major maintenance

## Seattle Parks and Recreation

subsidy of \$2.5 million in 2024. This budget neutral technical item repurposes REET funding from SPR's general major maintenance project across all six years of the CIP to support the inflationary increase to the Zoo's major maintenance subsidy. See a related item in the "Proposed Operating" changes section of this budget book.

### **Reallocate REET funding in response to forecasted shortfalls**

Expenditures	\$ (6,500,000)
--------------	----------------

The Real Estate Excise Tax (REET) is a major source of funding for SPR's capital projects and major maintenance. However, forecasts for REET revenues have declined significantly since the development of the 2024 Endorsed Budget. To accommodate this change in projected revenues, this item reduces SPR's REET appropriations in 2024 by \$6.5 million, and a similar item in the third quarter supplemental budget reduces \$13.5 million of REET in the 2023 budget, for a total reduction of \$20 million. These funds are added back to SPR's budget in 2025 to 2028. These reallocations will have limited impacts to projects. The majority of the changes in the REET budget align budget with expected project delivery timelines. For detailed review of specific projects, see the 2024-2029 Proposed CIP.

### **Add Municipal Energy Efficiency Program funding for community center pre-electrification efforts**

Expenditures	\$189,750
--------------	-----------

This change request adds appropriation from the Municipal Energy Efficiency Program (MEEP) to support implementation of the Citywide Resource Conservation program budget. Specifically, it will fund pre-electrification work in community centers in 2024.

### **Adding Tree Replacement Payment In Lieu Funding**

Expenditures	\$59,000
Revenues	\$59,000

This item adds \$59,000 of funding for tree planting and maintenance, based on the City's updated tree ordinance (Ordinance 126821), which established a new "payment in lieu" (PIL) program for tree replacement, whereby developers can pay a fee to the City in lieu of planting replacement trees on the development site. The City will use these fees to plant trees on City property (street right-of-way and SPR property). The total 2024 PIL revenues are projected to be \$191,000 and are expected to increase annually; for SPR, the anticipated amount in 2024 is \$59,000.

## **Proposed Technical**

### **Amend the General Fund Floor**

Since the establishment of the Park District in 2014, an interlocal agreement (ILA) between the City of Seattle and the Seattle Park District has set out several responsibilities for both parties. These included a specific baseline of General Fund support for parks and recreation services, commonly referred to as the "General Fund floor," and required the City to allocate General Fund resources to SPR in each annual budget at or above that baseline. Currently, the ILA requires the City to adjust that floor for inflation annually using the Consumer Price Index (CPI) for Seattle, which for this year was an unprecedented 7.6%. The City of Seattle and the Seattle Park District both have an interest in ensuring the long-term stability of revenues to the park and recreation system and avoiding unilateral termination of this ILA during a challenging fiscal environment. Therefore, the proposed mid-biennial adjustments include legislation that amends the ILA and adjusts the inflation factor for 2024 only from CPI to 3%, which creates a General Fund floor of \$118 million in 2024. This also aligns SPR's General Fund floor in 2024 with financial policies governing a similar floor in the Seattle Department of Transportation, which uses a 3% inflator. SPR's proposed budget for 2024 includes nearly \$120 million of General Fund, an increase of \$2.1 million above the 2023 Adopted Budget.

# Seattle Parks and Recreation

## Adjust Aquarium debt service

Expenditures	\$(4,335,428)
Revenues	\$(4,335,428)

This technical item adjusts debt service budgets for 2024 to 2029 in the CIP related to the Aquarium expansion project. Specifically, it abandons the expense and revenue that were intended to make debt service payments for Aquarium expansion, but this project is no longer being funded by additional bonds so debt service budget is not necessary. The item trues up the budget to project assumptions made via Ordinance 126874.

## Adjust debt service amounts

Expenditures	\$(110,897)
Revenues	\$(8,600)

This item adjusts debt service for various CIP Debt Service Projects to align with the 2024-2029 budget cycle and the updated debt service schedules. Specifically, this adjusts Aquarium Expansion - Debt Service and Rainier Beach Community Center Debt Service from 2024-2029; Golf Capital Improvements from 2024-2028; and Aquarium-Pier 59 Piling Replacement and Aquarium Debt Service in 2024 and 2025.

## Adjust Park District and LTGO Bond funding in 2024-2029 CIP

Expenditures	-
--------------	---

This technical change adjusts ongoing funding for various CIP Projects to align with the 2024-2029 budget cycle including the Park District financial plan and planned LTGO bond amounts.

## Align labor budget with increased labor costs

Expenditures	-
Position Allocation	(2.34)

This budget neutral technical item aligns labor accounts with actual position cost increases related to 2023 legislative action (Ordinance 126808). To fund these increases, SPR is abrogating three vacant positions (a total of 2.34 FTE), whose work is no longer needed.

## Budget neutral position changes

Expenditures	-
Position Allocation	0.25

This budget neutral technical item adjusts expense and revenue budgets to correctly align with position reclassifications and increases an existing position in Aquatics by 0.25 FTE to better reflect the actual use of the position.

## Fund balancing technical entry

Revenues	\$(1,792,563)
----------	---------------

This is a technical item to record a fund balancing entry for the Park Fund, Park Mitigation Fund, and King County levy Fund, which are primarily managed by this department.

# Seattle Parks and Recreation

## Transfer City Hall Park funding out of the operating budget

Expenditures \$(1,000,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The 2024 Endorsed Budget included \$1 million of this payroll tax funding to support activation and safety improvements to City Hall Park. This item reduces the funding from the operating budget, and a related item transfers it to the capital budget to align with the implementation plan to create safe outdoor spaces in the city's downtown core.

## Transfer City Hall Park funding to the capital budget

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The 2024 Endorsed Budget included \$1 million of this payroll tax funding to support activation and safety improvements to City Hall Park. This item transfers the funding from the operating budget to the capital budget, to align with the implementation plan to create safe outdoor spaces in the city's downtown core.

## CIP Appropriation and Fund Alignment

Expenditures \$640,000

Revenues \$54,153

This technical change request adds funding in 2029 for various CIP Projects to align with the 2024-2029 budget cycle. It also adjusts, across all six years of the CIP, where \$600,000 of Park Fund revenues associated with field fees are represented in the budget. As the collection of these fees are managed by staff in the athletic program, this item transfers these revenues to the operating budget for better management. Finally, it adds King County levy funding to improve restrooms and playgrounds.

## Technical changes to various projects

Expenditures \$85,930

Revenues \$685,930

Position Allocation -

This item includes a variety of technical changes to true up the budget to revenue projections and to align budget with operational plans for 2024. This item adds Park Fund expense and revenue to the Golf program, abandons Park Fund expense and transfers Park Fund revenue related to field fees from the CIP to the operating budget, for better oversight by athletics program staff.

# Seattle Parks and Recreation

## 2023-24 Proposed Mid-Biennial Budget Adjustments – Operating Expenses

## Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These organizations play a critical role in the arts and cultural landscape of the region. Originally created for the World's Fair, the Coliseum, later called KeyArena, was operated by Seattle Center as a public assembly venue for sports and concert events. The new building, now Climate Pledge Arena, is hosting the NHL's newest franchise, the Kraken, as well as the WNBA's Seattle Storm, along with a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to for-profit and non-profit organizations, sponsorships, concession sales, and monorail fares.

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$244,532

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

#### Proposed Operating

##### Reinvest Center Revenues to Support Events

## Seattle Center

Expenditures	\$368,000
Revenues	\$368,000
Position Allocation	-

Due to pandemic related revenue reductions, the 2023-2024 Adopted Budget unfunded 6.75 FTE event related positions with the intention that as events and their associated revenues returned to the campus, the positions would again be necessary to support events and events revenues would be used to refund the positions.

This item adds \$368,000 from parking revenues due to higher attendance and increased rates. It adds expenditure authority for operating staff due to increased events at Seattle Center. Position changes include re-funding 2.0 Laborers, abrogating a Stage Tech Lead, and adding a new Event Service Representative.

One of the positions unfunded in the 2023-2024 mid-biennium budget was a Stage Tech Lead. Because the types of events returning to the campus are changing, requiring more direct client support and less stage lead work, the budget proposes abrogating the unfunded Stage Tech Lead and adding a new Event Service Representative.

### Proposed Capital

#### **2024-2028 REET Reduction**

Expenditures	\$(831,639)
--------------	-------------

The REET revenue forecast for the City's 2023-24 Proposed Mid-Biennial Budget Update is insufficient to cover expected costs. REET reductions were identified to mitigate this shortfall in revenues. This item reduces appropriation authority by \$832,000 in 2024, \$500,000 in 2025, \$500,000 in 2026, increases by \$1,400,000 in 2027 and increases by \$4,060,000 in 2028. Center's REET funding goes towards maintenance of many buildings on the campus including the Bagley Wright Theater, Mercer Garage, Fisher Pavilion, the Armory, and other public spaces. The highest impact reductions are to the campus HVAC improvement project, parking garage improvements, maintaining the Armory, and public gathering space improvements.

#### **2027-2028 REET Reduction**

Expenditures	-
--------------	---

The updated August REET revenue forecast for the City's 2023-24 Proposed Mid-Biennial Budget Adjustments is insufficient to cover expected costs. REET reductions were identified to mitigate this shortfall in revenues. This item reduces appropriation authority by \$250,000 in 2027 and \$350,000 in 2028 and postpones open space improvement projects for major landscape, paving and lighting improvement projects.

#### **Shift Memorial Stadium Financing to 2025 and 2026**

Expenditures	\$(20,442,000)
--------------	----------------

This item shifts bonding for Memorial Stadium from 2024 to 2025 and 2026 to align financing timing with anticipated expenditure needs. This item also includes \$1 million in Real Estate Excise Tax (REET) for salaries, consultants, permitting, and pre-construction work in 2024.

### Proposed Technical

#### **McCaw Hall Capital Reserve Balancing Adjustment - Proposed**

Revenues	\$(10)
----------	--------

This is a technical item to record a fund balancing entry for the McCaw Hall Capital Reserve Fund, which is primarily managed by this department.

# Seattle Center

## Non-Capital Carryover - Waterfront Funds

Expenditures	\$700,000
Revenues	\$700,000

This item adds one-time funding for operations and maintenance of the Waterfront. Per the agreement with Seattle Parks Department, unspent Metropolitan Park District Funds from the 2023 budget are allocated to Seattle Center. The responsibility for operating and maintaining Waterfront Park shifted from Seattle Parks and Recreation (SPR) to Seattle Center in mid-2023. There is an offsetting reduction in the SPR budget.

## Ongoing Changes from Current Year Legislation

Expenditures	\$1,622,561
Revenues	\$1,485,000
Position Allocation	11.50

This change includes ongoing budget and position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance. Proposed changes included in this item include the HVAC Engineers wage increase, the McCaw Hall General Fund inflation, revenue-backed funding for Bite of Seattle event-related support, reimbursement from SDOT for Monorail youth fares, revenue-backed funding for event-related SPD contracts, and Friends of Waterfront funding for public safety officers.

## Positions for Waterfront Operations

Expenditures	-
Position Allocation	6.00

As part of the 2023 budget process, the Council approved the transition of the longer-term responsibilities of Waterfront programming, operations and maintenance, and code compliance/safety from SPR to Seattle Center. This item creates new positions in Center which will support the next phase of Waterfront Park opening in 2024. These positions are funded by Metropolitan Park District Funds transferred from SPR. The positions include 1.0 FTE Gardener, 3.0 FTE Laborers, and 2.0 FTE Installation Maintenance Workers.

## Seattle Center and McCaw Hall Fund Balancing Adjustment - Proposed

Revenues	\$(876,291)
----------	-------------

This is a technical item to record fund balancing entries for the Seattle Center Fund and McCaw Hall Fund, which are primarily managed by this department.

## Seattle-King County Clinic Support

Expenditures	\$350,000
Revenues	\$350,000

This item adds offsetting revenue and expenses for Seattle Center to support the Seattle-King County Clinic (SKCC). Seattle Arena Company (ArenaCo) is required to reserve and make available use of Climate Pledge Arena for up to 8 consecutive days for SKCC. In 2023 the operational challenges of holding SKCC at the Arena resulted in the clinic being held on the Seattle Center campus. While evaluating the best options for siting SKCC, Seattle Center and ArenaCo reached a temporary agreement which includes \$350,000 per year of financial support from ArenaCo for the clinic in lieu of the City's use of Climate Pledge Arena through 2028.

# Seattle Center

## Transfer Funds from Parks to Center for Waterfront Operations

Expenditures \$100,000

This item transfers ongoing General Fund support from the SPR budget to support the waterfront maintenance responsibilities that were transferred to Seattle Center. Ordinance 125761 addresses Waterfront Park operation, maintenance, and funding responsibilities, some of which became Seattle Center's responsibility in July 2023.

# Seattle Public Library

Tom Fay, Chief Librarian

(206) 386-4636

<http://www.spl.org><http://www.spl.org><http://www.spl.org/>

## Department Overview

Seattle Public Library (SPL), founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, and a robust "virtual library" available 24/7 through SPL's popular website and Mobile Services. The Central Library and 26 neighborhood libraries provide essential services such as library collections, computers and Wi-Fi access, meeting rooms and study rooms, along with programs that promote lifelong learning, civic engagement, and economic vitality.

SPL is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves SPL's budget appropriation.

Fund Balancing Adjustments - Proposed	-	-
<b>Total Incremental Changes</b>	<b>\$501,793</b>	-
<b>Total 2024 Proposed Budget</b>	<b>\$96,187,778</b>	-

## Description of Incremental Budget Changes

### Baseline

#### Central Cost Manual Alignment

Expenditures \$51,739

This change request aligns the 2024 baseline budget with the 2024 endorsed central cost manual rates.

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$503,054

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Capital

#### REET Incremental Adjustments 2024-2028

Expenditures \$(53,000)

## Seattle Public Library

This item adjusts Real Estate Excise Tax (REET) budget authority for the Library's Major Maintenance capital project over multiple years. REET revenues are used to supplement 2019 Library Levy funding additional building upgrades, such as air conditioning and electrification, for the seismic retrofit projects at Green Lake, University, and Columbia branches. Specifically, this item reduces the budget by \$53,000 in 2024 and reduces the projected budget by \$32,000 in both 2025 and 2026. This item increases the budget in 2027 by \$100,000 with another increase in 2028 by \$290,000. These changes are due to REET revenues projected to fall short of previous estimates.

### REET Outyear CIP Adjustment

Expenditures -

This item is a technical adjustment for REET budget authority for the Library's Major Maintenance capital project, to add \$685,000 in the out-year (2029).

### Proposed Technical

#### Library Revenue Projection Updates

Revenues \$393,088

This item includes General Fund resources transferred from Finance General to support citywide adjustments to central costs, as well as SPL-generated revenues used for SPL operations. Though Library-generated revenues are expected to outpace previous projections, most remain flat or under pre-pandemic levels. For example, private event rentals, parking, and service revenues are outperforming expectations, but are still below pre-pandemic levels. Also, revenues generated by deaccessioning of Library materials have increased year-over-year since the pandemic--a trend that is expected to continue. Some revenues have not performed as initially anticipated, such as print and copy services, and lost materials fees.

#### Fund Balancing Adjustments - Proposed

Revenues \$1,191,341

This is a technical item to record a fund balancing entry for the 10410, 18100, and 18200 funds, which are primarily managed by this department.

# Seattle Public Library

# Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

[www.seattle.gov/education](http://www.seattle.gov/education)

## Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle’s children, youth, and families through strategic investments in education. DEEL advances this mission by investing in equitable education opportunities, high-quality learning environments, and student and family supports. DEEL investments contribute to four department results: (1) families have access to affordable, quality childcare, (2) children are kindergarten-ready, (3) students graduate high school college- and career-ready, and (4) students attain a postsecondary degree, credential, or certificate.

With investments across the prenatal-to-postsecondary continuum, DEEL supports children, youth, and families to address disparities in educational opportunity gaps. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy, the Sweetened Beverage Tax (SBT) fund, the City's General Fund, Washington State’s Early Childhood Education and Assistance Program (ECEAP), and other grants, DEEL operates direct-service programs, contracts with community-based and institutional partners, and provides quality teaching and professional development supports to providers and educators.

## Description of Incremental Budget Changes

### Baseline

#### Early Childhood Education and Assistance Program Grant Technical Changes

Expenditures	\$992,675
Revenues	\$1,264,147

This item makes technical adjustments to the state Early Childhood Education and Assistance Program (ECEAP) grant to align revenues with expenditures and to match the 2024 portion of the 2023-2024 and 2024-2025 school year awards. This change request also updates the funding source codes for the new school years.

#### Upward Bound Grant Technical Changes

Expenditures	\$(1,455)
Revenues	-

This is a technical change to the Upward Bound grant to align revenues with expenditures and to update the 2024 funding source codes associated with the 2023-2024 and 2024-2025 school years.

# Department of Education and Early Learning

## Citywide Adjustments for Standard Cost Changes

Expenditures \$(84,523)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Align Early Learning Budget to FEPP Levy Plan

Expenditures \$1,000,000

This is a technical change to increase the FEPP Early Learning budget to align with the FEPP Levy spending plan.

## Proposed Operating

### Child Care Worker Retention Bonus

Expenditures \$2,900,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds one-time funding backed by payroll tax to DEEL to support retention bonuses for child care workers who work in a licensed childcare facility in the city. In the past few years, DEEL has provided more than \$8 million in retention bonuses to eligible child care workers. These retention bonuses could help stabilize a critical industry by reducing staff turnover and vacancies which are caused, in part, by low overall compensation. Providing accessible, affordable child care is a stabilizing force from which our economy can recover from the lasting economic effects of the COVID-19 pandemic. A portion of these funds (up to 15%) will be used to administer these bonuses to workers.

### Human Services Provider Pay Increase for Child Health & Development Contracts

Expenditures \$327,311

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds ongoing funding backed by payroll tax to DEEL to increase their provider contracts from 4% inflationary adjustment in the 2024 Endorsed Budget to a 7.5% inflationary adjustment, in line with adjustments made to Human Service Department's (HSD) provider contracts. This item also provides an ongoing 2% increase for human services provider pay. These DEEL provider contracts were transferred from HSD to DEEL, and are for birth to three investments that support early childhood health and development, generally for low-income families.

## Proposed Technical

### Update DEEL FEPP Revenues and Corresponding Expenditures

Expenditures \$600,000

## Department of Education and Early Learning

Revenues \$13,990,320

This item adjusts DEEL's FEPP Levy revenues to align with proposed expenditures, align with levy cash flow plan, and recognize changes to tuition and investment earnings. Due to increased revenues from Seattle Preschool Program tuition collection, it also includes a corresponding increase in FEPP Early Learning expenditures.

### Ongoing Changes from Current Year

#### Legislation

Revenues \$(207,500)

This item includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance. Specifically, this item reduces appropriation authority related the Casey Grant that DEEL abandoned in 2023, that no longer has revenues associated with it.

### Fund Balancing Adjustments - Proposed

Revenues \$(300,000)

This is a technical item to record a fund balancing entry for the 17857 and 17861 funds, which are primarily managed by this department.

# Human Services Department

Tanya Kim, Director

(206) 386-1001

<http://www.seattle.gov/humanservices/>

## Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work, and take part in strong and healthy communities. HSD contracts with more than 200 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, job opportunities, access to health care, opportunities to gain social and economic independence and success, and many more of life’s basic necessities. HSD also serves King County as the Area Agency on Aging. HSD is committed to working with the community to provide appropriate and culturally responsive services.

Through the lens of racial equity, HSD supports programs, initiatives, and policies that address six investment impact areas:

1. Preparing Youth for Success
2. Supporting Affordability and Livability
3. Addressing Homelessness
4. Promoting Public Health
5. Supporting Safe Communities
6. Promoting Healthy Aging

HSD’s work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City’s General Fund, Sweetened Beverage Tax Fund, Short Term Rental tax revenues, and the Payroll Expense Tax Fund.

# Human Services Department

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures	\$113,471
Revenues	\$(43,201)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Central Cost True Up

Expenditures	-
--------------	---

This item adjusts central cost totals to align with the Central Cost Manual

### Proposed Operating

#### Increase Contract Inflation from 6.7% to 7.5%

Expenditures	\$1,519,370
--------------	-------------

This item adds \$1,519,370 of budget to HSD for provider contract inflation.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%.

This budget change when combined with HSD's budget change titled "Contract Inflation for 2023 Budget Additions" ensures all service provider contracts receive a 7.5% inflationary increase in 2024 as prescribed by Seattle Municipal Code subsection 03.20.060.

The 2024 Endorsed budget included funding to support a 6.7% inflationary increase for HSD's service provider contracts in 2024. The 2023-2024 Proposed Mid-Biennial Budget Adjustments increases the 2024 inflationary rate from 6.7% to 7.5%. The total amount of HSD's budget for contract inflation in 2024 is \$15,709,611.

#### Contract Inflation for 2023 Budget Additions

Expenditures	\$1,100,799
--------------	-------------

This item adds \$1,100,799 of budget to HSD to provide contract inflation for contracts that were added in the 2023 adopted budget and continue in 2024.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%.

# Human Services Department

This budget change when combined with HSD's budget change titled "Increase contract inflation from 6.7% to 7.5%" ensures all service provider contracts receive a 7.5% inflationary increase in 2024 as prescribed by Seattle Municipal Code subsection 03.20.060.

## Human Services Provider Pay

Expenditures \$4,189,230

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

The City Council added \$600,000 to HSD's 2022 adopted budget for a wage equity study. In 2023, the University of Washington completed the study and City Council passed Resolution 32094 concerning human services provider pay. In the resolution, the Council stated their intent to consider increases to HSD administered contracts in addition to inflationary adjustments required under Seattle Municipal Code (SMC) Section 3.20.060.

Seattle Municipal Code subsection 03.20.06 specifies HSD contracts, with some exceptions, are to be inflated using 100% of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers, (CPI-W) during the prior 12-month period ending in June of each year and inflated 0% if index change is negative. The annual CPI-W during the prior 12-month period ending in June of 2023 is 7.5%. This budget item increases HSD's budget by \$4,189,230 to provide an additional 2% increase for HSD administered contracts for Human Services Provider Pay.

## One-time extension of We Deliver Care Third Avenue Project

Expenditures \$1,900,000

This item adds \$1,900,000 of one-time General Fund to continue the work of We Deliver Care along Third Avenue in 2024 as part of the Downtown Activation Plan (DAP).

The City launched the Third Avenue Project, in partnership with We Deliver Care, in the fall of 2022 to address and improve public safety on Third Avenue. We Deliver Care outreach workers establish relationships and earn the trust of individuals. They offer care and treatment services to individuals suffering from substance use disorder and using drugs in public places along Third Avenue.

The DAP was announced in June 2023 and outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors.

## Opioid Settlement Fund Appropriation

Expenditures \$2,217,697

Revenues \$2,217,697

This item increases revenue-backed appropriation authority in Human Services Department in the Opioid Settlement Proceed Fund by \$2,217,697 in the Promoting Public Health Budget Control Level (14510-PO-HS-H7000).

Of the \$2,217,697 of appropriation, \$581,652 is one-time funding for post overdose facility services. The remaining \$1,636,045 of appropriation is on-going; \$163,807 is for Opioid Abatement Council, \$163,807 is for HSD administrative costs, \$470,000 to continue drug user health/harm reduction services previously funded with one-time funds, \$323,976 is to expand Health One's Post Overdose Response Team, and \$515,456 is for post overdose facility services. The investment for post overdose facility services is in concert with the City's planned investments for treatment facilities.

# Human Services Department

The Opioid Settlement Proceed Fund is for the City's portion of settlement proceeds from the state's settlement agreements with opioid distributors and pharmacies. The use of the funds is governed by the One Washington Memorandum of Understanding Between Washington Municipalities that mandates participating local governments establish an Opioid Abatement Council (OAC) to oversee Opioid Fund allocation, distribution, expenditures, and dispute resolution.

## **Pre-development Cost for Mixed Income Housing - Relocation of Tiny Home Village**

Expenditures	\$916,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item provides funding for pre-development activities to turn a property owned by Sound Transit into mixed-income housing. The RFP to develop the site is expected to be published prior to the end of 2023. This item provides funding to relocate Rosie's Village Tiny House Village (THV), currently located on the property.

## **Continue Funding for Victim Advocate**

Expenditures	\$123,224
--------------	-----------

This item adds \$123,224 in 2024 to maintain victim advocacy staffing of 1 FTE Crime Victim Advocate. This position was previously funded by the Office for Victims of Crime (OVC) federal grant, secured by the Seattle Police Department. The OVC grant is scheduled to sunset in January 2024. This item maintains staffing levels for victim services requirements reinforced in Executive Order 2022-05 which requires all eligible backlogged sexual assault cases be assigned to SPD detectives for investigation.

## **Replace Data Collection and Reporting Software**

Expenditures	\$148,368
Revenues	\$148,368

Funded by Title XIX grant revenue, this item adds appropriation to replace the legacy SQL-based data collection and reporting tool in HSD's Aging and Disability Services Division. The system, associated software, underlying architecture, and coding are all outdated. Currently no significant updates or upgrades can be built to address business needs, including data collection, reporting, visualization, and planning for programming, contracting, and funding.

## **Human Services Fund Revenue Adjustment**

Expenditures	\$2,083,410
Revenues	\$2,083,410

This item makes adjustments to correctly reflect the expected 2024 revenues and expenditures of 28 fund sources, including over 22 grants in the Human Services Fund (16200).

# Human Services Department

## Proposed Technical

### **Adjustment for 2024 Annual Action Plan**

Expenditures	\$1,027,853
Revenues	\$1,027,853

This item increases HSD's US Department of Housing and Urban Development (HUD) grant amounts in the proposed budget to align with the anticipated actual grant awards in 2024. It increases the anticipated 2024 award amounts by \$643,226 of Community Development Block Grant, \$24,877 of Emergency Solutions Grant, and \$359,750 of the Housing Opportunities for Persons with AIDS Grant. These increases align HSD's 2024 Proposed Mid-Biennial Budget with the City's 2024-2028 Consolidated Plan for Housing and Community Development.

### **Transfer UCT Admin Budget to Correct Program**

Expenditures	-
--------------	---

This item transfers existing budget within HSD for Unified Care Team admin FTEs that were added in the 2023 Adopted Budget. The positions were put in the incorrect budget program, this item transfers them to the correct budget program.

### **Transfer Budget to King County Regional Homelessness Authority Budget Program**

Expenditures	-
--------------	---

This item transfers \$2,933,927 of budget for the Interbay Village and St. Martin de Porris shelter from the City Managed Homelessness Programs budget program to the King County Regional Homelessness Authority budget program. The King County Regional Homelessness Authority currently implements these contracts on behalf of HSD and the amount is included in the City's existing contract with the Authority.

### **Remove Sunset Dates for Two Victim Advocates**

Position Allocation	-
---------------------	---

This item removes the sunset date for two victim advocates in HSD's budget that were added in the 2022 Adopted Budget.

### **Ongoing Changes from Current Year Legislation**

Position Allocation	7.00
---------------------	------

This change includes ongoing position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance.

### **Transfer HSD Budget to Align with the City's King County Regional Homelessness Authority Contract**

Expenditures	-
--------------	---

This item transfers \$811,976 of budget added in 2023 CBA HSD-035-C-001 from the King County Regional Homelessness Authority budget program to the HSD City-Managed Homelessness Budget Program to support outreach directed by the Unified Care Team. This funding was not part of the City's 2023 contract with the King County Regional Homelessness Authority and this item moves the funding out of that budget program.

### **Correct Title XIX Fund Balance Appropriation Error**

# Human Services Department

Expenditures \$(244,822)

This item reduces appropriation in the Human Services Fund (16200) and corrects an error related to Title XIX grant balance. The appropriation to use fund balance was included in HSD's budget by error and is not backed by revenue.

## Fund Balancing Entry

Revenues \$(12)

This is a technical item to record a fund balancing entry for the 162000 Human Services Fund, which is primarily managed by this department.

# Human Services Department

# Office for Civil Rights

Derrick Wheeler-Smith, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/><http://www.seattle.gov/civilrights/><http://www.seattle.gov/civilrights/>

## Department Overview

The Office for Civil Rights (OCR) envisions a city of thriving and powerful communities that fosters shared healing and belonging. The OCR advances civil rights and removes barriers to equity by enforcing illegal discrimination laws in Employment, Housing, Public Places, Fair Contracting, Title VI and ADA Title II in the City of Seattle. We also work to realize the vision of racial equity by leading the City of Seattle's Race and Social Justice Initiative. The Race and Social Justice Initiative (RSJI) is the City of Seattle's long-term commitment to end racism and achieve racial equity in Seattle.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination laws;
- providing free civil rights trainings and technical assistance to businesses and community groups;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Disability Commission;
- administering the City of Seattle's Participatory Budgeting process; and
- leading the City's Race and Social Justice Initiative (RSJI). The core focus for RSJI is to eliminate institutional and structural racism within and by the City of Seattle.

### Description of Incremental Budget Changes

#### Baseline

##### Central Cost Manual Alignment

Expenditures \$(22,235)

This change request aligns the 2024 baseline budget with the 2024 endorsed central cost manual rates.

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$77,746

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Proposed Technical

##### Participatory Budgeting Positions

Position Allocation -

This item extends the sunset date of three Participatory Budgeting positions in the Office for Civil Rights (OCR), from December 31, 2023 to September 30, 2024. It is anticipated that some participatory budgeting work will need to be continued into 2024. The positions will be funded with underspend from the Participatory Budgeting administrative budget.

# Office for Civil Rights

## 2023-24 Proposed Mid-Biennial Budget Adjustments - Expenses

[www.seattle.gov/sdci](http://www.seattle.gov/sdci)

## Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports key City priorities, including delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Economic Displacement Relocation Assistance (EDRA) program
- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code
- Tree Service Provider Registry

SDCI reviews land use and construction-related permits, annually approving more than 53,000 permits and performing approximately 185,000 on-site and 20,000 virtual inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles more than 40,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

## Description of Incremental Budget Changes

### Baseline

#### Central Cost Manual Baseline Adjustment

Expenditures \$344,159

This baseline adjustment aligns SDCI's 2024 baseline budget with the 2023 Adopted Central Cost Manual's 2024 Endorsed Budget amounts. This adjustment is supported by permit fees in SDCI's Construction and Inspections Fund.

#### Citywide Adjustments for Standard Cost Changes

# Seattle Department of Construction and Inspections

Expenditures \$2,012,977

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Proposed Operating

### **Economic Displacement Relocation Assistance (EDRA) Staffing**

Expenditures \$142,109  
Position Allocation 1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024. This action adds ongoing budget and position authority for one Code Compliance Analyst and includes \$2,868 for a one-time technology purchase in 2024. This action, funded by payroll tax, increases capacity to meet the higher-than-expected workload from the new Economic Displacement Relocation Assistance (EDRA) program. EDRA provides relocation benefits to qualifying applicants that receive a rent increase of 10% or more. This program, established in July 2022, is experiencing a much higher application rate than anticipated. Appeals and following up on landlord payments also add to the EDRA workload.

### **Tenant Relocation Assistance Ordinance (TRAO) Expeditor**

Expenditures \$158,807  
Position Allocation 1.00

The Tenant Relocation Assistance Ordinance (TRAO) helps people transition to new housing when their homes are being redeveloped. The TRAO program provides relocation assistance to low-income households and provides all households with time to search for and relocate to new housing. This item adds ongoing budget and a new full-time position to improve internal TRAO processing and customer service for permitted development that includes a TRAO component. This item also includes budget authority for \$2,868 of one-time technology expenses in 2024. This item is funded by a new TRAO fee established in SDCI's proposed permit fee legislation.

### **Rental Registrations and Inspections Support**

Expenditures \$200,000

This action adds ongoing budget authority for a consultant to provide much needed support for Rental Registration and Inspections Ordinance (RRIO) program enforcement. The consultant will provide added capacity for enforcement mailings, customer service, property research, and negotiation. This item is funded by RRIO program fees in SDCI's Construction and Inspections Fund.

### **Fee Legislation Revenue Change**

Revenues \$1,790,412

SDCI's proposed fee legislation revises most of SDCI's fees and charges beginning on January 1, 2024. The 2024 fee revisions include an inflationary adjustment of 2% and other changes, including a new Tenant Relocation Assistance Ordinance application fee. Some fees, such as Vacant Building Monitoring Program fees and Rental Registration and Inspections Ordinance fees, are adjusted by more than 2% in order to align the fees with current costs. For additional information, please consult SDCI's proposed fee legislation and associated fiscal note.

# Seattle Department of Construction and Inspections

## Consultant for Green Buildings

Expenditures \$204,000

This action adds one-time budget authority to use revenue from land use penalties to explore changes to green building incentives. Funding will be used to hire a consultant who will create a list of viable strategies and energy efficiency measures, provide cost/benefit analysis of these strategies and measures, estimate carbon emissions reductions associated with each option, and assist with stakeholder outreach. This item is supported by penalty revenues in SDCI's Construction and Inspections Fund.

## Add Mechanical Inspector

Expenditures \$186,291  
Position Allocation 1.00

The proposed budget adds ongoing budget and position authority for one Mechanical Inspector and includes \$37,868 for one-time vehicle and technology purchases in 2024. This new position increases staff capacity and allows SDCI to respond to workload complexity and demand. SDCI's inspections team has seen a consistent increase in Heat Recovery Ventilators (HRV) systems. HRVs are complex and have triggered an increase in noise reviews, mechanical inspections, and an increase in refrigeration inspections. The inspections team currently has six Mechanical Inspectors. Each inspector makes, on average, 15 to 20 inspection stops daily. Each stop can require multiple inspections, especially for multi-family dwellings. Additionally, the capacity for inspector training has been strained due to demand for inspections, and training is critical due to the increasing complexity of regulations and requirements. Vacation time has been accumulating and request approvals must be carefully analyzed to ensure coverage for daily work. This item is supported by permit fees in SDCI's Construction and Inspections Fund.

## Accela Support

Expenditures \$200,000

This item provides additional resources to support SDCI's permitting system (Accela). The additional budget will be used to pay for Accela's Managed Application Services to support ongoing operations and maintenance of the Accela platform and help address the backlog of needed modifications and updates to the permitting system. This item supports several City priorities, including (1) Housing Permitting – Implementing modernized technology will support building critically needed housing faster and provide support to meet the demand of housing permits; (2) Tree Service Provider Registration as required in Ordinance 126554 – This law requires tree service providers to register with the City. This new requirement has put additional demand on the Accela team and has increased the backlog of work. Initial implementation of the tree provider registry has been launched; however, further updates are needed due to Council legislation that was passed in March 2023 (Ordinance 126777) as well as improvements for the tree public notice process and to make enhancements needed based on user feedback; (3) Providing excellent customer service for Accela's 180,000 registered customers who utilize more than 300 different permit and license types. This investment will improve response times to customer problems and streamline the customer experience.

This item is envisioned as a four-year consultant contract for a total cost of \$1.7 million from June 2024 through June 2028. This item is supported by permit fees in SDCI's Construction and Inspections Fund.

## Mobile App for Inspections

Expenditures \$195,600

SDCI's inspectors currently perform data entry functions in the office and away from inspection sites. This action adds one-time budget authority in 2024 for the initial discovery phase in the creation of a mobile inspections application. A new mobile app is needed to reduce complexity and redundancy in inspector administrative tasks while significantly increasing efficiency. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

# Seattle Department of Construction and Inspections

## Add Project Coordinator for Dedicated Contract Management

Expenditures	\$148,905
Position Allocation	1.00

This item adds a new Senior Project Fund and Agreements Coordinator and provides much needed support for SDCI's contracts and agreements. SDCI's contracting and accounting needs have increased significantly in recent years due to the establishment of new programs such as the Economic Displacement and Relocation Assistance program, SDCI's initiative to address unreinforced masonry buildings (URMs), the expansion of tenant services contracts, and implementation of the new City Contract Management System in 2022. This item, which includes a \$2,868 one-time technology cost, is supported by permit fees in SDCI's Construction and Inspections Fund.

## SDCI Space Planning

Expenditures	\$605,423
--------------	-----------

This action adds one-time budget authority to redesign two spaces in the Seattle Municipal Tower: the 20th floor Applicant Service Center and the 19th floor hoteling area. These changes are needed to accommodate hybrid work. This item is funded by SDCI's tenant improvements reserve within the Construction and Inspections Fund.

## Proposed Technical

### Ongoing Changes from Current Year Legislation

Expenditures	\$620,250
Position Allocation	4.00

The appropriations bill for the tree protection ordinance (Ordinance 126825) added budget and position authority for three positions. In addition, the mid-year supplemental budget (Ordinance 126876) added budget and one position to meet the higher-than-expected workload from the Economic Displacement Relocation Assistance program established in Ordinance 126451 and the late fee limit legislation (Ordinance 126823) that passed Council in May of 2023. This technical item makes these four positions and the associated budget ongoing beginning in 2024.

### Overhead Technical Adjustment

Expenditures	\$1
--------------	-----

This item adjusts the distribution of indirect overhead expenses across programs in the Seattle Department of Construction and Inspections (SDCI). This adjustment is necessary to account for 2024 budget changes in the following SDCI budget programs: Compliance; Government Policy Safety & Support; Indirect Cost Recovery Offset; Inspections; Land Use Services; Permit Services; and Rental Housing. The adjustment is also necessary to redistribute indirect overhead across SDCI programs in response to proposed changes throughout the department. This is a net-zero budget change.

### Construction and Inspections Fund 2024 Revenue Adjustments

Revenues	\$(10,488,284)
----------	----------------

This item adjusts Construction and Inspections Fund revenues to align with the current 2024 revenue forecast. This item does not include revenue changes associated with SDCI's proposed fee changes.

### Fund Balancing Entries

Revenues	\$17,238,500
----------	--------------

## Seattle Department of Construction and Inspections

This item is a technical adjustment to balance revenues and expenditures for fund 48100, the Construction and Inspections Fund, which is managed by SDCI.

## Department Overview

The purpose of the Office of Economic Development (OED) is to shape an economically prosperous, diverse, just, and resilient city, with the guiding principle that an inclusive economy is more competitive. OED is committed to building an inclusive economy in the City of Seattle by making strategic investments to break down barriers and unlock access to opportunity, which will generate wealth equitably. OED programs focus on the five key pillars of the community-driven Future of Seattle Economy framework, which the City adopted as policy in Resolution 32099: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$107,773

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Central Cost Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

#### Ongoing Changes from 2023 Current Year Legislation

Expenditures -

This item includes ongoing budget changes resulting from current year legislation in 2023, including the 2023 Year-end Supplemental Budget Ordinance.

### Proposed Operating

#### Support Business Improvement Areas in Equity Business Districts

Expenditures \$850,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item adds funding to support the creation of business improvement areas (BIAs) in equity business districts that are historically under-resourced and lack the capacity to develop BIAs. This funding builds on investments made in the 2023 Adopted Budget and supports neighborhood business organizations in equity business districts to navigate the multi-year BIA creation process. This item aligns with recommendations made in the "Investing in Neighborhood Business Districts" strategic pillar of the FSE framework.

#### Retail Analysis and Outreach in Equity Business Districts

Expenditures \$850,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized

## Office of Economic Development

the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item adds funding to support a submarket retail study and consumer analysis in equity business districts, and to support outreach and engagement related to the study. Learnings from the study will be used to inform and support the Seattle Restored program's matchmaking efforts beyond Downtown, and particularly in equity business districts. This item aligns with recommendations made in both the "Investing in Neighborhood Business Districts" and "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillars of the FSE framework.

### Evolution of the Seattle Restored Program

Expenditures	\$875,000
Position Allocation	2.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

The Seattle Restored program was initially funded with \$536k of Coronavirus Local Fiscal Recovery funds, and aimed to revive Seattle neighborhoods with creativity and commerce by supporting short-term activations of empty storefronts. The Seattle Restored program currently has a \$1.5 million annual base budget funded by payroll tax funds. This item supports the evolution of this program into a long-term small business support program. This item provides \$625,000 in ongoing funding, and 2 FTE Strategic Advisor 1 positions, to support evolution of the Seattle Restored program, including staffing support for a location and business matchmaking strategy, business recruitment and retention, and implementation of a pilot master leasing strategy. This item also provides \$250,000 in one-time funding to conduct retail analysis and implement a retail strategy. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

### Continued Development of the Tenant Improvement Program

Expenditures	\$700,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides additional funding to support ongoing transformation of the Tenant Improvement (TI) program, including general restructuring of the program to better leverage external grant funding for TI projects, and development more robust TI awards, specifically for businesses that are not yet ready for a TI project award. This item builds upon \$1.2m of payroll tax funding in the 2024 Endorsed Budget. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework.

# Office of Economic Development

## Staffing Support for Commercial Affordability and Tenant Improvement Programs

Expenditures	\$125,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item adds funding and position authority for 1 FTE Community Development Specialist to support the Commercial Affordability and Tenant Improvement programs. These programs are currently partially staffed on a temporary basis using one-time resources from the Coronavirus Local Fiscal Recovery Fund. These temporary staffing assignments are anticipated to end in 2023. Additional staffing capacity is needed in 2024 to continue to provide project management, adequate oversight and compliance, and continued program development. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" and "Building BIPOC Community Wealth" strategic pillars of the FSE framework.

## Community Wealth Building Staffing

Expenditures	\$177,320
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item adds funding and position authority for 1 FTE Strategic Advisor 2 to support OED's convening role in leading community wealth building programs across the City. This position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's forthcoming Generational Wealth Initiative final report. Current OED community wealth building strategies include commercial affordability and ownership supports, affordable capital access opportunities, culturally responsive business assistance, and community engagement and neighborhood partnerships. Several of these items are funded in OED's base budget, with additional funding provided in the department's 2023-2024 Proposed Mid-Biennial Budget Adjustments. This item aligns with various recommendations made in the FSE framework, including those within the "Building BIPOC Community Wealth" strategic pillar.

## Public Space Activations as part of the Mayor's Downtown Activation Plan

Expenditures	\$880,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

## Office of Economic Development

This one-time item provides funding to support programming for public space activations as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. This item supports programming for public space activations, in collaboration with other City departments and downtown partners. This item aligns with recommendations made in the “Investing in Neighborhood Business Districts” strategic pillar of the FSE framework.

### **Support for Long-Range, Transformational Planning as part of the Mayor's Downtown Activation Plan**

Expenditures \$500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item provides funding to support long-range, transformational planning as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. The DAP encompasses three timelines: Bold Actions – initiatives that are underway or starting in 2023, Near-term Initiatives – efforts that will happen over the next three years, and Space Needle Thinking – long-range, transformational opportunities. This item provides continued funding to support development of long-range policy and program ideas that will support the ongoing transformation of Downtown.

### **Continued Community Engagement for the Mayor's Downtown Activation Plan**

Expenditures \$150,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This one-time item provides funding for continued community engagement related to the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle’s downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. Development of the DAP has incorporated two rounds of community engagement to date. Continued community engagement is necessary to enable ongoing refinement of DAP programming to respond to community-identified priorities related to Downtown.

# Office of Economic Development

## Ongoing Support for Liberty Project Implementation

Expenditures \$500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support the Liberty Project as part of the Mayor's Downtown Activation Plan. The Liberty Project, in partnership with University of Washington, Seattle University, and Tabor 100, supports small businesses with business consulting and strategy services, finance and accounting services, marketing services, technology services, and contract bid preparation. The Liberty Project began in 2023, with \$425k of one-time funding. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

## Develop Career Pathways

Expenditures \$1,500,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support various programs in alignment with the Office of Economic Development's workforce development strategic plan, a component of the FSE framework. This item supports programs including: a new Seattle Skill Upgrade Training Grant program, navigation and curriculum development support for IT certification and health licensure programming in the Seattle Youth Employment program (SYEP), and SYEP case management support. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" strategic pillar of the FSE framework.

## Implement Green Economy Strategies

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to implement green economy strategies and investment recommendations developed pursuant to Executive Order 2022-07. These strategies leverage new and existing workforce development programs and resources to strengthen Seattle's green economy and support BIPOC workers. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework.

# Office of Economic Development

## Construction Apprenticeship Mentorship and Support

Expenditures \$300,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support construction apprenticeships leading to achievement of journey-level state, and long-lasting construction careers as part of the Department of Finance and Administrative Services' Priority Hire program. This item aligns with recommendations made in the "Investing in Talent and Building our Workforce" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework.

## Maritime and Manufacturing Business Improvement Organization

Expenditures \$250,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item supports development of Maritime and Manufacturing Business Improvement Organization, with the purpose of activating and providing stewardship for manufacturing, maritime, and industrial sector in Seattle. This is informed by the City's adopted Industrial and Maritime Strategy. This item aligns with recommendations made in the "Growing Businesses and Key Industries" strategic pillar of the FSE framework.

## Economic Development Analytics Software

Expenditures \$200,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides support for the ongoing development and implementation of economic development analytics software to track business needs from intake through service delivery. This software improves the efficiency of the OED workflow, enables internal collaboration between divisions, and increases OED's capacity to implement recommendations from the FSE framework. This software was initially adopted as part of the departments' COVID-19 pandemic response. This item supports further software development to pivot from an acute response tool to a longer-term customer relationship management solution. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

# Office of Economic Development

## City Resource Navigation

Expenditures	\$115,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding and position authority for 1 FTE Program Intake Representative to support the Office of Economic Development Call Center and to provide resource navigation and tracking for small businesses. This position will respond to inbound inquiries and requests for support from business, service providers, and neighborhood business districts. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" strategic pillar of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

## Transformation of Special Events Office

Expenditures	\$325,000
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding and position authority for 1 FTE Strategic Advisor 3 to support the transformation of the Special Events Office and implement special events permitting software. The transformation of the Special Events Office will be guided by the strategy outlined in the Special Events Vision and Strategy Report 2020-2025. These strategies will support the ability of the Special Events Office to be more proactive in developing a pipeline of energizing and revitalizing special events for the City, rather than the more reactive stance the City currently takes. This item aligns with recommendations made in the "Supporting Small Business and Women and Minority-Owned Business Enterprises" and "Growing Businesses and Key Industries" strategic pillars of the FSE framework. This item also supports the Downtown Activation Plan, the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic.

## Consultant Support for Community Outreach and Grants

Expenditures	\$120,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

## Office of Economic Development

This one-time item adds funding for a consultant contract to advise on community outreach and grant application work related to economic development and some state legislative matters. This item increases OED's capacity to implement recommendations from the FSE report.

### Grants and Contracts Staffing

Expenditures	\$350,000
Position Allocation	3.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding for two Grants and Contracts Specialists, and one Community Development Specialist to expand capacity to manage grants and contracts workload. OED anticipates an increase in grants and contracts management workload related to items proposed as part of the 2023-2024 Mid-Biennial Budget Adjustments. Additionally, a portion of current grants and contract work is managed by eight temporary staff funded by one-time Coronavirus Local Fiscal Recovery funds, and these temporary staffing assignments are expected to end in early 2024. This item increases OED's capacity to implement recommendations from the FSE framework.

### Professional Development Funding

Expenditures	\$120,000
--------------	-----------

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. In 2023, the Office of Economic Development (OED) finalized the Future of Seattle Economy (FSE) report, which provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget adjustments allocate payroll tax economic revitalization investments in alignment with the FSE framework, as endorsed by Resolution 32099.

This ongoing item provides funding to support professional development activities to improve effectiveness of service delivery and improve staff retention. This funding will support travel and attendance to key regional, state, and national conferences, technical training, and other soft skill development. As OED continues to add staff and respond to turnover, this item provides critical funding for staff to grow their networks and professional skills. This item increases OED's capacity to implement recommendations from the FSE framework.

### Proposed Technical

#### Prior-Year Community Development Block Grant Budget Clean-up

Expenditures	\$(1,374,394)
Revenues	\$(363,675)

This technical item reduces budget associated with one-time, prior-year Community Development Block grants (CDBG). This budget erroneously carried forward from 2023 due to data errors in the budgeting system. Additionally, this item corrects funding source coding for the Office of Economic Development \$1,000,000 allocation of 2024 CDBG funding in the proposed budget.

# Office of Economic Development

# Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/><http://www.seattle.gov/examiner/><http://www.seattle.gov/examiner/>

## Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$15,473

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Technical

#### Hearing Examiner Salary Increase

Expenditures \$20,000

This item is a technical adjustment to add budget for an ongoing salary increase approved by the City Council with the Hearing Examiner's reappointment to a 4-year term. The salary increase was effective March 21, 2023.

# Office of Housing

Maiko Winkler-Chin, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

## Department Overview

The mission of the Office of Housing (OH) is to build strong and healthy communities and to increase opportunities for people of all income levels to live in our city. OH manages investments from the Seattle Housing Levy and other funding sources to fund the production, preservation, acquisition, and long-term stewardship of affordable housing in Seattle. Additionally, OH supports affordable housing providers and low-income residents, provides home repair and weatherization assistance, funds permanently affordable homeownership opportunities, and leads Citywide planning and policy development on affordable housing issues.

### Description of Incremental Budget Changes

#### Baseline

#### Ongoing Changes from 2023 Current Year Legislation

Expenditures	\$325,437
Position Allocation	1.00

This item includes ongoing budget and position changes resulting from current year legislation in 2023, including the 2023 Year-end Supplemental Budget Ordinance.

# Office of Housing

## Citywide Adjustments for Standard Cost Changes

Expenditures \$(562,916)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Central Cost Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

## Fund Source Correction for Payroll Expense Tax-Funded Activities

Expenditures \$(2,291,095)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item shifts funding for certain labor costs associated with Payroll Expense Tax program from the General Fund to the Payroll Expense Tax Fund in accordance with fiscal management policies. As a result of this action, all Office of Housing appropriation in the Payroll Expense Tax Fund will be part of the Housing and Services program category. All Office of Housing work associated with payroll tax is to manage and support initiatives within this category.

## Tracking for Community Self Determination Fund

Expenditures -

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget-neutral item corrects project coding for certain Payroll Expense Tax budget to improve the department's ability to track budget and expenditures related to the Community Self Determination Fund. The codified Payroll Expense Tax Fund spending plan requires that 13% of the Housing and Services category, equal to \$17.6m in 2024, is allocated for community focused acquisition and development of affordable housing, and to support affirmative marketing efforts and development and implementation of community preference plans. This portion of the Housing and Service category is generally referred to as the Community Self Determination Fund.

## Proposed Operating

### Appropriate Anticipated Revenues from the 2023 Seattle Housing Levy

Expenditures \$88,147,419

Revenues \$97,180,023

This item appropriates anticipated revenues from the 2023 Seattle Housing Levy, in accordance with the levy spending plan prepared by the 2023 Seattle Housing Levy Technical Advisory Committee. In 2024, levy revenues exceed expenditures in anticipation of increased labor costs in the outyears of the levy. Levy revenues also exceed

## Office of Housing

expenditures because revenues intended for operating, maintenance, and services (OMS) subsidies are collected over the seven-year levy period, but are intended for OMS expenditures over a 20 year period. This item also makes several technical adjustments to align budget structure with the 2023 Levy.

### Contracts Staffing Support

Expenditures	\$116,783
Position Allocation	1.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item adds 1 FTE Grants and Contracts Specialist to support expanded contract management workload related to Payroll Expense Tax funded programs, and anticipated workload related to 2023 Seattle Housing Levy programs. This position is jointly supported by payroll tax and levy proceeds. This item builds upon mid-year supplemental changes made in 2022 that added position authority for 12.5 FTE to expand the Office of Housing's capacity.

### Community Self Determination Fund Staffing Support

Expenditures	\$77,728
Position Allocation	0.50

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item increases an existing 0.5 FTE Community Development Specialist, Senior to 1 FTE. This position, added in 2022, supports the Community Self Determination Fund, and other efforts to increase the participation of community-based organizations in both multifamily and homeownership development. The codified Payroll Expense Tax Fund spending plan requires that 13% of the Housing and Services category, equal to \$17.6m in 2024, is allocated for community focused acquisition and development of affordable housing, and to support affirmative marketing efforts and development and implementation of community preference plans. This portion of the Housing and Service category is generally referred to as the Community Self Determination Fund. This position is jointly supported by payroll tax and 2023 Housing Levy proceeds.

### Fund Source Correction for Workforce Stabilization Fund

Expenditures	-
--------------	---

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget-neutral item corrects fund sources to reflect that a portion of the Workforce Stabilization Fund (WSF) program will be supported by revenues from the 2023 Seattle Housing Levy. The WSF, added in the 2023 Adopted Budget, aims to support Permanent Supportive Housing (PSH) and PSH residents by investing in PSH service providers and employees. The WSF supports increased PSH worker wages, as well as other PSH operating, maintenance, and services needs. This change aligns with the Levy planning work of the Technical Advisory Committee.

# Office of Housing

## Payroll Expense Tax Funded Resident Services

Expenditures -

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This budget neutral-item aligns budget to reflect that a portion of payroll tax funding supports resident services programming. Resident services contribute to the success and stability of residents living in affordable housing, and provide a variety of supports to residents (e.g., programming for food, employment, community events, social and emotional support, or health education). This change aligns with the Levy planning work of the Technical Advisory Committee.

## Recurring Grants and Funding Source Alignment

Expenditures -

Revenues \$6,504,414

This item recognizes revenues from various grants that the Office of Housing anticipates receiving in 2024. These grants include: U.S. Department of Energy Bipartisan Infrastructure Law grant, U.S. Department of Housing and Urban Development Renewable Energy Home Heating Conversion grant, U.S. Department of Housing and Urban Development HOME Investment Partnership Program grant, U.S. Department of Housing and Urban Development Community Development Block grant, and Washington State Department of Commerce Weatherization Plus Health grant. This item makes several technical corrections to grants data in the Office of Housing baseline budget to accurately reflect new grants appropriated in 2024.

## Transfer Funding to Human Services Department for Rosie's Village Relocation

Expenditures \$(993,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This one-time item transfers payroll tax funding to the Human Services Department to support relocation of the Rosie's Village tiny home site, a pre-development cost for affordable housing that is anticipated to be created on the site.

## Payroll Expense Tax Fund Reduction

Expenditures \$(3,685,560)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$136.5 million is allocated to investments promoting housing and services.

This item reduces payroll tax funding from the Office of Housing in order to balance payroll tax budget with available resources.

# Office of Housing

## Proposed Technical

### Fund Source Alignment for Staffing and Operational Support

Expenditures

-

This budget-neutral item aligns fund sources for staffing and operational costs with the Office of Housing (OH) administrative funding methodology. Generally, staffing and operational costs in OH are covered by each fund source in an amount that is proportional to their share of the total OH budget.

# Office of Housing

# Office of Immigrant and Refugee Affairs

Hamdi Mohamed, Director

(206) 233-3886

[www.seattle.gov/iandraffairs](http://www.seattle.gov/iandraffairs)

## Department Overview

The Office of Immigrant and Refugee Affairs (OIRA) was established in 2012 by Seattle Ordinance 123822 to recognize the importance and need for a stronger relationship and increased accountability between the City of Seattle and immigrant and refugee communities. OIRA serves as the backbone and coordinator of key City efforts across all departments to advance equity and access for immigrants and refugees.

As an office dedicated to serving immigrants refugees, our core values and shared agreements are centered around integrity, humility, communities, innovation, gratitude, respect, accountability, partnership, and transparency. We address the underlying causes of inequities and develop programs and policies that empower our community partners and those they serve.

OIRA serves immigrant and refugee Seattle residents in the areas of language access, immigration legal services, workforce development, and more. OIRA is focused on incorporating community needs and direct feedback in policy decisions and program development while also centering the City's Race and Social Justice Initiative.

<b>Total 2024 Proposed Budget</b>	<b>\$6,193,114</b>	<b>12.50</b>

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$24,843

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Increase Legal Defense Network Support

Expenditures -  
 Position Allocation 0.50

This item modifies an existing 0.5 FTE to make it a full-time 1.0 FTE to manage the Legal Defense Network (LDN) program. OIRA has grant funding and ongoing savings in the LDN budget to support the full-time position. For the past three years OIRA has used underspend to bring this position to full-time capacity. This item is needed to permanently make the position full-time to support the level of work required to manage the program.

#### Investment in Immigrant and Safety Access Network

Expenditures \$150,000

This item adds ongoing General Fund for the Immigrant Safety and Access Network (ISAN). Building upon the success

## Office of Immigrant and Refugee Affairs

of OIRA's Immigrant Family Institute (IFI) program that operated from 2018 to 2020, the ISAN program aims to establish a network of community-based organizations that provide support for immigrant and refugee families who experience disproportionate harm from violence. In 2023, OIRA contracted \$220,000 to 9 community organizations through ISAN. The funding encompassed one-time \$100,000 funding from King County, some underspend from 2022, and the 2023 base budget of \$70,000. This proposal requests \$150,000 of ongoing funding to maintain the ISAN program at its current level of \$220,000.

### **Seattle Housing Authority Grant for New Citizen Program**

Expenditures	\$51,652
Revenues	\$51,652

This item includes revenues and expenditures for a grant received annually from the Seattle Housing Authority (SHA). This grant supports the participation of SHA residents in the New Citizen Program (NCP), which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Over 400 participants were naturalized and became US citizens in 2022 through NCP.

### **Washington Department of Social and Health Services Grant for New Citizen Program**

Expenditures	\$865,600
Revenues	\$865,600

This item includes revenues and expenditures for a grant from the Washington Department of Social and Health Services. This annual grant supports the participation of state benefits recipients in the New Citizen Program (NCP), which provides assistance to income-qualified individuals to apply for naturalization using a case management model. Over 400 participants were naturalized and became US citizens in 2022 through NCP.

# Office of Labor Standards

Steven Marchese, Director

(206) 684-5397

[www.seattle.gov/laborstandards](http://www.seattle.gov/laborstandards)

## Department Overview

The mission of the **Office of Labor Standards (OLS)** is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for workers that perform work within Seattle city limits. As of September 1, 2023, there are 19 such standards, established through City ordinances.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the Community Outreach and Education Fund to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the Business Outreach and Education Fund which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to small businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

OLS also provides administrative and policy support to two community boards and commissions: The Labor Standards Advisory Commission and the Domestic Worker Standards Board.

## Budget Snapshot

<b>Total Incremental Changes</b>	<b>\$(115,184)</b>	<b>-</b>
<b>Total 2024 Proposed Budget</b>	<b>\$8,340,493</b>	<b>36.00</b>

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$(123,184)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Proposed Operating

##### Labor Cost Adjustment

Expenditures \$137,293

This item increases appropriation authority by \$137,293 the Office of Labor Standards to (00190)-(OLS-BO-LS-100) for labor costs experienced in FY 2024 and beyond. This item will make the OLS labor budget reflect the current pay for the employees instead of the typical mid-point budgeting. This item is offset by a 4.5% vacancy assumption.

## Office of Labor Standards

### Classification Adjustment for Administrative Staff Member

Expenditures	\$15,306
Position Allocation	-

This item increases appropriation authority by \$15,306.02 on-going starting in FY 2024 in the Office of Labor Standards to (00190)-(OLS-BO-LS-100) for cost associated with a Seattle Department Human Resources determination that the FY 2023 addition of an Administrative Specialist III is more appropriately classified as an Administrative Staff Assistant.

### Vacancy Rate Salary Savings

Expenditures	\$(152,599)
--------------	-------------

This item increases the department's budgeted vacancy rate from 0% to 4.5%, resulting in approximately \$153,000 annually in budget savings, which will offset the Classification Adjustment to Administrative Staff Assistant and Labor Cost Adjustment.

### OLS Fund Revenue Updates

Revenues	\$(830,204)
----------	-------------

This item decreases revenue from the General Fund to the Office of Labor Standards fund to reflect the budget changes described above. OLS is using fund balance from 2023, which means the OLS Fund needs a lower General Fund transfer than it did in 2023. This item reduces the General Fund transfer from \$8 million to \$7.1 million.

### Proposed Technical

#### Ongoing Changes from Current Year Legislation

Expenditures	\$8,000
--------------	---------

This is a technical item to reflect the ongoing budget change resulting from current year legislation in 2023, including the Q3 Supplemental Budget Ordinance. This item is for the \$8,000 ongoing costs associated with implementation of the App-Based Worker Paid Sick and Safe Time Ordinance.

#### Office of Labor Standards Fund Balancing Entry

Revenues	\$715,021
----------	-----------

This is a technical item to record a fund balancing entry for the OLS Department Fund, which are primarily managed by this department. OLS is anticipated to end 2023 with a fund balance of \$1.2 million, which partially offsets their anticipated expenditures in 2024. This entry makes use of that remaining fund balance and, when paired with the General Fund transfer of \$7.1 million, OLS will have the funding needed for approved expenditures in 2024.

# Department of Neighborhoods

Jenifer Chao, Director

(206) 684-0535

[www.seattle.gov/neighborhoods](http://www.seattle.gov/neighborhoods)

## Department Overview

The Seattle Department of Neighborhoods (DON) mission is to strengthen Seattle by engaging all communities. Our work is driven by two North Stars:

1. Put race and equity at the center of all decisions and actions; and
2. Invest in the power of communities to forge their own solutions.

DON provides resources and opportunities that help Seattle residents build strong communities, receive equitable access to government, and improve their quality of life. This is accomplished by centering *relationships* and *investing in community-driven solutions* that *build capacity* for Seattle's communities.

**Relationships:** Cultivating, building, and sustaining resilient relationships is core to everything we do. It's what allows us to build trust and connections and ensure that all communities have voice, inclusion, and influence in City programs and projects.

**Investments:** DON invests in people, funding, public spaces, creative innovation, and community advocacy to create systemic change for communities with histories of harm.

**Capacity Building:** Our work is not short-term or transactional; it is long-term and relational. Our investments and relationships are designed to build and sustain community capacity so that individuals, organizations, and communities grow into their power to shape, influence, and transform the life of their city.

### Description of Incremental Budget Changes

#### Baseline

##### Health Care Reconciliation

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

# Department of Neighborhoods

## Citywide Adjustments for Standard Cost Changes

Expenditures \$68,497

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Technical Adjustment to Incremental Central Cost Manual (CCM) Changes

Expenditures -

This item is a budget-neutral alignment of accounts related to Citywide Adjustments for Standard Cost Changes.

## Abrogate One-time Funded Positions

Position Allocation (2.50)

This item reduces position authority supported by one-time funding in the 2023 Adopted Budget. This item abrogates 1 FTE Strategic Advisor 1, 1 FTE Planning and Development Specialist II, and 0.5 FTE Public Relations Specialist, Senior. These one-time positions were added in the 2023 Adopted Budget to support one-time work on the Generational Wealth Initiative report. Recommendations from the Generational Wealth Initiative final report will inform ongoing Citywide Community Wealth Building programs, coordinated by the Office of Economic Development.

## Proposed Operating

### One-time Implementation support for the Chinatown-International District Neighborhood Strategic Plan

Expenditures \$300,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development.

This one-time item adds payroll tax funding to support implementation of the Chinatown-International District (CID) Neighborhood Strategic Plan. This item provides resources for consulting assistance, community engagement, participant stipends, and other direct implementation costs. This item builds upon previous investments supporting the CID Visioning Advisory Group, a coalition of more than 30 community-based organizations working to build a framework to guide community-centered engagement and investment strategies, and advance the collective self-determination of the CID community. Previous years' budgets have provided funding for different phases of this work, including \$800,000 of one-time funding in the 2022 Adopted Budget.

### Increase Funding for Chinatown-International District Public Safety Coordinator

Expenditures \$25,000

This item increases funding for the Chinatown-International District Public Safety Coordinator from \$75,000 to \$100,000. The CID Public Safety Coordinator serves as a trusted liaison and advocate between the City and the

## Department of Neighborhoods

community, and supports enhanced transparency, collaboration, and trust with residents, small businesses, and community organizations on issues related to public safety. This item aligns budget for the CID Public Safety Coordinator contract with the amount budgeted for the Ballard and South Park Public Safety Coordinator contracts.

### **Increase Funding to Support the Administration of the Payroll Expense Tax Oversight Committee**

Expenditures \$50,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax.

This ongoing item, funded with payroll tax via a transfer to the General Fund, provides funding for program expenses necessary to convene and facilitate the Payroll Expense Tax Oversight Committee. This funding will support non-labor costs, including the creation of an annual report, member stipends, and other general support to the board. The 2022 Adopted Budget provided funding for 1 FTE Strategic Advisor 1 to facilitate the PET Oversight Committee, however no non-labor budget was provided at that time.

### **Human Services Provider Pay Increase for Rainier Beach: A Beautiful Safe Place for Youth**

Expenditures \$11,825

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item provides a 2% increase for provider pay equity for the Rainier Beach: A Beautiful Safe Place for Youth contract. This contract was transferred to DON from the Human Services Department (HSD), and this adjustment is consistent with adjustments made to HSD contracts.

### **Increase Vacancy Rate Assumption to 2.7%**

Expenditures \$(215,593)

This item increases the Department of Neighborhoods' budgeted vacancy rate from 0% to 2.7%, resulting in approximately \$215k annually in budget savings. This vacancy rate assumption is based on historical vacancy rates for the department, and savings from this item support several items in the department's 2023-24 Proposed Mid-Biennial Budget Adjustments.

## **Proposed Technical**

### **Internal Department Reorganization**

Expenditures -

Position Allocation -

This budget-neutral item makes several organizational changes to the department to improve organizational alignment and financial reporting. This item shifts budget and position authority to align with several new budget programs, including: Strategic Partnerships, Commissions, and Civic Engagement & Leadership Development.

# Department of Neighborhoods

## Fund Source Correction for Community Innovations Division

### Director

Expenditures -

This budget-neutral item shifts funding for the Community Innovations Division Director from the Payroll Expense Tax Fund to the General Fund in accordance with fiscal management policies.

## Technical Adjustment to Payroll Expense Tax Fund

Expenditures -

This budget-neutral item makes several adjustments to correct negative budget in certain accounts in the Payroll Expense Tax Fund.

## Miscellaneous Technical Adjustments

Expenditures -

This budget-neutral item makes several technical adjustments to reconcile and align accounts, including centralizing budget, correcting negative budget in certain accounts, and reclassifying accounts to align with anticipated actuals.

# Department of Neighborhoods

Rico Quirindongo, Director

(206) 386-1010

<http://www.seattle.gov/opcd>/<http://www.seattle.gov/opcd>/<http://www.seattle.gov/opcd>

## Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle’s future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of “an inspiring city, in harmony with nature, where everyone thrives.” In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including annual amendments to the City’s Comprehensive Plan, implementation of legislation to make it easier for property owners to create accessory dwelling units (ADUs) and develop affordable housing; development of new Design Guidelines in six neighborhoods; 130th Street and 145th Street station area planning; industrial and maritime strategy planning; funding 63 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making to address policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in four divisions: Equitable Development, Long Range Planning, Community Planning, and Land Use Policy. OPCD also has a small urban design group and an Indigenous Planner that work across divisions. OPCD houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission. OPCD also staffs the Equitable Development Initiative Advisory Board.

## Description of Incremental Budget Changes

### Baseline

#### Central Cost Manual Baseline Adjustment

Expenditures -

This budget-neutral adjustment aligns OPCD's baseline budget with the 2024 Endorsed Central Cost Manual.

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$(28,517)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Remove Comprehensive Plan Funding from Baseline

Expenditures \$(130,000)

## Office of Planning and Community Development

This item removes \$130,000 that was added in the 2021 Adopted Budget for the One Seattle Comprehensive Plan major update. The major update was funded in the 2021-2023 budgets through a combination of funding allocations. This budget item remained in OPCD's baseline budget for two additional years to help meet the project's total funding needs. In 2024, the EIS and outreach work will be complete, OPCD will release the final plan for adoption, and the department will begin work on related legislative updates.

### Proposed Operating

#### **Short-term Staffing for Economic Revitalization Initiatives**

Expenditures	\$169,790
Position Allocation	1.00

The City's 2024 Proposed Mid-Biennial Budget Adjustments appropriate approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. This item provides a 2-year Strategic Advisor 1 position to provide additional planning staff capacity related to the downtown activation plan and downtown planning functions. OPCD's planners are anticipating unprecedented workload demands in 2024 as they work on the Downtown Subarea Plan, the One Seattle Comprehensive Plan, light rail station area planning, and other items. This item provides critical capacity for downtown planning and recovery efforts.

#### **Increase Equitable Development Initiative with Short-Term Rental Tax**

Expenditures	\$585,000
--------------	-----------

The August 2023 revenue forecast projects higher Short-Term Rental Tax (STRT) revenues than were projected when the 2024 Endorsed Budget was developed. This item provides additional support for Equitable Development Initiative (EDI) grants. This action brings total STRT EDI grant funding to \$5 million. This item is consistent with Ordinance 125872, which indicates that \$5 million of STRT should be allocated to EDI grants.

#### **Equitable Development Initiative Finance Staffing**

Expenditures	\$149,816
Position Allocation	1.00

This item provides one Senior Finance Analyst to address capacity needs in supporting the Equitable Development Initiative (EDI). This new finance staff person will support the EDI division; track EDI awards and improve tracking and reporting systems; provide technical assistance and trainings for EDI staff; provide support for internal staff on grant and contract management; and may provide technical support for external community partners. This item is funded with Short-Term Rental Tax (STRT). Per Ordinance 125872, \$1.069 million of STRT should be allocated to support EDI administration and project management.

#### **Shift Funding Support for EDI Staffing**

Expenditures	-
--------------	---

This ongoing item shifts \$800,000 of Equitable Development staffing and other costs from the General Fund to Short-Term Rental Tax to relieve pressure on the General Fund given the growth in resources available to the Equitable Development Initiative.

# Community Police Commission

Cali Ellis, Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission>/<http://www.seattle.gov/policecommission>/<http://www.seattle.gov/policecommission/>

## Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. The CPC was made a permanent part of the system of civilian oversight of police in 2017 through legislation ([Ordinance 125315](#)). Membership of the CPC was modified in 2023 ([Ordinance 126860](#)) into a 15-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

The CPC is charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$24,201

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Deputy Director Position Addition

Expenditures \$191,887  
Position Allocation 1.00

## Community Police Commission

A Deputy Director position is added to assist in managing the operations of the office, facilitate strategic planning, and ensure the following: a) the ongoing structural integrity of CPC commission administration an operations; b) that the CPC is meeting it mission and vision in leveraging the ideas, talent, experience and expertise of the people of Seattle to ensure police services fully comply with the Constitution of the United States, ensure public and officer safety, and promote effective, constitutional policing and a police department that has the trust, respect, and support of the community; and c) high-level decision-making in the areas of program and policy management, as well as in the agency’s community engagement efforts. The Deputy Director will also act on behalf of the Executive Director when necessary. Funding is transferred from the Finance General Department of Justice (DOJ) Settlement Agreement/Police Accountability reserve.

# Community Assisted Response and Engagement

Amy Smith, Chief

[www.seattle.gov/care](http://www.seattle.gov/care)

## Department Overview

The Community Assisted Response and Engagement (CARE) department, formerly known as the Community Safety and Communications Center (CSCC), was established as a new department in 2021 to provide timely, accurate, and vital information to the City’s first responders, city service providers, and to the public. Ordinance 126237 transferred the primary 911 center from SPD to CARE, effective June 1, 2021. CARE is home to the primary Seattle 911 call center and is the largest in the Pacific Northwest, both by staff size and volume of calls received, averaging over 800,000 per year. The center employs 153 employees who work 24 hours a day, 365 days a year.

The CARE department seeks to enhance public safety through a pilot Dual Dispatch program that will provide additional behavioral health professionals available to respond to people experiencing non-violent mental health crises or quality of life concerns. To begin with, these unarmed community responders will be directly dispatched with police to priority 3 and priority 4 person down and welfare check call types. In 2022, Seattle 911 data shows a response time consistently longer than one hour to these call types; the department seeks to reduce that response time and to support SPD's ability to respond to more urgent 911 calls swiftly. The vision for this team into the future is to expand to additional call types as deemed appropriate.

<b>Total Incremental Changes</b>	<b>\$4,900,754</b>	<b>13.00</b>
<b>Total 2024 Proposed Budget</b>	<b>\$26,583,399</b>	<b>163.00</b>

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$1,024,535

Citywide technical adjustments made in the baseline budget phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

##### Increase Operating Budget for improved staffing levels

Expenditures \$1,101,840

This item increases appropriation authority for the CARE department to account for improvements in staffing levels and call response time made over 2022-2023. In 2022, CARE was experiencing a very high vacancy rate and long recruitment and onboarding timelines. The department improved the recruitment, hiring, and training process to hire over 45 new employees in 2023 (representing almost one-third of the department). Additional funding will support the department in maintaining improved staffing minimums and create a new budget baseline.

# Community Assisted Response and Engagement

## Proposed Operating

### **Add 3 FTE Emergency Communications Dispatchers**

Expenditures	\$355,044
Position Allocation	3.00

This item adds 1.0 FTE 911 Emergency Communications Dispatcher I and 2.0 FTE Dispatcher II in 2024 to the CARE department. Additional call takers will improve the department's ability to answer the City's 911 Emergency line and better enable the CARE department to maintain call-answering standards while utilizing less overtime. The department has relied on overtime to meet call-answering standards and these positions will support the department to meet standards while reducing overtime usage.

### **Funding for CARE department planning purposes**

Expenditures	\$607,000
--------------	-----------

This item increases appropriation authority for the CARE department by \$607,000 to envision and prepare for future needs as the department mandate has grown. A significant focus of the CARE Teams will be to implement community-focused services unrelated to the criminal justice system, non-police efforts designed to build community cohesion, provide opportunities for youth and young adults, strengthen community anchors, and the natural guardians of place. Further expansion of the CARE department is expected in 2024 and beyond to include consolidation of various City efforts. It will focus on the City's non-police and community-based services and solutions to community safety challenges. This funding will provide a staffing study to create a framework for consolidation, establish program evaluation measures, create information collateral, and administrative support.

## Proposed Technical

### **Ongoing funding for Dual Dispatch Program**

Expenditures	\$1,812,334
Position Allocation	10.00

This item increases appropriation authority to support the ongoing dual dispatch program in 2024. The Mayor's Office and the City Council have worked collaboratively to envision a dual dispatch program for the City of Seattle. The dual dispatch team responds to low acuity calls with a mental and behavioral health nexus, this provides Seattle community members with additional public safety resources. The program has three teams, which include behavioral health professionals to respond to non-emergency situations. The program has already begun redirecting 911 calls through prioritization and dispatch resources specific to the incident.

Funding was appropriated in Ordinance 120617 for the Dual Dispatch program in 2023, covering the costs of facilities, vehicles, and personnel. This item makes that funding ongoing for 10 full-time positions, including 1 FTE Deputy Director of Alternative Response (Executive 2), 1 FTE Executive Assistant (Exec Asst), 1 FTE Public Information Officer (StratAdvsr1, CL&PS) to provide administrative and policy support. In addition, 7 FTE positions were created for the dual dispatch pilot program - 1 FTE Manager (Manager 2), and 6 FTE First Response Specialists.

Curry Mayer, Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>  
<https://www.seattle.gov/emergency-management>  
<https://www.seattle.gov/emergency-management>

## Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, “Bringing people together to reduce the impacts from disasters.” This office has the city-wide responsibility to:

- Facilitate citywide response which includes orchestrating coordination conference calls, managing response actions/activities and physically maintaining and managing the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to emergencies and disasters of all sizes and impacts,
- Manage the City’s comprehensive activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- Administer trainings and exercises that prepare City responders, volunteers, and the public to respond and recover from disasters, and
- Seek and administer post disaster recovery costs and pre-disaster mitigation grants often totaling into the millions of dollars for the city and its departments.

OEM also focuses substantial effort in preparing the community for disaster through public education, capability-building with community organizations, vulnerable population outreach, limited English proficiency, low income and immigrant and refugee communities.

# Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

[www.seattle.gov/fire](http://www.seattle.gov/fire)

## Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue, and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units, rescue companies, and fireboats to mitigate the loss of life and property from fires, medical emergencies, and other disasters. SFD maintains 33 fire stations strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle, and West Seattle.

SFD has a strong record of fire prevention resulting in fewer fires than the national average and of other cities with similar populations. Seattle averages 1.7 fires annually per 1,000 residents, which is significantly lower than the national average of 4.1. Over the past five years, the average number of total structure fires per year in Seattle has been 901. Total fire dollar loss averaged \$20.6 million per year.

SFD provides emergency medical responses, which account for approximately 74% of all SFD emergency calls in Seattle. To respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care or basic life support. SFD staffs seven medic units, each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. In 2019, the program was renamed Mobile Integrated Health to better reflect its work, which now includes the Health One multidisciplinary response team of firefighters and case managers. Health One launched in 2019 to respond to individuals immediately in their moment of need and help them navigate the situation - whether they need medical care, mental health care, shelter, or other social services. Currently, core activities of Mobile Integrated Health are high utilizer intervention (individuals and locations), low acuity data and trend analysis, establishing referral partnerships, and alternate treatment/transportation services.

The department also has marine, hazardous materials, high-angle, tunnel, and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wildland firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes, and regulation of places of public assembly and public events to ensure life safety.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$2,398,564

Citywide technical adjustments made in the baseline budget phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Adopt new SFD fee and positions to maintain inspection turnaround time

Expenditures \$300,000

Revenues \$300,000

Position Allocation 2.00

# Seattle Fire Department

This item creates a new fee to support SFD's construction-related goal of maintaining timely response and inspection services. In the building permit process, SFD is responsible for permits ranging from phased construction permits to fire alarm permits. In 2020, SFD was identified as causing increased turnaround times in the City's permitting process due to staffing issues. Since then, SFD has decreased the time for processing permits.

This proposal adds \$300,000 in new revenue to support additional staff to maintain this progress. The fee will be used to support a management systems analyst, which will sunset in 2026, to set up business processes and focus on improving SFD's use of Accela, the City's construction permitting software. This body of work will result in efficiencies and end duplicative work within the division. In addition, this item includes 1.0 FTE construction inspector to support the department's response to inspection requests in the field. The new fee and increased staffing will result in maintaining inspection turnaround time.

## Paramedic Training Captain

Position Allocation 1.00

This proposal adds 1.0 FTE Fire Captain Paramedic position to the Battalion 3 Medic One program to support the University of Washington Paramedic Training Program. An emergency position was approved in September 2023 and will expire at the end of 2023, and this action will make that position ongoing. The Medic One Foundation will fully fund the costs associated with the position.

## Recurring Grant Ordinance

Expenditures \$792,679  
Revenues \$792,679

This item reflects grants pending or preliminary awards that will finalize in 2023, which will reimburse the department for expenses beginning in early 2024. A UASI grant provides funding for equipment procurement and training, includes items like structural collapse cutting/breaching equipment and lifting/shoring equipment to support missions within the UASI region. Approximately 48 UASI First Responders will be trained in structural collapse and heavy rescue.

## Increase Overtime for additional EMS and Fire Guard Services required for special events

Expenditures \$663,349

This item increases overtime budget in 2024 to account for increased EMS and Fire Guard Services required for special events. The amount of special event activity has increased Citywide and requires more emergency medical and fire guard services. These services are reimbursed by the venue/event promoter and this item corresponds with a projected revenue increase.

## Proposed Technical

### Add Fire Fighter FTEs to support West Seattle operations

Position Allocation 24.00

This item adds permanent positions to support West Seattle operations. During the closure of the West Seattle Bridge in 2020, funding was added to support additional operations in West Seattle on a temporary basis. During the 2023-2024 Budget process, the City Council added overtime funding to continue these operations after the bridge was reopened. The additional 24 FTEs are needed to make these temporary services permanent at Fire Station 26 and 37. This will allow the Fire Department to increase base staffing to support ongoing operations. Additional funding will be needed in 2025 to purchase a new Ladder truck and provide for recruit training for this higher level of overall staffing.

# Seattle Fire Department

## Revenue Adjustments

Revenues \$924,609

These are adjustments to base revenues that are not tied to policy or proposed budget decisions. These adjustments are driven by changes in economic and service demand conditions.

## Prior Ordinance Position Technical Adjustment

Position Allocation 1.00

An administrative position added in Ordinance 126706 will now be reflected in the ongoing base budget.

## Position reorganization to improve reporting structures

Expenditures -

Position Allocation -

This technical adjustment results in a net neutral change to match operational needs by transferring administrative positions between divisions. This change clarifies reporting structures and roles, which should result in administrative duties being accomplished more effectively.

## Removal of Sound Transit funded position

Position Allocation (1.00)

This item will remove 1.0 FTE Fire Capt-80 position authorized by Ordinance 126257 in 2020 to coordinate tunnel rescue training and funded by Sound Transit. Effective June 7, 2023, this work was concluded, and this position is no longer required.

# Firefighter's Pension

Steve Brown, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension>

## Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or their designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations.

The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

**Expenditures** **\$1,255**

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Technical

#### Fund Balancing Adjustment(s) - Proposed

**Revenues** **\$1,074,901**

This is a technical item to record a fund balancing entry for the Fire Fighters' Pension Fund, which is primarily managed by the Firefighters' Pension Board. Balancing entries are used to capture the use of or contribution to fund balances to explain the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing fund balances, to cover the expected costs. For the FPEN Fund, this item captures a use of fund balance to cover the difference between revenues and expenditures.

#### Fund Balancing Adjustment(s) - Proposed

**Revenues** **\$(1,116,000)**

This is a technical item to record a fund balancing entry for the Fire Pension Actuarial Account Fund (61050), which is managed by the Firefighters' Pension Board and the City Budget Office. Balancing entries are used to capture the use of or contribution to fund balances to explain the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing

## Firefighter's Pension

fund balances, to cover the expected costs. For the FPEN Actuarial Fund, this item is capturing a contribution to fund balance.

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig><http://www.seattle.gov/oig><http://www.seattle.gov/oig>

## Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 as part of the City of Seattle’s police accountability system through ([Ordinance 125315](#)). The OIG oversees the management, practices, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA), in order to promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct. These goals are achieved through the issuance of systemic recommendations by OIG, aimed to promote lasting reforms which reflect the values of Seattle’s diverse communities. The ordinance cloaks OIG with the responsibility for ensuring “ongoing fidelity” to reforms under the Consent Decree. Since 2021, monitoring the Consent Decree has been performed by a federal court appointed monitor. In 2023 the city filed a motion, and the Court approved, transferring this activity to OIG.

The summation of OIG’s responsibilities include:

- Conducting performance audits and reviews to ensure the integrity of SPD and OPA processes and operations;
- Reviewing OPA’s intake and investigation of SPD misconduct allegations;
- Evaluating SPD response to incidents involving death, serious injury, serious use of force, mass demonstrations, or other issues of significant public concern, to assess the integrity of SPD investigative processes;
- Conducting reviews mandated by the Accountability Ordinance of: 1) SPD acquisition and use of surveillance technologies ([SMC 14.18](#)) and 2) gathering and use of “intelligence” information by SPD ([SMC 14.12](#));
- Ensuring SPD is meeting its mission to address crime and improve quality of life through the delivery of constitutional, professional, equitable, and effective police services that retain the trust, respect, and support of the community;
- Making recommendations to policymakers aimed at increasing fairness, equity, and integrity in the delivery of SPD services and related criminal justice system processes; and
- Conducting continued oversight of the City and SPD’s fidelity to the Consent Decree, by periodical and permanent assessments of the core areas of consent decree (Bias Free Policing, Stops and Detentions, Use of Force, and Crisis Intervention) as previously performed by the Department of Justice (DOJ) and the Police Monitor Team.

## Office of Inspector General for Public Safety

This change includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Q3 Supplemental Budget Ordinance. Funding is transferred from the Finance General Department of Justice (DOJ) Settlement Agreement/Police Accountability reserve.

- This technical adjustment adds 3.0 FTE and appropriation authority to OIG as approved in the 2023 Mid-Year Supplemental Budget Ordinance. In 2012 the city and the DOJ entered into a settlement agreement (“Consent Decree”). Since 2012 the Consent Decree has required certain specific actions by the City and SPD. These positions will be assuming the federal monitor's oversight and assessment.
- This technical adjustment adds 0.5 FTE and appropriation authority to OIG as approved in the 2023 Mid-Year Supplemental Budget Ordinance. This Communication and Community Engagement Specialist (strategic advisor) will provide racial equity expertise in scoping work projects, as well as strategic engagement with community.

Ann Davison, City Attorney

Civil Division, (206) 684-8200; Criminal Division, (206) 684-7757

<http://www.seattle.gov/cityattorney><http://www.seattle.gov/cityattorney><http://www.seattle.gov/cityattorney>

## Department Overview

The department provides legal advice to City officials, represent the City in litigation, and protect the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The three department divisions are described below.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, federal courts, and administrative agencies. The Civil Division is organized into eight specialized areas of practice: Employment, Environmental Protection, Land Use, Constitutional and Complex Litigation, Government Affairs, Torts, Civil Enforcement, and Contracts & Utilities.

The **Criminal Division** prosecutes misdemeanor crimes in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice reform efforts, policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Unit (prosecutors and victim advocates), Appeals, Review and Filing Unit, Specialty Courts Unit (Infractions, Mental Health, Veterans' Court, Let Everyone Advance with Dignity (LEAD), and Pre-filing Diversion), and Trial Team Unit.

The **Precinct Liaisons** supports a program where attorneys work in each of the City's police precincts, providing legal advice to police and other City departments. In helping to address a variety of neighborhood and community problems, the precinct liaison attorneys coordinate with the Civil and Criminal divisions with the goal of providing a consistent, thorough, and effective approach.

# Seattle Municipal Court

The Honorable Faye R. Chess, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts>/<http://www.seattle.gov/courts>/<http://www.seattle.gov/courts>/

## Department Overview

As the judicial branch of Seattle City government, the Seattle Municipal Court (SMC or Court) provides a forum to resolve alleged violations of the law in a respectful, independent, and impartial manner. SMC adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Court has seven elected judges and five appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington.

This is a transformational time at SMC with several change initiatives underway that will advance SMC as the people's court, providing fair, equitable and innovative delivery of justice. Each change initiative aligns with the Court's strategic priorities of:

- building capacity
- evolving services to center those served
- modeling a culture rooted in equity
- streamlining decision making
- engaging staff to develop future leaders today

In 2023, SMC continued realigning its organizational structure into four service areas: Operations, Administrative Services, Court Technology, and Strategy. This structure supports realizing SMC's strategic priorities by making the best use of court resources, eliminating siloed operations and functions, and ensuring court services are easy to navigate. The realignment improves transparency in decision-making and communication throughout the Court.

SMC recognizes undoing institutional racism and ensuring a culture of equity and inclusion requires engagement with community and staff to identify meaningful solutions. In 2023, SMC appointed its first Director of Equity and Engagement who is leading the development of the Court's diversity, equity, inclusion, and community engagement strategic plan and coordinates the Court's Race and Social Justice (RSJ) Change Team. SMC will continue to engage community through its judicial officers, as well as through *In The Community* outreach events. These events bring court services and resources to Seattle neighborhoods and are an opportunity for community members to receive assistance with resolving SMC warrants, learn about options for addressing tickets, help with reinstating their driver's license, and access supportive services through the Community Resource Center.

The Court continues its multi-year project to replace its 30+ year-old legacy municipal court information system, MCIS, with a modern and adaptable case management solution. The new system will streamline court processes, provide a better court user experience, improve the accessibility of court services, make it easier for partners to work collaboratively with the Court, and generate analytics in support of understanding the impact of the broader criminal legal system. User stories and human-centered design inform the business transformation. The project is on track to go-live in early 2024.

Mid-2023, SMC wrapped up its three-year Probation Evolution project, an effort focused on improving client outcomes and minimizing disproportionate impacts probation has on women and people of color. The Court utilized the City's RSJ toolkit and community engagement to guide the changes considered and adopted in this project. Program changes made through this project include more equitable reporting guidelines and noncompliance policy, client-focused case planning and quarterly progress reports designed to highlight client successes and personal goals, and published dashboards on Court website to increase transparency.

Ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals remains a priority for the Court. SMC has provided Interpreter Services in 149 languages since 2005,

## Seattle Municipal Court

including American Sign Language. Free interpreter services are provided for criminal and civil matters, including court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters.

SMC looks forward to the strategic changes planned for the next year that will advance the court values of service, fairness, equity and inclusion, innovation, excellence, and integrity.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$882,550

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Technical

#### Net-Zero Position Moves

Expenditures -  
Position Allocation -

This net-zero technical change moves three positions and salary between Budget Control Levels. This aligns staff to the current reporting structure in the Administration and Court Operations BSLs.

#### Ongoing Changes from Current Year Legislation

Position Allocation -

This change includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Q3 Supplemental Ordinance.

The Court is providing key resources for the MCIS 2.0 Replacement Project from existing staff. This item extends four positions due to sunset at the end of 2023 through “go-live” and user testing in key project areas which is

## Seattle Municipal Court

anticipated to be through the end of 2024. Project areas include Court Technology, Court Operations and Finance. These positions are funded by the MCIS 2.0 bond project.

Adrian Diaz, Chief of Police

(206) 684-5577

<http://www.seattle.gov/police>/<http://www.seattle.gov/police>/<http://www.seattle.gov/police>/

## Department Overview

The Seattle Police Department (SPD) addresses crime, enforces laws, and enhances public safety by delivering respectful, professional, and dependable police services. SPD divides operations into five precincts. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Detectives in centralized investigative units located at SPD headquarters downtown and elsewhere conduct follow-up investigations of violent and property crimes, and other types of crimes. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Police Chief Adrian Diaz has committed the department to five focus areas to anchor itself throughout the on-going work around the future of community safety:

- **Re-envisioning Policing** - Engage openly in a community-led process of designing the role the department should play in community safety
- **Humanization** - Prioritize the sanctity of human life in every situation and affirm each individual's worth
- **Reinventing Community Engagement** - Establish true and lasting relationships through respectful interactions in every situation
- **Fiscal Stewardship** - Examine critically every dollar spent to ensure it meaningfully contributes to community safety
- **Employee Wellness and Morale** - Support exceptional police services by ensuring the department recruits and retains the best employees

On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of Accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$1,298,384

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### SPD Salary Savings

Expenditures \$(1,775,651)

# Seattle Police Department

This item cuts \$1.8 million in anticipated sworn salary savings in the Criminal Investigations BSL (BO-SP-P7000) to offset an appropriation increase for a crime prevention pilot project in the Police Department to better align budget with anticipated staffing levels in 2024. This item also makes a net-zero budget adjustment to reallocate \$6.3 million in additional projected salary savings for overtime needed to staff emergency response, investigations, and special operations. Currently, the department estimates the 2024 baseline budget supports approximately 1,131 sworn FTE. The total amount of salary savings in 2024 will be determined by the average monthly filled level.

## Crime Prevention Pilot Project

Expenditures \$1,775,000

This item increases appropriation authority in the Technical Services BSL (BO-SP-P8000) by \$1.8 million for project costs associated with implementing a pilot project to leverage technological resources to combat increased gun violence and felony crime in the City of Seattle. This funding will activate automatic license plate readers, CCTV cameras, and acoustic gunshot locator systems on a pilot project basis to deter criminal behavior and hold offenders accountable. With the extreme shortage of police officers, it is essential that the department deploy technological tools to help prevent and suppress violent crime.

## Add Deputy Director in the Office of Police Accountability

Position Allocation 1.00

This change adds 1.0 FTE Deputy Director position to the Office of Police Accountability (OPA) unit, funded through anticipated vacancy savings, to attend to OPA's internal people management needs and some day-to-day investigative needs, allowing the OPA Director to focus on high level investigation responsibilities and external relationships. This position will enhance staff achievement and retention by supporting the 30-person department's needs on a day-to-day level. In addition, this role will provide investigative support to the Assistant Director of Investigations and two Investigations Supervisors. An emergency position for this role was approved in 2023, and OPA anticipates having a new Deputy Director on board by Fall of 2023.

## Proposed Technical

### Recurring Grants Ordinance

Expenditures \$5,683,156  
Revenues \$5,683,156  
Position Allocation 5.00

This item increases appropriation authority in various BSLs for recurring grant awards anticipated in 2024, including Urban Area Security Initiative (UASI), Internet Crimes Against Children (ICAC), Securing the Cities, and Justice Assistance Grant (JAG) awards. In addition, this item adds 5.0 full-time positions supported by grant funds, including 4 Crime Intelligence Analyst positions in the Fusion Center and 1 position funded by the Securing the Cities Grant to establish a land-based radiological and nuclear detection program.

### Ongoing Changes from Current Year Legislation

Expenditures \$1,336,970  
Position Allocation 6.00

This change includes ongoing budget and position changes resulting from current year legislation in 2023, including budget associated with the approval of Memorandums of Understanding between the City of Seattle with PROTEC17 (Police Data Technicians) and the Seattle Parking Enforcement Officers Guild, as well as a total of 6.0 full-time positions, including 4 positions to address the ongoing public disclosure workload, 1 position supporting employee retention, management, and development efforts, and 1 Strategic Brand & Marketing Manager.

# Seattle Police Department

## Senior Accountant Budget Neutral Staffing Realignment

Position Allocation 0.50

This item increases an existing half-time Senior Accountant to full-time. The workload requires a full-time employee in this position and no additional appropriation is required.

## Central Cost Manual (CCM) Reconciliation and Alignment

Expenditures -

This item is a budget-neutral reconciliation and alignment of accounts related to Central Costs.

## Chartfield Corrections

Expenditures -

This net zero change aligns the budget program, project and account details with expenditures in the 2024 Proposed Budget.

## Decrease Funding for School Zone Camera Program

Expenditures \$(1,700,000)

This item reduces the Police Department budget by \$1.7 million in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund in 2024. This funding was intended to support the development and implementation of an expansion of the School Zone Camera program to double the number of cameras deployed to 70. School zone camera revenues are deposited in the SSTPI Fund and are restricted by Washington State law to support school traffic safety projects, programs for students getting to and from school, and to cover the administrative costs of the School Zone Camera program. The current revenue forecast does not support the expansion project and SPD has agreed with the Seattle Department of Transportation (SDOT) to align the funding for expansion in 2024 with anticipated resources.

## Baseline Revenue Adjustment

Revenues \$(1,576,269)

This change reflects updates to baseline revenues.

## General Fund Revenue Adjustment

Revenues \$(3,530,294)

This is a technical adjustment to capture centrally-projected and forecast General Fund revenue increments for this department.

# Police Relief and Pension

Stephanie Coleman, Executive Secretary

(206) 386-1286

<http://www.seattle.gov/policepension>/<http://www.seattle.gov/policepension>/<http://www.seattle.gov/policepension>

## Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

The management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, this group of police officers receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. The Police Pension Fund also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$3,130

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Proposed Technical

##### Fund Balancing Adjustment(s) -- Proposed

Revenues \$4,066,408

This is a technical item to record a fund balancing entry for the Police Relief & Pension Fund (61060), which is primarily managed by the Police Relief & Pension Fund Board. Balancing entries are used to capture the use of or contribution to fund balances to cover the differences between expected revenue and expected expenditures. This demonstrates that the fund has sufficient resources, either current expected revenue or existing fund balances, to cover the expected costs. For the PPEN Fund, this item captures the use of fund balance to cover the difference between revenues and expenditures.

Debra Smith, General Manager & CEO

(206) 684-3500

<http://www.seattle.gov/city-light><http://www.seattle.gov/city-light><http://www.seattle.gov/city-light>

## Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resources, and environmental stewardship.

City Light provides electric power to approximately 493,000 residential, business, and industrial customers within a 131-square-mile service area. City Light provides power to the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light is the nation's ninth largest publicly owned electric utility in terms of customers served, and owns about 2,000 megawatts of very low-cost, environmentally responsible, hydroelectric generation capacity. In an average year, City Light produces about 50% of its energy supply with hydroelectric facilities that it owns directly, and purchases 30% through the Bonneville Power Administration (BPA) and 20% from other sources including short-term wholesale purchases.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$2,796,842

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Fish Hatchery Positions, 3.0 FTEs

Position Allocation 3.00

As part of the 2013 Federal Electricity Regulatory Commission License for the Boundary Hydroelectric Project, City Light was required to build and staff a new Native Salmonid Conservation Facility. This item adds three positions to support the facility, which will be completed late in 2023 after nine years in the design and construction phase. The positions were already funded under Ordinance 123940 and are in the current rate path.

#### Net-Zero Cyber and Physical Security Enhancements

# Seattle City Light

Expenditures

-

This item reallocates funding to support increased cyber and physical security services needed to protect employees and assets and ensure uninterrupted electricity services. It is a net-zero reprioritization of funds that shifts \$1.7 million into security from other historically underspent contracted services budgets throughout the utility. This funding will enhance the utility's ability to detect and respond to cyber security threats and increase protection of the utility's physical assets.

## Technical Adjustments

Expenditures

\$(7,394,266)

This technical adjustment includes increases associated with inflation, annual wage increases, inventory adjustments, maintenance, and electrification incentives. Various adjustments to purchased power, debt service, and taxes are also included. These adjustments are consistent with City Light's 2023-2028 Strategic Plan and Adopted 2024 rates.

## SCL Revenues 2024

Revenues

\$363,246,685

This adjusts revenues to balance expenditures and actual revenues forecasted for 2024.

## Proposed Capital

### Annual Capital Spending Adjustments

Expenditures

\$1,687,713

This annual adjustment reprioritizes funding in the capital program (CIP) and aligns budgets with the most up-to-date information on planned project spending. It includes changes due to the normal refinement of work schedules and the ongoing reprioritization of capital work. This 6-year CIP plan is within the overall amounts in the Adopted 2023-28 CIP plan and is consistent with the strategic plan rate path. This was achieved by identifying offsetting reductions in various projects to accommodate increased spending for strategic initiatives and customer driven work.

## Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste, and Water. The three utilities each have unique revenue sources and capital improvement projects but share many operations and administration activities within SPU and the City.

**Drainage and Wastewater:** The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions, and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. Drainage and Wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 67 pump stations, 82 permitted combined sewer overflow points, 591 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

**Solid Waste:** The Solid Waste Utility collects and processes recycling, compostable, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting, and reducing waste generation. Solid Waste also works to keep Seattle clean by targeting illegal dumping and automobile abandonment, graffiti removal, and providing public litter cans and recycling bins across Seattle.

**Water:** The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duvall. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and interlocal associations for distribution to their customers. The Water Utility includes over 1,900 miles of pipeline, 30 pump stations, two primary water treatment plants, 11 booster chlorination facilities, three groundwater wells and over 103,000 acres in two watersheds. The Utility builds, operates, and maintains the City's water infrastructure to ensure system reliability, to conserve and enhance the region's environmental resources, and to protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

SPU monitors its funds using Council-adopted financial performance metrics developed in advisement with external financial advisors. These metrics include net income, cash balances, cash contributions to CIP, debt service coverage (a measure of revenue available to fulfill annual debt service obligations), and, for the Drainage and Wastewater Fund, debt to asset ratio. Based on these metrics, among other factors, rating agencies have assigned all three of the funds with strong, investment grade bond ratings in line with peer west coast utilities, noting specifically elected officials' commitment to sound financial management and a history of adopting prudent rates. Water bonds are rated AA+ and Aaa, Drainage and Wastewater bonds are rated AA+ and Aa1, and Solid Waste bonds are rated AA+ and Aa3 by S&P and Moody's, respectively. Strong ratings help to minimize borrowing costs and, in turn, customers' bills into the long-term.

### Description of Incremental Budget Changes

#### Baseline

##### Baseline Adjustments

Expenditures \$(1,033,819)

This item makes baseline adjustments to Seattle Public Utilities' labor budget, removing erroneous ongoing General Fund appropriations.

# Seattle Public Utilities

## Positions Approved in 2024 Endorsed Budget

Position Allocation 4.00

This item formally adds position authority for four full-time positions added in the 2024 Endorsed. These positions include: 1.0 Aquatic Resources Specialist in Water Planning and Program Management; 1.0 Cultural and Historic Resource Specialist in Watershed Management; 1.0 for Logistics Management, and 1.0 for Ship Canal Water Quality Project Operations.

## Technical and Standard Cost Changes

Expenditures \$73,297,441

This item provides new appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund for a net increase of approximately \$73.3 million in 2024. These increases cover: revised projections for tax payments, debt service costs, and major service contract; increases for citywide indirect costs; labor and other inflationary adjustments. These changes are consistent with the adopted 2021-2026 SPU Strategic Business Plan as well as current rate ordinances and proposed Water Rates for 2024-26.

## Additional Technical and Standard Cost Changes

Expenditures \$2,548,905

This item makes additional labor-related changes to the SPU budget. Actions include adjustments related to reallocated positions and adding additional appropriation to cover newly negotiated labor agreements.

## Proposed Operating

### Position Add for Facilities Asset Management

Expenditures -  
Position Allocation 1.00

This item provides position authority to SPU for one full-time employee, a Strategic Advisor 2, for the Facilities Asset Management Program. This body of work is currently supported by temporary staffing. No new appropriation authority is required. The person hired into this position will lead implementation of SPU's Workforce Facilities Master Plan, including coordination with business groups and project managers, performance evaluation, and financial reporting.

### Staffing for Public Hygiene Program

Expenditures -  
Position Allocation 3.00

This item provides Seattle Public Utilities position authority for three full-time employees (FTEs) for the Public Hygiene Program, which provides shower trailers, portable toilets, and handwashing stations to serve the unhoused. No new appropriations are required. This body of work is currently performed by temporary staffing. Positions being added comprise a Senior Capital Projects Coordinator and two Maintenance Laborers. These positions will sunset at the end of 2026, in order to allow City policymakers the opportunity to evaluate ongoing needs for this body of work.

### Position Add for SPU Human Resources

Expenditures \$53,994  
Position Allocation 0.50

## Seattle Public Utilities

This item adds a position authority for a half-pocket to SPU for SPU Human Resources. Together with an existing half-pocket, this action will allow SPU to hire a full-time Assistant Management Systems Analyst. This position will serve as a training coordinator and videographer. This change will require an additional \$53,994 in operating appropriation authority, split between the Water, Drainage and Wastewater, and Solid Waste Funds.

### Trees for Neighborhoods Program Expansion

Expenditures \$350,000

This change adds \$350,000 in General Fund appropriation authority to SPU for the Trees for Neighborhoods program. The Trees for Neighborhoods program works with residents across Seattle to plant trees around residential homes and schools. This one-time program expansion will support the growth of urban tree canopy cover, especially in high-heat neighborhoods, to improve public health, climate resilience, equity, and neighborhood cohesion across Seattle. Funding would be made available to increase the number of trees planted through the Trees for Neighborhoods program by 300 to 1,300 in 2024; to establish a tree nursery for the program; and develop local workforce opportunities in arboriculture.

### Position Adds for Duwamish Valley Resilience Work

Expenditures \$1,126,200

Position Allocation 3.00

This item provides \$1,126,200 in appropriation authority to SPU in the Drainage and Wastewater Fund for three full-time Strategic Advisor 3 positions. These positions will sunset at the close of 2026. These actions are intended to address sea level rise adaptation and flood risks in Duwamish River communities like South Park. The need to accelerate planning efforts for the area was highlighted by the December 2022 King Tide flooding event.

These positions will enable SPU to lead Citywide flood response, infrastructure, and climate adaptation work in the region. These efforts will build on SPU's existing and planned drainage and sewer investments in the area. The positions added through this action will lead Capital Improvement Plan implementation for newly identified and currently planned investments, coordinate funding strategy with outside entities and potential funders, and collaborate with the Duwamish Valley Interdepartmental Team (IDT). These positions will also work directly with the Office of Sustainability and Environment (OSE) and the Office of Planning and Community Development (OPCD).

## Proposed Capital

### Water Fund Capital Changes

Expenditures \$13,001,310

This item adds \$13,001,310 in capital budget authority to SPU for the Water Fund Core and Shared Capital Improvement Plan (CIP). The primary focus is on asset management for distribution and transmission pipes, water system impacts associated with the various Seattle and regional transportation projects, and upgrades to water system facilities such as hydrants and dam safety improvements. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

### Drainage and Wastewater Fund Capital Changes

Expenditures \$29,397,344

This item adds \$29,397,344 in capital budget authority to SPU for the Drainage and Wastewater Fund Core and Shared Capital Improvement Plan (CIP). These changes reflect updated project scopes and timelines on projects related to Seattle's drainage and sewer systems. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

# Seattle Public Utilities

## Solid Waste Fund Capital Improvements

Expenditures \$14,496,510

This item adds \$14,496,510 capital budget authority to SPU for the Solid Waste Fund Core and Shared Capital Improvement Plan (CIP). Increases are driven by planned options analyses for proposed transfer station maintenance projects, such as rebuilding the South Transfer tipping floor, installing new compactors at North Transfer and system improvements to meet regulatory requirements at both stations. Delays have also shifted work associated with the South Park Landfill project from 2023 to 2024. For more, please see the Proposed 2024-2029 Capital Improvement Plan.

## Shared Technology Capital Changes

Expenditures \$2,624,000

This item increases appropriation authority for SPU by \$2,624,000 across the Water, Solid Waste, and Drainage and Wastewater Funds for shared technology capital improvements. Key projects include Customer Contact and Billing projects, as well as various internal enterprise technology solutions for SPU. For more, please see Proposed 2024-2029 Capital Improvement Plan (CIP).

## Proposed Technical

### SPU Revenue Budgets

Revenues \$(5,339,615)

This item budgets projected 2024 revenues for SPU.

### Use of Fund Balance

Revenues \$125,493,252

This technical item accounts for the use of fund balance in balancing revenues against expenditures.

# Seattle Public Utilities

# Seattle Department of Transportation

Greg Spotts, Director

(206) 684-5000

<http://www.seattle.gov/transportation><http://www.seattle.gov/transportation><http://www.seattle.gov/transportation>

## Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$28 billion, including these major system assets:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 126 bridges;
- 584 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,132 signalized intersections;
- 47.9 miles of multi-purpose trails;
- 2,277 miles of improved sidewalks and median pathways;
- 165 miles of on-street bicycle facilities;
- 39,049 street trees;
- 1,589 pay stations;
- 35,872 curb ramps;
- close to 203,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, and Mobility-Capital Budget Summary Levels (BSLs).

**Operations and Maintenance** covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The five BSLs in this area are: Bridges and Structures; Maintenance Operations; Mobility-Operations; Parking Enforcement; and Right-of-Way Management.

**Business Management and Support** provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$328,835

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Debt Financing for Alaskan Way Main Corridor - Concrete Strike Costs

Expenditures \$1,351,875

This item provides additional appropriation for the debt service costs related to Alaskan Way Main Corridor capital project (MC-TR-C072) in the Transportation Fund General Expense Budget Control Level (13000-B0-TR-18002). The proposed budget includes a 2024 debt issuance request for \$25 million to complete construction of the Alaskan Way Main Corridor project. The Teamster's concrete strike in late 2021 and early 2022 has significant impacts on project activities, schedule, work windows, and costs. Adapting the project to the realities of the concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost risks, like the concrete strike. These reserve CPT funds are available to fund this request.

# Seattle Department of Transportation

## Bridge Maintenance Investments

Expenditures \$500,365

In 2020, the Seattle Office of City Auditor published an audit report: Seattle Department of Transportation: Strategic Approach to Vehicle Bridge Maintenance is Warranted. There were multiple recommendations in that report including Recommendation 2, which held that SDOT should dedicate bridge maintenance workers to bridge maintenance work. Facing reductions in bridge maintenance funding in the Real Estate Excise Tax Fund, SDOT is prioritizing staffing investments now that can build SDOT's capacity to implement complex bridge maintenance activities on improved timelines. This change adds funding to expand SDOT's ability to plan bridge maintenance and deliver more work with SDOT crews. This change helps offset and support reductions described in the item "Bridge Maintenance Reductions" (see below) by using available Vehicle License Fees to invest in this important work.

## Positions for Bridge Maintenance

Expenditures \$300,062

Position Allocation 3.00

SDOT is adding 3.0 FTE new positions in the Roadway Structures Division for bridge maintenance, 1.0 FTE Capital Project Bridge/Structural Program Manager, 1.0 FTE Sr. Bridge Engineer, and 1.0 FTE Administrative Specialist. These positions are in response to the 2020 vehicle bridge maintenance audit conducted by the Office of the City Auditor. The audit recommended that SDOT develop a more strategic approach to vehicle bridge maintenance. This approach is essential to ensure that bridges comply with federal regulations, maintenance work is preventative and proactive rather than reactive, public safety is a priority, and costs are effectively managed. These three positions are necessary to implement these recommendations.

## Emergency Events Response

Expenditures \$2,000,000

Revenues \$200,000

This change supports expanded needs in SDOT's Emergency Events program. SDOT is the City's primary responder for emergency events that affect the right-of-way. The City continues to see increasing severity of winter storms and ice, windstorms, traffic incidents, spills, encampment-related incidents, and landslides. It is SDOT's responsibility to respond to these events to secure safe passage for City and County services, including first responders, transit, and other high-priority transport. SDOT's budget has been historically challenged to meet the increasing incidence, severity, and cost to respond. This change will establish \$10,093,510 of ongoing budget (\$1,659,691 General Fund, \$8,433,819 Commercial Parking Tax) to support this work in 2024. Revenues from the General Fund are being partially allocated to support this critical work.

## Pay-by-Phone Service Investment

Expenditures \$2,200,000

Revenues \$2,200,000

The Paid Parking program at SDOT includes the Paid Parking Maintenance Program that pays for the expenses associated with pay stations and Pay-by-Phone services, the application that allows paying parking fees with a cell phone rather than at the station. During the pandemic, SDOT reduced its budget in this program to align with reduced demand for these services and is now restoring that budget. Fees based on usage have increased as demand for paid on-street parking returns to pre-pandemic levels, and drivers increasingly use the Pay-by-Phone applications to pay for parking. This critical need is being supported by \$2.2 million of General Fund resources generated by updated parking rate policies and changes to the minimum and maximum parking rates. These rate increases are in-line and supported by parking data that shows an increase in the demand for parking throughout the city.

# Seattle Department of Transportation

## Pothole Repair Response

Expenditures \$1,500,000

Pothole repair is one of the core functions of SDOT in responding to conditions to secure safe passage for City and County services including not only first responders, transit, and other high-priority transport - both commercial and private - as well as the general public. Increased storm events and aging infrastructure have increased the amount of necessary pothole response within SDOT's target of 72 hours, exceeding existing budget. This item supports SDOT's ability to meet these response times and is supported by Vehicle License Fees that are collected in the Seattle Transportation Benefit District Fund.

## Right-of-way investments for the Downtown Activation Plan

Expenditures \$1,000,000

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$31 million is allocated to investments promoting economic revitalization and workforce development. This item will fund activities that support the Downtown Activation Plan (DAP). Through the management of the right-of-way, SDOT activities are part of a broader package that is intended to foster community building, placemaking, and economic vitality. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The DAP details a suite of legislative and regulatory actions and program investments to be undertaken with the goal of making Seattle's downtown a more vibrant, inclusive, and resilient hub for residents, workers, and visitors. Under the DAP, SDOT will work to support restaurant business with load zones for food pick-up and take-out, launch weekend and evening street or alleyway closures for special events and programming, install wayfinding kiosk in the Downtown core to help pedestrians navigate the area, facilitate the proliferation of downtown street eateries, and support public safety improvements like installing new bus shelters, trash receptacles, lighting, etc.

## Staffing Investments for Ongoing Commitments

Expenditures -  
Position Allocation 8.00

This item expands SDOT staffing with 8.0 FTE, four of which will convert existing temporary staffing to ongoing, permanent positions, and four are new positions. These positions are necessary to continue (or fully resource) important ongoing areas of work across many areas in the Seattle Department of Transportation, including support of the City's 1% for Art Program in the public right-of-way, Transportation Access, Human Resources, Equity, Facilities and Property Management, and Finance. Funding to support these positions is either already included in SDOT's base budget or will be prioritized for these critical departmental functions.

## Project Development Position Increase

Position Allocation 1.50

This item establishes 1.5 FTE of ongoing positions in the SDOT's Home Zones program. This program also supports the Stay Healthy Streets program, Aurora Avenue safety projects, and the Safe Routes to School program. A Home Zone is a holistic and cost-effective approach to making residential streets more walkable within a neighborhood. Rooted in successful pedestrian-focused systems from around the world, the Home Zone Program provides an alternative to traditional sidewalks and traffic calming measures. The heart of the program is its community-centered development process. These positions establish ongoing staffing resources that were otherwise supported by temporary assignments, and are critical to implementing public outreach, project identification, project

## Seattle Department of Transportation

development, and design of traffic improvements that can include traffic circles, speed humps, and cost-effective walkways coupled with neighborhood activation and beautification. These positions will also support exploring the implementation of low-pollution neighborhoods directed by Mayor Harrell's 2022 Transportation and Climate Justice Executive Order.

The funding change for this investment is captured in "Project Development Position Increase Budget" in this budget document, due to the requirement that positions are incorporated into the operating budget but the funding for this activity is included in the capital project budget.

### Seattle Streetcar Operations Funding Transfer

Expenditures -

The 2024 Endorsed Budget included \$10.2 million of commercial parking tax (CPT) support for First Hill and South Lake Union streetcar service. These streetcars are owned by the City of Seattle and operated by King County Metro. CPT and other Transportation Fund revenues are in decline; and Sound Transit's \$5 million annual contribution to First Hill streetcar operations ends in 2023; therefore, the proposed budget replaces this funding with Seattle Transit Measure (STM) funding. Per Ordinance 126115, STM provides funding for Metro-operated transit service as well as transit access programs and transit capital improvements.

### School Safety Traffic & Pedestrian Improvement Fund Operating Program Reductions

Expenditures \$(350,000)

The School Safety Traffic & Pedestrian Improvement (SSTPI) Fund saw actual 2022 revenue decline \$4.3 million and projected 2023-2027 revenue decline \$14.6 million as a result of reduced collections of School Zone Automated Camera Enforcement and slower projected growth. This funding supports school traffic and pedestrian safety infrastructure; pedestrian, bicyclist, and driver education campaigns; and the administration of automated camera enforcement in school zones. As a result of this revenue shortfall, delays and reductions to planned investments are necessary. This change reduces the following programs and projects: Road Safety Initiative \$(350,000). The Seattle Police Department (SPD) is responsible for reviewing and issuing camera-based infractions. SPD's capacity to issue infractions is limited by staffing, and continues to be a challenge as SPD is impacted from low staffing.

### Proposed Capital

### School Safety Traffic & Pedestrian Improvement Fund Capital Program Reductions

Expenditures \$(2,900,000)

The SSTPI Fund traditionally supports school traffic and pedestrian safety infrastructure; pedestrian, bicyclist, and driver education campaigns; and the administration of automated camera enforcement in school zones. The School Safety Traffic & Pedestrian Improvement (SSTPI) Fund saw an actual 2022 revenue decline of \$4.3 million and a projected 2023-2027 revenue decline of \$14.6 million as a result of reduced collections of School Zone Automated Camera Enforcement and slower projected growth. As a result of this revenue shortfall, changes to planned investments are required. These include reductions to the following programs and projects: ADA Curb Ramp Program (\$2.4 million) and BMP - Greenways (\$500,000). While reductions to ADA Curb Ramp Program will delay or defer some projects in these programs the City will continue to meet its obligations. Greenway reductions in this change will be offset by commensurate investments under the Vision Zero project. Please see the 2024-2029 Proposed CIP for more information on these projects.

Note: Some projects above have reduced 2025-2029 CIP Planning assumptions, please see the 2024-2029 Proposed

## Seattle Department of Transportation

CIP for full project impacts. Additional capital project operating reductions in this mid-biennium update are included elsewhere in this document ("School Safety Traffic & Pedestrian Improvement Fund Operating Program Reductions").

### Bridge Maintenance Reductions

Expenditures \$(1,938,254)

This change reduces spending in the Seattle Department of Transportation's (SDOT) bridge maintenance activities planned in 2024 and 2026 and realigns funding to 2027 and 2028. The Real Estate and Excise Tax (REET) revenue, a source of funding for bridge maintenance activities, saw lowered revenue projections beginning in 2024, requiring budget realignment to balance the REET I and REET II Funds. SDOT is reducing REET budget and planning assumptions in 2024 (\$2 million) and 2026 (\$1.8 million) in the 2024 Budget Update for the Bridge Painting and Structures Major Maintenance capital projects. These reductions will defer some maintenance work in these projects. Even with these reductions, SDOT will meet maintenance work planning without impacting service levels or any commitments the department has made as a result of any grant awards.

### Grant Budget Increases

Expenditures \$7,942,500

Revenues \$7,942,500

This change adds budget authority to spend against four Federal Highway Administration grants that were accepted as part of the 2023 Year-End budget legislation: S. Spokane Street Viaduct bridge repair (\$2.5 million), Denny Way Paving (\$1.5 million), Beacon Ave Non-motorized Access Phase 3 project (\$1.1 million), and 130th Link Station Transit & Multimodal Access (\$2.8 million in 2023, total \$5.5 million 2023-2024). These budget increases will be included in the associated capital projects in the Structures Major Maintenance CIP (Spokane St. project), Arterial Asphalt/Concrete Phase 2 CIP, and BMP - Protected Bike Lanes CIP. Please see the 2024-2029 Proposed CIP for more information on these overarching projects.

### Alaskan Way Main Corridor - Concrete Strike Delay Costs

Expenditures \$25,000,000

This item provides additional appropriation for the Alaskan Way Main Corridor capital project (MC-TR-C073) in the 2024 Multipurpose LTGO Bond Fund's Office of the Waterfront Budget Control Level (37200-BC-TR-16000). This item is necessary to complete construction of the Alaskan Way Main Corridor project, which has experienced significant impacts on project activities, schedule, work windows, and extended overhead costs due to the Teamster's concrete strike in late 2021 and early 2022. Adapting the project to the realities of the concrete strike required significant changes in the project delivery plan and has extended the project's schedule into late 2024. The potential risk of cost overruns has been planned for by the Office of the Waterfront and Civic Projects (OWCP) along with SDOT partners; and Commercial Parking Tax (CPT) funds have been reserved in anticipation of cost increase risks, like the concrete strike, and are available to fund debt service costs.

### Project Development Position Increase Budget

Expenditures \$142,680

This item increases budget to support 1.5 FTE of permanent positions in the Seattle Department of Transportation's (SDOT) Home Zones program. The Home Zone Program also supports the Stay Healthy Streets program, Aurora Avenue safety projects, and the Safe Routes to School program. A Home Zone is a holistic and cost-effective approach to making residential streets more walkable within a neighborhood. Rooted in successful pedestrian-focused systems from around the world, the Home Zone Program provides an alternative to traditional sidewalks

## Seattle Department of Transportation

and traffic calming measures. The heart of the program is its community-centered development process. These positions establish permanent staffing resources that were otherwise supported by temporary assignments, and are critical to implementing public outreach, project identification, project development, and design of traffic improvements that can include traffic circles, speed humps, and cost-effective walkways coupled with neighborhood activation and beautification. These positions will also support exploring the implementation of low-pollution neighborhoods directed by Mayor Harrell's 2022 Transportation and Climate Justice Executive Order. Budget is available in SDOT's base budget to continue this important work with permanent positions.

The position authority for this investment is captured in ("Project Development Position Increase") due to the requirement that positions are incorporated into the operating budget but the funding for this activity is included in the capital project budget.

### Arts Coordinator Position Increase

Expenditures -

The Seattle Department of Transportation (SDOT) implements public art through various efforts, including developing right-of-way policies and design standards, implementing the SDOT art plan, developing plans and street concept designs, capital project design and delivery, coordinating the complete streets evaluation process for SDOT capital projects, creating public-facing graphics and project documentation, and delivering street furnishings such as benches, wayfinding, and lighting that help SDOT deliver on its goal to create a livable, accessible, and equitable mobility environment. This change transfers temporary budget ongoing to support the 1.0 FTE Public Arts Coordinator in the change item "Staffing Investments for Ongoing Commitments."

### Transfer Funding for RapidRide J Project

Expenditures -

This one-time item transfers \$3.5 million of Seattle Transit Measure funds from the Seattle Transportation Benefit District - Transit Improvements project (MC-TR-C108) to the RapidRide J Line project (MC-TR-C013) in order to provide the local match required for the Federal Transportation Authority's \$65 million Small Starts Grant. For more information on the Rapid Ride J project, please see the 2024-2029 Proposed CIP.

### Payment in Lieu of Tree Planting

Expenditures \$132,000

Revenues \$132,000

In 2023, the City Council passed Ordinance 126821, which regulates trees on private property and establishes a new payment in lieu (PIL) of tree planting program. This program allows developers to make payments to the City in lieu of planting replacement trees on private property. Revenues from these payments will be used by the Seattle Department of Transportation (SDOT) and the Seattle Parks and Recreation Department to plant replacement trees on public right-of-way. This item places SDOT's share of projected revenues from the first year of the PIL program into the Urban Forestry Capital Establishment project (MC-TR-C050).

### Transportation Network Tax Reductions and Transfers

Expenditures -

This item is the companion to item "Sound Transit 3 Project Reduction" in this document. Taken together, these changes make a net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service, reduce Waterfront Maintenance by \$250,000 in 2023, defer Seawall Maintenance by \$1,000,000 in 2023, and reduce the Sound Transit 3 project by \$250,000 in 2024. These net reductions are anticipated to have no immediate programmatic impacts. Maintenance budgets in Waterfront

## Seattle Department of Transportation

Maintenance and Seawall Maintenance are not needed for any maintenance activities in 2023. Sound Transit 3 reductions are projected to be offset by 2023 salary savings. For any future project needs, all projects will be evaluated as revenues and budget allow.

This item reflects the net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service. The source of funding to support debt service is Commercial Parking Tax.

### Sound Transit 3 Project Reduction

Expenditures \$(250,000)

This item is the companion to "Transportation Network Tax Reductions and Transfers" in this document. Taken together, these changes make a net-zero transfer of \$750,000 of General Fund from Seattle Department of Transportation to the Transportation Fund for debt service, reduce Waterfront Maintenance by \$250,000 in 2023, defer Seawall Maintenance in 2023, and reduce the Sound Transit 3 project by \$250,000 in 2024. These net reductions are anticipated to have no immediate programmatic impacts. Maintenance budgets in Waterfront Maintenance and Seawall Maintenance are not needed for any maintenance activities in 2023. Sound Transit 3 reductions are projected to be offset by 2023 salary savings. For any future project needs, all projects will be evaluated as revenues and budget allow.

This change reflects the Sound Transit 3 project reduction portion of this action. The source of funding for this reduction is Real Estate Excise Tax II.

This is a companion change as part of the Year End Supplemental budget legislation that also transfers \$750,000 of Real Estate Excise Tax (REET), Transportation Network (TNC) Tax, and Commercial Parking Tax (CPT) between projects in 2023 and 2024, including Structures Major Maintenance and Debt Service. The impact to these projects is net-zero. Debt Service will be supported with CPT in the Transportation Fund, and Structures Major Maintenance will be supported with REET.

### Ongoing CIP Corrections and 2029 Spending Estimates

Expenditures \$(299,791)

Revenues -

This item adds spending estimates to the last year of the 2024-2029 Proposed CIP for ongoing capital projects and revises current year and future year planning assumptions in the previous CIP that were made in error.

## Proposed Technical

### Debt Service Adjustment

Expenditures \$(64,311)

This is a technical change that aligns the Seattle Department of Transportation's (SDOT) anticipated debt service payments with the necessary budget authority to make those payments. SDOT is obligated to pay debt service payments for past project bond issuances, and needs budget to pay for upcoming debt service for new bond issuances. Debt service schedules can adjust slightly based on payment history, refunding activities, and corrections. This change ensures SDOT will pay the most up-to-date debt service schedules anticipated for 2024 payments and beyond.

### Debt Service Reduction

Expenditures \$(51,746)

## Seattle Department of Transportation

This item is necessary to align the budget with the debt service schedule (2023 bond issuances are now complete, and actual interest payments due in 2023 are lower than originally estimated).

### Fund Balancing Entries

Revenues	\$44,681,420
----------	--------------

This technical change captures estimates of the contribution or use of fund balance for Seattle Department of Transportation managed funds.

### SLU Streetcar Operations Technical Adjustment

Expenditures	-
Revenues	-

This budget-neutral technical adjustment incorporates a small shift from the services budget to the staffing budget to align the budget with current staffing costs. It also includes a larger shift to account for higher King County Metro service costs.

### First Hill Streetcar Operations Technical Adjustment

Expenditures	-
Revenues	-

This budget-neutral technical adjustment incorporates a small shift from the services budget to the staffing budget to align the budget with current staffing costs. It also includes a larger shift to account for higher King County Metro service costs.

### Street Use Technical Adjustment

Expenditures	\$832,833
Revenues	\$12,752,158

This technical adjustment aligns the budget with anticipated expenditures in SDOT's Street Use program, which is funded by permit issuance fees, hourly service fees, use and occupation fees, and modification fees.

### Ongoing Changes from Current Year Legislation

Expenditures	\$100,000
Position Allocation	57.00

This change trues up the 2023-2024 Proposed Mid-Biennial Budget Adjustment to include current year changes implemented by budget legislation in 2023.

### Reconcile Central Cost Budget with the 2024 Endorsed Budget

Expenditures	-
--------------	---

Per the request of "2024 Baseline Budget and General Policies", this change request is to reconcile the City's Central Cost Manual accounts in the 2024 baseline with the 2024 endorsed amount. The associated adjustments on recovery projects are also included. The total budget impact of this change request is net zero.

# Seattle Department of Transportation

## Annual Capital Budget True-up

Expenditures	\$83,159,798
Revenues	\$50,005,934

This change is an annual true-up between SDOT's 2024-2029 capital spending plan and the 2024-2029 Proposed CIP. The intent of this action is to better align actual spending expectations with the budget every year. This change includes a companion appropriation change as part of the 2023 Year-End Supplemental Budget Legislation that abandons appropriations in the 2023 budget in order to reallocate them to future years when the budget is anticipated to be needed.

## Capital Project Technical Adjustments

Expenditures	-
--------------	---

This item adjusts budget accounting fields and cleans up small budget variances to improve administrative tracking and transparency around project funding sources. There is no net budget impact from this item.

## SDOT O&M Technical Adjustment

Expenditures	\$(2,047,275)
--------------	---------------

This item updates the Seattle Department of Transportation's (SDOT) budget to support various cost changes and budget transfers related to contract inflation, workgroup reorganizations, and central cost adjustments that align with citywide cost changes that SDOT is required to pay.

## Reimbursable Technical Adjustment

Expenditures	\$(2,283,728)
Revenues	\$(1,176,261)

This technical change adjusts revenues and makes budget changes associated with work that is fully reimbursed by grants, partnerships, and other city departments.

## 2024-2029 Future Year Adjustments

Expenditures	\$26,614,068
Revenues	\$32,959,140

This technical change reconciles 2023 budget adjustments with the 2023-2024 Proposed Mid-Biennial Budget Adjustments that affect the 2024-2029 years of the Capital Improvement Project Program.

## Waterfront Bond Timing Adjustments

Expenditures	\$3,713,000
--------------	-------------

This item adjusts the timing of bond issuances for the OWCP in the 2023 Multipurpose LTGO Bond Fund Office of the Waterfront Budget Control Level (13000-BC-TR-16000). This adjustment will move a total of \$3,713,000 in bond appropriation authority from 2023 to 2024 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) will move \$712,999 from 2023 to 2024 bond issuance, and Overlook Walk/East West Connections (MC-TR-C073) will move \$3,000,000 from 2023 to 2024 bond issuance. This adjustment will help "right size" the bond issuance to better align with projected spending, resulting in interest expense savings. These funds will be appropriated through the 2024 budget.

# Seattle Department of Transportation

## August Forecast Central Revenue Update

Revenues \$(18,077,686)

This item updates budgeted revenues for centrally forecasted transportation revenue streams to match the August Forecast Update. Included in this change is a reduction in projected revenues for Licensing and permitting, Fees, plan review, and inspection (-\$20.6 million), reduction to automated traffic camera enforcement revenues (-\$2.5 million), offset by increases to projections for Vehicle License Fees, Commercial Parking Tax, and Move Seattle Levy property taxes (\$5 million).

## August Forecast SDOT Revenue Update

Revenues \$(722,265)

This item updates budgeted revenues for SDOT-forecasted revenue streams to match the August Forecast Update.

## Reduce Transportation Network Tax

Expenditures \$(350,744)

This change reduces unnecessary budget previously allocated to the Transportation Equity Workgroup. This work has been fully funded through Seattle Department of Transportation's (SDOT) administrative overhead program and no longer requires this budget. This change will allow SDOT to allocate this Transportation Network Tax to debt service.

# Seattle Department of Transportation

## 2023-24 Proposed Mid-Biennial Budget Adjustments – Operating Expenses

Grand Total		321,366,26	4,964,974	326,331,240
-------------	--	------------	-----------	-------------

## The Office of the Waterfront and Civic Projects

Angela Brady, PE, Acting Director

206-684-3115

[waterfrontseattle.org](http://waterfrontseattle.org)

The Office of the Waterfront and Civic Projects is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the adopted Capital Improvement Program for the Central Waterfront.

The projects that make up the Central Waterfront program are included in SDOT's budget and in the budgets of two other City departments (Seattle Parks and Recreation and Finance and Administrative Services). Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes all the projects listed below.

### **Seattle Department of Transportation**

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)
- Waterfront Transportation Infrastructure Maintenance (MC-TR-C109)

### **Seattle Parks and Recreation**

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

### **Department of Finance and Administrative Services**

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT)
- Local Improvement District Administration

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project (MO-TR-R043). The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

The Office of the Waterfront and Civic Projects manages two funds that support the administration of the funding related to the projects listed above: the Central Waterfront Improvement Fund, and the Waterfront LID #6751 fund. The Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made by the Central Waterfront Improvement Fund are for these purposes. In 2019, the City Council legislated the Waterfront Local

Improvement District (LID) Fund which holds LID assessment payments and LID bonds and pays for expenditures related to the Waterfront Local Improvement District (#6751). The pre-payment, and LID bond issuance occurred in 2021. For more information on LID and project status, visit the [Waterfront Seattle](#) website.

### **Changes in the 2023-2024 Proposed Mid-Biennial Budget Adjustments and 2024-2029 Capital Improvement Program**

The 2023-2024 Proposed Mid-Biennial Budget Adjustments includes several changes including extension of the \$20.3 million interfund loan, funding for servicing a \$25 million bond that will cover costs associated with Concrete Strike Delay on the Alaskan Way Main Corridor project, and a transfer of \$3,713,000 in bond appropriation authority from 2023 to 2024 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) and Overlook Walk/East West Connections (MC-TR-C073). The Interfund loan extension reflects philanthropic contribution forecasts that remain at the same levels but have been adjusted to reflect changes in collection dates that go into 2025. Regarding Alaskan Way Main Corridor cost escalation, the City is engaging with the State through the legislative process to request their participation in funding costs related to WSDOT scope items. Please see Seattle Department of Transportation section for more budget detail.

# Office of Sustainability and Environment

Jessyn Farrell, Director

(206) 615-0817

[www.seattle.gov/environment](http://www.seattle.gov/environment)

## Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and climate pollution-free future. OSE collaborates with a wide range of stakeholders to develop policies and programs that advance healthy communities and facilitate a just transition from fossil fuels, while prioritizing people and communities most affected by economic, racial, and environmental injustices. OSE’s work focuses on the following areas:

**Climate and Environmental Justice:** OSE develops policies and conducts research on reducing and addressing the impacts of climate pollution. This includes goal assessment, action planning, community outreach, and performance measurement. OSE coordinates implementation of the Seattle Green New Deal, the One Seattle Climate Justice Agenda, and the Equity and Environment Initiative and plans and implements policies that transition buildings to 100% clean energy and advance zero carbon transportation.

**Healthy & Resilient Communities:** OSE works with key stakeholders to support sustainable communities. The office administers the Fresh Bucks and Healthy Food in Schools programs to provide equitable access to healthy, affordable, culturally relevant food. OSE also fosters leadership and interdepartmental coordination within the City of Seattle to help maintain, preserve, and restore Seattle’s urban forest.

**Citywide Coordination:** OSE coordinates interdepartmental efforts to advance a healthy, equitable, and sustainable environment. These efforts include the Duwamish Valley Program, as well as interdepartmental planning around the Green New Deal, urban forestry, and energy efficiency. OSE is responsible for coordinating four prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, the Environmental Justice Committee, and the Green New Deal Oversight Board.

## Description of Incremental Budget Changes

### Baseline

#### Technical Corrections to Assign Program Budgets

Expenditures \$(1,981)

This item makes technical corrections in order to align program budgets within OSE.

#### Baseline Adjustments

Expenditures \$(595,357)

This item adjust baseline appropriations to remove budget authority related to the Oil Home Heating Tax which was repealed by Council in 2023.

#### 2024 Endorsed Position Adds

Position Allocation 3.00

## Office of Sustainability and Environment

This item formally adds position authority for three positions added to OSE in the 2024 Endorsed Budget. Green New Deal PET funding is currently in the OSE base budget to support these positions. These positions will work on green buildings policy and implement changes associated with the planned Building Emissions Performance Standards program under development. These positions will add engineering expertise and staff a help desk to support building owners navigate the new Emissions Performance Standards for Seattle buildings.

### Citywide Adjustments for Standard Cost Changes

Expenditures \$200,036

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### General Fund Reduction for the Environmental Justice Fund

Expenditures \$(250,000)

This item reduces General Fund appropriations for OSE by \$250,000 in the Environmental Justice Fund. The Environmental Justice Fund currently receives \$1,750,000 in Green New Deal Payroll Expense Tax funding for grants, staffing, and administration. Expansions in recent budget years have grown the program from an initial budget of \$250,000. OSE will maintain existing program capacity using Green New Deal Payroll Expense Tax funding.

#### Position Add for Fresh Bucks Customer Service

Position Allocation 1.00

This item adds position authority to OSE for an Administrative Specialist II to help address customer service needs for the Fresh Bucks program. The program has grown to cover over 12,000 households, many of whom do not use English as their primary language, and has transitioned to use of an electronic benefit. These changes require specialized customer support which is beyond the capacity of the City's Customer Service Bureau. This position will be funded using existing General Fund dollars within the OSE base.

#### Position Add for Clean Heat Program

Position Allocation 1.00

The City's 2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$20 million is allocated to investments in the Green New Deal. This item adds position authority to OSE for a Planning & Development Specialist, Senior, which will sunset in July 2026. This position will support implementation of the Clean Heat Program, integrate City-funded rebates with new federal funding opportunities, and will lead development of a streamlined pilot program. As certain federal funding sources and many oil-to-electric home heating conversions will have been completed by 2026, this body of work is anticipated to be time-limited. No new funding is required for this position.

#### Position Adds for Climate Justice

Expenditures -  
Position Allocation 2.00

## Office of Sustainability and Environment

The City's 2024 Proposed Mid-Biennial Budget Updates appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$20 million is allocated to investments in the Green New Deal. This item adds position authority for 2.0 Planning and Development Specialists and re-programs \$21,000 in existing payroll tax funding to allow OSE to hire an Administrative Staff Assistant into an ongoing pocket. The changes proposed allow the Climate Justice Program to increase administrative and staff capacity for climate justice programming, which has grown from \$250,000 to \$2 million since 2020. The two new Planning and Development Specialists I positions will support grantees, develop and track contracts, and provide technical support and assistance for grant reporting and program evaluation. These staffing additions require no new funding and will utilize existing payroll tax funding.

### Proposed Technical

#### August Revenue Forecast

Revenues	\$(31,000)
----------	------------

This item adjusts OSE's departmental revenue appropriations for 2024 based on the August 2024 revenue forecast.

# Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

## Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office. The Office seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor, and City employees with accurate information, unbiased analyses, and objective recommendations on how best to use public resources. The Office conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments, and the public.

## Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data, evaluation, and design to solve problems.

<b>Total 2024 Proposed Budget</b>	<b>\$10,023,143</b>	<b>47.00</b>

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$122,442

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Proposed Operating

##### Payroll Expense Tax Evaluation Staff and Capacity

Expenditures \$1,013,647  
 Position Allocation 2.00

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the administration and evaluation of the Payroll Expense Tax. This ongoing item adds \$1,013,647 of payroll tax in the General Fund to the Innovation and Performance (IP) team within the City Budget Office for: two evaluation advisors (\$354,647), two-year evaluation consulting services (\$500,000 per year), evaluation design and reporting services (\$60,000), and community outreach (\$40,000) needed to conduct evaluation and reporting on the effectiveness of Payroll Expense Tax programs. With this change, the payroll tax administration budget funds two evaluation advisors for approximately \$200 million in payroll tax funded programs.

## City Budget Office

These additional consultant evaluation resources are critical to evaluate the impact of the payroll tax on jobs and the local economy per the Seattle Municipal Code. The funding also supports two staff evaluators and outreach and reporting services, initially proposed in the last budget cycle, to assess the effectiveness of the new programs and ensure that the tax proceeds are allocated to areas that are delivering positive impact to our communities.

This item also provides \$59,000 to increase administrative staffing capacity to fully-fund an existing part-time-funded position in IP. The additional capacity is needed due to the increase in IP staffing related to administration and evaluation of the Payroll Expense Tax.

<http://www.seattle.gov/civil-service-commission>  
<http://www.seattle.gov/public-safety-civil-service-commission>

## Department Overview

The **Civil Service Commission (CSC)** is the small department that houses two City Charter-mandated commissions, the Seattle Civil Service Commission (CSC) and the Seattle Public Safety Civil Service Commission (PSCSC). The Seattle Municipal Code and Washington law charge both commissions with providing fair and impartial appeal hearings on serious disciplinary decisions and other civil service issues. The CSC conducts appeal hearings of alleged violations of the City's personnel rules, disciplinary actions, and alleged violations of the Personnel Ordinance. The PSCSC oversees and directs a civil service system for sworn personnel of the Seattle Police Department (SPD) and uniformed personnel of the Seattle Fire Department (SFD). The PSCSC also conducts quasi-judicial appeals related to serious disciplinary decisions, examination and testing, and related issues.

# Office of Economic and Revenue Forecasts

Ben Noble, Director

(206) 300-6933

<http://www.seattle.gov/economic-and-revenue-forecasts>

## Department Overview

In July 2021 via Council Bill 120124, the City Council created the Office of Economic and Revenue Forecasts. The office's responsibilities, as stated in the legislation, are to staff the Economic and Revenue Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program. Such analyses are to be nonpartisan and confidential to the extent allowed by law.

The legislation also established the Economic and Revenue Forecast Council which shall receive and review the general forecasts of local economic activity and the specific forecasts of the revenues that support the City's general government programs and services. The forecasts approved by the Forecast Council by the Director of the Office of Economic and Revenue Forecasts are the official city economic and revenue forecasts and shall serve as the basis for the estimates of revenues used for the Proposed and Adopted budgets as described in RCW 35.32A.030 and 35.32A.040, provided that the Mayor or Council shall have the authority to deviate from the official forecasts as provided in Section 3.44.010. The Forecast Council shall be composed of the Mayor or designee, the Director of Finance, the Council President or designee, and the Chair of the City Council Finance Committee or designee. If the Council President and the Chair of the Council Finance Committee are the same individual, the position held by the Chair of the Council Finance Committee shall be determined by the Council President. The Forecast Council shall select one member to serve as Chair of the Forecast Council annually.

<b>Total 2024 Proposed Budget</b>	<b>\$840,469</b>	<b>3.00</b>

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$8,950

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Data Subscription Renewal

Expenditures \$125,100

The City's 2024 Proposed Mid-Biennial Budget appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax. This appropriation increase is to renew a data subscription administered by the Office of Economic and Revenue Forecasts and used directly in forecasting the Payroll Expense Tax and to support the modeling and forecasting of other significant revenue streams. The initial subscription was entered into to test the value of these data, and they have proven very useful in the forecasting process. This payroll tax increase provides resources to secure a lower 2-year total renewal cost relative to consecutive single-year renewals.

Amarah Khan, Director

(206) 256-5982

<https://www.seattle.gov/ombud><https://www.seattle.gov/ombud><https://www.seattle.gov/ombud>

## Department Overview

In 2018 Executive Order 2018-04 created the **Office of Employee Ombud (OEO)** following the recommendations issued by the Anti-Harassment Inter-departmental Team on improving the City's workplace culture. The OEO's mission is to support City employees in all branches of City government in assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies.

The OEO provides assistance to City employees through a variety of means including conflict management and resolution; clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also supports employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

The OEO offers trainings and capacity building to City departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. The OEO submits an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees. The report includes recommendations to clarify the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

# Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement>/<http://www.seattle.gov/retirement>/<http://www.seattle.gov/retirement>/

## Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,000 active employee members, 3,300 terminated employee members and 7,300 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the system and do not reflect payment of retirement benefits or investment management fees.

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$(7,037)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Proposed Technical

##### Adjust 2024 Baseline to SCERS Board Approved Budget

Expenditures \$(19,504)

This item brings the baseline budget into agreement with the 2023 budget approved by the SCERS board.

##### Salary Adjustment for Reclassifications & Alignment

Expenditures \$200,263

Revenues \$173,722

During 2023, several member service positions are in the process of being reclassified by SDHR (5 titles/11 positions) and certain other positions' wages were aligned with the results of a salary study (9 positions). The result is an increase in salaries and associated costs, which began in 2023. This item adds appropriation to SCERS' budget to cover these costs.

# Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics>/<http://www.seattle.gov/ethics>/<http://www.seattle.gov/ethics/>

## Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code and Election Pamphlet Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

**Ethics Code:** The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions, organized and searchable by topic, are available on the Commission's website.

**Whistleblower Code:** The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

**Elections Code and Election Pamphlets Code:** The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces voters' pamphlets for City elections and ballot measures. It makes these pamphlets available in several languages and produces a video voters' guide with King County.

**Lobbying Regulations:** The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much they are being paid to lobby. The Commission also enforces compliance with the lobbying regulations.

**Democracy Voucher Program:** The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The primary goal of the program is to provide \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$13,668

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

### Proposed Operating

#### Potential 2024 Election Year Costs for Democracy Voucher Program

Expenditures \$2,118,608

This item adds appropriation authority to the Democracy Voucher Program to cover costs should there be an election during 2024 for one of the "at large" Seattle City Council seats. This funding covers costs associated with qualifying signature and voucher processing, voucher printing and mailing, postage and business reply envelopes, outreach materials and event costs, translation costs, advertising, program staff wage and salaries, and candidate disbursements associated with a citywide election.

### Proposed Technical

#### Fund Balance Adjustment - Proposed

## Ethics and Elections Commission

Revenues

\$5,184

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

Kiersten Grove, Acting Department Director

(206) 386-0041

<https://www.seattle.gov/finance-and-administrative-services>  
<https://www.seattle.gov/finance-and-administrative-services>

## Department Overview

The Department of Finance and Administrative Services (FAS) is often the public's first interaction with the City of Seattle, operating as a customer-focused front door that assists with everything from starting a business or paying utilities, to reporting a pothole, requesting public information, or even adopting a new pet. The department's 600-plus employees span across 16 divisions and work behind-the-scenes providing critical functions, like processing payments to 13,000 City employees, managing 120 City facilities—including police and fire stations—and overseeing the City's women- and minority-owned business (WMBE) Program.

Broadly, FAS' work can be split into four categories.

**Customer Services** - FAS oversees the City's Customer Service Bureau, the Downtown Customer Service Center and the six neighborhood customer service centers located throughout the city. FAS also oversees the City's Title II ADA Program and the Seattle Animal Shelter.

**Regulatory Services** - FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS also oversees Purchasing and Contracting, including the WMBE Program and the Priority Hire Program.

**Financial Services** - FAS provides Citywide financial direction and cohesive policies to City departments. The autonomous Office of City Finance sits within FAS and consists of five divisions overseeing everything from licensing and tax administration, risk management, the City's debt management, bond issuances, business systems and Citywide payroll.

**Operational Services** - FAS designs, builds and maintains many City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. FAS also maintains the City's 4,000-vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. Finally, FAS provides Citywide real estate, warehousing and mail distribution services and provides logistical support in the event of an emergency.

Internal service operations in FAS are primarily supported through charges to other City departments and, in some cases such as when the City leases space, by private businesses or individuals. The General Fund supports certain FAS services, including administration of the City's taxes and business licensing services.

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS budget. Those units are: Judgment and Claims; Jail Services; Indigent Defense Services; Transit Benefits.

### Description of Incremental Budget Changes

#### Baseline

##### FAS Project Structure Change

Expenditures	-
Revenues	-

This item maps over the 2024 Endorsed Budget from the current project structure to the proposed new project structure. This change impacts multiple funds, programs, projects, and Budget Summary Levels (BSLs) for the Finance and Administrative Services Department. Additional information is available in the FAS Budget Summary Level section in the budget book appendix.

##### Labor Inflation

Expenditures	\$4,684,811
Position Allocation	-

This baseline adjustment adds appropriation for compounding labor inflation for 2024. This item impacts several Budget Control Levels (BSLs) across several programs in the Department of Finance and Administrative Services (FAS).

##### Non-Labor Inflation

Expenditures	\$1,234,393
--------------	-------------

This baseline adjustment adds one-time appropriation to reflect non-labor central costs in the 2024 Endorsed that were not captured during the 2023-24 rate process. This item impacts various Budget Summary Levels (BSLs), categories, accounts and programs.

##### Cost Increases in Specific Programs

## Department of Finance and Administrative Services

Expenditures	\$4,780,326
Revenues	\$(4,131,950)

This baseline adjustment increases appropriation to reflect updated costs in specific program areas and impacts various Budget Summary Levels (BSLs), categories, accounts, and programs. This adjustment is primarily driven by fuel price increases, contract inflation, and increases in outside leasing costs.

### Debt Service

Expenditures	\$(3,929,716)
--------------	---------------

This baseline adjustment decreases appropriation to align to the updated debt service schedule on approved capital projects. This item is primarily driven by timing changes to the Human Capital Management system project.

### Limited-term Employee Safety Program Compliance

Expenditures	\$186,290
Revenues	\$186,290

This baseline adjustment increases appropriation of existing fund balance to fund one (1.0 FTE) Safety & Health Specialist, Sr, TLT in the Human Resources Division.

### Fleet Capital Replacement Costs

Expenditures	\$18,251,138
--------------	--------------

This item increases appropriation in the Fleet Capital Fund for planned fleet capital replacement costs.

### Eliminate Capital Operating and Maintenance

Expenditures	\$(1,906,218)
--------------	---------------

This item is a technical change to correct an error in the 2024 Endorsed Budget. This removes the Operating and Maintenance Budget for Capital Development in the FAS Operating Fund.

### Technical Adjustment

Expenditures	-
Position Allocation	-

This item is a net neutral adjustment that makes several technical corrections and impacts multiple Finance and Administrative Service BSLs, programs, and projects. This item corrects fund codes, aligns revenue accounts, and makes adjustments to align to the new project structure.

### Rate Revenue Update

Revenues	\$6,725,322
----------	-------------

This item adjusts rate revenue due to baseline changes in several Finance and Administrative Services BSLs (BO-FA-0001 Citywide Operational Services, BO-FA-0002 Citywide Admin Services, BO-FA-0003 Office of City Finance, BO-FA-0004 Other FAS Services, BO-FA-0005 Public Services, BO-FA-0006 Leadership & Administration, BO-FA-FLETCAP Fleet Capital Program) to reflect citywide allocation changes.

### Revenue Baseline and Account Alignment

## Department of Finance and Administrative Services

Revenues \$728,225

This item makes a baseline adjustment to correct baseline and revenue accounts used across multiple programs and BSLs and to correctly match central allocations. This item shifts revenue appropriation from Finance and Administrative Services (BO-FA-0006) Leadership and Administration and (BO-FA-0002) Citywide Admin Services BSLs into the (BO-FA-0001) Citywide Operational Services and (BO-FA-0003) Office of City Finance BSLs. This shift reflects an increase to passport processing revenue, an adjustment to treasury operations revenue, and makes correcting entries needed due to changes within accounts and realignment of revenues.

### Removal of One-Time Appropriations

Expenditures -  
Revenues \$(1,619,669)

This technical adjustment impacts various categories, accounts and programs in the following Finance and Administrative Services BSLs, (BO-FA-0001) Citywide Operational Services, (BO-FA-0002) Citywide Admin Services, (BO-FA-0003) Office of City Finance, (BO-FA-0005) Public Services and (BO-FA-0006) Leadership & Administration. This item reverses one-time appropriations from the 2024 Endorsed Budget.

### Citywide Adjustments for Standard Cost Changes

Expenditures \$5,140,980  
Revenues \$(1,818)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

## Proposed Operating

### Fleet Mechanics

Expenditures \$589,947  
Revenues -  
Position Allocation -

This item adds budget for six existing mechanic positions and the reclassification of one of those positions from Auto Mechanic to Auto Mechanic - Specialist to support the Fire Garage. This item provides additional resources toward meeting preventative maintenance requirements and inspection timelines. All new expenditures will be funded through Fleet's maintenance rates.

### Fleet Management Operations

Expenditures \$(32,000)  
Revenues \$(32,000)

This item shifts ongoing operating budget from Finance and Administrative Service's motor pool program to fund an increase to the Commercial Driver Licensing Training budget and an increase for Fleet Management's use of the Capital Asset Management software. This results in a net decrease in the Finance and Administrative Services Fund Citywide Operational Services Budget Control Level.

### Payroll Expense Tax Audit Positions

## Department of Finance and Administrative Services

Expenditures \$293,106

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$7 million is allocated to the evaluation and administration of the Payroll Expense Tax.

This item adds funding for two new tax auditor positions. Over the past six years, the City has added five new taxes without adding tax auditors, leading to a larger scope of audit work with less audit resources. This item will fund two existing positions to support audit compliance with the new Payroll Expense Tax. For each auditor position added, the Office of City Finance estimates that the City will collect an additional \$500,000 in tax revenues.

### Seattle Animal Shelter Foster Care Coordinator

Position Allocation 1.00

This item creates a sunsetting Foster Care Coordinator position. The position will be funded by the Seattle Animal Shelter Donation Fund and will sunset on December 31, 2025. The position will be responsible for all aspects of the shelter's foster care program including meeting potential adopters, training, and onboarding new foster care providers, scheduling veterinary exams and surgeries, coordinating medication pick-up and performing all other duties needed to run the shelter's foster care program.

Since 2018, the number of foster care providers has more than doubled to over 300 today. Foster care providers are a vital part of the volunteer network that enables the Seattle Animal Shelter to provide compassionate care for all animals that need services. Until recently, the foster care program has been run by volunteers who typically have day jobs and don't have full access to shelter systems. Currently, there is a temporary position for this role funded by the Seattle Animal Shelter Foundation through mid-2024.

### Seattle Animal Shelter Behaviorist

Position Allocation 1.00

This item creates a sunsetting Seattle Animal Shelter Behaviorist position. The position will be funded by the Seattle Animal Shelter Donation Fund and will sunset on December 31, 2025. The behaviorist is responsible for behavioral management, training, and enrichment for animals housed at the shelter and will support staff and volunteer safety training.

Many shelter animals need behavioral management and support. The behaviorist is the first contact for animals entering the shelter. The training and enrichment they provide for animals and their foster care providers leads to better adoptability and live release outcomes, as well as improved staff and volunteer safety.

### Social Housing Public Development Authority Start-up Costs

Expenditures \$850,500

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024.

This item adds Payroll Expense Tax funding for start-up costs related to the Social Housing Public Development Authority created by the passage of the City of Seattle Initiative Measure No. 135. Start-up funding will be used for office space, staffing, supplies, insurance and bonding, legal services per the language of the initiative. In 2023, the PDA is also funded with a \$180,000 grant from the Washington state Department of Commerce and \$20,000 General Fund appropriated in the Seattle City Council's budget.

# Department of Finance and Administrative Services

## Service Licensing and Information Management (SLIM) System Assessment

Expenditures	\$100,000
Revenues	\$100,000

This item adds funding for a Service Licensing and Information Management (SLIM) System assessment. This funding supports identifying the requirements necessary to migrate 18 regulatory business license workflows from the aging SLIM system into a new long-term solution. This funding backed by the revenue generated by the regulated industries.

## For-Hire Accela Modifications

Expenditures	\$600,000
Revenues	-

This item increases budget to support updates and modifications to the Accela system that will be required if the for-hire legislation passes this fall. Seattle IT estimates the modification is expected to cost \$600,000 and take six months to complete. This cost is backed by the projected fee revenue of \$300,000 in 2023 and \$300,000 in 2024.

## Short-Term Rental Program Enforcement Support

Expenditures	\$180,023
Revenues	\$203,505
Position Allocation	-

This item adds funding to refund a previously held vacant Licensing Standards Inspector (LSI) position and to reclass an existing LSI position to an LSI Supervisor position to provide increased support for the Short-Term Rental regulatory program workload. The additional resources are needed to increase licensure compliance rates and enforce STR operator compliance to City regulatory and zoning codes. This ongoing increase is supported by the program's regulatory fee revenue.

## For-Hire Program Technology Support

Expenditures	\$75,000
Revenues	\$75,000

This item adds funding for increased contract costs for the American Association of Motor Vehicle Administrators (AAMVA) and their technology solution currently used to verify the identity and license status of over 30,000 for-hire drivers in the City of Seattle. This ongoing increase is supported by the program's regulatory fee revenue.

## Wheelchair Accessible Fund Appropriation Increase

Expenditures	\$1,400,000
Revenues	\$1,400,000

This item increases appropriation authority for the Wheelchair Accessible Fund (WAS) to support the implementation of Seattle and King County Mobilization of Accessible Rides with Taxis and TNCs (SMART), a dispatch program for wheelchair accessible vehicles that aims to improve access to transportation for community members.

Fund revenues are from a \$0.10 surcharge paid on each transportation network company (TNC), taxicab and flat-rate/for-hire vehicle trip originating within the Seattle city limits. Ordinance 12454 (2014) established the surcharge and the WAS Fund to offset the higher operational costs for owners and operators of wheelchair accessible taxis, helping to ensure the economic sustainability of these services.

# Department of Finance and Administrative Services

## Judgment and Claims Budget Adjustment

Expenditures	\$9,276,300
Revenues	\$9,276,300

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item increases funding by \$4,705,951 in General Fund transfer and \$4,570,349 in department cost allocations to achieve the 90% confidence level for 2024. This confidence level has significantly increased from assumptions made in the 2024 endorsed budget because the latest actuarial study incorporates claims and litigation data from 2022, which show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020.

## Proposed Capital

### Electronic Procurement System

Expenditures	\$700,000
Revenues	\$700,000

This item increases appropriation authority by \$700,000 in FAS's operating fund for a technology system project to implement a centralized electronic software solution to modernize the city-wide procurement process. This e-procurement software solution will be used in the development, issuance, and evaluation of procurements such as Request for Proposals/Qualifications. In 2022, the City spent approximately \$433 million on purchasing expenses, which included blanket contracts and one-time purchase orders. Using an e-procurement system to rebid future contracts increases the likelihood of multiple bids and more competitive prices, resulting in greater cost savings.

This e-procurement software solution is estimated to cost \$1.2 million with the remaining \$500,000 funded by a Bloomberg grant awarded to the City in 2022.

### Rebate Revenues from Seattle City Light

Revenues	\$358,000
----------	-----------

This item recognizes Seattle City Light rebate revenues of \$358,000 in 2024 and \$150,000 in 2025 for use in Municipal Energy Efficiency Projects.

### Capital Improvement Program (CIP) Baseline Adjustments

Expenditures	\$(19,802,073)
--------------	----------------

This item aligns the Fire Station 31 (MC-FA-FS31) appropriation with bond issuance in 2023 (\$4.8 million) and moves appropriation from 2024 to 2025 for the Human Capital Management (MC-FA-HCMSYS) project (-\$13.6 million), the Drive Clean Seattle (MC-FA-DRVCLNFLT) project (-\$3 million) and the Electrical Infrastructure Upgrades (MC-FA-ELECTINFRA) project (-9.5 million). In addition, debt service was adjusted to align with the planned bond issuance (-\$1.7 million).

This item also makes baseline and technical adjustments to several Budget Control Levels, moving appropriation forward from 2025 to 2024 for the SMT Elevator Rehabilitation project (MC-FA-SMTELVVRHB) (\$3.17 million), and adding appropriation to 2028 and 2029 for the two ongoing Asset Preservation programs (MC-FA-APSCH1FAC and MC-FA-APSCH2FAC) in the Department of Finance and Administrative Services (FAS) that was technically missed in the 2023-28 CIP budget.

## Proposed Technical

# Department of Finance and Administrative Services

## Align Transportation Network Company (TNC) Tax Administration Appropriation with Tax Revenue

Expenditures \$(188,230)

This item reduces appropriation in the Finance and Administrative Services Department by \$188,230 in the General Fund Office of City Finance Budget Control Level (00100-BO-FA-0003). This change will bring expected expenditures in line with anticipated TNC tax revenues.

## Technical Corrections in New Project Structure

Expenditures -

This item reflects a net neutral technical adjustment to update and correct detailed projects within the Finance and Administrative Services Other FAS Services (BO-FA-0004) Budget Summary Level (BSL) due to changes within the new FAS project structure proposed.

## Cost of Issuance and Bond Interest Redemption Funds Adjustment

Expenditures \$(636,144)

Revenues \$(323,438)

This budget change is a technical adjustment to the appropriation related the debt service on behalf of the public development authorities and debt service related to the 2010 Build America Bonds in the LTGO Bond Interest and Redemption Fund, a technical adjustment to the UTGO Bond Interest and Redemption Fund adjusting the debt service amount to match actual debt service, and includes appropriation related to the Cost of Issuance for the 2024 LTGO Bond Issuance.

## Fund Balancing Adjustments – Proposed

Revenues \$9,046,443

This is a technical item to record a fund balancing entry for the 50300 Finance and Administrative Services Fund, 50321 Fleet Capital Fund, and 12100 Wheelchair Accessible Fund, which are primarily managed by this department.

# Department of Finance and Administrative Services

## Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office need additional oversight.

### Description of Incremental Budget Changes

#### Proposed Operating

**Remove Jumpstart Payroll Expense Tax Economic Revitalization Strategy Implementation Reserve**

## Finance General

Expenditures \$(13,100,000)

The 2024 Endorsed Budget reserved \$13,100,000 to implement the Jumpstart Payroll Expense Tax Economic Revitalization and Workforce Development strategic plans currently being developed by the Office of Economic Development. This item reduces the reserve as it is being transferred to the Office of Economic Development, the Seattle Department of Transportation, and the Office of Planning and Community Development in the 2023-2024 Proposed Mid-Biennial Budget Adjustments.

### **Reduce Jumpstart Payroll Expense Tax Transfer for General Operating Expenses**

Expenditures \$(10,000,000)

Revenues \$(10,000,000)

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds. The 2024 Endorsed Budget transferred \$84.2 million from payroll tax to general fund to support general operating expenses. This change reduces the payroll tax transfer for general operating expenses to the General Fund by \$10 million, for a total of \$74.2 million.

### **Reduce Jumpstart Payroll Expense Tax Transfer for Administrative Costs**

Expenditures \$(1,005,475)

Revenues \$(1,005,475)

This item reduces appropriation in Finance General that supports administrative costs related to the Jumpstart Payroll Expense Tax (payroll tax). This technical item reflects an update to the total cost for City administrative functions, such as human resources, evaluation, information technology, payroll, accounting and others. This net reduction is for both direct, planned spending, as well as indirect costs not yet captured in the Central Cost Manual. The 2024 Finance General transfer for administrative costs is approximately \$7 million.

### **Increase Jumpstart Payroll Expense Tax Transfer for Human Services Provider Pay**

Expenditures \$4,528,366

Revenues \$4,528,366

The City's 2023-2024 Proposed Mid-Biennial Budget Adjustments appropriates approximately \$301 million in JumpStart Payroll Expense Tax (payroll tax) proceeds, of which \$11 million is allocated to special exceptions to the spending categories for 2023 and 2024. This technical item adds payroll tax appropriation for the portion of the special exceptions items that are appropriated in the General Fund for Human Services Provider Pay. The other Human Services Provider Pay item that is not included in this Finance General change provides \$2.9 million in direct appropriation from payroll tax to DEEL to support child care workers. See the DEEL budget book section for more information.

### **Accelerate Replenishment of Emergency Fund**

Expenditures \$8,500,000

Revenues \$8,500,000

This budget adjustment will increase appropriations in Finance General by \$8,500,000 to transfer additional General Fund to the Emergency Fund (10102). This transfer accelerates the replenishment of the Emergency Fund after it was drawn down during the COVID emergency. The Emergency Fund policy states that the City should make

## Finance General

contributions to meet the target fund balance within five years and sooner if practically possible. An additional \$8.5 million is also included in the 2023 Year-End Supplemental Ordinance. With the changes from 2023 and 2024, the General Fund Financial Plan reflects that the City will reach the target fund balance in the Emergency Fund one year sooner than anticipated in the 2023 Adopted Budget, which helps reduce the projected 2025-2026 general fund deficit.

### Proposed Technical

#### **Transfer General Fund to the Seattle Information Technology Department**

Expenditures \$225,000

This change adds \$225,000 General Fund to Finance General to transfer to the Seattle Information Technology Department (ITD). In the 2024 Endorsed Budget, the Council inadvertently budgeted General Fund for costs related to the Technology Matching Fund directly in ITD; however, ITD receives General Fund through a cash transfer from Finance General. This item corrects that error.

#### **Transfer General Fund to Revenue Stabilization Fund**

Expenditures \$553,520

This is a technical adjustment to true-up the General Fund transfer to the Revenue Stabilization Fund, according to policies outlined in SMC 5.80.020 which govern the transfer amount. The total transfer in the 2024 Mid-Biennial Budget Update is \$2,252,224.

#### **Move Trial Court Reserve to Finance General**

Expenditures \$798,696

Washington State elected judicial salaries are set by Washington Citizens' on Salaries for Elected Officials. As directed in Ordinance 122112, Seattle Municipal Court (SMC) judicial salaries are set at 95% of the district court. Setting SMC judicial salaries at this level qualifies the city to receive a contribution from the state for one-time improvements. The state's contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. Ordinance 122112 permits appropriation by annual budget or by separate ordinance, solely to fund allowable SMC related expenditures.

The 6-year Financial Plan for the General Fund has kept a planning reserve for a Trial Court Improvement Account; this reserve is moved to Finance General Reserves as part of the 2023-2024 Mid-Biennial Budget Updates. Outyear costs are expected to increase beyond inflation and will continue to be held in planning reserves on the General Fund financial plan until they can be appropriated through the annual budget process. The 2024 reserve amount is \$798,696.

#### **Transfer General Fund to the School Safety, Traffic and Pedestrian Improvement Fund**

Expenditures \$790,000

This item transfers \$1.5 million of General Fund revenue to the School Safety, Traffic and Pedestrian Improvement (SSTPI) Fund. Ordinance 125379 establishes that 20% of revenues collected from red light camera infractions, among other revenues, should be spent for school traffic and pedestrian safety and directly related infrastructure projects; pedestrian, bicyclist, and driver education campaigns; and installation, administrative, enforcement,

## Finance General

operations and maintenance costs associated with the school zone fixed automated cameras. These funds have historically been collected in the SSTPI Fund. In November 2018, the City Council temporarily diverted this portion of red light camera infraction revenue to the General Fund in Ordinance 125719 for the years of 2018, 2019, and 2020, given higher than anticipated SSTPI revenues. The restoration of 20% of red light camera infraction revenue was not re-instated in 2021 and 2022 due to error. This transfer corrects the error by contributing the amount of revenue associated with 20% of red light camera infraction revenue in 2021 and 2022 to the SSTPI Fund.

### Adjust Recurring Reserves

Expenditures \$1,233,000

The Finance General department pays a variety of recurring costs on behalf of the City each year, related to General Fund payments for election costs, fire hydrant maintenance, street lighting, debt service and other contracts. This item includes baseline budget changes to these recurring reserve amounts to maintain the same level of service. Specifically, this adds \$24,000 GF for an annual payment to the Puget Sound Clean Air Agency for air quality management; \$652,000 GF to increase a recurring reserve for Fire Hydrants; \$83,000 GF for the General Fund's art rental management charges; and \$473,000 GF for invoices related to the State Examiner's Office.

### Create New Reserve for Fleet Vendor Maintenance

Expenditures \$1,800,000

This item creates a new reserve in Finance General for \$1,800,000 related to anticipated fleet vendor maintenance costs in the Department of Finance and Administrative Services. Costs were higher than anticipated in 2023. Should the reserve be necessary, this general fund will be transferred to respective department budgets through a 2024 supplemental ordinance.

### Transfer General Fund to Judgment and Claims Fund

Expenditures \$4,705,951

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item increases funding to the Judgment and Claims Fund above the 2024 Endorsed by \$4,705,951 to achieve the 90% confidence level for 2024. This confidence level has significantly increased from assumptions made in the 2024 endorsed budget because the latest actuarial study incorporates claims and litigation data from 2022, which show an extraordinary level of outside counsel and settlement expenses primarily associated with lawsuits resulting from the racial justice protests of 2020. The total General Fund transfer in 2024 is \$8,982,255.

### Reduce SPD Reserve for Department of Justice Settlement Agreement/Police Accountability

Expenditures \$(191,887)

The 2023-2024 Proposed Mid-Biennial Budget Adjustments reduces the Finance General Reserve for the Department of Justice Settlement Agreement/Police Accountability by \$191,887; these funds are transferring to the Community Police Commission (CPC) for a Deputy Director position. This change, along with other ongoing changes resulting from current year legislation, brings the total reserve to \$885,024 in 2024.

### Debt Service Adjustment

Expenditures \$(552,189)

# Finance General

This is a technical change request to true up debt service payments for Finance General in the Cumulative Reserve Subfund, the Real Estate Excise Tax Funds, the General Fund and the Short-Term Rental Tax Fund, as well as reduce budget appropriations associated with prior year bond funds. These are technical adjustments to budget the actual amount of debt service.

## Citywide Adjustments for Standard Cost Changes

Expenditures \$(1,643,571)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## One-time Use of Office of Labor Standards' Fund Balance

Expenditures \$(1,170,607)

This reduces the General Fund transfer to the Office of Labor Standards (OLS) Fund by \$1,170,607 to reflect OLS' one-time use of fund balance in 2024. The total transfer to OLS in the 2023-2024 Proposed Mid-Biennial Budget Adjustments is \$ 7,147,592.

## Ongoing Changes from 2023 Legislation

Expenditures \$(2,184,353)

This change includes ongoing budget and/or position changes resulting from current year legislation in 2023, including the Year End Supplemental Ordinance. Specifically:

- The Alternative 911 Response reserve is reduced by \$1,595,855 in Finance General; there is no reserve remaining. Funds will be budgeted in the newly renamed CARE Department on an ongoing basis.
- The Department of Justice Settlement Agreement/Police Accountability reserve is reduced by \$596,498. These funds will be budgeted in the Office of Inspector General. This change, combined with a separate proposal to transfer \$192,000 of reserve funds to the Community Police Commission, bring the total balance in the Court-appointed Monitor reserve to \$885,024 in 2024.
- The ongoing transfer to the Office of Labor Standards is increased by \$8,000 for a total transfer of \$7,147,592 in 2024, when combined with a separate proposal to use one-time fund balance in 2024.

## Account Level Transfers

Expenditures -

This item includes technical, net-zero transfers across various accounts within Finance General to align budget with the accounts where costs will be incurred.

# Finance General

## Department Overview

The **Seattle Department of Human Resources (SDHR)** provides a full scope of HR services to 20 supported departments and establishes Citywide personnel rules and labor policy. In addition, SDHR handles recruitment compliance, employee benefits and some Citywide programs. We also offer select services and consultation within our subject-matter expertise to City departments and the HR community, in partnership with our labor unions and executive departments, for the benefit of our Citywide workforce.

SDHR administers five Personnel Compensation Trust Funds related to employee benefits, the Health Care Fund, Fire Fighters Healthcare Fund, Industrial Insurance Fund, Unemployment Insurance Fund, and Group Term Life Insurance Fund. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

### Description of Incremental Budget Changes

#### Baseline

##### Health Care Fund Revenue Alignment

Revenues -

This item is a technical adjustment that moves the baseline revenue budget for health care premiums to the correct account for tracking and reporting.

# Seattle Department of Human Resources

## Citywide Adjustments for Standard Cost Changes

Expenditures \$100,725

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Program Adjustment Correction

Expenditures -

This item redistributes the Council Budget Action (CBA) SDHR-901-A-001 budget changes to the impacted BSLs and projects. The CBA rejected proposed budget changes in budget programs PO-HR-N5100, PO-HR-N5500 and PO-HR-N6700 but the decrease was posted as a lump sum in PO-HR-N6400.

## Align Position and Employee FTE

Position Allocation -

This item combines three sets of two 0.5 FTE positions, each added incrementally over time, to create three full-time pockets. Each pocket set is the same classification and the same detail project. Currently each set of half-time pockets has an employee assigned to one 0.5 FTE pocket but working full time, with the additional labor and benefits expense covered by keeping the corresponding 0.5 FTE pocket vacant. SDHR will abrogate the vacant pockets and increase the filled pockets to 1.0 FTE to align the position and FTE counts, simplify time sheet coding, clarify vacancy reporting and properly reflect the full-time status of the employees.

## Intradepartmental Position Transfers

Expenditures -

Position Allocation -

This item aligns positions and budget to complete the Work Force Equity reorganization approved in the 2023 Adopted Budget. Not all moves were finalized in time to include in the 2023 Adopted and 2024 Endorsed budgets.

## Proposed Operating

### Citywide Classification and Compensation Program Review

Expenditures \$1,128,000

This item adds \$1,128,000 in one-time funding to perform a comprehensive review of the Citywide Classification and Compensation Program (“program”). This program has not been reviewed since the 1990s and is outdated for current City personnel needs such as technology changes that are not reflected in job descriptions or the difficulty of employees trying to move between departments with specific titles that are tied to just one department, making it hard to understand potential career opportunities around the City This is a two-year initial phase for consultant services and two temporary employees to conduct the review. The review of the program will help SDHR strategically align with City priorities, effectively support retention and attraction of employees, promote pay equity and compliance with pay equity laws, and follow industry best practices.

# Seattle Department of Human Resources

## Add Police Innovation Recruiting Team Nonlabor Budget

### Authority

Expenditures \$30,000

This item adds \$30,000 to the Police Innovation Recruiting Team budget for recruitment related expenses such as career fair materials, job board postings, and law enforcement related recruitment conferences within SDHR, supported by SPD resources. Ordinance 126654 created and funded three positions in SDHR but did not include ongoing funding for recruiting non-labor expenses. The program costs are covered by SPD under the terms of an ongoing interdepartmental agreement between SPD and SDHR.

## Staging Environment for Origami Risk Workers' Compensation

### Claim Management System

Expenditures \$44,667

This ongoing item funds a staging/testing environment within the workers' compensation claim management system, Origami. This software solution is utilized by the City's workers' compensation program to manage workers' compensation claim data. This improvement will allow system changes to be tested carefully before they go live. This is a companion change request to ITD-308.

## Claims Mailing Equipment Lease

Expenditures \$4,700

This ongoing item increases the Industrial Insurance Fund administrative budget to pay for a mail folder/insertor equipment lease. RCWs and WAC require that City of Seattle Worker's Compensation Unit mail payment and claim correspondence in a timely and accurate manner. Failure to do so can negatively affect claim management efficiency and communication of important requests or decisions that impact claim stakeholders and risks statutory penalties. The equipment will increase overall speed and efficiency of the approximately 10,000 annual statutory mailings and reduce manual preparation of the unit's correspondence.

## Proposed Technical

### Fund Balancing Adjustment(s) - Proposed

Revenues \$102,000

This is a technical item to record a fund balancing entry for the Unemployment Insurance Fund, which is managed by SDHR and CBO.

## 2024 Health Care Fund Expenditure and Revenue Adjustments

Expenditures \$(17,040,543)

Revenues \$(12,301,155)

This item adjusts the budget for expenditures and expected revenues in the City's health care fund (10112). Total costs including medical, dental and vision claims, plus administrative costs, are estimated to be \$329.8 million in 2024, a decline of \$17.0 million (4.9%) from 2024 Endorsed Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$343.0 million, representing a \$854,000 increase (0.2%) in department contributions from the 2024 Endorsed Budget but an overall excess of revenue over expenditures of \$13.2million. This excess results in a technical balancing entry, expressed as a negative \$13.2 million revenue change, which when combined with this small positive increase to revenues creates total revenue entries of negative \$12.3 million.

# Seattle Department of Human Resources

## Industrial Insurance Fund Expenditure and Revenue

### Adjustments

Expenditures	\$(848,524)
Revenues	\$(7,018,802)

This item adjusts the budget for expenditures and expected revenues in the City's industrial insurance (workers compensation) fund (10110). Total costs including medical and time-loss claims, plus administrative costs, are estimated to be \$42.4 million in 2024, a decline of \$799,000 (1.9%) from 2024 Endorsed Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$44.0 million, representing a \$5.4 million decrease (11.0%) in department contributions from the 2024 Endorsed Budget but an overall excess of revenue over expenditures of \$7.0 million. This excess results in a technical balancing entry, expressed as a negative \$1.6 million revenue change, which when combined with the \$5.4 million decrease to revenues creates total revenue entries of negative \$7.0 million.

### Intradepartmental budget-neutral balancing

Expenditures	-
--------------	---

This item aligns intradepartmental expenses and balances indirect cost distribution.

# Seattle Department of Human Resources

## Department Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. Our services include data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages the City's cable fund, designated projects on behalf of the City, other departments, and regional partners.

Seattle IT is organized into eight divisions: Applications; Collaboration and Workplace Technologies; Security and Infrastructure; Project Delivery; Client and Community Engagement; Data Privacy, Accountability, and Compliance; Chief of Staff; and Finance.

### Description of Incremental Budget Changes

#### Baseline

#### Realigning Revenues to Reflect Post-Rate Changes

Expenditures	\$(679,867)
Revenues	\$(319,434)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2023 budgeting process.

#### Inflation Adjustments

Expenditures	\$(1,271)
Revenues	\$(1,267)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2023 budgeting process.

#### Realigning Labor and Maintenance Budget

Expenditures	\$163,023
Revenues	\$163,023

This item realigns budget for Seattle IT's staffing and labor costs where the costs are occurring, and also realigns Seattle IT's funding for annual software maintenance contracts with the projected IT service needs for the proposed budget.

#### Depreciation, Principal and Interest Adjustments

Expenditures	\$(1,883,726)
Revenues	\$(1,534,069)

This item adjusts the amount and distribution of Seattle IT's depreciation, principal and interest budget based on the debt service schedule and planned spending in the proposed budget resulting in a decrease to budget.

#### Indirect Costs Adjustments from Budget Changes

Expenditures	\$868,594
Revenues	\$868,594

This item represents the impacts of proposed budget items on Seattle IT's indirect cost model. As funding changes with budget decisions made, it affects the level of indirect cost charges made as levels increase or decrease in changing programs.

# Seattle Information Technology Department

## Citywide Adjustments for Standard Cost Changes

Expenditures \$1,081,117

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

## Realigning Baseline Budget Costs

Expenditures \$519,245  
Revenues \$3,728,751

This item reflects several changes to the department's baseline budget, including movement of funds between projects and budget to where expenditures are occurring. The largest item, \$480,000, adds in budget for a supplemental change made in 2022 adding direct-billed staff for SPU and SCL.

## Adjust Capital Project Outyears

Expenditures \$119,952

This item adjusts capital project outyear budgets to align with the 6-year CIP plan by adding budget to year 2029.

## Annualizing Position Adds from 2021 Supplemental Budget

Position Allocation 8.00

This item recognizes 8.0 FTEs that were added during 2021 Year-End Supplemental. The Seattle IT internal budget system recognizes these FTE, but Questica does not.

## Proposed Operating

### Mobile Inspections Applications for Seattle Department of Construction and Inspections

Expenditures \$195,600  
Revenues \$195,600

This item adds one-time budget authority in 2024 for the initial discovery phase in the creation of a mobile inspections application for the Seattle Department of Construction and Inspections. This project will reduce complexity and redundancy in inspector administrative tasks while significantly increasing efficiency. Additional information is in the Seattle Department of Construction and Inspections section of the budget.

### Additional Support in SDCI for Accela

Expenditures \$200,000  
Revenues \$200,000

This item increases budget to support work in the Seattle Department of Construction and Inspections for ongoing operations and maintenance of the Accela platform. Additional information is in the Seattle Department of Construction and Inspections section of the budget.

### Staging Environment for Workers' Compensation Claim

# Seattle Information Technology Department

## Management System

Expenditures	\$44,667
Revenues	\$44,667

This item funds a staging/testing environment within the workers' compensation claim management system, Origami. This software solution is utilized by the City's workers' compensation program to manage workers' compensation claim data, which includes private/confidential information (i.e. medical documents, financial data, SSN, DOB, etc.). Additional information is in the Seattle Department of Human Resources section of the budget.

## Replace Data Collection and Reporting Software in the Human Services Department

Expenditures	\$148,368
Revenues	\$148,368

This item adds appropriation to replace the legacy SQL-based data collection and reporting tool in the Human Services Department's Aging and Disability Services Division. Built around 2000, Data Warehouse is currently supported by IT, but the system and all associated software are outdated, as are the underlying architecture and coding. This is a two-year project ending in 2025 with annual O&M anticipated in 2026. Additional information is in the Seattle Department of Human Services section of the budget.

## Electronic Procurement System in the Finance and Administrative Services Department

Expenditures	\$138,186
Revenues	\$138,186

This item increases appropriation authority in the Finance and Administrative Services Department for a technology system project to implement a centralized electronic software solution to modernize the Citywide procurement process. Additional information is in the Finance and Administrative Services section of the budget.

## Service Licensing and Information Management (SLIM) System Assessment in FAS

Expenditures	\$97,122
Revenues	\$97,122

This item increases appropriation authority to fund the Service Licensing and Information Management (SLIM) System assessment in the Finance and Administrative Services Department. This funding supports identifying the requirements necessary to migrate 18 regulatory business license workflows from the aging SLIM system into a new long-term solution. Additional information is in the Finance and Administrative Services section of the budget.

## Proposed Technical

### Funding for Records Retention Project

Revenues	\$1,366,700
----------	-------------

This item adds revenue for the RecordPoint project in the Office of the City Clerk. Budget was added by the City Council in 2023, but not revenues to cover the expenditures. This item will collect revenues for the project through rates charged to departments.

### Digital Equity Funding from Seattle Housing Authority

## Seattle Information Technology Department

Expenditures	\$75,000
Revenues	\$75,000

This item adds grant funding to Seattle IT to accept reimbursements from the Seattle Housing Authority (SHA) for Digital Equity/Digital Navigators in SHA facilities, which will help residents increase their internet and technology skills.

### Adjusting Funding Ratio of Positions Added in the Supplemental Budget

Expenditures	\$374,237
Revenues	\$374,237

This item adjusts the funding distribution of two positions added in the 2021 Year-End Supplemental Budget. Both were initially funded only by department billing, but need to be funded with a split of allocated rates, as are the other positions in the group.

### Adding Geographic Information System (GIS) Funding

Expenditures	\$425,000
Revenues	\$425,000

This item adds funding for the Geographic Information System (GIS) which was inadvertently left out of the 2024 Endorsed Budget.

### Adding Funding for Servers and Security Services

Expenditures	\$2,960,000
Revenues	\$2,960,000

This item adds funding for increased costs of current services that were inadvertently left out of the 2024 Endorsed Budget. This includes a \$950,000 increase in extended maintenance for servers; \$950,000 for server backup and recovery services; \$550,000 for increased cloud storage services; and \$510,000 for cybersecurity services.

### Funding for Utilities Billing Application

Expenditures	\$360,000
Revenues	\$360,000

This item adds \$360,000 in funding for increasing licensing costs for the utilities billing application.

### Funding for Seattle Public Utilities License Costs

Expenditures	\$363,500
Revenues	\$363,500

This item adds funding for maintenance and license renewal costs for applications in Seattle Public Utilities.

### Correcting a Fund Appropriation Error in Base Budget

Expenditures	\$34,487
Revenues	\$225,000

## Seattle Information Technology Department

This item moves \$225,000 from 00100 (General Fund) to 50410 (Seattle IT Operating Fund). As part of Council action in the 2023-24 Adopted Budget, legal budget of \$225,000 was appropriated to support Digital Equity and Technology Matching Fund. Both amounts were incorrectly assigned to fund 00100 and need to be switched to fund 50410.

### Funding for Seattle Public Utilities Technology Needs

Expenditures	\$2,624,000
Revenues	\$2,624,000

This item changes appropriation authority in the department's budget with the anticipated Seattle Public Utilities (SPU) budget for IT projects in 2024.

### Funding for Seattle City Light's Technology Needs

Expenditures	\$1,387,000
Revenues	\$1,387,000

This item changes appropriation authority in the department's budget with the anticipated Seattle City Light's budget for IT projects in 2024.

### Cable Fund Technical Adjustment

Expenditures	\$113,585
Revenues	\$1,484,714

This item adjusts the Cable Television Franchise Fee Fund (10101) budget to reflect the impact of changes with the Seattle Information Technology Operating Fund (50410) involving the use of Franchise Fee revenue.

### Remove Affordable Seattle Staff Sunset Date

Position Allocation	-
---------------------	---

This technical change request removes the sunset date for three Coronavirus Local Fiscal Recovery Funds (CLFR)-backed positions supporting the Affordable Seattle platform. The positions were set to sunset in December 2024 when the federal CLFR grant expires. However, starting in 2024, the positions will be funded via Payroll Expense Tax and will continue to support the ongoing maintenance and development of Affordable Seattle platform.

### Increasing Positions from Part to Full Time

Position Allocation	1.00
---------------------	------

This item increases two positions from 0.5 FTE to 1.0 FTE. Both positions need full time staff to complete the work assigned.

# Seattle Information Technology Department

## 2023-24 Proposed Mid-Biennial Budget Adjustments – Operating Expenses

# Office of Intergovernmental Relations

Gael Tarleton, Director

(206) 684-0213

[www.seattle.gov/oir](http://www.seattle.gov/oir)

## Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community. OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$(73)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

#### Technical Adjustment for Central Cost Manual Changes

Expenditures -

This budget-neutral item aligns accounts related to Citywide Adjustments for Standard Cost Changes.

#### Miscellaneous Technical Adjustments

Expenditures -

This budget-neutral item makes several technical adjustments to add and correct project and accounting coding.

# Legislative Department

Debora Juarez, Council President

(206) 684-8805

<http://www.seattle.gov/council>/<http://www.seattle.gov/council>/<http://www.seattle.gov/council>

## Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety. The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. The City Council establishes city laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments.

## Description of Incremental Budget Changes

### Baseline

#### Citywide Adjustments for Standard Cost Changes

Expenditures \$(201,054)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department.

### Proposed Technical

#### Add sunset pocket in 2024 for Council human resource support

Position Allocation 1.00

This technical item adds to the 2024 budget a sunset position that was created through a 2023 supplemental budget change. The role of this position is to support the temporary increase in City Council human resource needs, as many Councilmembers and their staff are transitioning through retirements and an election. This position will sunset in 2024, and is funded through existing budget.

# Office of the Mayor

Bruce Harrell, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

## Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

<b>Total Incremental Changes</b>	<b>\$1,974,101</b>	<b>-</b>
<b>Total 2024 Proposed Budget</b>	<b>\$11,894,072</b>	<b>40.50</b>

### Description of Incremental Budget Changes

#### Baseline

##### Citywide Adjustments for Standard Cost Changes

Expenditures \$1,474,101

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. Approximately \$1.18 million of this change is attributable to increased Judgment and Claims costs. The Mayor's Office became an eligible payer of Judgment and Claims costs in 2023, as a result of defense costs for litigation related to matters that occurred in 2020.

##### Technical Adjustment for Central Cost Manual Changes

Expenditures -

This budget-neutral item aligns accounts related to Citywide Adjustments for Standard Cost Changes.

#### Proposed Operating

##### 2024 Casey Family Programs Grant to Support Public Safety

Expenditures \$500,000

Revenues \$500,000

This one-time item appropriates funds from a Casey Family Programs grant for \$500,000, that will support 3.0 temporary FTE for research, planning, and implementation of programming related to public safety.

## Mid-Biennial Department Budget Summary Level Detail

2024 is the second year of the City’s biennial budget process. The City Council endorsed departmental funding amounts for 2024 as part of the 2023 Adopted Budget and that Endorsed Budget served as the starting point for the 2024 Budget Process.

In the Biennial Budget Document, additional departmental details are presented in terms of their budget programs by Budget Summary Levels. In order to place greater emphasis on the proposed budget adjustments relative to the 2024 Endorsed Budget, the mid-biennial budget document presents this budget program detail as a supplemental appendix independent from the departmental pages.

## Department of Arts and Culture

### **ARTS - BO-AR-2VMA0 - Public Art**

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Parks and Facilities Maintenance and Repairs Budget Summary Level:

### **CIP Cost Recovery Offset**

The purpose of the CIP Cost Recovery Offset Budget Program Level is to recover costs associated with indirect programs within the Parks and Facilities Maintenance and Repairs BSL from the direct cost capital programs. This program does not fully recover Parks and Facilities Maintenance and Repairs BSL costs.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
CIP Cost Recovery Offset	(704,887)	(1,039,841)	(1,039,841)	(1,039,841)

### **M&R Grounds Crews**

The purpose of the M&R Grounds Crews Budget Program Level is to provide custodial, landscape, and forest maintenance and restoration services.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
M&R Grounds Crews	47,005,257	51,592,327	52,428,835	52,372,664
Full Time Equivalents Total	267.53	309.53	309.53	307.56

### **M&R Shops Crews**

The purpose of the M&R Shops Crews Budget Program Level is to repair and maintain park buildings and infrastructure so that park users can have safe, structurally sound, and attractive parks and recreational facilities.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
M&R Shops Crews	23,640,867	26,370,463	26,916,054	27,308,979
Full Time Equivalents Total	147.50	170.50	170.50	172.00

# Seattle Parks and Recreation

## M&R Specialty Crews

The purpose of the M&R Specialty Crews Budget Program Level is to provide centralized management of natural areas and developed parks including forest restoration, urban forestry, wildlife management, trails, and grass and turf management.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
M&R Specialty Crews	7,613,472	9,486,894	9,882,994	10,165,754
Full Time Equivalents Total	64.72	72.72	72.72	74.39

### **SPR - BO-PR-20000 - Leadership and Administration**

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology, and business support to the department.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Citywide Indirect Costs	17,157,217	17,051,508	17,995,078	19,512,590
COVID Planning 2021	-	735,000	1,528,800	1,528,800
Departmental Indirect Costs	12,371,037	16,231,574	16,672,729	15,445,234
Divisional Indirect Costs	9,872,207	12,691,903	12,925,064	14,151,489
Indirect Cost Recovery Offset	(4,039,086)	(5,111,879)	(5,117,549)	(6,277,436)
Pooled Benefits	3,602,669	3,743,469	4,138,514	4,138,514
<b>Total</b>	<b>38,964,044</b>	<b>45,341,576</b>	<b>48,142,635</b>	<b>48,499,190</b>
Full-time Equivalents Total*	127.06	147.82	147.82	151.62

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

### **Citywide Indirect Costs**

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services, Seattle Information Technology Department, and the Department of Human Resources.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Citywide Indirect Costs	17,157,217	17,051,508	17,995,078	19,512,590

### **COVID Planning 2021**

The purpose of the COVID Planning 2021 Budget Program Level is to temporarily hold the consolidated Park Fund (10200) expenditure and revenue savings from extended COVID-19 impacts in 2021. The corresponding appropriation and revenue savings are moved out of operating divisions into this Budget Program, representing a one year plan to address financial impacts from the pandemic on the Park Fund (10200).

# Seattle Parks and Recreation

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
COVID Planning 2021	-	735,000	1,528,800	1,528,800

## Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Budget Program Level is to provide executive, financial, communications, human resources and business support and strategic planning an analysis to the departments.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Departmental Indirect Costs	12,371,037	16,231,574	16,672,729	15,445,234
Full Time Equivalents Total	82.55	93.25	93.25	94.25

## Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Budget Program Level is to provide managerial and administrative support for operating divisions. The Budget Program also provides planning and development support to develop new park facilities, and make improvements to existing park facilities to benefit the public.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Divisional Indirect Costs	9,872,207	12,691,903	12,925,064	14,151,489
Full Time Equivalents Total	44.51	54.57	54.57	57.37

## Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs. This program does not fully recover Leadership and Administration BSL costs.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Indirect Cost Recovery Offset	(4,039,086)	(5,111,879)	(5,117,549)	(6,277,436)

## Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Pooled Benefits	3,602,669	3,743,469	4,138,514	4,138,514

# Seattle Parks and Recreation

## SPR - BO-PR-30000 - Departmentwide Programs

The purpose of the Department-Wide Services Budget Summary Level is to provide management and operations of services that span across multiple lines of business within Seattle Parks and Recreation such as partner relationship management, emergency operations, security services, , athletic and event scheduling, and the Seattle Conservation Corps.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Departmentwide Other	2,236,631	6,166,768	6,203,414	6,276,924
Partnerships - Departmentwide	7,995,704	8,300,306	8,533,195	8,289,506
Seattle Conservation Corps	3,303,719	5,424,388	5,498,678	5,575,311
<b>Total</b>	<b>13,536,055</b>	<b>19,891,462</b>	<b>20,235,288</b>	<b>20,141,741</b>
Full-time Equivalents Total*	57.55	92.09	92.09	89.59

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Departmentwide Programs Budget Summary Level:

### **Departmentwide Other**

The purpose of the Departmentwide-Other Budget Program Level is to provide emergency management and safety services at park facilities.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>

# Office for Civil Rights

## **OCR - BO-CR-X1R00 - Civil Rights**

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

### **Land Use Services**

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Land Use Services	21,711,644	23,554,635	23,554,635	24,869,211
Full Time Equivalents Total	82.00	101.00	101.00	103.00

### **Land Use Services CBA**

The purpose of the Land Use Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Land Use Services CBA	-	1,672,241	1,672,241	1,672,241

# Seattle Department of Construction and Inspections

## **SDCI - BO-CI-U2300 - Permit Services**

The purpose of the Permit Services Budget Summary Level is to facilitate the review of development plans and processing of permits.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Inspections Budget Summary Level:

### **Inspections**

The purpose of the Inspections Program is to provide timely on-site inspections of property under development at predetermined stages of construction; work closely with project architects, engineers, developers, contractors, and other City of Seattle departments to approve projects as substantially complying with applicable City codes, ordinances, and approved plans; and to issue final approvals for occupancy.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Inspections	27,902,206	27,818,358	27,818,358	29,389,661
Full Time Equivalent Total	114.00	121.00	121.00	123.00

### **Inspections Services CBA**

The purpose of the Inspections Services CBA Program is to display the amount of Contingent Budget Authority (CBA) that has not been accessed within the Inspections BCL for construction inspections and electrical inspections with plan review. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>

# Seattle Department of Construction and Inspections

## SDCI - BO-CI-U2400 - Compliance

The purpose of the Compliance Budget Summary Level is to ensure land and buildings are developed, used and maintained according to applicable code standards, reduce deterioration of structures and properties, enforce tenant protections, and support outreach and education for landlords and tenants in coordination with other departments and community organizations.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Compliance	11,772,374	11,041,251	11,022,861	12,139,298
Compliance Resources	-	1,450,000	450,000	450,000
Rental Housing	2,051,934	2,372,008	2,372,008	2,418,132
<b>Total</b>	<b>13,824,308</b>	<b>14,863,259</b>	<b>13,844,869</b>	<b>15,007,430</b>
Full-time Equivalents Total*	53.50	57.00	57.00	60.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

### Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the development, use, maintenance, and management of land and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system, reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims. The program also supports outreach and education for landlords and tenants, working in coordination with other departments and community organizations.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Compliance	11,772,374	11,041,251	11,022,861	12,139,298
Full Time Equivalents Total	40.50	43.00	43.00	46.00

### Compliance Resources

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Compliance Resources	-	1,450,000	450,000	450,000

### Rental Housing

The purpose of the Rental Housing Program is to improve the quality of the rental housing stock in Seattle and investigate and respond to violations of tenant protection regulations. By registering and inspecting all rental housing properties the program helps ensure key life, health and safety standards are met. The program provides

# Seattle Department of Construction and Inspections

assistance to property owners and tenants regarding relocation assistance, just cause eviction, and other duties and responsibilities of owners and tenants.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>

Indirect Cost Recovery Offset	-	(35,274,551)	(35,274,551)	(38,832,507)
<b>Total</b>	<b>5,881</b>	<b>-</b>	<b>1,173,600</b>	<b>-</b>
Full-time Equivalents Total*	64.00	66.00	66.00	67.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

### **Citywide Indirect Costs**

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Citywide Indirect Costs	-	26,584,779	27,757,997	29,277,669

### **Departmental Indirect Costs**

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				

# Seattle Department of Construction and Inspections

Departmental Indirect Costs	3,167	5,006,807	5,006,807	5,156,769
Full Time Equivalents Total	37.00	39.00	39.00	40.00

## Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Divisional Indirect Costs	2,714	3,682,965	3,683,347	4,398,069
Full Time Equivalents Total	27.00	27.00	27.00	27.00

## Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Indirect Cost Recovery Offset	-	(35,274,551)	(35,274,551)	(38,832,507)

### **SDCI - BO-CI-U2600 - Government Policy, Safety & Support**

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Govt Policy, Safety & Support	2,340,319	2,591,882	2,591,882	2,677,375
<b>Total</b>	<b>2,340,319</b>	<b>2,591,882</b>	<b>2,591,882</b>	<b>2,677,375</b>

# Seattle City Light

## **SCL - BO-CL-ADMIN - Leadership and Administration**

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle City Light and to provide core management and administrative services such as communications, finance, human resources, facility management and IT program support. This BSL is also utilized to provide for the general expenses of the utility that are not attributable to a specific organizational unit such as insurance and bond issue costs, legal fees, indirect costs related to employee benefits and PTO, general claims costs, and services provided by the City's internal services departments through the central cost allocation mechanism.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
City Indirect Costs	64,243,961	68,209,422	69,492,861	48,829,388
Current Year Inventory	-	8,000,000	8,000,000	8,000,000
Department GA Indirect Recovery	(65,985,133)	(46,504,967)	(42,865,036)	(49,880,307)
Departmental Indirect Costs	74,200,263	101,688,153	106,269,558	127,961,845
Divisional Indirect	15,951,176	25,576,902	27,683,021	26,970,397
PTO and Benefits Indirect Costs	47,231,278	5,345,103	7,583,557	6,141,602
<b>Total</b>	<b>135,641,546</b>	<b>162,314,613</b>	<b>176,163,960</b>	<b>168,022,924</b>
Full-time Equivalents Total*	558.88	558.88	558.88	558.88

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

### **City Indirect Costs**

The City Indirect Costs program funds the costs for city services that are provided to the utility.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
City Indirect Costs	64,243,961	68,209,422	69,492,861	48,829,388

### **Current Year Inventory**

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Current Year Inventory	-	8,000,000	8,000,000	8,000,000

### **Department GA Indirect Recovery**

The Department General and Administrative Indirect Recovery program offsets the overhead costs applied to the capital programs in the Leadership and Administration BSL.

# Seattle City Light

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Department GA Indirect Recovery	(65,985,133)	(46,504,967)	(42,865,036)	(49,880,307)

## Departmental Indirect Costs

The Department Indirect Costs program funds departmentwide O&M services that support other programs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Departmental Indirect Costs	74,200,263	101,688,153	106,269,558	127,961,845
Full Time Equivalents Total	505.53	505.53	505.53	505.53

## Divisional Indirect

The Divisional Indirect Costs program funds Administrative and General O&M services in operational divisions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Divisional Indirect	15,951,176	25,576,902	27,683,021	26,970,397
Full Time Equivalents Total	53.35	53.35	53.35	53.35

## PTO and Benefits Indirect Costs

The Pooled Benefits Indirect Costs program funds costs for health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
PTO and Benefits Indirect Costs	47,231,278	5,345,103	7,583,557	6,141,602

### **SCL - BO-CL-CUSTCARE - Customer Care**

The purpose of the Customer Service Budget Summary Level is to provide customer experience support specific to customer information systems and to implement demand-side conservation measures that offset the need for additional generation resources.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Conservation Expenses	1,344,728	4,099,996	4,157,496	5,037,314
Customer Accounts & Services	42,930,714	48,412,838	49,202,512	49,604,815
<b>Total</b>	<b>44,275,442</b>	<b>52,512,833</b>	<b>53,360,008</b>	<b>54,642,129</b>
Full-time Equivalents Total*	132.15	132.15	132.15	132.15

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle City Light

The following information summarizes the programs in Customer Care Budget Summary Level:

## Conservation Expenses

The Conservation Expenses program provides O&M funding for demand-side conservation measures that offset the need for additional generation resources.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
Conservation Expenses	1,344,728	4,099,996	4,157,496	5,037,314

## Customer Accounts & Services

The Customer Accounts and Services program provides O&M funding for customer experience support.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
Customer Accounts & Services	42,930,714	48,412,838	49,202,512	49,604,815
Full Time Equivalents Total	132.15	132.15	132.15	132.15

### **SCL - BO-CL-DEBTSRVC - Debt Service**

The purpose of the Debt Service Budget Summary Level is to meet principal repayment and interest obligations on funds borrowed to meet City Light's capital expenditure requirements.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Debt Service	236,443,796	244,968,395	258,438,138	255,243,609
<b>Total</b>	<b>236,443,796</b>	<b>244,968,395</b>	<b>258,438,138</b>	<b>255,243,609</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle City Light

## **SCL - BO-CL-PWRSUPPLY - Power Supply O&M**

The purpose of the Power Supply O&M Budget Summary Level is to support transportation electrification, solar, and other technologies; implement demand-side conservation measures that offset the need for additional generation resources; and monitor compliance with federal electric reliability standards. The power marketing operations of the utility are also included in this Budget Summary Level.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Purchased Power/Power Supply	328,837,144	313,881,548	344,488,804	344,459,167
<b>Total</b>	<b>328,837,144</b>	<b>313,881,548</b>	<b>344,488,804</b>	<b>344,459,167</b>
Full-time Equivalents Total*	69.95	64.95	69.95	69.95

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## **SCL - BO-CL-TAXES - Taxes**

The purpose of the Taxes Budget Summary Level is to pay City Light's legally required tax payments for state, city, and local jurisdictions. This Budget Summary Level includes funding for franchise contract payments negotiated with local jurisdictions in City Light's service territory.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Taxes	114,013,042	112,006,561	116,765,046	120,555,101
<b>Total</b>	<b>114,013,042</b>	<b>112,006,561</b>	<b>116,765,046</b>	<b>120,555,101</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle City Light

## **SCL - BO-CL-UTILOPS - Utility Operations O&M**

The purpose of the Utility Operations O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's power production facilities, substations, transmission systems, and overhead and underground distribution systems in a clean, safe, efficient, reliable, and environmentally responsible manner. The utility's energy delivery engineering, power production engineering, generation operations, asset management, power system functions, renewable resource development programs, hydroelectric relicensing, and real estate are also included in this Budget Summary Level.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Distribution O&M	65,647,584	79,144,651	81,073,220	83,644,624
Generation O&M	36,621,495	34,494,351	36,740,779	36,193,283
Transmission O&M	15,932,754	24,341,066	24,611,696	24,283,390
<b>Total</b>	<b>118,201,832</b>	<b>137,980,068</b>	<b>142,425,694</b>	<b>144,121,296</b>
Full-time Equivalents Total*	526.92	526.92	526.92	526.92

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Utility Operations O&M Budget Summary Level:

### **Distribution O&M**

The Distribution Operations and Maintenance program funds the operation and maintenance of City Light's overhead and underground distribution systems.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Distribution O&M	65,647,584	79,144,651	81,073,220	83,644,624
Full Time Equivalents Total	287.08	287.08	287.08	287.08

### **Generation O&M**

The Generation Operations and Maintenance program funds the operation and maintenance of City Light's power production facilities.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Generation O&M	36,621,495	34,494,351	36,740,779	36,193,283
Full Time Equivalents Total	125.63	125.63	125.63	125.63

### **Transmission O&M**

The Transmission Operations and Maintenance program funds the operation and maintenance of City Light's substation and transmission systems.

# Seattle Public Utilities

## **SPU - BC-SU-C110B - Distribution**

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

<b>Program Expenditures</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2024</b>
	<b>Actuals</b>	<b>Adopted</b>	<b>Endorsed</b>	<b>Proposed</b>
Distribution	27,362,502	39,327,664	51,239,400	44,060,074
<b>Total</b>	<b>27,362,502</b>	<b>39,327,664</b>	<b>51,239,400</b>	<b>44,060,074</b>
Full-time Equivalents Total*	79.00	79.00	79.00	79.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## **SPU - BC-SU-C120B - Transmission**

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

<b>Program Expenditures</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2024</b>
	<b>Actuals</b>	<b>Adopted</b>	<b>Endorsed</b>	<b>Proposed</b>
Transmission	14,025,807	15,411,186	13,625,338	13,522,272
<b>Total</b>	<b>14,025,807</b>	<b>15,411,186</b>	<b>13,625,338</b>	<b>13,522,272</b>
Full-time Equivalents Total*	5.00	5.00	5.00	5.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## **SPU - BC-SU-C130B - Watershed Stewardship**

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

<b>Program Expenditures</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2024</b>
	<b>Actuals</b>	<b>Adopted</b>	<b>Endorsed</b>	<b>Proposed</b>
Watershed Stewardship	852,699	920,851	325,000	4,885,999
<b>Total</b>	<b>852,699</b>	<b>920,851</b>	<b>325,000</b>	<b>4,885,999</b>
Full-time Equivalents Total*	8.00	8.00	8.00	8.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle Public Utilities

## SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water Quality & Treatment	2,740,588	1,868,171	1,974,993	6,450,289
<b>Total</b>	<b>2,740,588</b>	<b>1,868,171</b>	<b>1,974,993</b>	<b>6,450,289</b>
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## SPU - BC-SU-C150B - Water Resources

The purpose of the Water Resources Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade water transmission pipelines and promote residential and commercial water conservation.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water Resources	4,518,599	14,059,143	4,856,686	16,706,188
<b>Total</b>	<b>4,518,599</b>	<b>14,059,143</b>	<b>4,856,686</b>	<b>16,706,188</b>
Full-time Equivalents Total*	12.00	14.00	14.00	16.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## SPU - BC-SU-C160B - Habitat Conservation Program

The purpose of the Habitat Conservation Budget Summary Level, a Capital Improvement Program funded by water revenues, is to manage projects directly related to the Cedar River Watershed Habitat Conservation Plan.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Habitat Conservation Program	925,022	2,521,380	998,778	3,686,223
<b>Total</b>	<b>925,022</b>	<b>2,521,380</b>	<b>998,778</b>	<b>3,686,223</b>
Full-time Equivalents Total*	15.00	15.00	15.00	15.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Seattle Public Utilities

### **SPU - BC-SU-C230B - New Facilities**

The purpose of the New Facilities Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to design and construct new facilities to enhance solid waste operations.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
New Facilities	801,200	10,277,811	8,777,476	24,161,970
<b>Total</b>	<b>801,200</b>	<b>10,277,811</b>	<b>8,777,476</b>	<b>24,161,970</b>
Full-time Equivalents Total*	9.00	9.00	9.00	9.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C240B - Rehabilitation & Heavy Equipment**

The purpose of the Rehabilitation and Heavy Equipment Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to implement projects to repair and rehabilitate the City's solid waste transfer stations and improve management of the City's closed landfills and household hazardous waste sites.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Rehabilitation & Heavy Eqpt	486,288	550,000	1,800,000	2,260,000
<b>Total</b>	<b>486,288</b>	<b>550,000</b>	<b>1,800,000</b>	<b>2,260,000</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C333B - Protection of Beneficial Uses**

The purpose of the Protection of Beneficial Uses Budget Summary Level, a Capital Improvement Program funded by drainage revenues, is to make improvements to the City's drainage system to reduce the harmful effects of storm water runoff on creeks and receiving waters by improving water quality and protecting or enhancing habitat.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Protection of Beneficial Uses	16,504,737	24,530,656	30,404,947	36,683,378
<b>Total</b>	<b>16,504,737</b>	<b>24,530,656</b>	<b>30,404,947</b>	<b>36,683,378</b>
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Seattle Public Utilities

### **SPU - BC-SU-C350B - Sediments**

The purpose of the Sediments Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to restore and rehabilitate natural resources in or along Seattle's waterways.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Sediments	3,749,373	5,221,790	11,115,291	10,734,002
<b>Total</b>	<b>3,749,373</b>	<b>5,221,790</b>	<b>11,115,291</b>	<b>10,734,002</b>
Full-time Equivalents Total*	7.00	7.00	7.00	7.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C360B - Combined Sewer Overflows**

The purpose of the Combined Sewer Overflow (CSO) Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan and construct large infrastructure systems, smaller retrofits, and green infrastructure for CSO Summary.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Combined Sewer Overflows	74,669,303	121,042,446	94,588,146	111,767,108
<b>Total</b>	<b>74,669,303</b>	<b>121,042,446</b>	<b>94,588,146</b>	<b>111,767,108</b>
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C370B - Rehabilitation**

The purpose of the Rehabilitation Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to rehabilitate or replace existing drainage and wastewater assets in kind, to maintain the current functionality of the system.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Rehabilitation	36,955,569	52,270,010	50,337,738	61,249,734
<b>Total</b>	<b>36,955,569</b>	<b>52,270,010</b>	<b>50,337,738</b>	<b>61,249,734</b>
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Seattle Public Utilities

### **SPU - BC-SU-C380B - Flooding, Sewer Backup & Landslide**

The purpose of the Flooding, Sewer Back-up, and Landslides Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan, design and construct systems aimed at preventing or alleviating flooding and sewer backups in the City of Seattle, protecting public health, safety, and property. This program also protects SPU drainage and wastewater infrastructure from landslides, and makes drainage improvements where surface water generated from City rights-of-way contributes to landslides.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Flooding, Sewer Backup & Lndsl	24,854,880	16,680,631	12,657,299	12,202,802
<b>Total</b>	<b>24,854,880</b>	<b>16,680,631</b>	<b>12,657,299</b>	<b>12,202,802</b>
Full-time Equivalents Total*	25.00	25.00	25.00	25.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C410B - Shared Cost Projects**

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Shared Cost Projects	32,361,936	57,866,236	75,014,871	66,241,088
<b>Total</b>	<b>32,361,936</b>	<b>57,866,236</b>	<b>75,014,871</b>	<b>66,241,088</b>
Full-time Equivalents Total*	95.00	95.00	95.00	95.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

### **SPU - BC-SU-C510B - Technology**

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's efficiency and productivity.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Technology	8,338,718	15,300,000	10,550,000	13,174,000
<b>Total</b>	<b>8,338,718</b>	<b>15,300,000</b>	<b>10,550,000</b>	<b>13,174,000</b>
Full-time Equivalents Total*	41.00	41.00	41.00	41.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle Public Utilities

## **SPU - BO-SU-N000B - General Expense**

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Budget Reserves	-	13,535,516	14,071,747	14,071,747
Capital Purchases	47,852	391,308	399,135	274,287
Debt Service	204,030,877	175,379,166	176,155,050	233,889,113
Major Contracts	300,687,624	314,731,480	329,717,986	348,539,513
Taxes and Fees	149,063,083	157,676,383	163,983,389	164,962,561
<b>Total</b>	<b>653,829,435</b>	<b>661,713,854</b>	<b>684,327,307</b>	<b>761,737,222</b>
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

### **Budget Reserves**

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Budget Reserves	-	13,535,516	14,071,747	14,071,747

### **Capital Purchases**

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot be purchased using bond proceeds.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Capital Purchases	47,852	391,308	399,135	274,287

### **Debt Service**

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
-------------------------	-------------------------	-------------------------	--------------------------	--------------------------

## Seattle Public Utilities

Debt Service	204,030,877	175,379,166	176,155,050	233,889,113
--------------	-------------	-------------	-------------	-------------

### Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Major Contracts	300,687,624	314,731,480	329,717,986	348,539,513
Full Time Equivalents Total	1.00	1.00	1.00	1.00

### Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Taxes and Fees	149,063,083	157,676,383	163,983,389	164,962,561

### **SPU - BO-SU-N100B - Leadership and Administration**

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Indirect Costs	64,918,593	76,206,711	79,281,864	81,107,476
Departmental Indirect Costs	72,724,163	93,100,051	97,500,963	94,789,010
Divisional Indirect Costs	817,293	1,576,751	1,649,308	948,273
Indirect Cost Recovery Offset	(25,029,032)	(22,465,443)	(23,593,182)	(23,723,189)
Paid Time Off Indirect Costs	1,990,146	4,828,182	5,115,753	5,498,546
Pooled Benefits Indirect Costs	10,236,692	7,429,334	7,155,171	4,699,481
<b>Total</b>	<b>125,657,854</b>	<b>160,675,587</b>	<b>167,109,877</b>	<b>163,319,597</b>
Full-time Equivalents Total*	134.10	146.60	146.60	149.10

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

*The following information summarizes the programs in Leadership and Administration Budget Summary Level:*

### Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle

# Seattle Public Utilities

Information Technology Department.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Citywide Indirect Costs	64,918,593	76,206,711	79,281,864	81,107,476

## Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Departmental Indirect Costs	72,724,163	93,100,051	97,500,963	94,789,010
Full Time Equivalents Total	134.10	142.60	142.60	144.10

## Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Divisional Indirect Costs	817,293	1,576,751	1,649,308	948,273

## Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Indirect Cost Recovery Offset	(25,029,032)	(22,465,443)	(23,593,182)	(23,723,189)
Full Time Equivalents Total	-	2.00	2.00	3.00

## Paid Time Off Indirect Costs

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Paid Time Off Indirect Costs	1,990,146	4,828,182	5,115,753	5,498,546

## Pooled Benefits Indirect Costs

# Seattle Public Utilities

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Pooled Benefits Indirect Costs	10,236,692	7,429,334	7,155,171	4,699,481
Full Time Equivalents Total	-	2.00	2.00	2.00

## **SPU - BO-SU-N200B - Utility Service and Operations**

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed

The following information summarizes the programs in Utility Service and Operations Budget Summary Level:

### **Customer Service**

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

## Seattle Public Utilities

Customer Service	21,890,786	26,943,476	28,305,841	27,566,565
Full Time Equivalents Total	254.00	254.00	254.00	254.00

### Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Drainage System	7,764,145	9,787,486	10,166,616	10,489,973
Full Time Equivalents Total	2.00	2.00	2.00	5.00

### DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
DWW Facilities & Equip	1,709,482	1,117,803	1,167,430	967,089

### DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
DWW System Operations	24,803,105	34,909,392	35,945,885	36,846,651
Full Time Equivalents Total	1.00	2.00	2.00	3.00

### Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Emergency Response	3,670,053	2,570,713	2,673,571	2,889,491

### Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				

## Seattle Public Utilities

Engineering	17,411,413	18,397,443	19,282,176	19,187,024
Full Time Equivalents Total	108.00	111.00	111.00	114.00

### Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Pre-Capital Planning	3,476,311	4,660,732	4,590,000	4,590,000

### Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Solid Waste Facilities & Equip	5,600,287	5,516,432	5,739,947	6,557,691
Full Time Equivalents Total	1.00	1.00	1.00	1.00

### Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Solid Waste Operations	36,688,744	46,103,014	47,444,734	45,238,113
Full Time Equivalents Total	97.56	101.56	101.56	101.56

### Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance, pump stations and storage.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Wastewater System	10,631,782	14,886,515	15,614,374	15,011,011
Full Time Equivalents Total	233.05	233.05	233.05	233.05

### Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump

## Seattle Public Utilities

stations and reservoirs.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water Distribution System	11,751,995	15,486,113	16,174,810	17,735,620
Full Time Equivalents Total	120.09	120.09	120.09	120.09

### Water Facilities & Equipment

The Water Facilities & Equipment Program provides appropriation to maintain water storage facilities.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water Facilities & Equipment	2,812,012	3,356,103	3,511,640	3,039,087

### Water Supply & Transmssn System

The Water Supply and Transmission System Program provides appropriation to operate and maintain the water pipelines, reservoirs and water sheds.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water Supply & Transmssn System	5,578,703	4,928,233	4,887,853	5,207,598

### Water System Operations

The Water System Operations Program provides appropriation to plan and monitor the overall water system and water quality lab, and includes the work for the Cedar River Habitat conservation.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Water System Operations	35,119,652	30,029,858	31,548,142	34,450,193
Full Time Equivalents Total	137.00	137.00	137.00	137.00

# Seattle Department of Transportation

## **SDOT - BC-TR-16000 - Central Waterfront**

The purpose of the Central Waterfront Budget Summary Level is to design, manage, and construct improvements to the transportation infrastructure and public spaces along the Central Waterfront.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Central Waterfront	63,938,731	102,752,997	6,894,000	35,607,000

Signs, Signals and Markings	1,349,667	1,762,419	1,801,420	1,801,420
Streetcar Repair	72,723	850,000	-	-
Trails and Bike Paths	966,115	1,958,999	1,911,119	1,911,119
Urban Forestry	(9,265)	258,936	8,936	478,627
<b>Total</b>	<b>101,509,421</b>	<b>55,404,752</b>	<b>61,504,198</b>	<b>91,516,433</b>
Full-time Equivalents Total*	100.25	100.25	100.25	100.25

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

### **Bridges & Structures**

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Bridges & Structures	69,012,563	24,588,524	18,325,658	53,395,965
Full Time Equivalents Total	14.75	14.75	14.75	14.75

### **Landslide Mitigation**

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Landslide Mitigation	571,569	429,908	501,908	501,908
Full Time Equivalents Total	2.00	2.00	2.00	2.00

### **Roads**

# Seattle Department of Transportation

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Roads	23,051,547	20,112,586	31,960,486	28,432,723
Full Time Equivalents Total	47.00	47.00	47.00	47.00

## Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Sidewalk Maintenance	6,494,502	5,443,380	6,994,671	4,994,671
Full Time Equivalents Total	6.00	6.00	6.00	6.00

## Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Signs, Signals and Markings	1,349,667	1,762,419	1,801,420	1,801,420
Full Time Equivalents Total	1.00	1.00	1.00	1.00

## Streetcar Repair

The purpose of Streetcar Repair program is to repair and maintain the city's streetcar lines to ensure safe, efficient movement of people, goods and services throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Streetcar Repair	72,723	850,000	-	-

## Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Trails and Bike Paths	966,115	1,958,999	1,911,119	1,911,119

# Seattle Department of Transportation

Full Time Equivalents Total 27.75 27.75 27.75 27.75

## Urban Forestry

The Tree and Landscape Maintenance program provides services to implement the citywide Urban Forestry Management Plan through education, stewardship, protection and maintenance of SDOT's green infrastructure assets including trees and landscapes. Arborists, Foresters, and the Landscape Architect provide design guidance, construction management support, citywide policy guidance and implementation including street tree permitting. Urban Forestry field operations provides critical maintenance of more than 40,000 SDOT street use tree assets and emergency response to over 350,000 right-of-way trees. Field operations is also responsible for the maintenance and operation of more than 200 formally landscaped right-of-way areas such as medians along Beacon Avenue South and Sand Point Way NE.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Urban Forestry	(9,265)	258,936	8,936	478,627
Full Time Equivalents Total	1.75	1.75	1.75	1.75

### **SDOT - BC-TR-19002 - Major Projects**

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Alaskan Way Viaduct	1,601,590	-	-	-
First Hill Streetcar	9,334	-	-	-
Mercer West	521	-	-	-
SR-520	1,294,196	1,922,000	1,971,000	1,971,000
<b>Total</b>	<b>2,905,641</b>	<b>1,922,000</b>	<b>1,971,000</b>	<b>1,971,000</b>
Full-time Equivalents Total*	24.50	24.50	24.50	24.50

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Projects Budget Summary Level:

### Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

# Seattle Department of Transportation

Alaskan Way Viaduct	1,601,590	-	-	-
Full Time Equivalents Total	23.00	23.00	23.00	23.00

## First Hill Streetcar

The purpose of the First Hill Streetcar program is to construct a Streetcar system that connects major medical facilities, Seattle Central College, Seattle University, and mixed income communities to the King Street mobility hub.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
First Hill Streetcar	9,334	-	-	-

## Mercer West

The purpose of the Mercer West Program is to use existing street capacity along the west portion of Mercer Street more efficiently and enhance all modes of travel, including pedestrian mobility, and provide an east/west connection between I-5, State Route 99, and Elliott Ave W.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Mercer West	521	-	-	-

## SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
SR-520	1,294,196	1,922,000	1,971,000	1,971,000
Full Time Equivalents Total	1.50	1.50	1.50	1.50

# Seattle Department of Transportation

## SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Corridor & Intersection Imprv	32,414,400	48,042,051	38,134,038	51,962,066
Freight Mobility	5,542,602	14,721,193	2,807,000	43,769,140
Intelligent Transp System	7,582,142	1,377,719	1,323,096	1,323,095
Neighborhood Enhancements	6,304,743	4,942,558	6,374,295	6,374,504
New Trails and Bike Paths	12,196,718	39,056,330	11,476,952	20,928,952
Sidewalks & Ped Facilities	28,371,053	37,626,160	33,525,037	34,429,718
Transit & HOV	64,997,836	90,419,697	64,302,037	81,745,746
<b>Total</b>	<b>157,409,495</b>	<b>236,185,709</b>	<b>157,942,455</b>	<b>240,533,221</b>
Full-time Equivalents Total*	144.50	161.50	161.50	163.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

### Corridor & Intersection Imprv

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Corridor & Intersection Imprv	32,414,400	48,042,051	38,134,038	51,962,066
Full Time Equivalents Total	38.50	39.50	39.50	39.50

### Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Freight Mobility	5,542,602	14,721,193	2,807,000	43,769,140
Full Time Equivalents Total	4.50	4.50	4.50	4.50

### Intelligent Transp System

## Seattle Department of Transportation

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies; installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Intelligent Transp System	7,582,142	1,377,719	1,323,096	1,323,095
Full Time Equivalents Total	9.25	9.25	9.25	9.25

### Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Neighborhood Enhancements	6,304,743	4,942,558	6,374,295	6,374,504
Full Time Equivalents Total	19.75	19.75	19.75	21.25

### New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
New Trails and Bike Paths	12,196,718	39,056,330	11,476,952	20,928,952
Full Time Equivalents Total	1.00	2.00	2.00	2.00

### Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Sidewalks & Ped Facilities	28,371,053	37,626,160	33,525,037	34,429,718
Full Time Equivalents Total	57.50	60.50	60.50	60.50

### Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

<b>Expenditures/FTE</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2024</b>
-------------------------	-------------	-------------	-------------	-------------

# Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Transit & HOV	64,997,836	90,419,697	64,302,037	81,745,746
Full Time Equivalents Total	14.00	26.00	26.00	26.00

## **SDOT - BO-TR-12001 - South Lake Union Streetcar Operations**

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
S Lake Union Streetcar Ops	1,340,142	4,474,986	4,629,820	4,629,820

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Bridges & Structures Budget Summary Level:

### **Bridge Operations**

The purpose of Bridge Operations is to ensure the safe and efficient operations and preventive maintenance for over 180 bridges throughout the city.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Bridge Operations	4,517,236	4,133,682	4,257,500	4,257,500
Full Time Equivalents Total	17.50	17.50	17.50	17.50

### **Engineering & Ops Support**

The purpose of the Engineering Ops & Support program is to provide engineering support services to other SDOT projects, perform engineering related to bridges and structures, and manage stormwater pollution control.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Engineering & Ops Support	756,797	1,675,644	1,728,589	888,607
Full Time Equivalents Total	3.00	3.00	3.00	3.00

### **Structures Engineering**

The purpose of the Structures Engineering Program is to provide engineering services on all the bridges and structures within the city to ensure the safety of transportation users as they use or move in proximity to these transportation facilities.

# Seattle Department of Transportation

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Structures Engineering	1,518,498	1,433,213	1,477,679	1,777,741
Full Time Equivalents Total	3.50	3.50	3.50	6.50

## Structures Maintenance

The purpose of the Structures Maintenance Program is to provide for the maintenance of the city's bridges, roadside structures and stairways.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Structures Maintenance	7,742,359	9,937,416	10,241,547	9,721,040
Full Time Equivalents Total	35.00	35.00	35.00	35.00

## **SDOT - BO-TR-17003 - Mobility Operations**

The purpose of the Mobility-Operations Budget Summary Level is to promote the safe and efficient operation of all transportation modes in the city. This includes managing the parking, pedestrian, and bicycle infrastructure; implementing neighborhood plans; encouraging alternative modes of transportation; and maintaining and improving signals and the non-electrical transportation management infrastructure.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Commuter Mobility	19,829,550	19,674,882	20,371,191	20,182,279
Neighborhoods	1,857,364	1,259,959	1,300,528	702,543
Parking & Curbspace	14,254,880	15,044,325	15,429,497	17,048,725
Signs & Markings	5,132,485	4,910,309	5,054,343	5,031,159
Traffic Signals	9,500,877	11,118,107	11,459,777	11,459,777
Transit Operations	27,207,059	44,492,330	46,165,775	46,165,775
Urban Planning	5,488,769	4,444,109	4,325,583	4,325,583
<b>Total</b>	<b>83,270,984</b>	<b>100,944,021</b>	<b>104,106,694</b>	<b>104,915,841</b>
Full-time Equivalents Total*	147.75	153.75	153.75	173.75

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility Operations Budget Summary Level:

## Commuter Mobility

The purpose of the Commuter Mobility Program is to provide a variety of services, including enforcement of City commercial vehicle limits, transit coordination, and planning, to increase mobility and transportation options to the residents of Seattle.

Expenditures/FTE	2022	2023	2024	2024
------------------	------	------	------	------

# Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Commuter Mobility	19,829,550	19,674,882	20,371,191	20,182,279
Full Time Equivalents Total	51.25	53.25	53.25	58.25

## Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Neighborhoods	1,857,364	1,259,959	1,300,528	702,543
Full Time Equivalents Total	2.50	2.50	2.50	2.50

## Parking & Curbspace

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Parking & Curbspace	14,254,880	15,044,325	15,429,497	17,048,725
Full Time Equivalents Total	32.00	34.00	34.00	34.00

## Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Signs & Markings	5,132,485	4,910,309	5,054,343	5,031,159
Full Time Equivalents Total	22.50	22.50	22.50	22.50

## Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Traffic Signals	9,500,877	11,118,107	11,459,777	11,459,777

# Seattle Department of Transportation

Full Time Equivalents Total 25.25 25.25 25.25 33.25

## Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on transit routes with at least 65% of the stops within the city of Seattle and transit service to address emerging transportation needs. The program also funds ORCA Opportunity which provides ORCA cards for Seattle Public School, High School and low-income Middle School Students, Seattle Promise scholars, and income-eligible adults and seniors. In addition, the program includes community engagement, training, resources and partnerships to increase transit access for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Transit Operations	27,207,059	44,492,330	46,165,775	46,165,775
Full Time Equivalents Total	3.75	4.75	4.75	5.75

## Urban Planning

The Urban Planning Program is comprised of Adaptive Streets, Citywide & Community Planning, GIS, Urban Design, and the Center City Mobility Plan.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Urban Planning	5,488,769	4,444,109	4,325,583	4,325,583
Full Time Equivalents Total	10.50	11.50	11.50	17.50

### **SDOT - BO-TR-17004 - ROW Management**

The purpose of the (Right-of-Way) ROW Management Budget Summary Level is to review projects throughout the city for code compliance for uses of the right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

<b>Program Expenditures</b>	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
St Use Permit & Enforcement	39,945,423	46,547,211	47,974,607	49,842,440
Street Use Contingent Budget	-	1,000,000	1,035,000	1,000,000
<b>Total</b>	<b>39,945,423</b>	<b>47,547,211</b>	<b>49,009,607</b>	<b>50,842,440</b>
Full-time Equivalents Total*	140.25	140.25	140.25	140.25

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in ROW Management Budget Summary Level:

### **St Use Permit & Enforcement**

# Seattle Department of Transportation

The purpose of the Street Use Permitting and Enforcement is to review projects throughout the city for code compliance for uses of right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
St Use Permit & Enforcement	39,945,423	46,547,211	47,974,607	49,842,440
Full Time Equivalents Total	140.25	140.25	140.25	140.25

## Street Use Contingent Budget

The purpose of the Street Use Contingent Budget Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Right of Way Management BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

	2022	2023	2024	2024
Expenditures/FTE	Actuals	Adopted	Endorsed	Proposed
Street Use Contingent Budget	-	1,000,000	1,035,000	1,000,000

## SDOT - BO-TR-17005 - Maintenance Operations

The purpose of the Maintenance Operations Budget Summary Level is to maintain the City's roadways and sidewalks; maintain, protect and expand the City's urban landscape in the street right-of-way through the maintenance and planting of new trees and landscaping to enhance the environment and aesthetics of the city; and manage and administer street parking rules and regulations in the right-of-way.

Program Expenditures	2022	2023	2024	2024
	Actuals	Adopted	Endorsed	Proposed
Emergency Response	14,733,864	7,855,955	8,095,644	10,095,644
Operations Support	5,861,444	9,962,598	10,145,767	10,095,744
Pavement Management/Repair	13,303,908	17,405,921	17,915,680	19,415,680
Street Cleaning	6,912,302	8,978,039	9,201,492	9,201,492
Tree & Landscape Maintenance	6,078,229	6,604,187	6,794,638	6,894,638
<b>Total</b>	<b>46,889,747</b>	<b>50,806,700</b>	<b>52,153,221</b>	<b>55,703,198</b>
Full-time Equivalents Total*	145.50	163.50	163.50	200.50

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

### Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

# Seattle Department of Transportation

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Emergency Response	14,733,864	7,855,955	8,095,644	10,095,644
Full Time Equivalents Total	19.00	19.00	19.00	19.00

## Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT's equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Operations Support	5,861,444	9,962,598	10,145,767	10,095,744
Full Time Equivalents Total	23.50	41.50	41.50	66.50

## Pavement Management/Repair

The purpose of the Pavement Management and Repair Program is to assess the condition of asphalt and concrete pavements and establish citywide paving priorities for annual resurfacing, preservation and maintenance of all streets and adjacent areas such as sidewalks and road shoulders by making spot repairs and conducting annual major maintenance paving and rehabilitation.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Pavement Management/Repair	13,303,908	17,405,921	17,915,680	19,415,680
Full Time Equivalents Total	57.25	57.25	57.25	68.25

## Street Cleaning

The purpose of the Street Cleaning Program is to keep Seattle's streets, improved alleys, stairways and pathways clean, safe and environmentally friendly by conducting sweeping, hand-cleaning, flushing and mowing on a regular schedule.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Street Cleaning	6,912,302	8,978,039	9,201,492	9,201,492
Full Time Equivalents Total	22.50	22.50	22.50	22.50

## Tree & Landscape Maintenance

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

	2022	2023	2024	2024
<b>Expenditures/FTE</b>				

# Seattle Department of Transportation

	Actuals	Adopted	Endorsed	Proposed
Tree & Landscape Maintenance	6,078,229	6,604,187	6,794,638	6,894,638
Full Time Equivalents Total	23.25	23.25	23.25	24.25

## **SDOT - BO-TR-17006 - Parking Enforcement**

The purpose of the Parking Enforcement Budget Summary Level is to help manage the right-of-way by enforcing parking regulations, providing traffic control for events and incidents, and performing other related activities.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Parking Enforcement	20,773,599	-	-	-
<b>Total</b>	<b>20,773,599</b>	-	-	-
Full-time Equivalents Total*	120.00	(2.00)	(2.00)	(2.00)

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## **SDOT - BO-TR-18001 - Leadership and Administration**

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Seattle Department of Transportation.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Indirect Costs	48,424,354	54,096,018	56,788,106	59,211,546
Departmental Indirect Costs	19,757,432	23,937,510	23,108,941	23,657,982
Divisional Indirect Costs	14,709,393	15,104,174	14,813,219	14,376,419
Indirect Cost Recovery Offset	(87,933,786)	(93,137,702)	(94,710,266)	(97,043,975)
Pooled Benefits and PTO	588,532	-	-	(201,972)
<b>Total</b>	<b>(4,454,076)</b>	-	-	-
Full-time Equivalents Total*	232.75	242.25	241.25	249.25

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

*The following information summarizes the programs in Leadership and Administration Budget Summary Level:*

### **Citywide Indirect Costs**

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
------------------	-----------------	-----------------	------------------	------------------

# Seattle Department of Transportation

Citywide Indirect Costs 48,424,354 54,096,018 56,788,106 59,211,546

## Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to provide departmental leadership and operations support essential to accomplish the mission and goals of the department. The Office of the Director and the Finance & Administration Division are the two divisions included in this program. The Office of the Director oversees and provides strategic leadership and guidance for all the functions, staff, and services of the department, guiding and shaping SDOT's priorities and work plans to attain the vision, mission and goals of the department. In addition to guiding the overall work of the department, the Office of the Director houses the department's Human Resources, Communications, Office of Equity and Economic Inclusion, Emergency Management and Government and Council Relations functions. The Finance and Administration Division supports all SDOT programs, projects, and business activities by providing a wide variety of services, including: financial and accounting services; payroll services; consultant contract and procurement support; management of SDOT's facilities, fleet, radio communications network; assets condition review and management; performance management, data reporting and public dashboards; real property management, acquisition and surplus performance management; claims investigation and legal services; environmental hazardous waste management; safety and employee health support services; and IT project and service coordination.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Departmental Indirect Costs	19,757,432	23,937,510	23,108,941	23,657,982
Full Time Equivalents Total	129.50	139.00	138.00	146.00

## Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Divisional Indirect Costs	14,709,393	15,104,174	14,813,219	14,376,419
Full Time Equivalents Total	103.25	103.25	103.25	103.25

## Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Indirect Cost Recovery Offset	(87,933,786)	(93,137,702)	(94,710,266)	(97,043,975)

## Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

# Seattle Department of Transportation

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Pooled Benefits and PTO	588,532	-	-	(201,972)

## **SDOT - BO-TR-18002 - General Expense**

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Initiatives	5,266,495	5,526,192	10,218,977	10,218,977
Debt Service	49,154,471	38,211,552	40,429,349	41,665,167
Judgment & Claims	12,796,220	8,550,422	8,721,431	7,320,249
<b>Total</b>	<b>67,217,186</b>	<b>52,288,166</b>	<b>59,369,757</b>	<b>59,204,393</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

### **Citywide Initiatives**

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Citywide Initiatives	5,266,495	5,526,192	10,218,977	10,218,977

### **Debt Service**

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Debt Service	49,154,471	38,211,552	40,429,349	41,665,167

### **Judgment & Claims**

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed

# Office of Sustainability and Environment

## **OSE - BO-SE-X1000 - Office of Sustainability and Environment**

The purpose of the Office of Sustainability and Environment Budget Summary Level is to coordinate interdepartmental environmental sustainability initiatives, identify and develop next generation policies and programs, and lead the City's climate change action planning to move towards carbon neutrality.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Office of Sustainability and Environment	13,961,251	29,122,634	31,203,231	30,555,929
<b>Total</b>	<b>13,961,251</b>	<b>29,122,634</b>	<b>31,203,231</b>	<b>30,555,929</b>
Full-time Equivalents Total*	31.50	39.50	39.50	46.50

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Office of the City Auditor

### **AUD - BO-AD-VG000 - Office of the City Auditor**

The purpose of the Office of City Auditor Budget Summary Level is to provide unbiased analyses and objective recommendations to assist the City in using public resources more equitably, efficiently and effectively in delivering services to the public.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Office of the City Auditor	2,522,998	2,276,049	2,304,507	2,303,606
<b>Total</b>	<b>2,522,998</b>	<b>2,276,049</b>	<b>2,304,507</b>	<b>2,303,606</b>
Full-time Equivalents Total*	10.00	10.00	10.00	10.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## City Budget Office

### **CBO - BO-CB-CZ000 - City Budget Office**

The purpose of the City Budget Office Budget Summary Level is to develop and monitor the budget, carry out budget-related functions, oversee financial policies and plans, support and advance Citywide innovation and performance measurement, and provide financial and other strategic analysis.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
City Budget Office	8,737,769	8,215,845	8,887,054	10,023,143
<b>Total</b>	<b>8,737,769</b>	<b>8,215,845</b>	<b>8,887,054</b>	<b>10,023,143</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Civil Service Commissions

### **CIV - BO-VC-V1 CIV - Civil Service Commissions**

The purpose of the Civil Service Commissions Budget Summary Level is to support, advise, and execute the work of two independent commissions, the Public Safety Civil Service Commission (PSCSC) and the Civil Service Commission (CSC). The PSCSC administers entry and promotional civil service exams for ranks in the Seattle Police and Fire departments, and conducts hearings on sworn police and uniformed firefighter employee appeals of discipline and other employment matters. The CSC conducts hearings on employment-related appeals filed by non-PSCSC civil service covered employees, investigates allegations of political patronage in hiring, and advises on the administration of the City’s personnel system.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Civil Service Commissions	609,411	895,020	919,137	887,604
<b>Total</b>	<b>609,411</b>	<b>895,020</b>	<b>919,137</b>	<b>887,604</b>
Full-time Equivalents Total*	2.00	3.00	3.00	3.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Office of Economic and Revenue Forecasts

### **ERF - BO-ER-10000 - Economic and Revenue Forecasts**

The purpose of the Economic and Revenue Forecasts Budget Summary Level is to provide support to the Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council, and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Economic and Revenue Forecasts	559,381	702,468	706,419	840,469
<b>Total</b>	<b>559,381</b>	<b>702,468</b>	<b>706,419</b>	<b>840,469</b>
Full-time Equivalents Total*	3.00	3.00	3.00	3.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Office of the Employee Ombud

### **OEO - BO-EM-V10MB - Office of Employee Ombud**

The purpose of the Office of Employee Ombud (OEO) Budget Summary Level is to support City of Seattle employees in navigating the City's conflict management system, including processes related to harassment, discrimination, and misconduct. OEO provides recommendations to the Mayor and City Council on policies and procedures that can help create an inclusive and respectful workplace environment.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Employee Ombud Office	986,567	1,151,997	1,159,529	1,161,436
<b>Total</b>	<b>986,567</b>	<b>1,151,997</b>	<b>1,159,529</b>	<b>1,161,436</b>
Full-time Equivalent Total*	6.00	6.00	6.00	6.00

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

## Employees' Retirement System

### **RET - BO-RE-R1E00 - Employee Benefit Management**

The purpose of the Employees' Retirement Budget Summary Level is to manage and administer retirement assets and benefits.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Employee Benefit Management	8,720,139	10,474,069	10,525,831	10,699,553
<b>Total</b>	<b>8,720,139</b>	<b>10,474,069</b>	<b>10,525,831</b>	<b>10,699,553</b>

Citywide IT Initiatives CIP	1,401,002	-	-	-

### **Communications CIP**

This budget program contains the Capital Improvement Program (CIP) funding associated with ongoing design, acquisition, replacement and upgrading of software, infrastructure and major hardware for the City's data, communications and telephonic systems which may include switches, and or connectivity infrastructure.

# Seattle Information Technology Department

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Communications CIP	7,829,150	17,918,147	8,702,477	8,702,477

## Enterprise Compute Services CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement, and upgrading of server and storage systems.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Enterprise Compute Services CIP	2,899,569	10,650,000	5,135,000	5,135,000

## Fiber Enterprise Initiatives CIP

This budget program (formerly Technology Engineering & Project Management CIP) contains the Capital Improvement Program (CIP) funding associated with major maintenance and installation of a high-speed fiber-optic communication network for the City and its external fiber partners.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Fiber Enterprise Initiatives CIP	2,663,982	4,582,392	4,701,534	4,701,534

## Programmatic Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding for one-time Seattle IT Programmatic Initiatives including the acquisition and development of a new data center, the remodeling of Seattle IT space in the Seattle Municipal Tower, and the acquisition of new technology management tools.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Programmatic Initiatives CIP	2,922	-	-	-

## Radio Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Radio Communications CIP	2,129,394	741,609	760,891	760,891

## Seattle Channel CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of the cablecasting and production systems for the Seattle Channel.

# Seattle Information Technology Department

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Seattle Channel CIP	267,955	354,221	363,463	363,463

## **ITD - BO-IT-D0100 - Leadership and Administration**

The Leadership and Administration Budget Summary Level provides executive, community, financial, human resource, and business support to Seattle IT.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Chief of Staff	-	-	-	-
Chief Privacy Office	-	-	-	-
Citywide Indirect Costs	13,197,802	7,027,634	7,723,031	7,755,102
CTO / Executive Team	-	-	-	-
Departmental Indirect Costs	17,749,254	21,884,867	22,523,094	22,164,150
Executive Advisor	-	-	-	-

Pooled Benefits and PTO	994,098	(19,663)	(57,083)	(14,869)
<b>Total</b>	<b>25,535,858</b>	<b>28,892,838</b>	<b>30,189,042</b>	<b>29,904,383</b>
Full-time Equivalents Total*	82.75	81.50	80.50	81.50

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

### **Chief of Staff**

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Chief of Staff	-	-	-	-

### **Chief Privacy Office**

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Chief Privacy Office	-	-	-	-

# Seattle Information Technology Department

Full Time Equivalents Total 1.00 - - -

## Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Citywide Indirect Costs	13,197,802	7,027,634	7,723,031	7,755,102

## CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
CTO / Executive Team	-	-	-	-

## Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Departmental Indirect Costs	17,749,254	21,884,867	22,523,094	22,164,150
Full Time Equivalents Total	81.75	81.50	80.50	81.50

## Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Executive Advisor	-	-	-	-

## Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

	2022	2023	2024	2024
Expenditures/FTE				

# Seattle Information Technology Department

	Actuals	Adopted	Endorsed	Proposed
Indirect Cost Recovery Offset	(6,405,296)	-	-	-

## Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Expenditures/FTE				
Pooled Benefits and PTO	994,098	(19,663)	(57,083)	(14,869)

### **ITD - BO-IT-D0200 - Cable Franchise**

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Program Expenditures</b>				
Cable Franchise for Info Tech	5,446,883	6,942,639	7,089,562	7,203,147
<b>Total</b>	<b>5,446,883</b>	<b>6,942,639</b>	<b>7,089,562</b>	<b>7,203,147</b>

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

# Seattle Information Technology Department

## **ITD - BO-IT-D0300 - Technology Infrastructure**

The Technology Infrastructure Budget Summary Level develops, maintains, and manages core IT services including communications and data networks, data center and cloud computing infrastructure, and database systems.

<b>Program Expenditures</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Business Advancement Team	-	-	-	-

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Technology Infrastructure Budget Summary Level:

### **Business Advancement Team**

This budget program contains funding to support project planning and delivery support for ITD operating projects. This program includes business analysts and project managers.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Business Advancement Team	-	-	-	-

### **Communications Infrastructure**

This budget program contains funding to provide data center services as well as costs for major moves, additions, or changes to communication network infrastructure.

<b>Expenditures/FTE</b>	<b>2022 Actuals</b>	<b>2023 Adopted</b>	<b>2024 Endorsed</b>	<b>2024 Proposed</b>
Communications Infrastructure	5,315,075	4,193,987	4,788,200	4,193,362
Full Time Equivalents Total	3.00	3.00	3.00	3.00

# Seattle Information Technology Department

## Database Systems

This budget program contains funding associated with maintenance and direct labor costs for database administrators and data architecture. This includes installing and upgrading database structures, controlling and monitoring access to databases, and backing up and restoring databases.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Database Systems	2,809,088	2,626,135	2,707,638	2,778,512
Full Time Equivalents Total	11.25	10.25	10.25	10.25

## Enterprise Computing

This budget program contains the funding associated with providing and managing public cloud services for Seattle IT customers.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Enterprise Computing	808,349	210,060	210,060	202,509

## Enterprise Services

This budget program contains the funding associated with Seattle IT's messaging support and identity management services.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Enterprise Services	2,644,199	3,323,030	3,412,073	3,364,641
Full Time Equivalents Total	10.00	9.00	9.00	9.00

## Infrastructure Tools

This budget program contains funding for major system controls, switches and components to support the technology infrastructure system operations.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				
Infrastructure Tools	3,374,001	4,714,262	4,754,904	4,893,849
Full Time Equivalents Total	10.00	13.00	13.00	13.00

## Middleware

This budget program contains funding to support translation layers that enable communication between an operating platform and applications running on that platform.

	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
<b>Expenditures/FTE</b>				

## Seattle Information Technology Department

Middleware	-	2,622,930	2,715,571	2,828,071

# Legislative Department

## LEG - BO-LG-G1000 - Legislative Department

The purpose of the Legislative Department Budget Summary Level is to set policy, enact City laws, approve the City's budget, provide oversight of City departments, and support the mission of the Council.

Program Expenditures	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Central Staff	3,789,091	3,916,042	3,929,376	3,953,710
City Clerk	4,090,255	3,995,991	4,022,558	4,048,016
City Council	6,428,578	7,798,831	7,840,942	7,879,007
<b>Total</b>	<b>14,307,924</b>	<b>15,710,864</b>	<b>15,792,875</b>	<b>15,880,733</b>
Full-time Equivalents Total*	95.50	95.50	95.50	95.50

*\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Legislative Department Budget Summary Level:

### Central Staff

The purpose of the Central Staff Program is to provide high-quality, objective research and analysis to the Council and its individual members on a variety of policy and budget issues, as well as consultant contract services for the Legislative department.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
Central Staff	3,789,091	3,916,042	3,929,376	3,953,710
Full Time Equivalents Total	19.00	19.00	19.00	19.00

### City Clerk

The purpose of the City Clerk Program is to support and facilitate the City's legislative process in compliance with the Open Public Meetings Act; manage the City's Records Management Program and ensure public access to the City's records; preserve the City's official and historical records in compliance with the Public Records Acts; manage the City's Boards and Commissions Registry; serve as the City's ex officio elections officer; and provide information technology, administrative and operational support to the Legislative Department.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
City Clerk	4,090,255	3,995,991	4,022,558	4,048,016
Full Time Equivalents Total	27.50	27.50	27.50	27.50

### City Council

The purpose of the City Council Program is to set policy; review, consider and determine legislative action; approve the City's budget; and provide oversight of City departments. The goal of the City Council is to be transparent, effective and accountable, as well as to promote diversity and health of all neighborhoods. This program consists of the nine Councilmembers, their Legislative Assistants and the Communications staff.

Expenditures/FTE	2022 Actuals	2023 Adopted	2024 Endorsed	2024 Proposed
City Council	6,428,578	7,798,831	7,840,942	7,879,007

## **Summary of Proposed Departmental Reorganization for the Department of Finance and Administrative Services**

The following tables provide a summary of a proposed financial structure reorganization for FAS modifying their project structure in the financial systems

## FAS Proposed Project Structure Change

FAS is proposing a new Operations and Maintenance project structure in the 2023-2024 Proposed Mid-Biennial Budget Adjustments. The current project structure is complicated and consists of 38 BSLs for capital and operating as well as several funds. The new structure will decrease the operating BSLs from 27 to 20. This change will provide the following:

- Transparency and intuitive organization
- Improved accounting, reporting and financial management
- Increased flexibility and resilience

**Table 1: Existing Project Structure**

Existing Project Structure		
BSLs Proposed to Change		
	BSL Code (O&M)	BSL Name
1	BO-FA-BUDCENTR	Leadership and Administration
2	BO-FA-CDCM	Capital Dev and Const Mgmt
3	BO-FA-CITYFINAN	City Finance
4	BO-FA-CITYSVCS	City Services
5	BO-FA-CPCS	City Purchasing and Contracting Services
6	BO-FA-FACILITY	Facilities Services

**Notes:**

<sup>1</sup> Through CBA FG-903-A-001-2023, Council transferred \$1.2 million in JumpStart revenue into the Sweetened Beverage Tax Fund in both 2023 and 2024 to temporarily buffer a shortfall in Sweetened Beverage Tax (SBT) revenue. This action is in response to the November 2022 revenue forecast.

<sup>2</sup> If the current revenue projection were to remain accurate and no other revenue sources are utilized to supplement SBT revenues, expenditure reductions of this magnitude would be necessary to keep the fund balanced.

<sup>3</sup> 2023 Budget Adjustments include 2022 carryforwards.

<sup>4</sup> Expenditures for 2025-2027 are held at 2024 levels.

Notes:

1. These reserves cover anticipated expenditures in 2023 only for both the Park and Recreation Fund and the Seattle Metropolitan Park District Fund (19710). Anticipated expenditures from 2024-2028 for this fund are accounted for in a planning reserve in the Seattle Metropolitan Park District (19710) financial plan.

**Notes:**

<sup>1</sup> Projected expenditures are aligned with known department needs rather than CBO inflators.

<sup>2</sup> The Democracy Voucher Program is funded by a voter-approved, ten-year levy that expires December 31, 2025. In this scenario, the program is not renewed, however if another ballot measure is put forth and approved by voters, the program could continue in 2026 and beyond.

**Note 1** - Based on the terms of the State and Local Fiscal Recovery Fund grant, Coronavirus Local Fiscal Recovery Funds are required to be obligated by 12/31/2024 and spent by 12/31/2026. Spending for some programs is expected to continue into 2023 and 2024, but funding was appropriated in 2021 and 2022, with outyear funding being carried forward via grant carryforward processes. Projections for outyear spending have not been included in this document.

**Note 2** - Several net-zero adjustments were made to the 2023 Budget in supplemental ordinances. Appropriation was decreased in several departments as a result of actual or expected underspend and an equivalent appropriation increase was provided in Finance General. Finance General appropriations support cash transfers to the General Fund to effectuate additional revenue replacement-supported spending. Revenue replacement is one eligible use of CLFR funds.

Notes:

1. The CDBG Restricted Revolving Loan Funds represent three distinct funds: the Homebuyer Revolving Loan fund, which in general maintains a steady balance of approx \$500K; the Home Repair Revolving Loan fund, which also generally maintains a balance of approx \$500K; and the Multifamily Revolving Loan Fund, which currently has a balance of \$1.15M that we project to award to a project in 2025.
2. Although there is no planning reserve for HSD's Levy-Funded Programs (KCRHA) beginning in 2024, funding for this item remains as a portion of Total Budgetary Expenditures.
3. Beginning in 2024, Incentive Zoning Admin Balances are reflected in the Fund 16600 financial plan.
4. Negative Ending Unreserved Budgetary Fund Balance in 2028 is the result of outstanding short-term loans anticipated to be repaid in outyears of the financial plan, but for which revenues are not reflected in source of funds assumptions.

Notes:

1. CDBG actuals for 2022 includes a HUD-required reclass of \$756,057 of prior years' revenues.  
 2. The 2023 Levy Admin Reserve in the planning reserves section represents the fact that the 2023 Levy will bring in \$7,142,857 annually in revenues for staffing/operating. The actual amount needed for this in 2024 is \$5,440,956, leaving a difference of \$1,701,907. The actual amount needed from Levy for staffing/operating costs will increase by inflation each year of the Levy. In the later years of the Levy, the staffing/operating costs are expected to be higher than the annual revenue amount, and at that point we will draw from this reserve to cover the difference.

3. Reserved fund balance to support potential outyear administrative costs to support expanded capacity to meet workload demands.

Notes

1. Early Learning 2022 Actuals and 2023 Encumbrance Carryforward includes one-time resources for Early Learning investments typically funded with Sweetened Beverage Tax and General Fund resources.
2. K-12 2022 Actuals and 2023 Revised Expenditures includes 2020 BIPOC investments, Black Girls Culturally-Specific and Responsive (CSR) programming and Opportunity Promise.
3. 2023 - 2026 K-12 Expenditures are for Opportunity Promise and other K-12 BIPOC investments. Reserves decline over time to offset this expenditure.
4. K-12 BIPOC Commitments Reserve includes remaining funding from 2020 BIPOC commitment and Black Girls CSR.
5. FEPP Levy Commitment reflects the adopted levy plan contribution of \$12M fund balance from the FEL levy undesignated fund balance.
6. Reserve set aside to fund certain Early Learning investments in the case of General Fund shortfalls.

- Notes:**
1. Outyear property tax growth estimated at 1% based on CBO forecast.
  2. Sources of Funding: Families and Education Levy (2011) Fund Balance is based on the adopted levy plan.
  3. 2025-2026 expenditure growth rate aligns with the FEPP implementation and evaluation plan, plus funding for additional administration costs and enhancements for K-12 Culturally Specific and Responsive (CSR) programming and Seattle Promise.
  4. These provide resources to continue programming as outlined in the FEPP Levy Implementation & Evaluation Plan. Any annual underspend is reallocated each year through planning with the FEPP Levy Oversight Committee.
  5. These resources were set aside in the 2021 budget for additional K-12 CSR programming and Seattle Promise, as well as 2022 mid-year supplemental.
  6. These resources were set aside from 2022 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
  7. This item brings Early Learning spending back in alignment with the FEPP Levy spending plan. It restores \$1 million in Early Learning's budget that Council reallocated from the 2024 endorsed budget to fund school-based mental health services in 2023.

Notes:

1. Annual interest earnings are included in these figures.

2. These reserves cover anticipated expenditures from 2024-2028 for both the Seattle Park District Fund and the Park and Recreation Fund (10200). Anticipated retrospective expenditures for 2023 for this fund are accounted for in a planning reserve in the Park and Recreation Fund (10200) financial plan.

**Notes:**

Legislated changes in 2023 (including carryforward) are reflected in the corresponding funding source/BSL line in the "2023 Legislated" column.

Financial plan does not include future CRSSA credits for transit service.

"New \$20 VLF Reserve" denotes an opportunity to reaffirm or reprioritize the 2021 community priorities for the first four years of spending on this funding source.

Future year expenditure projections are customized for this fund.

<sup>1</sup> 2022 beginning fund balance is the cash balance on January 1, 2023.

<sup>2</sup> Out year assumptions represent forecasted cash flows in the utility's Financial Planning Model which is used to evaluate City Light rate impacts, potential bond offerings, and the overall financial performance of the utility.

<sup>3</sup> 2024 Revenues include bond sales of \$261 million.

<sup>1</sup> External Revenues are expected to grow 2% annually and General Fund Support by 1% annually. For 2025-2027, expenditures are calculated to grow by 1% annually as instructed. However, FAS is experiencing inflationary cost pressures on contracts, capital projects, vendors and supplies >1% and some closer to the CPI of 8.3%.

<sup>2</sup> There was a realignment between "General Fund Support" and "Revenue from Other City Departments" in the 2024 budget. Payroll charges for General Fund Departments is now charged directly to those departments rather than to Finance General.

<sup>3</sup> "Revenues from Other City Departments" for projected years (2025-27) is set to match the difference between total budgetary expenditures (less planned uses of fund balance) and the sum of all other revenue sources. This reflects FAS' rate setting process, which aims to recover 100% of budgetary expenditures.

<sup>4</sup> External revenues changed in 2024 to account for a variety of revenues not previously identified as external. This category, which previously only included parking revenues, now includes rent of City real estate to private tenants, passport revenues, purchasing rebates, revenue for contracting services provided to Seattle Public Schools, and sales of surplus.

<sup>5</sup> Due to FAS' new project structure, expenditure categories have changed starting in 2024 to align with new Budget Summary Levels.

<sup>6</sup> Approved in the Adopted and/or the Proposed Budget.

<sup>1</sup> Revenues from Other City Departments are set to minimize variance from year to year while still bringing in sufficient funds to replace vehicles as planned.

<sup>2</sup> The \$2m increase in rates from 2024 to 2025 represents both inflation (\$1m) and the addition of approximately 80 vehicles to the City's Fleet (\$1m).

<sup>3</sup> Projected expenditures are set to match planned vehicle replacement and are inconsistent from year to year.

<sup>4</sup> Expenditures for 2024 through 2027 have been adjusted to account for the Q3 Supplemental request for pre-order of SFD apparatus. These adjustments are intended to better reflect the cash flow, as the appropriate

<sup>5</sup> The Q3 supplemental includes \$32.5 million in appropriation of fund balance for fleet replacement purchases with \$18.6 million specifically appropriated to enter into purchase order agreements for fire apparatus.

To avoid price increases and mitigate long lead times for fire fleet delivery, Fleet Management is placing orders in 2023, but the funds will not be expended until delivery in the out years.

**Assumptions:**

- <sup>1</sup>Beginning Balance Sheet Fund Balance excludes account 143900 - Prepaid Expenses-Other per CWA's guidance.
- <sup>2</sup>Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.
- <sup>3</sup>ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.
- <sup>4</sup>Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).
- <sup>5</sup>Rates Direct Billed (2022 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2022 to FY 2023, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- <sup>6</sup>Rates Direct Billed (2022 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2022 to FY 2023, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- <sup>7</sup>One-Time Projects: Reserves for various one-time ITD projects.
- <sup>8</sup>Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.
- <sup>9</sup>Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2023 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.
- <sup>10</sup>Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2022 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.
- <sup>11</sup>Computer Replacement: PC replacements for the Law Department which replaces all of its PCs every five years, versus a portion each year.

Note:

The General Subfund contribution in the 2023 Adopted column reflects an intentional one-time use of \$10.0 million of existing fund balance in place of General Fund contributions in order to manage the size of existing fund balances available for anticipated but as yet undetermined pension adjustments resulting from labor negotiations.

1 Assumes 1% annual growth for both revenues and expenditures 2025-2027.

### **Cost Allocation Tables:**

These tables provide information about how the City allocates internal service costs (i.e. overhead provided by City agencies to other City agencies) to customer agencies.

## Central Service Departments and Commissions - 2024 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Count of audit reports per department over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Two-year average number of cases by department.
Office of Civil Rights	Enforcement: 2-year average number of cases filed by department. RSJI: 2-year average number of department-specific trainings Policy: 100% General Fund Administration: Applied proportionally to department programs.
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Department of Finance and Administrative Services	Various factors and allocations. See Appendix B(1) for details on services, rates, and methodologies.
Seattle Information Technology	Various factors and allocations. See Appendix B(2) for details on services, rates, and methodologies.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA* and City Clerk based on workload.
Seattle Department of Human Resources	Various factors and allocations. See Appendix B(3) for details on services, factors, and methodologies.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual expenditure dollar spread.

\*Memorandum of Agreement (MOA) on charges

## Department of Finance and Administrative Services Billing Methodologies – B(1)

Service Provider	Org	Service Provided	Billing Methodology	Billing Method
<b>Fleet Management Division</b>				
Vehicle Leasing	FAD03	<ul style="list-style-type: none"> <li>Vehicles owned by, and leased from, Fleet Services</li> <li>Vehicles owned directly by Utility Departments</li> </ul>	<ul style="list-style-type: none"> <li>Calculated rate per month per vehicle based on three lease-rate components: 1) vehicle replacement; 2) routine maintenance; and 3) overhead.</li> <li>Charge for overhead only as outlined in MOUs with Utilities.</li> </ul>	Fleets rates.
Motor Pool	FAD04	Daily or hourly rental of City Motor Pool vehicles.	Actual vehicle usage by department per published rates. Rates vary by vehicle type and are based on time usage, with a set minimum and maximum daily charge.	Direct bill.
Vehicle Maintenance	FAD05	<ul style="list-style-type: none"> <li>Vehicle Maintenance labor.</li> <li>Vehicle parts and supplies.</li> </ul>	<ul style="list-style-type: none"> <li>Actual maintenance service hours, not included in the routine maintenance component of the Lease Rate (above). Billed at an hourly rate.</li> <li>Actual vehicle parts and supplies, used in vehicle maintenance services, and not included in the routine maintenance component of the Lease Rate (above). Billed at cost plus a percentage mark-up.</li> </ul>	Direct bill.
Vehicle Fuel	FAD07	Vehicle fuel from City-operated fuel sites or private vendor sites through the Voyager Fuel Card program.	Actual gallons of fuel pumped, billed at cost plus per-gallon mark-up.	Direct bill.
<b>Facility Services</b>				
Property Management Services	FAC03	Office & other building space.	Incorporated with Space Rent rates, which are allocated by square feet occupied by rent schedule.	Space rent rates.
Property Management Services	FAC03	Leased spaces.	Service agreements with commercial tenants, building owners and/or affected departments.	Direct bill.
Real Estate Services	FAC03	Real estate transactions including acquisitions, dispositions, appraisals, etc.	Incorporated with Space Rent rates, which are allocated by square feet occupied by rent schedule.	Space Rent rates.

## Glossary

**Annual Comprehensive Financial Report of the City (ACFR):** The City's audited annual financial statements prepared by the Department of Finance & Administrative Services.

**Appropriation:** A legal spending authorization granted by the City Council, the City's legislative authority, to make expenditures and/or incur obligations for specific purposes.

**Biennial Budget:** A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

**Budget - Adopted and Proposed:** The Mayor submits to the City Council a recommended revenue and expenditure level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

**Budget - Endorsed:** The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

**Budget Control Level:** The level at which expenditure appropriations are controlled to meet State and City budget law provisions.

**Capital Assets:** Assets of significant value and having a useful life of at least 10 years or more. Capital assets may also be referred to as "fixed assets."

**Capital Improvement Program (CIP):** Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

**Chart of Accounts:** A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

**Community Development Block Grant (CDBG):** A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

**Cost Allocation:** Distribution of costs based on some proxy for costs incurred or benefits received.

**Cumulative Reserve Subfund (CRS):** A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

**Debt Service:** Annual principal and interest payments the City owes on money it has borrowed.

**Errata:** Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

**Full-Time Equivalent (FTE):** A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

**Fund:** An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

**Fund Balance:** The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

**General Fund:** A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

**Grant-Funded Position:** A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

**Neighborhood Matching Subfund (NMF):** A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

**Operating Budget:** That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

**PeopleSoft 9.2:** The City's central accounting system managed by the Department of Finance & Administrative Services.

**Position/Pocket Number:** A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

**Program:** A group of services within a department, aligned by common purpose.

**Reclassification Request:** A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

**Reorganization:** Reorganization refers to changes in the budget and reporting structure within departments.

**SUMMIT:** The City's former central accounting system managed by the Department of Finance & Administrative Services.

**Sunsetting Position:** A position funded for only a specified length of time by the budget or enabling ordinance.

**TES (Temporary Employment Service):** A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

**Type of Position:** There are two types of budgeted positions. They are identified by one of the following characters: **F** for **Full-Time** or **P** for **Part-Time**.

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

**CITY OF SEATTLE**

**ORDINANCE \_\_\_\_\_**

**COUNCIL BILL \_\_\_\_\_**

AN ORDINANCE amending the Seattle Comprehensive Plan to incorporate changes related to a transportation impact fee program proposed as part of the 2022-2023 Comprehensive Plan annual amendment process.

WHEREAS, The City of Seattle adopted a Comprehensive Plan through Ordinance 117221 in 1994 and most recently amended the Comprehensive Plan in 2022; and

WHEREAS, the Growth Management Act authorizes annual amendments to the City's Comprehensive Plan; and

WHEREAS, the adopted procedures in Resolution 31807 provide the process for interested citizens and Councilmembers to propose annual amendments for consideration by the City Council; and

WHEREAS, the Council proposed consideration of Comprehensive Plan amendments related to impact fees, including transportation impact fees, during the 2022-2023 annual amendment process; and

WHEREAS, the Council's Land Use Committee held a public hearing on July 27, 2022, to take public testimony on the amendments proposed for consideration; and

WHEREAS, on September 20, 2022 the City Council considered proposed Comprehensive Plan amendments and adopted Resolution 32068 directing that City staff further review and analyze amendments necessary to implement an impact fee program; and

WHEREAS, impact-fee related amendments have been developed and analyzed by the Council Central Staff and considered by the Council; and

WHEREAS, the City has provided for public participation in the development and review of these proposed

amendments and other changes to comply with the Growth Management Act, including requirements for early and continuous public participation in the development and amendment of the City's Comprehensive Plan; and

WHEREAS, the Council has considered public testimony made at the public hearing(s), and other pertinent material regarding proposed transportation impact fee-related amendments; and

WHEREAS, the Council finds that the transportation impact fee-related amendments to the Comprehensive Plan are consistent with the Growth Management Act, and will protect and promote the health, safety, and welfare of the general public; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. The Seattle Comprehensive Plan, last amended by Ordinance 126730, is amended as follows:

- A. Amendments to the Transportation Element, as shown in Attachment 1 to this ordinance; and
- B. Amendments to the Transportation Appendix, as shown in Attachment 2 to this ordinance.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_

Bruce A. Harrell, Mayor

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

---

Scheereen Dedman, City Clerk

(Seal)

Attachment 2 - Amendments to the Transportation Appendix

## ATTACHMENT 1: Amendments to the Transportation Element

\*\*\*

### Measuring Level of Service

#### Discussion

To accommodate the growth anticipated in this Plan and the increased demands on the transportation system that come with that growth, the Plan emphasizes strategies to increase travel options. Those travel options are particularly important for connecting urban centers and urban villages during the most congested times of day. Strategies for increasing travel options include concentrating development in urban villages well served by transit, completing the City's modal plan networks, and reducing drive-alone vehicle use during the most congested times of day. As discussed earlier in this Transportation element, using the current street right-of-way as effectively as possible means encouraging forms of travel other than driving alone.

In order to help advance this Plan's vision, the City will measure the level of service (LOS) on its transportation facilities based on the share of all trips that are made by people driving alone. That measure focuses on travel that is occurring via the least space-efficient mode. By shifting travel from drive-alone trips to more efficient modes, Seattle will allow more people and goods to travel in the same amount of right-of-way. Because buses are the primary form of transit ridership in the city and buses operate on the arterial system, the percentage of trips made that are not drive-alone also helps measure how well transit can move around the city. For the purposes of establishing a transportation impact fee program, the City will identify the demands placed on the system by new development by establishing the future cost per person trip of capacity-related improvements to the transportation system relative to the value of the existing system. This existing-system-value methodology complements the level of service by focusing on person trips, regardless of mode. A more detailed description of the City's transportation LOS system and existing-system-value methodology can be found in the Transportation Appendix.

## Funding

### GOAL

- TG 10** Ensure that transportation funding is sufficient to operate, maintain, and improve the transportation system that supports the City's transportation, land use, economic, environmental, equity, and other goals.

## Funding

### POLICIES

- T 10.1** Maintain and increase dedicated local transportation funding by renewing or replacing the transportation levy and by maintaining or replacing the existing commercial parking tax and Seattle Transportation Benefit District.
- T 10.2** Work with regional and state partners to encourage a shift to more reliance on user- based taxes and fees, and on revenues related to impacts on the transportation system and the environment.
- T 10.3** Leverage local funding resources by securing grants from regional, state, and federal sources, and through contributions from those who benefit from improvements.
- T 10.4** Partner with other City departments, as well as regional transportation and public works agencies, to coordinate investments, maximize project integration, reduce improvement costs, and limit construction impacts on neighborhoods.
- T 10.5** Make strategic investment decisions consistent with City plans and policies.
- T 10.6** Prioritize investment by considering life-cycle costs, safety, environmental benefits, reduction of greenhouse gas emissions, and public health benefits. Race and social equity should be a key factor in selecting transportation investments.
- T 10.7** ~~((Consider use of))~~ Use transportation impact fees to help fund transportation system improvements needed to serve growth.
- T 10.8** Base transportation impact fees on the difference between the value of the existing transportation system and the cost of identified capacity-related improvements needed to address the impacts of growth.

- T 10.9** Consider exemptions from transportation impact fees for low-income housing, early learning facilities, and other development activities with a public purpose, as authorized by RCW 82.02.060.
- T 10.10** Consistent with the transportation level of service, consider location adjustments to transportation impact fees in urban centers and villages based on the roadway space each mode uses per trip compared to a trip made driving alone.
- T 10.~~(8)~~11** Prepare a six-year Capital Improvement Program (CIP) with projects and programs that are fully or partially funded.
- T 10.~~(9)~~12** Develop prioritized lists of projects, consistent with City policies, and actively pursue funds to implement those projects.
- T 10.~~(10)~~13** Identify and evaluate possible additional funding resources and/or alternative land use and transportation scenarios if the level of transportation funding anticipated in the six-year financial analysis (shown in Transportation Figures 9 and 10) falls short of the estimated amount.
- T 10.~~(11)~~14** Explore innovative means of reducing maintenance costs such as converting right-of-way into other uses when appropriate.

## ATTACHMENT 2: Amendments to the Transportation Appendix

\*\*\*

### Transportation Impact Fees

A transportation impact fee program partially addresses service needs by helping to fund capacity improvements to existing facilities and new capital projects. The program identifies projects needed to address demands on the transportation network associated with growth and new development. In determining existing deficiencies the City utilizes a methodology based on a quantification of the value of the existing transportation system.

#### **Existing System Value Methodology**

The existing system value methodology establishes a maximum allowable impact fee rate. This is a method of determining existing deficiencies which establishes that the City cannot charge an impact fee rate that exceeds the value of the system that exists today.

First, the existing value of the transportation system is calculated using both the value of existing infrastructure and land in the right-of-way. This value is then divided by the number of current PM peak hour person trips to establish a current value per person trip. An impact fee rate cannot exceed this value.

Next, the total cost of impact-fee eligible capacity improvements are calculated based on a list of projects required to serve new development. That total amount is then divided by the number of new person trips forecast over a twelve-year period, the timeframe for improvements listed in the impact fee program, to establish the cost per person trip of needed capacity improvements. Impact fee rates by land use are calculated based on that cost.

#### **Facility Improvements to Serve New Development**

The City has identified multiple projects serving all modes that are needed to address demands on the transportation network. The projects are drawn from multiple sources, including the City's modal plans, and are intended collectively to improve the performance and efficiency of the transportation network. Projects are listed in Transportation Appendix A-18 and most project locations are shown on Transportation Appendix A-19. Projects included in the list are eligible for expenditures using revenue from the transportation impact fee program.

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
LEG	Ketil Freeman / 48178	NA

\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE amending the Seattle Comprehensive Plan to incorporate changes related to a transportation impact fee program proposed as part of the 2022-2023 Comprehensive Plan annual amendment process.

**Summary and Background of the Legislation:**

The legislation would amend the Comprehensive Plan, *Seattle 2035*, to include a project list, proposed policies and explanatory text to support future implementation of a transportation impact fee program. Specifically, the proposed amendments would (1) amend the Transportation Elements of the Comprehensive Plan and related appendices to identify deficiencies in the transportation system associated with new development; (2) incorporate a list of transportation infrastructure projects that would add capacity to help remedy system deficiencies; and (3) establish a policy of considering locational discounts for urban centers and villages and exemptions for low-income housing, early learning facilities and other activities with a public purpose for future rate-setting, if any. Projects included in the list would be eligible for future investments with revenue from a transportation impact fee program.

The proposed amendments to *Seattle 2035* are a necessary, but not sufficient, step to establish an impact fee program under RCW 82.02.050.

## 2. CAPITAL IMPROVEMENT PROGRAM

**Does this legislation create, fund, or amend a CIP Project?**  Yes  No

If yes, please fill out the table below and attach a new (if creating a project) or marked-up (if amending) CIP Page to the Council Bill. Please include the spending plan as part of the attached CIP Page. If no, please delete the table.

## 3. SUMMARY OF FINANCIAL IMPLICATIONS

**Does this legislation amend the Adopted Budget?**  Yes  No

If there are no changes to appropriations, revenues, or positions, please delete the table below.

**Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

No. The proposed amendments to *Seattle 2035* are a necessary, but not sufficient, step to establish an impact fee program under RCW 82.02.050.

**Are there financial costs or other impacts of *not* implementing the legislation?**

No.

## 4. OTHER IMPLICATIONS

**a. Does this legislation affect any departments besides the originating department?**

Yes, the Seattle Department of Construction and Inspections, the Office of Planning and Community Development and the Seattle Department of Transportation.

**b. Is a public hearing required for this legislation?**

A public hearing is required with 30-days advance notice in the Land Use Information Bulletin and Daily Journal of Commerce.

**c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

Yes, hearing notice is required in the Daily Journal of Commerce.

**d. Does this legislation affect a piece of property?**

Not at this time but if a Transportation Impact Fee Program and implementing legislation is adopted, fees may be applied to various properties.

**e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

No. The proposed amendments to *Seattle 2035* are a necessary, but not sufficient, step to establish an impact fee program under RCW 82.02.050.

**f. Climate Change Implications**

**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

No.

**2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No.

**g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

The proposed amendments to *Seattle 2035* are a necessary, but not sufficient, step to establish an impact fee program under RCW 82.02.050. If the City establishes a transportation impact fee program, the long-term goal of the program would be to implement Comprehensive Plan Transportation Element Goal TG10:

Ensure that transportation funding is sufficient to operate, maintain, and improve the transportation system that supports the City's transportation, land use, economic, environmental, equity, and other goals.

This legislation would help accomplish that goal by making procedural amendments to the Comprehensive Plan that are required by RCW 82.02.050.

**Summary Attachments (if any):**

## Amendment 1 Version 1 to CB 120635 – Transportation Impact Fee Comp. Plan Amendments

Sponsor: Councilmember Herbold

Transportation Funding Policy Language

This would amend Attachment 1 to CB 120635 to return the language in Transportation Funding Policy T10.7 to “Consider use of...” from “Use...”

The net affect of the amendment would be to maintain the language in that policy in its current form. Amendment language is shown in ~~double strikethrough~~ and double underline.

## Funding

#### *POLICIES*

- T 10.1** Maintain and increase dedicated local transportation funding by renewing or replacing the transportation levy and by maintaining or replacing the existing commercial parking tax and Seattle Transportation Benefit District.
- T 10.2** Work with regional and state partners to encourage a shift to more reliance on user- based taxes and fees, and on revenues related to impacts on the transportation system and the environment.
- T 10.3** Leverage local funding resources by securing grants from regional, state, and federal sources, and through contributions from those who benefit from improvements.
- T 10.4** Partner with other City departments, as well as regional transportation and public works agencies, to coordinate investments, maximize project integration, reduce improvement costs, and limit construction impacts on neighborhoods.
- T 10.5** Make strategic investment decisions consistent with City plans and policies.
- T 10.6** Prioritize investment by considering life-cycle costs, safety, environmental benefits, reduction of greenhouse gas emissions, and public health benefits. Race and social equity should be a key factor in selecting transportation investments.
- T 10.7** ~~((Consider use of))~~ Use Consider use of transportation impact fees to help fund

**CITY OF SEATTLE**

**ORDINANCE \_\_\_\_\_**

**COUNCIL BILL \_\_\_\_\_**

AN ORDINANCE relating to the regulation of network companies; imposing license and fee requirements on network companies; adding a new Chapter 6.700 to the Seattle Municipal Code; and amending Section 3.15.007 of the Seattle Municipal Code.

WHEREAS, network companies use an online-enabled application or platform to connect customers with app-based workers, present offers to app-based workers through a worker platform, and/or facilitate the provision of services for compensation by app-based workers; and

WHEREAS, an estimated 40,000 app-based workers perform services in furtherance of offers that are facilitated or presented by network companies in Seattle, including workers who are Black, Indigenous, and other People of Color (BIPOC), immigrants, workers with disabilities, lesbian, gay, bisexual, transgender, and queer (LGBTQ+), and single parents; and

WHEREAS, network companies rely on business models that treat app-based workers as independent contractors who are not covered by local, state, or federal workplace employee protections; and

WHEREAS, a 2021 Pew Research Center study found that 16 percent of American adults earned compensation from app-based work, and the rates were higher for BIPOC workers; and

WHEREAS, the U.S. Bureau of Labor Statistics data show that Black and Latinx workers are overrepresented among app-based workers, comprising almost 42 percent of app-based workers but less than 29 percent of the overall labor force; and

WHEREAS, BIPOC workers face unique barriers to economic insecurity and disproportionately must accept low-wage, unsafe, and insecure working conditions; and

WHEREAS, BIPOC workers have long been heavily concentrated in exploitative industries; and

WHEREAS, The City of Seattle (“City”) is a leader on wage, labor, and workforce practices that seek to eliminate racial disparities and achieve racial equity, improve workers’ lives, support economic security, and contribute to a fair, healthy, and vibrant economy; and

WHEREAS, the City has established 19 labor standards that regulate the activities of employers, network companies, and other hiring entities to establish minimum thresholds of fairness and economic security for workers in Seattle; and

WHEREAS, the City has authorized the Office of Labor Standards (OLS) to implement these labor standards, including those that establish workplace protections for app-based workers; and

WHEREAS, effective January 13, 2024, the App-Based Worker Minimum Payment Ordinance, Ordinance 126595, will require network companies to provide app-based workers with minimum payment, transparent job information and receipts, and flexible terms of work; and

WHEREAS, OLS estimates that implementing the App-Based Worker Minimum Payment Ordinance will require \$1.2 million and five full-time equivalents (FTEs) per year for ongoing costs, but the 2024 Proposed Budget Adjustments only include \$492,000 and three FTEs for this work; and

WHEREAS, effective January 1, 2025, the App-Based Worker Deactivation Rights Ordinance, Ordinance 126878, will require network companies to provide app-based workers with protections against unwarranted deactivations, including reasonable deactivation policies, advance notice of deactivation, case-by-case human review of deactivation decisions, records substantiating deactivation, and an internal challenge procedure; and

WHEREAS, OLS estimates that implementing the App-Based Worker Deactivation Rights Ordinance will require \$200,000 one-time in 2024 for outreach and set-up costs, \$1.13 million per year and seven FTEs in 2024, 2025, and 2026 for procedural enforcement, and \$1.56 million per year and nine FTEs beginning in 2027 for ongoing procedural and substantive enforcement; and

WHEREAS, OLS's implementation includes contracts with community organizations to provide trusted, culturally competent, and language specific outreach and education and community-based enforcement to strengthen workplace protections for a newly regulated industry; and

WHEREAS, effective 2017, the City established the OLS Fund, through Ordinance 125273, with the intention of guaranteeing annual funding of OLS from the City's business license tax revenues and any resources of the City's General Fund as necessary; and

WHEREAS, the existing revenue sources for the OLS Fund are insufficient to fully recover the regulatory costs of implementing the App-Based Worker Minimum Payment Ordinance and the App-Based Worker Deactivation Rights Ordinance; and

WHEREAS, robust implementation of app-based worker labor standards must include policy development, enforcement, and collaborative outreach and education programs to ensure that network companies provide the wages, benefits, and other protections required by the City's app-based worker labor standards; and

WHEREAS, the City intends to require network companies to obtain an annual network company license to operate in Seattle and pay a license fee to recover the costs of network company regulations; and

WHEREAS, the Department of Finance and Administrative Services estimates that implementing a network company license and fee would require \$1.14 million one-time in 2024 and \$94,000 one-time in 2025 for set-up costs and program management, and \$442,000 and 2.25 FTEs per year beginning in 2025 for ongoing costs; and

WHEREAS, the City intends to use revenue from the network company license fee to fully recover the costs of network company regulations incurred by licensing and implementing the App-Based Worker Deactivation Rights Ordinance and the App-Based Worker Minimum Payment Ordinance, in such order of priority; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. A new Chapter 6.700 is added to the Seattle Municipal Code as follows:

**Chapter 6.700 NETWORK COMPANIES**

**6.700.010 Scope and purpose**

This Chapter 6.700 applies to network companies operating in Seattle. The ordinance enacting this Chapter 6.700 is an exercise of the City’s police power to regulate network companies. The purpose of the ordinance is to regulate network company activity through an annual license requirement and impose a fee to recover the regulatory costs of licensing and implementing labor standards in the App-Based Worker Minimum Payment Ordinance (Chapter 8.37) and App-Based Worker Deactivation Rights Ordinance (Chapter 8.40) that protect and promote public health, safety, and welfare.

**6.700.020 Application of other provisions**

The license requirements established in this Chapter 6.700 are subject to the general provisions of the new License Code in Chapter 6.202. In the event of a conflict between the provisions of Chapter 6.202 and this Chapter 6.700, the provisions of this Chapter 6.700 shall control.

**6.700.030 Definitions**

“App-based worker” means a person who has entered into an agreement with a network company governing the terms and conditions of use of the network company’s worker platform or a person affiliated with and accepting offers to perform services for compensation via a network company’s worker platform. For purposes of this Chapter 6.700, at any time, but not limited to, when an app-based worker is logged into the network company’s worker platform, the worker is considered an app-based worker.

“Application dispatch” means technology that allows customers to directly request dispatch of app-based workers for provision of services and/or allows app-based workers or network companies to accept offers to perform services for compensation and payments for services via the internet using interfaces, including but not limited to website, smartphone, and tablet applications.

“Customer” means a paying customer and/or recipient of an online order.

“Director” means the Director or the Director’s designee of the Department of Finance and Administrative Services (FAS) or the Office of Labor Standards (OLS), as specified.

“Goods” means all tangible personal property, including groceries, prepared food and beverages, retail items, and other moveable items that have a physical existence.

“Groceries” has the same meaning as defined in RCW 82.84.030 as amended.

“Marketplace network company” means a network company primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time. On-demand network companies and companies that primarily provide delivery services are not marketplace network companies.

When determining whether a network company is “primarily engaged in facilitating or presenting pre-scheduled offers in which: (a) the application or platform enables the prospective customer and app-based worker to exchange information about the scope and details of services to be performed, prior to the customer placing the online order for those services or the app-based worker accepting the offer; (b) the app-based worker sets their own rates; and (c) the network company does not monitor offers by mileage or time” the FAS Director, in consultation with the OLS Director, may consider any number of factors, including but not limited to: the number of pre-scheduled offers relative to the network company’s overall offers; how app-based worker rates are set; what information regarding offer mileage or offer time a network company knows before, during, or after performance of an offer; information from app-based workers performing offers through the application or platform; marketing or promotional materials from the network company; or other public statements from representatives of the network company. Such

determinations shall be consistent with OLS Director rules.

“Network company” means an organization, whether a corporation, partnership, sole proprietor, or other form, operating in Seattle, that uses an online-enabled application or platform, such as an application dispatch system, to connect customers with app-based workers, present offers to app-based workers through a worker platform, and/or facilitate the provision of services for compensation by app-based workers.

1. The term “network company” includes any such entity or person acting directly or indirectly in the interest of a network company in relation to the app-based worker.

2. The term “network company” excludes:

a. An entity offering services that enable individuals to schedule appointments with and/or process payments to users, when the entity neither engages in additional intermediation of the relationships between parties to such transactions nor engages in any oversight of service provision;

b. An entity operating digital advertising and/or messaging platforms, when the entity neither engages in intermediation of the payments or relationships between parties to resulting transactions nor engages in any oversight of service provision;

c. An entity that meets the definition of “transportation network company” as defined by RCW 46.04.652 as amended; or

d. An entity that meets the definition of “for-hire vehicle company” or “taxicab association” in Section 6.310.110 or as enacted in Section 6.311.040 of Council Bill 120653.

“Offer” means one or more online orders presented to an app-based worker as one opportunity to perform services for compensation that the app-based worker may accept or reject.

1. An opportunity to perform services for compensation includes but is not limited to an opportunity described via a worker platform as a shift, a period of time to be spent engaged in service provision, a continuous period of time in which the app-based worker must make themselves available to perform services, or any other continuous period of time when the worker is not completely relieved of the duty to

perform the service(s), and such a period of time shall be considered as one offer.

2. The term “offer” includes pre-scheduled offers and on-demand offers.

“On-demand offer” means an offer facilitated or presented by a network company to an app-based worker that requires performance to be initiated within two hours of acceptance (i.e., an offer that is not a prescheduled offer).

“Online order” means an order for services that is placed through an online-enabled application or platform, such as an application dispatch system, and that is facilitated by a network company or presented by a network company for its own benefit. The OLS Director may issue rules further defining the definition of “online order” and the types of transactions excluded from this definition, pursuant to Section 8.37.020. The term “online order” does not include the following transactions:

1. Sale or rental of products or real estate;
2. Payment in exchange for a service subject to professional licensure that has been listed in rules issued by the OLS Director pursuant to Section 8.37.020;
3. Payment in exchange for services wholly provided digitally;
4. Payment in exchange for creative services or works;
5. Transportation network company (TNC) dispatched trips. For purposes of this Section 6.700.030, “TNC dispatched trips” means the provision of transportation by a driver for a passenger through the use of a transportation network company’s application dispatch system;
6. Transportation provided by taxicabs or for-hire vehicles, as defined in Chapter 6.310; and
7. Any other transactions excluded from this definition listed in rules by the OLS Director, or the OLS Director’s designee, pursuant to Section 8.37.020.

“Operating in Seattle” means, with respect to a network company, facilitating or presenting offers to provide services for compensation using an online-enabled application or platform, such as an application dispatch system, to any app-based worker, where such services are performed in whole or part in Seattle.

“Paying customer” means a person or entity placing an online order via a network company’s online-enabled application or platform.

“Pre-scheduled offer” means an offer that is facilitated or presented by a network company to an app-based worker at least two hours prior to when the app-based worker is required to initiate performance.

“Services” means the application of labor or human effort to perform one or more identified tasks for an online order and includes but is not limited to delivery of goods and tasks of a personal, professional, business, or recreational nature.

“Worker platform” means the worker-facing application dispatch system software or any online-enabled application service, website, or system, used by an app-based worker, that enables the arrangement of services for compensation.

#### **6.700.040 Coverage**

For the purposes of this Chapter 6.700, coverage of network companies is limited to those that are subject to Chapter 8.37 and/or Chapter 8.40.

#### **6.700.050 License required**

It is unlawful for a network company to operate in Seattle without a valid network company license issued pursuant to this Chapter 6.700, except that network companies may operate in Seattle from January 1, 2025, through December 31, 2025, pending issuance of the license, and compliance with the requirements of this Chapter 6.700.

#### **6.700.060 License application**

A. Network company licenses are issued by the FAS Director and may be obtained by filing with the FAS Director a network company license application in a format determined by the FAS Director. The FAS Director shall announce, in a manner determined by the FAS Director (e.g., website, network company outreach), the date that network companies may start filing applications by October 1, 2025.

B. Application for a network company license shall include the following information:

1. Name and contact information of the applicant;
2. Name and contact information of the owners thereof, or in the case of a corporation, names and contact information of the officers of such corporation;
3. Attestation of the applicant's coverage by Chapter 8.37 and/or Chapter 8.40;
4. Description of the type(s) of app-based services offered by the applicant; and
5. Such other administrative information that the FAS Director determines is reasonably necessary to determine the qualifications of the applicant for a network company license.

C. All network company licenses shall expire one year from the date the license is issued and shall be renewed annually.

D. The FAS Director may deny, revoke, or refuse to renew the license of any network company for any of the following:

1. Violating or failing to comply with any applicable provision of this Chapter 6.700;
2. Failure to pay all outstanding penalties assessed against the licensee under this Chapter 6.700;
3. Any reason set forth in Section 6.202.230; or
4. Failing to comply, within 30 days of service of any OLS settlement agreement, any final order issued by the OLS Director, or any final order issued by the Hearing Examiner under Chapter 8.37 or 8.40 for which all appeal rights have been exhausted, and the OLS Director has requested the FAS Director to deny, revoke, or refuse to renew any network company license held or requested by the applicant or licensee. The denial, revocation, or refusal to renew such network company license shall remain in effect until such time as the violation(s) under Chapter 8.37 or 8.40 are remedied.

#### **6.700.070 Network company provisions**

All network companies operating in Seattle shall:

- A. Possess a valid network company license issued pursuant to this Chapter 6.700;
- B. Submit quarterly reports in an electronic format determined by the FAS Director with the number of

online orders subject to the license fee in subsection 6.700.080.A; and

C. Comply with such other provisions that the FAS Director determines by rule are material and necessary to effectuate the purposes of this Chapter 6.700, pursuant to Section 6.700.110.

**6.700.080 License fee**

A. The fee for a network company license issued pursuant to this Chapter 6.700 shall be \$0.10 per online order that results in an app-based worker's delivery of goods or provision of other services in Seattle.

1. The fee revenue shall be used to recover the regulatory costs prescribed in Section 6.700.100.

2. The fee shall be due and payable on a quarterly basis, except that the fee for the 2025 calendar year shall be payable on the same date that the fee payment is due for the fourth quarter of 2025. Forms for such filings shall be prescribed by the FAS Director. Network companies discontinuing operations in Seattle shall report and pay the fee no later than the quarterly payment period following close of business.

3. The fee is non-refundable and non-transferrable.

B. The FAS Director, in consultation with the OLS Director, shall review the fee at least annually and shall make any adjustment necessary by rule to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in Section 6.700.100 after consideration of available information for the following factors:

1. Actual and projected fee revenue;

2. The FAS Director's projected costs and annual budget allotted for the implementation of the network company license and fee;

3. The OLS Director's projected costs, including costs identified in the annual certification required by subsection 3.15.007.B, and annual budget allotted for the implementation of Chapter 8.37 and Chapter 8.40;

4. The number of network companies operating in Seattle;

5. The number of online orders subject to the license fee in subsection 6.700.080.A;

6. OLS’s implementation data for Chapter 8.37 and Chapter 8.40 (e.g., number and nature of worker and business inquiries, data on open and filed investigation, resolved investigations, and financial remedies); and

7. Such other factors that the FAS Director determines are reasonably necessary for reviewing the fee.

C. The FAS Director, in consultation with the OLS Director, shall report to the City Council on establishing a reduced fee for marketplace network companies to reflect that such companies are only covered by Chapter 8.40, one of the two app-based worker labor standards incurring regulatory costs that can be recovered by fee revenue. The City Council intends to consider the FAS Director’s recommendation for development of legislation that would establish a reduced fee for marketplace network companies. The FAS Director shall submit the report to the City Council after assessing initial fee revenue and the factors for consideration in subsection 6.700.080.B, and no later than July 1, 2026. The FAS Director’s report shall include the following:

1. A recommendation for establishing a reduced fee for marketplace network companies and an assessment of the financial impacts;
2. The status of fee revenue for the 2025 calendar year and first quarter 2026; and
3. Other information that the FAS Director determines is relevant for the City Council’s consideration of a reduced fee for marketplace network companies.

### **6.700.090 Exemption from fee**

Online orders solely for an app-based worker’s delivery of groceries are exempt from the fee required by subsection 6.700.080.A. This exemption does not apply to online orders for an app-based worker’s delivery of both grocery and non-grocery items.

### **6.700.100 Allocation of fee revenue**

A. Fee revenue shall be appropriated in the annual City budget or separate ordinances solely to recover regulatory costs in the following order of priority:

1. FAS's implementation of the network company license and fee in this Chapter 6.700;
2. OLS's implementation of Chapter 8.40; and
3. OLS's implementation of Chapter 8.37.

B. FAS's implementation of the network company license and fee may include administrative, enforcement, and other regulatory costs.

C. OLS's implementation of Chapter 8.37 and Chapter 8.40 may include policy development, enforcement, and outreach and education, including contracts with community organizations for culturally competent and language-specific outreach and education and community-based enforcement, and other regulatory costs. The OLS Director shall include an itemized statement with the amount and description of funding needed to sustain such regulatory costs in the certification of the minimum annual contribution submitted to the Mayor and City Council under subsection 3.15.007.B. The OLS Director shall publicly announce which contracts are funded by fee revenue to ensure that such contracts are solely for purposes prescribed by this Section 6.700.100. Consistent with City purchasing requirements, the OLS Director shall create policies and procedures for awarding and monitoring contracts that are funded by fee revenue to ensure that such contracts are solely for purposes prescribed by this Section 6.700.100.

D. The FAS Director shall include fee revenues in the quarterly reporting that the City Finance Division and City Budget Office provide to the City Council as part of the Financial Monitoring program.

### **6.700.110 Rulemaking authority**

The FAS Director is authorized to enforce, promulgate, revise, or rescind rules and regulations deemed necessary, appropriate, or convenient to implement and administer the provisions of this Chapter 6.700, providing affected entities with due process of law and in conformity with the intent and purpose of this Chapter 6.700. The FAS Director is authorized to adjust fees by rule as permitted by subsection 6.700.080 but

is otherwise prohibited from adjusting obligations for network companies that are established by this Chapter 6.700.

**6.700.120 Enforcement authority**

The FAS Director shall have the power to administer and enforce this Chapter 6.700 and shall have such powers and duties in the performance of these functions as are defined in this Chapter 6.700 and otherwise necessary and proper in the performance of the same and provided for by law.

**6.700.130 Violation**

The failure of any network company to comply with any requirement of this Chapter 6.700 or rule issued by the FAS Director is a violation.

**6.700.140 Investigation and notice of violation**

A. The FAS Director is authorized to investigate any network company the FAS Director reasonably believes does not comply with the provisions of this Chapter 6.700.

B. If, after investigation, the FAS Director determines that any provisions of this Chapter 6.700 have been violated, the FAS Director may issue a notice of violation to the network company responsible for the violation.

C. The notice of violation shall state the provisions violated, penalties for failure to come into compliance, necessary corrective action, and the compliance due date.

D. The notice of violation shall be served upon the network company by personal service or regular first-class mail addressed to the last known address for the network company.

E. Nothing in this Section 6.700.140 limits or precludes any action or proceeding to enforce this Chapter 6.700, and nothing obligates or requires the FAS Director to issue a notice of violation prior to the imposition of civil or criminal penalties.

F. Unless the network company files a timely request for a contested hearing before the Hearing Examiner, the notice of violation shall become the final order of the FAS Director.

**6.700.150 Review by Hearing Examiner**

A. The network company cited on the notice of violation may appeal the notice of violation by requesting a contested hearing before the Hearing Examiner in writing within ten business days of service of the notice of violation. If the last day of the appeal period so computed is a Saturday, Sunday, or federal or City holiday, the appeal period shall run until 5 p.m. on the next business day.

B. Contested hearings shall be conducted pursuant to the procedures for hearing contested cases contained in Section 3.02.090 and the rules adopted by the Hearing Examiner for hearing contested cases. The hearing shall be conducted de novo and the FAS Director shall have the burden of proving by a preponderance of the evidence that the violation or violations occurred. Upon establishing such proof, the notice of violation shall be upheld unless it is shown that the FAS Director abused discretion. Penalties shall be assessed per Section 6.700.170. Failure to appear for a contested hearing shall result in an order being entered finding that the network company committed the violation(s) stated in the notice of violation. For good cause shown and upon terms the Hearing Examiner deems just, the Hearing Examiner may set aside an order entered upon a failure to appear.

C. The Hearing Examiner may affirm, modify, or reverse the notice of violation.

D. The network company may obtain judicial review of the decision of the Hearing Examiner by applying for a Writ of Review in the King County Superior Court within 30 days from the date of the decision in accordance with the procedure set forth in chapter 7.16 RCW, other applicable law, and court rules.

E. The decision of the Hearing Examiner shall be final and conclusive unless review is sought in compliance with subsection 6.700.150.D <[https://library.municode.com/wa/seattle/codes/municipal\\_code?nodeId=TIT14HURI\\_CH14.16PASITIPASATI\\_14.16.095APHEEXOR](https://library.municode.com/wa/seattle/codes/municipal_code?nodeId=TIT14HURI_CH14.16PASITIPASATI_14.16.095APHEEXOR)>.

F. If a network company fails to comply within 30 days of service of any final notice of violation issued by the FAS Director or final order of the Hearing Examiner for which all appeal rights have been exhausted, the FAS Director may pursue, but is not limited to, the following measures to secure compliance:

1. The FAS Director may refer the matter to a collection agency. The cost to the City for

collection services shall be assessed as costs, at the rate agreed to between the City and the collection agency, and added to the amounts due.

2. The FAS Director may refer the matter to the City Attorney for the filing of a civil action in a court of competent jurisdiction to enforce such order or to collect amounts due. In the alternative, the FAS Director may seek to enforce a final notice of violation or a final order of the Hearing Examiner under Section 6.700.160.

#### **6.700.160 Debt owed The City of Seattle**

A. All monetary amounts due under the notice of violation shall be a debt owed to the City and may be collected in the same manner as any other debt in like amount, which remedy shall be in addition to all other existing remedies.

B. If a network company fails to appeal a notice of violation to the Hearing Examiner within the time period set forth in subsection 6.700.150.A, the notice of violation shall be final, and the FAS Director may petition the Seattle Municipal Court, or any court of competent jurisdiction, to enforce the notice of violation by entering judgment in favor of the City finding that the network company has failed to exhaust its administrative remedies and that all amounts and relief contained in the notice of violation are due. The notice of violation shall constitute prima facie evidence that a violation occurred and shall be admissible without further evidentiary foundation. Any certifications or declarations authorized under RCW 5.50.050 as amended containing evidence that the network company has failed to comply with the notice of violation or any parts thereof, and is therefore in default, or that the network company has failed to appeal the notice of violation to the Hearing Examiner within the time period set forth in subsection 6.700.150.A, and therefore has failed to exhaust administrative remedies, shall also be admissible without further evidentiary foundation.

C. If a network company fails to obtain judicial review of an order of the Hearing Examiner within the time period set forth in subsection 6.700.150.D, the order of the Hearing Examiner shall be final, and the FAS Director may petition the Seattle Municipal Court to enforce the notice of violation by entering judgment in

favor of the City for all amounts and relief due under the order of the Hearing Examiner. The order of the Hearing Examiner shall constitute conclusive evidence that the violations contained therein occurred and shall be admissible without further evidentiary foundation. Any certifications or declarations authorized under RCW 5.50.050 as amended containing evidence that the network company has failed to comply with the order or any parts thereof, and is therefore in default, or that the network company has failed to avail itself of judicial review in accordance with subsection 6.700.150.D, shall also be admissible without further evidentiary foundation.

D. In considering matters brought under subsections 6.700.160.B and 6.700.160.C, the Seattle Municipal Court may include within its judgment all terms, conditions, and remedies contained in the notice of violation or the order of the Hearing Examiner, whichever is applicable, that are consistent with the provisions of this Chapter 6.700.

#### **6.700.170 Penalty**

A. In addition to any other sanction or remedial procedure that may be available, any network company violating any of the provisions of this Chapter 6.700 shall be subject to the following cumulative penalties per violation until compliance is achieved:

1. \$500 per day for each violation for the first ten business days; and
2. \$1,000 per day for each violation for each day beyond ten business days of non-compliance

until compliance is achieved.

B. The violation will be deemed to begin, for purposes of determining the number of days in violation, on the date that compliance is required on the notice of violation of the FAS Director. Penalties do not accrue if the network company achieves compliance before the date that compliance is required in the notice of violation of the FAS Director.

#### **6.700.180 Alternative criminal penalty**

It is a misdemeanor for any network company to violate the requirements of this Chapter 6.700 if the violation demonstrates a habitual disregard for the standards in this Chapter 6.700. The FAS Director may refer such

network company for prosecution as an alternative to the notice of violation procedures outlined in this Chapter 6.700.

### **6.700.190 Additional relief**

The FAS Director may seek legal or equitable relief to enjoin any acts or practices when necessary to achieve compliance.

Section 2. Section 3.15.007 of the Seattle Municipal Code, last amended by Ordinance 125492, is amended as follows:

### **3.15.007 Office of Labor Standards Fund**

A. There is established in the City Treasury an Office of Labor Standards Fund. Funds deposited in the Office of Labor Standards Fund may only be used to pay for costs associated with the operations and activities of the City's Office of Labor Standards.

B. By September 1 of each year, the Director of the Office of Labor Standards shall certify to the Mayor and Council an itemized statement with the amount and description of the funding needed for the following year to maintain each of the following elements of the operations and activities of the Office of Labor Standards:

1. Enforcement activities, including but not limited to the investigation of complaints and directed investigations;

2. Policy development;

~~((2))~~ 3. Outreach and education to employers and other hiring entities; and

~~((3))~~ 4. Outreach and education to ((employees)) workers.

In determining the funding required to sustain these activities, annual inflationary adjustments and increases in the staffing, overhead, and infrastructure costs will be taken into account for each of these elements. Funding for enforcement should consider the level of resources needed to fulfill the goal of completing investigations within 180 days, taking into account the rate of successful completion of cases within

180 days during the previous year. The total funding required to maintain the current level of activity for all (~~three elements~~) four components shall be known as the minimum annual contribution. The minimum annual contribution for that year shall be reflected in the proposed City budget submitted by the Mayor to the City Council for the following year. Additionally, the Director may make further recommendations to the Mayor and the Council including, but not limited to, staffing, funding, and program design.

C. It is the policy goal of The City of Seattle that each year the minimum annual contribution will be appropriated in the budget to the Office of Labor Standards.

D. By January 1 of each year, an amount equal to the Office of Labor Standards appropriation for that year shall be deposited in the Fund.

E. The sources of funding for the minimum annual contribution under subsection 3.15.007.C shall come from the City's existing business license tax under Chapter 5.45 and the network company license fee under Chapter 6.700. Funds from the network company license fee shall be appropriated to the Office of Labor Standards solely to recover the regulatory costs of implementing Chapter 8.37 and Chapter 8.40, as prescribed by Section 6.700.100.

F. If the revenues available from the business license tax under Chapter 5.45 and the network company license fee under Chapter 6.700 are insufficient to meet the minimum annual contribution, the difference may be funded using any resources of the City's General Fund.

\* \* \*

Section 3. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 4. Sections 1 and 2 of this ordinance shall take effect on January 1, 2025.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
LEG	Karina Bull//206-715-2460	N/A

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to the regulation of network companies; imposing license and fee requirements on network companies; adding a new Chapter 6.700 to the Seattle Municipal Code; and amending Section 3.15.007 of the Seattle Municipal Code.

**Summary and Background of the Legislation:** The City of Seattle (City) has recently legislated requirements in the Seattle Municipal Code that provide workplace protections for app-based workers (i.e., workers performing services in furtherance of offers facilitated or presented by network companies). The App-Based Worker Minimum Payment Ordinance (Chapter 8.37), effective January 13, 2004, will require network companies to provide app-based workers with minimum payment, transparent job information and receipts, and flexible terms of work. The App-Based Worker Deactivation Rights Ordinance (Chapter 8.40), effective January 1, 2025, will require network companies to provide app-based workers with protections against unwarranted deactivations, including advance notice of deactivation, records, and an internal challenge procedure. The Office of Labor Standards (OLS) is authorized to implement these app-based worker labor standards through policy development (e.g., rulemaking), enforcement, and collaborative outreach programs that include contracts with community organizations.

Although the City established the Office of Labor Standards (OLS) Fund in 2017 with the intention of guaranteeing annual funding for OLS programs and activities, the existing sources of revenue for this fund (i.e., business license tax revenues, General Fund) are insufficient to cover the full costs of implementing the App-Based Worker Minimum Payment and App-Based Worker Deactivation Rights Ordinances.

This legislation would require network companies to obtain an annual network company license to operate in Seattle and pay a license fee as an additional source of revenue to recover the costs of network company regulations. The Department of Finance and Administrative Services (FAS) would implement the license and fee. The FAS Director would be authorized to promulgate rules, investigate violations, and issue a notice of violation that the network company could appeal to the Hearing Examiner.

The network company license fee would be \$0.10 per online order that results in an app-based worker's delivery of goods or provision of other services in Seattle. Online orders solely for an app-based worker's delivery of groceries would be exempt from the fee. The FAS Director, in consultation with the OLS Director, would review the fee at least annually to make any adjustment necessary (by rule) to ensure the fee achieves full recovery, and no more, of the regulatory costs prescribed in the legislation.

The network company license and fee requirements would become effective on January 1, 2025. License applications and the first filing of fee payments for the 2025 calendar year would be due by December 31, 2025.

Network company license fee revenue would be allocated to FAS and OLS for eligible expenditures listed in order of priority:

1. FAS implementation of the network company license and fee;
2. OLS implementation of the App-Based Workers Deactivation Rights Ordinance; and
3. OLS implementation of the App-Based Worker Minimum Payment Ordinance.

The network company license fee is estimated to generate at least \$2.1 million per year. With limited data from network companies, this estimate is based on Transportation Network Company (TNC) trips originating in Seattle as an analog for online orders. The estimate assumes at least 21 million online orders per year based on the average number of TNC trips originating in Seattle per year for 2018, 2019, and 2022 (2020 and 2021 were omitted due to reduced TNC trips during the pandemic).<sup>1</sup>

## 2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project?      \_\_\_ Yes X No

## 3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget?      \_\_\_ Yes X No

**Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

Yes, the legislation would generate one-time and ongoing costs in FAS to implement the network company license and fee. The legislation would require allocation of fee revenue to FAS to fully recover these regulatory costs.

**Are there financial costs or other impacts of *not* implementing the legislation?**

The legislation would generate network company license fee revenue to fund implementation of the App-Based Worker Deactivation Rights and App-Based Worker Minimum Payment Ordinances. Not implementing this legislation would require redirecting funds from other resources for these purposes or reducing/foregoing implementation of these programs.

---

<sup>1</sup> A higher estimate of \$3 million per year assumes 30 million online orders per year based on the average TNC trips per registered driver for 2018, 2019, and 2022 multiplied by the estimated number of app-based workers in Seattle (749 average TNC trips x 40,000 app-based workers). Although online orders could far exceed TNC trips, projected revenues are based on the lower estimate to account for limited data and a proposed fee exemption for online orders solely for delivery of groceries.

**3.b. Revenues/Reimbursements**

**X** This legislation adds, changes, or deletes revenues or reimbursements.

**Anticipated Revenue/Reimbursement Resulting from This Legislation:**

Fund Name and Number	Dept	Revenue Source	2024 Revenue	2025 Estimated Revenue
General Fund (00100)		Network Company License Fee	N/A	\$2,100,000
<b>TOTAL</b>			<b>N/A</b>	<b>\$2,100,000</b>

**Revenue/Reimbursement Notes:**

This is an ongoing change. The legislation establishes requirements for allocation of network company license fee revenue. Fee payments for the 2025 calendar year would be due by December 31, 2025.

**4. OTHER IMPLICATIONS**

**a. Does this legislation affect any departments besides the originating department?**

Yes, the legislation would establish network company license and fee requirements that would be implemented by FAS. The fee revenue would be used to recover FAS’s costs of implementing the license and fee, and OLS’s costs of implementing the App-Based Worker Deactivation Rights and the App-Based Worker Minimum Payment Ordinances.

FAS estimates that administering the network company license would require \$1.14 million one-time in 2024 and \$94,000 one-time in 2025 for set-up costs and program management, and \$442,000 and 2.25 FTE per year beginning in 2025 for ongoing costs.

OLS estimates that implementing the App-Based Worker Deactivation Rights Ordinance requires \$200,000 one-time in 2024 for outreach and set-up costs, \$1.13 million per year and seven FTEs in 2024, 2025, and 2026 for procedural enforcement, and \$1.56 million per year and nine FTEs beginning in 2027 for ongoing procedural and substantive enforcement.

OLS estimates that implementing the App-Based Worker Minimum Payment Ordinance requires \$1.2 million and five full-time equivalents (FTEs) per year for ongoing costs. The 2024 Proposed Budget Adjustments include approximately \$492,000 and 3 FTEs for this work.

**b. Is a public hearing required for this legislation?**

No

**c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No

**d. Does this legislation affect a piece of property?**

No

**e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The legislation would require a network company license fee to fund implementation of the App-Based Worker Deactivation Rights and App-Based Worker Minimum Payment Ordinances. The City established these app-based worker labor standards to change the underlying systems creating race-based disparities in our community by strengthening job security, increasing income, and improving other terms and conditions of work.

Black, Indigenous, and other People of Color face unique barriers to economic insecurity and disproportionately work in low-wage jobs with insecure working conditions. Specifically, Black and Latinx workers are overrepresented among app-based workers, comprising almost 42 percent of app-based workers but less than 29 percent of the overall labor force.

**f. Climate Change Implications**

**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

**2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

**g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

This legislation would require a network company license fee to recover the regulatory costs of network company regulations. Fee revenue would be used to recover the costs of licensing activities and implementation of two app-based worker labor standards established by the City.

**CITY OF SEATTLE**

**ORDINANCE** \_\_\_\_\_

**COUNCIL BILL** \_\_\_\_\_

AN ORDINANCE relating to the Seattle Department of Transportation; amending Section 11.16.121 of the Seattle Municipal Code to set new limits on parking rates at parking payment devices.

WHEREAS, Section 11.16.121 of the Seattle Municipal Code (SMC) sets minimum and maximum limits on parking rates at on-street parking payment devices (e.g., pay station kiosks, mobile parking payment) and identifies policy for the Director of Transportation to adjust parking rates; and

WHEREAS, since 2010, with the passage of Ordinance 123462, the Seattle Department of Transportation's (SDOT's) Performance-Based Parking Pricing Program (the fundamental component of the Department's overall paid parking system) has used a data-driven process to adjust rates throughout the city to achieve one to two open and available spaces; and

WHEREAS, SMC 11.16.121.C established a minimum and maximum hourly parking rate in 2010, was updated in 2016, was updated again in 2021 specific to event rates around the Climate Pledge Arena, and should be adjusted to more accurately account for the costs of SDOT's paid parking program and to more effectively achieve the objective of pricing the curb to ensure reliable customer access; and

WHEREAS, increasing the minimum hourly rate would allow SDOT to more fully recover paid parking program costs including non-discretionary fees to process transactions, and increasing the maximum hourly rate would allow SDOT to adjust rates in Seattle's highest demand areas to provide more reliable customer access; and

WHEREAS, it is the legislation's intent to direct the new increment of revenues collected after passage of this

legislation to SDOT for the purpose of maintaining and administering the on-street paid parking program; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Section 11.16.121 of the Seattle Municipal Code, last amended by Ordinance 126399, is amended as follows:

**11.16.121 Director of Transportation-Rate setting for parking payment devices**

\* \* \*

B. The Director of Transportation is authorized to set parking rates up to ((~~\$5~~) \$8 per hour ("Maximum Hourly Rate"), except that for large Seattle Center events the Director is authorized to set parking rates up to \$12 per hour for locations within a mile of Seattle Center. When parking rates are in effect, parking rates shall be set no lower than ((~~\$0.50~~) \$1 per hour ("Minimum Hourly Rate").

\* \* \*

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
Seattle Department of Transportation	Mike Estey	Aaron Blumenthal

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to the Seattle Department of Transportation; amending Section 11.16.121 of the Seattle Municipal Code to set new limits on parking rates at parking payment devices.

**Summary and Background of the Legislation:** The Seattle Municipal Code (SMC) establishes purposes for on-street paid parking rate-setting and since 2010, has provided direction to the Seattle Department of Transportation (SDOT) on adjusting parking rates with a minimum and maximum hourly rate range. SDOT proposes to update the SMC language regarding the minimum and maximum rates for two primary purposes: 1) to ensure basic program cost recovery, and 2) to maintain the ability to effectively carry out SMC direction to adjust rates so that 1-2 parking spaces are available on each block to provide reliable customer curb access. SDOT does not adjust paid parking rates to generate revenue, but rather to carry out the SMC direction to provide reliable curb access. The legislation revises the minimum hourly rate from \$0.50 to \$1.00, and the maximum hourly rate from \$5.00 to \$8.00.

This legislation will allow greater flexibility and conformity with parking policy and legal requirements. Currently, SDOT is adjusting rates three times per year. Parking data show that many areas of the City are likely to soon hit the rate cap. When we are not able to adjust rates beyond the current maximum, we cannot meet City goals of maintaining adequate parking turnover for business access, as stated in the SMC. In addition, raising the minimum would bring our rates more in line with other (Northwest or peer-sized) comparable cities locally and around the country.

Net new parking revenues from these changes are directed to SDOT for the purposes of maintaining and administering the on-street paid parking program and other transportation purposes in the 2024 Proposed Budget. Costs associated with implementing this change are estimated at \$144,000 and are also included in the Proposed Budget, and they will be included in future budget legislation.

**2. CAPITAL IMPROVEMENT PROGRAM**

**Does this legislation create, fund, or amend a CIP Project?**      \_\_\_ Yes   X   No

**3. SUMMARY OF FINANCIAL IMPLICATIONS**

**Does this legislation amend the Adopted Budget?**      \_\_\_ Yes   X   No

Appropriation change (\$):	General Fund \$		Other \$	
	2024	2025	2024	2025
	0	0	0	0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2024	2025	2024	2025
	\$2,400,000	\$3,800,000	0	0
Positions affected:	No. of Positions		Total FTE Change	
	2024	2025	2024	2025
	0	0	0	0

**Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

Yes, for these rate adjustments, the impact to SDOT costs is expected to be on the credit card fees paid (at an estimated 6% of revenues). Therefore, SDOT costs are estimated as both one-time and on-going costs. These are non-discretionary paid parking program costs.

The revenue estimates for 2024 are a partial year because of installation of the rate changes expected in March 2024. In future years, the revenues are expected to be about \$3,800,000 in 2025 and beyond from these changes made with the legislation.

**Are there financial costs or other impacts of *not* implementing the legislation?**

Yes, in the case of the minimum hourly rate, a small but important number of transactions will continue to happen at amounts below SDOT’s per transaction cost to operate the paid parking system. The hourly \$0.50 is below what most Washington state cities with paid parking charge, as well as major cities around the United States.

For the maximum hourly rate change, the increase in the allowed adjustment will provide SDOT flexibility to meet these same SMC rate-setting direction, where rates are set so that 1 to 2 spaces are open and available throughout the day and to support transit and demand management modes.

**3.a. Appropriations**

This legislation adds, changes, or deletes appropriations.

**3.b. Revenues/Reimbursements**

This legislation adds, changes, or deletes revenues reimbursements.

**Anticipated Revenue/Reimbursement Resulting from This Legislation:**

<b>Fund Name and Number</b>	<b>Dept</b>	<b>Revenue Source</b>	<b>2024 Revenue</b>	<b>2025 Estimated Revenue</b>
General Fund – 00100	SDOT	Paid Parking Revenue	\$2,400,000	\$3,800,000
<b>TOTAL</b>			<b>\$2,400,000</b>	<b>\$3,800,000</b>

**4. OTHER IMPLICATIONS**

- a. Does this legislation affect any departments besides the originating department?**  
No.
- b. Is a public hearing required for this legislation?**  
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
No.
- d. Does this legislation affect a piece of property?**  
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The recommended changes could lead to people paying more for on-street parking if they choose to drive and park in the paid areas where rates change with this legislation. RSJI considerations for these changes could develop in several ways:

- 1 – Thriving BIPOC businesses depend on reliable customer access. In paid parking areas, these businesses may see *benefits* as SDOT better meets parking availability goals so that their customers can more reliably find nearby street parking.
- 2 – Owning, operating, and relying on the private vehicle to access Seattle’s densest business districts is not the most cost-effective travel option, no matter the hourly parking rate. Parking fees are one of the least costly factors in owning and operating a private vehicle, after fuel and insurance. Providing low-cost on-street parking is not the equivalent of providing equitable and affordable transportation options. Pricing the curb appropriately however, for reliable access has numerous safety and climate benefits, as well as signals the importance of ensuring access to affordable mobility and transportation options. SDOT continues to expand options to our neighborhood business districts by transit, bicycle, walking, and shared micromobility.
- 3 – In terms of Language Access, SDOT publishes in multiple language the “Can I Park Here” Brochure, which explains parking rules including those for paid parking, and provides SDOT and SPD parking contact info.

**f. Climate Change Implications**

**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

This change could lead to decreased carbon emissions. Free or reduced parking charges have been found in numerous transportation studies to be leading determinants for why people choose to drive. SDOT's paid parking program uses a data-driven metric to regularly adjust parking rates to ensure 1-2 open parking spaces throughout the day. This process leads to less circling for parking, with reductions in emissions and congestion. Pricing itself, particularly at higher rates, may encourage people to switch modes to transit, bicycling or shared micromobility, thereby also decreasing emissions. The Curbside Management team has also seen the opposite situation with free parking on Sundays in Seattle business districts, where streets are very full of parked vehicles with others circling for parking or idling waiting for an open spot.

**2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

This legislation enacts a new maximum and minimum street parking rate in the SMC, thereby providing a more permanent change for on-going paid parking management, with the resultant climate benefits noted above.

**g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

Seattle Municipal Code Section 11.16.121 directs SDOT to use the performance goal of keeping 1-2 parking spaces open and available when setting on-street paid parking rates. This performance goal is the basis of the legislative request to change the rates in SMC 11.16.121, particularly the maximum rate.

CITY OF SEATTLE

ORDINANCE \_\_\_\_\_

COUNCIL BILL \_\_\_\_\_

AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay or reimburse all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2024 Multipurpose LTGO Bond Fund; amending Ordinance 123751 (as previously amended by Ordinances 124341 and 124637), Ordinance 124341, Ordinance 124637, Ordinance 124924 (as previously amended by Ordinance 125986), Ordinance 125456, Ordinance 125715 (as previously amended by Ordinance 125986), and Ordinance 126219 (as previously amended by Ordinances 126288 and 126479); and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle, Washington (the “City”) has determined that it is in its best interest that the capital projects described in this ordinance (the “Projects”) be financed by the issuance of limited tax general obligation bonds of the City in a principal amount not to exceed \$84.2 million; and

WHEREAS, RCW 39.36.020 authorizes the City to incur indebtedness without the assent of the voters of the City so long as such indebtedness does not result in a total nonvoted indebtedness of the City in excess of 1.5 percent of the value of taxable property within the City as computed in accordance with RCW 39.36.030; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“**Authorized Denomination**” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond

Documents.

“**Beneficial Owner**” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“**Bond**” means one of the limited tax general obligation bonds issued pursuant to this ordinance.

“**Bond Counsel**” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“**Bond Documents**” means, with respect to any Series of the Bonds, (a) this ordinance (including any amendatory or supplemental ordinances); (b) the authenticated Bond form; and (c) the written agreement(s) setting forth the Bond sale terms and additional terms, conditions, or covenants pursuant to which such Bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a Bond Purchase Contract (as defined in the applicable authorizing ordinance), (iii) a Bond indenture, fiscal agent or paying agent agreement, or the State fiscal agency contract, and (iv) a direct purchase or continuing covenant agreement.

“**Bond Purchase Contract**” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“**Bond Redemption Fund**” means the City’s General Bond Interest and Redemption Fund, created by Ordinance 112112 and established and to be used for the payment of the principal of and premium, if any, and interest on the Bonds.

“**Bond Register**” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“**Bond Registrar**” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the System of Registration.

**“Bond Sale Terms”** means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 4 of this ordinance, including the maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions, or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

**“Book-Entry Form”** means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

**“City”** means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

**“City Council”** means the Seattle City Council of the City, as duly and regularly constituted from time to time.

**“Code”** means the Internal Revenue Code of 1986, or any successor thereto, as amended, and regulations thereunder.

**“Continuing Disclosure Agreement”** means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 14 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

**“Director of Finance”** or **“Director”** means the City’s Director of Finance or such other officer who succeeds to substantially all of the responsibilities of that office.

“**DTC**” means The Depository Trust Company, New York, New York.

“**Fiscal Agent**” means the fiscal agent of the State, as the same may be designated by the State from time to time, or such other fiscal agent as the City may later appoint.

“**Government Obligations**” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended.

“**Issue Date**” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“**Letter of Representations**” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended, or an agreement with a substitute or successor Securities Depository.

“**MSRB**” means the Municipal Securities Rulemaking Board.

“**Omnibus Refunding Ordinance**” means Ordinance 125457, as amended, authorizing the issuance of general obligation refunding bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “refundable bonds.”

“**Owner**” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“**Pricing Certificate**” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser of such Series in a competitive sale, in accordance with the parameters set forth in Section 4 of this ordinance.

“**Projects**” means the various elements of the City’s capital improvement program identified in Exhibit A to this ordinance.

“**Purchaser**” means the entity or entities selected by the Director of Finance in accordance with this ordinance as underwriter, purchaser, or successful bidder in a sale of any Series of the Bonds.

“**Rating Agency**” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“**Record Date**” means, unless otherwise defined in the Bond Documents, in the case of each interest or

principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“**Registered Owner**” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“**Rule 15c2-12**” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“**SEC**” means the United States Securities and Exchange Commission.

“**Securities Depository**” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“**Series**” means a series of the Bonds issued pursuant to this ordinance.

“**State**” means the State of Washington.

“**System of Registration**” means the system of registration for the City’s bonds and other obligations established pursuant to Seattle Municipal Code Chapter 5.10, as amended.

“**Taxable Bond**” means any Bond the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“**Tax Credit Subsidy Bond**” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“**Tax Credit Subsidy Payment**” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“**Tax-Exempt Bond**” means any Bond the interest on which is intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“**Term Bond**” means any Bond that is issued subject to mandatory redemption prior to its maturity in periodic mandatory redemption payments in accordance with subsection 7(b) of this ordinance.

Section 2. **Authorization of Bonds.** The City is authorized to borrow money on the credit of the City and issue limited tax general obligation bonds evidencing indebtedness in the maximum principal amount stated in Section 4 of this ordinance to pay or reimburse all or part of the costs of the Projects (which costs may include capitalized interest, if necessary), and to pay the costs of issuance of the Bonds. The Bonds may be issued in one or more Series and may be combined with other general obligation bonds (including refunding bonds) authorized separately. The Bonds shall be designated limited tax general obligation bonds, shall be numbered separately, and shall have any name, year, series, or other labels as deemed necessary or appropriate by the Director of Finance.

Section 3. **Manner of Sale of Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify other matters that the Director determines are necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 4 of this ordinance.

Section 4. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City’s designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and

this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance may not exceed \$84.2 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance, which Issue Date may not be later than December 31, 2026.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, unless otherwise provided in the applicable Bond Documents. One or more rates of interest shall be established for each maturity of each Series of the Bonds, which rate or rates may be fixed or variable. The true interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director, which shall include payment at the maturity of each Bond, payment in mandatory redemption installments applicable to Term Bonds, and other payments as required in accordance with any redemption or tender provisions set forth in the Bond Documents.

(vi) **Final Maturity.** Each Bond shall mature no later than 31 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption provisions, as determined by the Director of Finance, consistent with Section 7 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as being subject to optional redemption prior to its maturity at such time or times as are acceptable to the Director, consistent with subsection 7(a) of this ordinance. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10-1/2 years after the Issue Date.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity in mandatory redemption installment payments of principal, consistent with subsection 7(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 7(c) of this ordinance.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Debt Capacity and Limitations.** A Series of the Bonds may not be issued in an amount that would cause the indebtedness of the City to exceed the City's legal debt capacity on the Issue Date of such Series.

(B) **Reasonably Expected Life.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities or assets to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for bond insurance or for any other credit enhancement as the Director of Finance may find necessary or desirable. The Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider; and requirements to give notice to or obtain the consent of a credit enhancement provider. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 13 of this ordinance.

Section 5. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the System of Registration.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment date or principal redemption date.

**(c) Securities Depository; Book-Entry Form.** Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository (or the persons for whom they act as nominees) with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository (or its participants) of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a

determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond certificate shall be lost, stolen, or destroyed, the Bond Registrar may authenticate and deliver a new Bond or Bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith, and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such Bond or Bonds were actually lost, stolen, or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both the City and the Bond Registrar.

Section 6. **Payment of Bonds.**

(a) **Payment.** Principal of and interest on each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held in Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held in Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the

Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 7. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in principal installment payments, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and principal amounts set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a principal portion of a Term Bond prior to its maturity, the principal amount so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments for that Term Bond in the manner directed by the Director of Finance. In the absence of direction by the Director, credit shall be allocated to each mandatory redemption installment payment for that Term Bond on a pro rata basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional redemption or extraordinary mandatory redemption prior to maturity, upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity

or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 8. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice

of redemption has been rescinded shall remain outstanding.

Section 9. **Failure to Pay Bonds**. If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Bond Redemption Fund and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 10. **Form and Execution of Bonds**. The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law and shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile. The seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series of the Bonds adjusted consistent with this ordinance) and manually signed by the Bond Registrar shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Limited Tax General Obligation Bonds], [Year] [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, delivered, and issued, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to

sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 11. **Pledge of Taxes**. For so long as any of the Bonds are outstanding, the City irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of the electors of the City on all of the taxable property within the City in an amount sufficient, together with other money legally available and to be used therefor, to pay when due the principal of and interest on the Bonds. The full faith, credit, and resources of the City are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Section 12. **Refunding or Defeasance of Bonds**.

(a) **Bonds Designated as Refundable Bonds**. Each Series of the Bonds is designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance**. The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, release, refunding, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After such a Trust Account is established and fully funded as set forth above, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may

then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

Section 13. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions consistent with the terms of such Series, as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of such Series (or other funds of the City treated as gross proceeds of such Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the

City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 14. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series of the Bonds to be sold to the public in the form of the preliminary official statement with such additions, modifications, and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 15. **Funds Created; Deposit and Use of Proceeds.** The 2024 Multipurpose LTGO Bond Fund is created in the City Treasury. For purposes of distinguishing among various Series of the Bonds, the Director of Finance may, if necessary or convenient, create such subfunds, accounts, or subaccounts within such fund for purposes of maintaining separate records for each Series. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds shall be paid into or allocated to the 2024 Multipurpose LTGO Bond Fund, or to such funds, subfunds, accounts, or subaccounts of the City Treasury as the Director may designate for that Series, and used for the purposes described in Section 2 of this ordinance. The Director of Finance may use the principal proceeds and net premium, if any, of any Series to pay for costs of issuance of that Series, and the Director also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount.

The Director of Finance may (i) establish and transfer proceeds of the Bonds among funds, subfunds, accounts, or subaccounts in the City Treasury, or (ii) make or repay interfund loans pursuant to Seattle Municipal Code Section 5.06.030 to or from other City accounts or funds, all on terms that the Director may deem necessary, appropriate, or desirable to carry out the purposes of this ordinance and consistent with the Bond Sale Terms. Enactment of this ordinance authorizes the transfer of amounts from the 2024 Multipurpose LTGO Bond Fund (and such other funds, subfunds, accounts, or subaccounts created for the purpose described in this section) to other funds in order to carry out the purposes of this ordinance.

There has previously been created and established in the City Treasury the Bond Redemption Fund. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds that is not necessary for the purposes described in Section 2 of this ordinance, if any, shall be paid or allocated into the Bond Redemption Fund prior to the first debt service payment date with respect to that Series.

Until needed to pay the Project expenses and the costs described in this ordinance, the City may invest the proceeds of any Series of the Bonds temporarily in any authorized investment, and the investment earnings

shall be deposited in such funds, subfunds, accounts, and subaccounts as may be designated by the Director of Finance. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those federal tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to the purposes set forth in Section 2 of this ordinance, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 16. **Amendment of Exhibit A to Ordinance 123751 (2012 Projects)**. Ordinance 123751 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2012 (the “2012 Bonds”), and provided that proceeds of the 2012 Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by other future ordinance. Exhibit A to Ordinance 123751 was subsequently amended by Ordinances 124341 and 124637, and is further amended to read as set forth in Exhibit C-1, attached to this ordinance and incorporated by reference, showing the cumulative amendments since the version originally adopted as Exhibit A to Ordinance 123751. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 123751 (including all previous amendments thereto) in its entirety. No other terms of Ordinance 123751, as currently in effect, are modified by this amendment.

Section 17. **Amendment of Exhibit A to Ordinance 124341 (2014 Projects)**. Ordinance 124341 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2014 (the “2014 Bonds”), and provided that proceeds of the 2014 Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 124341 is amended to read as set forth in Exhibit C-2, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining

indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124341 in its entirety. No other terms of Ordinance 124341, as currently in effect, are modified by this amendment.

Section 18. **Amendment of Exhibit A to Ordinance 124637 (2015A Projects)**. Ordinance 124637 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2015A, (the “2015A Bonds”), and provided that proceeds of the 2015A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 124637 is amended to read as set forth in Exhibit C-3, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124637 in its entirety. No other terms of Ordinance 124637, as currently in effect, are modified by this amendment.

Section 19. **Amendment of Exhibit A to Ordinance 124924 (2016A Projects)**. Ordinance 124924 authorized issuance of the new money portion of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2016A, (the “2016A Bonds”), and provided that proceeds of the 2016A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance and by future ordinance. Exhibit A to Ordinance 124924 was subsequently amended by Ordinance 125986, and is further amended to read as set forth in Exhibit C-4, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 124924 in its entirety. No other terms of Ordinance 124924, as currently in effect, are modified by this amendment.

Section 20. **Amendment of Exhibit A to Ordinance 125456 (2018A Projects)**. Ordinance 125456 authorized issuance of the City’s Limited Tax General Obligation Improvement Bonds, 2018A, (the “2018A Bonds”), and provided that proceeds of the 2018A Bonds would be used to carry out the costs of projects

specified in Exhibit A to that ordinance and by future ordinance. Exhibit A to Ordinance 125456 is amended to read as set forth in Exhibit C-5, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 125456 in its entirety. No other terms of Ordinance 125456, as currently in effect, are modified by this amendment.

Section 21. **Amendment of Exhibit A to Ordinance 125715 (2019A Projects)**. Ordinance 125715 authorized issuance of the City’s Limited Tax General Obligation Improvement Bonds, 2019A, (the “2019A Bonds”), and provided that proceeds of the 2019A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 125715 is amended to read as set forth in Exhibit C-6, attached to this ordinance and incorporated by reference. Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 125715 in its entirety. No other terms of Ordinance 125715, as currently in effect, are modified by this amendment.

Section 22. **Amendment of Exhibit A to Ordinance 126219 (2021A Projects)**. Ordinance 126219 authorized issuance of the City’s Limited Tax General Obligation Improvement and Refunding Bonds, 2021, Series A, (the “2021A Bonds”), and provided that proceeds of the 2021A Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance or by future ordinance. Exhibit A to Ordinance 126219 was subsequently amended by Ordinances 126288 and 126479, and is further amended to read as set forth in Exhibit C-7, attached to this ordinance and incorporated by reference Strikethrough text bracketed by double parentheses indicates deleted text and double underlining indicates inserted text. This amendment is ratified and confirmed in all respects and restates and replaces Exhibit A to Ordinance 126219 in its entirety. No other terms of Ordinance 126219, as currently in effect, are modified by this amendment.

Section 23. **General Authorization**. In addition to the specific authorizations in this ordinance, the Mayor, the Director of Finance, and each other appropriate officer of the City are each authorized and directed

to do everything as in such official or officer's judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, exercising discretion and without requiring further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including liquidity or credit support), and may execute engagement letters with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; and (iii) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and Director of Finance are independently authorized (i) to execute and deliver any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents; refunding or defeasance trustees; liquidity or credit support providers; bond insurers; underwriters; lenders or other financial institutions; the Bond Registrar and any other fiscal or paying agents; counterparties to interest rate swap, cap, floor, or similar agreements; and custodians); and (ii) to negotiate, execute, and deliver such other contracts or documents incidental to the issuance and sale of a Series of the Bonds; the establishment of the initial interest rate or rates on a Bond; or the tender, purchase, remarketing, or redemption of a Bond, as may in such official's judgment be necessary or appropriate.

Section 24. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance,

or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 25. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 26. **Headings**. Section headings in this ordinance are nonsubstantive.

Section 27. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Bruce A. Harrell, Mayor

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Scheereen Dedman, City Clerk

**EXHIBIT B**

**FORM OF CONTINUING DISCLOSURE AGREEMENT**

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Limited Tax General Obligation Bonds, [Year][Series] (the “Bonds”), for the sole purpose of assisting the underwriter in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance \_\_\_\_\_ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of

1 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)  
2 or other material notices or determinations with respect to the tax status of the Bonds, or other  
3 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the  
4 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),  
5 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property  
6 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,  
7 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;  
8 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of  
9 all or substantially all of the assets of the City other than in the ordinary course of business, the  
10 entry into a definitive agreement to undertake such an action or the termination of a definitive  
11 agreement relating to any such actions, other than pursuant to its terms, if material; (14)  
12 appointment of a successor or additional trustee or the change of name of a trustee, if material;  
13 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events  
14 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any  
15 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,  
16 termination event, modification of terms, or other similar event under the terms of a financial  
17 obligation of the City, any of which reflect financial difficulties.

18           For purposes of this Undertaking, the term “financial obligation” shall mean a debt  
19 obligation; derivative instrument entered into in connection with, or pledged as security or a source  
20 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation  
21 or a derivative instrument entered into in connection with, or pledged as security or a source of  
22 payment for, an existing or planned debt obligation. The term “financial obligation” does not

1 include municipal securities as to which a final official statement has been provided to the MSRB  
2 consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial  
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual  
6 financial information that the City undertakes to provide in subsection (a) of this section:

7 (i) Shall consist of (1) annual financial statements of the City prepared in  
8 accordance with applicable generally accepted accounting principles applicable to governmental  
9 units (except as otherwise noted therein), as such principles may be changed from time to time and  
10 as permitted by applicable state law; (2) a statement of outstanding general obligation debt of the  
11 City; (3) the assessed value of the property within the City subject to ad valorem taxation; and  
12 (4) ad valorem tax levy rates and amounts and percentages of taxes collected;

13 (ii) Shall be provided not later than the last day of the ninth month after the end  
14 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year  
15 may be changed as required or permitted by state law, commencing with the City’s fiscal year  
16 ending December 31, 20\_\_; and

17 (iii) May be provided in a single document or multiple documents, and may be  
18 incorporated by specific reference to documents available to the public on the Internet website of  
19 the MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the  
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any  
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,  
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in  
2 circumstances that arises from a change in legal requirements, change in law, or change in the  
3 identity, nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements  
5 of the Rule at the time of the primary offering, after taking into account any amendments or  
6 interpretations of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as  
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar  
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the  
10 Bond Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any  
12 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the  
13 amendment changes the type of annual financial information to be provided, the annual financial  
14 information containing the amended financial information will include a narrative explanation of  
15 the effect of that change on the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any  
17 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall  
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In  
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the  
21 Rule that require the City to comply with this Undertaking become legally inapplicable in respect  
22 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or

1 other counsel familiar with federal securities laws delivered to the City, and the City provides  
2 timely notice of such termination to the MSRB.

3 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the  
4 City learns of any material failure to comply with this Undertaking, the City will proceed with due  
5 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated  
6 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole  
7 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,  
8 including seeking an order of specific performance from an appropriate court, to compel the City  
9 or other obligated person to comply with this Undertaking.

10 (g) Designation of Official Responsible to Administer Undertaking. The Director of  
11 Finance of the City (or such other officer of the City who may in the future perform the duties of  
12 that office) or the Director’s designee is the person designated, in accordance with the Bond  
13 Ordinance, to carry out this Undertaking of the City in respect of the Bonds set forth in this section  
14 and in accordance with the Rule, including, without limitation, the following actions:

15 (i) Preparing and filing the annual financial information undertaken to be  
16 provided;

17 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,  
18 assessing its materiality, where necessary, with respect to the Bonds, and preparing and  
19 disseminating any required notice of its occurrence;

20 (iii) Determining whether any person other than the City is an “obligated  
21 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person  
22 an undertaking to provide any annual financial information and notice of listed events for that  
23 person in accordance with the Rule;

1                   (iv)    Selecting, engaging and compensating designated agents and consultants,  
2 including but not limited to financial advisors and legal counsel, to assist and advise the City in  
3 carrying out this Undertaking; and

4                   (v)    Effecting any necessary amendment of the Undertaking.

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
Office of City Finance	Kristi Beattie	Caleb Wagenaar

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay or reimburse all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2024 Multipurpose LTGO Bond Fund; amending Ordinance 123751 (as previously amended by Ordinances 124341 and 124637), Ordinance 124341, Ordinance 124637, Ordinance 124924 (as previously amended by Ordinance 125986), Ordinance 125456, Ordinance 125715 (as previously amended by Ordinance 125986), and Ordinance 126219 (as previously amended by Ordinances 126288 and 126479); and ratifying and confirming certain prior acts.

**Summary and Background of the Legislation:** This legislation provides the legal authorization to issue up to \$84.2 million of Limited Tax General Obligation (LTGO) Bonds, as assumed in the 2024 Budget and the 2024-2029 Capital Improvement Program (CIP).

Although the Budget and CIP make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

This bond sale is anticipated to occur in mid-2024. The bond proceeds will support a share of the City’s general government capital program for about 12 months. The bond sizing is based on the proposed budget and current cash-flow projections. The bond proceeds will be used to pay or reimburse all or part of the costs of the projects supported by the bond issuance (which may include capitalized interest) and pay issuance costs.

The City’s CIP identifies debt financing for certain projects and the City’s budget appropriates the associated debt service. The following table provides details of this bond issue.

<i>Project</i>	Approximate Project Fund Deposit	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Proposed 2024	Debt Service Estimated 2025	Debt Service Funding Source
Fire Station 31	26,010	26,790	20	5.25%	1,406	2,196	REET I
Seattle Municipal Tower Elevator Rehab	6,334	6,524	10	4.50%	294	824	FAS Rates
Human Capital Management System	4,019	4,140	8	4.75%	197	634	FAS Rates
Electrical Infrastructure Upgrades	1,000	1,030	20	5.25%	54	84	Payroll Expense Tax
Computing Services Architecture	3,992	4,112	8	4.75%	195	630	IT Rates
Data and Telephone Infrastructure	6,921	7,129	8	4.75%	339	1,092	IT Rates

CITY OF SEATTLE

ORDINANCE \_\_\_\_\_

COUNCIL BILL \_\_\_\_\_

AN ORDINANCE relating to taxation; increasing the tax rates of the payroll expense tax imposed on persons engaging in business in Seattle; and amending Section 5.38.030 of the Seattle Municipal Code.

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Section 5.38.030 of the Seattle Municipal Code, enacted by Ordinance 126108, is amended as follows:

**5.38.030 Tax imposed-Rate**

A. A payroll expense tax is hereby levied upon and shall be collected from every person engaging in business within Seattle.

B. The amount of the payroll expense tax due shall be the payroll expense of the business, subject to any deductions authorized under this Chapter 5.38, multiplied by the following rates:

1. For businesses with payroll expense up to \$99,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) 0.746 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and seven-tenths~~) 1.811 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

2. For businesses with payroll expense of \$100 million to \$999,999,999.99, the rate shall be:

a. (~~Seven-tenths~~) 0.746 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~One and nine tenths~~) 2.024 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

3. For businesses with payroll expense of \$1 billion or greater, the rate shall be:

a. (~~One and four tenths~~) 1.492 percent of the payroll expense of employees with annual compensation of \$150,000 to \$399,999.99; and

b. (~~Two and four tenths~~) 2.557 percent of the payroll expense of employees with annual compensation of \$400,000 or more.

C. The tax imposed by this Chapter 5.38 is levied on businesses. A business may not make any deductions from employees' compensation to pay for this tax.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

## SUMMARY and FISCAL NOTE\*

<b>Department:</b>	<b>Dept. Contact/Phone:</b>	<b>CBO Contact/Phone:</b>
Legislative	Aly Pennucci/x4-8137	N/A

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

### 1. BILL SUMMARY

**Legislation Title:** AN ORDINANCE relating to taxation; increasing the tax rates of the payroll expense tax imposed on persons engaging in business in Seattle; and amending Section 5.38.030 of the Seattle Municipal Code

**Summary and background of the Legislation:** This legislation increases the rates for all businesses currently subject to the payroll expense tax imposed as provided for in Section 5.38 of the Seattle Municipal Code (SMC) by a fraction of a percent, in nominal terms, across all the rate categories to increase annual revenues from this tax by \$20 million. This results in a ~6.5 percent increase overall across all the rates.

The increased revenue would be used to add \$20 million to the Department of Education and Early Learning (DEEL) to expand educational supports at Seattle Public Schools, prioritizing mental health services including, but not limited to, school-based mental health counselors and culturally specific and responsive programming from community-based organizations (see 2024 Council Budget Action DEEL-001-A).

By passing this legislation the Council states its intent to amend SMC 5.38.055 in 2024 to amend how the proceeds from the JumpStart fund are allocated in the annual budget. This future change to SMC 5.38.055 would allow an ongoing use of JumpStart funds for the uses described above.

### 2. CAPITAL IMPROVEMENT PROGRAM

**Does this legislation create, fund, or amend a CIP Project?** \_\_\_ Yes X No

### 3. SUMMARY OF FINANCIAL IMPLICATIONS

**Does this legislation amend the Adopted Budget?** \_\_\_ Yes X No

**Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

Yes. If this Council Bill is passed, the City would be able to spend an additional approximately \$20 million on the uses described in the bill summary.

**Is there financial cost or other impacts of *not* implementing the legislation?**

No.

**3.a. Appropriations**

This legislation adds, changes, or deletes appropriations.

**3.b. Revenues/Reimbursements**

This legislation adds, changes, or deletes revenues or reimbursements.

**Anticipated Revenue/Reimbursement Resulting from this Legislation:**

<b>Fund Name and Number</b>	<b>Dept</b>	<b>Revenue Source</b>	<b>2023 Revenue</b>	<b>2024 Estimated Revenue</b>
General Fund (10000)	N/A	Payroll Expense Tax	\$0	\$20,000,000
<b>TOTAL</b>	<b>N/A</b>		<b>\$0</b>	<b>\$20,000,000</b>

**Is this change one-time or ongoing?** Ongoing.

**3.c. Positions**

This legislation adds, changes, or deletes positions.

**4. OTHER IMPLICATIONS**

- a. Does this legislation affect any departments besides the originating department? N/A.
- b. Is a public hearing required for this legislation? No.
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant? No.
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation? No.
- e. Does this legislation affect a piece of property? No.
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged

**communities? What is the Language Access plan for any communications to the public? None.**

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s). N/A**

**List attachments/exhibits below: No attachments.**

**CITY OF SEATTLE**

**RESOLUTION \_\_\_\_\_**

A RESOLUTION amending Resolution 31334; establishing the City Council’s intent to fund the Seattle City Employees’ Retirement System as informed by the January 1, 2023 Actuarial Study.

WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the actuarially required contribution amounts into the pension system, including a plan to amortize the system’s unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2023 valuation study performed by the Seattle City Employees’ Retirement System (SCERS) actuary identified the contribution rate necessary to fully fund the system; and

WHEREAS, the City will update its contribution rate to SCERS annually to a level equal to the actuarial required contribution for 2024 as determined by the most recent valuation; NOW, THEREFORE,

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR**

**CONCURRING, THAT:**

Section 1. Resolution 31334, last amended by Resolution 32071, is amended as follows:

Section 1. The City will fully fund its actuarially required contributions to SCERS in the 2012 Adopted Budget and thereafter. The City will base its contribution rate on a five-year smoothed asset valuation as described in the most recent actuarial report, and the rate will be sufficient to amortize the system’s unfunded liabilities in 30 or fewer years.

Section 2. To that end, the ((2023)) 2024 Adopted Budget will include sufficient appropriation

for the City to maintain payment of 15.17 percent of regular (non-overtime) payroll into SCERS. This is greater than the employee contribution rates into the system. The employer contribution rate must not be less than the required Actuarial Contribution Rate of ~~((15.82))~~ 15.17 percent and a combined contribution rate of ~~((25.06))~~ 24.12 percent, as determined by the January 1, ~~((2022))~~ 2023, Actuarial Valuation.

Section 3. The City endorses the actuarial assumptions and methods adopted by the SCERS Board of Administration, utilized beginning with the January 1, 2011, valuation, and modified by the Board as a result of the actuary's investigation of the system's experience from 2018 through 2021. These include:

- A. The entry age normal actuarial cost method;
- B. An investment return rate of 6.75 percent;
- C. A five-year smoothed method for asset valuation;
- D. Generational mortality tables that take future life expectancy improvements into account;
- E. Expected average membership growth of 0.25 percent per year; and
- F. Other economic and demographic assumptions as described in the valuation.

Section 4. Each year, and in the event the SCERS Board of Administration should wish to change its actuarial assumptions and methods, the City requests that the Board consult with the Mayor and the City Council by the tenth day of July regarding the impacts of such changes on funding requirements, as described in Seattle Municipal Code subsection 4.36.550.A, to allow sufficient time to make budget preparations.

Section 5. The City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation. The City may elect to exceed the required contribution rate in any given year in the interest of funding stability or to amortize the system's unfunded liability in fewer than 30 years.

Section 6. Beginning with the January 1, 2013, Actuarial Valuation and thereafter, the amortization period is closed and fixed. That is to say, the amortization rate should be sufficient to retire the system's unfunded liability over the period 2013-2042. Since closed amortizations can generate excessive contribution rate volatility in the second half of the period, the Council may consider re-opening the amortization period after 15 years. At any time, the SCERS Board and its actuary may recommend additional amortization layers and/or separate amortization periods for any new unfunded liabilities or surpluses generated after January 1, 2013.

Adopted by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its adoption this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

The Mayor concurred the \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Bruce A. Harrell, Mayor

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

## SUMMARY and FISCAL NOTE\*

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
RET	Mark Schimizza	Dave Hennes

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

### 1. BILL SUMMARY

**Legislation Title:** A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System as informed by the January 1, 2023 Actuarial Study.

**Summary and background of the Legislation:**

By this resolution and in accordance with Seattle Municipal Code Section 4.36.505, the SCERS Board of Administration is recommending to the City Council to maintain for 2024 the 2023 combined employer and employee contribution rate of 25.06% and the employer (City) contribution rate of 15.82% of regular payroll into SCERS. In the interest of funding stability and in anticipation of investment market volatility and low returns, the SCERS Board finds it is prudent to maintain the 2023 actuarially required contribution rate in 2024.

Per Resolution 31334 the City has committed to appropriate annually sufficient funds to make contributions to the retirement system to a level not less than the actuarial required contribution for that year as determined by the most recent actuarial valuation of the retirement systems liabilities. Although the City may elect to exceed the actuarial required contribution rate in any given year, in 2024, the minimum actuarial required employer contribution rate is 15.17% with a combined contribution rate of 24.12% as determined by the January 1, 2023 Actuarial Valuation.

### 2. CAPITAL IMPROVEMENT PROGRAM

**Does this legislation create, fund, or amend a CIP Project?** \_\_\_ Yes \_\_\_X\_\_\_ No

### 3. SUMMARY OF FINANCIAL IMPLICATIONS

**Does this legislation amend the Adopted Budget?** \_\_\_ Yes \_\_\_X\_\_\_ No

**Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

This legislation does not adjust appropriations, revenues, or positions. The 2024 contribution rate is also captured through approval of the budget.

**Is there financial cost or other impacts of *not* implementing the legislation?**

Not implementing the full actuarially required contribution in 2024 would go against Council Resolution 31334, and would place greater cost burden on the City and potentially members

in future years to fund the pension system. Not meeting the required contribution would be reflected on the System's financial audit, valuation, and the City's ACFR.

#### 4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**  
This legislation is the vehicle through which the SCERS Board conveys the updated actuarially required employer contribution rate to the Council as called for in Council Resolution 31334. The implementation of the rate change occurs through the adoption of the City's Budget Adoption Ordinance. The employer contribution rate approved with this Resolution, will affect all other City departmental budgets.
- b. Is a public hearing required for this legislation?**  
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
No
- d. Does this legislation affect a piece of property?**  
No
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**  
No perceived impact on vulnerable or historically disadvantaged communities
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**  
No.
  - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**  
No.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**  
N/A

**CITY OF SEATTLE**

**ORDINANCE \_\_\_\_\_**

**COUNCIL BILL \_\_\_\_\_**

AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2024; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

WHEREAS, in accordance with RCW 35.32A.030, the Mayor submitted a proposed budget for 2024 to the City Council; and

WHEREAS, the Mayor submitted a list of proposed position modifications as part of the 2024 Proposed Budget; and

WHEREAS, by Resolution 24964, the City Council adopted the concept of implementing the City's Capital Improvement Program through appropriations in a budget adopted annually to the greatest extent feasible; and

WHEREAS, the proposed budget for 2024 includes certain appropriations for capital programs that are described in the 2024-2029 Proposed Capital Improvement Program; and

WHEREAS, the City's 2024-2029 Capital Improvement Program, in conjunction with the Capital Facilities, Utilities, and Transportation Elements of the Comprehensive Plan, is in accordance with the State Growth Management Act; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. (a) In accordance with RCW 35.32A.050, the City Council has modified the proposed budget submitted by the Mayor.

(b) The appropriations for the budget control levels in Attachment A to this ordinance, as

restricted by the budget provisos included in Clerk File (C.F.) 314529, are adopted as the City’s annual budget for 2024. If a budget proviso refers to a City Council committee, and a committee by that name ceases to exist, the reference shall be to the successor committee with policy oversight of the same subject matter area.

(c) The appropriation for each budget control level in Attachment A to this ordinance may be used only for the purpose listed in Attachment A for that budget control level, unless transferred pursuant to Seattle Municipal Code (SMC) Chapter 5.08. Use of any amount of any appropriation restricted by one or more of the provisos in C.F. 314529 for any purpose other than that stated, or for any purpose expressly excluded, or in violation of any condition specified by proviso, whether by transfer pursuant to SMC 5.08.020 or by any other means, is prohibited.

(d) In addition to each budget control level in Attachment A to this ordinance, any budget control level created by a previous budget, for which appropriations remain that have not lapsed, is part of the 2024 budget and the un-lapsed appropriations for that budget control level are subject to the restrictions in subsection 1(c) of this ordinance. These un-lapsed appropriations continue to be subject to any provisos previously placed on them that have yet to be removed or satisfied.

(e) The funds appropriated in each budget control level are available to first satisfy any obligations incurred by contract, including but not limited to satisfaction of any bond obligation, contractual indemnity provision, or lease obligation.

(f) Unspent funds for the Executive Department Office of Housing’s Low-Income Housing Fund 16400 Budget Control Level, appropriated by subsection 1(b) of this ordinance, shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

(g) The revenue estimates for 2024 contained in the Mayor’s 2024 Proposed Budget, filed in C.F. 314527, as modified by the changes of the City Council in C.F. 314529, are adopted.

Section 2. The “CIP Project Pages” of the 2024-2029 Proposed Capital Improvement Program submitted by the Mayor, filed in C.F. 314528, as modified by the changes of the City Council in C.F. 314529,

are adopted as the City's six-year Capital Improvement Program (CIP).

Section 3. (a) The officer and employee position modifications in Attachment B to this ordinance, including the creation of some positions exempt from civil service, are adopted effective January 1, 2024. MikeseT1

(b) The City, by enacting Ordinance 126883, established a position list effective as of January 1, 2023. Subsection 3(a) of this ordinance modifies that list. It is anticipated that the Seattle Department of Human Resources will submit a proposed list of the City's regular positions for each department or office as of January 1, 2024 to the City Council for possible action in 2024. The proposed list should reflect (i) the modifications made in subsection 3(a) of this ordinance that take effect on January 1, 2024; (ii) the reclassifications of regular positions made by the Human Resources Director from January 1, 2023, through December 31, 2023; and (iii) the creation, modification, or abrogation of regular positions, by ordinance, that took effect from January 1, 2023, through December 31, 2023.

Section 4. (a) Subject to the conditions in Section 1 of this ordinance, the appropriation of money in the budget adopted by this ordinance, for a budget control level that includes a program or project assigned a project identification number in the 2024-2029 Adopted CIP, constitutes authority for the designated City department, commission, or office (after compliance with the State Environmental Policy Act) to acquire personal property; obtain options to acquire real property; negotiate to acquire right-of-way and other real property interests; prepare plans and designs; demolish, construct, or make improvements; and obtain any ancillary services, including, without limitation, planning, engineering, design, appraisal, escrow, title insurance, construction, inspection, environmental audits, and remediation appraisals or other reviews; all in order to carry out the project or program substantially as described in the 2024-2029 Adopted CIP. Each department may obtain the authorized services or property using City staff or by contract as authorized in subsection 4(j) of this ordinance. If projects or programs are identified in the 2024-2029 Adopted CIP to be

carried out by other entities wholly or in part with City funds, the appropriation constitutes authority to provide such funds to such other entities for such purposes, subject to applicable laws and ordinances.

(b) None of the appropriations in the 2024 Adopted Budget may be spent on capital projects or programs unless the projects or programs are specifically identified and assigned a project identification number in the 2024-2029 Adopted CIP or are added to the 2024-2029 Adopted CIP by a future amending ordinance.

(c) Without future Council authorization by ordinance, expenditures in 2024 on any project or program identified and assigned a project identification number in the 2024-2029 Adopted CIP for Seattle City Light, Seattle Public Utilities, or the Seattle Department of Transportation, other than expenditures pursuant to unspent capital appropriations carried forward from 2023 into 2024 in accordance with RCW 35.32A.080 and allocated to the same project or program, shall not exceed by more than \$1,000,000 the amount shown as the Appropriations Total in the 2024 column for that project or program in the Adopted CIP, as that amount may be amended by ordinance. The City Budget Office shall certify to the Chair of the City Council Budget Committee a list of those unspent capital appropriations not subject to the expenditures restriction imposed by this subsection by May 1, 2024, and shall also file the list with the City Clerk. The list shall include the project identification number and the dollar amount by project or program not subject to the expenditure restriction, at minimum.

(d) Moneys appropriated from funds, accounts, and subaccounts in which are deposited the proceeds derived from the issuance of bonded obligations shall be expended only in accordance with the terms, conditions, and restrictions of ordinances authorizing such obligations and establishing the respective funds.

(e) The 2024-2029 Adopted CIP is part of the 2024 Adopted Budget and identifies, among other projects, those capital projects funded wholly or in part from the proceeds of the taxes authorized in RCW 82.46.010 and/or RCW 82.46.035, and/or from the proceeds of bonds, for the repayment of which tax revenues under RCW 82.46.010 and/or RCW 82.46.035 have been pledged. Such taxes are intended to be in addition to

other funds that may be reasonably available for such capital projects.

(f) The portions of the 2024-2029 Adopted CIP pertaining to Seattle City Light and Seattle Public Utilities, as those portions of the 2024-2029 Adopted CIP may be amended from time to time, are adopted as systems or plans of additions to, and betterments and extensions of, the facilities, physical plants, or systems of Seattle City Light and Seattle Public Utilities, respectively.

(g) The Director of Finance and Administrative Services and the City's Director of Finance are authorized to draw and pay the necessary warrants or checks and to make any necessary transfers among funds and accounts.

(h) Except as limited by this section or by Section 1 of this ordinance or by any other ordinance, the funds appropriated in the 2024 Adopted Budget are subject to transfer for use with other projects as provided in SMC Chapter 5.08.

(i) The Mayor, or, at the Mayor's request, the head of the department that is designated to carry out a project for and on behalf of The City of Seattle, is authorized to submit applications as may be deemed appropriate to the United States of America, or any of its departments, and the State of Washington, or any of its departments, for financial assistance in carrying out the authorized projects included in the 2024-2029 Adopted CIP; to make for and on behalf of the City all assurances, promises, representations, and consent to suit, and/or covenants to comply with any applicable regulations of the United States relating to implementation of the projects; to act in connection with the applications as the authorized representative of the City; to provide additional information as may be required; and to prepare plans for implementation of terms and conditions as may accompany financial assistance, provided that the submission of an application shall not result in the making of a contract, in incurring of any indebtedness, or in the acceptance of moneys imposing any duties or obligations upon the City except as is authorized by this or another ordinance.

(j) The Director of Transportation, the Superintendent of Parks and Recreation, the Director of the Office of Arts and Culture, the General Manager and Chief Executive Officer of City Light, the General

Manager and Chief Executive Officer of Seattle Public Utilities, the Director of the Department of Finance and Administrative Services, the City Librarian, the Chief Technology Officer, and the Director of the Seattle Center Department are authorized to negotiate for and enter into non-public works contracts, within their appropriation authority, to obtain property and services authorized in Section 4 of this ordinance to carry out those capital projects and programs included in the 2024-2029 Adopted CIP and assigned to their respective departments or offices.

Section 5. The Mayor and the City Council find that the General Fund's 2024 contribution to the Park and Recreation Fund exceeds the requirements established in Article XI, Section 3 of the City Charter.

Section 6. Pursuant to the requirements of Ordinance 117216, Ordinance 118814, Ordinance 122293, Ordinance 122859, Ordinance 123459, Ordinance 124057, Ordinance 124640, and Ordinance 125190, the City in subsection 1(b) of this ordinance and Attachment A to this ordinance appropriates to the Firefighters' Pension Fund ("the Fund") \$21,962,930, of which \$20,131,305 comes from General Fund resources. No beneficiary of the Fund has a vested contractual right to the appropriation of the foregoing amount or any amount appropriated by the City to the Fund.

The Mayor and the City Council, under the authority granted by RCW 41.16.060, find that the General Fund's 2024 contribution to the Fund is equal to \$0.067 per \$1,000 of assessed value and provides, in accordance with the 2023 Actuarial Report on the condition of the Fund received from a qualified actuary dated June 14, 2023, together with other amounts appropriated by the City for the Fund, an amount equal to or greater than the estimated demands on the fund for 2024 and maintains the actuarial soundness of the Fund as it prevents recording a positive net pension obligation for the Fund.

The Mayor and the City Council find that the amount appropriated by this ordinance is appropriated for the purpose of keeping the Fund flexible and maintaining its integrity and actuarial soundness. The Mayor and City Council also find that such amount is reasonable for the purposes established in the ordinances listed at the beginning of this Section 6, and that such amount bears a material relation to the successful operation of the

Fund.

Section 7. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 8. This ordinance shall take effect and be in force on January 1, 2024.

Passed by a 2/3 vote of all the members of the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Bruce A. Harrell, Mayor

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Scheereen Dedman, City Clerk

## SUMMARY and FISCAL NOTE\*

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
City Budget Office		Adam Schaefer

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

### 1. BILL SUMMARY

**Legislation Title:** AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2024; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

**Summary and background of the Legislation:** This ordinance adopts The City of Seattle’s 2024 Budget, which includes the 2024-2029 Capital Improvement Program (CIP) and position modifications for fiscal year 2024. This legislation is submitted annually to adopt The City of Seattle’s budget for the next fiscal year.

### 2. CAPITAL IMPROVEMENT PROGRAM

**a. Does this legislation create, fund, or amend a CIP Project?**      Yes    No

Please see the 2024-2029 Proposed/Adopted Capital Improvement Program for project pages and details.

### 3. SUMMARY OF FINANCIAL IMPLICATIONS

**a. Does this legislation amend the Adopted Budget?**      Yes    No

Please see the 2024 Proposed/Adopted Budget for appropriations, revenues, and positions.

**b. Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**  
Please see the Budget, CIP, and report of position modifications for detailed information regarding the financial and long-term implications of this legislation.

**c. Is there financial cost or other impacts of *not* implementing the legislation?**  
RCW 35.32A.050 states that, “Not later than thirty days prior to the beginning of the ensuing fiscal year the City Council shall, by ordinance, adopt the budget submitted by the Mayor as modified by the City Council.” This legislation is the mechanism by which the Seattle City Council adopts the final budget for the City of Seattle.

#### 4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**  
Yes, all City departments are affected by this legislation. All City departments are aware of the nature of the impact.
- b. Is a public hearing required for this legislation?**  
Yes. The City Council’s Budget Committee will hold public hearings on October 18 and November 13, 2023.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
No.
- d. Does this legislation affect a piece of property?**  
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**  
Please see the RSJI summary section for an overview and individual department/program descriptions for detailed description of how the Budget impacts Race and Social Justice Initiative principles.
- f. Climate Change Implications**
- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**  
Individual programs and initiatives are described in detail in the Budget and CIP.
  - 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**  
Individual programs and initiatives are described in detail in the Budget and CIP.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s).**  
New and expanded programs are described in detail in the Budget and CIP.

CITY OF SEATTLE

ORDINANCE \_\_\_\_\_

COUNCIL BILL \_\_\_\_\_

AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2024; and ratifying and confirming certain prior acts.

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. General Municipal and Firefighters' Pension

A. There is levied a tax on all taxable property, both real and personal, within The City of Seattle and subject to taxation under the laws of the State of Washington in the amount of \$1,081,045,375, which is calculated as \$3.60 per \$1,000 of estimated assessed value of all taxable property in the city. This tax is levied for the purpose of raising revenue to finance the various departments and activities of the municipal government of The City of Seattle for the fiscal (calendar) year 2024. The following sentence is provided for information only. This levy has been calculated at the following dollar rates per \$1,000 of assessed value: \$3.375 for general municipal purposes as allowed by RCW 84.52.043 (which includes up to \$0.225 for the Firemen's Pension Fund as allowed by RCW 41.16.060); and \$0.225 for general municipal purposes and the Firemen's Pension Fund as allowed by RCW 41.16.060. This levy includes an amount of \$100,000 or the highest lawful amount as the King County Assessor may certify, whichever is higher, to recover amounts refunded within the preceding 12 months. This levy also includes an amount of \$102,871,387 for transportation purposes in accordance with Ordinance 124796; an amount of \$3,000,000 for election vouchers funding purposes in accordance with Resolution 31601 and Seattle Municipal Code Sections 2.04.600-696; an

amount of \$90,281,763 for education purposes in accordance with Ordinance 125604; an amount of \$31,604,253 for library maintenance and services in accordance with Ordinance 125809; and an amount of \$138,608,596 for low-income housing purposes in accordance with Ordinance 126837.

B. If the total of the amounts of taxes stated in subsection 1.A or the total of the tax rate stated in subsection 1.A would be in excess of any maximum allowed by law, then such taxes shall be reduced to the maximum amount allowed. The maximum amount allowed by law includes the maximum amount of regular property taxes approved by vote of the people of The City of Seattle pursuant to RCW 84.55.050. For purposes of this subsection, the maximum amount of regular property taxes is determined by the King County Assessor as follows. First, the Assessor determines the amount of regular City property taxes that could be levied for collection in 2024 had the voters approved none of the levy lid lift measures submitted pursuant to RCW 84.55.050, Seattle Municipal Code Sections 2.04.600-696, and Ordinances 124796, 125604, 125809, and 126837. This amount is computed by the Assessor by multiplying the amount of general-purpose regular property taxes levied for collection in 2023 by a limit factor. The limit factor is the lesser of 101 percent or 100 percent plus the rate of inflation, unless, pursuant to RCW 84.55.0101, the Council finds that there is a substantial need to use and approves the use of 101 percent as the regular property tax limit factor. Second, the Assessor adds the levy for tax refunds authorized by RCW 84.68.040, RCW 84.69.180, and RCW 84.55.070; plus the allowance authorized by RCW 84.55.010 for new construction, increases in assessed value due to construction of electric generation wind turbine facilities classified as personal property, improvements to property, and any increase in the assessed value of state-assessed property. Then, to that total amount is added the five dollar amounts set forth in the last sentence of subsection 1.A authorized for 2023 collection in the approvals given by the voters of the City pursuant to RCW 84.55.050 and those enumerated ordinances.

Section 2. Voter-approved excess taxes for bonds. In addition, a further tax is levied to raise revenue to provide for the interest on and redemption of voter-approved general obligation bonds for the fiscal year 2024 in the amount of \$16,162,900. This tax is applicable to all taxable property within The City of Seattle.

Section 3. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person, property, or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons, property, or circumstances.

Section 4. Any act pursuant to the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Bruce A. Harrell, Mayor

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

(Seal)

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
CBO	Dave Hennes	Alex Zhang

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2024; and ratifying and confirming certain prior acts.

**Summary and background of the Legislation:** This ordinance imposes the City’s property tax for 2024 to pay for City government activities and for general obligation bond interest and redemption.

RCW 84.55.010 provides that the City may, with a simple majority vote of the Council, levy a property tax increase equal to inflation but not greater than a 1% increase over the prior year’s regular property tax collection. If inflation is lower than 1%, the law requires a majority plus one vote, with a finding of substantial need, to have a tax increase exceed inflation to the maximum of 1%. Inflation is measured by the implicit price deflator for the United States published in September. In most years, the inflation rate will exceed 1%. This year the rate prior to revision is 5.08%. Thus, the attached Bill does not contain, and the Council will not need to make a finding of substantial need with approval by a majority plus one vote to provide for the use of 101% as the regular property tax limit factor. The Council may not increase regular property taxes above 1% without a vote of the people.

Other than the 1% increase in the regular non-voted current expense property tax levy proposed in the attached Bill, the same 1% increase is applied to the Move Seattle Transportation levy lid lift, the Families, Education, Preschool and Promise levy lid lift and the Library Services levy lid lift per the terms of their respective ordinances. All other lid lifts are flat amounts year over year. The current 7-year Housing lid lift (Ord. 125028) expires in 2023. Based on voter approval, the City’s regular levy includes for 2024 collection, the new Housing levy lid lift with a first-year levy amount of \$138,608,596. Altogether, these changes result in an overall increase from 2023 of \$102,661,703, which does not include changes in the excess levy for redemption of general obligation bonds, the “refund fund levy” or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or increases in the value of state-assessed property.

It also does not include levy amounts for the Metropolitan Parks District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose

property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value. The MPD began collecting tax revenues in the 2016 tax collection year.

Additionally, this ordinance includes a levy of \$16,162,900 for interest on and redemption of voter-approved general obligation bonds for the fiscal year 2024, a decrease of \$151,900 from the amount levied for collection in 2023. This amount includes the payment amount against the Seawall bond.

**2. CAPITAL IMPROVEMENT PROGRAM**

**Does this legislation create, fund, or amend a CIP Project?** \_\_\_ Yes **X** No

**3. SUMMARY OF FINANCIAL IMPLICATIONS**

**Does this legislation amend the Adopted Budget?** \_\_\_ Yes **X** No

**Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

Yes. This legislation authorizes collection of the City’s several property tax levies in calendar year 2024. See following sections for more details.

**Is there financial cost or other impacts of *not* implementing the legislation?**

Without this legislation, no **increase** in property tax revenue, other than that resulting from a voted levy lid lift, new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property, may be authorized. The cost of not implementing this legislation is the 1% increase over the 2023 current expense levy, Families, Education, Preschool and Promise levy lid lift, Move Seattle Transportation levy lid lift and Library Services levy lid lift, estimated to be \$3.65 million. If not passed, the County Assessor will levy the same amounts (general expense and levy lid lifts) as levied for the 2023 tax collection year plus any newly voter-approved levy lid lifts, amounts resulting from new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property.

**3.b. Revenues/Reimbursements**

X This legislation adds, changes, or deletes revenues or reimbursements.

**Anticipated Revenue/Reimbursement Resulting from this Legislation:**

<b>Fund Name and Number</b>	<b>Dept</b>	<b>Revenue Source</b>	<b>2023 Revenue</b>	<b>2024 Estimated Revenue</b>
00100 General Fund	General Fund	Property Tax	\$319,388,945	\$320,784,992
10398 Move Seattle Levy Fund	Transportation	Property Tax	\$101,852,858	\$102,871,387
16418/16419 2016 Housing Levy Capital Fund/2016 Levy O&M Fund	Office of Housing	Property Tax	\$41,428,571	\$0
18200 2019 Library Levy Fund	Seattle Public Library	Property Tax	\$31,291,340	\$31,604,253
12300 Election Vouchers Fund	Ethics & Elections Commission	Property Tax	\$3,000,000	\$3,000,000
17871 Families, Education, Preschool and Promise Fund	Dept. of Education & Early Learning	Property Tax	\$89,387,884	\$90,281,763
16XXX 2023 Housing Levy	Office of Housing	Property Tax	\$0	\$138,608,596
20140 UTGO Bond Interest & Redemption Fund	FAS	Property Tax	\$16,314,800	\$16,162,900
<b>TOTAL</b>			<b>\$602,664,398</b>	<b>\$703,313,892</b>

**Is this change one-time or ongoing?**

One-time.

**4. OTHER IMPLICATIONS**

**a. Does this legislation affect any departments besides the originating department?**

See the “Anticipated Revenue” Table above for affected departments.

**b. Is a public hearing required for this legislation?**

Yes. Public hearings will take place on October 18, 2023 and November 13, 2023.

**c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No

**d. Does this legislation affect a piece of property?**

No

**e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in taxes may disproportionately affect low-income individuals.

**f. Climate Change Implications**

**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effects on carbon emissions.

**2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effect.

**g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

N/A

**CITY OF SEATTLE**  
**ORDINANCE** \_\_\_\_\_  
COUNCIL BILL \_\_\_\_\_

AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2024, representing an increase above the regular property taxes levied for collection in 2023; and ratifying and confirming certain prior acts.

WHEREAS, to increase regular property taxes, RCW 84.55.120, as approved by the voters of the State of Washington in "Referendum 47" on November 4, 1997, requires the City to enact a separate ordinance indicating the change in taxes from the previous year in terms of percentage and total amount; and

WHEREAS, The City of Seattle proposes to make its regular property tax levy for collection in 2024 in the amount reflected in the companion ordinance to this bill, which is commonly known as the "Long Property Tax Ordinance"; and

WHEREAS, the Long Property Tax Ordinance for 2024 authorizes an increase above the amount of regular property taxes levied for collection in 2023; and

WHEREAS, pursuant to RCW 84.55.120, after proper notice was given, the City Council held public hearings on October 18, 2023 and November 13, 2023, to consider The City of Seattle's 2024 budget and the regular property tax levy to support it; and

WHEREAS, notice of the City Council's consideration of this ordinance has been provided in the usual manner for other proposed City ordinances; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Regular property taxes for collection in 2024 are authorized in the amount reflected in the ordinance introduced as Council Bill 120693. Not including increases resulting from the addition of new

construction, construction of wind turbine facilities classified as personal property, improvements to property, and any increase in the value of state-assessed property, the regular property tax levy for 2024 collection represents an increase above regular property taxes levied for collection in 2023 (excluding the "refund fund levy" in both instances) of \$102,661,703, which is a 17.32 percent increase. These regular property tax levies for collection in 2023 and 2024 include regular property tax "levy lid lifts" previously approved by the voters of The City of Seattle.

Section 2. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its passage this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved / returned unsigned / vetoed this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_

**SUMMARY and FISCAL NOTE\***

<b>Department:</b>	<b>Dept. Contact:</b>	<b>CBO Contact:</b>
CBO	Dave Hennes	Alex Zhang

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2024, representing an increase above the regular property taxes levied for collection in 2023; and ratifying and confirming certain prior acts.

**Summary and background of the Legislation:** This legislation, commonly known as the “Short Property Tax Ordinance” reflects changes in the regular property taxes in terms of dollars and percentages. It is a companion to the ordinance authorizing Seattle’s property tax levies, commonly known as the “Long Property Tax Ordinance.”

Since the approval of Referendum 47 in November 1997, state law has required that taxing jurisdictions adopt, by a majority of their legislative body, a separate ordinance authorizing regular property tax increases, other than increases due to certain excluded assessed property values identified below. The ordinances must show the authorized increase in terms of both dollars and percentages. Due to the exclusion of increases due to new construction, construction of wind turbine facilities classified as personal property, improvements to property, the value of state-assessed property, and refund adjustments to the levy amount, the actual year-over-year change in the City’s regular levy will differ from the calculated change in this legislation. Seattle’s Long Property Tax legislation, which is the authorizing legislation for the City’s property tax levy, provides a more detailed description of Seattle’s actual property tax levy and revenues.

The City of Seattle’s 2023 levy for collection in 2024 includes a first-year levy amount of \$138,608,596 for the recently approved Housing levy lid lift. The current 2016 Low-Income Housing lid lift expired in 2023. Additionally, due to the 1 percent increase in the regular non-voted property tax levy, the “Move Seattle” Transportation levy lid lift, the Families, Education, Pre-School and Promise lid lift and the Library Services levy lid lift proposed in the attached Bill, the City of Seattle’s 2023 levy for collection in 2024 represents an increase of \$102,661,703 (17.32%) from 2023. As noted above, this does not include the “refund fund levy,” or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or an increase in the value of state-assessed property.

**2. CAPITAL IMPROVEMENT PROGRAM**

**Does this legislation create, fund, or amend a CIP Project?** \_\_\_ Yes **X** No

### 3. SUMMARY OF FINANCIAL IMPLICATIONS

**Does this legislation amend the Adopted Budget?**    \_\_\_ Yes X No

**Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

Please see the Fiscal Note to the 2024 Long Property Tax Ordinance, which authorizes the City’s actual property tax levies.

**Is there financial cost or other impacts of *not* implementing the legislation?**

Please see the Fiscal Note to the 2024 Long Property Tax Ordinance, which authorizes the City’s actual property tax levies.

### 4. OTHER IMPLICATIONS

**a. Does this legislation affect any departments besides the originating department?**  
See the Summary above and the “Anticipated Revenue” table in the companion Fiscal Note for the Long Property Tax Ordinance for affected departments.

**b. Is a public hearing required for this legislation?**  
Yes. Public hearings will take place on October 18, 2023 and November 13, 2023.

**c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
No.

**d. Does this legislation affect a piece of property?**  
No.

**e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in property tax levies may disproportionately affect low-income individuals.

**f. Climate Change Implications**  
**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effects on carbon emissions.

2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effect.

- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s).**

### CITY OF SEATTLE

### RESOLUTION \_\_\_\_\_

A RESOLUTION condemning the Israeli military assault on the people of Gaza; urging an immediate ceasefire, humanitarian aid, an exchange of hostages, and an end to the occupation of Palestinian lands; affirming opposition to Islamophobia and anti-Semitism; and urging the U.S. Congress to end all military funding to Israel.

WHEREAS, the Palestinian people of Gaza are now facing an unimaginable human catastrophe as the Israeli military, the fourth-largest in the world, invades and imposes a brutal blockade on Gaza; and

WHEREAS, as of November 13, 2023, the Israeli military has killed more than 11,100 Gazans, or one out of every 200 residents of Gaza, with most of the victims being women and children, according to the Palestinian Health Ministry, and with more people across Gaza believed to be buried under the rubble, alive or dead; and

WHEREAS, the Associated Press has reported that more than 4,100 of those killed were children, including over 2,000 under the age of 12, and over 600 who were 3 and under; and

WHEREAS, as of November 1, the Israeli military admitted to having dropped 10,000 bombs on Gaza, which averages 72 bombs for every square mile of Gaza, whose entire area is just the size of Seattle, and with *The Wall Street Journal* reporting at least 45 percent of housing units being destroyed or damaged; and

WHEREAS, since October 7, right-wing Israeli settlers supported by the Israeli military have killed at least 197 West Bank Palestinians, including 48 children, and forcibly displacing another 1,100 Palestinians from their homes, as reported by *Al Jazeera* on November 16; and

WHEREAS, the Israeli state is engaging in collective punishment of ordinary Palestinians in the wake of the brutal October 7 attack where Hamas killed 1,200 Israelis, foreigners, and dual nationals, including

children, women, the elderly, and other civilians, as well as Bedouins and other Arab-Israelis, injured another 3,500, and took 242 people as hostages; and

WHEREAS, while the Palestinian people have the right to self-determination, and people living under occupation have the right to resist and to defend themselves with force, attacks on civilians such as Hamas carried out are horrific and do not further the safety or liberation of the Palestinian people, but, instead, undermine it by providing a pretext for disproportionate retaliation by the Israeli state and deepening divisions between ordinary Israelis and Palestinians; and

WHEREAS, on October 9, before the intensified bombing and attacks on Gaza, Israeli Defense Minister Yoav Gallant declared: “I have ordered a complete siege on the Gaza Strip. There will be no electricity, no food, no fuel. Everything is closed. We are fighting human animals, and we will act accordingly”; and

WHEREAS, while Israeli citizens have the right to defend themselves against all forms of violence, the Israeli state’s violent policies of occupation, annexation, and apartheid are root causes of the current crisis. The Israeli government’s response has been completely disproportionate, racist, and dehumanizing of the Palestinian people; and

WHEREAS, Israeli Knesset member Ariel Kallner has called for a second Nakba - “catastrophe” in Arabic - stating, “Right now, one goal: Nakba! A Nakba that will overshadow the Nakba of ’48. Nakba in Gaza and Nakba to anyone who dares to join! Their Nakba, because like then in 1948, the alternative is clear,” and in calling for another Nakba, Kallner and other Israeli leaders are referring to the ethnic cleansing of Palestinian communities in 1948 by militias, resulting in the killing of thousands of Palestinians, the destruction of their villages, and the forcible expulsion of 80 percent of the Palestinian population from their homeland, with many of the descendants of the Nakba living today in Gaza; and

WHEREAS, since the original Nakba in 1948, there has been an expansion into Palestinian lands by the Israeli state, during which time the Israeli state has repeatedly been found by international bodies to have violated the rights of the Palestinian people, including but not limited to United Nations Resolution 242

(1967), United Nations Resolution 446 (1979), and United Nations Resolution 2334 (2016); and

WHEREAS, even while mourning the tragic deaths of Jewish Israelis, many Jewish people and others in Israel and around the world are outraged at the Israeli government’s violent retaliation. For example, Noy Katsman, whose brother Hayim Katsman was a former resident of Seattle who had returned to Israel and was killed by Hamas, told CNN that Israeli military retaliation “never brings us better lives, it just brings us more and more terror”; and

WHEREAS, the political and military support from the U.S., which has reached more than \$158 billion since 1946 according to the Congressional Research Service, along with aid from other Western nations, enables the escalation of violence and the policy of occupation and annexation, undermining the personal security of ordinary people on all sides of the conflict; and

WHEREAS, the U.S. government provides Israel over \$3.8 billion in military aid every year, and Congress is currently considering providing the Israeli government an additional \$14 billion in military aid to increase the violence in Gaza; and

WHEREAS, since October 7, Jewish and Palestinian community members, along with other community members, in growing numbers have joined in peaceful protests by the thousands in Seattle, joining similar and larger protests in cities nationally and worldwide in calling for an immediate ceasefire, humanitarian aid to the people of Gaza, a halt to U.S. military aid to Israel, and an end to the Israeli occupation of and control over Palestinian territories; and

WHEREAS, on November 16, 2023, a broad range of nearly 2,000 Washington State faith leaders and activists, along with elected officials, unveiled a public statement that called for “an immediate ceasefire” and for “an end to the decades-long military occupation”; and

WHEREAS, on October 14, a six-year-old Palestinian-American boy near Chicago, Wadea Al Fayoume, was stabbed to death by his family’s landlord in what is being investigated as an Islamophobic hate crime; and

WHEREAS, Seattle is home to many people whose families have been impacted by this violence, with victims in Israel, Gaza, and the occupied West Bank; and

WHEREAS, a 2021 report by the United Nations Special Rapporteur on Freedom of Religion or Belief found that discrimination and hatred towards Muslims has risen to “epidemic proportions”; and

WHEREAS, the Seattle City Council has long gone on record as opposing both Islamophobia and anti-Semitism; NOW, THEREFORE,

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE THAT:**

Section 1. The Seattle City Council joins with others worldwide in condemning the Israeli military assault on the Palestinian people in Gaza and demanding an immediate ceasefire, humanitarian aid to help the Palestinian people recover, the release of all hostages on both sides, and an end to the Israeli occupation and subjugation of Palestinian lands. The Seattle City Council condemns both the methods of terror used by Hamas and the state terrorism of the Israeli government. The Seattle City Council affirms the right of all people to engage in peaceful protest without threats or intimidation.

Section 2. The Seattle City Council affirms its commitment to combat Islamophobia and anti-Semitism in all their forms. The Seattle City Council affirms its support for the people of both Israel and Palestine to live in peace and security.

Section 3. The Seattle City Council opposes all U.S. military aid to Israel, and believes those billions of dollars in military resources are enabling this war and occupation, and greatly exacerbating the violence in the region. The Seattle City Council urges the U.S. Congress to oppose further funding for the Israeli military and requests that the Office of Intergovernmental Relations convey this position to Seattle’s Congressional delegation.

Adopted by the City Council the \_\_\_\_\_ day of \_\_\_\_\_, 2023, and signed by me in open session in authentication of its adoption this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Filed by me this \_\_\_\_\_ day of \_\_\_\_\_, 2023.

\_\_\_\_\_  
Scheereen Dedman, City Clerk

(Seal)

*\* Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

**1. BILL SUMMARY**

**Legislation Title:**

A RESOLUTION condemning the Israeli military assault on the people of Gaza; urging an immediate ceasefire, humanitarian aid, an exchange of hostages, and an end to the occupation of Palestinian lands; affirming opposition to Islamophobia and anti-Semitism; and urging the U.S. Congress to end all military funding to Israel.

**Summary and Background of the Legislation:**

This is a Council resolution condemning the Israeli military assault on the people of Gaza; urging an immediate ceasefire, humanitarian aid, an exchange of hostages, and an end to the occupation of Palestinian lands; affirming opposition to Islamophobia and anti-Semitism; and urging the U.S. Congress to end all military funding to Israel.

The Palestinian people of Gaza are now facing an unimaginable human catastrophe as the Israeli military, the fourth-largest in the world, invades and imposes a brutal blockade on Gaza. As of November 13, 2023, the Israeli military has killed more than 11,100 Gazans, or one out of every 200 residents of Gaza, with most of the victims being women and children, according to the Palestinian Health Ministry, and with more people across Gaza believed to be buried under the rubble, alive or dead. The Israeli state is engaging in collective punishment of ordinary Palestinians in the wake of the brutal October 7 attack where Hamas killed 1,200 Israelis, foreigners, and dual nationals, including children, women, the elderly, and other civilians, as well as Bedouins and other Arab-Israelis, injured another 3,500, and took 242 people as hostages.

The City of Seattle is home to many people whose families have been impacted by this violence, with victims in Israel, Gaza, and the occupied West Bank. The Seattle City Council has long gone on record as opposing both Islamophobia and anti-Semitism.

**2. CAPITAL IMPROVEMENT PROGRAM**

Does this legislation create, fund, or amend a CIP Project?      \_\_\_ Yes X No

**3. SUMMARY OF FINANCIAL IMPLICATIONS**

Does this legislation amend the Adopted Budget?      \_\_\_ Yes X No

**Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**

No

**Are there financial costs or other impacts of *not* implementing the legislation?**

No

#### **4. OTHER IMPLICATIONS**

**a. Does this legislation affect any departments besides the originating department?**

The resolution requests the Office of Intergovernmental Relations communicate its content to Seattle's Congressional delegation.

**b. Is a public hearing required for this legislation?**

No

**c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No

**d. Does this legislation affect a piece of property?**

No

**e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

This resolution states opposition to the ongoing and violent oppression of Palestinian people.

**f. Climate Change Implications**

**1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

No

**2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No

**g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
